

For SUB-ACUTE and Chronic dermatoses TAR + HYDROCORTISONE

combined in

TARCORTIN CREAM

have pronounced advantages over either medicament alone.

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM

is supplied in 7 grm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

ASTHMA

Rely on Rybar for instant Relief

Ever increasing numbers of medical men are relying on Rybarvin Inhalant to combat broncho-spasm. The Ministry of Health having agreed to the prices of Rybar asthma inhalants, Rybarvin can be freely prescribed.

RYBARVIN brings relief. Consistently, often spectacularly, attacks are cut short and their frequency lessened. Free from excess acid, non-irritant and non-habit-forming, it is an ideal inhalant for all asthmatics, young and old.

Formula

Pituitary Extract. Posterior and Anterior Lobe	0.40% w/v
Methylatropine Nitrate.. .. .	0.14% w/v
Papaverine	0.08% w/v
Adrenaline	0.40% w/v
Ethyl Para-aminobenzoate	0.20% w/v
Iso-butyl Para-aminobenzoate.. .. .	0.01% w/v

RYBAR INHALER has been specially designed for aerosol therapy. Both Rybarvin and the Inhaler may be prescribed on N.H.S. Form E.C.10.

Samples and details of trial outfits forwarded on request.

NEMBUTAL

induction of sleep
one of the many uses
for short-acting NEMBUTAL

If you've ever wondered at the continuing physicians' preference for short-acting NEMBUTAL, measure any other barbiturate against these advantages:—

- Short-acting NEMBUTAL (Pentobarbitone Sodium, B.P.) can produce any desired degree of cerebral depression—from mild sedation to deep hypnosis.
- The dosage required is small — only about half that of many other barbiturates.
- Hence, there's less drug to be inactivated, shorter duration of effect, wider margin of safety and little tendency towards morning-after hangover.
- In equal oral doses, no other barbiturate combines quicker, briefer, more profound effect.

"I'm going to prescribe Lastonet stockings"

And this is how to do it. The words "ELASTIC NET STOCKINGS" *must* be written on the E.C.10 to obtain Lastonet stockings for supply under the Ministry of Health scheme. The quantity required and whether thigh or knee length should also be included. The correct wording is important to ensure Lastonet stockings which are made only to *individual* measure and so ensure a perfect fit.

The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

**Therapeutische Umschau*
VIII, 1952, 10, 143.

Salicylic acid tetrahydrofurfuryl-ester...	14%
Nicotinic acid ethyl-ester.....	2%
Nicotinic acid n-hexyl-ester.....	2%
p-Aminobenzoic acid ethyl-ester.....	2%
Water-miscible cream base ad	100%

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

SMITH & NEPHEW

Armamentarium against tuberculosis

PYCAZIDE is the Smith & Nephew name for isoniazid. **PYCAZIDE** syrup (blackcurrant flavoured) is available to permit greater flexibility of dosage than is possible with **PYCAZIDE** tablets, and is particularly suitable in the treatment of children. One teaspoonful is approximately equivalent to 20 mg. of isoniazid.

P.A.S. and isoniazid are combined in **PYCAMISAN** cachets in five different strengths enabling "made to measure" dosage to be prescribed with the least waste of time and effort. **PYCAMISAN** cachets are practically tasteless and easy to swallow and their use offers distinct advantages in domiciliary treatment of tuberculosis.

'**PARAMISAN SODIUM**' is the sodium salt of P.A.S. (sodium aminosalicylate B.P.). It is recommended in the combined chemotherapy of all the forms of tuberculosis. It is rapidly absorbed, rapidly excreted, and of low toxicity.

The cachet form of '**PARAMISAN SODIUM**' ('**PASHETS**') makes oral dosage possible without any unpleasant taste in the mouth. Twelve cachets provide a day's requirements of the drug. '**PARAMISAN SODIUM**' is also available in tablet form and in ampoules for local or intrathecal injection.

Wherever P.A.S. is indicated **THERAPAS** (calcium 4-benzamido-salicylate) may be used. It is better tolerated by the patient and has a slightly sweet, not unpleasant taste. **THERAPAS** is as effective as P.A.S. in delaying the emergence of streptomycin resistance. Its value in the treatment of genito-urinary tuberculosis is well established.

THERAZID is a convenient combination of 'Therapas' and 'Pycazide'. For domiciliary treatment in particular **THERAZID** is the drug of choice. Patients complaining of gastro-intestinal upset and monotony of dosage of P.A.S. and isoniazid therapy will be happier and more co-operative on **THERAZID**. Available as powder or cachets.

As an alternative to isoniazid **NUPASAL-213** (o-hydroxybenzal isonicotinyl hydrazone) may be used in cases which have already exhibited toxicity to isoniazid, for the toxicity of **NUPASAL-213** is virtually nil.

Dosages and presentations of any or all of these drugs will gladly be sent on request as space does not permit those details to be given in this advertisement.

SMITH & NEPHEW LTD · WELWYN GARDEN CITY · HERTS

*what's the use of temptation
if you don't succumb to it?*

For the between-meal nibbler every toothsome morsel is an irresistible temptation. 'Conveyer belt feeding' becomes a habit that punctuates his day with an endless series of 'little somethings'—most of them starchy and all of them fattening. With each surrender to temptation his girth grows greater and his will to resist is less.

'Dexedrine Spansule' capsules put temptation behind him by controlling his appetite all day long—*between meals as well as at mealtimes*. The single morning oral dose is easily remembered: between-meal snacks vanish as eating habits change, and *effective* weight reduction can begin.

DEXEDRINE SPANSULE

The plastic material consists of a micro-porous extensible filter, air-permeable yet waterproof.

The pad stretches with the plastic material.

A waterproof, non-occlusive, second to first aid dressing that prevents maceration

Elastoplast 'Airstrip' is made from a specially developed plastic material, through which sweat and skin exudates evaporate at the same rate as they develop on the skin. The material is a micro-porous extensible filter, and is not perforated. It provides a barrier to water, grease, oil and infective organisms. Even after long application, Elastoplast 'Airstrip' does not cause maceration. The adhesive is specially spread in a lattice pattern so that micro-porosity is retained and firm adhesion not impaired. The surface of the wound and the surrounding skin remain dry beneath an 'Airstrip' dressing, which can be left on until the wound heals.

PROFESSIONAL SAMPLE OFFER. So that you may be able to observe the advantages of Elastoplast 'Airstrip' in clinical practice, we shall be happy to send a professional sample pack on request. Ask for pack CA/1

counting the cost...of living

It is estimated that over 50 per cent of the average practitioner's patients show some degree of anxiety neurosis. Such is the price exacted by the tempo of today. In this type of case MILTOWN meprobamate has far-reaching applications. MILTOWN is superior to other conventional sedatives and is remarkably free from side reactions. It acts safely and selectively to ease emotional and muscular tension without autonomic effects. MILTOWN helps to 'unwind' the patient relieving his worry, agitation and anxiety. It induces true sedation by day and natural sleep without narcosis at night.

Beats the lot

'CORTISPORIN'

*kills the bacteria of
surface infections*

This new ointment contains bacitracin, neomycin and polymyxin B sulphate. It has a wider range of activity than any single antibiotic, destroying gram-positive and gram-negative organisms, including *Ps. pyocyanea*, *proteus* and staphylococci. Bacterial resistance or skin sensitisation are unlikely with 'Cortisporin'; nor does it induce cross-resistance or cross-sensitisation to penicillin or other antibiotics. It often succeeds where other antibiotics fail. 'Cortisporin', by virtue of its other constituent, hydrocortisone, also reduces inflammation.

For further information please apply to BURROUGHS WELLCOME & CO., The Wellcome Building, Euston Road, London, N.W.1.

Aspirin intolerance in rheumatoid arthritis

BUFFERIN—the new, better-tolerated analgesic

Most successful answer yet discovered The latest report by the Joint Council Committee of the Medical Research Council and the Nuffield Foundation (on clinical trials of cortisone, ACTH, and other therapeutic measures in chronic rheumatic diseases) confirms the findings of the previous year. "At the end of two years, therefore, as previously reported at the end of one year, it appears that for practical purposes there is remarkably little to choose between cortisone and aspirin in the management of this group of patients." (British Medical Journal, 1955, 2, 695.)

As aspirin is a far cheaper and less dangerous therapeutic agent it is obvious why practitioners prefer it to cortisone. But there is still the problem of aspirin intolerance which affects as many as 42 % of arthritic patients. And Bufferin, the new analgesic which reduces gastric upset to a negligible minimum, is certainly the most successful answer yet discovered. (J.A.M.A., June 4, 1955, p. 387.)

Far better tolerated—even by arthritics Bufferin combines acetylsalicylic acid with the antacids aluminium glycinate and magnesium carbonate (gentle antacid agents which do not produce "acid rebound"), and is well tolerated—even by arthritics. In blind trials amongst arthritics with proven intolerance to ordinary aspirin, 70 % had no gastric symptoms after taking large doses of Bufferin over periods of 4 to 16 months. (J.A.M.A., June 4, 1955, p. 387.)

Acts twice as quickly as aspirin Not only is Bufferin better tolerated by the stomach than ordinary aspirin, but its pain relieving ingredient is absorbed twice as quickly into the blood-stream. Trials show that on an average the 10-minute salicylate level after taking Bufferin was more than 20 % higher than the 20-minute level after taking ordinary aspirin. (J. Amer. Pharm. Assoc. 1950, 39:21.)

**BUFFERIN HAS NO EQUIVALENT IN THE B.P. OR NATIONAL FORMULARY.
THIS FULLY JUSTIFIES THE PRESCRIPTION OF BUFFERIN ON E.C.10**

A detailed, fully documented leaflet and sample are available on request to the makers, Bristol-Myers Co. Ltd., Dept. B, 211 Blackfriars Road, London, S.E.1.

Clinically proven

S P A R I N E

(PROMAZINE HYDROCHLORIDE)

the *new*
phenothiazine derivative

Sparine has already brought decisive and dramatically effective relief to many hundreds of patients. It calms the troubled seas of the mind. Most of the published clinical reports are concerned primarily with its use in the management of psychiatric conditions. But evidence is accumulating rapidly in support of the many other indications for this drug in everyday medical practice.

Sparine not only controls psychomotor overactivity: it is also synergistic with analgesics, hypnotics and anaesthetics, and is a potent anti-emetic. Little wonder, therefore, that the predictions of the pharmacologists have been amply justified by the successes of Sparine treatment in such diverse conditions as terminal carcinoma and nausea of pregnancy. Full details of indications and dosage will be supplied on request.

CARNATION MILK for Infant Feeding

The advantages of Homogenisation

1. Breast Milk

2. Carnation Milk diluted to
whole milk standard

3. Cows' Milk

The reduced reproductions of photo-micrographs above (originally magnified 560 times) show a direct comparison between the fat globule size and distribution in breast milk, Carnation Milk and cows' milk. It will be seen that the homogenisation process given Carnation Milk breaks down the large globules of ordinary cows' milk and distributes them evenly.

The fat globules of ordinary cows' milk average 5 microns. Carnation globules after homogenisation average 1 micron, and this reduction in size increases the total number of fat globules by a minimum of 125 times. As only the total surface area of the globules has been increased and not the mass, the attraction between fat and serum exceeds gravitational force and a permanent emulsion is formed. Butterfat, therefore, cannot separate out.

The advantages of homogenisation when prescribing Carnation Milk are:

- 1 Fat globule surface area available for enzymic action is increased as much as five times over that of ordinary milks.
- 2 Complete digestion of the butterfat is practically assured and the irritating effect of free fatty acids, so troublesome with ordinary milk, is eliminated.
- 3 Miscibility of the fat in Carnation Milk with
 - a Water during feed preparation and without subsequent fat separation.
 - b The contents of the upper digestive tract.
- 4 Reduction below full-cream value removes proportionately the important nutrients carried by butterfat. These are the vitamins A, E and K—the phospholipids and sterols of whole milk. Homogenisation renders a full-cream

milk superior for all infant feeding.

5 Feeding bottles are easily cleaned by even inexperienced mothers. The risk of bacteria entrapped in a fat film is eliminated.

6 The adaptability of Carnation because of homogenisation permits the use of one simple milk for ALL infant feeding, with the exception of specific intolerances to milk solids other than whey proteins.

Other attributes of Carnation Milk are:

- 1 Safety, because of sterilisation after the Carnation cans are sealed.
- 2 Hypo-allergenic properties.
- 3 Uniformity—due to standardisation of solids.
- 4 Prophylactic D₃.
- 5 Accuracy of measurement.

"The Feeding of Infants"—a book specially prepared for doctors—together with reprints of clinical investigations and Carnation feeding charts are available from: Medical Department, General Milk Products Limited, Bush House, Aldwych, London, W.C.2.

Carnation Milk "from contented cows"

dispelling the element of doubt

TODAY—with so many antibiotics available—it is always sound practice to specify ACHROMYCIN *by name* whenever true broad-spectrum activity is desired. In this way you are completely assured that the patient receives precisely the treatment you intend. Offered now in no less than fourteen presentations, ACHROMYCIN tetracycline is particularly widely used in capsule form. On every capsule appears the name Lederle—your finest assurance of consistent antibiotic potency and unfailing dependability.

EAR WAX *Removed this easy way*

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.):—*p*-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; Ol. Terebinth B.P., 15 c.c.

IN THE MENOPAUSE

One bottle of 60 TACE capsules (2 capsules a day) can relieve
many of your menopausal patients.

Some may require a second course, but few will need a third.

The introduction of TACE marks the beginning of a new era in the treatment of menopausal symptoms. TACE is stored in the body fat and subsequently released in a manner resembling normal hormone secretion. There is virtually no withdrawal bleeding (in four investigations ^{1, 2, 3, 4} there were only 7 cases of withdrawal bleeding in 257 patients) and TACE is also extremely well tolerated in other respects.

Because of fat storage the action of TACE is prolonged. In 13 out of 16 patients beneficial effects remained up to 4 months after therapy had been discontinued.¹

TACE is indicated in other cases which require oestrogen therapy—for example in the inhibition of lactation and the treatment of prostatic carcinoma.

TACE

is available in green capsules (each containing 12 mg. chlorotrianisene dissolved in oil) in bottles of 60 and 300.

ROCHE PRODUCTS LIMITED • 15 MANCHESTER SQUARE • LONDON W1

'Dettol' is active...

REGD.

against both Gram-positive and
Gram-negative micro-organisms.

Under standard conditions of test a dilution of
1 in 200 kills Staph. aureus in 10 minutes;
a 1 in 500 dilution kills Strep. pyogenes
in 10 minutes, and a 1 in 250 dilution kills Bact.
coli. in 10 minutes.

'Dettol' retains a high degree of efficiency in the presence
of organic matter.

'Dettol' is not incompatible with soap, traces of which
need not be removed before application.

'Dettol' is non-poisonous and non-staining.

'Dettol' is well tolerated by the skin and tissues.

INSTRUMENT 'DETTOL'

Instrument Dettol is widely used as a most effective and practical means of disinfecting surgical instruments—steel, stainless steel and plated, as well as glassware, rubber appliances and nylon sutures.

SURGICAL 'DETTOL'

Surgical Dettol is a specially formulated tincture for the surgical preparation

of the skin. It remains actively bactericidal for a considerable period after drying. It dries quickly and leaves a non-slippery surface. Bactericidal action is not adversely affected by the use of ordinary soap solutions. Surgical Dettol in clinical use has proved non-toxic and non-irritant when used in accordance with the directions.

In Barbiturate Poisoning and Anaesthesia

"Whatever its mode of action,
there is no doubt that bemegride
is a valuable advance in the
treatment of barbiturate coma."
Lancet Editorial ii (1956) 980

In Barbiturate Poisoning

MEGIMIDE brand of bemegride is the safe stimulant with remarkable properties in counteracting the central nervous depression of barbiturates, and the risk of serious complication is much diminished. It is now abundantly clear from clinical evidence that MEGIMIDE is wholly effective *when used alone* in the treatment of barbiturate poisoning, and that it need not, as hitherto recommended, be used conjointly with DAPTAZOLE as an extra stimulant—this greatly simplifies the technique of treatment.

In Barbiturate Anaesthesia

After short surgical procedures with thiopentone sodium as the sole anaesthetic agent, MEGIMIDE reverses its depressant action on the respiratory centre and dramatically shortens post-anaesthetic sleep. It is thus valuable in post-operative nursing in a busy surgical ward, and is specially recommended for casualty, out-patient procedures and dental surgery.

Introducing

**Penicillin V
tablets**

'PENAVALON' V is the I.C.I. trade name for penicillin V, now rapidly becoming established in the field of oral penicillin therapy.

This acid stable form of penicillin is rapidly and efficiently absorbed, giving consistent and reliable blood levels. In these respects it is superior to other oral penicillin preparations, and may be relied upon to replace treatment by injection in a large number of cases.

'Penavlon' V is presented as bisected tablets of the calcium salt of penicillin V, in a strength containing the equivalent of 120 mg. free acid. Packs of 15, 100 and 500.

Vitamins in prenatal life

Vitamins are essential for the normal development of the embryo. Severe vitamin deficiencies during pregnancy, apart from their ill-effects on the mother, lead to death or malformation of the foetus. It is known from animal experiments that a shortage of certain B vitamins causes deformities in the foetus. Although these results may not apply in detail to humans, adequate nutrition during pregnancy has long been considered to be of supreme importance.

Marmite is a useful source of every known factor of the vitamin B complex and is widely recommended to expectant mothers. Its appetising flavour ensures easy administration; it may be given as a drink made with boiling water or hot milk, or in sandwiches, or used in cooking.

MARMITE yeast extract

Riboflavin (vitamin B₂) 1.5 mg. per oz. Niacin (nicotinic acid) 16.5 mg. per oz.

The original easy-to-take,
two-in-one tablet

for the prompt and prolonged
relief of **ASTHMA**

ISO-BRONCHISAN was first produced in 1953 and offers a fresh approach to the problem of effective asthma control. The tablets, which are pleasant to take, have a coating containing easily dissolved Isopropyl-Nor-Adrenaline, a most potent bronchodilator, which, when absorbed by the sublingual route, produces the prompt relief of bronchospasm. The rest of the tablet, when swallowed, releases Ephedrine and Theophylline in balanced proportions and these, slowly absorbed along the alimentary tract, ensure long sustained antispasmodic action on the bronchial smooth muscle.

ISO-BRONCHISAN

Prescribable on Form E.C.10.

Each tablet contains Isopropyl-Nor-Adrenaline (Isoprenaline) sulphate gr. 1/4; Ephedrine hydrochlor. gr. 2/5; Theophylline gr. 2. In tubes of 20 tablets and bottles of 100 tablets. Tablets containing smaller quantities of the effective ingredients are now available for use in Paediatrics.

Samples and literature available on request.

ADRENOXYL

Reduces the mean bleeding-time

Adrenoxyl reduces the mean bleeding-time by decreasing the permeability and increasing the contractility and resistance of the capillary wall.

A dry field at operation

Adrenoxyl has been successful in diminishing capillary bleeding in a wide range of surgical operations. It has proved particularly useful in ear, nose and throat, ophthalmic and plastic surgery. In plastic surgery of the face it has been reported that, post-operatively, there is less swelling and bruising when Adrenoxyl has been used.

No side effects

Adrenoxyl does not have any side effects or contraindications. It does not affect blood coagulation, blood pressure or pulse rate and does not possess any sympathomimetic properties.

In medical conditions

Adrenoxyl has been used with success in those medical conditions associated with capillary fragility.

In the British Medical Journal (April 21st, 1956) a correspondent confirmed the value of Adrenoxyl in providing a dry field for the surgeon and in shortening the duration of the operation.

Packs

Ampoules: Boxes of 6 and boxes of 50.
Each ampoule contains 0.75 mg. of adrenochrome monosemicarbazone dihydrate.

Tablets: Tubes of 25 and bottles of 500.
Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate.

The best results are obtained when both tablets and ampoules are used.

Rubriment relieves pain in such conditions as muscular rheumatism, fibrositis, strains and sprains.

Some minutes after application the skin becomes flushed and there is a comforting feeling of warmth which persists for many hours.

RUBRIMENT

A new long-acting rubefacient—safe and effective

Rubriment is a product of original research.

For some years it has been known that some chemicals when applied to the skin produce redness and warmth. Rubriment is based on a new substance, the benzyl ester of nicotinic acid, which has been demonstrated to give a long-lasting rubefacient effect without any damage or irritation to the skin even after prolonged and repeated application.

Ten minutes after application of Rubriment there is a comforting feeling of warmth and the area is seen to be

flushed. This redness is due to the dilatation of the small cutaneous blood-vessels. This persists, without danger of irritation to the skin. Clinical reports have been received of the efficacy of Rubriment for the relief of pain in such conditions as muscular rheumatism, lumbago, fibrositis, strains and sprains. The immediate and prolonged vasodilatory action of Rubriment also provides effective relief for unbroken chilblains.

Whenever counter-irritation is indicated, Rubriment is the preparation of choice for the patient.

Available in two forms

Rubriment (2.5% nicotinic acid benzyl ester and 0.1% Capsicin) is available either as a cream or as a liniment, both of which are non-greasy. The cream is rapidly absorbed and needs only gentle

application. It is supplied in tubes of 20 g. (Approx.). **BASIC PRICE to N.H.S., 2/2d.** The liniment lends itself to massage, if this is required. It is supplied in bottles of 2 fl. ozs. (approx.). **BASIC PRICE to N.H.S., 3/-.**

Directions for use Apply Rubriment to the affected area. As Rubriment causes a stinging sensation in contact with the eyes and face, the hands should be well washed after use.

One application per day has been found to be effective for

the majority of patients, though a fresh application may be made, if necessary, at more frequent intervals.

Rubriment is not advertised to the public and can be prescribed on form E.C.10.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners:** £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners:** £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

ASSISTANT MEDICAL OFFICER

in the Neath and District Health Division. Salary scale: £1,050 to £1,475 per annum. Application forms and particulars from County Medical Officer, County Hall, Cardiff.—Richard John, Clerk of the County Council. (4218)

MID-WARWICKSHIRE JOINT SANITARY COMMITTEE AND WARWICKSHIRE COUNTY COUNCIL**DEPUTY MEDICAL OFFICER OF HEALTH AND ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH**

Applications are invited from duly qualified medical practitioners for the post of Deputy Medical Officer of Health to the Mid-Warwickshire Joint Sanitary Committee and Assistant County Medical Officer of Health to the Warwickshire County Council, which posts together constitute a whole-time appointment, the time being allocated equally between the Mid-Warwickshire Joint Sanitary Committee and the County Council. The officer appointed must hold the Diploma in Public Health. The inclusive salary will be at the rate of £1,412 18s. 4d. per annum, rising to a maximum of £1,813 10s. 10d. per annum by the following annual increments: three of £58 15s., one of £61 17s. 6d., one of £59 7s. 6d., and three of £34 7s. 6d., for convenience the increments of the two appointments have been added together. In addition, travelling and subsistence allowances will be payable in accordance with the scales adopted by the County Council. The appointment will be made by the Mid-Warwickshire Joint Sanitary Committee, and the successful applicant will subsequently be appointed by the Warwickshire County Council as an Assistant County Medical Officer of Health for the administrative County of Warwick with duties in connection with the health and school medical services of the County Council. The Joint Sanitary Committee is comprised of the following local authorities—the Boroughs of Royal Leamington Spa and Warwick, the Urban District of Kenilworth, the Rural Districts of Southam and Warwick. The appointment of Deputy Medical Officer of Health to the Joint Sanitary Committee is subject to the Sanitary Officers (Outside London) Regulations, 1935 and 1951. Temporary accommodation in a council house in Leamington Spa is available to the successful applicant for a reasonable period to give him the opportunity of securing alternative accommodation. Conditions of appointment may be obtained from the undersigned, by whom applications must be received not later than March 30, 1957.—T. W. H. Watkins, Clerk of the Mid-Warwickshire Joint Sanitary Committee, 23, Waterloo Place, Leamington Spa. (4236)

COUNTY BOROUGH OF SOUTH SHIELDS**ASSISTANT MEDICAL OFFICER**

D.C.H. or D.P.H. an advantage. Salary, travelling and subsistence allowances on national scale. Additional £200 per annum paid for occasional duties during the absence of the Medical Officer of Health for Halesowen and Stourbridge Boroughs and Medical Superintendent of the Hayley Green Isolation Hospital. Application forms from County Medical Officer, County Buildings, Worcester. (S.18) (9957)

GOVERNMENTAL**MINISTRY OF LABOUR AND NATIONAL SERVICE****Medical Boards and Disablement Advisory Committees**

From time to time vacancies occur in the panels of medical practitioners who are prepared to serve, as required, as members of National Service Medical Boards. Such Boards meet at intervals according to the requirements of the area, and payment is on a sessional basis. A general practitioner wishing to be considered for any vacancy which might arise in the panel of the Medical Board nearest to the district in which he resides should make his wish known to the appropriate Local Medical Committee or to the Secretary, Ministry of Labour and National Service, Baynards House, 1-13, Chepstow Place, Westbourne Grove, London, W.2.

Occasional vacancies also occur in the membership of that Department's Disablement Advisory Committees and their Panels. Membership of a Disablement Advisory Committee is unpaid but service on Panels is remunerated on a sessional basis. A general practitioner wishing to be considered for such appointments should similarly apply to his Local Medical Committee or the Secretary, Ministry of Labour and National Service, 32, St. James's Square, S.W.1, though there is a waiting list at present for the London area. (4179)

INDUSTRIAL APPOINTMENTS**FACTORY DOCTORS****FACTORIES ACTS, 1937 and 1948**

The following appointment as Appointed Factory Doctor is vacant: Frickheim, in the County of Angus. Applications, which should be received not later than March 23, 1957, should be sent to Chief Inspector of Factories, 8, St. James's Square, London, S.W.1. (4312)

Applications should be sent to the Director of Laboratories, New Mount Sinai Hospital, 550, University Ave., Toronto, 2, Ontario, Canada. (4261)

OPPORTUNITY FOR PSYCHIATRIC RESI-dency training for a limited number of Physicians starting immediately, or July, 1957. Accredited for two years' training. Salary range \$400-\$450-\$500 a month. For further information contact Jack A. Wolford, M.D., Superintendent, Hastings State Hospital, Ingleside, Nebraska.

UNIVERSITY COLLEGE HOSPITAL, Ibadan, Nigeria
Children's Department**SENIOR REGISTRAR (1 of 2)**

The Board of Management invited application from medical practitioners with the requisite post-graduate experience and qualifications for the above post in the almost completed teaching hospital. The salary offered for the post is: £1,428 per annum, rising by three annual increments to £1,596 per annum, plus an inducement addition payable to an expatriate doctor of £300 per annum. Successful candidates will be asked to assume duty about June, 1957, when it is expected that the department will be established in the new Teaching Hospital. The appointment will be initially for one tour of 12 months, and will be renewable, by mutual agreement, for a further tour of 12 months. On satisfactory completion of the agreement a gratuity of £37 10s. will be paid for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 8 1/3% of salary, excluding inducement allowance, and the officer appointed will be eligible for 7 days' leave on full pay for each completed month of service in Nigeria. Free first-class passages are provided for expatriate doctors and their wives on first appointment and on completion of their agreement. Free first-class passages to Nigeria will, in certain circumstances, be provided for non-expatriate doctors. Free first-class passages will be provided on vacation leave. Successful candidates will be eligible for children's allowance in accordance with current regulations. Arrangements can be made to enable doctors to continue their National Health Service Superannuation Scheme contributions, and details of the revised salary and gratuity in such cases will accompany application forms. Applications should be submitted not later than March 23, 1957, on the appropriate forms, which will be forwarded, together with additional information, on receipt of an addressed foolscap envelope by the Adviser on Staff Recruitment, London Office, University College Hospital, Ibadan, 57, Catherine Place, Palace Street, London, S.W.1. (4347)

Oversea (Vacant)—contd.**PROVINCIAL ADMINISTRATION OF THE
CAPE OF GOOD HOPE**

University of Cape Town: Joint Medical Staff for
Groote Schuur and other Teaching Hospitals

VACANCIES:

Applications are invited from registered medical practitioners for appointment to the following vacant posts at the Groote Schuur Hospital, Observatory, Cape Town:

Department of Radio-diagnosis

(a) **MEDICAL PRACTITIONER, Grade F**
with salary at the rate of £1,980 per annum (fixed); and

(b) **MEDICAL PRACTITIONER, Grade C**
with salary at the rate of £1,380 per annum (fixed).

In addition to the basic salary, a non-pensionable cost of living allowance at rates prescribed from time to time by the Administrator (at present amounting to £234 per annum) is payable to certain whole-time married officials and employees. The conditions of service are governed by the relevant Ordinances and Regulations as well as the agreement entered into between the Cape Provincial Administration and the University of Cape Town. The Joint Medical Staff is required to serve jointly the Provincial Administration and the University of Cape Town. Qualifications:—Grade F: the successful candidate must be a registered Specialist in Radio-diagnosis, or must be in possession of an appropriate postgraduate diploma or degree. Grade C: The successful candidate must have not less than five years' experience after graduation or four years' experience after registration, of which not less than three years shall have been spent in training as a Specialist in Radio-diagnosis. Candidates are requested to state whether they will be prepared to accept an appointment at a lower grade if not successful in obtaining appointment to the post applied for, and to furnish particulars in regard to the following: (i) Academic achievements (degrees and diplomas held and the standard of achievement in professional examinations; scholarships and special awards); (ii) Professional experience (not only a statement of employer, but the institution in which the individual worked and the type of work undertaken); (iii) Names of three referees (one of these should preferably be someone occupied in the same branch of medicine as the candidate), or to approach their referees to submit confidential reports to the Director of Hospital Services, P.O. Box 2060, Cape Town, before the closing date for the receipt of applications. Application must be made in duplicate on the prescribed form, Staff 23, which, together with details as regards conditions of service and transport facilities, is obtainable from the Staff Clerk, Room 309, South Africa House, Trafalgar Square, London, W.C.2. The completed application forms must be addressed to the Director of Hospital Services, P.O. Box 2060, Cape Town, South Africa, and must reach him not later than April 5, 1957. Candidates must state the earliest date on which they can assume duty. (4104)

UNITED HOSPITAL, PORT CHESTER, NEW YORK, U.S.A., 290-bed, fully approved general hospital, offers one year **Rotating Internship** to graduates of approved medical schools, period beginning July 1, 1957. Stipend \$200 monthly, plus room and uniforms, meals may be purchased at a nominal fee in the hospital cafeteria. Address application to Administrator, United Hospital, 406, Boston Post Road, Port Chester, New York, U.S.A. (4262)

**UNIVERSITY OF SASKATCHEWAN
Department of Anaesthesia—University Hospital****CLINICAL AND RESEARCH FELLOW
(non-resident)**

Applications are invited from qualified medical practitioners for the above post. Duties will include administration of anaesthetics and assisting the staff with teaching of students and house staff, as well as with research projects. The Department is fully approved by all examining specialty bodies in Canada, the U.K. and the United States. Completion of training is a prerequisite and preference will be given to holders of the F.F.A.R.C.S. or equivalent qualifications such as American Boards. Appointment is to start on July 1, 1957, and will be tenable for one year. Remuneration Can. \$5,000 per annum. Applications, including recent photograph, curriculum vitae, and three references, should be addressed to Gordon M. Wyant, F.F.A.R.C.S., Professor of Anaesthesia, University of Saskatchewan, Saskatoon, Canada. (9961)

WANTED, FOR THE GENERAL HOSPITAL, ST. THOMAS, ONTARIO, CANADA, INTERNS. Salary \$150.00 monthly, with full maintenance and laundry. The Hospital Board will provide passage to Canada. This passage money will be deducted over a twelve month period from pay, but one-half will be refunded on completion of one year's service. The Hospital has 285 beds and 61 bassinets, opened in May, 1954, and fully accredited. A rotation system is provided. (4200)

**UNIVERSITY COLLEGE HOSPITAL OF THE
WEST INDIES****Applications are invited for two posts of
REGISTRAR OR SENIOR REGISTRAR
IN MEDICINE**

at this teaching hospital, which is in special relationship with the University of London. The successful candidates will be required to commence duties in May and October, 1957. One of the appointments is for eighteen months and the other for one year, and the salaries will be within the scales £900 by £100 to £1,100: £1,200 by £100 to £1,500 per annum, depending on previous experience and qualifications. If available, an unfurnished flat will be provided at a rental of 5% of salary, otherwise a living-out allowance of up to £200 per annum for a married person, £150 for a single person, will be granted. Return passages from and to the country of recruitment are provided for the appointee but not for wife and family. Further information may be obtained from the Hospital Manager and Secretary, University College Hospital of the West Indies, Mona P.O., Jamaica, B.W.I., to whom applications, stating age, nationality, qualifications and experience, together with the names and addresses of three referees, should be sent not later than March 22, 1957. (9960)

**UNIVERSITY COLLEGE OF THE WEST
INDIES****Applications are invited for**

ST. ANDREW'S HOSPITAL, NORTHAMPTON
for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt. Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: Insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath, Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department for Diathermy and High-frequency treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 5354 (3 lines)), who can be seen in London by appointment.
