

TRYPTAR

OINTMENT

For RAPID and EFFICIENT Wound Healing

Wounds are assisted to quicker natural healing by removal of tissue debris and prevention or reduction of bacterial infection.

TRYPTAR OINTMENT supplies these factors by the combined action of two Proteolytic Enzymes, **Trypsin and Chymotrypsin** together with two Topical Antibiotics, **Bacitracin and Polymixin** in a special hydrophilic base.

TRYPTAR OINTMENT is of special value in the resolution and healing of Varicose Ulcers.

Tubes of $\frac{1}{2}$ oz. (14.2 Gramme).

Management of COMPLICATIONS IN EYE SURGERY

Twenty-one famous authorities combined to describe the complications possible in every conceivable eye operation. They explain specific measures to avoid each of the various pitfalls and describe effective management techniques in emergencies.

Edited by R. M. FASANELLA, *Chairman, Section of Ophthalmology, Yale University School of Medicine.* 422 pages, with 209 illus.

Dripps' INTRODUCTION TO ANESTHESIA

A compact presentation of just the information most physicians want on anaesthesia. It is packed with hundreds of facts rarely included in existing works on the subject. The authors are men of the widest experience in their field.

By ROBERT D. DRIPPS, *Chairman, Department of Anesthesiology*; JAMES E. ECKENHOFF, *Professor of Anesthesiology, University of Michigan*; LEROY D. VANDAM, *Professor of Anesthesia, Harvard Medical School.* 266 pages, illustrated.

Tonkin's STORY OF PEPTIC ULCER—A book for the patient

This book offers a refreshingly new possibility in therapeutics. If you prescribe it to your patients your own task will be made easier. Dyspeptics, like diabetics, gain immeasurable advantage from a simple understanding of their condition. With the beguiling illustrations, this colourful little manual explains in a brilliantly clear fashion just what a peptic ulcer is and must follow certain simple rules of diet, rest and optimistic outlook. It's so sound in its ideas and so amusing in its presentation that you will wish you knew more ulcer sufferers that you might recommend it to.

By RICHARD D. TONKIN, M.D., F.R.C.P., *Westminster Hospital, London.* 70 pages.

Artz & Reiss' TREATMENT OF BURNS

A complete description and evaluation of to-day's most effective treatment measures in all types of burns.

By CURTIS P. ARTZ, *Professor of Surgery, University of Mississippi*; and ERIC REISS, *Instructor in Medicine, University of Washington.* 250 pages.

ACUTE CHEST INFECTIONS

In children
In the elderly
In cardiovascular
patients
Complicating
existing illness

Patients in these four groups of cases are especially prone to develop fulminating—and possibly fatal—infections. In treating such people the niceties of diagnosis and treatment—laboratory tests and the successive use of

various antibiotics—must often give place to *immediate* and *empirical* chemotherapy. The antibiotic needed is that which is most likely to establish control completely, quickly, and with the lowest risk of side effects.

A completely effective all-purpose oral diuretic

New Era in Diuretic Therapy

For the first time, there is available a non-mercurial diuretic agent which, when administered ORALLY, is usually completely free from side-effects, has no known contra-indications, and is effective in the treatment of oedema of all degrees of severity—often when ALL other diuretics have failed.

This agent is

SALURIC

(Chlorothiazide)

discovered in the **MERCK SHARP & DOHME RESEARCH LABORATORIES**

SALURIC

replaces **ALL** other diuretics because—

- 1 'SALURIC' has a wider *effective* range of clinical application than any other diuretic.
- 2 'SALURIC' is usually effective when all other diuretics—including *mersalyl*—have failed.
- 3 'SALURIC' is administered *orally*, yet can replace parenteral *mercurials*.
- 4 'SALURIC' is effective in oedema of *all grades of severity*.
- 5 'SALURIC' promotes diuresis of a urine containing sodium *and chloride in proper proportions*.
- 6 'SALURIC' may be used for *initial and maintenance therapy*. Refractoriness *does not develop*, even on prolonged administration.
- 7 'SALURIC' is readily accepted by the patient since *gastro-intestinal upsets are very rare*. Early completion of diuresis allows an uninterrupted night's sleep.
- 8 'SALURIC' *is not toxic*. No toxic effects have been reported even during prolonged administration.
- 9 'SALURIC' can be used in the presence of severe cardiac, renal or hepatic disease.

No contra-indications have been demonstrated.

The following conditions have been treated:

Congestive Cardiac Failure
The Nephrotic Syndrome
Acute and Chronic Glomerulonephritis
Ascites and Oedema due to Liver Cirrhosis
Oedema associated with Pre-eclamptic Toxaemia
Pre-menstrual Tension Oedema
Oedema associated with Obesity
Oedema induced by Adreno-cortical Steroids

Literature will gladly be
supplied on request.

Chlorothiazide

How supplied: 0.5 G. half-scored tablets in bottles of 100 and 500. The basic N.H.S. cost of an average week's treatment for a patient on maintenance therapy is 3/9d.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS.

"All right Mr. Baxter, shall we continue? . . .

. . . now that you seem to be getting the idea, just let me reiterate that I.Z.S., as you so neatly put it, 'has something the other insulins haven't got.' In other words, in about 90 per cent. of patients the blood-sugar level can be controlled for up to 24 hours with a single injection of I.Z.S.

When you compare the various insulins available, you'll find that no other form is so universal in its application as I.Z.S. This is, among other things, because I.Z.S. does not contain any protein or peptide material other than the insulin itself, and is therefore practically free of any allergic reactions. Perhaps Mr. Baxter will now give others a chance to raise their questions."

Elastoplast

Trade Mark

as an alternative to the conventional many-tailed bandage

When frequent dressings are necessary, the following method of applying Elastoplast may be used as a substitute for an abdominal many-tailed bandage.

Six pieces, each about 12 inches in length, are prepared from a 3-inch wide Elastoplast bandage. Tapes are attached as illustrated (Fig. 1), and the completed pieces applied to the body from each side (Fig. 2). The tapes are tied over the dressing covering the wound (Fig. 3). The bandage may be applied by one person without disturbing the patient. It is easily made, provides adequate support and will remain firmly in position.

The above method is comfortable in use as the patient does not have to wear perineal stirrups to keep the bandage in place, or to lie on a bandage which may become "rucked-up" — disadvantages associated with the flannelette type of many-tailed bandage.

ELASTOPLAST

Elastic adhesive bandages (Porous) B.P.C.

Available in 2", 2½", 3" and 4" widths by 3 yards

Insomnia in the aged

Not only for its valuable properties as a daytime sedative has MILTOWN meprobamate become so universally prescribed. Doctors have come to recognise its special virtues as a safe reliable dormifacient—particularly in the ageing patient. MILTOWN brings a release from worry and tension that prevent the natural onset of sleep. It induces a composure of mind and body that enables the patient to drift naturally into sleep. After two tablets of MILTOWN—one hour before retiring, sleep is restful and usually dreamless. It is also free from the narcosis that often follows other conventional sedatives.

CODIS
Analgesic Sedative Antipyretic

"CODIS" is a combination of aspirin, phenacetin, and codeine phosphate—a combination well known and accepted medically as giving pain relief in a wide range of conditions.

The unique feature of the "CODIS" tablets is that the aspirin content is soluble in water. This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

CODIS AND SOLUBILITY

THE GREAT ADVANTAGE of Codis is that it provides a codeine compound tablet in which the aspirin content is soluble in water. (The codeine constituent is also soluble, and the phenacetin is in very fine suspension.)

This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

today's new
MASTER PLAN
against
migraine

Each tablet contains
 ergotamine tartrate 2 mgm.;
 caffeine (alkaloid) 100 mgm.;
 cyclizine hydrochloride 50 mgm.

In bottles of 10 and 100

The prescribing of 'Migril' makes possible at last a *planned* attack upon the three predominant symptoms of migraine. Ergotamine is present at strength in 'Migril' for its specific effect upon the characteristic headache and ocular disturbances. Caffeine is present too, since it acts as a synergist to ergotamine. Frequently, however, ergotamine tends to evoke nausea and vomiting on its own account and can therefore worsen these aspects of the condition. For this reason, the potent, rapidly acting anti-emetic cyclizine is also included in 'Migril'—to overcome any tendency to nausea or vomiting, whether caused by the ergotamine or by the condition itself. And so successfully does cyclizine achieve this aim that truly effective oral doses of ergotamine can today be given—by means of 'Migril'.

In the Service...

Research

The House of Wander continues to maintain its advanced position in pharmaceuticals and quality food products because the standardization of active ingredients during manufacture is backed by careful control and investigation in its extensive Research Laboratories.

In Quality

The Wander Research Laboratories have made useful contributions in the fields of dietetics, nutrition and vitamins. Their wide experience and up-to-date laboratory facilities help to maintain the high quality of Malt Extract and Cod Liver Oil (Wander), the vitamin content of which exceeds that of the analogous B.P. preparations.

R Malt & Oil WANDER

The special consideration of physicians when prescribing a malt and oil preparation is that of vitamin values. Comparative studies prove that to prescribe "Wander Brand" is to specify malt extract and cod liver oil of the finest possible quality.

In the Service of Medicine

Careful control and investigation help to maintain "Wander Brand" in the forefront of its class. Moreover, with all its special advantages, "Wander Brand" costs no more than some malt and oil preparations with a lower vitamin content.

EAR WAX Removed this easy way

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances.

Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.):— *p*-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; Ol. Terebinth B.P., 15 c.c.

PACKS:—For Surgery Use: 10 c.c. vial—separate dropper included. (Basic N.H.S. price 2/8.) For Hospital Use: 2 oz. and 10 oz. bottles.

Turning

TETRACYCLINE

to the very best advantage

Medical history has already reserved a special place for ACHROMYCIN tetracycline because of its impressive therapeutic potency and remarkably broad spectrum. Now, with the advent of ACHROMYCIN V, the therapeutic merits of tetracycline are turned to still greater advantage. Presenting tetracycline in company with sodium metaphosphate, ACHROMYCIN V achieves swifter, more efficient, more complete absorption. As a result, the therapy becomes still more secure, without any increase in daily dosage or cost. Customary adult dosage is a single capsule (250 mg.) four times daily—though this may safely be increased in unusually severe conditions.

In the re-integration of the epileptic patient

'Mysoline' not only reduces the frequency and severity of epileptic attacks, but also produces a marked sense of well-being. The patient is encouraged to take a renewed and more vigorous interest in life and to become a self-supporting member of the community.

For these reasons it is often advantageous to use 'Mysoline' in cases already controlled by other drugs, but in which a heightened interest and improved performance is desirable. Universally

acknowledged as a major advance, 'Mysoline' is indicated in all the manifestations of epilepsy.

'Mysoline', an outstandingly safe and effective anticonvulsant, is available as tablets of 0.25 g. and as a palatable oral suspension.

When food is intolerable . . .

The great charm which Lucozade holds for the invalid palate justifies its use in helping to maintain the level of the blood sugar. Particularly is this so in conditions where all ordinary foods and fluids may be vomited. General medical experience shows that Lucozade is of value wherever the oral administration of glucose is indicated.

Lucozade requires no preparation. It is a lightly carbonated glucose solution with an attractive golden colour and a pleasant citrous flavour. The liquid glucose content is 23.5% w/v or about 21 calories for each fluid ounce.

LUCOZADE

a safe way back

for the woman who worries too much—

ATARAX
brand of hydroxyzine

Atarax offers this woman a safe way back to a balanced, well-adjusted life. Without clouding her consciousness or impairing her ability to 'cope', Atarax restores her peace of mind, gives her an interlude when she can see her real situation, assess her troubles accurately, and apportion her energies accordingly. Above all, Atarax is safe. Even when high dosage is needed it can be given without the risk of uncomfortable or distressing side effects which, so far from helping the patient, merely leave her more troubled than ever.

DOSAGE AND ADMINISTRATION. The dosage of Atarax may be varied widely, depending on the condition of the patient. Atarax should be administered in divided doses throughout the day with meals.

ADULTS. One 25 mg. tablet three or four times daily at appropriate intervals. More serious cases under psychiatric supervision may require doses of 150 mg. to 300 mg. daily. The dosage may be gradually decreased until the minimum effective maintenance dosage for the individual is reached.

CHILDREN. From 3 to 10 years of age, one or two 10 mg. tablets, or teaspoonfuls of Syrup two to four times daily.

Atarax tablets, 10 mg. and 25 mg., in bottles of 20 and 100.
Atarax Syrup, each teaspoonful (5 ml.) containing 10 mg. hydroxyzine, in 4 fl. oz. bottles.

 HOUNSLOW MIDDLESEX

Terramycin*

brand of oxytetracycline

— AN EXPANDING PATTERN OF USEFULNESS

Since the introduction of Terramycin a tremendous body of evidence has been published about this outstanding broad-spectrum antibiotic. Today, its value is known and established in almost every type of disease where infection is a factor. Following the course of this development we have introduced a wide variety of dosage forms, so that the clinical effectiveness of Terramycin should be enhanced by convenience and acceptability of presentation.

The very bulk of the available evidence becomes almost an embarrassment to the busy practitioner who—having accepted the clinical value of Terramycin—wants a concise picture of indications, dosage, therapeutic effect, and possible side effects, in some specific condition. To overcome this problem we are preparing a series of brief monographs on the use of Terramycin in specific groups of indications. The first of these, 'Terramycin in the treatment of Bronchitis and Bronchiectasis', will be available shortly.

Experience guides your choice of HEALTH LAMPS

Make sure that your patients, too, have this advantage. When they obtain prescriptions for 'home use' health lamps, it will help them greatly if you recommend the best. For forty years Hanovia have supplied actino-therapy equipment to hospitals and clinics and their name has become synonymous with ultra-violet treatment. Hanovia prescription health lamps can be judged by the same standards and you can recommend them to your patients with complete confidence.

Full details of all Hanovia health lamps available on request.

Obstetrician's Ode

When Obstetricians meet and chat
They talk of this and talk of that.
The treatment mentioned more than others
Is Guinness for the Nursing Mothers.
For Guinness is and Guinness was
The best galactagogue, because
Their cares and worries whisked away
Those Mothers thrive from day to day
(And hope their babes, the little tinkers,
Will also turn out Guinness drinkers !)

NOTE—The therapeutic dose for Lactating Mothers is increased considerably when dealing with Celebrating Fathers !

Copyright

Trained Retailer-Fitters resident throughout the Kingdom; name and address of nearest Fitter supplied on request.

Every SPENCER Support meets these 5 requirements

1. Every Spencer is designed to order, cut by hand and made separately for each individual patient.
2. It is made to fit the body—not as it is—but as it should be to meet the medical aims.
3. The weight of supporting the abdomen is placed on the pelvis—not on the spine at or above the lumbar region.
4. The abdominal support is from below, upward and backward.
5. Retains its shape. (A support that loses shape loses effectiveness.)

RASTINON

» H O E C H S T «
T O L B U T A M I D E

An oral treatment for diabetes mellitus

EXTENSIVE CLINICAL TRIALS in many countries have shown that Rastinon »Hoechst« tablets provide effective oral treatment for certain types of diabetes mellitus. The initial selection and stabilization of patients to Rastinon therapy should be carried out under strict medical supervision.

Only certain diabetic patients are suitable for treatment with Rastinon »Hoechst«; Tolbutamide.

Each Rastinon tablet contains 0.5 G. of N-Butyl-N'-toluene-p-sulphonylurea (Tolbutamide). Rastinon »Hoechst« was originated in the research laboratory of Farbwerke Hoechst AG., of Frankfurt, under the laboratory number D.860.

Rastinon is now available on form E.C.10 for those patients who have been stabilized under strict medical supervision.

Sunshine and Warmth for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions. Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

Philips Infra-red **INFRAPHIL**

Philips Infraphil was used in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain. For AC/DC Mains 110-250 volts. Please state voltage when ordering.

Infraphil Infra-red Lamp Price: £3 3s. 0d. also available de-luxe model 'A' Price: £4 4s. 0d.

Philips Ultra-violet **SUNLAMP**

Philips Sunlamp gives the blessing of "Mountain sunshine"—a boon in convalescence, and as many doctors know, is useful for treating skin troubles, such as psoriasis. Available for AC Mains only 200-250 volts.

Ultra-violet Sunlamp Price: £5 17s. 6d.

EMERGENCIES IN GENERAL PRACTICE

from the
British Medical Journal

470 Pages, cloth bound,
with full index

PRICE 25s. net

by post: inland and overseas 26s. 9d.

This book deals with medical emergencies in a wide sense: acute clinical emergencies requiring prompt and skilful treatment; conditions such as faints and fits and giddy turns, the careful elucidation of which may mean the difference to a patient between a life of activity and one of restriction; acute psychiatric states; accidents of treatment, such as dangerous reactions to drugs or collapse during anaesthesia; and emergency calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which appeared originally in the *British Medical Journal*.

The author of each is an acknowledged authority. This collection, now revised by the authors, will be of value not only to general practitioners but also to senior students, house-physicians, house-surgeons, and to those supervising their work in hospitals.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

**SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners:** £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners:** £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained by fully registered medical practitioners and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

(5062)

IMPORTANT: All intending applicants should read the revised NOTICE at the top of page 34

ABSTRACTS OF WORLD MEDICINE

Each monthly issue contains abstracts of articles selected for their importance from over 1,600 medical periodicals published throughout the world. *Abstracts of World Medicine* covers the whole field of medicine and brings together from widely scattered sources the most recent contributions to medical progress, abstracted fully enough to indicate their nature and value to the general reader and to enable the specialist to assess their importance in relation to his own work. *Abstracts of World Medicine* provides a guide to the literature in languages with which the reader is unfamiliar and a means of keeping abreast of developments in all branches of medicine.

Annual Subscription (12 issues) £4 4s. U.S.A. and Canada \$13.50

Applications are invited from registered medical practitioners who desire

TRAINING IN ANAESTHESIA

Experience in anaesthesia not essential, but those who have had previous training will also be considered. The post is recognized for D.A. and F.F.A., Canadian Certification, F.R.C.P.(C.) and American Boards. Appointments are for 12 months in the first instance. Salary from \$150 to \$225, according to experience, with full residential emoluments. The position is vacant now, and is to be filled as soon as possible. For further details and application blanks write to Gordon M. Wyant, F.F.A.R.C.S., Professor of Anaesthesia, University Hospital, Saskatoon, Saskatchewan, Canada. (4622)

UNIVERSITY AND RESEARCH**APPOINTMENTS, etc.****ST. THOMAS'S HOSPITAL MEDICAL SCHOOL**

Applications are invited for the post of
SENIOR LECTURER

in the Department of Bacteriology

The initial salary will depend on the age and previous experience of the applicant, but will be between £1,650 and £1,950, with participation in the F.S.S.U. scheme. Applications, stating age, academic qualifications and experience, together with the names of three referees, should be sent as soon as possible to Professor Ronald Hare, from whom further details of the appointment may be obtained. (5065)

**SMITH, KLINE AND FRENCH FELLOWSHIP
IN THE UNIVERSITY OF ST. ANDREWS AND
THE UNIVERSITY OF PENNSYLVANIA**

Applications are invited from those who have an Honours Degree in Chemistry for a training post in biological methods within the Departments of Physiology and of Pharmacology and Therapeutics of the University of St. Andrews, Queen's College, Dundee, and the scientific departments of the University of Pennsylvania. Salary £800 by £50, maximum £900, per annum. The tenure of this Fellowship will be three years. The first two years of the Fellowship will be spent in the University of St. Andrews, and it is probable that the successful candidate will be sent for a further period of training to the scientific laboratories of the University of Pennsylvania during his third year of the Fellowship. Applications, together with the names of three referees, should be submitted to the Professor of Pharmacology and Therapeutics, Queen's College, Dundee, by April 30, 1958. (5012)

THE UNIVERSITY OF MANCHESTER

Applications are invited for the post of

DEMONSTRATOR IN ANATOMY

from candidates with medical qualifications registrable in this country. Salary scale £850 by £50 to £1,000 per annum. Membership of children's allowance scheme. Applications should be sent not later than February 15, 1958, to the Registrar, the University, Manchester, 13, from whom further particulars and forms of application may be obtained. (5101)

THE UNIVERSITY OF LIVERPOOL

Applications are invited for the post of

**LECTURER or SENIOR LECTURER
in the Department of Tropical Hygiene**

in the School of Tropical Medicine, at an initial salary within the range £1,200 to £2,000 per annum for a Lecturer, and £1,800 to £2,000 per annum for a Senior Lecturer, according to qualifications and experience. Applications, stating age, academic qualifications and experience, together with the names of three referees, should be received not later than March 31, 1958, by the Registrar, from whom further particulars of the conditions of appointment may be obtained. (4222)

EDUCATIONAL AND LECTURES

M.R.C.P. LONDON. CORRESPONDENCE
Coaching Course recently prepared by experienced tutors. Includes help with the clinical examination.—Write J. Arnold, 189, Regent Street, W.1.

**GLASGOW POSTGRADUATE MEDICAL
EDUCATION COMMITTEE****REFRESHER COURSE FOR GENERAL
PRACTITIONERS**

A Refresher Course will be held from May 19 to 31, 1958. The greater part of the course will comprise clinical demonstrations, ward visits, and lectures in General Medicine, General Surgery, and Obstetrics, but sessions on Infectious Diseases, Child Health, Dermatology, Ophthalmology, etc., will also be included. The fee for practitioners ineligible for Government grant is 10 guineas.

CHEMOTHERAPY

A short two-day course on the principles and application of Chemotherapy in acute and chronic infections will be held at Ruchill Hospital, Glasgow, on March 22 and 23, 1958. On each day instruction will be given from 9 a.m. to 5 p.m., and will consist of lectures, clinical demonstrations, seminar discussions and demonstrations of laboratory practice. The fee for practitioners ineligible for Government grant is 2 guineas.

Admission to either of the above Courses is limited and early application should be made to the Director of Postgraduate Medical Education, the University, Glasgow, W.2.

CLINICAL ATTACHMENTS

The Committee is prepared to consider applications for postgraduate instruction from graduates studying for higher diplomas. An accepted applicant will be attached to an appropriate unit in a Glasgow teaching hospital for any period up to three months, where he will obtain intensive clinical experience by sharing in the day-to-day routine of diagnosis and treatment. The fee is £5 per month. Applicants should write to the Director of Postgraduate Medical Education, the University, Glasgow, W.2, stating age, qualifications and professional experience, and enclosing two testimonials from Senior Clinicians with whom they have recently been associated. (5081)
