

## Gentle Reminder

Even the healthiest person suffers occasionally from alimentary disorders. If the trouble is of a minor nature - brought on, perhaps, by unwise diet - Andrews may well be the answer.

Andrews neutralizes stomach acids, stimulates bile flow. It assists elimination by introducing liquid into the bowel by osmosis. Used judiciously as a corrective to a faulty diet, Andrews encourages the body to perform its normal functions in a perfectly natural and gentle way.

# Only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

*"In view of the ineffectiveness of most of the tableted antacids, the milk alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy."*

(*Medical Times* 1958, 1, 74)

**NULACIN TABLETS** have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Antacids. *The Practitioner*, January 1957, 178: 43

Antacids in Peptic Ulcer. *The Practitioner*, January 1956, 176: 103

Recent Advances in the Ulcerative Diseases of the Gastrointestinal Tract. *Amer. J. Gastro.*, December 1956, 26: 665

Ambulatory Continuous Drip Method in the Treatment of Peptic Ulcer. *Amer. J. Dig. Dis.*, March 1955, 22: 67-71

Management of Peptic Ulceration in General Practice. *Med. World*, December 1954, 81: 591-601

Clinical Investigation into the Action of Antacids. *The Practitioner*, July 1954, 173: 46

Further Studies on the Reduction of Gastric Acidity. *Brit. Med. J.*, 23rd January 1954, 1: 183-184

Control of Gastric Acidity by a New Way of Antacid Administration. *J. Lab. & Clin. Med.*, 1953, 42: 955

The Effect on Gastric Acidity of "Nulacin" Tablets. *Med. J. Aust.*, 28th November 1953, 2: 823-824

Nulacin tablets have no B.P. equivalent and have been classified in categories 3 & 4 by the Joint Committee on Prescribing. The basic N.H.S. price of the 25 tablet tube is 2/-.

## A Clinical Introduction to Heart Disease

**CRIGHTON BRAMWELL***Emeritus Professor of Cardiology in the University of Manchester ; Consulting Physician to the Manchester Royal Infirmary*

This book has been written specially for general practitioners and senior students who intend to enter general practice. No attempt has been made to cover the whole field of cardiology: instead Professor Bramwell has paid particular attention to those problems in which—based on his own wide experience—the general practitioner most needs help. His aim throughout has been to discuss the diagnosis, treatment, and prognosis of patients with heart disease in their own homes, by their own family doctor, and nearly all the methods given can be carried out without special equipment or hospital facilities. A valuable feature is the series of case histories—fully illustrated by x-rays and electrocardiographic tracings—that accompany nearly every condition described.

*Demy 8vo**230 pages**61 illustrations**21s. net*

## Pharmacology

**J. H. GADDUM F.R.S.***Director of the Institute of Animal Physiology, Cambridge ; formerly Professor of Pharmacology in the University of Edinburgh**FIFTH EDITION*

Not only has the text of this new edition been very thoroughly revised ; it has also been thoroughly but judiciously pruned. All the important drugs in the B.P. 1958 or in the U.S.P. have been included, as well as many new drugs that are not yet official. Wherever they are applicable Official Titles or Approved Names have been used, followed by other well recognised pharmacological names, proprietary names—printed in italic—and full chemical names. An innovation is the inclusion of metric doses for all official drugs mentioned in the text.

*Demy 8vo**586 pages**93 illustrations**42s. net*

## Medical Museum Technology

**J. J. EDWARDS***Chief Technologist, The London Hospital Medical College Museum***M. J. EDWARDS**

Medical museum technology has been interpreted here as comprising the preservation of all forms of tissue for teaching purposes or for research: it is not restricted solely to pathological material. This book describes in a practical way all aspects of the subject and, although all current techniques of importance have been included and most new methods noted, full descriptions have been reserved, largely, for techniques that have withstood the test of time. The history of museum technology is given at some length in the early chapters as it is hoped that an account of the lines on which techniques have developed will enable readers to appreciate more fully the descriptions of current techniques that follow.

TO BE PUBLISHED SPRING 1959

# Major Endocrine Disorders

**S. LEONARD SIMPSON**

*Consultant Endocrinologist, St. Mary's Hospital*

*THIRD EDITION with the collaboration of*

**A. STUART MASON**

*Senior Lecturer in Endocrinology, Medical Unit, The London Hospital*

**G. I. M. SWYER**

*Consultant Endocrinologist, Department of Obstetrics and Gynaecology, University College Hospital*

The text of this third edition has been very thoroughly revised and much of it has been rewritten. It gives a straightforward, comprehensive yet concise account of all the major endocrine disorders that are likely to be encountered by consultant physicians and general practitioners during their normal clinical work and it covers fully all problems that may arise concerning diagnosis, prognosis, and treatment. Although the book is essentially clinical in outlook it is realised that good clinical practice must rest on a sound scientific basis and the clinical accounts are prefaced by an introductory section for each endocrine gland in turn giving all relevant information on the physiology and chemistry of the gland. This will enable both the methods and the interpretation of modern laboratory investigations and hormone assays to be readily understood and therefore capable of being used as valuable aids to clinical judgement.

# An Introduction to Medical Genetics

**J. A. FRASER ROBERTS**

*Director, Clinical Genetics Research Unit, Medical Research Council ; Honorary Consultant in Medical Genetics, The Hospital for Sick Children, Great Ormond Street*

*SECOND EDITION*

The general plan of this new edition remains the same as in the first edition, and it is addressed primarily to clinicians and senior students, its aim being to give guidance during the clinical and postgraduate years in the application of genetics to the practical problems of the causation of abnormality and disease. Previous knowledge of genetics is not taken for granted, the basic principles are restated fully, and on this foundation is built up, not a recapitulation of the science of genetics, but an exposition of the applied science of *medical* genetics, dealing with the human subject as observed in the community, in general medical practice, and in hospital.

The text has been completely rewritten and gives a full account of those genetic principles relevant to medicine, either at the present time or in the reasonably foreseeable future, illustrating them throughout with examples from the human field.

# Sympathectomy. An Anatomical and Physiological Study with Clinical Applications

**P. A. G. MONRO**

*Lecturer in Anatomy, University of Cambridge*

This monograph describes in detail the lumbar sympathetic ganglia and the work leading to their discovery—first published in a paper written jointly by the author and Professor J. D. Boyd—and it provides detailed information on the part they play in the retention of autonomic function after sympathectomy.

It is based on continued observation of more than fifty patients for periods up to five years, many of whom are still attending for re-examination. It also contains a detailed account of *post-mortem* findings and histological examinations, which are discussed in relation to the retention of autonomic activity after sympathectomy, and it explains why it is retained in certain areas of the body after appropriate sympathectomy.

# The esters of NICOTINIC, SALICYLIC and p-AMINO BENZOIC acids bring relief to cases of arthritis and rheumatism

"Thank you, doctor"

**I**N CASES OF soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.\*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

\**Therapeutische Umschau*

## DUST-BORNE CROSS-INFECTION

### The problem

A disquieting situation arising in hospitals throughout the country is the closure of wards due to dust-borne cross-infection. The floors act as a depository for dust and dirt (whether by settlement or displacement) and bacteria-laden particles can be seriously disturbed by brooms, mops or non-approved polishing and vacuum cleaning machines.

### The solution

Medical research has established that suitable, controlled conditions can help to eliminate or reduce to acceptable proportions the risk of cross-infection from pathogenic bacteria.

Now, for the first time, a floor cleaning machine has been developed which makes a positive contribution towards overcoming the risk of cross-infection. This machine, the

Columbus Dixon Model III Suction Polisher and Cleaner, has undergone laboratory tests at a London Hospital, and the results of these tests are now available in our new publication. The detailed case-history of the outbreak of cross-infection, which prompted the development and testing of this machine, has already been published.\*

\*THE LANCET (1958), ii 713.

Micro-photographs, reproduced top left, illustrate the reduction in the bacterial count where the new COLUMBUS Machine, with two-stage dust control and disposable dust-bag, was employed.

A Blood Agar test plate is clipped in position on controlled exhaust outlet. This ensured that the test covered maximum possible pollution.

A Columbus-Dixon Suction Polisher being subjected to one of a series of tests.

Contaminated plates were incubated for the appropriate period. Following the three timed tests, counts of three, one and two bacterial colonies only were recorded.

The COLUMBUS SUCTION POLISHER AND CLEANER, which has been used successfully in hospitals for 25 years, controls and traps 98% of all floor dust and dirt. This new patented two-stage dust-bag canalises dust flow into a separate protected chamber, preventing fall-out or drop-back of dust, the disposable bag trapping bacteria to an effective degree. High speed brushes work in an unrestricted vacuum field giving 360° all round suction. A designed unit for high power suction polishing and cleaning, the new COLUMBUS is the most advanced Suction Polisher and Cleaner in the World.

# A PRODUCT OF RESEARCH

## ORAL IRON—A NEW PRESENTATION

# FERROMYN

## Capsules

Many constructive reports originating from doctors who are prescribing **FERROMYN** in many countries throughout the world sponsored the developments to improve its effectiveness still further. It became evident that it was necessary to present **FERROMYN** in a new form to achieve an even more rapid disintegration, coupled with increased stability. During the past two years, tests have been carried out presenting Ferrous Succinate in many forms—**THE MOST SATISFACTORY OF WHICH HAS PROVED TO BE A CAPSULE.**

### Providing these outstanding advantages:

- (i) *ferric iron content is not more than 0.5 mg. and does not increase on prolonged storage.*
- (ii) *disintegration is rapid (5 minutes).*
- (iii) *intolerance is low.*
- (iv) *haemoglobin response is 1%—2% per day.*

**FERROMYN** (Ferrous Succinate), originated and developed in our own laboratories, is prepared from the mild, ferrous salt of succinic acid and is one of the most effective organic iron salts, requiring no other additives to produce a rapid haemoglobin response or to reduce the intolerance and side effects usually associated with oral ferro-therapy.

# AVAILABLE FOR PRESCRIPTION NOW

## for control of inflammation

This new Lederle product provides a new approach in the management of trauma and inflammation. It presents streptokinase in a form that is directly absorbed by the buccal route. VARIDASE Buccal Tablets control inflammatory reaction, reduce swelling and relieve associated pain — without mucosal irritation or allergic manifestation. The Buccal Tablets also allow better access of antibiotics to an inflamed area.

Varidase Buccal Tablets can also be used with antibiotics, in infective conditions such as cellulitis, abscesses, thrombophlebitis, sinusitis, chronic bronchitis, leg ulcers, chronic bronchiectasis. Each tablet contains streptokinase 10,000 units and streptodornase 2,500 units.

Dosage: One tablet four times a day for a minimum of 3 days. The tablets to be placed in the buccal sulcus and allowed to dissolve.

*Packing and basic N.H.S. cost 12 Tablets £1-1-8.*

*New manufacturing technique brings  
significant increase\*  
in initial acid adsorption*

### INTRODUCING DROXALIN GEL

Rapid adsorption of gastric hydrochloric acid is accepted as the most effective method of obtaining relief in gastric ulcer pain.

- \* In two minutes a single teaspoonful (3.5 mls.) of DROXALIN GEL will neutralise 50 mls. of N/10 HCl. This is several times the speed of acid adsorbents prepared by usual methods.

Using the well established Droxalin formulation a new and exclusive manufacturing technique has produced in DROXALIN GEL an antacid possessing this significant increase in initial acid adsorption. The advantages of quicker acting DROXALIN GEL in gastric ulcer therapy and hyperacidity will be readily recognised. The palatability of Droxalin Tablets is achieved.

## **DROXALIN**

# **"IMPROVED THERAPY FOR PEPTIC ULCER"**

---

**Extract from the American Journal of Gastroenterology, (1957) 28, 439.**

"The medication investigated is known as Roter tablets . . . The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals . . . this therapy is applicable to ambulatory patients."

## **SUMMARY**

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

# DARTALAN<sup>\*</sup> *Dihydrochloride*

BRAND OF THIOPROPAZATE DIHYDROCHLORIDE

Dartalan provides easier control of psychoses, neuroses and anxiety states. It is safe, well tolerated, and gives consistently effective results with low dosage.

Side effects are minimal. (In specially designed studies and clinical trials in 727 patients, no liver toxicity was reported.)

Dartalan relaxes the disturbed mind and invests the patient with a sense of well-being and normality.

#### AVERAGE DOSAGE:

In the psychoses:

10 mg. three times daily

In the neuroses:

5 mg. three times daily

#### AVAILABILITY:

5 mg. and 10 mg. tablets  
in bottles of 50 and 500.

## unrivalled speed of absorption

For rapid absorption Chloromycetin\* is unique among present-day antibiotics. Effective anti-bacterial levels at most sites of infection can readily be obtained by oral administration.

As blood-levels may conveniently be adjusted to control any grade of infection,

Chloromycetin therapy produces swift response, and the duration of treatment is, therefore, reduced. The completeness of absorption also lessens the possibility of gastro-intestinal upset.

## CHLOROMYCETIN

"The highest percentage of symptomatic relief is obtained by early and adequate administration of ergotamine tartrate and caffeine alone or combined with antispasmodics and/or sedatives."

(J.A.M.A., 1957, 163, 1111.)

# ORGRAINE \* DEFEATS MIGRAINE

2034 of 2511 patients in the above series were successfully treated by the combination of drugs on which ORGRAINE is based.

ORGRAINE fast disintegrating tablets give quickest possible relief with oral treatment and enable smaller doses of ergotamine tartrate to control the vasodilatory (headache) phase of migraine.

Packed in foil-stripped tablets in boxes of 10 and 100.

*A sample and full literature will gladly be sent on request.*

## Composition (per tablet)

Ergotamine Tartrate B.P.	1.0 mg.	→	constricts dilated cerebral arteries.
Caffeine B.P.	100.0 mg.	→	potentiates ergotamine.
Hyoscyamine Sulphate B.P.C. (1949)	0.0875 mg.	} →	alleviates nausea and vomiting.
Atrophine Sulphate B.P.	0.0125 mg.		
Phenacetin B.P.	130.0 mg.	→	relieves residual occipital pain.

## A new antitussive

# Detigon

a product of FBA

**Packing:**  
Dropper bottles of 10ml.  
and 50ml.

### Indications

All forms of irritating cough, in Colds, Bronchitis, 'Smoker's Cough', Pulmonary Tuberculosis, Silicosis, and chronic pulmonary disorders.

A safe, potent antitussive with an entirely new chemical basis and well tolerated by both adults and children.

DETIGON is free from undesirable side effects, is not habit forming or constipating.

The antitussive potency of Detigon is equal to that of codeine but without its disadvantages. A mild local anaesthetic activity renders Detigon also valuable in Tonsillectomy (post-operatively) and in diagnostic and therapeutic procedures where suppression of cough is necessary or desirable.

**Dosage** Adults, 15-20 drops 3-4 times daily.

Children, 5-15 drops according to age 3-4 times daily.

Infants, up to 2 years, 5 drops 3-4 times daily.

DETIGON contains in each ml. 50 mg. of 1-o-chlorophenyl-3-dimethylamino-1-phenylpropan-1-ol-hydrochloride.

Basic N.H.S. Price : 10 ml. bottle 2/- ; 50 ml. bottle 9/4.

Samples and literature on request.

# CENTRAL STERILIZATION

with **PORTEX** Regd. Trade Mark

## AUTOCLAVE NYLON FILM

*has these advantages—*

- Permeable to steam but not to organisms.
- Used for all surgical instruments, dressings and theatre linen.
- In tubular 'lay flat' tubing which can be cut to required lengths.
- Forms a container sealed at both ends for instruments, dressings, etc.
- Placed in an Autoclave for the usual steam sterilization procedure.
- Instruments, dressings, etc. remain *permanently* sterile in Portex film ready for immediate use when required.
- Bacteriological tests have proved complete sterility of contents after over 2½ years.
- Portex film may be used repeatedly.
- Now used in all Swedish hospitals.

Illustration shows Swedish nurses in a Central Sterilization Department of a prominent Swedish hospital, preparing instruments in Portex Autoclave Film for sterilisation, packing and storage.

# THE RIKER 'Medihaler'<sup>REGD.</sup>

enables asthma to be treated better by inhalation therapy because it delivers 5-8 times more particles of the required size than conventional type atomisers.

Measured dose of predetermined particle size.

Aerosol spray mechanism.

Extreme simplicity and ease of operation.

Very robust mechanism.

Ideal for children.

## **PRESCRIPTION INFORMATION**

The first prescription should order a Complete Outfit of either 'Medihaler' Epi or 'Medihaler' Iso (propellent unit and oral adapter). The basic N.H.S. cost is 12/8d. Repeat prescriptions should specify the appropriate refill propellent unit required. The basic N.H.S. cost is 10/4d. 'Medihaler' can be prescribed as complete outfits, and as refills. The oral adapter is included in the Drug Tariff.

'Medihaler' is a registered trade mark.

## *'Medihaler' EPI*

Contains 7 mg./cc. Adrenaline Acid Tartrate B.P. in suspension in inert aerosol propellent. Dose delivered is equivalent to 0.15 mg. adrenaline base.

## *'Medihaler' ISO*

Contains 2 mg./cc. Isoprenaline Sulphate B.P. in inert aerosol propellent. Dose delivered is 0.075 mg. isoprenaline sulphate.

# G-ology

## OR THE

### STUDY OF GUINNESS

Examining various strata of society we are constantly running to earth specimens who are in just the right vein, because they have imbibed Guinness for ages. Guinness has three main classifications :

FIG. 1

**GNEISS**  
**OOINCE**  
**TERRIPHIC**

Common clay (like us) find Guinness especially gneiss when suffering from erosion (or worn out). Then it can be obtained in quartz. Even the most palaeozoic become less pale after a few pintz.

#### COMMON FAULT

(Miocene Period)

FIG. 2

It is a common fault to deposit a full glass of Guinness in an unguarded spot where it may peter away or undergo subsidence. You should then remark miogoodness mioguinness and complete the glassial cycle (or bottoms up).

## EVEN VERY OLD FOSSILS

## ARE BRIGHTER AFTER GUINNESS

# SEBODERM masters DANDRUFF

PRIORY LABORATORIES LIMITED  
WEST DRAYTON · MIDDLESEX

A regular weekly shampoo with SEBODERM provides an effective non-irritant control, leaving the hair soft, silky and clean. SEBODERM contains the cationic bactericidal detergent Cetrimide B.P. (15.6%)\* and Lanoline 1% in elegant form.

\*Cetrimide was described as the most valuable recent addition to dandruff therapy. (B.M.J. 1956, 2, 92.)

SEBODERM is free from any form of irritant and is therefore valuable and effective in both simple dandruff and seborrhoeic dermatitis.

# Rapid relief this winter for CHILBLAINS & COUGHS

## ADAPRIN

### Tablets for Chilblains

Among predisposing factors to chilblains are assumed to be defective peripheral circulation and diminished coagulability of the blood.

Each Adaprin tablet contains nicotinamide (50 mg.) and acetomenaphthone (10 mg.) as the logical drugs to counteract these defects. Nicotinamide is preferred to nicotinic acid because of the unpleasant symptoms of rapid vasodilatation associated with the latter compound. Adaprin is non-toxic and may safely be given to children and adults for long periods for prevention. Relief from existing chilblains may be expected in a few days. In containers of 25, 100 and 500 tablets.

## PAVACOL

### Syrup & Pastilles for Coughs

**Pavacol Syrup.** In the improved formula, each 100 ml. contains: Papaverine hydrochloride, 0.02 g. Pholcodine, 0.1 g. B.P.C. Balsam of Tolu, 0.045 g. Oil of clove, 0.02 g. Tincture of ginger, 0.10 ml. Oil of aniseed, 0.007 g. Tincture of capsicum, 0.40 ml. Oil of peppermint, 0.02 g. Glycerine, 10.00 ml. Alcohol, 1.10 ml. Chloroform, 0.25 ml. Theriaca, 45.00 g. Papaverine relaxes the bronchi by direct action. Pholcodine—the new ingredient—is a central cough suppressant, as effective as heroin (diamorphine) but with none of its disadvantages, and much less toxic even than codeine. In bottles of 4, 16 and 80 ounces. Pavacol Diabetic Syrup also available.

**Pavacol Pastilles**—contain the powerful, wide-range, quaternary ammonium antiseptic, Octaphen, together with the antitussive compounds, papaverine and codeine, and the demulcents and volatile oils present in Pavacol Syrup. For the prophylaxis and treatment of bacterial and fungal infections of the mouth and throat—and for symptomatic treatment of cough. In tins of 24 pastilles.

## REFRESHER COURSE FOR GENERAL PRACTITIONERS

Second Collection and Third Collection with classified contents list to volumes 1, 2 and 3 Price 25s. each (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the *British Medical Journal*. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments.

They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

# RYBRONSOL

**COMPLEMENTARY TREATMENT  
FOR ASTHMA**

**soothes the  
general nervous system**

RYBRONSOL is a sedative powder which soothes the general nervous system, helps to relax the bronchial spasm and relieves congestion in the bronchial tree.

It can be recommended to all sufferers from asthma as complementary to Rybarvin and/or Rybarex, the well-known inhalation treatments also prepared by Rybar Laboratories Ltd.

At bedtime, RYBRONSOL promotes sleep and after meals it alleviates the congestion and excitability of the bronchial tubes.

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

#### Other Grades, Whole-time

##### (a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

### ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Any advertisements appearing in this issue for posts in the hospital service which quote the rates of salary which obtained before the recent percentage increases are published on the assumption that the employing authorities will make the necessary adjustments.

- Have been approved by Ministry of Education for, and have had substantial experience in, the ascertainment of educationally sub-normal children.

**ASSISTANT COUNTY MEDICAL OFFICER**

Salary £1,050 by £50 to £1,200 by £55 to £1,475, or if holding a Diploma in Public Health £1,200 by £55 to £1,475.

Application forms and conditions of appointment from the County Medical Officer, Shire Hall, Nottingham. Applications by February 16, 1959.—A. R. Davis, Clerk of the County Council. (9093)

**SALOP COUNTY COUNCIL****ASSISTANT MEDICAL OFFICER**

Applications are invited from registered medical practitioners for the above whole-time superannuable position. The duties will be mainly in the child welfare and school health services; and experience in dental anaesthetics for school children will be an acceptable qualification. Salary scale £1,050 by annual increments of £50 to £1,200 and thence by increments of £55 to £1,475 per annum (commencing salary depending on experience), plus a car allowance in accordance with the Council's scale. Separation allowance also payable for a limited period in appropriate cases. The successful candidate will be required to pass a medical examination. Form of application and copies of conditions of service may be obtained from the undersigned, to whom applications, together with copies of three recent testimonials or the names of three referees, should be submitted not later than January 31, 1959.—T. S. Hall, County Medical Officer of Health, County Health Office, College Hill, Shrewsbury. (8542)

**INDUSTRIAL APPOINTMENTS**

Attention is drawn to the B.M.A. statement of policy on the remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958), which is available on request from the Secretary.

**PRESSED STEEL COMPANY LIMITED****ASSISTANT MEDICAL OFFICER**

Applications are invited for the post of full-time Assistant Medical Officer in the Medical Department of this company. Duty will be for six months in the Oxford factory followed, subject to satisfactory service, by permanent transfer to medical charge of a new factory now being built for the Prestcold Division of the Company at Swansea. The successful candidate will be British, male, under 35, with experience in hospital and general practice. Previous experience in Occupational Health is not necessary, but enthusiasm and a genuine desire to make a permanent career in it are essential. There are compulsory, contributory pension and life insurance schemes, and a medical examination will be required. Salary will be according to the scale recommended by the British Medical Association for Assistant Medical Officer, with the opportunity of later advancement to the grade and scale of Medical Officer. Applications should be typewritten, tabulated, giving full particulars, including age, education, medical training, and career to date, names of two referees. They should be addressed to the Principal Medical Officer, Pressed Steel Company Ltd., Cowley, Oxford. (8857)

**FACTORY DOCTORS****FACTORIES ACTS, 1937 AND 1948**

The following appointment as Appointed Factor Doctor is vacant: Lasswade, in the County of Midlothian. Applications, which should be received not later than January 31, 1959, should be sent to Chief Inspector of Factories, 19, St. James's Square, London, S.W.1. (9284)

**ADMINISTRATIVE****SOUTH-WESTERN REGIONAL HOSPITAL BOARD**

Applications are invited from registered medical practitioners for the post of

**ASSISTANT SENIOR MEDICAL OFFICER**

(whole-time) on the headquarters staff of the Board's Office.

The salary scale is £1,834 12s. by £87 7s. (4) to £2,184 by £109 4s. (1) to £2,293 4s. per annum.

The successful candidate will be engaged on general administrative duties under the direction of the Board's Senior Administrative Medical Officer. Experience of public health and hospital administration would be an advantage. The appointment is subject to the provisions of the National Health Service (Superannuation) Regulations, and to the conditions of service approved by the Ministry of Health. Applications, stating age, qualifications and experience, and giving the names and addresses of three referees, should reach the Secretary of the Board at 27, Tyndalls Park Road, Bristol 8, not later than February 7, 1959. (8722)

**COMMERCIAL APPOINTMENTS****MEDICAL PRACTITIONER**

required by British Pharmaceutical House to assist in the assessment and development of new Therapeutic Products. Candidates should have special aptitude for organizing and supervising Clinical Trials. Applications to Medical Adviser, British Schering Ltd., 229, Kensington High Street, London, W.8.

**REPUBLIC OF IRELAND****LIMERICK REGIONAL HOSPITAL****SURGICAL REGISTRAR WANTED**

Limerick County Council invites applications for post of Surgical Registrar at above hospital. Appointment will be for a period of 12 months in the first instance and may be renewed. Candidates must be not less than 24 years of age and not more than 35 years of age on January 1, 1959. Remuneration will be within the scale £862 10s. to £1,075 10s. per annum, dependent on experience and qualifications. Application forms and full particulars may be had from the undersigned, with whom completed application forms should be lodged not later than 4 p.m. on Friday, February 6, 1959.—D. F. Donovan, County Secretary, County Council Offices, 82/3, O'Connell Street, Limerick. (9333)

**ST. KEVIN'S HOSPITAL, Dublin****APPOINTMENT OF MEDICAL REGISTRAR**

The Dublin Board of Assistance invites applications for appointment to the above position. Salary: 1st year £720 10s. per annum, 2nd year £827 per annum, 3rd year £933 10s. per annum, plus full board and residence. Credit may be allowed on salary scale for each previous year's experience as a Registrar, and an additional £100 per annum is payable for certain higher qualifications. Official application forms and full particulars may be obtained from the Establishment Department, 1, James's Street, Dublin. Latest date for receipt of completed application forms February 3, 1959.—J. J. Nolan, Secretary. (9242)

**TIPPERARY (North Riding) COUNTY COUNCIL****HOUSE SURGEON OR INTERN WANTED**

Applications for above posts at County Hospital, Nenagh, should be addressed to Secretary, County Council Offices, Thurles, not later than January 24, 1959. Remuneration:

	House Surgeon	Intern
1st six months	£382 12s. 6d.	£273 10s. 0d.
2nd six months	£435 17s. 6d.	£328 10s. 0d.

**COOK HOSPITAL BOARD**  
Gisborne, New Zealand

Applications, closing on March 9, 1959, are invited from registered medical practitioners for the position of

**VISITING ASSISTANT ORTHOPAEDIC SURGEON**

at Cook Hospital. Salary scale in accordance with the Hospital Employment Regulations for Visiting Medical Staff, £1,340 to £1,940 per annum (whole-time rates). Full particulars of the position and conditions of appointment will be supplied on application to the New Zealand High Commissioner, 415, Strand, London, W.C.2. (8846)

**Oversea (Vacant)—contd.****AUSTRALIAN NATIONAL UNIVERSITY  
JOHN CURTIN SCHOOL OF MEDICAL  
RESEARCH**

Applications are invited for eight appointments: **RESEARCH FELLOWSHIP** and two **SENIOR RESEARCH FELLOWSHIPS** in the Department of Experimental Pathology  
**TWO RESEARCH FELLOWSHIPS** in the Department of Medical Chemistry  
**FELLOWSHIP, RESEARCH FELLOWSHIP** and **SENIOR RESEARCH FELLOWSHIP** in the Department of Physiology

Applicants should have appropriate research experience and an interest in the work of one of the Departments. In the Department of Experimental Pathology work is in progress on lipid transport and metabolism in relation to atherosclerosis, the functional significance of the lymphatic system in health and disease, and upon cellular mechanisms of defence against infectious disease. Those appointed to the Department of Medical Chemistry will work on hypopyrimidines or pteridines, and applicants should have experience in pyrimidine and heterocyclic chemistry. The Department of Physiology is carrying out experimental work on the peripheral and central nervous systems, both in the electrical and pharmacological aspects. Work in neuro-chemistry is also being done and facilities for physiological investigations on climatology will shortly be available. The salary ranges for Senior Research Fellows and Research Fellows are £A.2,233 to £A.2,713 and £A.1,398 to £A.2,113 respectively, and appointment is made for three years, with possible extension to the maximum of five years. The salary and range of a Fellow are determined within the limits £A.1,793 to £A.2,563, and appointment is made for an initial period of five years; thereafter it may be made permanent. A Fellow is entitled to one year's study leave on full pay, plus a contribution towards travel and other expenses, in every seven years. Superannuation is on the F.S.S.U. pattern. Reasonable travel expenses are paid and assistance with housing is provided. Further particulars should be obtained from the Secretary, Association of Universities of the British Commonwealth, 36, Gordon Square, London, W.C.1, or from the Registrar, Australian National University, Box 4, G.P.O., Canberra, A.C.T., to whom applications should be sent by February 6, 1959. Applications sent after that date may, however, be considered. (8316)

**AUSTRALIA—UNIVERSITY OF ADELAIDE****CHAIR OF MICROBIOLOGY**

The University invites applications for this newly established Chair. The basic salary attached to the Chair will be £A.3,500; and if the Professor is medically qualified there will be also a special allowance of £A.250 a year. Superannuation on the F.S.S.U. basis will be provided on the basic salary. Potential candidates are invited to obtain from the Secretary, Association of Universities of the British Commonwealth, 36, Gordon Square, London, W.C.1, or from the Registrar, a general statement and formal terms of appointment. Those in the United Kingdom may also borrow from the A.U.B.C. a coloured film illustrating the University and the City of Adelaide. Particulars of schemes for financial help in the purchase of a house may be obtained from the Registrar; and the University will gladly supply further information on request. Applications (in duplicate), giving the information specified in the general statement, should reach the Registrar, University of Adelaide, Adelaide, South Australia, not later than February 12, 1959. (9286)

**EAST TENNESSEE BAPTIST HOSPITAL  
Knoxville, Tennessee****APPROVED ROTATING INTERNSHIP**

for outstanding students available in lovely T.V.A. area of Tennessee, near Oak Ridge. Outstanding instruction and good rapport with subsequent residency opportunities. \$2,400 yearly stipend plus full maintenance. Please write Dr. James C. Roberts, Director of Intern Training. (8475)

**GENERAL HOSPITAL (456 beds), St. John's,  
Newfoundland, Canada****INTERNES**

The above hospital has vacancies for Internes, for which applications are invited, salary \$2,500 per annum, less \$528 for board, maintenance, etc. There is a full teaching programme, the hospital is fully approved by the Canadian Medical Association for interne training, approved by the Royal College of Physicians and Surgeons in Canada for postgraduate training towards certification and also recognized under the United Kingdom Medical Act for pre-registration year. Transport to St. John's will be paid, and on completion of one year's service return fare to the United Kingdom will be provided. Applications, with full details as to age, etc., together with names of two referees, should be forwarded to Dr. E. Wilson, Superintendent, General Hospital, St. John's, Newfoundland, Canada. (9251)

**FRANKLIN SQUARE HOSPITAL  
110, N. Calhoun Street, Baltimore 23, Md., U.S.A.****APPROVED ROTATING INTERNSHIPS**

available. Direct inquiries to the Administrator. Hospital has 175 beds, 6,300 annual admissions. Training in services of obstetrics/gynaecology, medicine, surgery, paediatrics, pathology. Starting salary \$200, plus full board and maintenance. (8473)

**GOVERNMENT OF THE NORTHERN REGION  
OF NIGERIA****MEDICAL OFFICER OF HEALTH**

required for administration of preventive medical service and control of sanitary matters (including statutory duties of an M.O.H.), or if posted to an airport the duties of Port Health Officer. May be required to perform general duties of Medical and Health Officers and other duties in connexion with epidemic diseases. Possible posting to undertake rural health work, including medical surveys and mass treatment of endemic diseases. Candidates must possess qualifications registrable in United Kingdom. D.P.H. essential. Diploma in Tropical Hygiene an asset. Appointment may be: (a) on three years' probation for permanent and pensionable employment. Pension (non-contributory) at rate of 1/600th of final pensionable emoluments for each completed month of reckonable service. (b) From National Health Service, officer retaining superannuation rights up to six years and receiving a gratuity (taxable) of 20% of aggregate of salary. Salary for officer appointed under (a) or (b) ranges from £1,212 to £1,950 a year, including inducement pay; or (c) on short-term contract (two tours each of 18-24 months) with salary (including inducement pay) of £1,434 to £2,286 a year, and gratuity (taxable) of £37 10s. for each completed period of three months' service (including leave). Quarters provided at low rental. Taxes at local rates. Annual leave permissible; generous home leave after each tour. Free passages in both directions for officer and wife; assisted passages for children under 18 years up to cost of one adult return passage each tour. This assistance may be used to enable wife to visit children in home country in lieu of their being taken to Nigeria. In addition allowances are payable for children: £120 a year for first child, £96 for second, and £72 for third. The Office of the Northern Region of Nigeria, Nigeria House, Northumberland Avenue, London, W.C.2, would be pleased to answer questions relating to conditions of service, climate, etc., in the region. Application forms from Director of Recruitment, Colonial Office, London, S.W.1 (quoting BCD.117/408/026). (9181)

## Appointments, etc.—contd.

AMENDED ADVERTISEMENT  
MEDICAL RESEARCH COUNCIL

Applications are invited for an appointment as  
**PHYSICIAN**

to take charge of the Manchester team engaged in the follow-up of the Council's Clinical Trial of Tuberculosis Vaccines, which is expected to last about a further 18 months. The post is suitable for and interesting to someone with experience of general medicine or public health work (an attempt would be made to arrange secondment for such an applicant); experience in tuberculosis or in mass radiography would be useful. Remuneration will be according to experience and qualifications, starting at a point within the range £1,470 to £1,950, plus family allowances. Applications, giving full details of career and the names of three referees, should be sent to the Director, Tuberculosis Research Unit, Medical Research Council Laboratories, Holly Hill, Hampstead, London, N.W.3, not later than January 31, 1959. (9334)

## MEDICAL RESEARCH COUNCIL

## FELLOWSHIPS IN CLINICAL RESEARCH

The Medical Research Council invite applications for a further series of Fellowships in Clinical Research, tenable at centres in the United Kingdom during the academic year 1959-60. These Fellowships are open to suitably qualified medical graduates who desire to prepare themselves for a career in clinical research. In general, it is intended that each Fellow appointed under the scheme should be given an opportunity, as part of his training for clinical research, to study methods of research in the basic subject most relevant to his particular clinical interest. The awards will be made for a period of one year in the first instance and will be renewable annually in approved cases up to a maximum of three years in all. Stipend will be at the rate of £950 per annum, rising by annual increments of £75 to £1,100 per annum, with superannuation provision in addition. Candidates for these Fellowships which are ordinarily restricted to British subjects resident in the United Kingdom, must be medically qualified and clinically experienced, and should preferably have worked for a period in a department in which clinical research was in progress. Applicants will be invited to submit their own proposals as to type and place of work, but the Council will be glad to advise successful candidates on the selection of suitable centres of study and to assist in placing them in departments or laboratories where the desired training and experience can be obtained. Applications must be sponsored in each case by the head of the appropriate department in the candidate's university or medical school, and an undertaking will be required that a suitable academic post in a clinical department will be available to the candidate in that institution on satisfactory completion of the period of study under the Fellowship. Forms of application for these Fellowships may be obtained from the Secretary, Medical Research Council, 38, Old Queen Street, London, S.W.1, with whom applications should be lodged as soon as possible, and in any event not later than March 1, 1959. (9196)

## THE UNIVERSITY OF MANCHESTER

Applications are invited from persons with training in medical art for the post of

Middlesex

Telephone: Pinner 234

Private Nursing Home for Nervous and Mild Mental Disorders and Alcoholism. Psychotherapy, E.C.T., modified insulin, etc. Fees from 18 guineas a week inclusive of nursing and medical attention. Forty patients of both sexes, including a small number of long-term elderly cases. Two country houses in 5 and 6 acres respectively in adjoining grounds. Twelve miles north-west of London. Easily accessible by Metropolitan train from Baker Street to Pinner. Ten minutes' walk from Pinner station. Apply to the Medical Director, Douglas Macaulay, M.D., D.P.M.

## HAYDOCK LODGE

Newton-le-Willows, Lancs

For treatment of mental and nervous diseases. Apply Medical Superintendent for terms, etc.

## NORTHUMBERLAND HOUSE

Psychiatric Nursing Home, 235-7, Ballards Lane, N.3. Tel.: FINchley 5283. Resident Med. Director, Dr. R. M. Riggall, Mem. Brit. Psycho-Analytical Society. Deep insulin coma unit, psychotherapy, etc.

## SPRINGFIELD HOUSE, near BEDFORD

Phone: Bedford 3417

For Mental Cases (including the aged). Fees from ten guineas per week. For terms of admission, etc., apply to the Resident Physician, Cedric W. Bower. Interviews in London by appointment.

## ST. ANDREW'S HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Earl Spencer. Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.

This Registered Hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided.

**MOULTON PARK.**—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

**WANTAGE HOUSE.**—This is a Reception Hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet apparatus, and a department of Diathermy and High-frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

**BRYN-Y-NEUADD HALL.**—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

CHEADLE ROYAL, CHEADLE,  
CHESHIRE (GATley 2231)

Medical Superintendent:

W. V. Wadsworth, B.S., M.B., M.R.C.P., D.P.M.

This excellently appointed hospital receives all types of patients who are suffering from psychological and senile illness. The most modern psychiatric treatments are available. Special geriatric unit for mild and senile patients.

Glan-y-Don Nursing Home, Colwyn Bay, is the seaside branch of Cheshire Royal.
