## Neutrogena

**A COMPLETELY NEUTRAL SOAP  
OF EXCEPTIONAL PURITY**

Neutrogena is well tolerated in conditions where  
previously the use of ordinary soaps has been virtually  
impossible. As neutral as pure water and completely  
free from both acid and alkali content, Neutrogena  
cleanses and revives delicate skins without fear of  
aggravating. That is why Neutrogena is strongly  
endorsed by dermatological as well as other accepted  
authorities as much for personal use as for clinical.  
It is also extremely pleasant to use. If you have not  
yet read the medical literature available may we send  
you a copy together with professional samples?

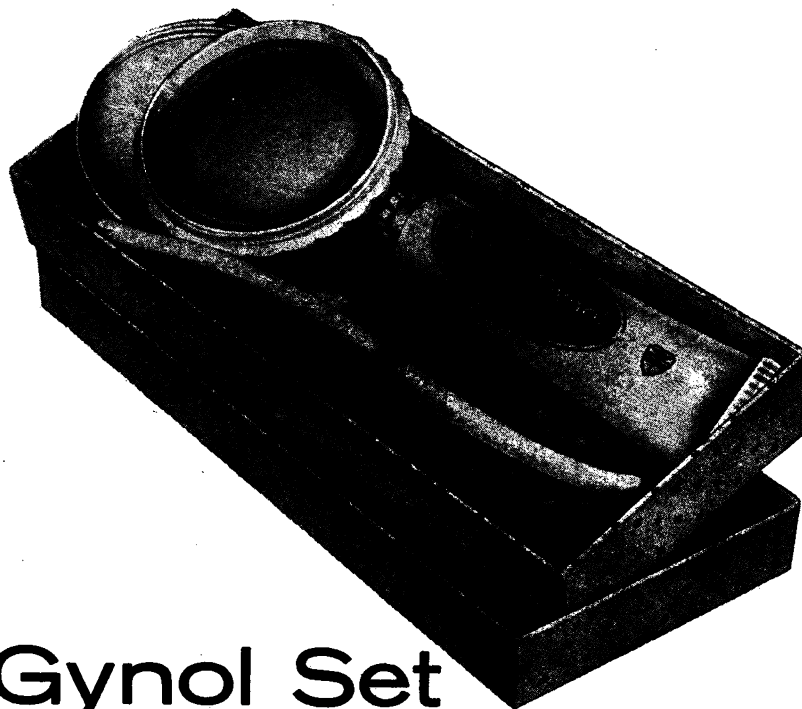

*An account of  
the use of  
Neutrogena  
appeared in the  
B.M.J. (June 6,  
1956, p. 1525).*

**SENOKOT IN OBSTETRICS**

"For three years . . . I have found it unnecessary to prescribe any other laxative than standardized senna ('senokot') . . . The pregnant woman has a choice . . . of chocolate granules or tablets. And she can go on taking it nightly without ill effect".

*Extract of letter: British Medical Journal, 1957, 2, 1438*

**SENOKOT FOR THE NURSING MOTHER**

"A laxative must be entirely safe for both mother and baby and should not adversely affect nutrition or lactation performance or be excreted in breast milk. Standardized senna (Senokot) meets these requirements".

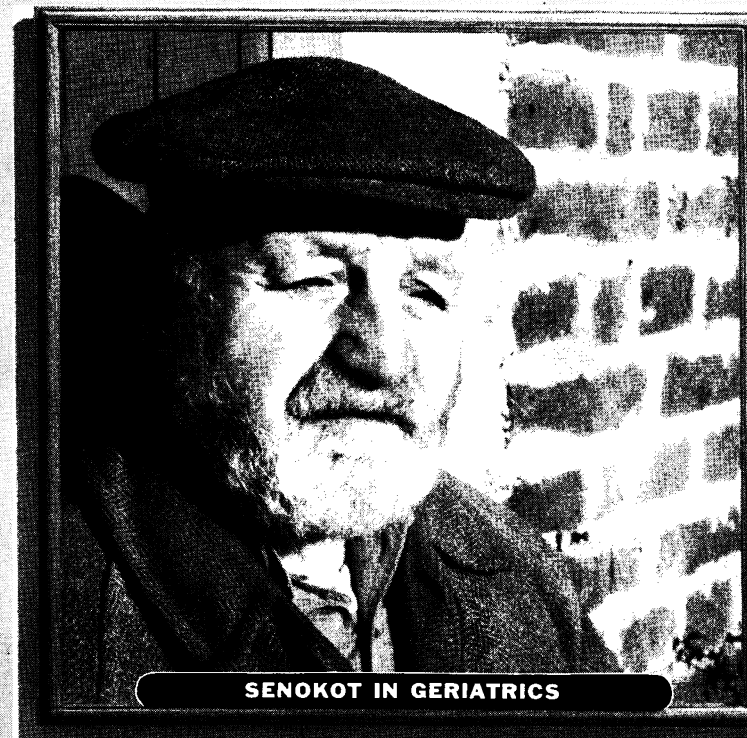

*Pharm. J., 1958, 181, 337*

**SENOKOT IN PAEDIATRICS**

"For some years we have used a standardized preparation of senna (Senokot) in the treatment of children with stubborn constipation. The usual dose is one teaspoonful nightly and this is gradually reduced and eventually discontinued".

*"Surgery in Infancy and Childhood" (1958), Livingstone, Edinburgh, p. 196*

**SENOKOT IN GERIATRICS**

"The new standardized preparations of senna (Senokot) . . . do not cause pain or even abdominal discomfort, and there is never any incontinence. The need for enemata is reduced—a great advantage when dealing with aged patients".

*"Hernia in the Aged" Medical World, 1955, 83, 318*

# FOR THEIR SAFETY

Acute bronchitis, whooping cough and the respiratory complications of measles bring the possibility of structural damage to the lungs or bronchi. Early decision on the need for chemotherapy involves very precise clinical judgment but selection of a suitable antibiotic is much simpler. Terramycin is effective against the vast majority of common organisms including *H. influenzae* and *H. pertussis*. No antibiotic is better tolerated or accepted by infants.

# The simple HAY FEVER treatment

## PREDSOL<sup>TRADE MARK</sup> NASAL DROPS

### produce a distinctive clinical response\*

Predsol Nasal Drops are a stable, crystal-clear, true solution of 0.1% prednisolone phosphate, the most soluble prednisteroid. Two thousand times more soluble than hydrocortisone or prednisolone itself, Predsol achieves the most rapid and most thorough contact with affected tissues after topical application, so producing maximum therapeutic effect.

*Predsol Nasal drops are simply administered, and two drops instilled into each nostril four times a day produce a distinctive clinical response in most cases of hay fever.*

\* *Brit. Med. J.*, 1958, 1, 969.

### Gradual, 3-stage pattern of soluble corticoid relief

-  Relief of nasal obstruction.
-  Episodic attacks become milder and shorter, then cease.
-  Threshold of irritability of nasal mucosa gradually returns to normal

*Predsol Nasal Drops are issued in bottles of 10 ml*

# PREDSOL

# **putting on weight**

*in a safe and unobjectionable way...*

and without drugs is to provide an attractive, readily assimilable dietary supplement of high calorie value. Wate-on does this by incorporating large amounts of a vegetable oil which is rich in readily assimilable, highly unsaturated fatty acids, and glucose which is the most easily assimilated type of carbohydrate. The physiological advantages of these two materials have been firmly established by medical research.

Wate-on is also rich in lecithin which, in addition to its basic calorie value, is also of high physiological value.

Wate-on is further supplemented by the more important vitamins and minerals.

#### FORMULA

<i>Each ounce of WATE-ON contains</i>		Vitamin B <sub>2</sub> Riboflavin .....	1.0 mg.
Corn (Maize) Oil .....	33.0%	Vitamin B-1 .....	0.4 mg.
Glucose .....	16.5%	Calcium Pantothenate .....	0.4 mg.
Lecithin .....	11.0%	Vitamin B-6 .....	0.03 mg.
Iron (as ferrous gluconate) .....	3.2 mg.	Vitamin D-2 .....	100 I.U.
Nicotinamide .....	2.0 mg.	Vitamin B-12 .....	4.2 mc.g.

Wate-on is a homogenized fat emulsion, which means that it is in a very easily assimilable physical condition. To sum up, Wate-on is based on the latest results of medical research. Clinical trials have shown that with both ordinary and post-operative patients the regular ingestion of Wate-on was followed not only by gain in weight but also the general health was improved. No side effects were reported.

# STELAZINE

**an essential advance**

**in chronic**

In a trial of 'Stelazine' conducted in sixty chronic schizophrenics who had been ill for 1—32 years, 'improvement became noticeable approximately ten days after commencement of treatment. This was most striking in the fading of hallucinations, cessation of impulsiveness, an awakening of interest, a desire to take part in occupations and recreations of various kinds'.

*J. ment. Sci.* (1958), **104**, 1195-98.

**and acute**

'A similar pattern of response was found as with chronic patients, except that the response was more of a total one and all groups of symptoms tended to disappear more simultaneously. In those who had lost it, insight returned at a very early stage . . . Trifluoperazine would appear to be a cheaper and more pleasant method of treating acute paranoid schizophrenia than I.C.T., and just as effective, if not more so.'

*Brit. med. J.* (1959), **i**, 549-550.

# SCHIZOPHRENIA

*For thousands of chronic bronchitics and asthmatics*

**FRESH AIR IS**

**BENGER**

BENGER LABORATORIES LIMITED • HOLMES CHAPEL • CHESHIRE

# NOT FREE

Air is neither fresh nor free for most chronic bronchitics and asthmatics. They have to pay dearly for the polluted atmosphere of the towns and cities in which they live. Breathing causes them great effort—the strain on lungs and heart may eventually lead to emphysema, cor pulmonale and total incapacitation.

• **• LOMUDASE** cannot remedy the social problem of polluted air. But it is an effective mucolytic for all chronic bronchitics and asthmatics. Within minutes Lomudase loosens mucus plugs, reduces bronchospasm and saves the chronic bronchitic and asthmatic from the exhaustion of ineffective coughing. Lomudase removes the nidus for reinfection and reduces the hazards of recurrent exacerbations. The patient can return to work sooner and keep on working. Moreover, he now has effective treatment on hand wherever and whenever he needs it.

• **• LOMUDASE** is a revolutionary presentation of the enzyme chymotrypsin. Prepared as an ultra-fine powder of 2 to 6 mu particles homogeneous by weight, Lomudase penetrates evenly to the distal parts of the respiratory tract. Its effect on pulmonary ventilation is further enhanced by the presence of an effective bronchodilator isoprenaline. Lomudase acts in the most efficient way—topically at the sites of the disease-process.

• **• LOMUPREN** is a similar ultra fine homogeneous presentation of isoprenaline for use when bronchodilation alone is required. It produces maximum bronchodilation almost immediately. The effective dose is so minute that Lomupren can be used repeatedly without discomfort: tolerance does not develop. Both Lomudase and Lomupren may be used in conjunction with conventional antibiotic, antihistamine or steroid therapy.

• **• THE LOMULIZER** is a simple, foolproof pocket dispenser which ensures that Lomudase and Lomupren are delivered only when a suitable inspiratory effort is made.

LOMUDASE AND LOMUPREN may be prescribed under the National Health Service. The LOMULIZER until June 1st is obtainable by the patient at the retail price of 12/4½d.

## The Lomulizer—

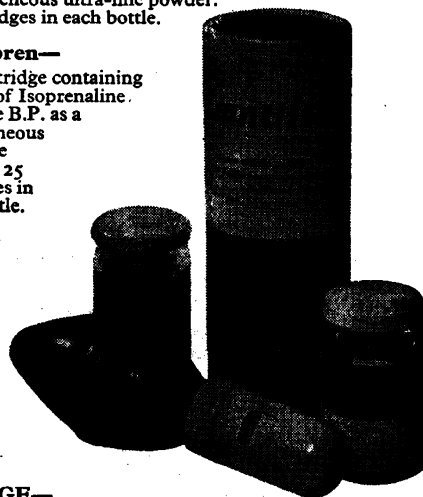

Complete with carrying pouch and comprehensive instructions.

## Lomudase—

each cartridge containing 0.01 Anson units of chymotrypsin and 0.1 mg. of Isoprenaline Sulphate B.P., as a homogeneous ultra-fine powder. 25 cartridges in each bottle.

## Lomupren—

each cartridge containing 0.1 mg. of Isoprenaline Sulphate B.P. as a homogeneous ultra-fine powder. 25 cartridges in each bottle.

## DOSAGE—

*depends on individual requirements and will vary from time to time in the same patient.*

**When expectoration is difficult**  
one cartridge of LOMUDASE on waking, and one or two more according to requirements, during any 24 hour period.

**When bronchospasm persists**  
two to four LOMUPREN cartridges, in addition to the Lomudase may be used in 24 hours.

**When bronchospasm alone occurs**  
two to six LOMUPREN cartridges daily as required.

## LOMUDASE • LOMUPREN

## Plaster of Paris Bandages

### ARE STRONGER

Extensive tests under varying conditions have proved beyond doubt that Velroc Bandages produce the strongest casts.

### MORE ECONOMICAL

Greater cast strength from each yard of Velroc Bandage means fewer bandages required — so cast making is quicker.

### CLEANER, NON-IRRITANT

Velroc Bandages are much cleaner and more pleasant to use because the creamy plaster adheres so well to the cloth that only a negligible amount is wasted. Velroc Bandages contain no irritating resins.

### AND THEY COST NO MORE!

With all these extra advantages, Velroc Bandages are no dearer than ordinary bandages.

THE WORLD'S MOST TRUSTED NAME IN SURGICAL DRESSINGS

British Oxygen equipment and gases...

The PNEUMOTRON  
an "electronically  
controlled" resuscitator

The Pneumotron is an electronically controlled breathing apparatus originally designed for promoting and sustaining breathing in new-born infants, and which has now been developed for treating adult patients. It can be operated as a 'patient triggered' or fully automatic resuscitator. The slightest inspiratory effort of the patient will 'trigger' the apparatus to follow the breathing rate and respiratory pattern of the patient.

The Pneumotron will change over automatically to cycle at a preset rate and pressure should breathing cease altogether. Alternatively, the control can be set at fully automatic to give a continuous breathing cycle.

Please write for fully illustrated literature to British Oxygen Gases Limited, Medical Division, Great West Road, Brentford, Middlesex.

# Midicel

**SUSTAINS THERAPEUTIC SULPHONAMIDE LEVELS FOR 24 HOURS**

**WITH ONE DOSE DAILY**

Midicel\* has important clinical advantages. It is rapidly absorbed: therapeutic blood levels are promptly reached. It is slowly excreted: a single dose produces therapeutic blood levels for at least 24 hours. It is safe: because Midicel is relatively soluble in both free and acetylated forms, crystalluria has not been a problem.

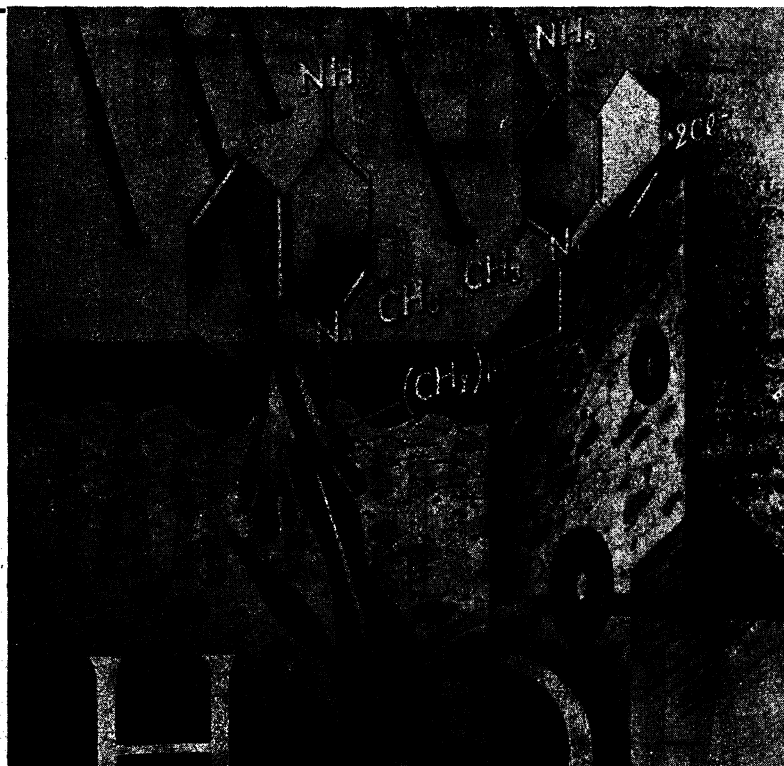

Midicel is clinically effective in a variety of infections due to sulphonamide-sensitive bacteria.

Midicel (sulphamethoxypyridazine) in tablets of 0.5 G. Packaging: bottles of 12, 100 and 250.

# NEW, POTENT ANALGESIC FOR ORAL ADMINISTRATION

Potent as morphine in relieving pain, the new 'Pipadone' Compound Tablets may be given by mouth. Each tablet contains the analgesic dipipanone hydrochloride, 25 mgm., with the powerful anti-emetic cyclizine hydrochloride, 50 mgm. The incidence of side-effects is substantially lower than with orally-administered morphine or other narcotics. Vomiting is unlikely, nausea uncommon, sedation rare. 'Pipadone' Compound Tablets are indicated in practically all types of severe pain. The usual dose is  $\frac{1}{2}$  to  $1\frac{1}{2}$  tablets, relief being obtained within an hour and extending to 4-6 hours. 'Pipadone' Compound Tablets are subject to D.D.A.

 **VITAMINS LIMITED**

UPPER MALL, LONDON, W.6.

A baby's first solids too often increase his intake of starches at the expense of the valuable milk proteins and minerals he still needs from milk. Trufood Cereal obviates this harmful trend by supplementing the vegetable protein with milk protein and bringing the total protein up to 6.05 gm. per ounce or 21.4%. When the baby's need for additional calories forces a revision in the ratio of liquids to solids, Trufood Cereal Food provides the simplest and most satisfactory way of doing this. It reconstitutes with milk or water to form a creamy fluid which is simple for the mother to prepare and attractive for the baby to take. Further information can be obtained from Trufood Limited, 113 Newington Causeway, London, S.E.1.

## Anxiety adds to angina

Neither exercise restriction nor drug treatment to produce coronary vasodilatation can be expected logically to produce completely effective protection in the "heart-conscious" anginal patient if the emotional factor is ignored.

Equatrate gives your patient this complete and safe protection because it controls the fear, frequency and severity of attacks. Combining the safe, selective sedative meprobamate with

long-acting pentaerythrityl tetranitrate, Equatrate provides better protection than with either drug alone and leads to a more normal life with increased exercise tolerance.

## EARLY VARICES

**"It's my legs, doctor—they get so tired these days"**

The new Nylastik stockings which can now be prescribed on N.H.S. give a degree of support hitherto unobtainable in any lightweight elastic yarn hosiery.

Their introduction has led to a new conception

of the lightness and aesthetic appearance that can be successfully combined with efficient compression and durability.

In cases of early varices for which elastic hosiery is prescribed, Nylastik stockings are notably successful. They are particularly suitable for pre-natal wear. In many other cases the compression they give may prove entirely sufficient.

The patient gains the support that you wish her to have, yet is spared the embarrassment of revealing that she wears elastic stockings.

Does it offer any special advantages over 'Saluric'?

*Well, I've found it effective in some patients  
who still required injections. I've been prescribing  
'Saluric' for over a year with excellent results,  
and so feel quite confident about using  
'HydroSALURIC' in such cases.*

That's very interesting. Certainly if 'Saluric' is  
anything to go by, 'HydroSALURIC' must be  
good. I have one or two poorly responsive cases who  
would be very pleased to be taken off injections.

*'Saluric': 0.5 G. tablets.*

*'Hydrosaluric': 25 mg. and 50 mg. tablets.*

*'Saluric' and 'Hydrosaluric' are trademarks.*

*'HYDROSALURIC' trademarks outside of the United Kingdom:  
'DICHLOTRIDE'; 'DICLOTRIDE'; 'HYDRODIURIL'*

# RASTINON

*Complete oral control  
without side-effects  
for thousands of diabetics*

## EFFECTIVE

Over 1,000 published articles substantiate the clinical value of Rastinon (tolbutamide). Thousands of patients have been effectively controlled for more than three years.

## SAFE

No cases of dyshaemopoiesis, jaundice or other serious side-effects have been reported. Analysis of over 10,000 case histories shows Rastinon to be completely safe for suitable diabetics.

Rapid excretion precludes cumulative effects. The significant difference between Rastinon and all other available anti-diabetic agents is that there is virtually no danger of hypoglycaemic reactions as a result of Rastinon therapy.

## SIMPLE

One tablet by mouth once or twice a day is all that is necessary for maintenance. There is no added cost of treatment for the patient previously on insulin.

# FOR THE MANAGEMENT OF *intractable pain*

NEW to Great Britain,  
but in wide use on the  
continent, PALFIUM  
was isolated after in-  
tensive screening of  
hundreds of compounds  
and is now available to  
the medical profession.

## **Palfium**<sup>\*</sup> (M.C.P.875)

### ADVANTAGES

Acts swiftly and effectively without clouding  
consciousness or reducing mental activity.  
Equally effective by oral or parenteral route.  
Does not cause constipation or diarrhoea.  
Limited risk of tolerance or addiction.  
Extremely low chronic toxicity.

### INDICATIONS

Severe pain of inoperable carcinoma, severe  
colic and other forms of intractable pain.

### PRESENTATION

Tablets : 5 mg. in packs of 25 and 100  
Ampoules : 5 mg. in packs of 10 and 100  
10 mg. in packs of 10 and 100

## Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, *the entire Vitamin B Complex should always be administered concurrently.*

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

- *Aluzyme is not advertised to the public and may be prescribed on Form E.C.10*

**ALUZYME**  
*The NON-AUTOLYSED YEAST*  
with completely available Vitamins.

## in PERTUSSIS

*"the most deadly  
of the common notifiable diseases  
of infancy"*

A palatable liquid preparation of Chloromycetin, Suspension Chloromycetin Palmitate is absorbed as quickly and as fully as the capsule form of this antibiotic. Administered in the early stages of pertussis, Suspension Chloromycetin Palmitate is effective in reducing the incidence of complications and the mortality rate.

## SUSPENSION CHLOROMYCETIN PALMITATE

CHLORAMPHENICOL

Suspension Chloromycetin Palmitate is also indicated in other paediatric infections, among them resistant staphylococcal pneumonia, laryngo-tracheo-bronchitis, acute bronchiolitis, acute infantile gastroenteritis, urinary tract infection.

*Each teaspoonful contains the equivalent of 0.125 g. Chloromycetin. Supplied in bottles of 60 c.c.*

# It's a matter of National Importance...

that pharmaceuticals prescribed under the National Health Service should be economical in price. And in this respect, Fletchers' 'Effico' tonic need not fear comparison with any equivalent preparation. Its basic cost to the National Health Service is only 2/2½d. for an 8 fl. oz. bottle. 'Effico' tonic presents a well-balanced combination of vitamins, traditional stimulants and bitter stomachics in a pleasantly flavoured syrup base. It has proved a reliable restorative for the convalescent, the over-worked and the aged, and in post influenzal and similar conditions.

## THE EFFICO FORMULA

<i>Aneurine Hydrochloride B.P.</i>	1 mgm.
<i>Nicotinamide B.P.</i>	12 mgm.
<i>Tincture of Nux Vomica B.P.</i>	12 min.
<i>Caffeine Citrate B.P.C.</i>	4 grs.
<i>Tincture of Orange B.P.</i>	8 min.
<i>Tincture of Lemon B.P.</i>	4 min.
<i>Compound Infusion of Gentian B.P.</i>	200 min.
<i>Dilute Hydrochloric Acid B.P.</i>	4 min.
<i>Syrup B.P.</i>	to 1 fl. oz.

'Effico' Tonic is a Category 3/4 medicine and is available for prescription on Form E.C.10.

The role of

**DEGRANOL**  
MANNOMUSTINE (B.C.M.)

in the treatment  
of malignant disease

'DEGRANOL' is a new cytostatic agent first prepared by Prof. L. Vargha of Hungary. Composition, 1, 6-bis (beta chloroethylamino)-1, 6-desoxy-D-mannitol-dihydrochloride.

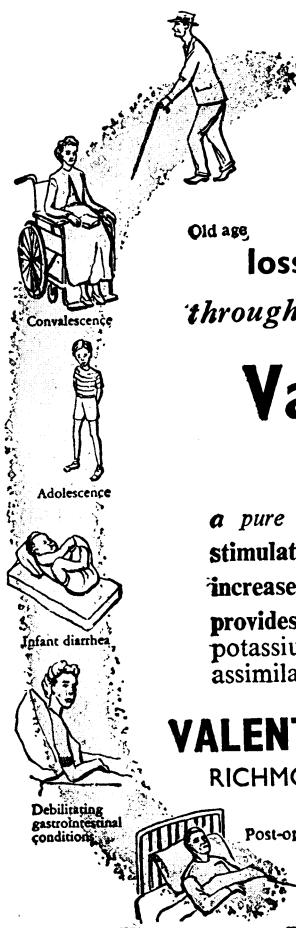

Extensive clinical trials with 'DEGRANOL' have yielded very favourable results in the treatment of malignant disease of the haemopoietic and lymphatic systems.

'DEGRANOL' is remarkably free from side effects. It is available in 50 mg. ampoules and is administered by intravenous injection.

For full information, literature, references etc. apply to the sole U.K. distributors for CHINOID, BUDAPEST

or three times daily.

*running noses...  
and nasal congestion  
orally with*

**'Triominic'**

**WANDER**

**THE NEW CONCEPT FOR RELIEF OF  
THE COMMON COLD**

**Relief in minutes—lasts for hours**

An orally administered decongestant has much better distribution to the mucous membranes of the respiratory tract than nasal sprays, drops and inhalants, and this "affords opportunity for shrinkage in areas that could not be approached by sprays, drops or actual topical application."\*

'TRIOMINIC' "dries" and decongests nasal passages, combats allergic symptoms—with little likelihood of rebound congestion or pathological changes in the nasal mucosa, and without the risk of local overtreatment or "nose drop addiction." Especially valuable for night-time cough caused by postnasal drip.

\* Arch. Otolaryng., 1954, 59, 48.

Each "timed-release" 'TRIOMINIC' Tablet contains

Phenylpropanolamine-HCl .. 50 mg.  
Mepyramine maleate B.P. .. 25 mg.  
Pheniramine maleate .. 25 mg.

'Triominic' Wander is Schedule 4

**Dosage:** 1 tablet in the morning, afternoon and in the evening if needed. An average prescription is 12 tablets.

**Packs:** Supplied for dispensing in bottles of 50 and 250.

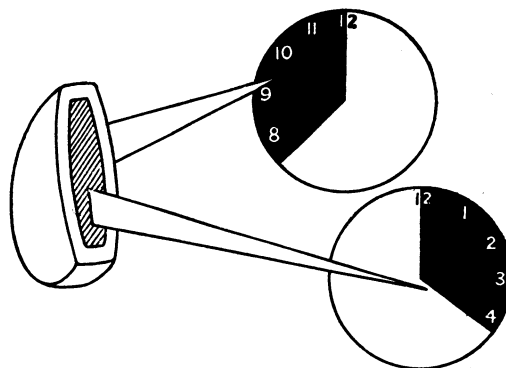

**Price:** N.H.S. Basic Price for 12 tablets (4 days' treatment) is 2s. 1d.

**Also Available:** 'Triominic' Syrup, for children and those adults who prefer a liquid medication, in bottles of 2 fl. oz. and 20 fl. oz. (dispensing). N.H.S. Basic Price for 2 fl. oz. is 2s. 6d.

**'Triominic' "timed-release"  
tablets provide relief in minutes  
... keep nasal passages clear  
for 6 to 8 hours.**

**FIRST**

the outer layer dissolves within minutes to produce 3 to 4 hours' relief

**THEN**

the inner core disintegrates to give 3 to 4 more hours' relief

**THUS**

3 tablets daily "unblock around the clock"

Literature and sample on signed request (S4) of physicians only

## *How well do you know the Concerto in E $\flat$ ?*

*... or any other famous work? Do you know every grace note—every subtle change in harmony? If you do, you are either an expert score reader, a regular concert-goer or the owner of an Avantic DL7-35 Power Amplifier.*

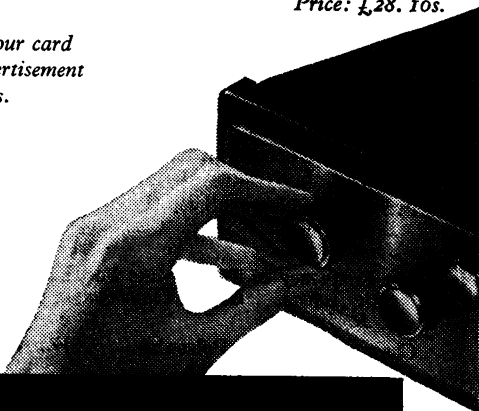

This amplifier has been acclaimed by the critics (see *The Gramophone*, October 1956 and *Gramophone Record Review*, April 1957) as being faultless in design, construction and performance. It has a peak power output of 54 watts and a distortion content of less than 0.05% at 20 watts sine wave output. The power response at this level is linear from 30 c/s. to 20 kc/s. With a damping factor of 50 and a rise time of only 5 microseconds, an excellent transient response is assured.

*Price: £33*

The Avantic SP21 Stereophonic Pre-amplifier Control Unit is now available for use with either one or two DL7-35 Amplifiers for monophonic or stereophonic reproduction. It has 6 separate inputs for each channel and 9 controls.

*Price: £28. 10s.*

*Please send your card

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

#### Other Grades, Whole-time

##### (a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £600 12s. per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

### ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Any advertisements appearing in this issue for posts in the hospital service which quote the rates of salary which obtained before the recent percentage increases are published on the assumption that the employing authorities will make the necessary adjustments.

(29/12/58)

**Psychiatry—contd.****LEEDS REGIONAL HOSPITAL BOARD****SENIOR REGISTRAR IN PSYCHIATRY**

for duties initially at Scaleshall Park Hospital, Burley-in-Wharfedale, Ilkley (396 beds), and associated hospitals. This hospital, which has an active treatment policy and to which 600 cases are admitted each year to free amenity and private beds, is associated with the Department of Psychiatry, University of Leeds. This post is included in a scheme which is designed to provide maximum facilities for advanced study and training, and the person appointed may be seconded at a later date to another hospital within the region in order to gain further experience. A small unfurnished house is available in the hospital grounds. Candidates for this appointment must hold the D.P.M. or equivalent qualifications. Applications, stating age, qualifications, and details of present and previous appointments (with dates), together with the names and addresses of three referees, to the Secretary, Joint Registrars Committee, Park Parade, Harrogate, by April 22, 1959. (6523)

**LEEDS REGIONAL HOSPITAL BOARD**

The Board, in association with the Department of Psychiatry of the University of Leeds, wishes to encourage applications from doctors suitable for training in Psychiatry, who wish to take a D.P.M. The Board, therefore, now advertises the under-mentioned Registrarships in Psychiatry, in order that those appointed will be able to enter for the next D.P.M. Course at the University of Leeds, due to commence in October, 1959.

These posts, together with the lectures, seminars, and teaching at the University Department of Psychiatry, offer wide experience in all forms of mental disorder and associated subjects.

**Vacant posts:**

(i) Clifton Hospital, York (1,100 beds), situated two miles from the City Centre of York. Resident or non-resident accommodation available for single person.

(ii) Storthes Hall Hospital, Huddersfield (2,750 beds). Resident. Married and single accommodation available.

Candidates may visit any hospital by direct arrangement with the Physician Superintendent thereof, who will be pleased to supply further information.

The details of the Course and the requirements for the Leeds D.P.M. may be obtained from the Sub-Dean, The Medical School, Thoresby Place, Leeds, 2.

Applications, stating age, qualifications, and details of present and previous appointments, with dates, together with the names and addresses of three referees, should be sent to the Secretary, Joint Registrars Committee, Park Parade, Harrogate, by April 29, 1959. (6951)
