

It's a matter of National Importance...

that pharmaceuticals prescribed under the National Health Service should be economical in price. And in this respect, Fletchers' 'Effico' tonic need not fear comparison with any equivalent preparation. Its basic cost to the National Health Service is only 2/2½d. for an 8 fl. oz. bottle. 'Effico' tonic presents a well-balanced combination of vitamins, traditional stimulants and bitter stomachics in a pleasantly flavoured syrup base. It has proved a reliable restorative for the convalescent, the over-worked and the aged, and in post influenzal and similar conditions.

THE EFFICO FORMULA

<i>Aneurine Hydrochloride B.P.</i>	<i>1 mgm.</i>
<i>Nicotinamide B.P.</i>	<i>12 mgm.</i>
<i>Tincture of Nux Vomica B.P.</i>	<i>12 min.</i>
<i>Caffeine Citrate B.P.C.</i>	<i>4 grs.</i>
<i>Tincture of Orange B.P.</i>	<i>8 min.</i>
<i>Tincture of Lemon B.P.</i>	<i>4 min.</i>
<i>Compound Infusion of Gentian B.P.</i>	<i>200 min.</i>
<i>Dilute Hydrochloric Acid B.P.</i>	<i>4 min.</i>
<i>Syrup B.P.</i>	<i>to 1 fl. oz.</i>

'Effico' Tonic is a Category 3/4 medicine and is available for prescription on Form E.C.10.

CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post—inland and overseas, 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It contains thirty-nine articles comprising a series specially written for the *British Medical Journal*. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

Obtainable from booksellers or by post from Publishing Manager

a 'wait' of patients...

... winter's contribution to your routine practice ...
 increasing the demand for relief from sore throats and stuffy
 heads. Then, the simplest, most effective treatment for
 upper respiratory tract congestion is KARVOL
 Inhalant Capsules.

Soothing, decongestant KARVOL is available in con-
 venient single dose capsules. It is readily expressed into
 hot water or onto handkerchief, pyjamas or pillow without
 fear of staining.

The handy capsules fit easily into pocket or handbag,
 provide instant relief anywhere . . . night or day.

KARVOL
 INHALANT CAPSULES

In bottles of 10 capsules. Each capsule
 contains: menthol 7.9% chlorbutol 6.6%
 oil of cinnamon 2.7% oil of pine 18.8%
 terpineol 14.8% chlorothymol 0.7%
 Basic N.H.S. cost—10 capsules 10½d.

CHRONIC BRONCHITIS

The new approach to treatment

Mucolytic therapy directed against the nidus of re-infection

Chronic bronchitis or 'intrinsic asthma' is a chronic progressive disease in which many causes play a part. Treatment so far has always been palliative. It has not touched upon the central fact emerging from the pathological studies carried out in recent years: that quite early in the disease a fundamental change occurs in the character of the bronchial secretions. The respiratory tract fluid becomes more viscous, sticky and tenacious. As a result, the normal physiological mechanism for removing bronchial secretions (a process which goes on unconsciously and continuously in the normal subject) is drastically interrupted. The importance of the role played by this fundamental disorder in bringing about continuation, extension and chronicity of the disease has never been assessed—simply because *no method has existed of freeing the patient from the handicap of his retained sputum.*

Residuum of Mucus

One salient consequence does, however, strike the bronchitic and his physician every winter: repeated episodes of acute pulmonary infection. Now that broad-spectrum antibiotics are available the infection can be treated, but only at the cost of leaving behind a residuum of highly viscous mucoid sputum which cannot be coughed up. The patient's disability is thus enhanced, his return to work postponed and a nidus of infection prepared for the next acute exacerbation of his disease.

It is now obvious that the chronic bronchitic must be able to rid himself of these retained secretions before he can have any hope of recovery, or even of a cessation in the inexorable progress of his condition to permanent disablement and lingering asphyxiation.

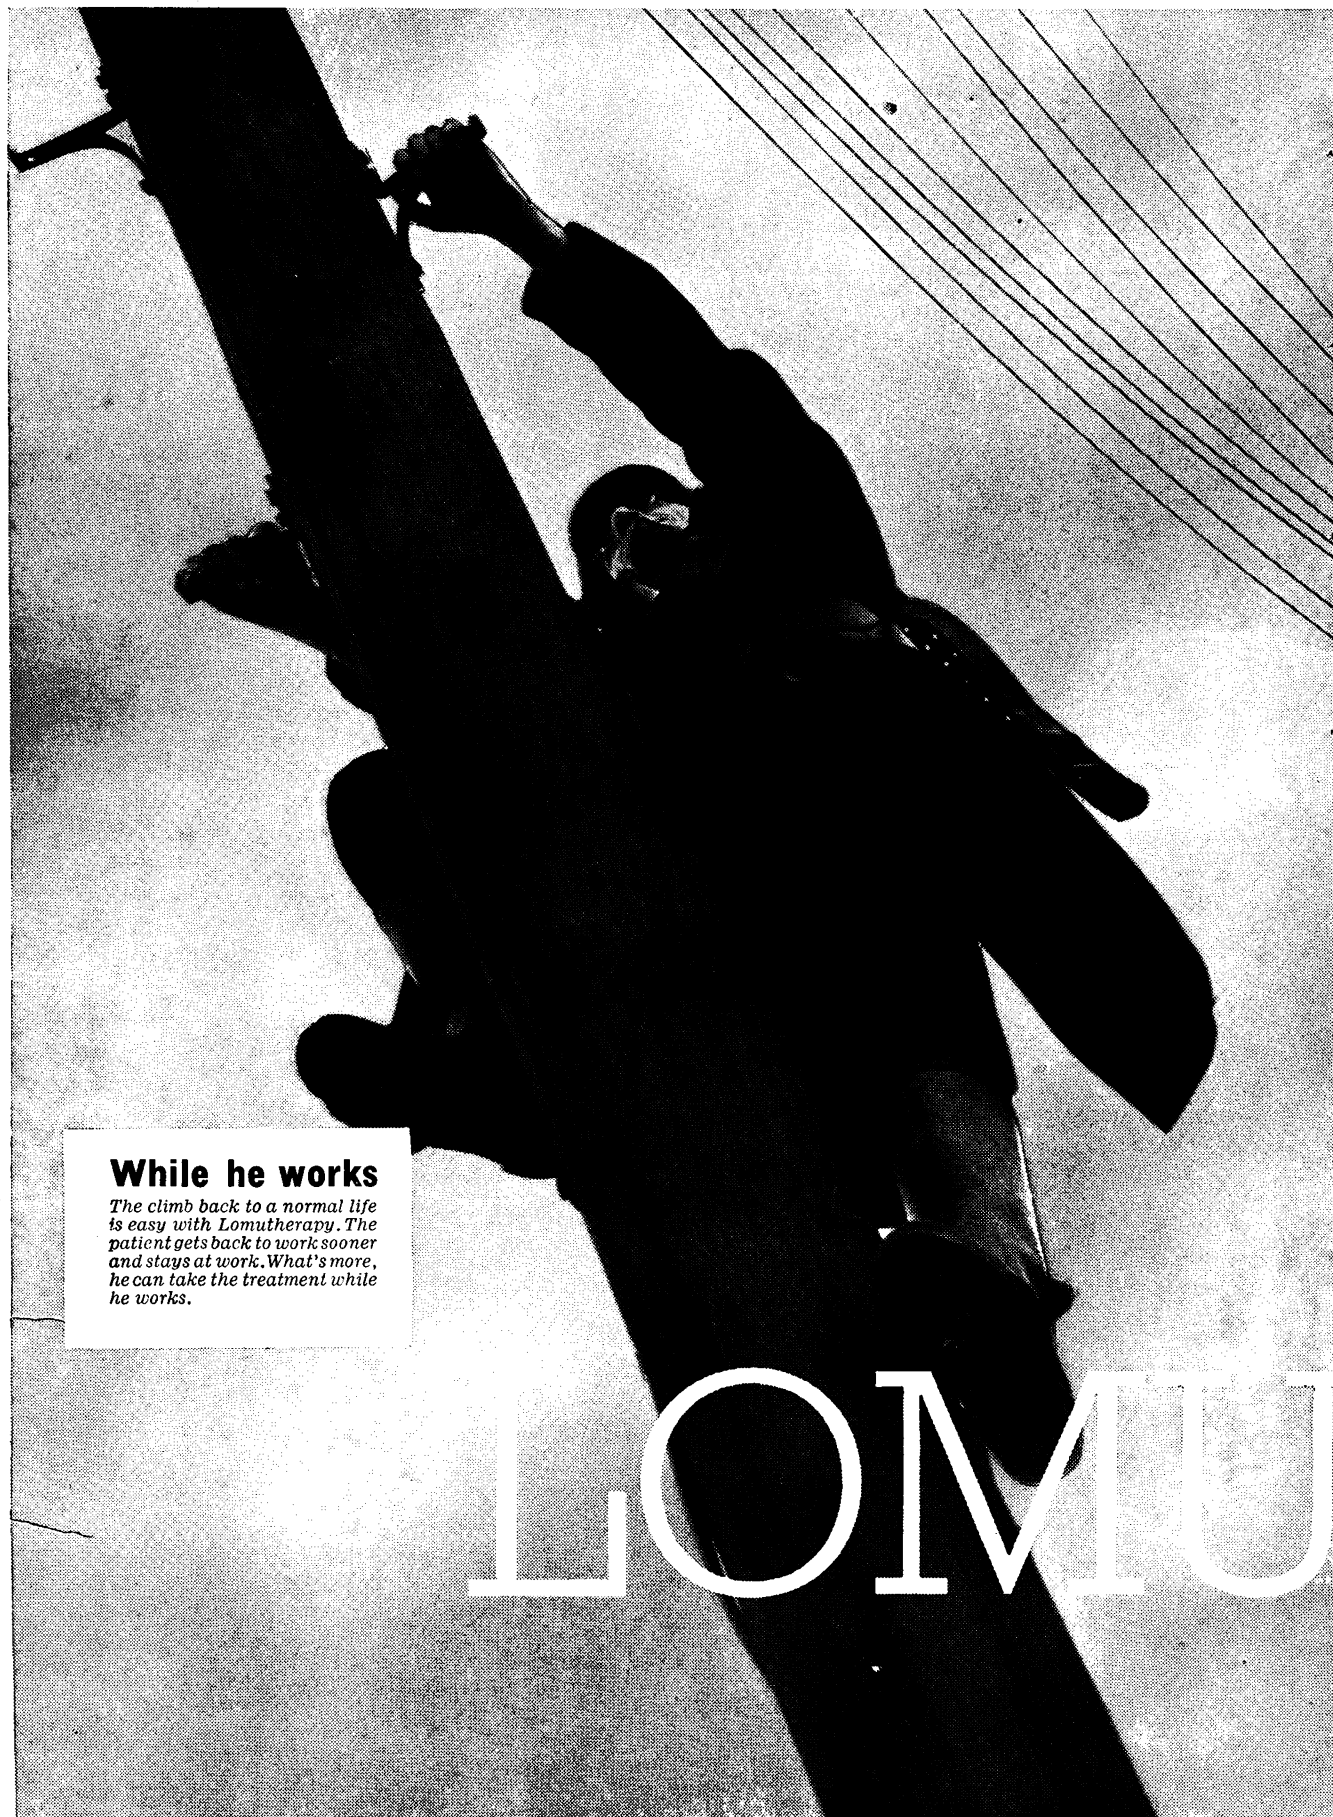

Search for Mucolytic

Despite centuries of fruitless use, the belief in the efficiency of expectorants dies hard. Recent work shows that detergent aerosols do no more than steam or water vapour. The latest approach has been based on a search for an appropriate mucolytic enzyme, delivered to the site of action with maximum efficiency.

These studies have led to the adoption of chymotrypsin as the enzyme of choice.

An effective bronchodilator

In the course of clinical investigations it has become clear that a great many bronchitics are also handicapped, to a greater degree than is generally realised, by spasm of the bronchial musculature. Thus treatment to lower the viscosity of sputum is facilitated, and the resulting relief greatly enhanced, when anti-spasmodic and mucolytic therapies are given concomitantly. For this purpose a standard highly effective bronchodilator, isoprenaline, was incorporated with the chymotrypsin. It was then found that administration of this material by powder inhalation involved advantages to a degree which could not have been foreseen. These relate to the side-effects which ordinarily accompany the use of sublingual isoprenaline. They are so severe, and so frequent, as to make it impossible for a vast number of bronchitics and asthmatics to avail themselves of the relief which this drug can bring. However, when isoprenaline is given as an ultra-fine homogeneous powder of pre-determined particle size (2 to 6 μ .), 0.1 mg. produces immediate and maximum broncho-dilation. Such a 200-fold reduction in dosage—compared with a 20 mg. sublingual tablet—permits its use by all who need it, irrespective of their inability to tolerate the sublingual preparation. The immediate broncho-dilating effect compares favourably with the 20 minute delay of sublingual therapy.

**While he works**

The climb back to a normal life is easy with Lomutherapy. The patient gets back to work sooner and stays at work. What's more, he can take the treatment while he works.

LOMUTU

For the Chronic Bronchitic— the first treatment that really works...

... on tenacious sputum — **LOMUDASE**

Preliminary reports confirm that LOMUDASE is the first genuinely effective pulmonary mucolytic. Within minutes it liquefies the bronchitic's mucus plugs and enables him to clear his chest easily. Lomudase saves the patient from the exhaustion of the ineffective cough. It removes the nidus for reinfection. The hazard of recurrent exacerbations is reduced. The patient can return to work quicker and is better able to *keep* working. He knows that relief is always readily available. All these factors help to raise his morale.

Lomudase is a revolutionary presentation of the enzyme chymotrypsin. It is specific, practical and safe. Its effect on pulmonary ventilation is enhanced by the presence of an effective bronchodilator. An entirely new method of administration allows Lomudase to act in the most efficient way—topically at the sites of the disease process anywhere in the bronchial tree.

... on bronchospasm — **LOMUPREN**

LOMUPREN is for use when bronchodilation alone is required. LOMUPREN is a special presentation of isoprenaline that relieves bronchospasm almost immediately. The effective dose is so small that Lomupren may be used repeatedly with safety and without discomfort.

**Both Lomudase and Lomupren may be used in conjunction
with conventional antibiotic, antihistaminic or steroid therapy**

The **LOMULIZER** ensures correct administration

Lomudase and Lomupren are prepared as ultra-fine homogeneous powders. To be effective these must be wholly dispersed into the inspired air. The Lomulizer is a simple foolproof pocket disperser—not an aerosol—which ensures that the dose is delivered only when a suitable inspiratory effort is made.

Lomotherapy represents a major therapeutic advance. Most important, the need for recourse to expensive hospital apparatus is superseded. Moreover, Lomotherapy is always to hand whenever the patient needs it.

How Lomuthera works

Lomudase and Lomupren are prepared by a unique process as ultra-fine homogeneous particles of 2-6 μ . diameter. In this form, and when administered by the Lomulizer, the drugs penetrate to the distal parts of the respiratory tract and are evenly distributed throughout the bronchi and bronchioles.

For the present the Lomu* range of products is available to **HOSPITALS ONLY**.

TEN YEARS' EXPERIENCE**TELLS YOU****When the patient needs B₁₂****SIMPLY GIVE B₁₂**

When, ten years ago, vitamin B₁₂ was isolated at Glaxo Laboratories, the complete control of pernicious anæmia became a certainty. Much experience since then has proved that the pure vitamin, given as Cytamen Injection or Cytacon Oral Liquid, will produce remission alone and unaided. But . . . there is a qualitative difference in the responses achieved.

In pernicious anæmia pre-treatment serum and tissue levels of B₁₂ are invariably low. The swiftest, most economical and most certain method of restoring these levels to normal . . . and of preventing insidious development of neurological complications . . . is by injection of Cytamen.

When, in very special circumstances, oral treatment of pernicious anæmia is unavoidable, 100 micrograms or more of B₁₂ in solution, daily, as in Cytacon, needs no help from any other substance. The principal use for oral B₁₂ is, of course, in conditions other than pernicious anæmia: deficiency of B₁₂ absorption is not then in question and Cytacon in lower doses is the rational preparation to prescribe.

In short, when your patients need B₁₂—in pernicious anæmia, Cytamen for *certain*—in other conditions, simply Cytacon.

relief for every phase of the cough

This tasty combination of expectorant, bronchodilator and sedatives provides excellent therapy for coughs associated with acute or chronic respiratory infections and coughs associated with allergy and asthma. The increased iodide content quickly increases secretions, thus liquefying thick, bronchial mucus. This makes breathing easier and helps avoid conditions which might favour pathogenic invasions. The broncho-dilating action of ephedrine reduces the spasm of the bronchial tree, while Nembutal provides just enough sedation to lend a calming effect. These, plus codeine which depresses the cough reflex, combine to give patients prompt relief.

EMERGENCIES IN GENERAL PRACTICE

from the
British Medical Journal

470 Pages, cloth bound,
with full index

PRICE 25s. net
by post: inland and overseas 26s. 9d.

This book deals with medical emergencies in a wide sense: acute clinical emergencies requiring prompt and skilful treatment; conditions such as faints and fits and giddy turns, the careful elucidation of which may mean the difference to a patient between a life of activity and one of restriction; acute psychiatric states; accidents of treatment, such as dangerous reactions to drugs or collapse during anaesthesia; and emergency calls when the doctor is isolated, as on a ship.

It comprises 57 specially commissioned articles which appeared originally in the *British Medical Journal*.

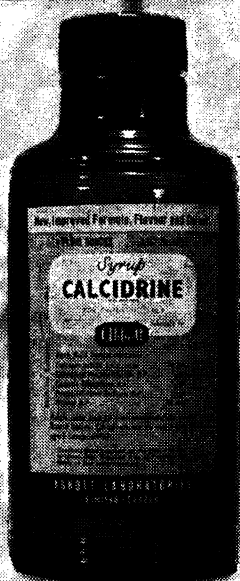

The author of each is an acknowledged authority. This collection, now revised by the authors, will be of value not only to general practitioners but also to senior students, house-physicians, house-surgeons, and to those supervising their work in hospitals.

FOR SUPPRESSION OF

severe cough

'PHYSEPTONE' LINCTUS has a direct suppressive action on the cough reflex. It is especially valuable in such conditions as bronchiectasis, pertussis, post-influenzal tracheitis, chronic passive pulmonary congestion, pulmonary tuberculosis, and other conditions requiring a powerful cough suppressant.

'PHYSEPTONE' LINCTUS carries negligible risk of addiction, does not constipate and seldom causes other side-reactions.

'PHYSEPTONE' LINCTUS contains 2 mgm. of methadone hydrochloride in each fluid drachm (the recommended adult dose). For children it should be diluted with simple syrup in the proportion of one part linctus and seven parts syrup—one to two teaspoonfuls (0.25—0.5 mgm.) of this *diluted* linctus to be given according to the age of the child.

RIKER

**You can treat
iron deficiency
anaemia better
if you prescribe**

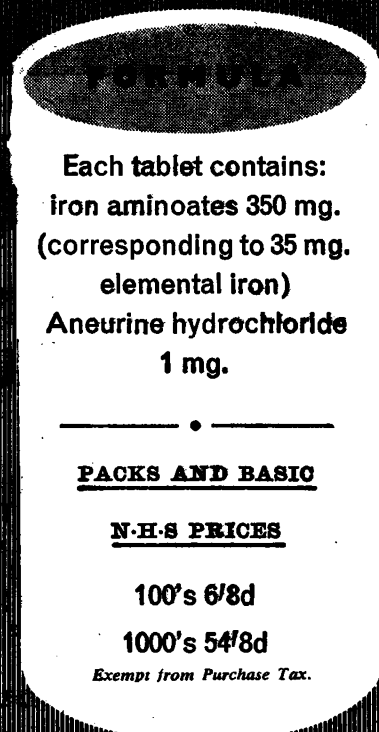

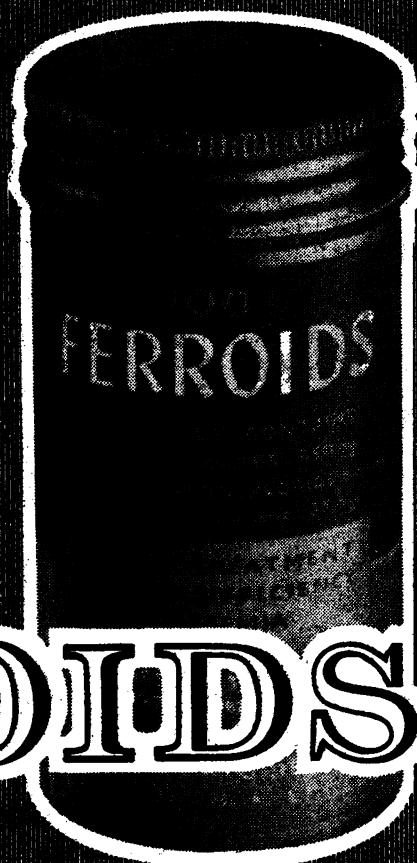

FERROIDS

**Virtually fulfils the requirements
for the ideal haematinic. High
utilization of iron. Exceptional
freedom from side effects**

Each golden yellow tablet contains 350 mg.
of iron aminoates. This interesting new
compound is produced by chelating iron with
amino acids. The presence of amino
acids profoundly affects the absorption of iron
and they are responsible for the unique
properties of 'Ferroids'.

**DOSE 1 TO 2 TABLETS THREE TO FOUR
TIMES A DAY.**

Treatment with 'Ferroids' is relatively
inexpensive. The basic N.H.S. cost of 1 week's
treatment is 1/2 to 3/1, based on the large
pack of 1,000.

Each tablet contains:
iron aminoates 350 mg.
(corresponding to 35 mg.
elemental iron)
Aneurine hydrochloride
1 mg.

Was she one of the problem patients?

You must have come across them, the patients for whom you would normally prescribe penicillin but are unable to do so because of sensitivity or of infection with organisms resistant to the commonly used antibiotics.

With Evramycin—the new, orally more effective form of oleandomycin—at least you can ensure prompt, reliable and well-accepted treatment, without exposing such patients to unnecessary risk and without the inconvenience of pruritus, staphylococcal enteritis or other frequent accompaniments of alternative therapies.

PAEDIATRIC

An oral penicillin preparation for children needs to look good, taste good, and be effective. Syrup 'V-Cil-K' possesses all these attributes, and children delight in taking it.

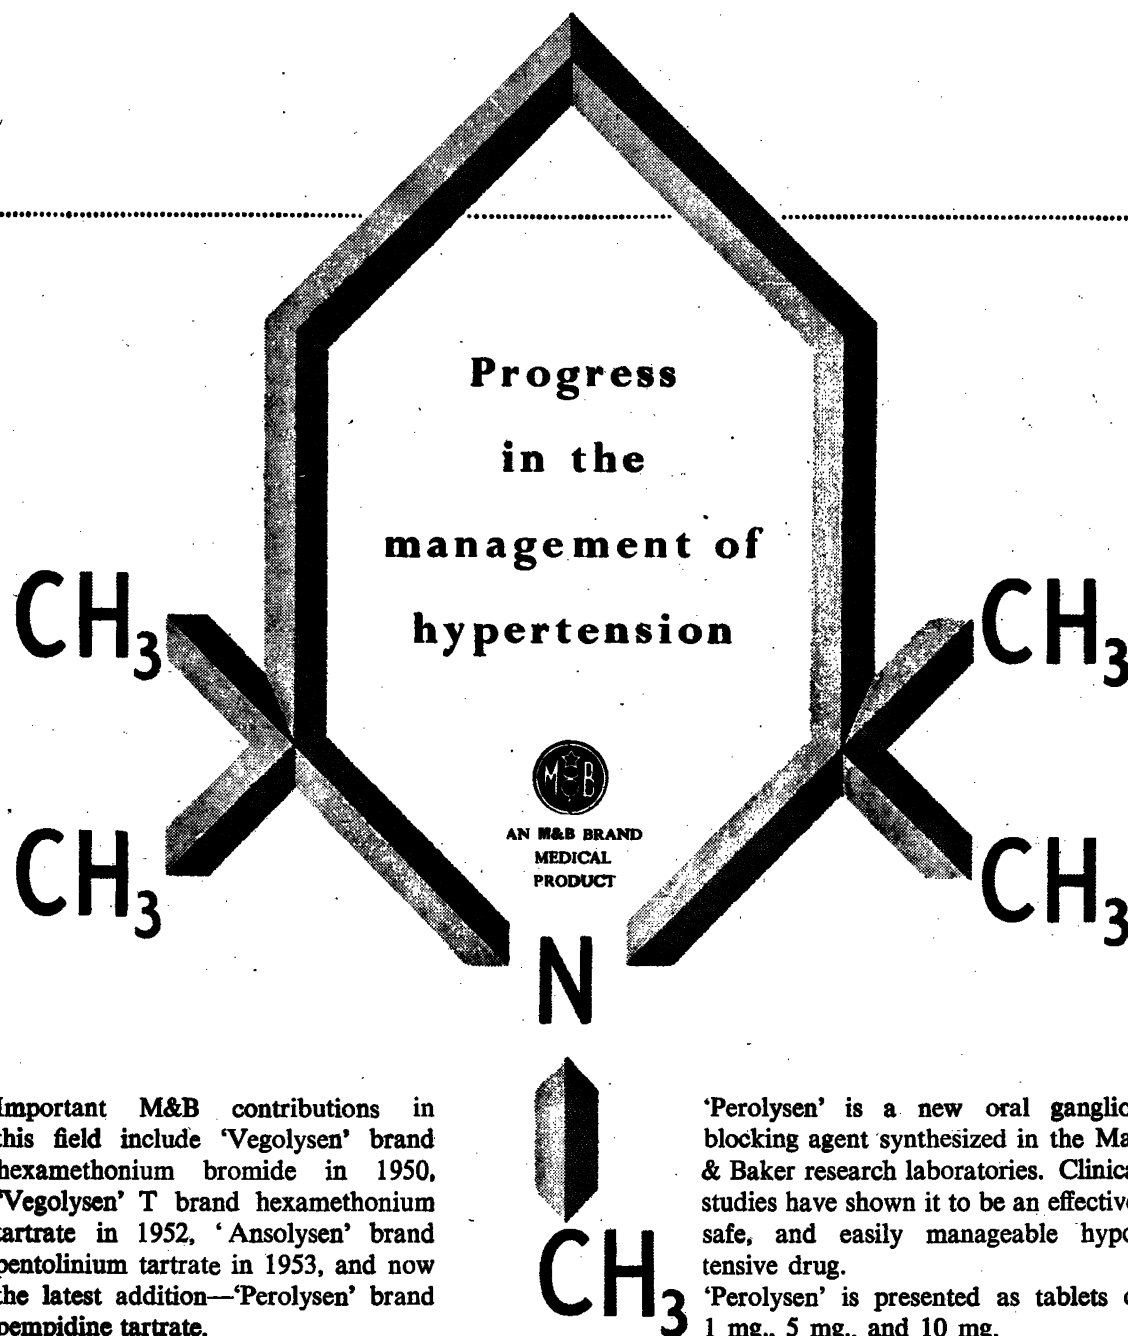

Each 5 cc. of the prepared syrup contains 125 mg. 'V-Cil-K' brand Penicillin V Potassium, the most effective form of oral penicillin. It is available in bottles containing dry granules to make 30 cc. and 60 cc.

The average dose is $\frac{1}{2}$ to 1 teaspoonful four times daily.

RASTINON

*Complete oral control
without side-effects
for thousands of diabetics*

EFFECTIVE

Over 1000 published articles substantiate the clinical value of Rastinon (tolbutamide). Thousands of patients have been effectively controlled for more than three years.

SAFE

No cases of dyshaemopoiesis, jaundice or other serious side-effects have been reported. Analysis of over 10,000 case histories shows Rastinon to be com-

pletely safe for suitable diabetics. Rapid excretion precludes cumulative effects.

SIMPLE

One tablet by mouth once or twice a day is all that is necessary for maintenance.

READILY AVAILABLE

Rastinon is in category 1 (new drugs of proved value) and is available on E.C.10. There is *no added cost* of treatment for the patient previously on insulin.

4 days a week
NORMAL FOOD

3 days a week
FORTIFIED DIET

*A scientifically balanced food supplement which
 acts normally and safely!*

Medical practitioners will perhaps agree that the correct basis of slimming is to reduce calorie intake but to maintain the dietary essentials, namely protein, vitamins and minerals. Some dieting procedures, while scientifically correct, are unpleasant or inconvenient and may even bring discomfort. It is a common experience that slimming is mainly a matter of strength of character, and any dietary scheme which helps to make slimming a pleasant and convenient procedure has obvious advantages. LARSON'S SWEDISH MILK DIET achieves all these objects and in addition permits great flexibility in application. In this system each of the four daily meals is considered as a unit which can be replaced, as required, by an attractive, conveniently prepared and cheap food. If all four meals are replaced by

Swedish Milk Diet the daily calorie intake is reduced to about 650, but all the vitamin and mineral requirements and roughly half the protein requirements for the day are met. In the full system the four meals on three days a week, say Monday, Wednesday and Friday, are replaced by the diet, but individual meals can be replaced at any time as desired. For example, the Swedish Milk Diet can be taken in place of breakfast and tea, or in place of lunch and tea every day.

The diet is simplicity itself. It is prepared by adding a heaped teaspoonful of the supplement to a glass (8 fluid ozs.) of milk which may be cold, warm or hot as desired. Flavouring can be added if wished. The composition of the LARSON'S SWEDISH MILK DIET is as follows:

One heaped teaspoonful with an 8 ounce glass of milk taken four times daily supplies:—

3 grms. Calcium . . .	over 100% M.D.R.*	
3 grms. Phosphorus . . .	over 100% M.D.R.	
2,500 International Units Vitamin A . . .	50% M.D.R.	
200 International Units Vitamin D . . .	50% M.D.R.	
1.2 mg. Vitamin B ₁ . . .	100% M.D.R.	4 mg. Calcium pantothenate
2 mg. Vitamin B ₂ . . .	100% M.D.R.	31 gm. Protein
6 mg. Nicotinamide . . .	50% M.D.R.	50 gm. Carbohydrate
0.1 mg. Vitamin B ₆		34 gm. Fat

Equivalent to 650 Calories

*M.D.R. means adult Minimum Daily Requirement.
 The minimum daily requirement for vitamin B₆ and calcium pantothenate has yet to be established.

It will thus be seen that the diet is not only medically and scientifically sound in principle, but is very convenient to use. Milk can be obtained anywhere and travellers can easily take with them sufficient supplement for their journey. On those rare occasions when milk cannot be obtained, milk powder can readily be used as a substitute.

One ounce of powder should be reconstituted in seven fluid ounces of water, and the supplement then added in the usual way. Spray-dried powder is recommended, as it is more easily reconstituted, and if spray-dried skim milk is used, there will, of course, be a further reduction in calorie intake.

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, *the entire Vitamin B Complex should always be administered concurrently.*

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

- Aluzyme is not advertised to the public and may be prescribed on Form E.C.10

Poliomyelitis—

...an effective pattern of protection

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme.... directed at raising the standards of personal hygiene.... coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'¹

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be

the most active chemical disinfectants.'²

'An oxidising agent of great potency is Domestos which, when used at concentration of from $\frac{1}{4}$ to 2 ozs per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.'³

A pattern of protection against Polio is assured by using DOMESTOS, which destroys Poliomyelitis virus—

(a) *For Lavatories.* Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of

children, should always be washed with a DOMESTOS solution.

(b) *For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.*

(c) *For safeguarding against the infection of food by bluebottles, flies, vermin.*

(d) *For the disinfection of yards, paths, etc.*

(e) *For the disinfection and cleaning of clogged drains.*

1. 'Topical Aspects of Poliomyelitis', 'Journal of the Royal Society of Health' Dec. 1956.

2. World Health Organisation Technical Report Series, No. 81, 'Expert Committee on Poliomyelitis'.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Any advertisements appearing in this issue for posts in the hospital service which quote the rates of salary which obtained before the recent percentage increases are published on the assumption that the employing authorities will make the necessary adjustments.

(3933)

PSYCHIATRY**WESTERN REGIONAL HOSPITAL BOARD**

Applications are invited for the following appointment:

CONSULTANT PSYCHIATRIST

based at the Glasgow Royal Mental Hospital. The appointment will be either whole-time or on the maximum part-time basis of nine notional half-days per week. Applicants must have undertaken a recognized training in psychotherapy. Applications (16 copies), stating date of birth, qualifications, experience, present appointment, and the names of three referees, to reach the Secretary, Western Regional Hospital Board, 64, West Regent Street, Glasgow, C.2, not later than 30 days after the publication of this advertisement. (4144)

SOUTH-EAST METROPOLITAN REGIONAL HOSPITAL BOARD

Applications are invited for the undermentioned appointments to the St. Augustine's group of hospitals:

(1) CONSULTANT PSYCHIATRIST

(whole-time or nine notional half-days weekly) for duties at St. Augustine's Hospital and at out-patient clinics in the group catchment area.

Candidates must possess a D.P.M. A higher medical qualification is desirable. Psychiatric hospital and out-patient clinic experience is essential, and applicants should have practical knowledge of modern psychiatric therapeutic procedures, including psychotherapy and occupational therapy.

(2) ASSISTANT PSYCHIATRIST

(whole-time), salary within the range £1,610 14s. by £54 12s. to £2,211 6s. per annum, for duties at St. Martin's Hospital, Canterbury, where accommodation could be provided, if required.

The successful candidate will be required to assist in the development of a short-stay unit at the hospital for the treatment of the psychiatric problems associated with old age and to work in association with those responsible for the chronic sick and geriatric services in East Kent. Applicants must have had a wide experience in psychiatry and have a knowledge of modern methods of treatment. A higher qualification is desirable.

Candidates may visit the hospitals concerned.

Applications, stating nationality, age, sex, qualifications and experience, including details of present appointment and of war or national service, together with the names and addresses of three referees, and indicating the appointment for which application is made, should be sent to the Secretary, Advisory Appointments Committee, South-East Metropolitan Regional Hospital Board, 40, Eastbourne Terrace, London, W.2, by not later than March 14, 1959. (4065)

MANCHESTER REGIONAL HOSPITAL BOARD**WHOLE-TIME RESIDENT ASSISTANT PSYCHIATRIST**

(S.H.M.O.) to Whittingham (Mental) Hospital, near Preston (about 3,200 beds). All modern forms of treatment are undertaken. D.P.M. desirable. Application forms, from the Senior Administrative Medical Officer to the Board, Cheetwood Road, Manchester, 8, to be returned by March 11, 1959. (4275)

initially in Area 6 (Wembley and Willesden). Duties include supervision of health of mothers, young children and school children. Diploma of Public Health and experience in these branches of public health work advantage. Salary £1,050 to £1,475 per annum. Established, pensionable, subject to medical assessment and prescribed conditions. Full particulars and two referees to Joint Area Medical Officer, 215, Chevening Road, Kilburn, N.W.6, by March 6. (Quote Z.133 B.M.) Canvassing disqualifies. (4105)

WORCESTERSHIRE COUNTY COUNCIL**ASSISTANT COUNTY MEDICAL OFFICER**

Applications invited from registered medical practitioners (men or women) for this appointment. The duties will chiefly concern School Health and Child Welfare Services. D.C.H. or D.P.H. an advantage. Salary scale £1,050 by £50 to £1,200 by £55 to £1,475. Travelling and subsistence allowances on national scale. Application forms from County Medical Officer, County Buildings, Worcester. (L285) (3827)

COMMERCIAL APPOINTMENTS**BENGER****CHIEF PHARMACOLOGIST**

Benger Laboratories Limited, manufacturers of ethical medicinal preparations, urgently require a man to take charge of the Pharmacology Section of their Research Laboratories. This is an important post and offers considerable scope for advancement to anyone who has not only the requisite knowledge and experience, but also a real capacity for leadership.

The man appointed must have a sound academic background and research experience, but above all he must have an enthusiastic interest in collaborating with Organic Chemists, Biochemists, and Microbiologists, in the search for new and original drugs.

The commencing salary offered will depend very much on the experience, qualifications and age of the particular applicant, but we anticipate that the person appointed will in any case receive over £1,400 per annum. Contributory schemes for retirement pensions and for pensions to widows and children in the event of employees dying before retirement age are in operation.

Applications or letters of enquiry, all of which will be dealt with in strict confidence, should be addressed to the Director and Secretary, Benger Laboratories Limited, Holmes Chapel, Cheshire.

PHARMACEUTICAL INDUSTRY

A well known Pharmaceutical Company in Buckinghamshire, which specializes in the development of new synthetic drugs, has a vacancy for a Doctor in its Medical Department.

The work of the Department covers clinical trials and research involving new and existing drugs, the production of medical literature, a medical information service, the instruction of sales staff in the medical aspects of the company's products, and the health and safety of the company's employees. This vacancy, which is for a new appointment in a growing Medical Department, is for full-time work, although it is envisaged that some part-time clinical work will be arranged.

Applications will be welcomed from Medical Practitioners, age not less than 28 years and qualified for at least three years, with hospital experience, preferably in general medicine. The salary will depend upon age, qualifications and experience, but will not be less than £1,750 per annum. The company operates a contributory pension scheme.

Applications will be treated in the strictest confidence, and should be addressed to Box 1751, B.M.J.

INDUSTRIAL APPOINTMENTS

Attention is drawn to the B.M.A. statement of policy on the remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958), which is available on request from the Secretary.

ASSISTANT MEDICAL OFFICER REQUIRED in the N.C.B.'s Pneumoconiosis Field Research (a long-term investigation into miners' pneumoconiosis and the relationship between dust and disease), which is primarily concerned with physiological research on pulmonary function and will involve frequent visits to collieries. The appointment is in Cardiff and is suitable for a young medical man with good academic record and keen to obtain a footing in medical research. Salary dependent upon qualifications and experience, within range £1,250 to £1,700. Write to Staff Department (X.1284/2), National Coal Board, Hobart House, London, S.W.1, for application form, which should be completed and returned by March 3, 1959. (4103)

RICHARD THOMAS AND BALDWIN LIMITED
require an
ASSISTANT INDUSTRIAL MEDICAL OFFICER

for their works in the Monmouthshire area. Applicants should not be more than 32 years of age. Previous experience in Industrial Medicine not essential. Remuneration in accordance with B.M.A. scale.

DEPUTY MEDICAL DIRECTOR

within the salary range of £1,520 by £50 to £1,570 by £55 to £1,955. Candidates should be registered medical practitioners with a Diploma in Public Health and with experience of public health work under a local authority; they should also have had some experience of lecturing to professional and lay audiences. Application forms and full particulars of the duties and conditions of employment may be obtained from the Medical Director, The Central Council for Health Education, Tavistock House North, Tavistock Square, London, W.C.1, and should be returned to him, together with the names of three persons to whom reference may be made, not later than March 2, 1959. (3440)

THE UNIVERSITY OF LEEDS

Department of Chemical Pathology

Applications are invited for appointment as

ANALYST

in a hospital biochemistry laboratory. Salary on the scale of £660 by £20 to £950 a year, according to age, qualifications and experience. Candidates should have a degree in Chemistry or Biochemistry, or considerable experience in analytical chemistry. Applications (three copies), stating date of birth, qualifications and experience, together with the names of three referees, should reach the Registrar, the University, Leeds, 2 (from whom further particulars may be obtained), not later than March 28, 1959. (4120)

THE UNIVERSITY OF LEEDS

Department of Chemical Pathology

Applications are invited for appointment as

DEMONSTRATOR IN CHEMICAL PATHOLOGY

on the salary scale £700 by £50 to £850 (non-medically qualified), or £900 by £100 to £1,100 (medically qualified). The post involves duties in a hospital routine biochemistry laboratory and original investigation with opportunities to prepare for a higher degree. Applications (three copies), stating date of birth, qualifications and experience, together with the names of three referees, should reach the Registrar, the University, Leeds, 2 (from whom further particulars may be obtained), not later than March 28, 1959. (4165)

THE UNIVERSITY OF MANCHESTER

Applications are invited for the post of

LECTURER IN MEDICAL CHEMISTRY

in the Department of Medicine. In addition to research duties in the Department of Medicine the post carries limited teaching commitments in the Department of Chemistry of the Faculty of Science. The salary scale is £900 to £1,650 per annum, initial salary according to qualifications and experience. Membership of the F.S.S.U. and children's allowance scheme. Applications should be sent, not later than March 9, 1959, to the Registrar, the University, Manchester, 13, from whom further particulars and forms of application may be obtained. (4166)

THE UNIVERSITY OF SHEFFIELD

Applications are invited for the post of

LECTURER OR RESEARCH ASSISTANT IN BACTERIOLOGY AND VIROLOGY

to begin duties as soon as possible. Salary scales: Lecturer (a) for candidates holding a registered medical qualification, £1,200 by £100 to £1,900; (b) for other candidates, £900 by £50 to £1,350 by £75 to £1,650. The salary of the Research Assistant would be determined at the time of appointment. For either post the commencing salary will be according to qualifications and experience, with F.S.S.U. provision and family allowance. Further particulars should be obtained from the Registrar, to whom applications (six copies) should be sent by March 14, 1959. (4089)

THE UNIVERSITY OF SHEFFIELD

Applications are invited from medically qualified persons for the post of

DEMONSTRATOR IN ANATOMY

to begin duties on October 1, 1959. Salary scales £900 by £50 to £1,100, with F.S.S.U. provision and family allowance. Further particulars may be obtained from the Registrar, to whom applications (four copies), including the names and addresses of three referees, should be sent by April 11, 1959. (4090)

Applications (10 copies) must be received not later than March 16, 1959, by the Academic Registrar, University of London, Senate House, W.C.1, from whom further particulars may be obtained. (4150)

SCHOLARSHIPS

FEDERAL (Nigeria) GOVERNMENT SCHOLARSHIPS, 1959

The Federal Government of Nigeria proposes to award, during 1959, a number of scholarships to Nigerians desiring to be trained for administrative, executive, or professional posts.

2. In the Faculty of Medicine awards will be confined to a limited number of Nigeria medical students who have already completed their pre-registration service or will have done so by October, 1959, for postgraduate specialization in the following fields of Medicine:

**MALARIOLOGY
RADIOLOGY
MEDICAL STATISTICS
PUBLIC HEALTH
PATHOLOGY
PSYCHIATRY
NUTRITION
ANAESTHETICS
DERMATOLOGY.**

3. Selected candidates will be required to enter into bonds to serve as directed by the Federal Government on completion of their training.

4. Medical students already holding Federal Government scholarships need not apply for fresh awards under this scheme. They may apply in the normal way for an extension of their awards.

5. Except in the cases specified in paragraph 4 of this notice, applications for scholarships from private Nigerian medical students in the United Kingdom should be completed on the prescribed form obtainable from The Secretary, Overseas Federal Scholarship Board, Nigeria House (Students Section), 9, Northumberland Avenue, London, W.C.2, and should be forwarded in duplicate to the Secretary, so as to reach him not later than March 14, 1959. (4071)

NOTICES

APPLICANTS ARE ADVISED NOT TO SEND original testimonials when replying to advertisements. Copies will answer the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

THE ROYAL INSTITUTE OF PUBLIC HEALTH AND HYGIENE

THE DIPLOMA IN PUBLIC HEALTH THE DIPLOMA IN INDUSTRIAL HEALTH

The next Courses of Instruction for the above Diplomas will commence on March 13, 1959. Tuition may be taken whole-time or part-time. Prospectuses, enrolment forms, and full details may be obtained from the Dean, 23, Queen Square, London, W.C.1 (Telephone TERminus 4788/6206). (3865)

THE UNIVERSITY OF SHEFFIELD

A course in Dermatology for general practitioners will be held from Monday to Friday, April 13-17, at the Rupert Hallam Department of Dermatology, Sheffield Royal Infirmary. The fee is 5 guineas, and accommodation at one of the University's Halls of Residence may possibly be available at a moderate additional charge. N.H.S. practitioners are (subject to certain conditions) eligible to have the course fee paid on their behalf and to receive also certain allowances (travelling expenses, subsistence, locum fees). As the number who can be accepted is limited, enquiries and applications (stating whether or not the latter are made under the Scheme for N.H.S. practitioners, and whether residential accommodation is desired) should be addressed as soon as possible to the Dean of the Faculty of Medicine, the University, Sheffield, 10. (3860)

THE UNIVERSITY and the ROYAL FACULTY OF PHYSICIANS AND SURGEONS OF GLASGOW Postgraduate Medical Education Committee

REFRESHER COURSE FOR GENERAL PRACTITIONERS

A Refresher Course of one fortnight's duration designed for general practitioners will be held from May 18 to 30, 1959. The greater part of the course will comprise clinical demonstrations, ward visits, and lectures in General Medicine, General Surgery, and Obstetrics, but sessions on Infectious Diseases, Child Health, Ophthalmology, Dermatology, Urology, Otorhinolaryngology, etc., will also be included. The fee for practitioners not claiming expenses from Government sources is 10 guineas. Since the number admitted to the course is limited, early application should be made to the Director of Postgraduate Medical Education, The University, Glasgow, W.2, from whom the syllabus and further information may be obtained. (4085)

UNIVERSITY OF BRISTOL

DIPLOMA IN PUBLIC HEALTH SESSION 1959-60

A full-time course of instruction covering three academic terms will commence in October, 1959. The fee for the full course is £66. Application forms may be obtained from the Medical Postgraduate Dean, the University, Bristol, 8, and should be lodged as soon as possible. (4255)

UNIVERSITY OF EDINBURGH Faculty of Medicine

WILLIAM LESLIE PRIZES IN MEDICINE AND SURGERY

The above two Prizes, each of the value of £100, may be awarded in 1959, and thereafter annually, on the recommendation of the Faculty of Medicine to a graduate in Medicine and Surgery of not more than five years' standing, who has been engaged in medical or surgical work in the South-Eastern (Scotland) Area and is not above the grade of Lecturer in the University or Senior Registrar in the Hospital Service, who presents a paper, published or in manuscript, of sufficient merit relating to either clinical or experimental medical or surgical investigation. The holder must spend the prize money on travel to an approved medical or surgical centre or centres and subsequently submit a report to the Dean. Papers are to be lodged with the Dean of the Faculty of Medicine, University New Buildings, Teviot Place, Edinburgh, 8, by April 30, 1959. (4245)

UNIVERSITY OF LONDON

A course of two lectures entitled (i) "The Hypothalamus and the Internal Environment"; (ii) "Thirst and Factors Controlling Drinking" will be delivered by Dr. B. Andersson (Royal Veterinary College, Stockholm) at 5 p.m. on March 3 and 12 noon on March 4 at the Royal Veterinary College, Royal College Street, Camden Town, N.W.1. Admission free, without ticket.—James Henderson, Academic Registrar. (4211)

CHARGES FOR CLASSIFIED ADVERTISEMENTS

To economize in paper, bookkeeping entries, and avoid delay, please send payment with the advertisement addressed:

Advertisement Director,
"British Medical Journal,"
B.M.A. House, Tavistock Square, London, W.C.1.

Members should include the word "MEMBER" underneath their signature.

Every effort will be made to include "Hospital" and "Small" advertisements in the forthcoming issue provided they reach this office by not later than first post on the FRIDAY of the week preceding date of issue.

Cancellation of advertisements cannot be accepted if received after 12 noon on the Monday prior to date of issue (issues affected by public holidays excepted).

DO PLEASE WRITE ADVERTISEMENTS AND
NAME AND ADDRESS CLEARLY IN BLOCK LETTERS

SEMI-DISPLAYED ADVERTISEMENTS are charged £7 per single column inch and pro rata.

MEMBERS ABROAD. Copies of vacancies advertised in the Journal can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to three separate headings: additional headings 1s. each. Please state type of vacancy and remit to the Advertisement Director, B.M.J.

Every effort is made to ensure the accuracy of advertisements appearing in the Journal. No recommendation is implied by acceptance, and the British Medical Association reserves the right to refuse or interrupt the insertion of any advertisement.

REPLIES TO BOX NUMBERS. The names and addresses of advertisers under box numbers are held by us in strict confidence and cannot be disclosed. Each Box No. should be addressed separately. Two or more replies can be enclosed in one envelope, addressed to the Advertisement Director. They will be forwarded to the advertisers in plain envelopes.

Advertisement Director, British Medical Journal, B.M.A. House, Tavistock Square, London, W.C.1.
Telephone: Euston 4499. Telegrams: Britmedads, Westcent, London.
