Bayer Products Limited, Eden Street, Kingston-upon-Thames, Surrey Associated exporting company: Winthrop Products Ltd.

In illnesses where swallowing is difficult or impossible, such as poliomyelitis and tetanus, tube feeding with Complan is the simple, effective way of keeping the patient fully nourished. It is the same Complan which is so beneficial to the convalescent at home. Two or three cups daily of nourishing, easily prepared Complan provide the high protein-vitamin-mineral intake to build up the patient and make him fully fit again. In hospital or home, Complan is the simple complete answer to most feeding problems.

COMPLAN

Contains every nutrient essential to life

In 1-lb. cartons and 14-lb tins (hospital pack).

nasal congestion orally with 'Triominic'

"timed-release tablets"

The NEW concept for relief of the Common Cold

In the common cold and postnasal drip, one "timed-release" 'TRIOMINIC' tablet brings welcome relief of symptoms in minutes. Running noses stop, clogged noses open—and stay open for 6 to 8 hours. The patient can breathe again. 'Triominic' is not likely to cause secondary congestion, and it eliminates local overtreatment and consequent nasal pathology, such as commonly follow the use of topical decongestants in the form of sprays and nasal drops.*

• Illinois med. J., 1957, 112, 259.

Each "timed-release" TRIOMINIC Tablet contains:

Phenylpropanolamine-HCl50 mg.

'Triominic' Wander is Schedule 4.

Dosage: 1 tablet in the morning, afternoon and in the evening if needed. An average prescription is 12 tablets.

Packs: Supplied for dispensing in bottles of 50 and 250.

Price: N.H.S. Basic Price for 12 tablets (4 days' treatment) is 2/3d.

Also available: 'Triominic' Syrup, for children and those adults

who prefer a liquid medication, in bottles of 2 fl. oz. and 20 fl. oz. (dispensing). N.H.S. Basic Price for 2 fl. oz is 1/10d.

Each "timed-release" tablet keeps nasal passages clear for 6 to 8 hours—
provides "around-the-clock" freedom from congestion on just 3 tablets daily.

FIRST

the outer layer dissolves within minutes to produce 3 to 4 hours' relief

THEN

the inner core disintegrates to give 3 to 4 more hours' relief

THUS

3 tablets daily 'unblock around the clock'

running noses and open congested noses orally with 'Triominic'

PFIZER LIMITED, FOLKESTONE, KENT

RASTINON

ORAL TREATMENT
OF DIABETES

An advance in the therapy of diabetes

Rastinon tablets, developed by Farbwerke Hoechst AG., of Frankfurt/M., under the research No. D860, have now an established place in the therapy of diabetes mellitus. The large volume of clinical work and the number of papers published, reflect the world-wide interest in Rastinon. This work clearly shows that for the suitable patient Rastinon tablets provide a form of therapy which is

Simple, safe, effective and economical

Rastinon is not a "sulphonamide drug," has no anti-bacterial action and does not produce crystalluria. No cases of dyshaemopoiesis or other serious side-effects have been reported among the many thousands of patients satisfactorily controlled for more than two years.

The suitability of a patient for treatment with Rastinon tablets is readily assessed in the diabetic clinic and once stabilised no difficulties have been experienced in controlling the patient. An acute intercurrent infection may necessitate a temporary return to insulin therapy.

DOSAGE

Once stabilised, from one to three tablets a day are normally all that is required to replace the insulin with its concomitant syringe, needles, swabs, and often nursing assistance as well. During the period of stabilisation it has been found that generally from four to eight tablets on the first day, three to six on the second and three to five on the third are sufficient.

The daily amount should be divided into two or three doses and taken during or after meals with a little fluid. Higher doses are not usually more effective and are not recommended as they may occasionally cause hypoglycaemic reactions. The normal regime of urine examination and dietary control remains necessary.

To lessen the possibility of the patient taking a tablet other than Rastinon in error, each tablet is engraved with the name Rastinon and the trade mark of the originators.

PACKS

Bottles of 100 and 500 tablets—each tablet contains 0.5 G. N-Butyl-N'-toluene-p-sulphonylurea (tolbutamide). The basic cost to the N.H.S. of a week's treatment is on average between 3/6d. and 5/3d.

CALMIC

'Decadron'

...a leap beyond

previously available steroids

'DECADRON' is a completely new synthetic corticosteroid discovered in the Merck Sharp & Dohme Research Laboratories. 'DECADRON' has all the basic therapeutic actions of earlier steroids, but to a much greater degree. Although 'DECADRON' is

35 times more potent than cortisone,
7 to 10 times more potent than prednisolone, and
5 times more potent than triamcinolone
and methylprednisolone,

the incidence of side-effects is the lowest ever reported. 'DECADRON' introduces an important change in steroid therapy, since therapeutic need—not side-effects—now becomes the predominant factor.

The change-over to 'DECADRON' from the older steroids is extremely simple and is covered in the literature, available on request.

References: Calif. Med., 1958, 88, 417 Arthritis & Rheumatism, 1958, 1, 313

For your thin, underweight and malnourished patients the basis of

putting on weight

in a safe and unobjectionable way ...

and without drugs is to provide an attractive, readily assimilable dietary supplement of high calorie value. Wate-on does this by incorporating large amounts of a vegetable oil which is rich in readily assimilable, highly unsaturated fatty acids, and glucose which is the most easily assimilated type of carbohydrate. The physiological advantages of these two materials have been firmly established by medical research.

Wate-on is also rich in lecith.n which, in addition to its basic calorie value, is also of high physiological value.

Wate-on is further supplemented by the more important vitamins and minerals.

FORMULA	
Each ounce of WATE-ON contains	Vitamin B ₂ Riboflavin1.0 mg.
Corn (Maize) Oil33.0%	Vitamin B-10.4 mg.
Glucose16.5%	Calcium Pantothenate 0.4 mg.
Lecithin11.0%	Vitamin B-60.03 mg.
Iron (as ferrous gluconate)3.2 mg.	Vitamin D-2100 I.U.
Nicotinamide2.0 mg.	Vitamin B-12

Wate-on is a homogenized fat emulsion, which means that it is in a very easily assimilable physical condition. To sum up, Wate-on is based on the latest results of medical research. Clinical trials have shown that with both ordinary and post-operative patients the regular ingestion of Wate-on was followed not only by gain in weight but also the general health was improved. No side effects were reported.

ORTHOPAEDICS IN GENERAL PRACTICE

Is It Rheumatism, Doctor? By W. H. GERVIS, F.R.C.S.

"Mr. Gervis is able to draw on an unusual breadth of experience, because for several years he worked as a general practitioner, before specializing in orthopaedic surgery... He has written a light-hearted, lucid book, containing a clear exposition of such complex problems as flat feet." Many of his remarks upon such topics as shoe design, corsets, and the shape of car seats will bear a lot of repetition to a lot of patients."—The Lancet.

Manufactured by a subsidiary company—A. & G. NICHOLAS LTD., SLOUGH.

THE GREAT ADVANTAGE of Codis is that it provides a codeine compound tablet in which the aspirin content is soluble in water. (The codeine constituent is also soluble, and the phenacetin is in very fine suspension.)

This is achieved by careful compounding and preparation, resulting in tablets which are quickly absorbed and well tolerated—even in cases of proven intolerance to ordinary (insoluble) aspirin.

To ensure stability and easy identification, the tablets are wrapped in moisture-proof distinctive gold foils of 10 tablets each (dispensing size), or boxes containing five foils of 4 tablets each (public size).

Just one of a crowd

No longer does he stand out as a peculiar, hostile individual, for the selective, anti-agitant action of Sparine enables him to enjoy a more normal mode of life. Because of its relative safety in use and freedom from over-sedation and depression, Sparine is ideally suited for the ambulant aggressive patient at home or in hospital. It quickly subdues this belligerent attitude, leaving him mentally alert and amenable to any psycho-rehabilitative measures which you consider necessary.

A TEXT ON SYSTEMIC PATHOLOGY

by OTTO SAPHIR, M.D.

From practical experience gained over the years, and from definite facts amassed as a result of sustained studies on numerous subjects, Dr. Saphir and the special contributors to this work present systemic pathology as it affects the organs of the living patient-written with special emphasis on those changes which are essential for diagnosis in the operating room. Such often neglected fields in pathology as the eye, ear, skin, and congenital anomalies of the heart are thoroughly discussed by leading specialists in each of these fields.

Volume 1: 882 pages, 818 illustrations, 224s. Volume II will be issued in 1959.

Sunskine and Warmth for people of all ages

So many people would feel all the better for the stimulating warmth and sunshine provided by Philips Health Lamps. For instance, when used under medical guidance, these lamps are often remarkably successful in treating rheumatic complaints and debilitated conditions.

Two types of lamp are available, both requiring a signed medical certificate to enable the patient to purchase.

Philips Ultra-violet SUNLAMP

Philips Sunlamp gives the blessing of "Mountain sunshine"-a boon in convalescence and, as many doctors know, is useful for treat-ing skin troubles, such as psoriasis. Price: 25.17s.6d. (including goggles).

Philips Infra-red INFRAPHIL

Philips Infraphil was installed in the medical centres at the last two Olympic Games. It is most valuable in alleviating the pain of arthritis, rheumatism and muscle-strain. Infraphil Infrared lamp costs only £3.3a.6d. (as illustrated). De-luxe model "A" Price: £4.4a.6d. A" Price: \$4.4s.0d.

How Heinz Baby Foods simplify mixed feeding

The days are gone when mixed feeding involved mother in hours of work, sieving and straining meat and vegetables for her baby's dinner.

To-day, she finds it much more simple and pleasant-when you recommend Heinz Baby Foods as soon as baby is 11 or 12 weeks old. Baby takes his food more readily from a calm and relaxed mother, and this should result in happy, contented mealtimes that both mother and baby enjoy. And, with the 25 varieties of Heinz Baby Foods, a mother can give her baby the very best fruits, vegetables and meats all the year round.

All the ingredients used by Heinz are carefully selected, prepared in scrupulously hygienic conditions, and specially cooked to retain the maximum nutritional value. Accustoming baby as early as possible to this wide range of foods, trains growing appetites along healthy lines.

Further information about Heinz Baby Foods will be gladly sent on request. Please write to: H. J. Heinz Company Limited, Harlesden, London N.W.10

SURGICAL

ELASTIC STOCKINGS

OF EXCEPTIONAL QUALITY

COLBY PRODUCTS, LTD., specialise in the manufacture of high quality Surgical Hosiery and can be counted upon to supply stockings which will give firm support with comfort and a good appearance. Their full normal range includes hose in Superfine Nylon Yarn, Nylon Yarn, Nylon Net and Elastic Yarn.

Nylite is an entirely new addition to the Colby range. It is a lightweight surgical stocking knitted from Nylon Elastic Yarn, which will give reliable support with more than ordinary comfort as it has a particularly soft texture. The stocking is handsome as well as efficient, with a matt finish, that allows it to be worn (in the closed toestyle) without over-hose.

Nylite may be prescribed under the National Health Service.

The PNEUMOTRON an "electronically controlled" resuscitator

The Pneumotron is an electronically controlled breathing apparatus originally designed for promoting and sustaining breathing in new-born infants, and which has now been developed for treating adult patients. It can be operated as a 'patient triggered' or fully automatic resuscitator. The slightest inspiratory effort of the patient will 'trigger' the apparatus to follow the breathing rate and respiratory pattern of the patient.

The Pneumotron will change over automatically to cycle at a preset rate and pressure should breathing cease altogether. Alternatively, the control can be set at fully automatic to give a continuous breathing cycle.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they

Canvassing in any form will disqualify.

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made. Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee

provided that the employing authority (subject in the case of a riospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £600 12s. per annum for any post held;

(ii) runy registerea medical practitioners: £000 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Any advertisements appearing in this issue for posts in the hospital service which quote the rates of salary which obtained before the recent percentage increases are published on the assumption that the employing authorities will make the necessary adjustments. (29/12/58)

DENTAL

THE NUFFIELD FOUNDATION

DENTAL FELLOWSHIPS AND SCHOLARSHIPS

DENTAL FELLOWSHIPS AND SCHOLARSHIPS

The Nuffield Foundation invites applications, from citizens of the United Kingdom, for Fellowships and Scholarships in Dentistry. To help the advancement of teaching and research in the United Kingdom on dental health and disease, the Foundation is prepared to award a number of Fellowships. (i) To enable selected men and women with dental qualifications to receive such additional training in pure and applied science as de desirable to fit them for an academic career in dentistry (but not to obtain a medical qualification), and (ii) to enable selected university graduates in medicine and science to receive training that will qualify them to undertake teaching and fundamental research on dental health and disease. The Foundation is also prepared to award a limited number of Scholarships to assist students of outstanding ability attending a university dental school to devote one or two years to further studies of the basic sciences. All applications must first be endorsed by the executive authority of the appropriate dental or medical school or scientific faculty of a university in the United Kingdom. They must be received by the Foundation by March I in the case of Fellowships, which are awarded once a year: and by January 31 and June 30 in the case of Scholarships, which are awarded twice a year. Copies of the conditions of both Fellowships and Scholarships and the application forms are obtainable from the Director, the Nuffield Foundation, Nuffield Lodge, Regent's Park, London, N.V.I.—

L. Farrer-Brown, Director of the Nuffield Foundation.

London Hospital Catgut in non-splintering 'spot' tubes

Speed is a matter of urgency in the Operating Theatre—which is why the London Hospital 'spot' tubes are so popular. Just a slight pressure, and instantly the tube breaks cleanly at the 'spot' position, and the sterilised suture is ready for use.

These are the advantages:

- The spot indicates the exact breaking point of the tube.
- If the thumbs are placed about \{ \frac{3}{4}" apart, exactly opposite the spot, the tube breaks cleanly and easily under slight pressure.
- No filing is needed, no instruments required, no need to hold the tube in a swab.
- There are no dangerous glass splinters.

Always use London Hospital Catgut the more F·L·E·X·I·B·L·E Suture
