EMERGENCIES IN GENERAL PRACTICE

from the British Medical Journal

470 Pages (cloth bound), with full index

This book deals with medical emergencies in a wide sense ; acute clinical emergencies requiring prompt and skilful treatment; conditions such as faints and fits and giddy turns, the careful elucidation of which may mean the difference to a patient between a life of activity and one of restriction; acute psychiatric states; accidents of treatment, such as dangerous reactions to drugs or collapse during anaesthesia; and emergency calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which appeared originally in the *British Medical Journal*.

The author of each is an acknowledged authority. This collection, now revised by the authors, will be of value not only to general practitioners but also to senior students, house-physicians, house-surgeons, and to those supervising their work in hospitals.

CHROMATOGRAPHIC TECHNIQUES: Clinical and Biochemical Applications

Edited by Ivor Smith, Ph.D., A.R.I.C.

This is a practical book for the use of biochemists in clinical, agricultural and industrial laboratories who require to apply chromatographic methods to their problems. Details are given for the preparation of a minimal number of solvents and location reagents of proved usefulness, with tables of colour reactions and Rf values and a critical discussion of the factors affecting separation.

A completely effective all-purpose oral diuretic

New Era in Diuretic Therapy

For the first time, there is available a non-mercurial diuretic agent which, when administered ORALLY, is usually completely free from side-effects, has no known contra-indications, and is effective in the treatment of oedema of all degrees of severity—often when ALL other diuretics have failed.

This agent is

SALURIC

(Chlorothiazide)

discovered in the **MERCK SHARP & DOHME RESEARCH LABORATORIES**

SALURIC

replaces ALL other diuretics because—

- 1 'SALURIC' has a wider *effective* range of clinical application than any other diuretic.
- 2 'SALURIC' is usually effective when all other diuretics—including *mersalyl*—have failed.
- 3 'SALURIC' is administered *orally*, yet can replace parenteral mercurials.
- 4 'SALURIC' is effective in oedema of *all grades of severity*.
- 5 'SALURIC' promotes diuresis of a urine containing sodium and chloride in *proper proportions*.
- 6 'SALURIC' may be used for *initial* and *maintenance therapy*. Refractoriness does not develop, even on prolonged administration.
- 7 'SALURIC' is readily accepted by the patient since *gastro-intestinal upsets are very rare*. Early completion of diuresis allows an uninterrupted night's sleep.
- 8 'SALURIC' is *not toxic*. No toxic effects have been reported even during prolonged administration.
- 9 'SALURIC' can be used in the presence of severe cardiac, renal or hepatic disease.

No contra-indications have been demonstrated.

The following conditions have been treated:

Congestive Cardiac Failure
The Nephrotic Syndrome
Acute and Chronic Glomerulonephritis
Ascites and Oedema due to Liver Cirrhosis
Oedema associated with Pre-eclamptic Toxaemia
Pre-menstrual Tension Oedema
Oedema associated with Obesity
Oedema induced by Adreno-cortical Steroids

DROXALIN palatability in Peptic Ulcer

IN PEPTIC ULCER, carefully regulated medication is often interrupted by the patient's distaste for an acid adsorbent. Bland and palatable, DROXALIN TABLETS overcome this difficulty and are widely prescribed in the treatment of Peptic Ulcer, Hyperacidity and Sickness of Pregnancy.

DROXALIN combines the two most preferred acid adsorbents—Aluminium Hydroxide and Magnesium Trisilicate. Pleasantly flavoured, the DROXALIN TABLET commands the patient's ready acceptance, being free from grittiness or the metallic taste usually

associated with Aluminium Hydroxide therapy.

DROXALIN gives quick relief from pain by rapid acid adsorption* without danger of secondary acid rise or other harmful side effects. The special film packing enables DROXALIN to be carried hygienically in pocket or handbag.

Active ingredients per tablet:

Gelat. Alumin. Hydrox. Sicc... 2.5 grains Mag. Trisil... 2.5 grains.

**This will neutralise 50 mls. of N/10 HCl in thirty minutes.*

DROXALIN tablets are hygienically packed in film strips of 6, in cartons of 30 and dispensing packs of 504. Prescribable on E.C.10. Basic N.H.S. cost 2/2 for 50 tablets.

NULACIN

provides milk-alkali drip
therapy without a tube

Maintains continuous control of gastric acidity

Until a few years ago, maintained continuous control of gastric acidity was impossible without hospitalization and discomfort to the patient.

Then a unique treatment in the form of Nulacin tablets was evolved to achieve this desirable state—simply, effectively and without attendant disadvantages. In the ensuing period Nulacin therapy has been amply tried and proved by numerous clinical studies and by therapeutic use in many countries.

A Nulacin tablet placed in the mouth between the cheek and the gum dissolves slowly and releases its contained medicaments at a rate that gives continuous neutralization of the acid gastric juice. Nulacin accomplishes this without any danger of causing alkalosis or other side-effects. The results are comparable with those of intragastric milk-alkali drip therapy.

INDICATIONS: NULACIN tablets are indicated whenever neutralization of the acid gastric contents is required: in active and quiescent peptic ulcer, gastritis and other conditions of gastric hyperacidity.

Dosage: Beginning half-an-hour after food, a Nulacin tablet should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity, up to three tablets an hour may be required. During quiescent periods, for prophylaxis in peptic ulcer and for the relief of discomfort due to gastric hyperacidity, the dose of Nulacin is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. They may be prescribed on E.C.10. The dispensing unit of 25 tablets is free of purchase tax. (Basic price to N.H.S. . . . 2/-). Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrans and maltose, and incorporate magnesium trisilicate 3.5 grs.; magnesium oxide 2.0 grs.; calcium carbonate 2.0 grs.; magnesium carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

GASTRIC ANALYSIS
Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

GASTRIC ANALYSIS
Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

CARNATION MILK FOR INFANT FEEDING

The digestibility of Carnation Milk

CURD FORMATION

1 Breast Milk

2 Carnation Milk diluted to
whole milk value

3 Pasteurised Milk

The milk in each flask has been curdled by the addition of pepsin. Whilst precipitating, the milks were stirred constantly. This simulated the conditions occurring in an infant's stomach. Breast milk and Carnation Milk remain liquid with a suspension of very fine curds. Pasteurised milk curdles into a solid mass. Boiled milk produces curds intermediate in size and texture between those of Carnation Milk and pasteurised milk.

Due solely to processing, Carnation Milk produces a unique curd formation — tensionless, flocculent. *The modification of cow's milk proteins essential for this curd formation occurs during the final sterilising — a process exclusive to evaporated milk.* This terminal heating induces:—

1 An increase in casein particle size together with expulsion of some "bound" water.

2 A change in the calcium salts in which there is a combining action with the phosphate ions to form colloid or semi-colloid phosphates of calcium.

These changes result in (a) soft curd properties when Carnation is acted upon by hydrogen ions in the range of gastric acidity, and (b) a reduced intensity of the

calcium-casein coagulating mechanism.

The extreme range of digestibility and tolerance of proteins, as found in Carnation Milk, is the practical advantage at the disposal of all physicians who are concerned with infant feeding. Other highly desirable advantages to those prescribing Carnation are:—

- 1 Safety, because of sterilisation after the Carnation cans are sealed.
- 2 Hypo-allergenic properties.
- 3 Uniformity—due to standardisation of solids.
- 4 Prophylactic D₃.
- 5 Permanently emulsified butterfat.
- 6 Accuracy of measurement.

"The Feeding of Infants"—a book specially for doctors—together with reprints of clinical investigations and Carnation feeding charts are available from:—Medical Department, General Milk Products Limited, Bush House, Aldwych, London, W.C.2.

Carnation Milk "from contented cows"

today's new
MASTER PLAN
against
migraine

Each tablet contains
 ergotamine tartrate 2 mgm.;
 caffeine (alkaloid) 100 mgm.;
 cyclizine hydrochloride 50 mgm.
In bottles of 10 and 100

The prescribing of 'Migril' makes possible at last a *planned* attack upon the three predominant symptoms of migraine. Ergotamine is present at strength in 'Migril' for its specific effect upon the characteristic headache and ocular disturbances. Caffeine is present too, since it acts as a synergist to ergotamine. Frequently, however, ergotamine tends to evoke nausea and vomiting on its own account and can therefore worsen these aspects of the condition. For this reason, the potent, rapidly acting anti-emetic cyclizine is also included in 'Migril'—to overcome any tendency to nausea or vomiting, whether caused by the ergotamine or by the condition itself. And so successfully does cyclizine achieve this aim that truly effective oral doses of ergotamine can today be given—by means of 'Migril'.

Better relief for Arthritics—minimum side effects

In salicylate therapy BUFFERIN (Antacid Analgesic) has these two special advantages. It is *faster-acting*—twice as fast as ordinary aspirin. It is *better-tolerated*—even in large doses, as for arthritis.

According to a British survey, as many as 42% of arthritics are intolerant to aspirin. And in a blind trial among arthritics with a *proved* intolerance to aspirin, 70% had no gastric symptoms after taking large doses of BUFFERIN over periods of 4 to 16 months. (1)

In clinical tests, it was shown that BUFFERIN raises the salicylate blood level of humans more than 20% higher in *ten* minutes than ordinary aspirin does in *twenty* minutes.

Hence the importance of BUFFERIN in all salicylate therapy. Only BUFFERIN contains the antacid agents which:—

- ★reduce gastric upset to a negligible minimum (2) (3);
- ★actually speed the pain-relieving ingredient into the bloodstream (4) (5).

It acts faster. It is better tolerated. It contains no sodium.

'Dettol' is active...

REGD

against both Gram-positive and
Gram-negative micro-organisms.

Under standard conditions of test a dilution of
1 in 200 kills Staph. aureus in 10 minutes;
a 1 in 500 dilution kills Strep. pyogenes
in 10 minutes, and a 1 in 250 dilution kills Bact.
coli in 10 minutes.

'Dettol' retains a high degree of efficiency in the presence
of organic matter.

'Dettol' is not incompatible with soap, traces of which
need not be removed before application.

'Dettol' is non-poisonous and non-staining.

'Dettol' is well tolerated by the skin and tissues.

INSTRUMENT 'DETTOL'

Instrument Dettol is widely used as a most effective and practical means of disinfecting surgical instruments—steel, stainless steel and plated, as well as glassware, rubber appliances and nylon sutures.

SURGICAL 'DETTOL'

Surgical Dettol is a specially formulated tincture for the surgical preparation

of the skin. It remains actively bactericidal for a considerable period after drying. It dries quickly and leaves a non-slippery surface. Bactericidal action is not adversely affected by the use of ordinary soap solutions. Surgical Dettol in clinical use has proved non-toxic and non-irritant when used in accordance with the directions.

Turning

TETRACYCLINE

to the very best advantage

Medical history has already reserved a special place for ACHROMYCIN tetracycline because of its impressive therapeutic potency and remarkably broad spectrum. Now, with the advent of ACHROMYCIN V, the therapeutic merits of tetracycline are turned to still greater advantage. Presenting tetracycline in company with sodium metaphosphate, ACHROMYCIN V achieves swifter, more efficient, more complete absorption. As a result, the therapy becomes still more secure, without any increase in daily dosage or cost. Customary adult dosage is a single capsule (250 mg.) four times daily—though this may safely be increased in unusually severe conditions.

ACHROMYCIN*

TETRACYCLINE WITH SODIUM METAPHOSPHATE

*REGD. TRADE MARK

Each oral capsule contains ACHROMYCIN tetracycline 250 mg; Sodium Metaphosphate, 380 mg. Bottles of 16, 100 and 1,000. ACHROMYCIN V is also available as an orange-flavoured syrup containing in each 5 c.c. 125 mg. of tetracycline activity. Bottles of 2 and 16 fl. oz.

But there are other ways—

In dealing with seborrhoea capitis

Genisol and Sebigen offer the physician an effective and economical treatment for seborrhoea capitis.

Simple seborrhoea

can be brought under control by the weekly use of Genisol, which is applied in the manner of a shampoo. Genisol has been formulated to remove the loose scales, at the same time stimulating the production of normal tissue:

the inclusion of hexachlorophene prevents aggravation of the condition by bacterial invasion.

Persistent seborrhoea capitis

quickly responds to the combined treatment of Genisol-Sebigen. Sebigen should be rubbed into the scalp twice daily through numerous partings in the hair, followed by frequent applications of Genisol as directed.

Genatosan Limited, Loughborough, Leicestershire

'RAUWILOID'

is essential
for Hypertension

'Rauwiloid', a purified and standardised fraction of *Rauwolfia serpentina* alkaloids, can be considered a basic treatment for hypertension. It lowers blood pressure more effectively than phenobarbitone or its combinations with theobromine and is less likely to cause depression than reserpine.

IMPORTANT

'Rauwiloid' may require more than a week for a significant anti-hypertensive effect to develop. Any previous treatment, particularly barbiturate, should be gradually reduced over this period.

In Mild to Moderate Hypertension

In most cases 'Rauwiloid' will provide adequate control by itself. Combination therapy is not necessary.

In Moderate to Severe Hypertension

When a greater hypotensive effect is required, 'Rauwiloid' should be combined with veratrum in the form of 'Rauwiloid + Veriloid'. 'Veriloid' is a biologically standardised alkaloidal extract of *Veratrum viride*. Such a combination with 'Rauwiloid' enables adequate doses of veratrum to be given for a satisfactory hypotensive response.

(See detailed literature).

In Severe or Malignant Hypertension

'Rauwiloid' used in conjunction with ganglionic blocking agents enables a smaller dose of the more potent medicament to be used, thereby minimising side-effects and decreasing the tendency for tolerance to develop.

'Rauwiloid' is available in 2 mg. tablets in bottles of 60 and 500.
Dosage, two tablets at night.

'Rauwiloid' and 'Veriloid' are registered trade marks

Insomnia in the aged

Not only for its valuable properties as a daytime sedative has MILTOWN meprobamate become so universally prescribed. Doctors have come to recognise its special virtues as a safe reliable dormifacient—particularly in the ageing patient. MILTOWN brings a release from worry and tension that prevent the natural onset of sleep. It induces a composure of mind and body that enables the patient to drift naturally into sleep. After two tablets of MILTOWN—one hour before retiring, sleep is restful and usually dreamless. It is also free from the narcosis that often follows other conventional sedatives.

Why *suspension* Chloromycetin Palmitate?

Because the use of an insoluble Palmitate ester of Chloromycetin* overcomes the problem of administering the bitter-tasting parent antibiotic to children who cannot swallow capsules. The palatable suspension evolved provides easy and flexible dosage and readily permits hydrolysis in the alimentary tract to release pure Chloromycetin. With these advantages Suspension Chloromycetin Palmitate is of exceptional value in the treatment of many serious respiratory and gastro-intestinal infections.

VARICOSE ULCERS

The non-adhering properties of Johnson's 'N-A' Dressings, used in conjunction with Gauze and JOHNSON'S POROUS ELASTIC ADHESIVE BANDAGES, prevent healthy granulating tissues from being disturbed when wounds are re-dressed. Dressing needs to be done less often and healing is quicker. The free passage of exudates is facilitated and there is no maceration of tissues.

BURNS AND GENERAL PURPOSES

Johnson's 'N-A' dressings have been used in burn treatment and also for cuts and abrasions for which they have proved of particular value because of their non-adhering and non-macerating properties.

PREVENTS MACERATION ALLOWS FREE DRAINAGE PROMOTES QUICKER HEALING

Johnson's 'N-A' Dressing is a pure rayon dressing which is non-adhering. This property, together with the essential requirement of allowing free drainage of exudates (resulting in freedom from maceration), makes this dressing superior to traditional materials. Johnson's 'N-A' Dressings are sterilized, unmedicated, and do not disturb healing tissues.

3 1/2" x 3 1/2" dressings in double-wrapped sealed envelopes, supplied in cartons of 36. Price to hospitals 12/- per carton.

Analgesic administration to children

Whether for analgesic or antipyretic purposes 'Angiers' is the ideal aspirin for administration to young patients. Parents, too, gain peace of mind.

'Angiers' is pure aspirin, in tiny pink $1\frac{1}{4}$ grain tablets, orange-flavoured and pleasant to suck, chew or swallow. They disintegrate as rapidly in the stomach as they do in milk, water or the salivary juices of the mouth.

Each 'Angiers' Tablet also contains 1.50 grains of Dicalcium Phosphate, to check any possible salicylic irritation of sensitive stomachs.

*Dispensing Pack (500 tablets)
Also from all chemists in bottles of
50 tablets at 1/7d. including P.T.*

Sunshine and Warmth for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions. Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

Philips Infra-red **INFRAPHIL**

Philips Infraphil was used in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain.

For AC/DC Mains 110-250 volts. Please state voltage when ordering.

Infraphil Infra-red Lamp Price: £3 3s. 0d. also available de-luxe model 'A' Price: £4 4s. 0d.

Philips Ultra-violet **SUNLAMP**

Philips Sunlamp gives the blessing of "Mountain sunshine"—a boon in convalescence, and as many doctors know, is useful for treating skin troubles, such as psoriasis. Available for AC Mains only 200-250 volts.

Ultra-violet Sunlamp Price: £5 17s. 6d.

Leukaematous and venous ulcer of the leg treated by LESTREFLEX STRAPPING

The diagram on the left shows the case of an ulcer $5\frac{1}{2}$ in. \times $9\frac{1}{2}$ in., treated with compression bandaging by Lestreflex Diachylon.

Healing took 7 months.

The photograph shows a sound scar seen 14 months later.

The pressure bandaging was maintained for 1 year, changed every 6 to 7 weeks.

Use Dalzoband Zinc Paste bandage as an under-cover for sensitive skins.

For pressure therapy in connection with the treatment of Varicose Veins, Dalzofam is recommended.

Mas cura la dieta que la lanceta

A good diet cures more
than the lancet.

(Spanish Proverb)

SINCE we all suffer at some time, many of us all the time, from such culinary curses of the age as harmful food processing—days-old vegetables—an emasculated loaf—*Supavite is good for everyone.* But over and above that basic truism you will know many categories among your patients for whom a food supplement of the calibre and comprehensiveness of Supavite is more than good—is maybe vital. Old people with inadequate shopping and cooking facilities, women in pregnancy and lactation, men undergoing heavy physical stress, convalescents, patients who have no appetite or must diet, ailing children—Supavite is their manna in the wilderness. Any clinical or sub-clinical state involving (or likely to lead to) mild vitamin deficiency is a cry for Supavite, which contains not only the essential vitamins but also the trace-elements necessary both in themselves and for proper utilization of the vitamins.

CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post—inland and overseas, 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It contains thirty-nine articles comprising a series specially written for the *British Medical Journal*. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

Obtainable from booksellers or by post from Publishing Manager

made by CADBURY'S

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent ★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★ *SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

POSTS AS RESIDENT AND ASSISTANT RESIDENT IN PAEDIATRICS are available as of June, 1958, at the Children's Hospital, Halifax, Nova Scotia. This Hospital is approved by the Royal College of Physicians and Surgeons to provide two years' training towards certification in Paediatrics. Salaries provided are: \$150.00 per month plus full maintenance for post of Chief Resident, \$125.00 per month plus full maintenance for Assistant Resident (above salaries to be reviewed). Application forms and any further information are available on request from: C. F. Matheson, Administrator, The Children's Hospital, Halifax, Nova Scotia. (3986)

UNIVERSITY COLLEGE HOSPITAL
Ibadan, Nigeria**REGISTRAR, Department of Surgery**

The Board of Management invite applications from medical practitioners with the necessary experience, as Registrar in the Department of Surgery in the newly completed hospital. The salary offered for the post is £1,164 per annum, plus an inducement allowance for expatriate officers of £270 per annum. The appointments will be initially for one tour of 12 months, and will be renewable by mutual agreement for a further tour of 12 months at a salary of £1,212 per annum. On satisfactory completion of the agreement, a gratuity of £37 10s. will be paid for each completed period of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 8½% of salary, excluding inducement allowance, and an expatriate doctor appointed will be eligible for seven days' leave on full pay for each completed month of service in Nigeria. A Nigerian doctor qualifies for either five days' or seven days' leave for each completed month of service. Free first-class passages are provided for expatriate doctors and their wives on first appointment and on completion of the agreement. Free first-class passages to Nigeria will, in certain circumstances, be provided for non-expatriate doctors. Free first-class passages will be provided for vacation leave. Candidates will be eligible for children's allowances in accordance with existing regulations. Arrangements can be made to enable doctors to continue their N.H.S. Superannuation Scheme contributions, and details of the revised salary and gratuity payable in such cases will accompany application forms. Applications should be submitted not later than January 25, 1958, on the appropriate forms, which will be forwarded, together with additional information, on receipt of an addressed envelope by the Adviser on Staff Recruitment, London Office, (University College Hospital, Ibadan), 57, Catherine Place, Palace Street, London, S.W.1. (4362)

UNIVERSITY COLLEGE HOSPITAL OF THE WEST INDIES**Applications are invited for the post of REGISTRAR OR SENIOR REGISTRAR IN PAEDIATRICS**

at the above-named Teaching Hospital. The successful candidate will be required to commence duties on or about February 1, 1958. The appointment is for one year in the first instance, and the salary will be within the scale \$900 by \$100 to \$1,000; \$1,200 by \$100 to \$1,500 per annum, depending on previous experience and qualifications. Unfurnished accommodation will be provided at a rental of 5% of salary. Return passages from and to the country of recruitment will be provided for the successful candidate only. Further information may be obtained from the Hospital Manager and Secretary, University College Hospital of the West Indies, Mona P.O., Jamaica, B.W.I., to whom applications, stating age, nationality, qualifications and experience, together with the names and addresses of three referees, should be sent not later than January 25, 1958. (3974)

UNIVERSITY OF ROCHESTER MEDICAL CENTER, Rochester, New York, U.S.A.

Applications are invited from male practitioners for the appointment of

INSTRUCTOR IN ANAESTHESIA

Applicants should have an interest in the academic aspects of Anaesthesia, have had at least two years' training in the specialty and be between the ages of 26 and 33. Possession of a degree in medicine of a United States or United Kingdom university is essential. The salary is \$6,000 per annum and is approximately equivalent in purchasing power to that of £1,200 in Great Britain. Appointment will be for two years in the first instance with possibility of promotion to permanent status. Approximately two-thirds of the appointee's time will be spent in clinical work for all types of surgery and one-third will be devoted to the teaching of medical students and interns in the operating theatres. The post is approximately equivalent in status to that of Registrar in the N.H.S. and the Instructor will be required to perform a proportion of night duty in the Hospital. Modest facilities for laboratory and/or clinical investigation are available and aptitude for research will be an advantage. Duties to begin on, or soon after, April 1, 1958. Applications, including nationality, family state, and the names of three referees, should reach Dr. D. Vernon Thomas, Head, Division of Anaesthesia, within four weeks of the publication of this advertisement. (4275)

Oversea (Vacant)—contd.

U.S.A. MUHLENBERG HOSPITAL, PLAIN-FIELD, N.J. Internship, 400-bed hospital, 25 miles from New York City. Teaching programme directed by Johns Hopkins faculty member. \$140 monthly stipend plus full maintenance. Transportation advanced. Inquiries to Director. (8295)

WAIPIATA SANATORIUM COMMITTEE**ASSISTANT MEDICAL SUPERINTENDENT**

Applications are invited for the position of whole-time Assistant Medical Superintendent at the Committee's institution of 152 established beds for the treatment of pulmonary tuberculosis. Candidates should hold a higher qualification appropriate to the specialty and have had two years or more in that specialty or been qualified for more than six years and had over three years' practical experience in the specialty to qualify for the status of Junior Specialist, which carries a salary of from £1,640 to £1,940 per annum. The commencing rate is subject to determination by the Salaries Grading Committee according to qualifications, etc. An unfurnished house is available at a rental of £110 per annum. Conditions of appointment may be obtained on application to the Secretary, with whom applications close on January 25, 1958.—P. D. Edmonds, Secretary, Orangapali, Central Otago, New Zealand. (3996)

WESTERN AUSTRALIA

State Public Service, Department of Public Health

DIRECTOR, Laboratory Services

Salary: Within the range £A.2,930 to £A.3,400 (gross) per annum, according to qualifications and experience.

Duties: Microbiology in relation to diagnosis, general epidemiology, water and food; includes some industrial pathology and other laboratory activities. The Central Laboratory maintains a close liaison with the University's Department of Microbiology. Also connected with a chest hospital of 200 beds and several country hospitals where subsidiary laboratories are being established.

Transport: A reasonable amount will be allowed for transport of appointee and dependent family to W.A. provided appointee enters into bond to serve the State for period of at least three years.

Conditions of Service: Superannuation benefits, long service leave (three months after each period of seven years' continuous service), liberal sick leave, and other conditions applicable to permanent officers under the Public Service Act.

Further information may be obtained from the undermentioned.

Applications, closing February 11, 1958, stating age, marital status, qualifications and experience, should be forwarded, in duplicate, to Western Australian Government Office, 115, Strand, London, W.C.2. (4208)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****THE NUFFIELD FOUNDATION****DENTAL FELLOWSHIPS AND SCHOLARSHIPS**

The Nuffield Foundation invites applications from citizens of the United Kingdom, for Fellowships and Scholarships in Dentistry. To help the advancement of teaching and research in the United Kingdom on dental health and disease, the Foundation is prepared to award a number of Fellowships, (a) to enable selected men and women with dental qualifications to receive such additional training in pure and applied science as is desirable to fit them for an academic career in dentistry (but not to obtain a medical qualification); and (b) to enable selected university graduates in medicine and science to receive training that will qualify them to undertake teaching and fundamental research on dental health and disease. The Foundation is also prepared to award a limited number of Scholarships to assist students of outstanding ability attending a university dental school to devote one or two years to further studies of the basic sciences. All applications must first be endorsed by the executive authority of the appropriate dental or medical school or scientific faculty of a university in the United Kingdom. They must be received by the Foundation by March 1 in the case of Fellowships, which are awarded once a year, and by January 31 and June 30 in the case of Scholarships, which are awarded twice a year. Copies of the conditions of both Fellowships and Scholarships and the application forms are obtainable from the Director, the Nuffield Foundation, Nuffield Lodge, Regent's Park, London, N.W.1.—L. Farrer-Brown, Director of the Nuffield Foundation. (9703)

THE UNIVERSITY OF LIVERPOOL

Applications are invited for the post of **LECTURER or SENIOR LECTURER in the Department of Tropical Hygiene** in the School of Tropical Medicine, at an initial salary within the range £1,200 to £2,000 per annum for a Lecturer, and £1,800 to £2,000 per annum for a Senior Lecturer, according to qualifications and experience. Applications, stating age, academic qualifications and experience, together with the names of three referees, should be received not later than March 31, 1958, by the Registrar, from whom further particulars of the conditions of appointment may be obtained. (4222)

**UNIVERSITY OF BIRMINGHAM
Faculty of Medicine
Department of Social Medicine**

Applications are invited from medical graduates for the post of **LECTURER IN SOCIAL MEDICINE (Clinical)** Salary according to qualifications and experience in the range of £900 to £1,950 per annum. Six copies of the application, together with the names of three referees, should be sent not later than February 15, 1958, to the Assistant Registrar, the Medical School, Birmingham, 15, from whom further particulars of the conditions of appointment may be obtained. (4242)

**UNIVERSITY OF DURHAM (Medical School,
King's College, Newcastle upon Tyne) and
UNITED NEWCASTLE UPON TYNE
HOSPITALS**

The University of Durham and the Board of Governors of the United Newcastle upon Tyne Hospitals together, intend to make a combined whole-time appointment of

**PROFESSOR OF DERMATOLOGY AND
CONSULTANT DERMATOLOGIST**

with the special object of fostering research and clinical development in dermatology. During the first five years the holder of the dual appointment will be remunerated as a Consultant by the Board of Governors and his appointment with the university will be honorary. At the end of this period he will be paid as a Professor by the Council of King's College, Newcastle upon Tyne, on behalf of the University and will hold an honorary appointment as Consultant with the Board of Governors. Applications are invited for the dual appointment, further particulars of which may be obtained from the undersigned, with whom 16 copies of application should be lodged not later than May 1, 1958. Candidates outside the British Isles may submit one copy only.—E. M. Bettenson, Registrar, University Office, 46, North Bailey, Durham. (4447)

UNIVERSITY OF EDINBURGH

Applications are invited for **I.C.I. RESEARCH FELLOWSHIPS** in Biochemistry, Chemistry, Engineering, Pharmacology, Physics, Chemical Technology, or Chemical Engineering, to which some appointments will date from October 1, 1958 (or earlier in the case of selected candidates who may be available before that date). The salary will depend upon qualifications and experience, but will normally be within the range £800 to £1,600 per annum, together with F.S.S.U. benefits and family allowance. Forms of application and further particulars may be obtained from the undersigned. Applications (two copies) should be submitted not later than February 15, 1958. Charles H. Stewart, Secretary to the University. (4344)

PERSONAL

MR. ARTHUR SHAW, MEDICAL AGENT, anticipates that the Book which he has written will be published during 1958. Publication date will be announced later.

NOTICES

APPLICANTS ARE ADVISED NOT TO SEND original testimonials when replying to advertisements. Copies will answer the purpose quite as well, and in the event of their being lost or mislaid, no inconvenience will ensue.

**THE LEICESTER ROYAL INFIRMARY
REUNION DINNER**

There is to be a Reunion Dinner for Old Residents of the Leicester Royal Infirmary, at the Grand Hotel, Leicester, on Friday, May 2, 1958. Any Old Resident whose address is known will receive notice of this dinner early in the New Year. Will Old Residents who do not receive this notice, and who wish to attend, please communicate with the Dinner Secretary, L.R.I. (4124)

Anyone interested should apply to J. A. Kemp & Co., 9, Staple Inn, London, W.C.1.

**UNIVERSITY OF LONDON
FACULTY OF MEDICINE
Degree of Doctor of Medicine (M.D.)**

An important change in the Regulations for the Degree of Doctor of Medicine (M.D.) in the University of London will take effect from October 1, 1958. After that date the Degree of M.D. may be obtained by the presentation of a thesis dealing with General Medicine or with some special branch of Medicine (including Pathology) not less than seven years after full registration with the General Medical Council. Nevertheless, a candidate who has held an approved appointment in an approved hospital for not less than one year may be allowed to submit his entry for the M.D. Degree not less than four years after full registration with the General Medical Council.

The Part I Examination under present Regulations will be held for the last time in July, 1958. A candidate who has passed or obtained exemption from the Part I Examination will be allowed to present his thesis not less than four years after full registration with the General Medical Council.

A candidate for admission to the M.D. Degree must have obtained the M.B., B.S. Degrees of this University.

Copies of the revised M.D. Regulations may be obtained from the undersigned.—James Henderson, Academic Registrar. (4324)
