TRADE MARK

SOLUBLE

SAFER SALICYLATE THERAPY

for SAFER Salicylate Therapy

Ekammon-soluble makes possible the administration of aspirin in full analgesic, antipyretic and antirheumatic doses.

Composition

Each tablet is tangerine-flavoured and contains: Soluble Aspirin equivalent to acetylsalicylic acid 330 mgm (5 grains), Acetomenaphthone (Vitamin K) 0.49 mgm, Ascorbic Acid (Vitamin C) 20 mgm.

Advantages

Gastric irritation due to the use of insoluble aspirin is considerably reduced or abolished when replaced by soluble aspirin

in Ekammon-soluble, avoiding erosive gastritis and its potentially lethal complications. The inclusion of Vitamin K counteracts the prothrombin-reducing action of aspirin, averting haemorrhagic tendencies; and Vitamin C prevents the depressant effects usually associated with the administration of salicylate medication.

Packs

Containers of 50, 100, 350 and 750 tablets.

Detailed literature and samples available on request

RYBRONSOL

COMPLEMENTARY TREATMENT
FOR ASTHMA

**soothes the
general nervous system**

RYBRONSOL is a sedative powder which soothes the general nervous system, helps to relax the bronchial spasm and relieves congestion in the bronchial tree.

It can be recommended to all sufferers from asthma as complementary to Rybarvin and/or Rybarex, the well-known inhalation treatments also prepared by Rybar Laboratories Ltd.

At bedtime, RYBRONSOL promotes sleep and after meals it alleviates the congestion and excitability of the bronchial tubes.

Formula:			
Phenazone	0.47 gm.
Iodoantipyrine	0.03 gm.
Antipyrine Acetylsalicylate	0.40 gm.
Caffeine	0.075 gm.

PITMAN MEDICAL**THE MATRIX OF MEDICINE**

Edited by

NICOLAS MALLESON, M.D., M.R.C.P.

Society is the matrix of medicine. Now that organized medicine has gained mastery over the major specific diseases the practice of medicine is coming more to concern the problems of man in his environment and in particular of "stress" as a cause of ill-health. This absorbing book by a distinguished team of writers examines many borderlands between medicine and society. It is not a book on what is generally known as "social medicine" but a lively and thoughtful examination of many of the problems of the daily practice of medicine in our time.

THE BORDERLAND OF EMBRYOLOGY AND PATHOLOGY

By R. A. WILLIS, D.Sc., M.D., F.R.C.P. Pp. xii+627+Index. 250 illustrations. 90s. net, by post 2s. 3d. extra.

Professor Willis's new book is based on his conviction that both embryologist and pathologist have much to gain from a better knowledge of the other's subject. By reviewing particular fields of enquiry and incorporating the accumulated facts in relationship to others he has achieved a well-balanced survey which will be of immense value to embryologists, pathologists and paediatric clinicians.

MODERN TRENDS IN ANAESTHESIA

Edited by FRANKIS T. EVANS, M.B., B.S., F.F.A.R.C.S., D.A., and T. CECIL GRAY, M.D., F.F.A.R.C.S. Pp. viii+320+Index. 70 illustrations. 67s. 6d. net, by post 1s. 9d. extra.

As in all works in this series, the authors express personal ideas and opinions. By discussing many recent and controversial developments they indicate the direction in which their specialty is moving, combining facts with a stimulating yet justifiable speculation.

MODERN TRENDS IN PAEDIATRICS. Second Series

Edited by ARON HOLZEL, M.D., D.C.H., and T. P. M. TIZARD, M.A., B.M., M.R.C.P., D.C.H. Pp. ix+372+Index. 46 illustrations. 70s. net, by post 1s. 9d. extra.

A book which is devoted to modern trends should be concerned as much with the advances of the immediate past as with those of the future. This is the view of the editors of this second series on paediatrics, and in consequence the specialists who have contributed to the book—geneticists, physiologists, virologists, neurosurgeons, statisticians, psychiatrists and physicists—have discussed significant problems within their specialised fields, speculating freely on the developments of the future.

Law and Ethics for Doctors

STEPHEN J. HADFIELD

Assistant Secretary, British Medical Association

This book provides detailed and authoritative guidance on all the many problems of law and ethics which affect the doctor in his daily practice. Rarely will a doctor encounter a problem which is not referred to in this book.

It contains sections on Drugs, Mental Illness, Births and Deaths, and Partnerships; and has specially contributed chapters on *Negligence* by W. G. Hawkins and the late W. Mair; on *Superannuation* by L. S. Potter, the Medical Director of the Medical Practices Advisory Bureau; and finally on *Income Tax* by W. Donald, Accountant to the British Dental Association. 42s. net.

EYRE & SPOTTISWOODE

The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

IN CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau

1958 COLOUR TELEVISION IN MEDICINE

Smith Kline & French Laboratories Limited announce that, as a service to the medical profession of Britain, they are arranging and sponsoring further demonstrations of closed circuit television in natural colour this year.

During the Annual Scientific Meeting of the British Medical Association from July 14-18 there will be presentations illustrating the potentialities of this new instrument for demonstrating medical and surgical procedures.

ADRENOXYL

Reduces the mean bleeding-time

Adrenoxyl reduces the mean bleeding-time by decreasing the permeability and increasing the contractility and resistance of the capillary wall.

A dry field at operation

Adrenoxyl has been successful in diminishing capillary bleeding in a wide range of surgical operations. It has proved particularly useful in ear, nose and throat, ophthalmic and plastic surgery. In plastic surgery of the face it has been reported that, post-operatively, there is less swelling and bruising when Adrenoxyl has been used.

No side effects

Adrenoxyl does not have any side effects or contraindications. It does not affect blood coagulation, blood pressure or pulse rate and does not possess any sympathomimetic properties.

In medical conditions

Adrenoxyl has been used with success in those medical conditions associated with capillary fragility.

In the British Medical Journal (April 21st, 1956) a correspondent confirmed the value of Adrenoxyl in providing a dry field for the surgeon and in shortening the duration of the operation.

Packs

Ampoules: Boxes of 6 and boxes of 50.
Each ampoule contains 0.75 mg. of adrenochrome monosemicarbazone dihydrate.

Tablets: Tubes of 25 and bottles of 500.
Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate.

The best results are obtained when both tablets and ampoules are used.

British Oxygen equipment and gases...**The PNEUMOTRON**
an "electronically
controlled" resuscitator

The Pneumotron is an electronically controlled breathing apparatus originally designed for promoting and sustaining breathing in new-born infants, and which has now been developed for treating adult patients. It can be operated as a 'patient triggered' or fully automatic resuscitator. The slightest inspiratory effort of the patient will 'trigger' the apparatus to follow the breathing rate and respiratory pattern of the patient.

The Pneumotron will change over automatically to cycle at a preset rate and pressure should breathing cease altogether. Alternatively, the control can be set at fully automatic to give a continuous breathing cycle.

Please write for fully illustrated literature to British Oxygen Gases Limited, Medical Division, Great West Road, Brentford, Middlesex.

FOR GERIATRIC PATIENTS safe, comfortable, effective HERNIAL SUPPORT

Because each Spencer Support is designed in order to meet the patient's individual needs, results are demonstrably superior.

The patient shown on left, aged 74, developed a left ventral hernia following surgery fourteen years previously. A left inguinal hernia resulted from the long wearing of a cast following a hip injury 3 years ago. "Stock" supports proved ineffective. A Spencer Support as shown was prescribed with excellent results. Her Spencer gives safe, comfortable and effective control of the hernias—improves and maintains posture—protects and supports the weak muscles of old age. With the aid of her Spencer, the patient runs her household, does all her own work, and—as she says—still has time "to enjoy life."

Prescribe Spencer with confidence for men, women, children—for abdomen, back, breasts. No case is too difficult for Spencer Designers!

NULACIN

provides milk-alkali drip
therapy without a tube

Maintains continuous control of gastric acidity

Until a few years ago, maintained continuous control of gastric acidity was impossible without hospitalization and discomfort to the patient.

Then a unique treatment in the form of Nulacin tablets was evolved to achieve this desirable state—simply, effectively, and without attendant disadvantages. In the ensuing period Nulacin therapy has been amply tried and proved by numerous clinical studies and by therapeutic use in many countries.

A Nulacin tablet placed in the mouth between the cheek and the gum dissolves slowly and releases its contained medicaments at a rate that gives continuous neutralization of the acid gastric juice. Nulacin accomplishes this without any danger of causing alkalosis or other side-effects. The results are comparable with those of intragastric milk-alkali drip therapy.

INDICATIONS: NULACIN tablets are indicated whenever neutralization of the acid gastric contents is required: in active and quiescent peptic ulcer, gastritis and other conditions of gastric hyperacidity.

Dosage: Beginning half-an-hour after food, a Nulacin tablet should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity, up to three tablets an hour may be required. During quiescent periods, for prophylaxis in peptic ulcer and for the relief of discomfort due to gastric hyperacidity, the dose of Nulacin is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.R. equivalent. They may be prescribed on E.C.10. The dispensing unit of 25 tablets is free of purchase tax. (Basic price to N.H.S. . . . 2/-). Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrans and maltose, and incorporate magnesium trisilicate 3.5 grs.; magnesium oxide 2.0 grs.; calcium carbonate 2.0 grs.; magnesium carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

GASTRIC ANALYSIS Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

GASTRIC ANALYSIS Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

BREAK-THROUGH
IN URINARY
INFECTIONS WITH**

Albamycin **GU**
(novobiocin combined with sulphamethizole)

BREAK THROUGH THE RESISTANCE BARRIER

- Albamycin is highly active against gram-positive and some gram-negative bacteria.
- It is notably effective against life-endangering staphylococci.
- The highly desirable additive action of Albamycin and sulphamethizole assures greater effectiveness against commonly encountered GU pathogens.

BREAK THROUGH THE RENAL THRESHOLD

- The urine concentrations achieved with Albamycin are approximately 2 to 3 times greater than the serum concentrations.
- Sulphamethizole, one of the most soluble sulphonamides available, is rapidly absorbed, sparingly acetylated and quickly excreted, to provide high urine concentrations of active sulphonamide.

breaking through the resistance barrier and renal threshold means better therapy with **ALBAMYCIN GU**

Dosage: Adults—1 or 2 tablets four times daily; children—four daily divided doses, providing 12.5 mg. of Albamycin per Kg. of body weight per day.

Supplied: Albamycin GU Tablets in bottles of 30 and 100. Each tablet contains: Albamycin (as novobiocin calcium), 125 mg.; sulphamethizole, 250 mg.

Effective Penetration of the Intact Skin

Vascutonex Cream

**A TOPICAL SALICYLATE THERAPY WHICH
INCORPORATES TWO ESSENTIAL FACTORS**

**Effective skin
penetration**

**Effective absorption
into lipid tissue**

The first factor is provided by diethylamine salicylate, which has been shown to have an absorption rate 300-500 times greater than methyl salicylate.*

The second factor is glycol salicylate, the slow release of which from fatty tissue prolongs the action of the quicker acting diethylamine salicylate.

The local effect of these salicylates is to begin their therapeutic action at the site of the lesion. By plain inunction, about 80% of the salicylate content of the cream is taken up into the body and about 60% is excreted in the urine.

VASCUTONEX is non-staining, odourless, and contains no counter-irritants — its therapeutic action depending entirely on the effective absorption and anti-rheumatic action of the salicylates in the formula.

INDICATIONS: Fibrositis and pain associated with muscular and articular rheumatism and all soft tissue pain.

**Kiddies need no coaxing
with this new form of Achromycin V**

Here's an entirely new form of ACHROMYCIN V especially designed to simplify the control of infection in children and infants. ACHROMYCIN V Pediatric Drops Aqueous—delightfully flavoured with orange—make a particular appeal to the child who turns awkward when it's time to take his medicine.

The product contains ACHROMYCIN tetracycline with citric acid and sodium citrate for more rapid absorption and higher levels of the antibiotic in the blood.

Thus infection can be promptly controlled and the child's recovery accelerated. Accurate dosage can be measured drop by drop from the pliable plastic bottle (5 mg. of tetracycline per drop). The product can be given directly onto the tongue or added to water or fruit juice.

For expectant and nursing mothers

THE VALUE of 'Ovaltine' for the pregnant and nursing mother has long been recognized by physicians. This delicious food beverage has many qualities which make it eminently suitable for inclusion in the mother's diet.

'Ovaltine' contains malt, milk, cocoa, soya, eggs and added vitamins. It provides concentrated nutriment in a palatable form which appeals to the most capricious appetite, and it is easy to digest and assimilate. In addition, it stimulates the supply of breast-milk and helps to keep the mother strong and healthy during the nursing period.

You can confidently recommend your patient to take 'Ovaltine' during pregnancy and when she is breast-feeding her baby.

the antibiotic of choice

in a NEW presentation

ACHROMYCIN OPHTHALMIC OIL SUSPENSION 1%

has been specially developed to make the topical use of ACHROMYCIN tetracycline in eye infections even simpler and more effective. The Oil Suspension offers optimal dispersion of the antibiotic; it diffuses rapidly into the conjunctival sac, has less effect on visual acuity, and provides longer-lasting antibiotic effectiveness. This new form of ACHROMYCIN is acceptable in every sense — to patient and physician alike. The new plastic dropper-type bottle makes accurate dosage easy, and the preparation is virtually free from side-effects. Because the product is so effective and simple to use, the patient can co-operate fully in following the treatment prescribed. That is why ACHROMYCIN Ophthalmic Oil Suspension 1% is now the treatment of first choice in many common forms of eye infection.

ENAVID^{*}

BRAND OF NORETHYNODREL AND ETHINYLOESTRADIOL 3-METHYL ETHER

For the specific control of menstrual irregularities

ENAVID, containing the new Searle steroid norethynodrel, permits *specific* and usually complete *control* of the menstrual cycle on *oral* administration and thus provides effective therapy for most menstrual irregularities.

ENAVID has strong progestational and a lesser oestrogenic activity on the endometrium, which stimulates its development to a secretory phase. It also inhibits the secretion of gonadotropins by the anterior pituitary gland.

SEARLE

ENAVID is therefore recommended for:

- **AMENORRHOEA** (Primary and Secondary)
- **OLIGOMENORRHOEA**
- **MENORRHAGIA**
- **METrorrhagia**
- **DYSMENORRHOEA**
- **PREMENSTRUAL TENSION** and the
- **"INADEQUATE LUTEAL PHASE"**

ENAVID is supplied as 10 mg. tablets in bottles of 20 and 50 tablets.

Detailed literature is available on request.

Introducing 'Nilergex'

the non-sedative antihistamine

'Nilergex' which is the hydrochloride of N-dimethylamino-isopropylthiophenyl-pyridylamine is a recently developed synthetic substance of novel structure possessing powerful antihistaminic and anti-allergic properties, coupled with a remarkable lack of side effects, and an almost complete absence of any sedative effect.

Clinical trials carried out on an extensive scale in Europe and the U.S.A. have shown 'Nilergex' to be a safe and effective antihistamine in relatively low dosage. It is undoubtedly a real

advance on existing antihistamines and is the *most* suitable product for routine use in ambulant patients.

Anabolex

the protein-anabolizing steroid

**restores
normal
protein
metabolism**

PATIENTS who are recovering from illness frequently suffer from faulty protein metabolism. They are in negative nitrogen balance. Protein, in effect, is being broken down and lost faster than it is being built up.

Anabolex (Androstanolone) restores the physiological balance. Many clinical trials have shown that, following the administration of *Anabolex*, there is an immediate return of the body's capacity to build up protein. The patient feels better, eats better and gains weight.

Anabolex can be safely given to patients of all ages and both sexes; in therapeutic doses, its virilizing properties are almost negligible. The only known contra-indication is prostatic carcinoma.

INDICATIONS:

Convalescent patients. Premature infants. Asthenia. Malnutrition. Wasting diseases. Preparation for and recovery from planned surgery.

PRESENTATION: In vials of 25 and 100 tablets, each tablet containing 25 mg. Androstanolone. *Anabolex* can be prescribed on Form E.C.10. Basic N.H.S. price 20/- and 70/-.

'ANABOLEX' is a registered trade mark of

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Second Collection and
Third Collection with classified contents list to volumes 1, 2 and 3
Price 25s. each (by post—Inland 26s. 6d., overseas 26s.)

Each book contains a collection of sixty Refresher Course articles from the *British Medical Journal*. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments. They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £935 per annum in the first year; £1,061 10s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,210 per annum in the first year; £1,320 per annum in the second year; £1,430 per annum in the third year; £1,540 per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £577 10s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

WORLD MEDICAL ASSOCIATION

DEPUTY SECRETARY GENERAL

The World Medical Association, the office of which is in New York, proposes to appoint a Deputy Secretary General with a view to succession to the office of Secretary General when the present holder of that office retires in the relatively near future.

Applications for the appointment of Deputy Secretary General must be sent to the national medical association of the applicant's country, which will transmit the applications of recommended candidates to the W.M.A. in New York.

Registered medical practitioners interested in this appointment who are members of, or eligible for membership of, the British Medical Association, are invited to submit their applications to the Secretary of the British Medical Association at B.M.A. House, Tavistock Square, London, W.C.1. Applications, which must be received not later than September 30, should include full details of professional qualifications and experience, and be accompanied by a recent photograph and the names of three persons to whom reference may be made.

Applicants should preferably be in the age group 45 to 55 and have administrative and/or organizational experience and a working knowledge of English, French, and Spanish. They must be willing to take up residence in New York City as Deputy Secretary General at a starting salary of approximately \$15,000 annually, and be prepared to devote their full time to the interests of the Association. The Deputy Secretary General will have a reasonable expectation of promotion to the position of Secretary General at a salary to be agreed upon when that office becomes vacant, but such promotion will be based entirely upon merit and performance and be subject to the decision of the W.M.A. Council. The normal age of retirement from the office of Secretary General is 65, but by mutual agreement retirement may be postponed on an annual basis for a period not exceeding five years.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

(4509)

ROYAL PERTH HOSPITAL Western Australia**SENIOR HOSPITAL PHYSICIST**

APPLICATIONS are invited from suitably qualified candidates for the post of Senior Hospital Physicist. Previous experience in a hospital physics department essential and a knowledge of high-energy radiotherapy techniques an advantage. SALARY: £A2,300 to £A2,480 (rising by three £A.60 annual increments). Plus cost of living allowance at present £A.60 per annum.

CONDITIONS OF SERVICE: provide for Superannuation and Long Service Leave on the same basis as the State Public Service.

DUTIES: The Senior Hospital Physicist will be in charge of the Isotopes Laboratory; will work in close liaison with the Radiotherapy Department; and will supervise radioactive protection throughout the hospital. The duties also extend to the Departments of Biochemistry, Haematology, Radiology (Diagnostic), and other physical services as may be required.

The Royal Perth Hospital consists mainly of new buildings (in which all the above departments are situated). It has a bed capacity upwards of 650. It is the principal teaching hospital associated with the Medical School of Western Australia. Within the next two years a Linear Accelerator will be installed in the State by the Anti-Cancer Council of Western Australia, and it is expected that the successful appointee may be required to undertake responsibilities in that connection.

It is possible that the Physicist may be required to enter into an arrangement to serve the University Department of Physics in a part-time capacity. The qualifications of the applicant must be such as to satisfy the requirements of the University.

PASSAGE: Travelling allowance available to candidate appointed outside Western Australia.

A Memorandum of Information is available on application to either the undersigned or, in London, to the Agent-General for Western Australia.

In addition to all relevant personal details, applications must include full particulars of qualifications, experience, publications, and the names of two referees, and must reach the undersigned on or before July 31, 1958.—Joseph Griffith, Administrator. (3600)

A. Williamson, Secretary, Otago Hospital Board, P.O. Box 946, Dunedin, New Zealand. (3627)

THE SOUTH CANTERBURY HOSPITAL BOARD, Timaru, New Zealand**EAR, NOSE AND THROAT SURGEON**

Applications are invited for the above post, which is a part-time appointment for an initial period of three years and renewable. Salary is governed by the Hospital Employment Regulations, and would be, according to qualifications and experience, up to £775 for work at Timaru Hospital. In addition there is a fortnightly clinic conducted at Oamaru, 55 miles distant, for which a fee of £10 10s., plus travelling time and mileage allowance, is payable. The total salary will be approximately £1,200 (N.Z. currency) per annum for a senior man. The appointee would establish himself in private practice without financial obligation. First-class private hospital facilities are available in the town. Further particulars obtainable from the Medical Superintendent, Public Hospital, Timaru. Applications, stating age, qualifications and experience, and enclosing not more than three copies only of recent testimonials, should be addressed to the Secretary, The South Canterbury Hospital Board, P.O. Box 88, Timaru, New Zealand.—J. M. Healy, Secretary. (4371)

Oversea (Vacant)—contd.**UNIVERSITY COLLEGE OF THE WEST INDIES**

Applications are invited for

Applicants should state in which qualification they are interested.

MENTAL HEALTH RESEARCH FUND**STUDENT PRIZES AND TRAVELLING FELLOWSHIP IN PSYCHIATRY**

The Mental Health Research Fund awards annually to Medical Students and Doctors in their pre-registration year three Monetary Prizes and a Travelling Fellowship as the result of an essay competition on a subject relating to mental health, and a subsequent interview. Applicants gaining the top three places in the essay competition will be given prizes of £100, £50 and £25 respectively. The Travelling Fellowship, tenable in a psychiatric or other department abroad for up to six months, will be awarded as the result of an interview combined with consideration of the candidate's undergraduate record. Persons interviewed will be chosen from the top ten in the essay competition. The Travelling Fellowship will normally be taken up at the end of the pre-registration year or, in the event of it being awarded to a medical student, may be taken up after qualification. The subject for the essay this year is "Discuss the Role of the Autonomic Nervous System in Psychiatric and Psychosomatic Illnesses." The Panel of Examiners consists of two members of the Research Committee of the Mental Health Research Fund and one member of the Association of Teachers of Psychiatry in Undergraduate Medical Schools. Essays should be sent, before March 1, 1959, to the Secretary, Research Committee, Mental Health Research Fund, 39, Queen Anne Street, London, W.1 (Tel. Welbeck 1272), from whom further details may be obtained. (4372)

ST. ANDREW'S HOSPITAL, NORTHAMPTON
for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt. Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided. **MOULTON PARK.**—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet apparatus, and a department for Diathermy and High-frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.
