## ARTIFICIAL LIMBS

#### Leon Gillis

M.B.E., M.B., B.Ch., M.Ch.Orth., F.R.C.S., Consultant Orthopaedic Surgeon to Queen Mary's (Roehampton) Hospital

Fifteen years of intensive study and research have gone to the making of this important book, the most comprehensive work of its kind ever published in this country. It explores the whole field of prosthetics and presents a complete conspectus of all the surgical refinements and technical skill which have brought the fitting and making of artificial limbs to the present stage. The author has drawn on the help of surgeons, engineers and limb manufacturers all over the world, and much clinical material has been given him by the Ministry of Health. The book is superbly produced and illustrated. It will rank as an outstanding contribution to the literature of the subject.

#### The esters of NICOTINIC, SALICYLIC and

#### p-AMINOBENZOIC acids

bring relief to cases of arthritis and rheumatism

In Cases of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.\*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

#### LLOYD-HAMOL LTD

Albamycin therapy is also commonly conclusive therapy in the majority of other "common" infections — systemic, intestinal, urinary tract, soft tissues, and ear. Clinical response is prompt—blood concentrations with orally-effective Albamycin are 10 to 50 times higher than with other antibiotics, and significant serum concentrations persist up to 24 hours or longer. Organisms susceptible to bactericidal Albamycin include Gram-positive and a certain few important Gram-negative pathogens (including many susceptible

strains of staphylococci and Proteus resistant to other antibiotics). Albamycin is characterized by exceptional gastrointestinal tolerance.

Adults: 500 mg. every 12 hours. Children: 15 mg./Kg. of body weight per day, in divided doses every 6 or 12 hours. Supplied: Albamycin Tablets. 250 mg., bottles of 16 and 100. Albamycin Syrup (125 mg. per 5 cc. teaspoonful), bottles of 2 fluid ounces. \*Trade mark for upjohn's brand of novoblocin

# NEW PRODUCTS FROM VITAMINS LIMITED

# 1 A derivative of natural vitamin E

Most single vitamins have been available to the profession for many years in forms acceptable as pharmaceutical preparations.

Vitamin E has presented difficulties. Natural sources, e.g. wheat germ and wheat germ oil, do not contain high enough concentrations: synthetic vitamin E, while useful, has not proved uniformly effective. The chemistry of vitamin E has now been elucidated after years of exhaustive research and the active isomers are known. It has thus become possible to present tablets of stable, high activity in the form of dextro-alpha tocopheryl succinate, derived from natural vitamin E. Each tablet of 200 mg. has an activity of 242 i.u. vitamin E.

This achievement means that Vitamins Limited can now offer to the profession a preparation to meet a long-continued demand.

PACKS: Tablets in packs of 100 and 500

# 2 Modified Phenobarbitone Therapy

SEDATION WITHOUT DEPRESSION

TROPENAL is a combination of phenobarbitone with vitamins of the B complex and vitamin C. Its formula has been designed to take advantage of the fact that many of the side-effects of barbiturates are inhibited by the simultaneous administration of generous doses of these vitamins. Phenobarbitone is excreted only slowly, continued administration causing tissue retention. As the drug is slowly released from this tissue reservoir there is an increasing risk of toxic side-effects unless there is a concomitant high concentration of the necessary vitamins. By judicious combination it becomes possible to prescribe phenobarbitone for those conditions in which it is properly indicated for prolonged periods without the development of depression, headache and tremor which are such common features of long-continued treatment. (Skin sensitivity is unaffected.)

The commoner indications for Tropenal are thus: epilepsy, anxiety states, especially those accompanied by insomnia and restlessness, and alcohol withdrawal.

# TROPENAL

# HORMONES

The present therapeutic status of many of the hormones now available to the clinicians is still undecided, and the relevant information tends to be scattered throughout the pages of the more specialized journals. This symposium provides a balanced and authoritative review of the clinical uses of the hormones now in general use. The emphasis is upon the practical aspects of the subject, and full details are given of dosage and the method of administration.

truly
radical
reduction
in
sulphonamide
dosage

The introduction of LEDERKYN Sulphamethoxypyridazine has radically changed the pattern of sulphonamide therapy. This is the first long-acting antibacterial sulphonamide to be offered for clinical use, and it is fully effective at a maintenance dosage of only  $\frac{1}{2}$  Gm. daily.

This is a reduction of some seven-eighths as compared with the typical sulpha drug dosage i.e. one tablet instead of eight. Improved tolerance and a welcome freedom from side effects result from this dramatic dosage reduction. Moreover, the swift absorption and efficient diffusion of LEDERKYN lend further emphasis to its clinical value—especially in treating genito-urinary infections.

Tablets (0.5 Gm.): bottles of 24, 100 and 500

### unsettled?

For the inveterate victims of winter ills, the further outlook is indeed unsettled. Yet the prospects for such individuals need not be gloomy—provided steps are taken now to maintain their nutritional status at a really satisfactory level. It was for precisely this purpose that VI-MAGNA Multivitamins was formulated. The special merits of VI-MAGNA can be simply defined—a comprehensive formula . . . at an outstandingly high concentration, and only one capsule or teaspoonful of syrup daily.

Regd. Trade Mark

Brand of Narcotine Linctus

## A NEW Cough Reflex Inhibitor

NICOLANE Linctus presents narcotine for the suppression of unproductive cough, with an activity in this respect equal to or greater than codeine and the following important advantages:

It will not produce addiction as it is absolutely free from such properties associated with other opium alkaloids.

It is particularly effective against the "Allergic cough."

Tolerance and side effects are minimal and it has no adverse effects on respiration or the central nervous system.

It has a wide margin of safety and provides adequate control in oral dosage over long periods.

NICOLANE Linctus contains 15 mg. nar-cotine in each teaspoonful (4 ml) and is available in bottles of 4 fluid ounces.

Samples will gladly be made available to the medical profession for clinical trial.

# "ASPEN

'Aspen V' is a unique combination of Penicillin V with Aspirin and Glycine and has been compounded to treat infections caused by pathogenic organisms which are sensitive to Penicillin V.

The marked antibiotic activity of 'Aspen V' is combined with the antipyretic, diaphoretic and analgesic properties of the contained Aspirin. The capsule is well tolerated by patients suffering from peptic ulcer. 'Aspen V' does not irritate the gastric mucosa.

#### INDICATIONS

Infections caused by Penicillin sensitive organisms and accompanied by pain and fever; for example, otitis media, boils, carbuncles, pharyngitis, bronchitis and other upper respiratory tract infections.

#### DOSAGE

The average adult dose is:

- 1 capsule 4 times daily in mild infections.
- 2 capsules 4 times daily in moderate infections.

In serious infection the dose may be increased to

2 capsules every 4 hours.

#### **PACKING**

Capsules 'Aspen V' are available in bottles of 10 and 100.

#### COMPOSITION

Penicillin V (Phenoxymethyl Penicillin)		•••	•••	•••	125 mgm.	
Acetyl Salicylic Acid (Aspirin)	•••	•••	•••	•••	5 grs.	
Aminoacetic Acid (Glycine)	•••	•••	•••	•••	2 grs.

LONDON, W.C.2

When a mother cannot breast-feed her baby, the best available substitute is Humanised Trufood. This is not simply a dried milk: it is a spray-dried modification of cows' milk, specifically designed to meet the needs of the normal infant from birth. The total protein content, as well as the ratio of casein to soluble protein, approximates to that in human milk. The only carbohydrate present is lactose, in a quantity raised to breast milk standard so that no further additions are necessary. The full fat content is in highly emulsified form. Further information can be obtained from Trufood Limited, 113 Newington Causeway, London, S.E.1.

## ADRENOXYL

#### Reduces the mean bleeding-time

Adrenoxyl reduces the mean bleeding-time by decreasing the permeability and increasing the contractility and resistance of the capillary wall.

#### A dry field at operation

Adrenoxyl has been successful in diminishing capillary bleeding in a wide range of surgical operations. It has proved particularly useful in ear, nose and throat, ophthalmic and plastic surgery. In plastic surgery of the face it has been reported that, post-operatively, there is less swelling and bruising when Adrenoxyl has been used.

#### No side effects

Adrenoxyl does not have any side effects or contraindications. It does not affect blood coagulation, blood pressure or pulse rate and does not possess any sympathomimetic properties.

#### In medical conditions

Adrenoxyl has been used with success in those medical conditions associated with capillary fragility.

In the British Medical Journal (April 21st, 1956) a correspondent confirmed the value of Adrenoxyl in providing a dry field for the surgeon and in shortening the duration of the operation.

#### **Packs**

Ampoules: Boxes of 6 and boxes of 50.

Each ampoule contains 0.75 mg. of adrenochrome

monosemicarbazone dihydrate.

Tablets: Tubes of 25 and bottles of 500.

Each tablet contains 2.5 mg. of adrenochrome

monosemicarbazone dihydrate.

The best results are obtained when both tablets and ampoules are used.

#### PLANNED PARENTHOOD NEEDS WISE ADVICE

Wise advice concerning reliable contraceptive methods can be of great assistance to young married people in providing the assurance necessary for their lasting health and happiness. GYNOMIN and ANTEMIN provide alternative means of contraception which are physiologically sound, aesthetically agreeable and satisfy modern requirements. Both may confidently be recommended by the medical profession.

#### **GYNOMIN**

FORMULA:
Sodium Bicarbonate B.P. 12.7
Tartaric Acid 11.1
Chloramine B.P. 1.1
Perfume q.s.
Excipients to 100.

#### ANTEMIN

FORMULA:
Sodium dioctyl sulphosuccinate
0.25
Ricinoleic Acid B.P. 1.00
Boric Acid B.P. 1.00
Paraformaldehyde B.P.C. 0.15
Base to 100.

The Family Planning Association advise that for maximum safety, any chemical contraceptive should be used with a mechanical barrier.

Medical literature and samples on request.

100 mg. Caffeine B.P.
0.25 mg. total alkaloids of belladonna
100 mg. isobutylallyl barbituric acid

#### **Dihydroergotamine**

SOLUTION

2 mg. dihydroergotamine methanesulphonate/ml.

AMPOULES

1 mg. dihydroergotamine methanesulphonate/ml.

"If ergotamine tartrate by itself is not effective, it may be more effective when combined with caffeine, such as Cafergot tablets (ergotamine tartrate 1 mg., caffeine 100 mg.) or rectal suppositories . . .

If Cafergot tablets
and rectal suppositories are used
the initial dose should not exceed
2 tablets or 1 suppository,
and the total daily dose should not exceed
6 tablets or 2 suppositories.

Some patients develop nausea and vomiting with ergotamine tartrate, and the newer preparation dihydroergotamine methanesulphonate (D.H.E.45) is less liable to produce gastric upsets but is not so generally effective . . ."

British Encyclopaedia of Medical Practice, Interim Supplement No. 181 — October 1957, page 12.

## CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post—inland and overseas 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It contains thirty-nine articles comprising a series specially written for the *British Medical Journal*. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

#### APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given. Canvassing in any form will disqualify.

\*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

#### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

#### Other Grades, Whole-time

#### (a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £467 10s, per annum for the first post held; £522 10s, per annum for the second and all subsequent posts held;

held; £522 IOs. per annum for the second and an subsequent posts held, provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regiona' Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 IOs. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialists staff.

(ii) Fully registered medical practitioners: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

## ABSTRACTS, OF WORLD MEDICINE

Each monthly issue contains abstracts of articles selected for their importance from over 1,600 medical periodicals published throughout the world. Abstracts of World Medicine covers the whole field of medicine and brings together from widely scattered sources the most recent contributions to medical progress, abstracted fully enough to indicate their nature and value to the general reader and to enable the specialist to assess their importance in relation to his own work. Abstracts of World Medicine provides a guide to the literature in languages with which the reader is unfamiliar and a means of keeping abreast of developments in all branches of medicine.

Annual Subscription (12 issues) £4 4s. U.S.A. and Canada \$13.50
