

1957 CURRENT THERAPY

The most effective and unified reference source ever devised for placing today's best treatments within your easy reach.

This new annual volume gives you the *best treatments available today for every disease or disorder you are likely to encounter*—from abscess to zoster, from the common cold to multiple sclerosis.

Information in **CURRENT THERAPY** is *not* extracted from the literature, is *not* in any way experimental, is *not* prejudiced in favour of any special drug or any special method. The treatment is included solely because it is the most effective—old or new makes no difference.

An Annual Volume. By 304 American Authorities.

Edited by HOWARD F. CONN, M.D. 731 pages. NEW. 77s.

Dorland's ILLUSTRATED MEDICAL DICTIONARY

(New 23rd Edition)

This brand new edition of the "*big red dictionary*" is completely revised and up to date. It is, and always has been, *THE Dictionary of the Medical Sciences*.

- Now contains 104,000 definitions—20,000 more than any other medical dictionary.
- 4,000 New Words added.
- All anatomical tables revised.
- Completely reset throughout.
- Pronunciation more understandable than in any other medical dictionary.

1,598 pages, more than 700 illustrations. Flexible binding. Thumb-indexed. 87s. 6d.

CLINICAL USE OF RADIOISOTOPES

By WILLIAM H. BEIERWALTES, M.D., PHILIP C. JOHNSON, M.D., and ARTHUR J. SOLARI, B.S., M.S. 456 pages, 126 illustrations. 80s. 6d.

Complete and specific information for the practising physician on diagnostic and therapeutic use of Medicine's *newest weapon*.

RADIOACTIVE ISOTOPES

A comprehensive and authoritative account of radioactive isotopes in medicine. written specially for the clinician. All aspects of this important new branch of medical progress are fully covered.

PRINCIPAL CONTENTS

What is a Radioactive Isotope ?

By J. ROTBLAT, D.Sc.
Professor of Physics, The Medical College of St. Bartholomew's Hospital, University of London

The Preparation of Radioactive Isotopes

By HENRY SELIGMAN, PH.D.
Head of Isotope Division, Atomic Energy Research Establishment, Harwell

The Action of Radioactive Isotopes

By J. F. LOUTIT, D.M., F.R.C.P.
Medical Research Council's Radiobiological Research Unit, Atomic Energy Research Establishment, Harwell

Radioactive Isotopes in Research

By G. POPIAK, M.D., F.R.I.C.
Experimental Radiopathology Research Unit, Hammersmith Hospital

Radioactive Isotopes in Diagnosis

By G. M. WILSON, M.D., F.R.C.P.
Professor of Pharmacology and Therapeutics, University of Sheffield

Radioactive Isotopes in Therapy

By NORMAN MACKAY, M.B., F.R.C.S.Ed., D.M.R.T.
Assistant Radiotherapist, Royal Marsden Hospital

A Hospital Radioactive Isotope Unit

By J. S. STAFFURTH, M.D., M.R.C.P.
Chief Assistant, Radioactive Isotope Unit, St. Thomas's Hospital

Radiography with Radioactive Isotopes

By H. J. D. IRELAND, B.Sc.
Department of Physics, Institute of Cancer Research: Royal Cancer Hospital in association with the Royal Marsden Hospital

**They like
Lucozade..**

*and they
can keep it
down—*

Lucozade has won its place in the sickroom because it is so very palatable. Patients enjoy it and, what is more, they can keep it down even when other food is refused, or vomited. It is difficult to assess the value of Lucozade simply in terms of the glucose it contains. It is the patient's response which is so interesting. Its acceptance so often coincides with a distinct and happy turn for the better.

There can be no doubt that Lucozade presents the beneficial properties of glucose in a most agreeable form.

LUCOZADE
the sparkling glucose drink

REPLACES LOST ENERGY

The broom-shaped mould

As long ago as 1701, the Italian botanist Micheli described *MUCOR PENICILLATUS*, which means simply the broom-shaped mould. It is a far cry from this pre-Linnaean classification of *PENICILLIUM* to the researches of Fleming, Florey and Chain, yet the name is apter than anyone knew, for what antibiotic makes a cleaner sweep of pathogenic organisms?

Penicillin is not a cure-all, nor has it been superseded by the newer antibiotics. It is active against all the diseases caused by penicillin-sensitive organisms: no more and no less. World-wide research has so far failed to disclose any substance possessing penicillin's unique blend of high efficacy and low toxicity. It is the best known and the most versatile of antibacterial substances, pharmacologically almost inert yet therapeutically invaluable. And: "There has been no clear demonstration that a strain of *STAPHYLOCOCCUS*, initially sensitive to penicillin, has, under the impact of therapy in a given case, become resistant".*

Glaxo penicillin has now been fully available to the general practitioner for ten years. Our unrivalled knowledge of it is based on extensive research and large scale manufacture.

* *Annals N.Y. Acad. Sci.*, 1954, 59, 243.

Among the many Glaxo penicillin products the first and most versatile is

CRYSTAPEN

TRADE MARK

Indicated particularly for acute infections, it is available in several forms:

Crystalline sodium benzylpenicillin
(penicillin G)—for injection

Sodium penicillin G—as ointment
(two strengths)

Potassium penicillin G—as tablets
(two strengths) and oral liquid

Elastoplast

Airstrip

**a waterproof, yet non-occlusive,
adhesive first aid dressing that
prevents maceration**

The plastic material consists of a micro-porous extensible filter, air-permeable yet waterproof. Sweat and skin exudates evaporate freely through it.

The pad stretches with the plastic material.

PROFESSIONAL SAMPLE OFFER. So that you may be able to observe the advantages of Elastoplast 'Airstrip' in clinical practice, we shall be happy to send a professional sample pack on request. Ask for pack BA/1

SMITH & NEPHEW LIMITED
WELWYN GARDEN CITY · HERTS

Elastoplast 'Airstrip' is a new type of first aid dressing. It is made from a specially developed plastic material, through which sweat and skin exudates evaporate at the same rate as they develop on the skin. The material is, in fact, a micro-porous extensible filter, and is not perforated. It provides a barrier to water, grease, oil and infective organisms.

Even after long application, Elastoplast 'Airstrip' does not cause the underlying skin to macerate. The adhesive is specially spread in a lattice pattern so that micro-porosity is retained and firm adhesion not impaired. The surface of the wound and the surrounding skin remain dry beneath an 'Airstrip' dressing, which can be left on until the wound heals.

PROFESSIONAL PACK

available in cartons of:—
100 dressings $1\frac{1}{2}'' \times \frac{3}{4}''$ 9/8d.
" " $2\frac{1}{4}'' \times \frac{3}{4}''$ 13/4d.
50 dressings $1\frac{1}{2}'' \times 1\frac{1}{2}''$ 7/-d.
" " $2\frac{1}{4}'' \times 1\frac{1}{2}''$ 10/3d.

Less the usual professional discount.

PUBLIC PACK

sold by all chemists at 1/- and 2/- each.

in the chronic worrier

DRINAMYL

produces a mood of calm composure

Drinamyl for
the harassed
patient

Anxiety, apprehension or depression may cause or complicate a multitude of ills. An encouraging smile or a verbal pat on the back may help some patients to dismiss a baseless worry. But the chronic worrier needs more than encouragement if the troubles that shadow her life are to be met resolutely.

'Drinamyl' produces the peace of mind that such patients so desperately need. Smoothly and unobtrusively emotional tension is eased: harassment and anxiety give place to calm composure. The patient's competence to cope with problems is restored, and the response to treatment is improved.

'DRINAMYL' TABLETS • 'DRINAMYL SPANSULE' SUSTAINED RELEASE CAPSULES

Each 'Drinamyl' tablet contains 5 mg. 'Dexedrine' (dextro-amphetamine sulphate) and 32 mg. (gr. $\frac{1}{2}$) amylobarbitone. Each 'Drinamyl Spansule' capsule Strength No. 1 contains 10 mg. 'Dexedrine' (dextro-o-amphetamine sulphate) and 64 mg. (gr. 1) amylobarbitone. Each 'Drinamyl Spansule' capsule Strength No. 2 contains 15 mg. 'Dexedrine' (dextro-amphetamine sulphate) and 97 mg. (gr. $1\frac{1}{4}$) amylobarbitone.

Smith Kline & French represented by Menley & James, Limited, London S.E.5

Tomorrow she will be in hospital undergoing an operation. Not a serious one, and she's not looking very serious about it, is she? She's a sensible girl and has complete faith in modern

medicine and surgery. The doctors and nurses who look after her in hospital put *their* trust in British Oxygen equipment and gases. Like hers, their trust is well founded.

Introducing... 'NOV-ALOCOL'

an *IMPROVED* antacid preparation

IN hyperacidity and peptic ulcer, the power of aluminium hydroxide to provide reliable buffering is well recognized.

In 'NOV-ALOCOL' aluminium hydroxide of improved acid-binding power is combined with magnesium hydroxide in such proportion that the mixture is neither astringent nor laxative.

'NOV-ALOCOL' provides *prompt* relief because its magnesium hydroxide content immediately acts on the excess acid already in the patient's stomach, while the buffering action of the aluminium hydroxide simultaneously provides protection against subsequent acid secretion.

'NOV-ALOCOL' is *safe*: in the dosage recommended, namely two tablets before or after meals according to the lesion, it will induce neither systemic alkalosis nor acid rebound.

Each tablet contains:

Aluminium hydroxide	0.375 g.
Magnesium hydroxide	0.125 g.
Excipient and flavouring	q.s.

PACK: Bottle of 50 tablets.

Sample
and literature
on request.

**In the treatment of peptic ulcer—
safe, simple, effective,
without side effects**

NULACIN

provides milk-alkali drip therapy

The most effective control of gastric acidity is by milk-alkali drip therapy; the most convenient way of obtaining milk-alkali drip therapy is by sucking Nulacin tablets.

peptic ulcer in the ambulatory patient

Nulacin is of great value in the treatment of peptic ulcer in the ambulatory patient, and in the prevention of ulcer relapse.

clinical trials in three continents

Extensive clinical work has confirmed the claims made for Nulacin. References to some studies appear below. Other references will be given on request.

Nulacin tablets are not advertised to the public, have no B.P. equivalent and may be prescribed on E.C.10. The dispensing pack of 25 tablets is free of purchase tax. Basic price to N.H.S. is 2/-. Also available in tubes of 12.

Nulacin is available throughout the British Commonwealth, in the U.S.A., and in many other countries. It is known as Nulactin in Canada and Sweden.

counting the cost...of living

It is estimated that over 50 per cent of the average practitioner's patients show some degree of anxiety neurosis. Such is the price exacted by the tempo of today. In this type of case MILTOWN meprobamate has far-reaching applications. MILTOWN is superior to other conventional sedatives and is remarkably free from side reactions. It acts safely and selectively to ease emotional and muscular tension without autonomic effects. MILTOWN helps to 'unwind' the patient relieving his worry, agitation and anxiety. It induces true sedation by day and natural sleep without narcosis at night.

Tablets (400 mg.): bottles of 50 and 500

LEDERLE LABORATORIES DIVISION *Cyanamid* OF GREAT BRITAIN LTD., London, W.C.2

IT is generally agreed that cases of soft-tissue rheumatism and of many types of arthritis benefit by hyperaemia of the affected tissues. Transvasin, which contains two quick-acting esters of nicotinic acid, induces such a deep and prolonged hyperaemia at the same time as it produces superficial erythema.

In addition to the esters of nicotinic acid, Transvasin contains the fat- and water-soluble esters of salicylic and p-aminobenzoic acids. Both these well-tried analgesic drugs are readily conveyed through the skin in therapeutic quantities and enable an effective concentration to be built up where they are needed.

Transvasin is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

LLOYD-HAMOL LTD.

11 Waterloo Place, London, S.W.1. Whitehall 8654/5/6.

The graph above is of an experiment to measure the effect of Transvasin on skin temperature on a subject. The red line plots the skin temperature before and at intervals after a single application of one inch of cream (0.924 grams) from a tube of Transvasin. The black line gives similar information with regard to the application of a plain vanishing cream used as a control. Skin temperatures were measured with an electro-thermo couple every five minutes for two hours. Photographs show the affected area before application; three minutes and thirty minutes later.

COMPOSITION OF TRANSVASIN

Salicylic acid tetrahydrofurfuryl-ester	..	..	14%
Nicotinic acid ethyl-ester	..	..	2%
Nicotinic acid n-hexyl-ester	..	..	2%
p-Aminobenzoic acid ethyl-ester	..	..	2%
Water-miscible base ad	..	..	100%

*The KEYSTONE
of anti-hypertensive
Therapy*

'RAUWILOID'

"This was by far the most effective and useful orally administered agent for reducing blood-pressure which we have yet used. In our opinion this substance is fully worthy of a trial in every case of essential hypertension in which treatment is thought to be necessary. The severe cases, which always need treatment, are as likely to respond as the mild".

British Medical Journal (1955) 1: 809

'Rauwiloid' is a selected fraction of the alkaloid hydrochlorides of *Rauwolfia serpentina*, and combines the hypotensive activity of reserpine and rescinnamine with that of the other desirable alkaloids of the crude drug. 'Rauwiloid' can be regarded as the basic treatment for all grades of hypertension.

If sufficient lowering of blood-pressure is not apparent after 2/3 weeks' use, 'Rauwiloid+Veriloid' and 'Rauwiloid'+Hexamethonium, tried in that order, are suggested as suitable agents. In each case 'Rauwiloid' reduces the side-effects of the potent antihypertensive, and in both combinations dosage is regulated solely by the patient's requirements for the more potent agent.

Dosage of 'Rauwiloid' is simple—two tablets at night are usually sufficient, and this dosage can be reduced to one for maintenance therapy.

The daily cost to the National Health Service on full dosage is 5d.

in nervous tension and anxiety neuroses

'MEPAVLON', I.C.I.'s new tranquilliser, is distinguished by its ability to relieve both mental and muscular tension without dulling consciousness. It has proved to be particularly suitable for calming the nervous patient troubled with anxiety, restlessness and irritability. In such cases, 'Mepavlon' stabilises the emotions, relaxes tension and relieves nervous insomnia by inducing natural sleep. No less important: its toxicity is low, it is well tolerated, and side effects are rare.

'Mepavlon' thus combines effectiveness with safety and provides a most satisfactory treatment for the psychoneuroses and for the restoration of repose.

Fully active by mouth, 'Mepavlon' is presented in tablets each 400 mgm. in containers of 30 and a dispensing pack of 250.

A PRODUCT OF SEARLE RESEARCH

Peristalsis and defaecation are physiological responses to gentle distension of the muscle layers of the intestines: administration of mucosal irritants may cause exaggerated responses attended by diarrhoea or colic.

The Physiological Action of Metamucil* in Correction of Constipation

Constipation is possibly the commonest of physical disorders, and perhaps the least likely to receive satisfactory treatment because of lay misunderstanding and the popularity of self-medication of the condition.

Metamucil provides a smooth non-irritating bulk which gently stimulates peristalsis and the defaecation reflex, and thus induces a normal physiological response. Each dose may be followed by an extra glass of liquid if desired.

Metamucil is free from all irritating material, is not habit-forming or harmful, and does not interfere with the

assimilation of food or the absorption of either fat or water-soluble vitamins.

A product of the Searle Research Laboratories, Metamucil consists of equal amounts of refined psyllium from *Plantago ovata* seeds and dextrose.

Dosage: One rounded teaspoonful taken with 5 to 6 fluid ounces ($\frac{1}{4}$ pt.) of cool water, milk, fruit juice or other liquid, one to three times daily. Metamucil is supplied in containers of 4 and 16 ozs.

Further literature is available on request: G. D. Searle and Co., Ltd., High Wycombe, Bucks. Tel. High Wycombe 1770.

The original easy-to-take,
two-in-one tablet

for the prompt and prolonged
relief of **ASTHMA**

ISO-BRONCHISAN was first produced in 1953 and offers a fresh approach to the problem of effective asthma control. The tablets, which are pleasant to take, have a coating containing easily dissolved Isopropyl-Nor-Adrenaline, a most potent bronchodilator, which, when absorbed by the sublingual route, produces the prompt relief of bronchospasm. The rest of the tablet, when swallowed, releases Ephedrine and Theophylline in balanced proportions and these, slowly absorbed along the alimentary tract, ensure long sustained antispasmodic action on the bronchial smooth muscle.

ISO-BRONCHISAN

Prescribable on Form E.C.10.

IMMEDIATE RELIEF

PROLONGED ACTION

SILTEN

Each tablet contains Isopropyl-Nor-Adrenaline (Isoprenaline) sulphate gr. $\frac{1}{4}$; Ephedrine hydrochlor. gr. $\frac{2}{5}$; Theophylline gr. 2. In tubes of 20 tablets and bottles of 100 tablets. Tablets containing smaller quantities of the effective ingredients are now available for use in Paediatrics.

Samples and literature available on request.

A GENERAL STIMULANT FOR THE CENTRAL NERVOUS SYSTEM

For cases requiring a quick-acting general stimulant without increasing the patient's appetite, we consider Amphetamine unique. It combines for the first time Dexamphetamine Sulphate and Strychnine with Glycerophosphates and members of the Vitamin B Group. The Dexamphetamine provides the convalescent with an immediate feeling of well-being, this being followed by the well-known tonic effects of the other medicaments. Clinical reports have been excellent.

FORMULA

Dexamphetamine Sulphate B.P.C., 1/12 grain: Strychnine Hydrochloride B.P., 1/60 grain: Calcium Glycerophosphate B.P.C., 2 grains: Sodium Glycerophosphate B.P.C., 2 grains: Aneurine Hydrochloride B.P., 1/30 grain: Nicotinamide B.P., 1/4 grain: Riboflavin B.P., 1/60 grain: Syrup of Blackcurrant B.P.C., 2 fluid drms.: Water, to 1/2 fluid ounce.

POISON

S4

Available in bottles containing 10, 20, 40, and 80 fluid ounces. Professional prices 4/8, 8/10, 14/7, and 26/6 each. Samples available on request.

WAI

A SPENCER SUPPORT for Intervertebral Disc

In both conservative and surgical treatment of intervertebral disc, application of a back support is usually indicated.* We invite the surgeons' investigation of Spencer as an adjunct to treatment. Each Spencer is *individually designed, cut and made* for each patient—after a description of the patient's body and posture has been recorded and detailed measurements taken. Thus, individual support requirements are accurately met. The Spencer Spinal Supports shown incorporating rigid Spinal Braces were individually designed for both man and woman patients. Note exterior pelvic binder for added pelvic stability.

For further information and Brochure on Spencer Supports write to

The importance of effective vector control in Bancroftian filariasis

As in a number of tropical parasitic diseases, effective control of the transmission of Bancroftian filariasis is chiefly a problem of attack on the vector, and not directly on the causal organism—in this case, a threadlike nematode of the species *Wuchereria bancrofti*. This worm, introduced to the human bloodstream in the form of mature infective larva or microfilaria, develops to maturity in the connective tissues, blood vessels or lymphatic system of the victim.

Infection with this parasite frequently causes no signs or symptoms, but often grotesque elephantiasis or other lesions may develop leading to severe debility and incapacitation.

The microfilaria of the parasite is ingested by blood-sucking mosquitoes, particularly of the widespread culicine group, in which it undergoes metamorphosis. When fully developed it rests in the proboscis of the insect, finding its opportunity to infect man when the skin is pierced by mosquito bite.

DISTRIBUTION OF THE DISEASE

Bancroftian filariasis is widely but unevenly distributed in tropical areas, having been found in coastal areas of Africa, especially the Congo basin and the Cameroons, and in South America, coastal regions of India and in Melanesia.

In the world-wide attack on this disease, dieldrin, developed by Shell, is being used on an ever increasing scale as the most effective agent against the vectors—both as a larvicide on the breeding sites or as a residual spray against the adult mosquitoes which provide the essential link between microfilaria and man.

dieldrin

dieldrin, endrin and aldrin are

insecticides for world-wide use

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £850 per annum in the first year; £965 per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,100 per annum in the first year; £1,200 per annum in the second year; £1,300 per annum in the third year; £1,400 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £425 per annum for the first post held; £475 per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £475 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £525 per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained normally not less than one year (in Scotland, two years) after registration as a medical practitioner and normally held for one year only: £745 per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are not Registrars and who have less responsibility than other hospital officers of non-consultant status: £775 (for an officer appointed not less than one year after full registration as a medical practitioner) by £50 to £1,075 per annum. If the post is resident a deduction of £170 per annum is made.

CHEADLE ROYAL, CHEADLE, CHESHIRE

Registered Mental Hospital

President:

The Right Hon. The Earl of Derby, M.C.

Medical Superintendent:

W. V. Wadsworth, B.Sc., M.B., M.R.C.P., D.P.M.

This hospital receives all types of patients who are suffering from psychological and senile illnesses. It has recently been extensively redecorated and central heating has been installed throughout, making it one of the most luxuriously appointed hospitals in the country. Private rooms, with special nurses, can be provided.

All patients receive very careful and thorough clinical and pathological investigation, the most modern psychiatric treatment is available, including deep insulin therapy. Psychotherapeutic treatment is employed in suitable cases.

OCCUPATIONAL THERAPY is a special feature of the hospital and there are excellent facilities for indoor and outdoor recreation—tennis, cricket, croquet, badminton, billiards, cinema-television, etc.

GERIATRIC UNITS for mild cases of senility are provided where patients can pursue as normal a life as possible.

The hospital is situated in 300 acres of pleasant Cheshire parkland, and yet is only 9 miles from Manchester.

GLAN-Y-DON is the hospital's convalescent home overlooking the sea at Colwyn Bay. It is extremely comfortable and well appointed and has its own farm and market garden.

For terms and further particulars, apply to the Medical Superintendent. Telephone: GATLEY 2231.

ST. ANDREW'S HOSPITAL, NORTHAMPTON

for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt.: Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in Hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main Hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the Hospital from the farm, gardens, and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. It contains special departments for hydrotherapy by various methods, including Turkish and Russian baths, the prolonged immersion bath. Plombière's treatment, etc. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department for Diathermy and High-frequency treatment. It also contains Laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a Park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate, a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the Hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 5354 (3 lines)), who can be seen in London by appointment.

SPRINGFIELD HOUSE, near BEDFORD

Phone: Bedford 3417

For Mental Cases (including the aged). Fees from nine guineas per week. For forms of admission, etc., apply to the Resident Physician, Cedric W. Bower. Interviews in London by appointment.

for the menopausal syndrome

TACE

A NEW FAT-STORED ŒSTROGEN

TACE may change present-day concepts of œstrogen therapy, because while resembling stilboestrol and hexœstrol chemically it differs clinically in these important respects:—

TACE is stored in body fat—its activity is gradually released in a manner closely resembling natural œstrogen secretion.

TACE is free from side effects. Nausea, vomiting and œstrogen withdrawal bleeding in the female and painful gynœcomastia in the male are not produced.

TACE has virtually no effect on the pituitary gland. Resistance does not develop on prolonged therapy—'TACE' is therefore of particular value in the treatment of prostatic carcinoma where it will often continue to control the condition when resistance to other œstrogens has developed.

INDICATIONS

1. MENOPAUSAL SYNDROME
2. INHIBITION OF LACTATION
3. PROSTATIC CARCINOMA

'TACE' is available in capsules each containing 12 mg. chlorotrianisene in bottles of 60 and 300 capsules. Detailed literature is available on request.

'TACE'

brand chlorotrianisene is distributed in the United Kingdom and Eire by
RIKER LABORATORIES LTD., LOUGHBOROUGH, LEICS.
