TEVIOT PLACE, EDINBURGH

*The new
complete treatment
for migraine*

ORGRAINE

Composition (per tablet)		Action
Ergotamine Tartrate B.P.	1.0 mg.	→ constricts dilated cerebral arteries.
Caffeine B.P.	100.0 mg.	→ potentiates ergotamine
Hyoscyamine Sulphate B.P.C. (1949)	0.0875 mg.	→ alleviates nausea and vomiting
Atropine Sulphate B.P.	0.0125 mg.	
Phenacetin B.P.	130.0 mg.	→ relieves residual occipital pain.

In a recent clinical article (J.A.M.A., 1957, 163, 1115) it was stated that in a series of 2,511 cases in which 28 agents were tested in the symptomatic treatment of migraine, ergotamine tartrate was proved to be the most useful drug—and 81% of the patients showed improvement when ergotamine tartrate and caffeine were compounded with belladonna alkaloids. Orgraine applies the same successful principles of treatment.

Two New Butterworth Books

SYSTEMIC OPHTHALMOLOGY—*Second Edition*

Ready soon. Edited by ARNOLD SORSBY, M.D., F.R.C.S.

Pp. xii+740+Index 273 illustrations 24 in colour

£5 5s. net, by post 2s. 3d. extra

In this Second Edition, the original work has been revised and brought completely up to date. New methods of treatment are discussed, notably those involving the use of the latest antibiotics, and the book now reflects current teaching and emerging trends.

MODERN TRENDS IN PAEDIATRICS—*Second Series*

Edited by ARON HOLZEL, M.D., D.C.H. and J. P. M. TIZARD, M.A., B.M., M.R.C.P., D.C.H.

Pp. xxiii+372+Index 73 illustrations 70s. net, by post 1s. 9d. extra

A book which is devoted to modern trends should be concerned as much with the advances of the immediate past as with those of the future. This is the view of the editors of this second series on paediatrics, and in consequence the specialists who have contributed to the book—geneticists, physiologists, virologists, neurosurgeons, statisticians, psychiatrists and physicists—have discussed significant problems within their specialized fields, speculating freely on the developments of the future.

ideal ferrous sulphate treatment for hypochromic anaemia

Plesmet
TABLETS

**Exceptionally well tolerated.
Rapid absorption. Maximum
utilisation. Low cost.**

Each tablet contains Ferrous Amino-acetosulphate equivalent to 50 mgm. of Ferrous Iron with 1 mgm. of Aneurine Hydrochloride B.P.

Write for samples and literature.

Plesmet is the perfect form of oral iron. This new amino-aceto complex of Ferrous Sulphate consistently restores high haemoglobin and erythrocyte levels, while being extremely well tolerated, particularly in cases of pregnancy. In a recent clinical trial a course of Plesmet was markedly successful in

raising the haemoglobin percentage from an initial average level of 62 to 73 in two weeks.

THE PERMANENT WAY

In iron therapy, the *permanent* way is the *intramuscular* way. Following Imferon treatment, the perennial anaemic—the patient who even after months or years of treatment with oral iron is constantly on the verge of anaemia *and constantly in the surgery*—is buffered against relapse. This is because Imferon re-charges the body's 'stores' of iron. Oral iron cannot do this (except possibly after an unacceptably long period of treatment) because it is impeded by the mucosal block. This barrier becomes more and more effective as the Hb level rises—and depleted body iron stores remain depleted.

Imferon, intramuscular iron, by-passes the mucosal block. It is fully absorbed, fully utilised . . . safe and certain.

HP ACTHAR *Gel*

* The Armour Laboratories brand of HIGHLY PURIFIED long-acting Corticotrophin (ACTH) (in Gelatin)

HP* ACTHAR Gel is a highly purified ACTH of high potency in gelatin with rapid action and prolonged effect by subcutaneous or intramuscular injection in collagen diseases, hypersensitivities, certain skin diseases and ophthalmic conditions.

By maintaining the physiological integrity of the adrenal cortex, ACTH offers distinct advantages by comparison with the corticosteroids, which, being substitutional, produce adrenal suppression and unresponsiveness to stress. ACTH is, in fact, administered to counteract such results of corticosteroid therapy.

Easy painless administration

Fewer injections required

Minimum discomfort

Low maintenance dosage

Economy in use

Available in 5 ml. vials (20 and 40 I.U. per ml.).

Stable at room temperature for two years.

Refrigeration not required.

ACTHAR is also available in the form of rapid-acting lyophilized powder, supplied in vials containing 10, 25 and 40 I.U. per vial.

Full documented literature will be gladly supplied on request.

How many diabetic patients are overweight?

It is a fact* that 77% of all diabetics are overweight. Also established is the fact† that reduction in weight leads to a proportional lowering of the blood sugar level. Should no attempt be made to reduce their weight to a normal average level (weight at the age of 30 is suggested as the ideal) there is, over the years, a higher incidence of complications. In addition, higher amounts of insulin must be administered‡.

How then to achieve weight reduction . . . simply, safely and easily? Preludin can supply the answer.

Preludin acts directly on the appetite-satiety centre in the hypothalamus, curbs the urge to over-eat and enables the patient to adhere more easily to any weight-reducing regime prescribed. Side-effects are virtually absent.

Preludin is foremost in this field and represents a safe and rational approach to the problem of overweight diabetics.

ADRENOXYL

Reduces the mean bleeding-time

Adrenoxyl reduces the mean bleeding-time by decreasing the permeability and increasing the contractility and resistance of the capillary wall.

A dry field at operation

Adrenoxyl has been successful in diminishing capillary bleeding in a wide range of surgical operations. It has proved particularly useful in ear, nose and throat, ophthalmic and plastic surgery. In plastic surgery of the face it has been reported that, post-operatively, there is less swelling and bruising when Adrenoxyl has been used.

No side effects

Adrenoxyl does not have any side effects or contraindications. It does not affect blood coagulation, blood pressure or pulse rate and does not possess any sympathomimetic properties.

In medical conditions

Adrenoxyl has been used with success in those medical conditions associated with capillary fragility.

In the British Medical Journal (April 21st, 1956) a correspondent confirmed the value of Adrenoxyl in providing a dry field for the surgeon and in shortening the duration of the operation.

Packs

Ampoules: Boxes of 6 and boxes of 50.
Each ampoule contains 0.75 mg. of adrenochrome monosemicarbazone dihydrate.

Tablets: Tubes of 25 and bottles of 500.
Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate.

The best results are obtained when both tablets and ampoules are used.

sulpha therapy...*

1 tablet instead of **8**

The advent of Lederkyn sulphamethoxypyridazine, Lederle's low-dosage, long-acting sulphonamide, heralds a new era in sulpha therapy. Lederkyn exhibits a powerful broad-range effectiveness at radically reduced dosage. Treatment with Lederkyn means :—

- *Dramatic dosage reduction—for maintenance, one tablet daily instead of eight*
- *Rapid diffusion in body fluid and tissue*
- *Therapeutic levels within the hour . . . blood concentration peaks within two hours*
- *Slow excretion rate with prolonged action*
- *Safety in use*

Lederkyn is issued in oral tablets of 0.5 Gm. Bottles of 24, 100 and 1000

A product of original LEDERLE research

LEDERLE LABORATORIES DIVISION *Cyanamid* OF GREAT BRITAIN LTD., London, W.C.2

But there are other ways—

in dealing with seborrhoea capitis

Simple seborrhoea can be brought under control by the weekly use of Genisol, applied in the manner of a shampoo. Genisol has been formulated to remove the loose scales, at the same time stimulating the production of normal tissue: the inclusion of hexachlorophene prevents aggravation of the condition by bacterial invasion.

Persistent seborrhoea capitis quickly responds to the combined treatment of Genisol-Sebigen. Sebigen should be rubbed into the scalp twice daily through numerous partings in the hair, followed by frequent applications of Genisol as directed.

Genisol and Sebigen Prescribable on E.C.10

Genisol

Faster healing of Varicose ulcers and other infected skin lesions

The notorious resistance of Varicose Ulcers to topical treatment can be overcome by the combined proteolytic and antibiotic action of TRYPTAR Ointment in removing tissue debris and reducing bacterial infection.

The cleansing action of the mutually synergistic enzymes Trypsin and Chymotrypsin, which are virtually non-sensitizing and without antigenicity, clears the way for the wide spectrum cover of the two topical antibiotics, Bacitracin and Polymixin, and promotes faster and final healing.

TRYPTAR Ointment provides valuable therapy for any breach of skin surface.

Promotes and speeds healing
Reduces inflammation
Prevents and combats oedema and infection
Softens crusts
Improves local circulation

Each Gram contains:

Trypsin	5000 Armour Units
Chymotrypsin	5000 Armour Units
Bacitracin	500 Units
Polymixin B. Sulphate	5000 Units

in a special hydrophilic ointment base.
Tubes of $\frac{1}{4}$ oz. (14.2 G.)

**Lederle proudly announces
the introduction of**

Ledercort*
TRIAMCINOLONE (9 ALPHA-FLUORO-16 ALPHA-HYDROXPREDNISOLONE)

a new, superior corticosteroid of great promise

LEDERCORT is an achievement of Lederle corticosteroid research—created to minimise the major deterrents to all previous steroid therapy. It offers increased potency for greater clinical effectiveness; reduced dosage and the distinct advantage of fewer side effects.

LEDERCORT represents a new HIGH in anti-inflammatory effects with a lower dosage that averages $\frac{1}{3}$ less than prednisone. LEDERCORT offers a new LOW in the collateral hormonal effects associated with all previous corticosteroids since it causes: *no oedema, no hypertension, no psychosis, no weight gain or potassium depletion.*

Because of its reduced dosage, there is a lower incidence of other side effects such as *peptic ulcer, osteoporosis, epigastric distress, diabetic state, Cushingoid "obesity".*

LEDERCORT provides prolonged therapy at less cost with easier patient management.

INDICATIONS: *Rheumatoid arthritis; bronchial asthma; dermatoses; allergic disorders; other conditions where corticosteroids have proved beneficial.*

Oral tablets of 4 mg., scored for easy division.
Bottles of 30 and 100.

KOLANTYL

does four
good things
in the relief
of peptic
ulceration

RELIEVES SPASM

1. 'Merbentyl', an anticholinergic with virtually no belladonna-type side effects, effectively relieves the spasm. By decreasing peristalsis the antacids are enabled to exert their neutralising effect for a prolonged period.

REDUCES ACIDITY

2. Short acting magnesium oxide and long-acting dried aluminium hydroxide gel combine to provide the ideal antacid. There is no constipation or laxation.

PROTECTS MUCOSA

3. Methylcellulose, a demulcent, is included to protect the damaged mucosa from further irritation by the gastric contents.

INHIBITS EXCESS ENZYME ACTION

4. Sodium lauryl sulphate inhibits the proteolytic enzymes lysozyme and pepsin. Excess lysozyme is frequently present in the vicinity of a peptic ulcer.

'Kolantyl' is available as tablets and gel. Each tablet or 10 c.c. of gel contains:

<i>Dried Aluminium Hydroxide Gel</i>	400 mg.
<i>Magnesium Oxide</i>	200 mg.
<i>'Merbentyl' (dicyclomine hydrochloride)</i>	5 mg.
<i>Methylcellulose</i>	100 mg.
<i>Sodium lauryl sulphate</i>	25 mg.

PACKS:

Convenient rolls of 12 tablets in cartons of four or twenty rolls.
'Kolantyl' Gel in bottles of 12 fl. oz.

DOSAGE:

2 tablets or 4 teaspoonfuls of gel three or four times daily.
The basic N.H.S. costs are 5s. and 23s. 4d.; of the gel, 6s. 4d.
Purchase Tax additional.

'Kolantyl' and 'Merbentyl' are registered trade marks of the Wm. S. Merrell Company.

Inability to take aspirin . . .

IT HAS BEEN reported (*Brit. med. J.*, 1 : 444, 1957) that of 178 rheumatic patients, 25% could not take plain aspirin in adequate dosage.

Of this 25%, however, the great majority tolerated a modified aspirin such as Paynocil.

Not only are Paynocil tablets usually well tolerated by the stomach (even on the heavy dosage needed for rheumatoid arthritis), but they are extremely palatable, disintegrate instantly on the tongue without water, and cause no discomfort or unpleasant after-sensation.

. . . indicates

Treatment of DIABETES MELLITUS without injections

Rastinon «Hoechst» tablets provide an oral treatment for certain diabetic patients.

EFFECTIVE A number of patients on small regular doses of insulin have been found to be suitable for treatment with Rastinon «Hoechst» tablets. Clinical work throughout the world has shown that approximately a quarter of all diabetics can be stabilized on Rastinon «Hoechst» tablets. A few of the more recent references to the literature are given opposite.

SAFE The selection and stabilization of diabetic patients should be carried out under strict medical supervision. For those patients found to be suitable, Rastinon «Hoechst» tablets provide a safe form of therapy and many have now been on oral treatment for two years. No cases of proven dyshaemopoiesis or other serious side-effects due to the drug have been reported.

SIMPLE From 2 to 4 tablets a day are normally all that is required to replace the insulin with its concomitant syringe, needles, swabs, and often nursing assistance as well. The normal regime of urine examination and dietary control remains necessary.

Packs: bottles of 100 and 500 tablets.

The basic price to the National Health Service as dispensed from a 500-tablet bottle is 2.97d per tablet and the total cost to the National Health Service, with all allowances, is less than 4d per tablet.

Each tablet contains 0.5 G. of N-Butyl-N¹-toluene-p-sulphonylurea; (Tolbutamide).

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

MEMBERS ABROAD. Copies of vacancies advertised in the *Journal* can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to three separate headings: additional headings 1s. each.

Please state type of vacancy and remit to the Advertisement Director, B.M.J.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelope "Vacancy."

ALLESLEY PARK, Coventry

Applications are invited for vacancy from July 1 on the Allesley Park (urban) estate, Coventry. List at present approximately 1,780. Surgery accommodation available for rent or purchase. Residence adjoining available for purchase. Applications (on Form E.C.16A) to the undersigned by first post April 19, 1958.—J. A. Leaver, Clerk, Coventry Executive Council, 8, Priory Row, Coventry. (8063)

LOTHIANS AND PEEBLES EXECUTIVE COUNCIL

ESKBANK, Midlothian

Applications are invited from registered medical practitioners to fill a single-handed vacancy in the Dalkeith/Esbank district, which has arisen on account of death. The number of patients on the list is presently 733. Part of the deceased doctor's house, including the surgery and waiting room, may be available to purchase or rent by private arrangement. Applications, stating age, qualifications and experience, and the names of two persons to whom reference may be made, should be sent within seven days of the appearance of this advertisement to the Clerk, Lothians and Peebles Executive Council, 25, Stafford Street, Edinburgh, 3. (8037)

MID-DEVON

Applications are invited for a rural vacancy (resignation). List at present approximately 1,550 (dispensing). Applications, on Form E.C.16A, should reach the undersigned not later than first post, April 17, 1958. House and surgery available for purchase. Form E.C.16A and further details obtainable on request.—H. Bell, Clerk, Devon and Exeter Executive Council, 46, Queen Street, Exeter. (8134)

NEWTON-STEWART, Galloway

Applications are invited for a general practice vacancy in Newton-Stewart. The practice is of a town and rural area type. The number of patients on the list of the present doctor, who is retiring, is 1,169. Further information may be obtained from the Clerk, Galloway Executive Council, 12, Castle Street, Kirkcudbright, to whom applications (on the prescribed form) must be submitted within fourteen days from the date of this publication. The successful applicant will be required to take up duty on July 5, 1958. (8133)

PLYMOUTH EXECUTIVE COUNCIL

Applications are invited for vacancy, urban, list at present approximately 2,500. The present surgery and living accommodation, situated in a Council house on estate, may be available. Successful applicant will be required to take over on July 1, 1958. Apply, on Form E.C.16A, not later than April 15, 1958, to the Clerk, Executive Council for Plymouth, Dispensary Buildings, Catherine Street, Plymouth, Devon. (8038)

SALFORD—HIGHER BROUGHTON, Lancs

Retirement vacancy. Urban. Doctor emigrating. List (January 1, 1958) 1,943. Residence, including surgery, available for sale to successor. Applications, on Form E.C.16A, to reach the undersigned not later than April 12, 1958.—J. S. G. Clough, F.C.I.L., Clerk, Salford Executive Council, Irwell Place, Crescent, Salford, 5. (8036)

(8030)

COUNTY BOROUGH OF WALSALL**ASSISTANT MEDICAL OFFICER OF HEALTH**

Applications are invited from registered medical practitioners for the above post. Salary scale £1,050 to £1,475 per annum. The commencing salary will be decided according to qualifications and experience. Possession of the D.P.H. or D.C.H. will be considered an advantage. Further particulars and application forms may be obtained from me.—W. Staley Brookes, Town Clerk, Council House, Walsall. (7846)

COUNTY BOROUGH OF READING**The D.P.H. Assisted Training Scheme****APPOINTMENT OF ASSISTANT M.O.H. AND S.M.O.**

Applications are invited from registered medical practitioners for the post of Assistant M.O.H. and School Medical Officer (male), which will become vacant in June, 1958. Salary scale £1,050 per annum to £1,475 per annum. Starting point on an appropriate step on the scale according to experience. In the event of the successful applicant not possessing the D.P.H., it will be a condition of appointment that he obtains this qualification at the earliest opportunity. For this purpose the Council is prepared to second him for a period of approximately nine months. Salary during secondment will be three-quarters of the minimum salary of the above-mentioned scale. The person so seconded is expected to sign an undertaking to work for the Council for a period of not less than three years after obtaining the D.P.H. Further particulars can be obtained from the Medical Officer of Health, Bristol and West House, 173/4, Friar Street, Reading, to whom application forms should be returned not later than April 19, 1958.—G. F. Darlow, Town Clerk. (7855)

PROVINCIAL ADMINISTRATION OF THE CAPE OF GOOD HOPE

University of Cape Town: Joint Medical Staff for Groote Schuur and other Teaching Hospitals

VACANCY

Applications are invited from suitably qualified persons for appointment to the following vacant post at the Groote Schuur Hospital, Observatory, Cape Town:

Department of Radiodiagnosis
MEDICAL PRACTITIONER, Grade D
with salary at the rate of £1,740 per annum (fixed).

In addition to the basic salary, a non-pensionable cost-of-living allowance at rates prescribed from time to time by the Administration (at present amounting to £234 per annum) is payable to certain whole-time married officials and employees.

The conditions of service are governed by the relevant Ordinances and Regulations as well as the agreement entered into between the Cape Provincial Administration and the University of Cape Town.

The Joint Medical Staff is required to serve jointly the Provincial Administration and the University of Cape Town.

Candidates must be registered Specialists or must be in possession of appropriate postgraduate diplomas or degrees in Radiodiagnosis, and are requested to furnish particulars in regard to the following:

- Academic achievements (degrees and diplomas held and the standards of achievement in professional examinations, scholarships and special awards).
- Professional experience (not only the name of the employer but also that of the institution in which the candidate worked and the type of work undertaken).
- Names of three references (one of these should preferably be someone occupied in the same branch of medicine as the candidate), who should be asked by the candidate to submit confidential reports to the Director of the Hospital Services before the closing date for the receipt of applications.

Application must be made in duplicate on the prescribed form, Staff 23, which is obtainable from the office of the Immigration Attaché for the Union of South Africa, South Africa House, Trafalgar Square, London, W.C.2. Details as regards conditions of service and transport facilities can also be obtained at the office of the above-mentioned.

The completed application forms must be addressed to the Director of Hospital Services, P.O. Box 2060, Cape Town, South Africa, and must reach him not later than April 26, 1958.

Candidates must state the earliest date on which they can assume duty. (7891)

SOCIETY OF APOTHECARIES OF LONDON
(M.M.S.A.)

The Mastery of Midwifery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Infant Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent; the Examination, written, oral, and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maternal and Infant Mortality. Examinations are held twice yearly, in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of Apothecaries, Black Friars' Lane, E.C.4.

UNIVERSITY OF ST. ANDREWS

COMBINED CLINICAL AND MEDICAL SCIENCES COURSE

Graduates in Medicine and Surgery are invited to make application for a combined Clinical and Medical Sciences Course to be held in Queen's College, Dundee, from October, 1958, to March, 1959.

All those taking the Combined Clinical and Medical Sciences Course will have:

(1) A clinical attachment in the special subject of their choice. In 1958-9 the following subjects will be offered:

General Surgery	Respiratory Diseases
General Medicine	Obstetrics
Cardiology	Gynaecology
Cardiovascular Surgery	Paediatrics
Endocrinology	Psychiatry
Dermatology	Ophthalmology
Haematology	Oto-rhino-laryngology
Infectious Diseases	Orthopaedics

(2) A supervisor who would guide their reading and laboratory work in relation to their specialty, and

(3) All would attend the medical sciences course.

The number accepted for this educational programme will be small and only one, or at the most two, candidates will get an attachment in each special subject. The Eastern Regional Hospital Board will give the successful candidate an honorary clinical assistantship within the Unit where he is studying the special subject of his choice. The Supervisor will not only guide the reading and laboratory work of the student but will in appropriate cases allow him to take part in current research programmes. The objective of the medical sciences course which all the post-graduates, whether medical, surgical or other specialists, will follow is to bring the postgraduate student up to date on current trends in the medical sciences which are of importance to future medical developments.

In addition to this course, the Medical School offers weekly open postgraduate lectures by distinguished visitors and a course of lectures on scientific methods which postgraduate students in the school will be free to attend.

The fee for the course will be £36. Applications should be submitted before July 1, 1958, to the Dean of the Faculty of Medicine, University of St. Andrews, Queen's College, Dundee, from whom further information may be obtained. (8059)

UNIVERSITY OF ST. ANDREWS

POSTGRADUATE COURSE IN ANATOMY AND PHYSIOLOGY

Graduates in Medicine and Surgery are invited to make application for a Course in Anatomy and Physiology (including Biochemistry) to be held in the pre-clinical Departments of St. Salvador's College, University of St. Andrews, from October, 1958, to March, 1959. The number of graduates accepted for this course will be small. They will be attached to, and expected to take some part in the work of, the Anatomy and Physiology Departments. Instruction will be given, formally and informally, in systematic, practical and applied aspects of Anatomy, Physiology and Biochemistry, and students will be afforded opportunity of gaining experience in methods to be individually selected. They will be required to take part in tutorial discussions both with members of staff and with medical undergraduates, and to make themselves familiar with current teaching. The Anatomy Department is responsible for the teaching of Histology, and has particular interests in Bone, Arthrology, Heart and Central Nervous System. The Department of Physiology and Biochemistry operates a course in Applied Physiology, and Biochemistry for senior medical students, and is equipped to supervise techniques in Neurophysiology and Neurochemistry, Protein and Carbohydrate Chemistry, and various aspects of medical Biophysics. The fee for the course will be £36. Applications should be submitted before July 1, 1958, to the Dean of the Faculty of Medicine, University of St. Andrews, Queen's College, Dundee, from whom further information may be obtained. (8060)

What is Swedish Milk Diet?

The Swedish Milk Diet, or S.M.D., originated in Scandinavia. It is a low calorie Diet in which milk replaces ordinary food during certain days of the week.

Its original purpose was to re-establish the system during the 'hang-over' following indulgent food and wine feasts common to Scandinavian family reunions, marriages and similar communal gatherings. The caloric value of the Swedish Milk Diet is low—the daily intake approximating to 700 or 800. The Diet was subsequently adopted with great success for purposes of weight reduction, although for this purpose additive supplements of protein and vitamins have proved advisable. Bisk-o-Lait is the new soluble high protein and vitamin supplement recommended for use with milk as the modern application of Swedish Milk Diet for weight reduction.

Advantages of Bisk-o-Lait

Swedish Milk Diet

The daily calorie intake is reduced to 750 calories. Used on Diet No. 2 (see below), there is a weekly saving of over 3,000 calories, or the equivalent of a two-day fast. Weight is reduced each week. At the same time minimum essentials of protein, fat, carbohydrates, minerals and vitamins are ensured.

HOW TO DIET

Diet No. 1. For those excessively overweight and corpulent

Mix one teaspoonful of Bisk-o-Lait to a paste with a little cold milk and make up to $\frac{1}{2}$ pint. Drink this in place of a meal on Diet Days.

Replace ordinary meals every other day with Bisk-o-Lait and milk. Thus on, say, Monday, Wednesday, Friday and Sunday you eat normal food. On Tuesday, Thursday, Saturday and the following Monday you go on the Bisk-o-Lait Milk Diet.

Diet No. 2. For those a little too fat and needing to reduce

Replace food three days in a week with Bisk-o-Lait and milk. Thus Monday, Wednesday and Friday are Diet Days. Tuesday, Thursday, Saturday and Sunday are Food Days. On this system there is an extra day's food per week compared with Diet No. 1.

Diet No. 3. For those only moderately overweight

There are no Diet Days here. Substitute Bisk-o-Lait Milk Diet for the mid-day or evening meal.

Why has Bisk-o-Lait proved so successful?

Its basis is medically sound. The patient is safeguarded against 'ketosis' caused by unbalanced diets. Constant dietary supervision by the Practitioner is unnecessary. Prescribing Bisk-o-Lait saves valuable surgery time. Furthermore the patient finds the diet easy to follow and convenient to use. Where fresh milk is unobtainable, spray-dried skim milk powder is recommended.

What does Bisk-o-Lait contain?

Milk Proteins, 21 gm.; Glucose, 2.6 gm.; Yeast, 2 gm.; Dibasic Calcium Phosphate, 2 gm.; Saccharin, 30 mgms.; Vitamin A, 2,500 I.U.; Vitamin B, 1,000 I.U.
