Maintains continuous control of gastric acidity

Until a few years ago, maintained continuous control of gastric acidity was impossible without hospitalization and discomfort to the patient.

Then a unique treatment in the form of Nulacin tablets was evolved to achieve this desirable state—simply, effectively and without attendant disadvantages. In the ensuing period Nulacin therapy has been amply tried and proved by numerous clinical studies and by therapeutic use in many countries.

A Nulacin tablet placed in the mouth between the cheek and the gum dissolves slowly and releases its contained medicaments at a rate that gives continuous neutralization of the acid gastric juice. Nulacin accomplishes this without any danger of causing alkalosis or other side-effects. The results are comparable with those of intragastric milk-alkali drip therapy.

INDICATIONS: NULACIN tablets are indicated whenever neutralization of the acid gastric contents is required: in active and quiescent peptic ulcer, gastritis and other conditions of gastric hyperacidity.

Dosage: Beginning half-an-hour after food, a Nulacin tablet should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity, up to three tablets an hour may be required. During quiescent periods, for prophylaxis in peptic ulcer and for the relief of discomfort due to gastric hyperacidity, the dose of Nulacin is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. They may be prescribed on E.C.10. The dispensing unit of 25 tablets is free of purchase tax. (Basic price to N.H.S....2/-). Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate magnesium trisilicate 3.5 grs.; magnesium oxide 2.0 grs.; calcium carbonate 2.0 grs.; magnesium carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

GASTRIC ANALYSIS Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

GASTRIC ANALYSIS Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

sustained sulphonamide blood-level prolonged therapeutic effect

The new 'prolonged-action' sulphonamide, MIDICEL*, maintains full therapeutic effect with only one tablet daily. Thus, the patient's comfort and convenience are enhanced and nursing care is simplified.

Comparable in price with other sulphonamides MIDICEL provides added advantage without added cost.

Absorption of MIDICEL is rapid and tissue diffusion is good. In the circulation a high proportion of the contained sulphonamide is in the free active form ensuring full therapeutic action.

Recommended Dosage: In adults an initial loading dose of 1 G (in severe infections only, 2 G) followed by 0.5 G daily. In children $\frac{1}{4}$ tablet (0.125 G) for each 20 lb. of bodyweight on the first day followed by half this dosage daily.

Packaging: Tablets of 0.5 G in containers of 12, 100 and 250.

*Trade Mark

The esters of NICOTINIC, SALICYLIC and

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylis and p-aminobenzoic acids. These esters readily pass the skin barrier in the apeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial crythema, but also brings about a deep hyperacmia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. It may be prescribed on Form E.C. 10. Samples and literature will be gladly sent on application

Calcium B-PAS WANDER and B-Pasinah WANDER

*in the*Chemotherapy of Tuberculosis

B-PAS (Wander), 4-benzoylamino-2-hydroxybenzoic acid, first introduced by our Research Laboratories in 1948, is the drug of choice in regimens comprising PAS in concurrent therapy.

In the form of its calcium salt, it provides extended bacteriostatic levels, induces only minimal side-effects as compared with sodium PAS, and because of its high acceptability guarantees as far as possible that patients, particularly on domiciliary treatment, do take their medication.

Available in 3.5 g. envelopes and in 1 g. cachets; and as bulk powder.

'B-PASINAH' is available in two convenient forms:

Powders each containing 3.5 g. calcium B-PAS (Wander) and 87.5 mg. isoniazid.

Cachets each containing 1 g. calcium B-PAS (Wander) and 25 mg. isoniazid.

Why suspension Chloromycetin Palmitate?

Because the use of an insoluble Palmitate ester of Chloromycetin* overcomes the problem of administering the bitter-tasting parent antibiotic to children who cannot swallow capsules. The palatable suspension evolved provides easy and flexible dosage and readily permits hydrolysis in the alimentary tract to release pure Chloromycetin. With these advantages Suspension Chloromycetin Palmitate is of exceptional value in the treatment of many serious respiratory and gastro-intestinal infections.

Wide coverage

W HEN you prescribe 'Sulmezil' V you are prescribing two drugs. The two active ingredients, used together, cover a far wider range of bacteria than either used alone.

One ingredient is penicillin V, the acid stable form of penicillin which is rapidly and efficiently absorbed and gives consistent and reliable blood levels. This form of penicillin has proved to be markedly superior in these respects to other oral penicillin preparations.

Combined with penicillin V is 'Sulphamezathine', which has been widely accepted for many years on account of its high potency coupled with low toxicity. It is undoubtedly the best sulphonamide for routine use.

'Sulmezil' V tablets present these two drugs in a single easily-administered form. Each tablet contains 60 mg. of penicillin V (Calcium Salt) and 0.5 g. of 'Sulphamezathine' (Sulphadimidine). In packs of 25, 100 and 500.

'Sulmezil' |V| tablets

IMPERIAL CHEMICAL INDUSTRIES LIMITED Pharmaceuticals Division Wilmslow Cheshire Ph.753

The introduction of LEDERKYN Sulphamethoxypyridazine has radically changed the pattern of sulphonamide therapy. This is the first long-acting antibacterial sulphonamide to be offered for clinical use, and it is fully effective at a maintenance dosage of only $\frac{1}{2}$ Gm. daily.

This is a reduction of some seven-eighths as compared with the typical sulpha drug dosage i.e. one tablet instead of eight. Improved tolerance and a welcome freedom from side effects result from this dramatic dosage reduction. Moreover, the swift absorption and efficient diffusion of LEDERKYN lend further emphasis to its clinical value—especially in treating genito-urinary infections.

Tablets (0.5 Gm.): bottles of 24, 100 and 500

'RAUWILOID'

is essential for Hypertension

'Rauwiloid', a purified and standardised fraction of Rauwolfia serpentina alkaloids, can be considered a basic treatment for hypertension. It lowers blood pressure more effectively than phenobarbitone or its combinations with theobromine and is less likely to cause depression than reserpine.

IMPORTANT

'Rauwiloid' may require more than a week for a significant anti-hypertensive effect to develop. Any previous treatment, particularly barbiturate, should be gradually reduced over this period.

In Mild to Moderate Hypertension

In most cases 'Rauwiloid' will provide adequate control by itself.

Combination therapy is not necessary.

In Moderate to Severe Hypertension

When a greater hypotensive effect is required, 'Rauwiloid' should be combined with veratrum in the form of 'Rauwiloid + Veriloid'. 'Veriloid' is a biologically standardised alkaloidal extract of Veratrum viride. Such a combination with 'Rauwiloid' enables adequate doses of veratrum to be given for a satisfactory hypotensive response. (See detailed literature).

In Severe or Malignant Hypertension

'Rauwiloid' used in conjunction with ganglionic blocking agents enables a smaller dose of the more potent medicament to be used, thereby minimising side-effects and decreasing the tendency for tolerance to develop.

'Rauwiloid' is available in 2 mg. tablets in bottles of 60 and 500. Dosage, two tablets at night.

'Rauwiloid' and 'Veriloid' are registered trade marks Registered Users

'NICOLANE'

Regd. Trade Mark

Brand of Narcotine Linctus

A NEW Cough Reflex Inhibitor

NICOLANE Linctus presents narcotine for the suppression of unproductive cough, with an activity in this respect equal to or greater than codeine and the following important advantages:

It will not produce addiction as it is absolutely free from such properties associated with other opium alkaloids.

It is particularly effective against the "Allergic cough."

Tolerance and side effects are minimal and it has no adverse effects on respiration or the central nervous system.

It has a wide margin of safety and provides adequate control in oral dosage over long periods.

NICOLANE Linctus contains 15 mg. nar-cotine in each teaspoonful (4 ml) and is available in bottles of 4 fluid ounces.

Samples will gladly be made available to the medical profession for clinical trial.

"IMPROVED THERAPY FOR PEPTIC ULCER"

Extract from the American Journal of Gastroenterology, (1957) 28, 439.

"The medication investigated is known as Roter tablets... The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals... this therapy is applicable to ambulatory patients."

SUMMARY

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

ROTER

FORMULA PER TABLET. Magnesium Carbonate (400 mg.), Bismuth Subnitrate Roter (350 mg.), Sodium Bicarbonate (200 mg.), Rhizoma Calami (25 mg.), and Cortex Rhamni Frangulæ (25 mg.).

F.A.I.R. LABORATORIES LTD TWICKENHAM MIDDLESEX

Since the introduction of Terramycin a tremendous body of evidence has been published about this outstanding broadspectrum antibiotic. Today, its value is known and established in almost every type of disease where infection is a factor. Following the course of this development we have introduced a wide variety of dosage forms, so that the clinical effectiveness of Terramycin should be enhanced by convenience and acceptability of presentation.

The very bulk of the available evidence becomes almost an embarrassment to the busy practitioner who—having accepted the clinical value of Terramycin—wants a concise picture of indications, dosage, therapeutic effect, and possible side effects, in some specific condition. To overcome this problem we are preparing a series of brief monographs on the use of Terramycin in specific groups of indications. The first of these, "Terramycin in the treatment of Bronchitis and Bronchiectasis', will be available shortly.

Surgical and Orthopaedic Supports

A N efficient system of support designed for use in the treatment of physical disability, deformity or disease. CAMP Supports are used for treatment in Abdominal Surgery, Spinal Conditions, Gynaecology and Obstetrics. The CAMP service includes belts designed for use in Emphysema, Spinal, Ante-natal and Post-natal conditions. Also Post-operation, Visceroptosis, Hernia, Pendulous Abdomen, Pelvic Traction and Cervical Traction. Camp Supports embodying dominant features not existing in other makes combined with correct anatomical design, give an adaptable rigid support with the required

pressure and uplift without constriction to organic function.

The unique CAMP single-pull adjustment operates through self-locking buckles to the precise degree required.

THE CAMP-VARCO PELVIC TRACTION

system is designed to avoid the complications of thrombophlebitis, swollen ankles and knees. The Traction Belt has been developed

for use in the treatment of low-back injuries and has been applied with good results in cases of hernia-

tion of the nucleus pulposum in the lumbar intervertebral spaces. Also for the relief of minor fractures of the lumbar and sacral ver-

tebral appendages and of the pelvis, and in Spondylolisthesis.

The CAMP "Angle-Flexion" Head Halter has been designed and constructed to operate at a recommended angle of 35 degrees from the horizontal, that is, with the patient in a recumbent position and head supported on an approximately 4 in. deep pillow. It can be used effectively in the treatment of conditions

arising from Brachial-Plexus Syndrome, "Slipped Disc," Osteoarthritis (hypertrophic and atrophic), Spondylitis, Stiff Neck, strains, sprains, etc.

For SUB-ACUTE and Chronic dermatoses TAR + HYDROGORTISONE

combined in

TARCORTIN CREAM

have pronounced advantages over either medicament alone.

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM

is supplied in 7 grm. and 15 grm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

A NEW APPROACH TO WOUND HEALING

The use of STABILIZED TRYPSIN in the treatment of

WOUNDS

ABRASIONS

BURNS

ULCERS etc.

IT HAS LONG BEEN KNOWN that the proteolytic enzyme Trypsin could resolve necrotic tissue and was in theory an ideal physiological agent for the treatment of infected wounds. Its instability has, however, until recently precluded its use for this purpose. Lloyd-Hamol of London and Zurich have now succeeded in producing a cream, Biotrase, in which trypsin remains physiologically active for over a year.

Biotrase also contains two new antiseptic agents, both of which are active against a wide range of gram-positive and gram-negative pathogenic organisms.

Biotrase digests purulent matter and leaves a clean granulating surface. It does not attack vital tissues.

Samples and literature gladly sent on request

Indications for use

Biotrase may be used wherever there is an infected—or potentially infected—breach of surface of the skin. Common conditions for its use include the following: Wounds, second and third degree burns; infected and necrotic skin conditions, including pyodermias; boils and carbuncles (following incision); all types of ulcers. Biotrase has been found most useful in the treatment of varicose ulcers, providing these are not surrounded with avas-

cular tissue and not of long duration.

Biotrase can be prescribed on Form E.C.10.

Biotrase is in 35 gram tubes at a basic N.H.S. price of 3/9d.

Biotrase contains: Trypsin pur. 0.16%: Calcium N-Hydroxymethylglutamate 5.00%; 2.2¹-Thiobis-(4,6-dichlorophenol) 0.50% in Polyethylene glycol.

'BIOTRASE' is a registered trade mark of Lloyd-Hamol Ltd.

For Chronic Discharge of the Ear RYOTOL

RYOTOL is lethal to Ps. pyocyanea, Staphylococcus aureus, Proteus vulgaris and Streptococcus pyogenes found in C.S.O.M. and Otitis Externa.

The presence of Ps. pyocyanea has been demonstrated in 90% of cases of chronically discharging ears. This gram-negative, highly resistant organism is unaffected by penicillin, sulphonamides and many other bactericides. It produces abundant pus and is therefore extremely troublesome.

RYOTOL Ear Drops are the outcome of clinical work on humans, following outstanding results obtained in the veterinary field.

Formula:

Monophenyl ether of ethylene glycol
Phenylmercuric Nitrate
Phenyl-dimethyl iso-pyrazolone
in a stabilised non-irritant base.

TANKERTON · KENT

cases of spasmodic dysmenorrhoea

Prophylactically, a course of tablets starting a day or two before the expected flow will give

complete relief in most cases.
BUSCOPAN is a completely safe
spasmolytic giving rise
to none of the unpleasant
side effects normally
associated with
drugs of this nature.

BUSCOPAN gives
rapid relief from pain
associated with Spasmodic
Dysmenorrhœa. When
pain is severe, an
intramuscular injection
followed in four hours
by oral administration
(2 tablets three times
a day) will give
prolonged relief.

Other indications

Gastric or duodenal ulcer, spasmodic disorders of the gastro-intestinal tract, biliary colic and delayed relaxation of the lower uterine segment.

BUSCOPAN

Manufactured and distributed in the U.K. by Pfizer, Ltd., Folkestone, Kent, for C. H. Boehringer Sohn, Ingelheim am Rhein.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1.061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff specialist staff.

(ii) Fully registered medical practitioners: £577 10s, per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

PUBLIC HEALTH

BOROUGH OF BUXTON
URBAN DISTRICT OF WHALEY BRIDGE
RURAL DISTRICT OF CHAPELEN-LE-FRITH
DERBYSHIRE COUNTY COUNCIL

RURAL DISTRICT OF CHAPEL-EN-LE-FRITH
DERBYSHIRE COUNTY COUNCIL.

"MIXED" APPOINTMENT OF DISTRICT
MEDICAL OFFICER OF HEALTH AND
ASSISTANT COUNTY MEDICAL OFFICER
Applications are invited from registered medical practitioners (male or female) holding a Diploma in Public Health or equivalent qualification for the "mixed" appointment of Medical Officer of Health for the Boroush of Buxton, the Urban District of Whaley Bridge and the Rural District of Chapel-en-le-Frith, and Assistant Medical Officer for the Derbyshire County Council. The total inclusive salary scale will be £1,785 0s. 1d. by £57 14s. 6d, (3) by £60 (1) by £25 (4) to £2,118 3s. 7d. per annum. The salary has been arrived at on the basis that seven-elevenths of his/her time is devoted to the work of the three District Councils and four-elevenths to that of the County Council. As regards duties of Medical Officer of Health, the successful candidate will be subject to the sole control and direction of the District Councils, and as an Assistant County Medical Officer of Health, who is also the Principal School Medical Officer. While there is no "divisional administration" of the County Council's medical services, he/she will be required to act as a School Medical Officer, Conduct links and perform such other duties as may be required. Preference will be given to a candidate who has had good and varied experience in Public Health duties. The officer will be required to live in the area of the District Councils. Sympathetic consideration will be given to the provision of temporary housing accommodation, if desired. The Officer must not engage in private practice, and must devote whole-time service to the duties of the before-mentioned posts. The appointment is subject to the provisions of the Local Government Superannuation. Canvassing, either directly or indirectly, will be a disqualification. Application forms may be obtained from the County Medical Officer, County Offices, St. Mary's Gate, Derby, Completed forms should be sent to the Town Clerk, Town Hall

CITY AND COUNTY OF KINGSTON UPON HULL

ASSISTANT MEDICAL OFFICER

Applications are invited from registered medical practitioners, preferably holding a Diploma in Public Health, for the appointment of Assistant Medical Officer for duties in the School Health, Maternity and Child Welfare, Port Health, and other Local Authority services. Salary scale £1,050 by £50 (3) by £55 (5) to £1,475 per annum. Particulars of the appointment and forms of application may be obtained from the Medical Officer of Health, Guildhall, Kingston upon Hull, to whom completed application forms must be returned not later than February 24, 1958. (5566)

COUNTY BORDUGH OF TYNEMOUTH

ASSISTANT MEDICAL OFFICER OF HEALTH
Applications are invited from registered medical
practitioners, male or female, for the above appointment. The appointment is principally associated with the School Health Service, but the
successful applicant will be expected to undertake
other work in the Public Health Department, as
directed by the Medical Officer of Health. Possession of the D.P.H. will be an advantage. The
post is superannuable, subject to one month's
notice on either side, and the submission of a
satisfactory medical certificate. Commencing
salary will be at a point within the scale £1,050/
£1,475, according to experience. Application
forms, endorsed with conditions of service, may
be obtained from Dr. R. H. Dawson, Medical
Officer of Health, Public Health Department,
Preston Road, North Shields, Northumberland, to
whom they should be returned by February 28,
1958.—Fred G, Egner, Town Clerk. (6064)

COUNTY BOROUGH OF WARRINGTON Health Department

ASSISTANT MEDICAL OFFICER and SCHOOL MEDICAL OFFICER

Applications are invited from registered medical practitioners. Salary will be in accordance with national scales (£1.050 to £1.475 per annum). The duties will be mainly clinical in connection with maternal and child care and the school health services, but may cover any aspect of the work of the Department. The post is superannuable and subject to satisfactory medical examination. Applications, giving details of age, qualifications and experience, together with the names of two referees should be forwarded to the Medical Officer of Health, Health Department, Sankey Street, Warrington, not later than March 3. 1958.—Eric H. Moore, Medical Officer of Health and Principal School Medical Officer. (6022)

Public Health-contd.

COUNTY BOROUGH OF SMETHWICK Public Health Department

APPOINTMENT OF ASSISTANT MEDICAL OFFICER OF HEALTH AND SCHOOL MEDICAL OFFICER

Applications are invited from registered medical practitioners for the post of Assistant Medical Officer of Health and School Medical Officer. The duties will consist of work in connection with the School Health Service, including the examination and ascertainment of handicapped pupils, and child welfare clinics and opportunities will be given for the successful applicant to gain experience in special fields of public or school health work. Preference will be given to candidates who are in possession of the Diploma in Public Health or the Diploma in Child Health. If the approval of the Ministry of Education for the purpose of the ascertainment of educationally sub-normal children has not previously been obtained, the successful applicant will be sent on the appropriate course. The salary will be within the approved scale, £1,050 per annum, rising by annual increments to a maximum of £1,475 per annum. The post is superannuable, and the successful candidate will be required to pass a medical examination. The appointment will be subject to two months' notice on either side. Housing accommodation may be available for the successful candidate. Applications, stating age, qualifications and experience, and giving the names and addresses of two persons to whom reference may be made, should reach the Medical Officer of Health, Council House, Smethwick, not later than March 5, 1958.—E. L. Twycross, Town Clerk, Council House, Smethwick,

MEDICAL RESEARCH COUNCIL

MEDICAL RESEARCH COUNCIL

The Medical Research Council invite applications for the following Travelling Fellowships for the academic year, 1958-59:

ROCKEFELLER TRAVELLING FELLOWSHIPS IN MEDICINE

These Fellowships are provided from a fund with which the Council have been entrusted by the Rockefeller Foundation of New York. They are intended for graduates resident in this country who have had some training in research work in clinical medicine or surgery, or in some other branch of medical science, and who are likely to profit by a period of work at a centre in the United States or elsewhere abroad before taking up appointments for higher teaching or research in the United States, will normally provide a maintenance allowance at the rate of \$3,000 per annum for a single Fellow, and \$4,200 per annum for a married Fellow. Provision will be made for the Fellow's own travelling and other approved expenses, and a small family allowance will also be available. Further particulars of these Fellowships and forms of application may be obtained from the Secretary, Medical Research Council, 38, Old Queen Street, Westminister, S.W.I, with whom applications must be lodged not later than March 1, 1958. Applications should also be submitted to the Council by March 1 for a limited number of Lilly Foreign Fellowships, United States Public Health Service Fellowships, and a Lederle Fellowship, the terms of which resemble closely the Rockefeller Fellowships described above. (6079)
