Triplets thrive on 'REGAL'

In addition to its growing acceptance as a most suitable bottle-feed for normal full-term babies, there is ample evidence of the value of evaporated milk for feeding prematures. 14

Very tangible evidence indeed of the progress made on 'Regal' evaporated milk is given by these triplets - Martin, Lindsey and Linda - who at birth weighed 4 lb. 4 oz., 4 lb. 15 oz. and 3 lb. 13 oz. respectively. Pictured here at $7\frac{1}{2}$ months, their weights were 16 lb. 6 oz., 16 lb. 14 oz. and 13 lb. 6 oz. Their mother writes: "There are not three bonnier babies anywhere. I am more than pleased with the easy and convenient way the 'Regal' feeds are made."

I. LANCET I, 987, 1949 2. PRACTITIONER, 979, VOL. 164, 1956

The esters of NICOTINIC, SALICYLIC and

p-AMINOBENZOIC acids

bring relief to cases of arthritis and rheumatism

In cases of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial crythema, but also brings about a deep hyperacmia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. It may be prescribed on Form E.C. 10. Samples and literature will be gladly sent on application.

Do you subdue bacteria-

OR KILL THEM?

Undoubtedly the best way to eradicate bacteria is to kill them. And undoubtedly the best antibiotics to achieve this end, in the great majority of infections, are penicillin and streptomycin. These are combined in Crystamycin.

Crystamycin is bactericidal. Therefore it does not, as the bacteriostatic broad-spectrum antibiotics do, merely inhibit the multiplication of micro-organisms—it stops them dead in their tracks, destroying them swiftly, relentlessly and safely. Therapy with Crystamycin is short and decisive... and low in cost into the bargain.

CRYSTAMYCIN

A single dose provides:
500,000 units soluble sodium penicillin
0.5 gm. streptomycin sulphate.
Issued in boxes of ten
single-dose and five-dose vials.

Glaxo Laboratories Ltd., Greenford, Middlesex. BYRon 3434

Crystamycin is available in most countries

Each strength No. 1 'Drinamyl Spansule' contains 10 mg. 'Dexedrine' and 65 mg. (gr. 1) amylobarbitone.

Each strength No. 2 'Drinamyl Spansule' contains 15 mg. 'Dexedrine' and 97 mg. (gr. 1½) amylobarbitone.

'Dexedrine', 'Drinamyl' & 'Spansule'* are trade marks. *Brit. Pat. Nos. 715305 and 742007

NULLACIN RESING 4 2 3 lb 14 12 13 2b 24 2d 2d 2d 3b 3d

Maintains continuous control of gastric acidity

Until a few years ago, maintained continuous control of gastric acidity was impossible without hospitalization and discomfort to the patient.

Then a unique treatment in the form of Nulacin tablets was evolved to achieve this desirable state—simply, effectively and without attendant disadvantages. In the ensuing period Nulacin therapy has been amply tried and proved by numerous clinical studies and by therapeutic use in many countries.

A Nulacin tablet placed in the mouth between the cheek and the gum dissolves slowly and releases its contained medicaments at a rate that gives continuous neutralization of the acid gastric juice. Nulacin accomplishes this without any danger of causing alkalosis or other side-effects. The results are comparable with those of intragastric milk-alkali drip therapy.

INDICATIONS: NULACIN tablets are indicated whenever neutralization of the acid gastric contents is required: in active and quiescent peptic ulcer, gastritis and other conditions of gastric hyperacidity.

Dosage: Beginning half-an-hour after food, a Nulacin tablet should be placed in the mouth between the cheek and the gum and allowed to dissolve.

During the stage of ulcer activity, up to three tablets an hour may be required. During quiescent periods, for prophylaxis in peptic ulcer and for the relief of discomfort due to gastric hyperacidity, the dose of Nulacin is one or two tablets between meals.

NULACIN tablets are not advertised to the public and have no B.P. equivalent. They may be prescribed on E.C.10. The dispensing unit of 25 tablets is free of purchase tax. (Basic price to N.H.S....2/-). Also available in tubes of 12.

NULACIN tablets are prepared from whole milk combined with dextrins and maltose, and incorporate magnesium trisilicate 3.5 grs.; magnesium oxide 2.0 grs.; calcium carbonate 2.0 grs.; magnesium carbonate 0.5 grs.; Ol. Menth. Pip. q.s.

GASTRIC ANALYSIS Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.

GASTRIC ANALYSIS Same patients as in Fig. 1, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.

"Calcium aspirin...can be used with impunity"*

* Extracts from B.M.J., 2-7-55.

SOLPRIN is accordingly often prescribed

Solprin contains aspirin in soluble form. It is a highly efficient analgesic — the more quickly and easily absorbed by reason of its solubility. Dissolved in water, the tablets produce a solution of calcium acetylsalicylate. Solprin is extremely well tolerated, even by sufferers from peptic ulcer.

Solprin will be found particularly valuable when heavy or prolonged dosage is called for.

Patients find Solprin easy to take and palatable.

SOLPRIN

Soluble and substantially neutral

Not advertised to the public

Solprin is available only on prescription and only in Great Britain and Northern Ireland. Clinical samples and literature will be supplied on request.

Kiddies need no coaxing with this new form of Achromycin V

Here's an entirely new form of Achromycin V especially designed to simplify the control of infection in children and infants. Achromycin V Pediatric Drops Aqueous—delightfully flavoured with orange—make a particular appeal to the child who turns awkward when it's time to take his medicine.

The product contains Achromycin tetracycline with citric acid and sodium citrate for more rapid absorption and higher levels of the antibiotic in the blood.

Thus infection can be promptly controlled and the child's recovery accelerated. Accurate dosage can be measured drop by drop from the pliable plastic bottle (5 mg. of tetracycline per drop). The product can be given directly onto the tongue or added to water or fruit juice.

FORTIFIED DIET

A scientifically balanced food supplement which acts normally and safely!

Medical practitioners will perhaps agree that the correct basis of slimming is to reduce calorie intake but to maintain the dietary essentials, namely protein, vitamins and minerals. Some dieting procedures, while scientifically correct, are unpleasant or inconvenient and may even bring discomfort. It is a common experience that slimming is mainly a matter of strength of character, and any dietary scheme which helps to make slimming a pleasant and convenient procedure has obvious advantages. LARSON'S SWEDISH MILK DIET achieves all these objects and in addition permits great flexibility in application. In this system each of the four daily meals is considered as a unit which can be replaced, as required, by an attractive, conveniently prepared and cheap food. If all four meals are replaced by Swedish Milk Diet the daily calorie intake is reduced to about 650, but all the vitamin and mineral requirements and roughly half the protein requirements for the day are met. In the full system the four meals on three days a week, say Monday, Wednesday and Friday, are replaced by the diet, but individual meals can be replaced at any time as desired. For example, the Swedish Milk Diet can be taken in place of breakfast and tea, or in place of lunch and tea every day.

The diet is simplicity itself. It is prepared by adding a heaped teaspoonful of the supplement to a glass (8 fluid ozs.) of milk which may be cold, warm or hot as desired. Flavouring can be added if wished. The composition of the LARSON'S

SWEDISH MILK DIET is as follows:

```
One heaped teaspoonful with an 8 ounce glass of
milk taken four times daily supplies:-
```

3 grms. Calcium ... over 100% M.D.R.* 3 grms. Phosphorus ... over 100% M.D.R. 2,500 International Units Vitamin A...50% M.D.R. 200 International Units Vitamin D... 50% M.D.R.

4 mg. Calcium pantothenate

1.2 mg. Vitamin B₁ ... 100% M.D.R. 2 mg. Vitamin B₂ ... 100% M.D.R. 6 mg. Nicotinamide ... 50% M.D.R. 0.1 mg. Vitamin B

31 gm. Protein 50 gm. Carbohydrate

34 gm. Fat Equivalent to 650 Calories

*M.D.R. means adult Minimum Daily Requirement.

The minimum daily requirement for vitamin B₆ and calcium pantothenate has yet to be established.

It will thus be seen that the diet is not only medically and scientifically sound in principle, but is very convenient to use. Milk can be obtained anywhere and travellers can easily take with them sufficient supplement for their journey. On those rare occasions when milk cannot be obtained, milk powder can readily be used as a substitute.

One ounce of powder should be reconstituted in seven fluid ounces of water, and the supplement then added in the usual way. Spraydried powder is recommended, as it is more easily reconstituted, and if spray-dried skim milk is used, there will, of course, be a further reduction in calorie intake.

SWEDISH MILK DIET

5-SECOND SALTE ENEM

New, hygienic, labour-saving, it spares the nurse and spares the patient.

Charged with 4 fluid ounces of solution, the SALT's disposable unit represents not only the simplest, quickest and most hygienic method of administering an enema, but the most positive. The pack is complete with nozzle and ready to give.

. It is a matter of seconds to give a SALT's enema; compare this with the difficulties arising from preparing funnel, douche-can or syringe. Here instead is a simple and safe method requiring no preparation and no subsequent sterilisation.

A bowel action is induced, with the least discomfort to the patient, in 3 to 5 minutes; the distension and colic often caused by a conventional enema are eliminated.

To-day, a single-handed instillation, enabling complete control of the fluid injected, replaces what used to be a disagreeable task. The unit is subsequently discarded.

The SALT's enema unit eases the effects of the nursing staff shortage and this will be appreciated by those in charge of hospitals, nursing homes, sanatoria and by those who have the care of the elderly.

The efficiency of the "SALT's Disposable Enema" has been proved.

SPECIAL PRICES (net) FOR HOSPITALS and the MEDICAL AND NURSING PROFESS.ONS For orders of one dozen or less 32/- per doz.

Quotations for 5 gross and upwards gladly given.

Matrons who have not already received a free sample enema are invited to apply.

(i) Provisionally registered medical practitioners: £467 10s. per annum for the first post held; £522 10s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £522 10s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £577 10s. per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £819 10s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £852 10s. by £55 to £1,182 10s. per annum. If the post is resident a deduction of £170 per annum is made.

The Council of the Royal College of Physicians of London are prepared to receive applications for the office of
MILROY LECTURER for 1960

Applications must be addressed to the Registrar, Royal College of Physicians, Pall Mall East, S.W.I. to reach the College on or before Wednesday, September 10: 1958, and to include a short synopsis of the subject selected by the candidate. Two lectures are to be given on a Tuesday and Thursday in February or March, 1960. A copy of Dr. Milroy's "Suggestions" on the subject of his bequest, and information as to the emolument, may be obtained from the Registrar. (5216)

THE UNIVERSITY AND THE ROYAL FACULTY OF PHYSICIANS AND SURGEONS OF GLASGOW

Postgraduate Medical Education Committee

REFRESHER COURSE FOR GENERAL PRACTITIONERS

A Refresher Course of one week's duration, designed for general practitioners, will be held at the Victoria Infirmary, Langside, Glasgow, S.2. from September 22 to 27, 1958. The course will consist, so far as possible, of bedside discussions and clinical conferences. Sessions will deal with general medicine, including cardiology and haematology, general surgery, orthopaedies, gynaecology, ophthalmology, dermatology and urology. Lunch will be available at the hospital. The course will rank for Government grant to eligible N.H.S. practitioners. The fee for practitioners not claiming Government grant is £5 5s. Since the number of places is limited, those wishing to attend should make early application to the Director of Postgraduate Medical Education, the University, Glasgow, W.2. from whom further information may be obtained.

information may be obtained.

THE JENNER MEMORIAL LECTURE OF 1958 entitled "Modern Medicine and the Navajo," will be given by Rrofessor Walsh McDermott (Cornell University), on Tuesday, July 1, at 5.30 p.m. in the Board Room, St. George's Hospital, S.W.I. Admission free, without ticket. (5183)

UNIVERSITY OF LONDON

Institute of Obstetrics and Gynaecology (Incorporating the teaching facilities of Queen Charlotte's Maternity Hospital; Chelsea Hospital for Women, and the Department of Obstetrics and Gynaeco'ogy at Hammersmith Hospital)

Applications are invited from graduates with a registrable qualification for enrolment for the Autumn Term (September 1 to November 29, 1958). Graduates attend each of the constituent hospitals Graduates attend each of the constituent hospitals in turn for clinical work, and attend lectures and special demonstrations at all three hospitals. Enrolment fee £3. Tuition fee £36 a term. General practitioners wishing further experience in obstetics may be accepted to attend the course at Queen Charlotte's Maternity Hospital for shorter periods, i.e., two to four weeks. They will have the opportunity of attending the labour ward in addition to combined classes of lectures and demonstrations at the three hospitals of the Institute. Ministry of Health grants are payable to approved general practitioners attending for a period of one or two weeks. An intensive course for those preparing for M.D. and M.R.C.O.G. will be held from December 1 to December 13. 1958. During the winter vacation, a limited number of graduates may attend the practice of the hospital. Hostel accommodation is available at Queen Charlotte's Hospital and at Hammersmith at Queen Charlotte's Hospital and at Hammersmith Hospital. Further particulars can be obtained from the Secretary, Institute of Obstetrics and Gynaecology, Chelsea Hospital for Women, Dovehouse Street, London, S.W.3. (5215)

UNIVERSITY OF LONDON

A lecture entitled "The Problems of the Pig-mented Mole and Malignant Melanoma" will be delivered by Dr. G. Pack (New York) at 5.30 p.m. on June 26 at the London School of Hygiene and Tropical Medicine, Keppel Street, Gower Street, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (5105)

THE UNIVERSITY OF LEEDS

DIPLOMA IN PSYCHOLOGICAL MEDICINE

A course for the Diploma in Psychological Medicine will commence in October, 1958, if sufficient entries are received. Instruction will be part-time and will occupy approximately one and a half days a week during nine academic terms (three years). Further particulars may be obtained from the Secretary, School of Medicine, Thoresby Place, Leeds, 2, to whom application for admission to the course should be sent as soon as possible. (5184)

THE UNIVERSITY OF SHEFFIELD IN ASSOCIATION WITH THE NOTTINGHAM HOSPITALS

A refresher course for general practitioners will be held in Nottingham during the week beginning Monday, July 14. The fee is five guineas, and aecommodation in a University Hall of Residence can be arranged at a moderate additional charge. N.H.S. practitioners are (subject to certain conditions) eligible to have the course fee paid on their behalf and to receive also certain allowances (travelling expenses, subsistence, locum fees). As the number who can be accepted is limited, inquiries and applications (stating whether or not the latter are made under the Scheme for N.H.S. practitioners, and whether residential accommodation is desired) should be addressed as soon as possible to the Dean of the Faculty of Medicine. The University, Sheffield, 10. (5136)

ST. AND REW'S HOSPITAL, NORTHAMPTON for Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. Inomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided.

MOULTON PARK.—Two miles from the main MOULTON PARK.—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a Reception Hospi-WANTAGE HOUSE.—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet apparatus, and a department for Diathermy and High-frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL—The seaside house of

ment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the Estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London
