

For SUB-ACUTE and Chronic dermatoses

TAR + HYDROCORTISONE

combined in

TARCORTIN CREAM

have pronounced advantages over either medicament alone.

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM

is supplied in 7 grm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

Practical Books for the Practising Physician

A.M.A. Scientific Exhibits 1956

Sponsored by Council on Scientific Assembly,
American Medical Association

UNTIL LAST YEAR, the A.M.A. Scientific Exhibits could be seen only in *one* place and only at a *designated* time. When the A.M.A. Meeting was over, the exhibits were dismantled, many of them never to appear again. The physician who missed the Meeting was deprived of "*the best postgraduate medical course in the world.*" Then Grune & Stratton published A.M.A. SCIENTIFIC EXHIBITS, 1955—a faithful reproduction of the *award-winning* Exhibits, supplemented by others outstanding for their *clinical* and *research* value. The response to this new kind of medical volume was overwhelming, inducing us to continue the project . . . and now the 1956 Volume is ready. (416 pp., thousands of illus., 70s.) NOTE: Special Combination offer, 1955 and 1956 volumes, 175s. for both.

Synopsis of Gastroenterology Rudolf Schindler, M.D.

THE LONG-FELT NEED FOR A *concise, to-the-point* and *practical* guide to *diagnosis* and *management* of disorders of the G-I tract is now fulfilled in this new manual. By use of the unusually detailed index, the reader is able to find, *in a matter of seconds*, all necessary information on *management*, *diet*, *medication* and *physiotherapy* for any individual patient. The author's wide experience as a pioneer in the use of endoscopy in clinical medicine is of exceptional value in the section giving the procedures for *proctoscopy*, *esophagoscopy*, *gastrosocopy*, and *peritoneoscopy* which have proved best and safest in Dr. Schindler's many thousands of examinations. (384 pp., 55s.)

GRUNE & STRATTON, INC., Medical Publishers
99 Great Russell Street, London, W.C.1

The Climacteric

The association of methyltestosterone and ethinylœstradiol in Mepilin produces a more complete response in the treatment of menopausal disorders than can be obtained by the use of oestrogens alone. An increased feeling of confidence and well-being is produced

"... a mixture of the male and female hormones was more efficacious than oestrogen alone."

Brit. Med. Journ. 1953 (July 25), 2, 214

which is both mental and physical.

The presence of methyltestosterone enables a reduction in oestrogen dosage to be made; thus undesirable side effects such as breast turgidity and pelvic congestion are avoided and the risk of withdrawal bleeding is reduced.

Rubriment relieves pain in such conditions as muscular rheumatism, fibrositis, strains and sprains.

Some minutes after application the rubefacient action is apparent and lasts for many hours.

About Rubriment

the new long-acting rubefacient

Rubriment contains a new substance—the benzyl ester of nicotinic acid—which gives a long-lasting rubefacient effect. Pharmacological experiments have shown that even after prolonged and repeated application no damage or irritation to the skin was produced. Ten minutes after applying Rubriment there is a comforting feeling of warmth which lasts for many hours.

Clinical reports have been received of the efficiency of Rubriment for the relief of pain in such conditions as muscular rheumatism, lumbago, fibrositis, strains and sprains.

Rubriment may be used to give effective relief for unbroken chilblains.

Available in two forms

Rubriment (2.5% nicotinic acid benzyl ester and 0.1% Capsicin) is available either as a cream or as a liniment, both of which are non-greasy and free from unpleasant odour.

The cream is rapidly absorbed and needs only gentle application. *It is supplied in tubes of 20 G. (approx.).* Basic price to N.H.S. 2/2d.

The liniment lends itself to massage, if this is required. It is supplied in bottles of 2 fl. ozs. (approx.). Basic price to N.H.S. 3/-.

Rubriment is not advertised to the public and can be prescribed on form E.C.10.

GLAXO LABORATORIES LTD., GREENFORD, MIDDLESEX BYRON 3434

Instilled intranasally, 'Sulfex' deposits a fine, even frosting of microcrystalline sulphathiazole throughout the nasopharyngeal cavity. Unlike solutions, this bacteriostatic coating is not quickly washed away: it clings for hours to the inflamed mucosa wherever ciliary action is impaired by infection. Bacteria in the post-nasal drip are inhibited before they can reach the nasopharynx to intensify the infection.

Part of the suspension drifts down over the nasopharynx and pharynx, producing potent, long-lasting bacteriostasis just where it is needed most — at the site of infection in the throat.

Sulfex a suspension of microcrystalline sulphathiazole
highly effective in sore throat

PENTOXYLON

COMPREHENSIVE THERAPY FOR ANGINA PECTORIS

- Prevents coronary spasm
- Averts attacks
- Dispels fear

PENTOXYLON

- * *reduces nitro-glycerin requirements.*
- * *reduces severity of attacks.*
- * *reduces incidence of attacks.*
- * *reduces tachycardia.*
- * *reduces anxiety, allays apprehension.*
- * *reduces blood-pressure in hypertension.*
- * *increases exercise tolerance.*
- * *produces objective improvement demonstrable by electro-cardiograph.*

It is recognised that complete angina therapy should not only relieve the coronary spasm, but should help to prevent attacks. This has been accomplished by 'Pentoxylon' to a considerable degree. 'Pentoxylon' combines the benefits of two powerful and reliable agents — 'Rauwiloid' and P.E.T.N. 'Rauwiloid', an alkaloidal extract of *Rauwolfia serpentina*, has bradycardic, tranquillising and stress-relieving properties, and stabilises the patient emotionally. P.E.T.N. produces a long-sustained dilatation of the coronary blood vessels, so improving the circulation to the myocardium, reducing the severity of attacks when they occur. The dual action of 'Pentoxylon' provides a more comprehensive . . . more effective . . . therapy than has hitherto been possible using a single medicament, and it infuses the anginal patient with a feeling of well-being and hope.

Each 'Pentoxylon' tablet contains 1mg. 'Rauwiloid' and 10mg. pentaerythrityl tetranitrate. The usual dosage is one tablet four times daily *before* meals. Occasionally it is desirable to increase the dosage — up to 8 tablets daily are well tolerated.

'Pentoxylon'
is a regd. trademark.

counting the cost...of living

It is estimated that over 50 per cent of the average practitioner's patients show some degree of anxiety neurosis. Such is the price exacted by the tempo of today. In this type of case MILTOWN meprobamate has far-reaching applications. MILTOWN is superior to other conventional sedatives and is remarkably free from side reactions. It acts safely and selectively to ease emotional and muscular tension without autonomic effects. MILTOWN helps to 'unwind' the patient relieving his worry, agitation and anxiety. It induces true sedation by day and natural sleep without narcosis at night.

Beats the lot

'CORTISPORIN'
*kills the bacteria of
surface infections*

This new ointment contains bacitracin, neomycin and polymyxin B sulphate. It has a wider range of activity than any single antibiotic, destroying gram-positive and gram-negative organisms, including *Ps. pyocyanea*, *proteus* and staphylococci. Bacterial resistance or skin sensitisation are unlikely with 'Cortisporin'; nor does it induce cross-resistance or cross-sensitisation to penicillin or other antibiotics. It often succeeds where other antibiotics fail. 'Cortisporin', by virtue of its other constituent, hydrocortisone, also reduces inflammation.

For further information please apply to BURROUGHS WELLCOME & CO., The Wellcome Building, Euston Road, London, N.W.1.

How severe a gastric irritant is aspirin?

FURTHER RESEARCH has now been done into the irritant effects of aspirin upon the gastric mucosa. A detailed report on this work appears under the heading "Aspirin and Ulcer" in the B.M.J., July 2, 1955.

The summary of the discussion appended to this report is as follows:

"Aspirin is a serious gastric irritant, particularly in peptic ulcer patients."

Here is a further extract from the report: "In conclusion it is suggested that aspirin should never be given to patients with peptic ulceration, or indeed to those who have any gastric intolerance to it, however mild. Such an instruction should be given a prominent place in peptic ulcer advice charts, usually in place of much that could be safely left out. Some of these patients took aspirin on a full stomach only in powder form, with serious

results, and, although this method almost certainly mitigates its irritant effects, it does not guarantee immunity. Calcium aspirin does not have this irritant action unless it has deteriorated through standing, and it can be used with impunity, especially if prescribed in soluble form. This simple measure would, in our opinion, cut down significantly the incidence of haematemesis and exacerbations of ulcer symptoms."

SOLPRIN provides calcium aspirin in pure and stable form

CODIS is a compound tablet that provides codeine and phenacetin and calcium aspirin, in place of the ordinary aspirin in Tab. Codein. Co. B.P.

Neither SOLPRIN nor CODIS is advertised to the public

TRAVELLER'S JOY

Accent on Acidity

Many plants, like the Traveller's Joy, will not thrive where the environment is too acid. For them, as for the ulcer patient, pH is a matter of prime importance.

The ulcer patient, however, is fortunate. He at least can control the pH of his intragastric environment with Aludrox.

Aludrox ensures effective acid control without risk of alkalosis or acid-rebound.

At the same time, it precipitates an astringent gel covering to the ulcer surface which protects it from further abrasion.

Aludrox

(Aluminium Hydroxide Gel)

PACKS: Bottles of 6 and 12 oz.

Tablets — the ulcer traveller's joy — in boxes of 30 x 6½ gr. and boxes of 60 x 13 gr.

SANITARY PROTECTION WORN INTERNALLY

A PRODUCT OF SEARLE RESEARCH

Peristalsis and defaecation are physiological responses to gentle distension of the muscle layers of the intestines: administration of mucosal irritants may cause exaggerated responses attended by diarrhoea or colic.

The Physiological Action of Metamucil* in Correction of Constipation

Constipation is possibly the commonest of physical disorders, and perhaps the least likely to receive satisfactory treatment because of lay misunderstanding and the popularity of self-medication of the condition.

Metamucil provides a smooth non-irritating bulk which gently stimulates peristalsis and the defaecation reflex, and thus induces a normal physiological response. Each dose may be followed by an extra glass of liquid if desired.

Metamucil is free from all irritating material, is not habit-forming or harmful, and does not interfere with the

assimilation of food or the absorption of either fat or water-soluble vitamins.

A product of the Searle Research Laboratories, Metamucil consists of equal amounts of refined psyllium from *Plantago ovata* seeds and dextrose.

Dosage: One rounded teaspoonful taken with 5 to 6 fluid ounces ($\frac{1}{4}$ pt.) of cool water, milk, fruit juice or other liquid, one to three times daily. Metamucil is supplied in containers of 4 and 16 ozs.

Further literature is available on request: G. D. Searle and Co., Ltd., High Wycombe, Bucks. Tel. High Wycombe 1770.

* Registered Trade Mark.

Recommendation without reservation

IN THE transition from a milk diet to milk-plus-solids, the starchy portion of a baby's diet is often increased at the expense of milk and the valuable proteins which milk contains. The ideal first cereal, therefore, should provide not just extra solids but solids in the form of first-class protein.

To this end the vegetable protein of the oat flour in Trufood Cereal Food has been supplemented by milk proteins and important mineral

salts. In this way the total protein has been raised to 6.05 grammes per ounce or 21.4%, and the casein and lactalbumin form a valuable complement to the biological value of the total protein.

The Trufood Creameries and Laboratories are at Wrenbury in Cheshire. Full information on any Trufood product is available from Trufood Limited, 113 Newington Causeway, London, S.E.1.

But there are other ways—

In dealing with seborrhoea capitis

Genisol and Sebigen offer the physician an effective and economical treatment for seborrhoea capitis.

Simple seborrhoea

can be brought under control by the weekly use of Genisol, which is applied in the manner of a shampoo. Genisol has been formulated to remove the loose scales, at the same time stimulating the production of normal tissue:

the inclusion of hexachlorophene prevents aggravation of the condition by bacterial invasion.

Persistent seborrhoea capitis

quickly responds to the combined treatment of Genisol-Sebigen. Sebigen should be rubbed into the scalp twice daily through numerous partings in the hair, followed by frequent applications of Genisol as directed.

Genisol and Sebigen prescribable on E.C.10.

Genisol

Relief of Rheumatic Pain in General Practice

1. Prompt relief by massive aspirin dosage without supervision

It has been estimated that 8 out of 10 patients go to their doctors with some form of rheumatic complaint. In all cases, the first aim is prompt relief, preferably calling for no supervision in administration. An effective and safe remedy is massive aspirin dosage in the form of Berex tablets.

2. Succinate prevents toxicity

Clinical study* has shown that the calcium succinate in Berex prevents toxicity from massive dosage. The prothrombin level is maintained and there is no haemorrhagic tendency, even after prolonged dosage. Your patients can enjoy prolonged relief, in safety, by reducing the initial dosage as soon as the pain diminishes. Side effects — including gastric — are fewer and milder, if present at all.

3. Encourages tissue respiration

Experimentally, by Warburg test, it has been shown that the inhibitory action of salicylate on tissue respiration is completely offset when it is combined with succinate. Succinate encourages cellular respiration and stimulates the respiratory enzyme systems. It is to this stimulating action that the beneficial effect of succinate is attributed.

* "No abnormal prolongation of prothrombin time even after 68 days of succinate-salicylate." "The results also show that this succinate-salicylate formulation combines safety and efficacy, permitting wide use both for treatment and maintenance without the excessive supervision required in many other forms of therapy." — Delaware State Med. J., 1954, 26, 22.

RHEUMATIC PAIN, it is estimated, brings 8 out of 10 patients to the surgery. Prompt and prolonged relief can safely be given, in all forms of rheumatism, by administering Berex in massive and prolonged dosage. No supervision is required.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

COUNTY BOROUGH OF ROCHDALE

Applications are invited from qualified medical practitioners, male or female, for the whole-time appointment of

ASSISTANT SCHOOL MEDICAL OFFICER

While the duties of the post will be mainly within the School Medical Service, they will include certain duties with regard to Child Welfare. Preference will be given to holders of the D.P.H. or similar qualification, and to those with experience of ascertainment of educationally sub-normal children. Salary £1,050, rising by increments of £50 to £1,200 per annum, then by increments of £55 to £1,475 per annum, commencing according to experience and qualifications. The successful candidate must pass a medical examination. Candidates must state whether they are related to any member or senior official of the Council. Canvassing will disqualify. Apply, stating age, qualifications, experience, and giving names and addresses of two referees, to the Medical Officer of Health, Public Health Department, Baillie Street, Rochdale, by Friday, March 29, 1957.—K. B. Moore, Town Clerk, Town Hall, Rochdale. (4659)

DERBYSHIRE COUNTY COUNCIL**SENIOR ASSISTANT MEDICAL OFFICER**

Applications are invited from male medical practitioners for the whole-time appointment of Senior Assistant Medical Officer. Possession of the D.P.H. (or its approved equivalent) is essential and experience in school health and mental deficiency work is advantageous. The work will be largely administrative in connection with the Public Health and School Health Services, but other duties may be assigned to the officer appointed, who will work under the direction of the County Medical Officer. Office accommodation will be provided in the Central Office. The salary is £1,210 by £55 (5) by £50 (4) to £1,685 per annum, together with a travelling allowance. Applications should be submitted to the undersigned by March 30, 1957. Application forms are not provided, but the conditions of service will be supplied on request.—J. B. S. Morgan, County Medical Officer of Health, County Offices, St. Mary's Gate, Derby. (4633)

EAST SUSSEX COUNTY COUNCIL**ASSISTANT COUNTY MEDICAL OFFICER
AND SCHOOL MEDICAL OFFICER**

Applications are invited from registered medical practitioners for the above appointment. Salary within the range £1,050 by £50 to £1,200 by £55 to £1,475. Possession of the D.P.H. and/or experience in the ascertainment of educationally sub-normal children will be considered an advantage. Forms of application and further particulars may be obtained from the County Medical Officer of Health, County Hall, Lewes, and should be returned to him not later than two weeks after the appearance of this advertisement. (4455)

STAFFORDSHIRE COUNTY COUNCIL**APPOINTMENT OF ASSISTANT COUNTY
MEDICAL OFFICER AND SCHOOL MEDICAL
OFFICER**

Applications are invited from fully qualified medical practitioners and those holding the Diploma of Public Health will be given preference. The candidate appointed will undertake clinical work in the School Health and Child Welfare Services under the direction of the County Medical Officer of Health, and will be required to perform such other duties as may from time to time be prescribed. The salary scale is £1,050 by £50 to £1,200 by £55 to £1,475, and increments may be given for previous similar service. The appointment will be terminable by three months' notice in writing on either side and subject to the provisions of the appropriate Superannuation Acts and Regulations, in which connection the selected candidate must pass a medical examination and submit his or her birth certificate. Forms of application may be obtained from the County Medical Officer, County Buildings, Stafford, to whom they should be returned when completed not later than by April 13, 1957.—T. H. Evans, Clerk of the County Council, County Buildings, Stafford. (4958)

(U.S.A.) MENTAL HOSPITAL PHYSICIANS

These positions involve the performance and supervision of medical care and administrative services for patients in a 2,800-bed mental hospital in the Shenandoah Valley of Virginia. Merit increases, vacation, and sick leave with pay, retirement benefits.

STAFF PHYSICIAN

Two years of psychiatric experience, at least one of which must have been in a mental hospital; licence to practise medicine in State or eligibility therefor. Starting salary \$8,784 per year.

JUNIOR PHYSICIAN

Graduate from a recognized medical college supplemented by one year of rotating internship in an approved hospital; licence to practise medicine in State or eligibility therefor. Starting salary \$8,400 per year.

Apply for the above positions to Superintendent, Western State Hospital, Staunton, Virginia, U.S.A. (8902)

WANTED, FOR THE GENERAL HOSPITAL, ST. THOMAS, ONTARIO, CANADA, INTERNS. Salary \$150.00 monthly, with full maintenance and laundry. The Hospital Board will provide passage to Canada. This passage money will be deducted over a twelve month period from pay, but one-half will be refunded on completion of one year's service. The Hospital has 285 beds and 61 bassinets, opened in May, 1954, and fully accredited. A rotation system is provided. (4200)

WELLINGTON HOSPITAL BOARD, Wellington, New Zealand**RESIDENT JUNIOR PHYSICIAN**

Applications are invited for the above position at the Silverstream Hospital, Wellington, New Zealand. This is a geriatric hospital and includes some long-stay orthopaedic patients. This position is graded as Junior Specialist under the New Zealand Hospital Employment Regulations, and is subject to grading procedure. The salary for a suitably qualified applicant is £1,600 to £1,900 per annum (New Zealand currency). Transportation allowance is available. A house is available in the hospital grounds. A rental of £150 per annum is deductible from the salary for the house, including fuel and light. Further details may be obtained from the New Zealand High Commissioner, 415, The Strand, London, W.C.2. Applications close on April 15, and should be addressed to the Secretary, Wellington Hospital Board, Wellington, New Zealand.—J. B. I. Cook, Secretary. (4505)

OVERSEA (Wanted)

NEW ZEALAND. ASSISTANTSHIP WITH view. Partnership, long-term Locum required by English M.B. 1952, 29, married, 2 years' G.P. with obstetrics. Arriving July.—Box 628, B.M.J.

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****THE BERKELEY FELLOWSHIP**

Regret emolument read \$1,500. This should have been £1,500. Full details are shown on page 41, March 2 issue.

ASSISTANT PROFESSOR OF PREVENTIVE MEDICINE, full-time position teaching, research and some administration. Salary \$6,000 to \$7,000. Apply, stating qualifications, to Dr. J. J. Day, Professor of Preventive Medicine, University of Ottawa, Ottawa, Ontario, Canada. (4972)

UNIVERSITY OF LONDON KING'S COLLEGE**LECTURER IN ANATOMY**

required on October 1, 1957. The appointment will be on the Junior Lecturer scale of £700 by £50 to £900, with family allowances and F.S.S.U. benefits. Particulars and application forms may be obtained from the Registrar, King's College, Strand, W.C.2, whom completed applications must reach by April 16. (4812)

**THE UNIVERSITY OF LEEDS
Department of Pathology**

Applications are invited from candidates with medical qualifications registrable in this country for appointment as:

- (a) **SENIOR LECTURER IN PATHOLOGY**
- (b) **LECTURER OR DEMONSTRATOR IN PATHOLOGY**

Salaries, according to qualifications and experience, on scales £1,850 by £100 to £2,400 (Senior Lecturer) or £1,100 by £100 to £1,700 (Lecturer) or £700 by £100 to £900 (Demonstrator). Duties will include teaching and research, and autopsies and surgical biopsies for the General Infirmary at Leeds (adjoining the Institute of Pathology). Candidates who have held university posts in anatomy, physiology or biochemistry would be favourably considered for appointment as Lecturer or Demonstrator, special experience in pathology not, in such instances, being essential. The successful candidates will be expected to take up their duties as soon as possible. Three copies of applications, which should include mention of research experience and interests, and give date of birth, qualifications, experience, and names of three referees, should reach the Registrar, the University, Leeds, 2 (from whom further particulars may be obtained), not later than April 30, 1957. (4947)

THE UNIVERSITY OF MANCHESTER

Applications are invited from candidates with medical qualifications registrable in this country for the post of

ASSISTANT LECTURER OR DEMONSTRATOR IN PATHOLOGY

Previous experience in Pathology is not essential. Duties will consist of teaching and of participation in the morbid anatomy service of Manchester Royal Infirmary. Opportunities will be available for research. Salary scale per annum attached to the posts: £700 by £100 to £1,100. Initial salary and status according to qualifications and experience. Membership of Children's Allowance Scheme and, in the case of an Assistant Lecturer, of F.S.S.U. Applications should be sent, not later than April 1, 1957, to the Registrar, the University, Manchester, 13, from whom further particulars and forms of application may be obtained. (4580)

THE UNIVERSITY OF MANCHESTER**Applications are invited for the post of
MEDICAL ARTIST**

who will be responsible for the preparation of paintings, drawings, diagrams and similar works for members of the staff of the medical school, both in the University and in the United Manchester Hospitals. Salary not less than £600 per annum. Duties to begin in October, 1957, or as early as possible thereafter. Applications should be addressed to the Registrar, the University, Manchester, 13, and should reach him not later than April 15, 1957. Applicants should give the names of not more than three persons to whom reference may be made and may also submit copies of not more than three testimonials, which will not be returned. (4864)

UNIVERSITY OF ABERDEEN**Applications are invited for the post of
LECTURER IN MENTAL HEALTH**

with status of Clinical Assistant in the Aberdeen teaching hospitals, in particular the Department of Psychological Medicine, Aberdeen Royal Infirmary. Salary on scale (b) £1,100 to £1,500, with placing according to qualifications. F.S.S.U. and children's allowance. Part of removal expenses refunded. Conditions of appointment and forms of application should be obtained from the Secretary, the University, Aberdeen, with whom applications (15 copies) should be lodged not later than April 11, 1957. Applicants outside the British Isles may submit one copy of application. (4893)

UNIVERSITY OF OXFORD**Applications are invited for the post of
MEDICAL TUTOR**

which falls vacant on June 1, 1957. The Medical Tutor works under the direction of the Nuffield Professor of Clinical Medicine and his duties are to assist in preparation of candidates for the Degree of Bachelor of Medicine and to conduct research. The salary is £1,600 per annum, plus children's allowances, and the appointment will be for three years in the first instance. Applications (four copies) should reach the Nuffield Professor of Clinical Medicine, Radcliffe Infirmary, Oxford, from whom further particulars can be obtained, not later than April 17, 1957. Testimonials are not required, but the names of two referees may be given. (4690)

University and Research**Appointments, etc.—contd.****UNIVERSITY OF GLASGOW****LECTURESHIP IN BACTERIOLOGY**

Applications are invited for a Lectureship in Bacteriology. Salary according to placement on University scale for clinical teachers. The final maximum is £1,750 per annum. F.S.S.U. and family allowance benefits. Applications (12 copies) should be lodged, not later than April 20, 1957, with the undersigned, from whom further particulars may be obtained.—Robt. T. Hutcheson, Secretary of University Court. (4913)

UNIVERSITY OF GLASGOW**ASSISTANTSHIPS IN PHYSIOLOGY**

Applications are invited for two Assistantships in Physiology. Salary scale £700 to £900 with a medical qualification. £550 to £650 without a medical qualification. Initial salary according to experience and qualifications. F.S.S.U. and family allowance benefits. Applications (three copies) should be lodged not later than May 1, 1957, with the undersigned, from whom further particulars may be obtained.—Robt. T. Hutcheson, Secretary of University Court. (4894)

BAYER

**Nasal
decongestion
without
unpleasant
side-effects**

Neophryn is more sustained in effect than ephedrine or adrenaline, yet safer than either. Neophryn will not cause C.N.S. stimulation or sedation; stinging and secondary congestion are very rare and there is no impairment of ciliary movement. This freedom from side-effects makes Neophryn the first choice for children and infants as well as for adults.

NEOPHRYN

Trade Mark

Neophryn is a sympathomimetic amine (1-m-hydroxy-methylamino-methyl benzyl alcohol HCl) in aqueous solution, available in a plastic atomiser which gives a fine spray, or as drops, which are more suitable for children.

*A special Neophryn plus antihistamine spray is also available.
