WOUND CLOSURE
—without stitching—

ANCIENT IMPROVISATION

Eastern surgeons in the Middle Ages made use of large ants for suturing purposes. The natural reaction of the ant was to fix its mandibles into the flesh on either side of the wound, holding the edges together. The head was then cut off, leaving a joining effect similar to Serris-Fines of present-day surgery.

MODERN SOLUTION

Modern surgery has the Dalmas Dumb Bell suture for minor surgery normally requiring stitching. They are very effective, and have the advantage of easy application, speed and simplicity. Completely antiseptic, they adhere instantly, and keep the wound closed.

DALMAS

DUMB BELL SUTURES

Dumb Bell Sutures are supplied in packs containing
6 doz. ready for use.

**Strapping for
ileostomy**

Dalmaplast adhesive strapping has proved excellent for use in cases of ileostomy. It moulds itself to the contours of the body, is satin smooth and comfortable. Non-peeling, non-fraying, completely waterproof.

**DALMAPLAST
WATERPROOF
STRAPPING**

Available in different widths and
lengths according to the application.

There's more to Neobacrin than meets the eye—or the *skin*, for that matter. Its two antibiotic components—neomycin and bacitracin—not only exert a highly effective bactericidal action against most gram-positive and gram-negative bacteria; they have practically no sensitizing potential and negligible irritant properties. Moreover, resistant strains have not been reported to occur with neomycin or bacitracin applied locally. Telling reasons, these, for letting Neobacrin take care of those common infections of the eye and skin.

NEOBACRIN

THE FAST DIRECT ROUTE

With oral iron, the iron deficient patient's journey to health is uncertain and interrupted by innumerable stops in *your* waiting room. Oral iron may restore the haemoglobin level but, in doing so, the mucosal block becomes increasingly effective: absorption is reduced to a minimum, thus preventing the replenishment of depleted iron stores. It is the depletion of these stores which keeps your patients constantly on the verge of anaemia.

Imferon, intramuscular iron, is not affected by the mucosal block. It is rapidly absorbed and fully utilised in replenishing the body iron stores, tissue iron, and for the synthesis of haemoglobin. Imferon therapy is safe and certain, and buffers your patients against recurring iron deficiency of any degree.

ANTIBIOTIC HAZARDS

"If lactobacilli can be established, they will certainly make it hard for staphylococci to take charge". *Lancet* Leading Article i (1954) 968

Enpac REGD. TRADE MARK, produced after years of research, establishes lactobacilli of solely human origin in the intestine.

Restoring the balanced gut flora

ENPAC is a new and unique preparation of antibiotic-resistant strains of *Lactobacillus acidophilus* in a vehicle of the vital growth factors necessary for the strains to become established and multiply in the human gut. When administered during oral antibiotic therapy, these strains replace the intestinal strains of *L. acidophilus*, and an important part of the bacterial flora is maintained intact. There is substantial evidence which has proved that ENPAC can also be highly beneficial in certain intestinal disorders.

Extract from Lancet article on clinical trials at Bristol :

Enpac

ENPAC is prescribable on Form E.C.10. Basic N.H.S. Price 14/5 per 60 gramme tin.

"It was found that the staphylococci increased in both groups at the beginning of antibiotic therapy. Staphylococci continued to increase in the patients taking the antibiotic alone, but in those taking Enpac there was a pronounced drop in numbers following the initial rise. Simultaneously, in this latter group the lactobacilli were rapidly established and continued to multiply. This followed the elimination of the normally non-resistant lactobacilli by the antibiotic during the early days of treatment." (*Lancet*, 1957, i, 899)

Samples and literature will be sent to the medical profession on request.

"All right Mr. Baxter, shall we continue? . . .

. . . now that you seem to be getting the idea, just let me reiterate that I.Z.S., as you so neatly put it, 'has something the other insulins haven't got.' In other words, in about 90 per cent. of patients the blood-sugar level can be controlled for up to 24 hours with a single injection of I.Z.S.

When you compare the various insulins available, you'll find that no other form is so universal in its application as I.Z.S. This is, among other things, because I.Z.S. does not contain any protein or peptide material other than the insulin itself, and is therefore practically free of any allergic reactions. Perhaps Mr. Baxter will now give others a chance to raise their questions."

The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau
1952, 8, 143.

Tetrahydrofurfuryl salicylate	14%
Ethyl nicotinate	2%
n-Hexyl nicotinate	2%
Ethyl p-aminobenzoate	2%
Water-miscible cream base ad	100%

Transvasin is available in 1 oz. tubes, basic N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. It may be prescribed on Form E.C.10. Samples and literature will be gladly sent on application

NULACIN

Maintains continuous control of gastric acidity

Until a few years ago, maintained continuous control of gastric acidity was impossible without hospitalization and discomfort to the patient.

Then a unique treatment in the form of Nulacin tablets was evolved to achieve this desirable state—simply, effectively and without attendant disadvantages. In the ensuing period Nulacin therapy has been amply tried and proved by numerous clinical studies and by therapeutic use in many countries.

A Nulacin tablet placed in the mouth between the cheek and the gum dissolves slowly and releases its contained medicaments at a rate that gives continuous neutralization of the acid gastric juice. Nulacin accomplishes this without any danger of causing alkalosis or other side-effects. The results are comparable with those of intragastric milk-alkali drip therapy.

INDICATIONS: NULACIN tablets are indicated whenever neutralization of the acid gastric contents is required: in active and quiescent peptic ulcer, gastritis and other conditions of gastric hyperacidity.

Dosage: Beginning half-an-hour after food, a Nulacin tablet should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity, up to three tablets an hour may be required. During quiescent periods, for prophylaxis in peptic ulcer and for the relief of discomfort due to gastric hyperacidity, the dose of Nulacin is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. They may be prescribed on E.C.10. The dispensing unit of 25 tablets is free of purchase tax. (Basic price to N.H.S. . . . 2/-). Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate magnesium trisilicate 3.5 grs.; magnesium oxide 2.0 grs.; calcium carbonate 2.0 grs.; magnesium carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

GASTRIC ANALYSIS Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

GASTRIC ANALYSIS Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

ACHROMYCIN* V Syrup

TETRACYCLINE WITH SODIUM METAPHOSPHATE *REGD. TRADEMARK

accelerates the recovery

ACHROMYCIN V SYRUP has been expressly formulated to provide faster and higher levels of ACHROMYCIN tetracycline in the blood and tissues of the younger patient. It contains ACHROMYCIN tetracycline in combination with sodium metaphosphate for greater clinical response. The Syrup is presented in a particularly acceptable orange-flavoured form that enables effective dosage to be given in small volume. The more rapid absorption of the antibiotic and its faster broad-spectrum antimicrobial action accelerate the resolution of the disease and thus leads to quicker recovery.

Each teaspoonful (5 cc.) contains : ACHROMYCIN tetracycline, 125 mg. and sodium metaphosphate, 190 mg. Bottles of 2 and 16 fl. oz.

overweight*

- even a few pounds

overweight can be dangerous

What is Swedish Milk Diet ?

The Swedish Milk Diet, or S.M.D., originated in Scandinavia. It is a low calorie Diet in which milk replaces ordinary food during certain days of the week.

Its original purpose was to re-establish the system during the 'hang-over' following indulgent food and wine feasts common to Scandinavian family reunions, marriages and similar communal gatherings. The calorific value of the Swedish Milk Diet is low—the daily intake approximating to 700 or 800. The Diet was subsequently adopted with great success for purposes of weight reduction, although for this purpose additive supplements of protein and vitamins have proved advisable. Bisk-o-Lait is the new soluble high protein and vitamin supplement recommended for use with milk as the modern application of Swedish Milk Diet for weight reduction.

Advantages of Bisk-o-Lait

Swedish Milk Diet

The daily calorie intake is reduced to 750 calories. Used on Diet No. 2 (see below), there is a weekly saving of over 3,000 calories, or the equivalent of a two-day fast. Weight is reduced each week. At the same time minimum essentials of protein, fat, carbohydrates, minerals and vitamins are ensured.

HOW TO DIET

Diet No. 1. For those excessively overweight and corpulent

Mix one teaspoonful of Bisk-o-Lait to a paste with a little cold milk and make up to $\frac{1}{2}$ pint. Drink this in place of a meal on Diet Days.

Replace ordinary meals every other day with Bisk-o-Lait and milk. Thus on, say, Monday, Wednesday, Friday and Sunday you eat normal food. On Tuesday, Thursday, Saturday and the following Monday you go on the Bisk-o-Lait Milk Diet.

Diet No. 2. For those a little too fat and needing to reduce

Replace food three days in a week with Bisk-o-Lait and milk. Thus Monday, Wednesday and Friday are Diet Days. Tuesday, Thursday, Saturday and Sunday are Food Days. On this system there is an extra day's food per week compared with Diet No. 1.

Diet No. 3. For those only moderately overweight

There are no Diet Days here. Substitute Bisk-o-Lait Milk Diet for the mid-day or evening meal.

Why has Bisk-o-Lait proved so successful ?

Its basis is medically sound. The patient is safeguarded against 'ketosis' caused by unbalanced diets. Constant dietary supervision by the Practitioner is unnecessary. Prescribing Bisk-o-Lait saves valuable surgery time. Furthermore the patient finds the diet easy to follow and convenient to use. Where fresh milk is unobtainable, spray-dried skim milk powder is recommended.

What does Bisk-o-Lait contain ?

Milk Proteins, 21 gm.; Glucose, 2.6 gm.; Yeast, 2 gm.; Dibasic Calcium Phosphate, 2 gm.; Saccharin, 30 mgms.; Vitamin A, 2,500 I.U.; Vitamin D, 1,000 I.U. per 1 oz.

Present tense

Although concern or even anxiety over the problems of today and the challenges of tomorrow should normally act as a spur to greater effort, the over-anxious and tense individual may be overwhelmed and rendered ineffectual. The performance of such patients will be benefited by a change in mood.

To this end, 'Mepavlon' is most useful. 'Mepavlon' helps control the irrational fears and the attendant feeling of inner tension without interfering with autonomic functions. Patients become less pre-occupied with their symptoms, increasingly co-operative and hence more accessible to psychotherapy.

'Mepavlon' is presented in tablets each 400 mgm. in containers of 30 and a dispensing pack of 250.

Future perfect!

'Mepavlon'

(meprobamate I.C.I.)

relieves states of tension and anxiety

Effective Penetration of the Intact Skin

Vascutonex Cream

**A TOPICAL SALICYLATE THERAPY WHICH
INCORPORATES TWO ESSENTIAL FACTORS**

*Effective skin
penetration*

*Effective absorption
into lipid tissue*

The first factor is provided by diethylamine salicylate which has been shown to have an absorption rate 300-500 times greater than methyl salicylate.*

The second factor is Glycol salicylate which has been shown to have a remarkable affinity for lipid tissue ensuring a deposit of salicylate ions, the slow release of which prolongs the action of the quicker acting diethylamine salicylate.

The local effect of these salicylates is to begin their therapeutic action at the site of the lesion. By plain inunction, about 80% of the salicylate content of the cream is taken up into the body and about 60% is excreted in the urine.

VASCUTONEX is non-staining, odourless, and contains no counter-irritants—its therapeutic action depending entirely on the effective absorption and anti-rheumatic action of the salicylates in the formula.

INDICATIONS: Fibrositis and pain associated with muscular and articular rheumatism and all soft tissue pain.

* Comptes rend Soc. de Biol., 1948, 142, 819.

**Lederle proudly announces
the introduction of**

Ledercort*

TRIAMCINOLONE (9 ALPHA-FLUORO-16 ALPHA-HYDROXY)PREDNISOLONE

a new, superior corticosteroid of great promise

LEDERCORT is an achievement of Lederle corticosteroid research—created to minimise the major deterrents to all previous steroid therapy. It offers increased potency for greater clinical effectiveness; reduced dosage and the distinct advantage of fewer side effects.

LEDERCORT represents a new HIGH in anti-inflammatory effects with a lower dosage that averages $\frac{1}{3}$ less than prednisone. LEDERCORT offers a new LOW in the collateral hormonal effects associated with all previous corticosteroids since it causes: *no oedema, no hypertension, no psychosis, no weight gain or potassium depletion.*

Because of its reduced dosage, there is a lower incidence of other side effects such as *peptic ulcer, osteoporosis, epigastric distress, diabetic state, Cushingoid "obesity".*

LEDERCORT provides prolonged therapy at less cost with easier patient management.

INDICATIONS: *Rheumatoid arthritis; bronchial asthma; dermatoses; allergic disorders; other conditions where corticosteroids have proved beneficial.*

Oral tablets of 4 mg., scored for easy division.
Bottles of 30 and 100.

Interim report on

PLAQUENIL

in Rheumatoid Arthritis

The evaluation of any drug for the treatment of a chronic disease, such as rheumatoid arthritis, is a long process and it will probably be some time before any conclusive results from the British trials at present in progress with Plaquenil are available. However, the promising results of preliminary trials with Plaquenil, and its better tolerance than chloroquine in the treatment of discoid lupus erythematosus, have already aroused considerable interest among clinicians who are treating patients with rheumatoid arthritis.

For the benefit of these clinicians we are now able to say that, when persistent side-effects are encountered during treatment with chloroquine, the substitution of Plaquenil will, in the majority of cases, be followed by the resolution of side-effects, so that therapy may be continued.

Plaquenil is hydroxychloroquine sulphate. Tablets 400 mg. available in bottles of 100 and 500.

Pharmacological studies have shown that Plaquenil has an LD₅₀ of 3100 ± 220 mg./kg. in mice when given orally (compared to the oral LD₅₀ of chloroquine phosphate, which is 620 ± 80 mg./kg.)

Treatment of DIABETES MELLITUS without injections

Rastinon «Hoechst» tablets provide an oral treatment for certain diabetic patients.

EFFECTIVE A number of patients on small regular doses of insulin have been found to be suitable for treatment with Rastinon «Hoechst» tablets. Clinical work throughout the world has shown that approximately a quarter of all diabetics can be stabilized on Rastinon «Hoechst» tablets. A few of the more recent references to the literature are given opposite.

SAFE The selection and stabilization of diabetic patients should be carried out under strict medical supervision. For those patients found to be suitable, Rastinon «Hoechst» tablets provide a safe form of therapy and many have now been on oral treatment for two years. No cases of proven dyshaemopoiesis or other serious side-effects due to the drug have been reported.

SIMPLE From 2 to 4 tablets a day are normally all that is required to replace the insulin with its concomitant syringe, needles, swabs, and often nursing assistance as well. The normal regime of urine examination and dietary control remains necessary.

Packs: bottles of 100 and 500 tablets.

The basic price to the National Health Service as dispensed from a 500 tablet bottle is 2.97d per tablet and the total cost to the National Health Service, with all allowances, is less than 4d per tablet.

Each tablet contains 0.5 G. of N-Butyl-N'-toluene-p-sulphonylurea; (Tolbutamide).

In gastro-intestinal conditions...

When solid food is out of the question—in diarrhoea due to food poisoning or other intestinal infection—frequent sips of Lucozade, so easily assimilated, will do much to maintain the patient's strength and morale. Lucozade has all the qualities of glucose combined with a refreshing palatability that makes it acceptable in all circumstances of weakness and exhaustion.

Lucozade is supplied in 6 oz. and 26 oz. bottles. It is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose B.P., and its energy value is 21 Calories per fluid ounce.

LUCOZADE

A practical reference manual on contraception *available free to all doctors*

The Report of the Royal Commission on Population (1949) states:
"... there is nothing inherently wrong in the use of mechanical methods of contraception... public policy should be based on acceptance of voluntary parenthood and contraception."

These words give authoritative support to the use of conception control methods as a means of planning the size of the family.

MODERN CONTRACEPTIVE TECHNIQUE presents a concise and compact survey of methods commonly used. There are notes on methods which have medical approval, and also on others which are medically contra-indicated.

TO GET YOUR COPY
 simply write "Modern Contraceptive Technique" and "Planned Families" on your letter-heading, and post it to the address below.

FOR THE USE OF PATIENTS

PLANNED FAMILIES contains an explanation of contraceptive techniques, written in non-technical terms. Any number of copies will be supplied to doctors for distribution to their patients.

cough reflex
inhibitor*

'NICOLANE' Linctus presents narcotine for the suppression of all forms of unproductive cough. It is particularly effective against the allergic cough and is useful for relieving the exhausted patient.

Tolerance and side effects are minimal, it has a wide margin of safety and it provides adequate control in oral dosage, over long periods.

'NICOLANE' Linctus contains 15 mg. narcotine in each teaspoonful (4 ml) and is available in bottles of 4 fluid ounces. Samples will gladly be made available to the medical profession for clinical trial.

Prescribable on E.C.10.

Basic N.H.S. price 3/7d. per 4 oz. bottle.

**A. & G. Nicholas LTD.** Slough, Bucks, England

EAR WAX Removed this easy way.

The removal of wax from the external auditory meatus has, in the past, normally entailed attendance by the patient for diagnosis and for the prescription of a suitable loosening agent, and a second attendance a few days later for syringing.

Now, by the use of Cerumol Ear Drops, wax can be removed in most cases at one visit. A few drops of Cerumol can be instilled into the ear and, while another patient is being attended to, the soft cerumen dissolves and the harder wax disimpacts. The wax can then be removed by gentle syringing or with cotton wool. The wax may even be found to run out of the ear on its own accord, in which case patients themselves may instil Cerumol at home, obviating further attendances. Cerumol is anti-bacterial, non-irritating and harmless to the lining of the external auditory meatus or the tympanic membrane. Cerumol is included in Category No. 4 of the M.O.H. classified list of Proprietary Preparations and may be prescribed on N.H.S. Form E.C.10.

FORMULA (Active Constituents per 100 c.c.):— *p*-dichlorobenzene B.P.C., 2 gm.; Benzocaine B.P., 3 gm.; Chlorbutol B.P., 5 gm.; Ol. Terebinth B.P., 15 c.c.

PACKS:—For Surgery Use: 10 c.c. vial—separate dropper included. (Basic N.H.S. price 2/8.) For Hospital Use: 2 oz. and 10 oz. bottles.

1958 CURRENT THERAPY—Today's Most Effective Treatments.

By having the New 1958 Current Therapy within easy reach you ensure yourself of immediate access to to-day's best therapeutic measures. For each of nearly 400 common diseases and disorders you'll find a concise but thorough description of the most recent preferred treatment method. Although this year's volume boasts many new treatments—227 to be exact—if an old standby is still the *best* treatment, you'll find it here. The sole criterion is *effectiveness*, not necessarily newness. All of the treatments described crackle with practical facts and brisk instructions. They're written for quick reading and fast comprehension. Exact dosages are always given and prescriptions are written out where necessary.

By 298 Leading Authorities. Edited by HOWARD F. CONN, M.D. 827 pages.

£4 4s

Beckman's DRUGS: Their Nature, Action & Use.

A new and imaginative text on pharmacology, in which the doctor is not asked to cope with thousands of drug agents—hundreds of which will be abandoned or replaced before he gets a chance to use them. Instead he is presented with classes of drugs grouped under categories determined by their action—rather than by type of disease against which they are effective.

By HARRY BECKMAN, *Director, Department of Pharmacology, Marquette University.* 728 pages.

£5 5s

Levine's CLINICAL HEART DISEASE—New (5th) Edition.

A straightforward and up-to-date picture of cardiac disease—its cause, its diagnosis and its treatment. It gives practical advice from an eminent clinical cardiologist, presented in a conversational tone that somehow makes difficult problems seem a little less formidable.

By SAMUEL A. LEVINE, *Clinical Professor of Medicine, Harvard Medical School.* 646 pages, 216 illustrations, 914 electrocardiograms.

£3 6s. 6d

Novak's GYNECOLOGIC & OBSTETRIC PATHOLOGY—New (4th) Edition.

A superbly balanced reference book detailed enough for the specialist, yet written simply enough for the family physician. It describes pictures and explains the lesions of each of the female generative organs. It stresses clinical aspects to ease your diagnoses.

By EMIL NOVAK, *Fellow and Past-President, American Gynecological Society*; and EDMUND R. NOVAK, *Assistant Professor of Gynecology, John Hopkins Medical School.* 650 pages, 683 illustrations (25 in colour).

With the introduction of solids to a baby's diet, starches tend to gain at the expense of valuable milk proteins and the minerals contained in milk.

Ideally, then, the 'first' cereal should provide not just extra solids but extra solids in the form of first-class protein. That is why the vegetable protein in Trufood Cereal is supplemented by milk proteins and essential mineral salts. In this way the total protein is raised to 6.05 grammes per ounce or 21.4%. Trufood Cereal is prepared under conditions of scrupulous hygiene at the Trufood Creameries and Laboratories at Wrenbury in Cheshire. Further information can be obtained from Trufood Limited, 113 Newington Causeway, London, S.E.1.

A Spencer Support for Visceroptosis

Spencer Support closed. The concealed inner abdominal section is adjustable at several different points from the outside of the support.

(Right)
Spencer Support shown open revealing inner abdominal section.

RELIEVES SYMPTOMS, PROMOTES A SENSE OF WELL-BEING

It has been found that practically every ptotic patient experienced relief of symptoms, increased energy and sense of well-being following application of proper support.

The doctor can rely upon Spencer for *proper support* because each Spencer is individually designed, cut, and made for each patient from detailed measurements and a complete description of that patient's body and posture.

With a Spencer, the co-relation of abdominal and back support induces correct posture, modifies an unfavourable tilt. Ptosed organs are lifted to normal position to improve circulation. Better digestion, elimination, respiration often result.

Status Asthmaticus
Angioneurotic Oedema
Anogenital Pruritus
Drug and Contact Dermatitis
Hay Fever
Jaundice—Haemolytic acquired
Urticaria
Serum Sickness
Penicillin Reactions

Available to Hospitals only

Subjective relief in bronchospasm is often dramatic with impressive objective improvement of respiratory function.

In skin sensitivities, striking relief and improvement often follow in a few hours with abatement of pruritus and clearing of the skin.

Available in 5 ml. vials (20 and 40 I.U. per ml.). Stable at room temperature for two years.

ACTHAR is also available in the form of Lyophilized Powder for Intramuscular injection in vials containing 10 and 25 I.U. per vial, and for intravenous injection in vials containing 30 and 75 I.U. per vial.

Fully documented literature will be gladly supplied on request.

Release...

for the asthmatic from his haunting, restricting apprehension of the sudden attack can be assured by provision of a *quick-acting* therapy of the calibre of Brovon Asthma Inhalant. Freely prescribable under the N.H.S., Brovon gives specific relief in many cases of asthma and chronic bronchitis. Taken at the onset it will often completely abort an attack; administered during bronchospasm it will give almost immediate relief.

Brovon Asthma Inhalant contains

Atropine Methonitrate . . . 0.14% w/v.
Papaverine Hydrochloride 0.88% w/v.
Adrenaline (Epinephrine) . . 0.50% w/v.
Chlorbutol 0.50% w/v.

It must be used in a good quality non-metallic inhaler, such as the Brovon Midget Inhaler or any other from the comprehensive Brovon range. Full details will be sent on request.

CARNEGIES PHARMACEUTICALS

Chrysocrema

A **NEW** improved cream enhancing the therapeutic qualities of **CHRYSAROBIN** but with minimum staining effect

Chrysarobin has formerly been presented in ointments which, while proving efficacious for many skin affections, including ringworm, and psoriasis, had the disadvantage of staining the skin and clothing. "Chrysocrema" presents Chrysarobin in a form which reduces staining to almost negligible proportions whilst retaining its powerful parasitidal and stimulative qualities.

The leaves and flower of Araroba Andira, a tree native to South America, from which Chrysarobin is obtained.

*For your thin, underweight
and malnourished patients the basis of*

putting on weight

in a safe and unobjectionable way...

and without drugs is to provide an attractive, readily assimilable dietary supplement of high calorie value. Wate-on does this by incorporating large amounts of a vegetable oil which is rich in readily assimilable, highly unsaturated fatty acids, and glucose which is the most easily assimilated type of carbohydrate. The physiological advantages of these two materials have been firmly established by medical research.

Wate-on is also rich in lecithin which, in addition to its basic calorie value, is also of high physiological value.

Wate-on is further supplemented by the more important vitamins and minerals.

FORMULA

Each ounce of WATE-ON contains

Corn (Maize) Oil	33.0%
Glucose	16.5%
Lecithin	11.0%
Iron (as ferrous gluconate).....	3.2 mg.
Nicotinamide	2.0 mg.

Vitamin B ₂ Riboflavin	1.0 mg.
Vitamin B-1	0.4 mg.
Calcium Pantothenate.....	0.4 mg.
Vitamin B-6	0.03 mg.
Vitamin D-2	100 I.U.
Vitamin B-12.....	4.2 mc.g.

Wate-on is a homogenized fat emulsion, which means that it is in a very easily assimilable physical condition. To sum up, Wate-on is based on the latest results of medical research. Clinical trials have shown that with both ordinary and post-operative patients the regular ingestion of Wate-on was followed not only by gain in weight but also the general health was improved. No side effects were reported.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

MEMBERS ABROAD. Copies of vacancies advertised in the *Journal* can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to three separate headings: additional headings 1s. each.

Please state type of vacancy and remit to the Advertisement Director, B.M.J.

BRITISH MEDICAL ASSOCIATION

ASSISTANT SECRETARY

The Council of the British Medical Association invites applications from registered medical practitioners of both sexes, not over 35 years of age, for the post of Assistant Secretary. The salary will be £1,850, rising by annual increments of £115 to a maximum of £2,890 per annum. In exceptional circumstances the initial salary may be above the minimum of the scale. The Association superannuation scheme will apply on substantive appointment.

The appointment will be for a probationary period of six months in the first instance and thereafter may be terminated by six months' notice on either side.

Applications, giving details of qualifications and experience and accompanied by the names of three persons to whom reference may be made, should be addressed to the Secretary of the Association at B.M.A. House, Tavistock Square, London, W.C.1, and must be received not later than June 7th.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

BIRMINGHAM, Erdington

Applications invited for vacancy (urban) due to resignation of two partners in August, 1958. Combined lists approximately 3,400. Residence/surgery will be available. Practice extends into Warwickshire. Applications, on E.C.16A, to be received not later than May 12, 1958, to the undersigned.—K. F. G. Day, Clerk of Birmingham Executive Council, Sutton New Road, Erdington, Birmingham, 23. (8981)

LEICESTER

Applications invited for vacancy, chiefly urban. List at present approximately 2,550. Residence and surgery and additional surgery possibly available. Apply, on E.C.16A, before May 7, 1958, to the undersigned.—Leicester Executive Council, 96, London Road, Leicester. (9044)

READING EXECUTIVE COUNCIL

Applications are invited for vacancy in Western Area of Borough. Classification—Intermediate. List as at April 1, 1958—1361, including County patients. Residence and surgery available, subject to negotiations with owner. Applications, on Form E.C.16A, to be received by the undersigned not later than May 5, 1958.—N. W. Austin, Clerk of the Council, 10, Gun Street, Reading, Berks. (8957)

LANCASHIRE EXECUTIVE COUNCIL (National Health Service)

VACANCY—LEIGH, Lancashire

Applications for vacancy (mainly urban), due to resignation. List at present approximately 3,200. Residence and surgery (at separate addresses) available for sale to the successor to the practice. Successful applicant will be required to take over on July 5, 1958. Apply, on Form E.C.16A, not later than May 10, 1958, to Jos. A. Speed, Clerk of the Lancashire Executive Council, 42, West Cliff, Preston. (8897)

SALFORD (Higher Broughton) (Lancs)

Retirement vacancy (June 30, 1958)—Intermediate Area—Urban. Doctor transferring to the Hospital Service. List (January 1, 1958) 1,618. Residence, including surgery, available for sale to successor. Applications, on Form E.C.16A, to reach undersigned not later than May 10, 1958.—J. S. G. Clough, F.C.I.I., Clerk, Salford Executive Council, Irwell Place, Crescent, Salford, 5. (8896)

STEPNEY

Intermediate area. Retiring practitioner, male. List at present approximately 2,300. Premises will be available for sale to the appointed successor. Forms E.C.16A available from the Clerk, London Executive Council, Insurance House, Insurance Street, W.C.1. Completed applications to be received by the Council not later than 12 noon, Monday, May 5, 1958. (8958)

Applications are invited from registered medical practitioners for the above appointment. Salary £1,520 by £50 by £55 (7) to £1,955 per annum, according to qualifications and experience. The duties will include the tidal inspection of vessels, the medical inspection of aliens, and such other duties as may from time to time be assigned to him by the Medical Officer of Health. Applicants should hold a Diploma in Public Health and have experience in port health work. The person appointed will be required to devote whole-time service to the duties specified, and must reside within the City. Application forms (returnable by May 10, 1958) are obtainable from the Medical Officer of Health, Health Department, Hatton Garden, Liverpool, 3. The appointment is superannuable and subject to the Standing Orders of the City Council. Canvassing disqualifies.—Thomas Alker, Town Clerk and Clerk to the Port Health Authority (J.5137). (8954)

DURHAM COUNTY COUNCIL
Health Department**ASSISTANT MATERNITY AND CHILD WELFARE MEDICAL OFFICER**

Applications are invited from registered medical practitioners (female). Commencing salary £1,050 per annum, rising by annual increments of £50 and £55 to £1,475. Travelling expenses will be paid in accordance with the scale approved by the Whitley Council. The appointment is subject to certain conditions, particulars of which may be obtained from the County Medical Officer of Health, Shire Hall, Durham, to whom applications, together with the names of not more than three referees, should be sent not later than April 30, 1958. Canvassing members of the Council is prohibited.—J. K. Hope, Clerk of the County Council. (8535)

ESSEX COUNTY COUNCIL**ASSISTANT COUNTY MEDICAL OFFICERS OF HEALTH**

Applications invited from registered medical practitioners for appointment (1) in Forest Health Area (Woodford district) and (2) in South Essex Health Area (Aveley district, including clinic duties at Health Centre—female applicants preferred). Candidates should have experience in school health and maternity and child welfare duties, preference given to those possessing Diploma in Child Welfare and/or Certificate or Diploma in Public Health. Salary scale £1,050 by £50 to £1,250 by £55 to £1,475. Application forms from County Medical Officer of Health, County Hall, Chelmsford, returnable by May 12, 1958. Canvassing disqualifies. (8826)

MANCHESTER EDUCATION COMMITTEE**MEDICAL OFFICERS**

are required for work in the School Health Service. Salary £1,050 to £1,475. Preference given to candidates with experience in children's diseases and retinoscopy and holding D.P.H. or D.C.H. Application forms and particulars (stamped addressed envelope) from Chief Education Officer, P.O. Box 480, Manchester, 3, returnable to the Town Clerk, Town Hall, Manchester, 2, by May 3, 1958. Envelope to be endorsed "School Health Medical Officer." (8965)

STAFFORDSHIRE COUNTY COUNCIL
Wednesfield Urban District Council

Applications are invited for the separate part-time appointments of

ASSISTANT COUNTY MEDICAL OFFICER and SCHOOL MEDICAL OFFICER, and MEDICAL OFFICER OF HEALTH of the Wednesfield Urban District

The appointments together will constitute whole-time, the allocations being seven half-days and four half-days, respectively. The proportionate salary for each appointment is calculated in accordance with the latest agreed scale, and increments will be given for previous service in the same capacity, the ranges being: County Council: £763 12s. 9d. by £36 7s. 3-4d. (3) by £40 (5) to £1,072 14s. 7d. Wednesfield U.D.C.: £669 1s. 10d. by £20 (4) to £749 1s. 10d. A car will be an advantage and an appropriate allowance will be paid. The posts are superannuable and the successful candidate must pass a medical examination and produce his birth certificate. Applicants must be fully qualified medical practitioners, with experience in public health duties, and must hold the diploma of public health or its equivalent. The candidate appointed will, as regards the County Council duties, act under the direction of the County Medical Officer of Health and will be required to perform such duties as may from time to time be prescribed. As regards the duties of Medical Officer of Health, he will be subject to the Sanitary Officers (Outside London) Regulations, 1935 and 1951, and to the sole control and direction of the Urban District Council. The County Council appointment will be subject to three calendar months' notice, in writing, on either side. Forms of application may be obtained from the County Medical Officer of Health, County Buildings, Stafford, and should be returned to him not later than by first post on May 16, 1958.—T. H. Evans, Clerk of the County Council; J. Henwood Jones, Clerk of the Wednesfield Urban District Council, County Buildings, Stafford. (9089)

WESTMORLAND COUNTY COUNCIL

Applications are invited for the post of

ASSISTANT COUNTY MEDICAL OFFICER OF HEALTH and SCHOOL MEDICAL OFFICER

preferably from medical practitioners holding the D.P.H. or D.C.H. Duties will be in connection with the School Health and Maternity and Child Welfare Services. Salary in accordance with the Whitley Council Scale, at present £1,050 to £1,475, plus travelling expenses. Starting salary according to qualifications and experience. Application forms obtainable from the County Medical Officer, County Hall, Kendal, to whom they should be returned not later than May 19, 1958. (8895)

BUCKS COUNTY COUNCIL

Applications are invited from registered medical practitioners for the appointment of

ASSISTANT COUNTY MEDICAL OFFICER

in the South Bucks Area. Preference will be given to applicants possessing a Diploma in Public Health or a Diploma in Child Health, and experience in maternity, school medical and child welfare work. Salary within the scale £1,050 to £1,475 per annum, the commencing salary being fixed according to qualifications and experience. Travelling and subsistence allowances on the County Council's scale will be paid. The appointment is superannuable and subject to medical examination. Further particulars and forms of application may be obtained from the County Medical Officer, County Offices, Aylesbury, to whom completed applications must be returned by Monday, May 5, 1958.—R. E. Millard, Clerk of the Bucks County Council, County Hall, Aylesbury. (8536)

PRE-REGISTRATION HOUSE OFFICERS
POST-REGISTRATION HOUSE OFFICERS
 The Board of Management invites applications from Nigerian graduates for vacancies on August 1, 1958, for House Officers in the newly completed teaching hospital. Pre-registration candidates must be provisionally registered medical practitioners and should be prepared to serve in any of the following departments: medicine, surgery, obstetrics and paediatrics. Post-registration candidates must be fully registered medical practitioners and should be prepared to serve in any of the following departments: medicine, surgery, obstetrics, paediatrics, anaesthetics and general out-patients. The appointments will be for one tour of 12 months, six months to be spent in each of two departments, as far as possible, in accordance with the candidate's preference. The salaries offered for the posts are: Pre-registration House Officer, £660 per annum; Post-registration House Officer, £1,068 per annum. In addition, a Post-registration House Officer will receive a gratuity, on satisfactory completion of contract, of £37 10s. for each completed term of three months' service. An outfit allowance of £60 is payable on first appointment. Partly furnished quarters are provided at a rental of 8½% of salary. Leave is granted at the rate of five days for each completed month of service. Free first-class passage to Nigeria will be arranged, if not provided by any other authority. Applications should be submitted to the Adviser on Staff Recruitment, London Office, University College Hospital, Ibadan, 57, Catherine Place, London, S.W.1, from whom the appropriate forms and additional information can be obtained. The closing date for applications is May 10, 1958. (8966)
