Just Ready

SYSTEM OF OPHTHALMOLOGY

Edited by Sir Stewart Duke-Elder, G.C.V.O., M.A., D.Sc.(St.And.), M.D., Ch.B., F.R.C.S.

Volume I : The Eye in Evolution

872 pages, 1,252 illustrations and 15 coloured plates. £6 6s.

"This is the best of Sir Stewart's books so far, and its appeal will be even wider than that of his great seven-volume 'Textbook of Ophthalmology'."—*British Journal of Ophthalmology*.

READY THIS MONTH**ACKERMAN'S SURGICAL PATHOLOGY**

Through the combined skills of pathologist and surgeon, this new edition thoroughly explains the pathology of the living patient.

By Lauren V. Ackerman, M.D., and Harvey R. Butcher, Jr., M.D. Second Edition.

1,065 pages, 1,050 illustrations. £5 12s. 6d.

MOSELEY'S TEXTBOOK OF SURGERY

Forty outstanding surgeons and educators have collaborated to produce this new third edition of a standard textbook.

Edited by H. F. Moseley, M.A., D.M., M.Ch.(Oxon.), F.A.C.S., F.R.C.S.(Eng.), F.R.C.S.(Can.). Third Edition.

1,174 pages, 738 illustrations, 108 coloured plates. £6 7s. 6d.

134 Great Portland Street, London, W.I

Medical Book Dept. of Hirschfeld Bros. Ltd.

E. & S. LIVINGSTONE, LTD.**EARLY DIAGNOSIS**

Edited by HENRY MILLER, M.D., F.R.C.P.

408 pages.

25s.

"The early recognition of important disease is the special responsibility of the general practitioner, for whom this book has been written. It is he who must appreciate the signs which will lead him to commission on behalf of his patients the elaborate, expensive and sometimes even potentially dangerous machinery of modern medical investigation."

—Extract from Preface.

THE MAST CELLS

By JAMES F. RILEY, M.D., Ph.D., D.M.R.T., F.R.C.S.Ed.

192 pages.

65 illustrations.

30s.

Great interest has been taken in recent years in the two substances, heparin and histamine, contained in the mast cells. This is a new and topical book by an authority on the subject, and no clinician or research worker who desires to know something of the mast cell can afford to ignore this well-documented book.

SHAKESPEARE AND MEDICINE

By ROBERT R. SIMPSON, F.R.C.S.Ed., F.R.C.S.Eng.

275 pages.

8 illustrations.

25s.

A new work of considerable scholarship not only for medical men but for all literary people. The writing of the book has been a labour of love on the part of the author, which is evident in the English of the text, and it will be a standard work of reference for many years to come.

SURGERY OF THE COLON

By E. S. R. HUGHES, M.D.(Melb.), M.S.(Melb.), F.R.C.S.(Eng.), F.R.A.C.S.

424 pages.

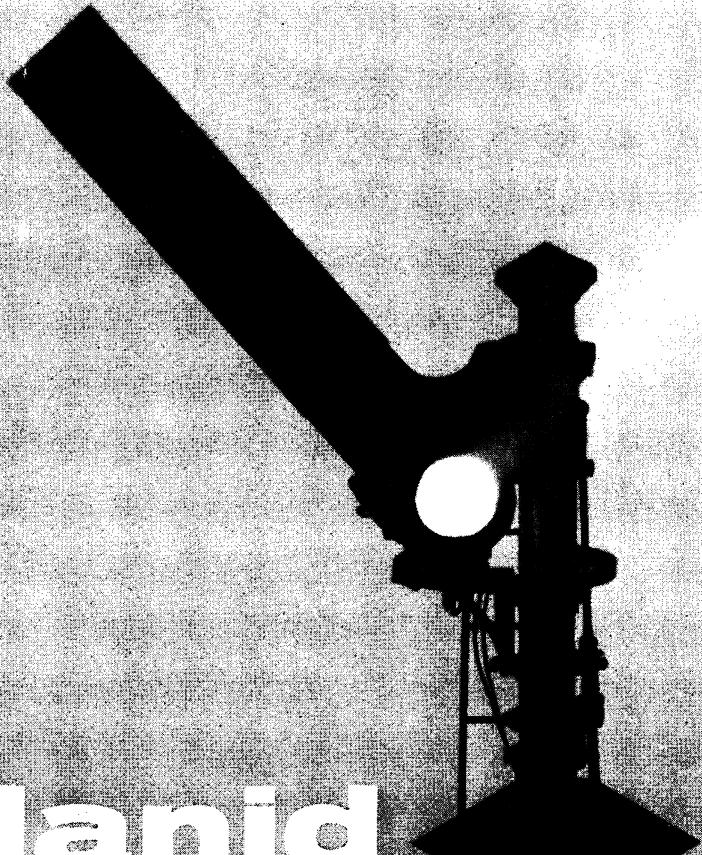

339 illustrations.

63s.

An admirably practical monograph by the author of "Surgery of the Anus, Anal Canal and Rectum". Based on personal experience, it will enhance the author's reputation for lucid, succinct writing allied with clear and carefully chosen illustrations.

STELAZINE

an essential advance

in chronic

In a trial of 'Stelazine' conducted in sixty chronic schizophrenics who had been ill for 1—32 years, 'improvement became noticeable approximately ten days after commencement of treatment. This was most striking in the fading of hallucinations, cessation of impulsiveness, an awakening of interest, a desire to take part in occupations and recreations of various kinds'.

J. ment. Sci. (1958), 104, 1195-98.

and acute

'A similar pattern of response was found as with chronic patients, except that the response was more of a total one and all groups of symptoms tended to disappear more simultaneously. In those who had lost it, insight returned at a very early stage . . . Trifluoperazine would appear to be a cheaper and more pleasant method of treating acute paranoid schizophrenia than I.C.T., and just as effective, if not more so.'

Brit. med. J. (1959), i, 549-550.

This makes Minadex the most economical tonic you can use

GLAXO LABORATORIES LTD, GREENFORD, MIDDLESEX BYRON 3434

ANNOUNCE

Systemic therapy of fungal infections of the skin has long been recognised to be the desirable form of treatment. It can now be achieved orally with griseofulvin, an antibiotic developed by Glaxo.

NaClex is a low-priced, oral, non-mercurial diuretic that virtually dispenses with the need for injections in the treatment of oedema of all degrees of severity. NaClex is an analogue of chlorothiazide but is much more active than that compound and appears to have even fewer side-effects.

The two new presentations of Crystapen V Suspension replace Crystapen V Oral Liquid. With their two strengths the suspensions give you greater flexibility in prescribing penicillin V suspension and, of course, they are ever-ready for instant use.

From Monday, April 6th, Glaxo are reducing the prices of many corticoid, vitamin B₁₂ and neomycin products in the United Kingdom. These will effect a substantial saving in prescribing costs.

6 and 12 ounce bottles of Minadex are freed from purchase tax. The retail price of this product is now the same as it was in 1937.

You, the doctor and the *Clarks* story

Clarks advertising is widespread—in the Press and on Television. Though it is not directed at the medical profession, you have probably seen it in the course of normal reading or viewing. Here we should like to tell you about the thinking which lies behind those advertisements.

Most doctors seem to agree that a large number of the foot ailments suffered by adults are the results of wearing badly fitting shoes in childhood. Clarks have long been concerned with this problem—in fact, we have built up our business in the sincere belief that something ought to be done about it. We have tried to make available well designed and well constructed shoes for growing children. We make these in a choice of widths and in half-sizes, and we try to see to it that they are sold through authorized stockists with fully trained fittings staffs. We feel so strongly about this that we actually train our stockists' staffs in the art of foot-fitting and in the use of the Clarks Foot-gauge. Every Clarks specialist has one of these. This specialised shoe-fitting service is now available in almost every town and city throughout the United Kingdom.

Clarks shoes

fitted for length, width and girth

*Established
in clinical practice*

RASTINON

*Complete oral control
without side-effects
for thousands of diabetics*

EFFECTIVE

Over 1,000 published articles substantiate the clinical value of Rastinon (tolbutamide). Thousands of patients have been effectively controlled for more than three years.

SAFE

No cases of dyshaemopoiesis, jaundice or other serious side-effects have been reported. Analysis of over 10,000 case histories shows Rastinon to be completely safe for suitable diabetics.

Rapid excretion precludes cumulative effects. The significant difference between Rastinon and all other available anti-diabetic agents is that there is virtually no danger of hypoglycaemic reactions as a result of Rastinon therapy.

SIMPLE

One tablet by mouth once or twice a day is all that is necessary for maintenance. There is no added cost of treatment for the patient previously on insulin.

Announcing—

HYDREN

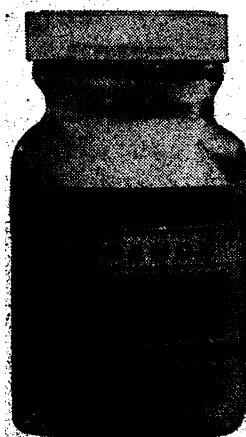

HYDROFLUMETHIAZIDE

INDICATIONS

Hydrenox is indicated in all cases of cardiac and renal oedema (irrespective of their severity) and in all other cases of fluid retention, including oedema of pregnancy, hepatic oedema, oedema of premenstrual tension and oedema resulting from steroid therapy.

PACK

Hydrenox is available in containers of 100 and 500 tablets. Each tablet contains 50 mg. of Hydroflumethiazide.

PRICE

The Basic N.H.S. price of 100 tablets is 24/- (plus P. Tax). The normal daily dose is 1-4 tablets.

OX

**A really important
advance in
ORAL DIURETIC
therapy**

- * Hydrenox is a new oral diuretic which is at least ten times as potent as chlorothiazide.
- * The cost of treatment with Hydrenox is lower than with any other potent oral diuretic.
- * In many cases a single daily dose produces an adequate response.

BURROUGHS WELLCOME & CO.

(The Wellcome Foundation Ltd.) LONDON

**When you examine
TAMPAX
please note . . .**

Please note also—

- How easy it is for your patients to insert.
- How flat Tampax expands to fit the vaginal canal.
- How positive its wick action in absorbing the flux.
- How dainty it is for your patients to remove.
- How well it is adapted to individual needs.

Fine surgical cotton forms the Tampax tampon—the kind a surgeon might use for a surgical dressing. Its contact with the resilient stratified squamous epithelium of the vaginal canal—ever protectingly moistened by its own transudate and by uterine secretion—is altogether gentle and non-irritant.

Yet its superior absorbency affords a safe margin of protection without bulky packing—compression of the tampon permitting easy insertion, and flat expansion conforming it to the vaginal cross-section. Indeed, so comfortable is Tampax *in situ*, (when correctly placed well within the introitus) that the user is hardly aware of its presence.

Designed by a physician, Tampax is supplied in two absorbencies (Regular and Super) to meet individual requirements. Its central stitching precludes the possibility of disintegration, and its positive "wick" action prevents any blocking of the flow.

The comfort, convenience, and freedom it affords your patients can reflect your own judgment as to the hygienic superiority of this internal form of menstrual protection.

HAVE YOU EXAMINED TAMPAX RECENTLY?

Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Belvue Road, Northolt, Greenford, Middlesex.

**Tampax provides better physical management
of menstrual hygiene**

a decade after cortisone

The most potent corticosteroid ever developed is the outcome of 10 years continuous research by the Merck Sharp & Dohme Organisation.

The increased potency of 'DECADRON' is not accompanied by an increase in side-effects—on the contrary, the incidence of oedema, hypertension, hyperglycaemia and gastric intolerance is *reduced*.

The conversion of patients to 'DECADRON' from other steroids is simple—

A dosage of 1 to 1½ tablets (0.5—0.75 mg., according to response) replaces:

One 4 mg. tablet of Triamcinolone or Methylprednisolone	One 5 mg. tablet of Prednisone or Prednisolone	One 20 mg. tablet of Hydrocortisone	One 25 mg. tablet of Cortisone
---	--	---	--------------------------------------

'DECADRON' embodies a decade of experience in corticosteroid research

How supplied: 'DECADRON' is supplied as scored yellow tablets, 0.5 mg., for oral administration. Bottles of 30, 100 and 500.

The United Kingdom N.H.S. basic cost is 24s. 0d. per 30 tablets.

NORMAL FOOD

3 days a week

FORTIFIED DIET

A scientifically balanced food supplement which acts normally and safely!

Medical practitioners will perhaps agree that the correct basis of slimming is to reduce calorie intake but to maintain the dietary essentials, namely protein, vitamins and minerals. Some dieting procedures, while scientifically correct, are unpleasant or inconvenient and may even bring discomfort. It is a common experience that slimming is mainly a matter of strength of character, and any dietary scheme which helps to make slimming a pleasant and convenient procedure has obvious advantages. LARSON'S SWEDISH MILK DIET achieves all these objects and in addition permits great flexibility in application. In this system each of the four daily meals is considered as a unit which can be replaced, as required, by an attractive, conveniently prepared and cheap food. If all four meals are replaced by

Swedish Milk Diet the daily calorie intake is reduced to about 650, but all the vitamin and mineral requirements and roughly half the protein requirements for the day are met. In the full system the four meals on three days a week, say Monday, Wednesday and Friday, are replaced by the diet, but individual meals can be replaced at any time as desired. For example, the Swedish Milk Diet can be taken in place of breakfast and tea, or in place of lunch and tea every day.

The diet is simplicity itself. It is prepared by adding a heaped teaspoonful of the supplement to a glass (8 fluid ozs.) of milk which may be cold, warm or hot as desired. Flavouring can be added if wished. The composition of the LARSON'S SWEDISH MILK DIET is as follows:

One heaped teaspoonful with an 8 ounce glass of milk taken four times daily supplies:—

3 grms: Calcium . . . over 100% M.D.R.*

3 grms. Phosphorus . . . over 100% M.D.R.

2,500 International Units Vitamin A . . . 50% M.D.R.

200 International Units Vitamin D . . . 50% M.D.R.

1.2 mg. Vitamin B₁ . . . 100% M.D.R.

2 mg. Vitamin B₂ . . . 100% M.D.R.

6 mg. Nicotinamide . . . 50% M.D.R.

0.1 mg. Vitamin B₆

4 mg. Calcium pantothenate

31 gm. Protein

50 gm. Carbohydrate

34 gm. Fat

Equivalent to 650 Calories

*M.D.R. means adult Minimum Daily Requirement.

The minimum daily requirement for vitamin B₆ and calcium pantothenate has yet to be established.

It will thus be seen that the diet is not only medically and scientifically sound in principle, but is very convenient to use. Milk can be obtained anywhere and travellers can easily take with them sufficient supplement for their journey. On those rare occasions when milk cannot be obtained, milk powder can readily be used as a substitute.

One ounce of powder should be reconstituted in seven fluid ounces of water, and the supplement then added in the usual way. Spray-dried powder is recommended, as it is more easily reconstituted, and if spray-dried skim milk is used, there will, of course, be a further reduction in calorie intake.

There's a special Andrews for diabetics

(and others on restricted diets)

IN RESPONSE TO REPEATED REQUESTS, a special formulation of Andrews, free of sugar but retaining Andrews' characteristic palatability, has now been produced for diabetic patients and others on a special diet.

Andrews Liver Salt is a pleasant-tasting effervescent aperient. Its reliable laxative action is brought about by an effervescent saline combined with magnesium sulphate, the osmotic action of which ensures the retention of sufficient fluid in the bowel for easy and comfortable evacuation.

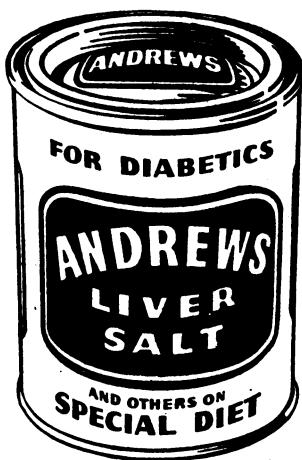

Andrews is mildly alkaline. It is useful for counteracting stomach acidity, nausea and headaches of the migraine (bilious) type.

CYANAMID OF GREAT BRITAIN LTD London W.C.2

A new preparation, **PASADE**, overcomes intolerance to P.A.S.

30%-50% of tuberculosis patients depart from their P.A.S. schedule when on domiciliary treatment.^{1 2 3}

This unsatisfactory state of affairs can be largely attributed to the unpalatability of P.A.S. and the high incidence of gastric symptoms associated with it.

*Pasade adequate granules have been designed to overcome all these difficulties. These new granules are unusual in that the sodium P.A.S. is processed with a special type of fat, the presence of which retards gastric release of the irritant P.A.S. in the stomach. Full release occurs only within the comparative safety of the intestine, when the danger of stomach upsets has passed.

Published reports^{4 5} have confirmed the efficacy of this

preparation and have demonstrated that high and sustained blood levels are produced.

Full details of clinical trials will be gladly sent on request.

DONNATAL

*antispasmodic
anticholine
sedative*

**Anticholine drugs**

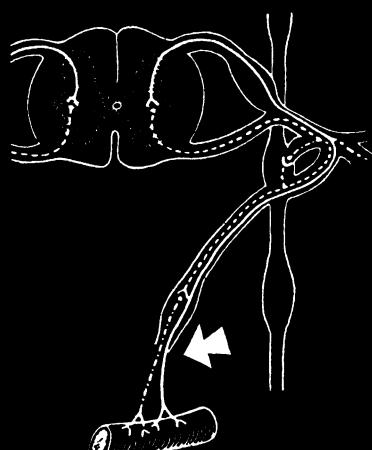

"... in the United States the preparation which is by far the most widely prescribed is 'donnatal'; a mixture of the naturally occurring substances atropine, hyoscine, and hyoscyamine."

British Medical Journal, 1958, I. 882

If adequate physical expression of emotional tendencies is blocked in the hypothalamic autonomic centres, the emotion finds its outlet in the viscera with which these centres are connected.

1) By allaying emotionality, Donnatal's phenobarbital component helps to prevent the rise of autonomic over-stimulation and spastic impulses from higher centres.

2) By blocking the impulse at the nerve endings in smooth muscle, Donnatal's belladonna alkaloids inhibit development of spasm (whether originating in the higher centres or within the autonomic reflex arc).

As recently annotated in the B.M.J., Donnatal contains *natural* belladonna alkaloids, atropine, hyoscine and hyoscyamine, with added phenobarbitone. In the United States it is, as quoted, "the most widely prescribed preparation" where spasmolysis with non-toxic sedation is indicated. Since the original introduction of Donnatal some years ago, a wealth of clinical evidence has been steadily accumulating, testifying to the remarkable success of this unique formulation in the treatment of a wide range of gastro-intestinal, genito-urinary and other disorders where the control of spasm is called for.

Each Donnatal Tablet contains :

Hyoscyamine Sulphate	0.1037 mg.
Atropine Sulphate	0.0194 mg.
Hyoscine hydrobromide	0.0065 mg.
Phenobarbitone (1/4 gr.)	16.2 mg.

Available in bottles of 50

I.C.I. introduce 'Fulcin' —the first oral treatment for fungal infections of the skin

'FULCIN' is an antibiotic with powerful antifungal properties. When given by the mouth it gains access to the site of infection and provides an effective treatment for fungal infections of the skin, hair and nails. Its greatest value is in cases which do not respond to topical medication.

For oral administration, 'Fulcin' Tablets (scored) each 250 mg. are available in packings of 100 and 1,000; basic N.H.S. cost 60/- and 560/-.

THE PROBLEM

To obtain high blood levels of theophylline easily

THE SOLUTION

Oral 'Theodrox'

THE RESULT

A full Therapeutic response

REFERENCES

¹ Brit. med. J. (1957) 2: 67

² Ibid., page 74

DOSAGE . . .

RIKER

'Theodrox' (Brit. Pat. 727831) is a registered Trade Mark of

For oral aminophylline therapy to be fully effective it is necessary to give a dose sufficient to produce high blood theophylline levels. However, because of gastric irritation vomiting often results. Alternative therapy with enteric coated tablets or suppositories is unreliable, and parenteral aminophylline is inconvenient.

The combination of dried aluminium hydroxide gel and aminophylline in 'Theodrox' ensures full therapeutic response with the minimum of gastric upset. Reproduceable blood levels comparable with those obtained from intramuscular injection can be obtained.

THEODROX

REGD.

Recent work^{1,2} has shown that synthetic derivatives of theophylline are mostly unsatisfactory and all are more expensive.

Each 'Theodrox' tablet contains 3 grains aminophylline and 4 grains dried aluminium hydroxide gel.

'Theodrox' is also available combined with $\frac{1}{8}$ grain phenobarbitone where a degree of sedation is also required.

ASTHMA:— two tablets, repeated in 2-3 hours if necessary to control paroxysm and dyspnoea. For prophylaxis, one tablet 4 times daily.

DIURETIC:— two tablets initially, then one or two tablets three times daily.

ANGINA PECTORIS:— four to eight tablets daily. In suitable cases 'Theodrox' with Phenobarbitone tablets can replace some or all of the 'Theodrox'.

PACKS:— Bottles of 25, 100 and 1,000 tablets.

for the control of hypertension

'Perolysen', the newest ganglion blocking agent synthesised in the M&B research laboratories, has an autonomic ganglion blocking action resembling that of mecamylamine, but of shorter duration. It is devoid of other pharmacological actions in the dosages used clinically.

The moderate duration of action ensures that any necessary dosage modifications are rapidly effective.

'Perolysen' is presented as tablets of 1 mg., 5 mg. and 10 mg.

SQUIBB A CENTURY OF EXPERIENCE BUILDS FAITH

After 4 years

Parentrivite is now established as the accepted vitamin preparation for conditions in which massive doses for injection are indicated, whether in the field of psychiatry or general medicine.

Introduced four years ago for the treatment of coma, delirium, and psychoses from alcohol, barbiturates or other drugs, it has been found equally effective in the prevention and treatment of:

- *Confusional states following severe illness or operation*
- *Gestational and puerperal psychoses*
- *Hepatic dysmetabolism*
- *and psychiatric states in the elderly.*

It is also extensively used in conjunction with electro-convulsive therapy and other drug treatment employed for the more severely affected patient in mental hospitals, the vitamins having a marked effect in promoting the physical health and well-being of the patient and thus permitting the specific measures employed to exert their maximum effect.

*Packs: In boxes of 3 and 12 pairs.
Hospital packs also available.*

DURABOLIN (19-NORANDROSTENOLONE PHENYL PROPIONATE)

*the most potent, long-acting anabolic preparation
Non-virilising in the recommended dosage*

Because it ensures a positive nitrogen balance when the rebuilding of new tissues is necessary (Brit. med. J. 2, 785-786, Sept. 27th 1958) DURABOLIN is being increasingly recommended as the anabolic agent of choice. Additionally DURABOLIN induces re-deposition of calcium in depleted bone and also relieves associated pain. DURABOLIN has no progestational effects or other contra-indications.

Form and Administration 25 mg. 19-norandrostenolone phenyl propionate in 1 c.c. oily solution; for intramuscular injection.

Dosage 25 to 50 mg. weekly.

Presentation 3 x 1 c.c. ampoules.

Indications

Nitrogen loss occurring post-operatively, and in association with corticoid therapy
Metastatic carcinoma
Osteoporosis
Paget's disease
Terminal stages of all malignant disease
Chronic infectious diseases
Anorexia nervosa
Uraemia.

**A practical reference manual on contraception
available free to all doctors**

TO GET YOUR COPY
simply write "Modern Contraceptive Technique" and "Planned Families" on your letter-heading, and post it to the address below.

The Report of the Royal Commission on Population (1949) states:

"...there is nothing inherently wrong in the use of mechanical methods of contraception... public policy should be based on acceptance of voluntary parenthood and contraception."

These words give authoritative support to the use of conception control methods as a means of planning the size of the family.

MODERN CONTRACEPTIVE TECHNIQUE presents a concise and compact survey of methods commonly used. There are notes on methods which have medical approval, and also on others which are medically contra-indicated.

FOR THE USE OF PATIENTS

PLANNED FAMILIES contains an explanation of contraceptive techniques, written in non-technical terms. Any number of copies will be supplied to doctors for distribution to their patients.

Read what the experts say

about the Series 2 Victors

The Autocar Road Test Report.

"It is a compact but roomy four seater, with very large luggage locker; it is quite lively and economical, and easy to drive. Handling qualities are above average in its class, and it has good brakes. This Victor is a very satisfactory choice for family motoring"

The Motor Road Test Report.

"... the Victor was one of the most untiring of orthodox cars to drive on a long journey which has come the way of 'The Motor' for some time. . . . Great pains have obviously been taken to ensure silence, the engine being exceptionally quiet for a car of this class"

Sunday Times, Ian Nickols.

"It goes along twisty roads almost like a little sports car . . . Above all, the steering itself is positive and at the same time finger-light, so that women like it for shopping as much as experienced drivers of either sex appreciate its accuracy at speed."

That is what *professional* critics say, but it's your own opinion that matters most to you. Put one of these Series 2 Victors through its very lively paces over your own favourite route. You'll find yourself in enthusiastic agreement with the experts.

See them at your Vauxhall dealers today. Try them too.

Evening News, W. R. Paulson.

"Already over 150,000 Victors have been built and sold. With the added smartness afforded by the new—and let it be added, British—lines, I do not doubt that the Victor will be an even greater success in the second stage than it was in the first."

Daily Mail, Courtenay Edwards.

"... a good looking, reliable car, easy to drive, comfortable to ride in with a top speed of around 75 miles an hour and the ability to do more than 30 miles to the gallon."

Manchester Guardian.

"... extremely easy and safe to drive. The roadholding, steering and brakes could not be faulted"

Evening Standard, Robert Walling.

"Petrol consumption worked out at 35 miles to the gallon. More sedate handling would certainly improve this figure to nearer 40."

*Victor de Luxe—Vauxhall's new luxury car.

Everyone drives better in a Vauxhall

Vauxhall Motors Limited • Luton • Beds.

The Case of the Tidy Corpse

An odd corpse or two around the house is one thing; but when your better half finds herself knee deep in crime she is liable to take a sudden passionate interest in the vegetable garden. If you find she has prepared an onion bed 6 feet long by 2 feet wide and 6 feet deep, it's time to stand well back from high cliffs, or you may well end up with policemen drawing chalk lines round the body—*your* body.

You have been warned. Don't risk it. Today (for it may well be later than you think) buy a Minty bookcase...and put your murderers where they ought to be—'Inside'—condemned to stay neat, tidy and dust-free for life. Your wife will admire the elegant prison, which can expand to take in the entire criminal fraternity. What's more, she'll plant onions in the onion bed.

Minty bookcases are *sectional* and may be started from as little as £9.2.0—on deferred terms if you prefer. Only at Minty showrooms can you see and buy Minty bookcases (and furniture); only by this *direct* selling from Minty to you can Minty offer you such fine furniture at such moderate prices. There are seven Minty showrooms each within reasonably easy reach of most people, but if for any reason you can't call, Minty will be glad to send you a catalogue and particulars of post orderings. Write to Dept. B.4. Minty Ltd., 44-45 High Street, Oxford.

MODERN TRENDS IN PATHOLOGY

Edited by DOUGLAS H. COLLINS, O.B.E., M.D.(L'pool), F.R.C.P.(Lond.).
 Pp. x+334+Index. 135 illustrations. 70s. net, by post 1s. 9d. extra.

This work is designed to stimulate interest for the pathologist of every category not only in his particular topic but in branches other than his own where new progress is being made. The whole is written with great freedom of style and breadth of view and it offers a clear, stimulating and up-to-date account of modern pathological progress which will serve both as a guide and as a source of reference for future studies.

A SYSTEM OF ORTHOPAEDICS AND FRACTURES

By A. GRAHAM APLEY, M.B., B.S., F.R.C.S.
 Pp. viii+357+Index. Standard Edition, 47s. 6d. Alternative Edition, interleaved with blank pages, 67s. 6d. By post 1s. 9d. extra.

This work states clearly the essentials of orthopaedic diagnosis and treatment. It will be valuable to those whose work demands a quick means of reference to orthopaedics—such as house surgeons and casualty officers—and all who are studying the subject.

For those who want to add their own notes, there is an alternative edition interleaved with blank pages.

RADIOISOTOPE TECHNIQUES IN CLINICAL RESEARCH AND DIAGNOSIS

By N. VEALL, B.Sc., F.INST.P., and H. VETTER, M.D.
 Pp. xii+404+Index. 74 Illustrations. 50s. net, by post 1s. 9d. extra.

Although there has recently been some easing of the restrictions on the use of isotopes, the medical profession generally is not aware of their immense value, particularly diagnostically. This book covers the fundamental principles of isotope methods, instrumentation and clinical applications, representing the accumulated knowledge and experience of a decade of intensive research, development and therapeutic application.

" . . . can be strongly recommended as one of the best of its kind to all clinicians who want to use isotopes in the investigation of their patients."—*The Lancet*.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent **★**testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) **HOUSE OFFICERS**:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Any advertisements appearing in this issue for posts in the hospital service which quote the rates of salary which obtained before the recent percentage increases are published on the assumption that the employing authorities will make the necessary adjustments.

(29/12/58)

PRACTICES (Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

NATIONAL HEALTH SERVICE ARGYLL AND BUTE EXECUTIVE COUNCIL

Applications are invited from registered medical practitioners to succeed to a vacant practice in the County of Argyll centred on Lochgilphead and Ardriahig and extending into the surrounding area. List at March 1, 1959, 1,468. Good mileage payment. Previous doctor's house available for purchase. Applications, stating age, qualifications and experience, together with copies of not more than two testimonials (if available), and the names and addresses of two referees, should be lodged with the undersigned, from whom further details of the practice may be obtained, not later than April 18.—J. W. Shankland, Clerk, Argyll and Bute Executive Council, Queen Street, Dunoon, Argyll. (6298)

PRACTICES (Offered)

EMIGRATING TO CANADA? EXCELLENT opportunity available immediately in lucrative partnership, small town in Northern Ontario. Ideally suited to man with good surgical experience, but this qualification not essential.—Box PR.2593, B.M.J.

PRACTICES (Exchange)

EXCHANGE. SOUTH DEVON SEASIDE Resort, single-handed Practice, N.H.S. 2,400, some midwifery. Delightful house and garden. Exchange for practice in or near Malvern. Reason: School.—Box PR.2564, B.M.J.

PRACTICES (Wanted)

LONDON PARTNERSHIP WITH VIEW TO succession required. Capital available for house purchase.—Box PR.2595, B.M.J.

PARTNERSHIPS (Offered)

JUNIOR PARTNERSHIP OFFERED IN SUTTON Coldfield to well-qualified male. Initial share £2,500, increasing to equality. There is a G.P. hospital in the area.—Box PA.2563, B.M.J.

ASSISTANTSHIPS VACANT

SOCIETY OF APOTHECARIES OF LONDON
(M.M.S.A.)

The Mastery of Midwifery is designed to give evidence of intensive study and practical experience in Ante-natal Care, Midwifery, and Child Welfare and their relation to Hygiene and Preventive Medicine. The possession of this Diploma will prove of value in private practice and also to candidates for appointments involving the special work described in the preceding paragraph. The tests imposed are stringent; the Examination, written, oral and clinical, demands thorough and detailed knowledge gained by practical experience, and constitutes a definite endeavour to combat Maternal and Infant Mortality. Examinations are held twice yearly, in the months of May and November. Regulations and forms of application for admission to the Examination may be obtained from the Registrar, the Society of Apothecaries, Black Friars' Lane, E.C.4.

THE UNIVERSITY OF LEEDS

PART-TIME COURSE FOR THE DIPLOMA
IN PUBLIC HEALTH

A Course for the Diploma in Public Health will commence in October, 1959. Instruction will be part-time and will occupy five academic terms. Candidates holding part-time Public Health appointments or with previous whole-time Public Health service may be granted exemption from some of the practical Public Health work, so reducing the whole-time study to approximately two days a week. Candidates are asked to apply as soon as possible to the Secretary, School of Medicine, Thoresby Place, Leeds, 2. (5323)

THE UNIVERSITY OF SHEFFIELD

Courses of Instruction for the Diplomas (of the English Conjoint Board) in Medical Diagnostic Radiology (D.M.R.D.) and Therapeutic Radiology (D.M.R.T.) will commence in October, 1959. The courses will cover a period of two years of whole-time study, and the fee for each course is £60. Applications to attend should be sent to the Dean of the Faculty of Medicine, the University, Sheffield, 10. (5641)

RIKER

You can treat
iron deficiency
anaemia better
if you prescribe

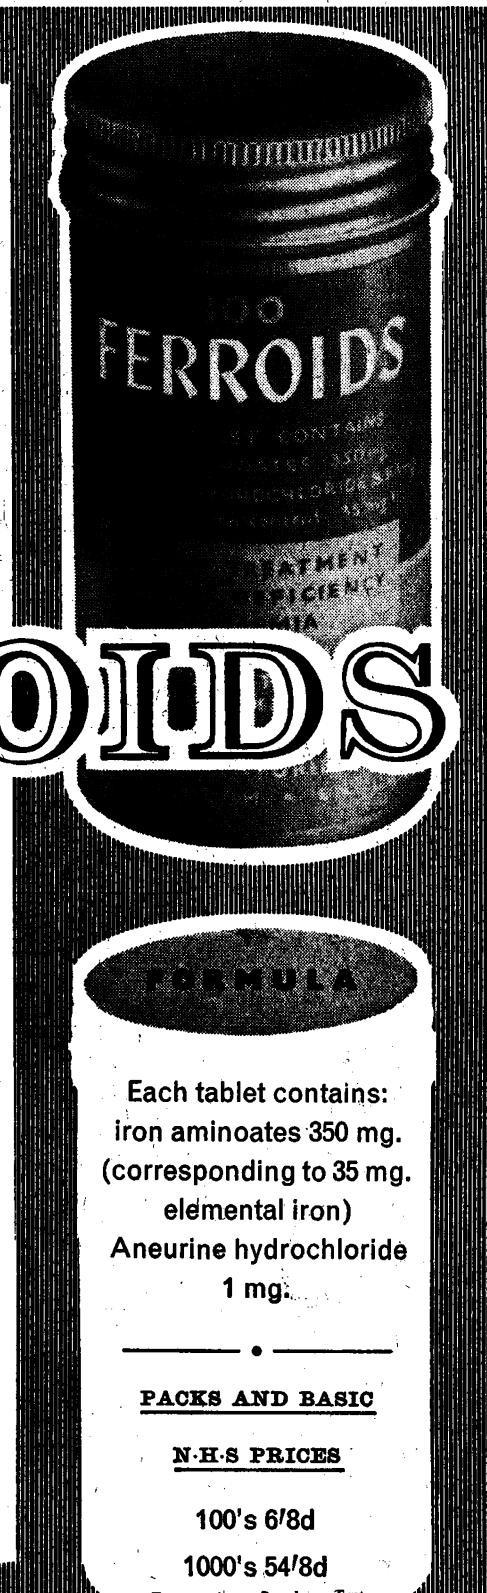

FERROIDS

Virtually fulfils the requirements
for the ideal haematinic. High
utilization of iron. Exceptional
freedom from side effects

Each golden yellow tablet contains 350 mg.
of iron aminoates. This interesting new
compound is produced by chelating iron with
amino acids. The presence of amino
acids profoundly affects the absorption of iron
and they are responsible for the unique
properties of 'Ferroids'.

**DOSE 1 TO 2 TABLETS THREE TO FOUR
TIMES A DAY.**

Treatment with 'Ferroids' is relatively
inexpensive. The basic N.H.S. cost of 1 week's
treatment is 1/2 to 3/1, based on the large
pack of 1,000.

Each tablet contains:
iron aminoates 350 mg.
(corresponding to 35 mg.
elemental iron)

Aneurine hydrochloride
1 mg.

PACKS AND BASIC

N.H.S. PRICES

100's 6/8d

1000's 54/8d

Exempt from Purchase Tax.

'FERROIDS' is a registered trade mark of
