## NOT FREE

Air is neither fresh nor free for most chronic bronchitics and asthmatics. They have to pay dearly for the polluted atmosphere of the towns and cities in which they live. Breathing causes them great effort-the strain on lungs and heart may eventually lead to emphysema, cor pulmonale and total incapacitation.

• LOMUDASE cannot remedy the social problem of polluted air. But it is an effective mucolytic for all chronic bronchitics and asthmatics. Within minutes Lomudase loosens mucus plugs, reduces bronchospasm and saves the chronic bronchitic and asthmatic from the exhaustion of ineffective coughing. Lomudase removes the nidus for reinfection and reduces the hazards of recurrent exacerbations. The patient can return to work sooner and keep on working. Moreover, he now has effective treatment on hand wherever and whenever he needs it.

LOMUDASE is a revolutionary presentation of the enzyme chymotrypsin. Prepared as an ultra-fine powder of 2 to 6 mu particles homogeneous by weight, Lomudase penetrates evenly to the distal parts of the respiratory tract. Its effect on pulmonary ventilation is further enhanced by the presence of an effective bronchodilator isoprenaline. Lomudase acts in the most efficient way-topically at the sites of the disease-process.

- LOMUPREN is a similar ultra fine homogeneous presentation of isoprenaline for use when bronchodilation alone is required. It produces maximum bronchodilation almost immediately. The effective dose is so minute that Lomupren can be used repeatedly without discomfort: tolerance does not develop. Both Lomudase and Lomupren may be used in conjunction with conventional antibiotic, antihistamine or steroid therapy.
- THE LOMULIZER is a simple, foolproof pocket disperser which ensures that Lomudase and Lomupren are delivered only when a suitable inspiratory effort is made.

LOMUDASE AND LOMUPREN may be prescribed under the National Health Service. The LOMULIZER until June 1st is obtainable by the patient at the retail price of  $12/4\frac{1}{2}d$ .

#### The Lomulizer—

Complete with carrying pouch and comprehensive instructions.

each cartridge containing 0.01 Anson units of chymotrypsin and o.1 mg. of Isoprenaline Sulphate B.P., as a homogeneous ultra-fine powder. 25 cartridges in each bottle. Lomupreneach cartridge containing o.1 mg. of Isoprenaline Sulphate B.P. as a homogeneous ultra-fine powder, 25 cartridges in each bottle.

DOSAGE-

depends on individual requirements and will vary from time to time in the same patient.

When expectoration is difficult

one cartridge of LOMUDASE on waking, and one or two more according to requirements, during any 24 hour period.

When bronchospasm persists two to four LOMUPREN cartridges, in addition to the Lomudase may be used in 24 hours.

When bronchospasm alone occurs two to six LOMUPREN cartridges daily as required.

# Established in clinical practice

# RASTINON

Complete oral control without side-effects for thousands of diabetics

**EFFECTIVE** Over 1,000 published articles substantiate the clinical value of Rastinon (tolbutamide). Thousands of patients have been effectively controlled for more than three years.

**SAFE** No cases of dyshaemopoiesis, jaundice or other serious side-effects have been reported. Analysis of over 10,000 case histories shows Rastinon to be completely safe for suitable diabetics.

Rapid excretion precludes cumulative effects. The significant difference between Rastinon and all other available anti-diabetic agents is that there is virtually no danger of hypoglycaemic reactions as a result of Rastinon therapy.

**SIMPLE** One tablet by mouth once or twice a day is all that is necessary for maintenance. There is no added cost of treatment for the patient previously on insulin.

NEW WEAPONS

THE RESEARCH LABORATORY is the very centre of a great pharmaceutical company. Without it no discoveries could be made, no progress would be possible—it is the hub of all activity. For this is where ideas are conceived, experiments carried out, and results evaluated—in the hope that something will come to light to advance the frontier of medical knowledge another step. 300 graduate scientists—chemists, doctors, pharmacists—are employed by Hoechst in Frankfurt on pharmaceutical research alone. They work in ultra-modern laboratories, with all the equipment they could possibly need—inspired by the example of such illustrious predecessors at Hoechst as Emil von Behring and Paul Ehrlich, originators respectively of the first diphtheria antitoxin and Salvarsan.

Hoechst standards, not only in research but also in production, are second to none in the world.

a new presentation of water-soluble

### -Suppositories for the treatment of Proctitis\*

Each suppository presents Predsol, stable, water-soluble prednisolone phosphate in a base designed to ensure maximum surface spread. Being freely soluble in water, Predsol makes much more intimate contact with inflamed tissues than other relatively insoluble forms of prednisolone.

INDICATIONS: Haemorrhagic proctitis, Post-radiation proctitis. Minor degrees of proctitis, as may be associated with haemorrhoids. Treatment may be continued for up to several months according to the condition and response. Indications of systemic effect have not been observed.

THE NOVEL PACK holds six suppositories in the hygienic, easy-to-handle 'cartridge-clip' illustrated. The cap of each 'cartridge' is used to push the suppository partly out of its case from below. Each suppository contains 5 mg prednisolone as water-soluble 21-disodium phosphate.

# "IMPROVED THERAPY FOR PEPTIC ULCER"

Extract reprinted from the American Journal of Gastroenterology, (1957) 28, 439.

"The medication investigated is known as Roter tablets... The dosage employed in the treatment of gastric or duodenal ulcer was 2 tablets, taken three times a day with tepid water immediately after meals... this therapy is applicable to ambulatory patients."

#### SUMMARY

"In a series of 155 cases of peptic ulcer treated with . . . (Roter) tablets for three to six weeks, there was immediate relief of pain in 92 per cent of cases and roentgenological healing of the ulcer in 81 per cent. The average weight gain was 7.9 lbs. and occult blood disappeared from the stools in all of the six cases in which it was found.

"The benefit provided by the medication is attributed to the minute particulation of the bismuth subnitrate, produced by a special process of trituration in association with a synergistic antacid combination.

"The special features of this medication are immediate and prolonged relief of pain, correction of gastric hyperacidity, absence of side reactions, effectiveness for ambulatory patients, and early healing of the ulcer in most cases.

"There was no acid rebound in therapeutic dosage and no adverse effects were reported."

ROTER

FORMULA PER TABLET. Magnesium Carbonate (400 mg.). Bismuth Subnitrate Roter (350 mg.), Sodium Bicarbonate (200 mg.), Rhizoma Calami (25 mg.), and Cortex Rhamni Frangulæ (25 mg.).

# NATURE

'ACTIDIL', most potent of the antibistamines, gives rapid relief of allergies. Young and old patients "out of tune" with nature will be restored by two or three daily doses of 'ACTIDIL' Elixir or 'ACTIDIL' Tablets.

# 'ACTIDIL'

TRIPROLIDINE HYDROCHLORIDE

TABLETS: (2.5 mgm.) in bottles of 25, 100, and 500 ELIXIR: (1 mgm. per fluid drachm) in bottles of 20 fl. oz.

Both for sick children and those who nurse them Dosulfin suspension offers many advantages.

Dosulfin suspension, a combination of equal parts of sulphaproxyline and sulphamerazine, is a highly effective antibacterial drug. This pleasantly flavoured syrup is readily accepted by children of all ages.

A small dose of Dosulfin suspension has a rapid action and provides a high concentration in the necessary organs. This concentration is extended over a relatively long period and Dosulfin need only be administered two or three times a day.

Dosulfin is also available in the form of a completely tasteless tablet which, if desired, can easily be crushed into a powder and mixed with the patient's food.

Dosulfin suspension is indicated in:—
Infections of the ear
Lobar and broncho-pneumonia
General respiratory tract infections
As a prophylactic against complications
in measles and influenza.

### DUNCAN FLOCKHART OF EDINBURGH

The Doctors' House

### After 4 years

Parentrovite is now established as the accepted vitamin preparation for conditions in which massive doses for injection are indicated, whether in the field of psychiatry or general medicine.

Introduced four years ago for the treatment of coma, delirium, and psychoses from alcohol, barbiturates or other drugs, it has been found equally effective in the prevention and treatment of:

- Confusional states following severe illness or operation
- Gestational and puerperal psychoses
- Hepatic dysmetabolism
- and psychiatric states in the elderly.

It is also extensively used in conjunction with electroconvulsive therapy and other drug treatment employed for the more severely affected patient in mental hospitals, the vitamins having a marked effect in promoting the physical health and well-being of the patient and thus permitting the specific measures employed to exert their maximum effect.

Packs: In boxes of 3 and 12 pairs. Hospital packs also available.

## a new, effective treatment in a wide range of psychiatric disorders

# Tentazin

broad-span effectiveness

- effective in anxiety and tension states
- effective in nausea and vomiting
  - effective in psychoneuroses
  - effective in psychoses

Fentazin is remarkably effective for the treatment of a wide range of psychiatric disorders. Fentazin is several times more active than older phenothiazines, and is effective in proportionately smaller dosage. Side-effects are greatly reduced: indeed, Fentazin in recommended dosage produces virtually no side-effects.

Because it is so safe, Fentazin may be used for the routine management of anxiety and tension states. Because it is so active, it is effective in even severe psychoses. Fentazin safely spans the field from anxiety to schizophrenia. Fentazin tablets contain 2 mg., 4 mg., or 8 mg. perphenazine. Supplied in bottles of 50 and 500 tablets of each strength. Fentazin Injection contains 5 mg. perphenazine in each c.c., supplied in boxes of  $5 \times 1$  c.c. ampoules.

# 'Medihaler' GORT

### HYDROCORTISONE ACETATE BY INHALATION

For the prophylactic treatment of

### **BRONCHIAL ASTHMA**

Corticosteroids have proved of value in the treatment of asthma when given orally. However, the relatively high doses necessary by this route give rise, in the long term administration, to symptoms of hypercorticism.

BY INHALATION OF THE INSOLUBLE SALT—HYDROCORTISONE ACETATE—PROPHYLAXIS MAY BE EFFECTED ON A MUCH SMALLER DOSAGE

# 'Medihaler' CORT

CAN OFFER RELIEF TO ASTHMA PATIENTS EFFICIENTLY • ECONOMICALLY • SAFELY BY INHALATION Using Hydrocortisone acetate

The response is most marked in the absence of hypersecretion, i.e., in the cases of "dry" asthma.

Where change from oral corticosteroid therapy to 'Medihaler' Cort is contemplated it is important to make the change gradually to avoid producing symptoms of adrenal steroid deficiency.

**DOSAGE** The recommended daily dose of hydrocortisone acetate by inhalation is 10-15 mg. This involves 6-10 inhalations of 'Medihaler' Cort per day, which should be taken at equally divided intervals.

**CONTRA-INDICATED** in Tuberculosis, Peptic Ulcer or a history of mental illness.

**NOTE** 'Medihaler' Cort is not suitable for giving immediate relief in a crisis. 'Medihaler Epi' and 'Medihaler Iso' are the preparations of choice in such cases.

'Medihaler' 'Medihaler Epi' and 'Medihaler Iso' are registered trade marks of

## ADRENOXYL

### reduces the mean capillary bleeding time

Adrenoxyl is a capillary haemostatic which reduces the mean capillary bleeding time by increasing the contractility and resistance, and decreasing the permeability of the capillary wall.

### Reduces capillary oozing

Reports have been received of the value of Adrenoxyl in diminishing capillary oozing both at the time of operation and post-operatively in many types of operation, including ear, nose and throat, ophthalmic, plastic and dental surgery. It has no effect on venous or arterial bleeding.

### Safe and free from side-effects

Adrenoxyl is safe, and no side-effects have been reported following its use. It does not affect pulse rate, blood pressure, nor blood coagulation.

#### **Packs**

Adrenoxyl is available in ampoules for intramuscular or subcutaneous injection and in tablets for oral administration.

AMPOULES Each 2 ml. ampoule contains 0.75 mg. of

adrenochrome monosemicarbazone dihydrate. The ampoules are packed in boxes of 6 and 50.

TABLETS Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate. The tablets are packed in tubes of 25 and bottles of 500.

Fuller information available from HORLICKS LIMITED PHARMACEUTICAL DIVISION SLOUGH, BUCKS., ENGLAND

30%-50% of tuberculosis patients depart from their P.A.S. schedule when on domiciliary treatment. <sup>123</sup> This unsatisfactory state of affairs can be largely attributed to the unpalatability of P.A.S. and the high incidence of gastric symptoms associated with it.

\*Pasade adegrate granules have been designed to overcome all these difficulties. These new granules are unusual in that the sodium P.A.S. is processed with a special type of fat, the presence of which retards gastric release of the irritant P.A.S. in the stomach. Full release occurs only within the comparative safety of the intestine, when the danger of stomach upsets has passed. Published reports <sup>45</sup> have confirmed the efficacy of this preparation and have demonstrated that high and sustained blood levels are produced.

Full details of clinical trials will be gladly sent on request.

Other tuberculostatics in the Smith & Nephew Pharmaceuticals range:

PARAMISAN SODIUM (Sodium Aminosalicylate B.P.) NUPA-SAL (a derivative of Isoniazid) THERAZID (Calcium B-PAS with Isoniazid) THERAPAS (Calcium B-PAS) PYCA7IDE (Isoniazid B.P.) PYCAMISAN (PAS with Isoniazid)

Pasade granules contain the equivalent of 96.4% of Sodium Aminosalicylate, B.P.

# designed for one purpose

# only one sulphonamide

is designed specifically for the treatment of B.coli infections

SELECTIVE The action of Urolucosil is mainly confined to the urinary tract. Very soluble, it is rapidly excreted largely unchanged, in the urine.

LOW DOSAGE Urolucosil is effective in about one-fifth of the dosage used for most sulphonamides.

NO CRYSTALLURIA With Urolucosil, obstruction due to crystalluris does not occur. Extra fluids are not required.

LOW COST Twenty-five tablets taken over 5-7 days usually suffice to control an acute infection.

NON-TOXIC AND FREE FROM SIDE EFFECTS

### UROLUCOSIL Sulphamethizole

#### DOSAGE:

ADULTS — one or two tablets five or six times a day.

CHILDREN — half to one tablet five or six times a day.

In most cases, five tablets daily for five days will render the urine sterile.

#### PRESENTATION:

- UROLUCOSIL TABLETS O.IG. are available in bottles of 25, 250 and 1,000.
- \*When pain is a problem in chronic urinary tract conditions PYRIDIUM is the specific urinary tract analgesic. Dose of Pyridium: two tablets three times a day.

## NOW - Every B90 Replacement is protected by a Gertificate of Warranty

Designed to safeguard the motoring public against being persuaded into accepting "Lucas type" exchange units of electrical equipment, the Certificate of Warranty has been introduced to ensure that a genuine Lucas replacement has been supplied.

If service is required during the period of warranty, the certificate can be presented to any garage, motor trader, dealer or stockist anywhere in the British Isles. They will be fully supported by Lucas Agents and Depots to give speedy service.

The Certificate is valuable - keep it with your driving licence and produce it should the need arise.

# For expectant and wrsing mothers

THE VALUE of 'Ovaltine' for the pregnant and nursing mother has long been recognized by physicians. This delicious food beverage has many qualities which make it eminently suitable for inclusion in the mother's diet.

Ovaltine 'contains malt, milk, cocoa, soya, eggs and added vitamins. It provides concentrated nutriment in a palatable form which appeals to the most capricious appetite, and it is easy to digest and assimilate. In addition, it stimulates the supply of breast-milk and helps to keep the mother strong and healthy during the nursing period.

You can confidently recommend your patient to take 'Ovaltine' during pregnancy and when she is breast-feeding her baby.

### New Butterworth Books -

### WORLD MEDICAL RESEARCH: Principles and Practice

By HARRY SUTHERLAND GEAR, M.D., D.P.H., D.T.M. & H., B.Sc., F.S.S. Formerly Chairman of the Executive Board, Delegate to the World Health Assemblies, and Assistant Director-General of the World Health Organization. Pp. x+117+Index. 30s. net, by post 2s.

This book shows how WHO and various other organizations are working to improve world health. It reviews principles and methods of current practical value while discussing future needs and the problems and dangers of undiluted or overcentralized governmental and inter-governmental control.

This is the first book to be devoted to the international aspects of medical research, and its comprehensive approach embraces the constitutional background, health services, education, medical scientific research, the work of the various international organizations, difficulties of economic and social adjustment and questions of administration both now and in the future.

#### MODERN TRENDS IN PATHOLOGY

Edited by DOUGLAS H. COLLINS, O.B.E., M.D.(L'pool), F.R.C.P.(Lond.). Pp. x+334+ Index. 135 illustrations. 70s. net, by post 1s. 9d. extra.

It may truly be said that no other book of this sort has been written by so many contributors of distinction in the field of pathology. The work is designed to stimulate interest for the pathologist of every category not only in his particular topic but in other branches than his own where new progress is being made, offering a clear and up-to-date account of modern pathological progress to serve both as a guide and a source of reference for future studies.

### DR. EUSTACE CHESSER

his important new book

# AN OUTLINE OF HUMAN RELATIONSHIPS

"Its purpose is to examine from a practical standpoint the relations between human beings at each succeeding phase of life—in the family, in the school, in society, and in the world at large. Through all these crises he offers himself as a guide, philosopher and friend . . . In my view of all the valuable and interesting volumes that Dr.

Chesser has written, this is unquestionably the best." From the foreword by Sir Cyril Burt.

### How do **you** tackle flat foot?

... do you prescribe an external wedge on the shoes?

BUT the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's.

Surely it's more logical to have a wedge built-in between the inner and outer sole—invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made; why they are the only practical solution to this problem.

Information from Mr. W. J. Peake, James Southall & Co. Ltd., Crome Road, Norwich.

## CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post-inland and overseas, 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It commans thirty-nine articles comprising a series specially written for the British Medical Journal. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

# For SUB-ACUTE and Chronic dermatoses TAR + HYDROGORTISONE

combined in

### TARCORTIN CREAM

have pronounced advantages over either medicament alone

The established germicidal, stimulating and anti-pruritic properties of tar, in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

\*Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone.

These two valuable therapeutic agents are presented in a non-greasy, stainless, hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM is supplied in 7 grm. and 15 grm. tubes, containing 0.5% Hydrocortisone in a special coal-tar extract.

\* Literature available on request.

MONDAY 20th JULY - FRIDAY 24th JULY, 1959

The Exhibition is open to members attending the Annual Meeting

### APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

\*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

#### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR. Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made,

#### Other Grades, Whole-time (a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders
President: The Earl Spencer. Medical Supt.,
Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.
This Registered Hospital is situated in 130 acres of
park and pleasure grounds. Voluntary patients who
are suffering from incipient mental disorders or who
wish to prevent recurrent attacks of mental trouble,
temporary patients and certified patients of both
sexes are received for treatment. Careful clinical,
biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or
female, in hospital or in one of the numerous villas
in grounds of the various branches can be provided.
MOULTON PARK.—Two miles from the main

inations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided. MOULTON PARK.—Two miles from the main hospital there are several branch establishments and vilias situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a department of Diathermy and high-frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seas'de house of St. Andrew's hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park. At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 4354 (3 lines)), who can be seen in Lo

by appointment.

HAYDOCK LODGE

The improved London Hospital eyeless needle combines the traditional safety of stainless steel with a new standard in the several qualities required by surgeons.

These eyeless needles are the result of new methods of manufacture and are available in the London Hospital standard range.

Improved temper
Sharper points
Maximum strength of join
No hilt distortion
Smallest ratio of needle diameter to
size of catgut — minimizing
tissue trauma.

London Hospital EYELESS NEEDLES
