An effective pattern of protection . .

The increasing use of inoculation against Poliomyelitis does not dispense with the necessity for using other proved methods of prevention.

On the contrary—such methods should be more widely and more thoroughly applied.

'In Poliomyelitis epidemics, where a large proportion of the virus hosts are symptomless carriers—a vigorous health education programme... directed at raising the standards of personal hygiene... coupled with measures to raise individual resistance to Poliomyelitis virus infection by strengthening active immunity, offers best hope of success.'¹

For inactivating Poliomyelitis virus, 'Oxidising agents seem to be the most active chemical disinfectants.'²

'An oxidising agent of great potency is Domestos which, when used at concentration of from $\frac{1}{4}$ to 2 ozs. per gallon, provides a level of available chlorine in the range 150 to 1,200 parts per million—sufficient to inactivate the Poliomyelitis virus.'³

A pattern of protection against Polio is assured by using DOMESTOS, which destroys Poliomyelitis virus—

(a) *For Lavatories.* Overnight contact will destroy heavy soiling and give a free residual chlorine content which will inactivate virus contaminants. The exterior of the bowl and the seat which frequently come into contact with the hands of children, should always be washed with a DOMESTOS solution.

(b) *For the disinfection and cleaning of dishes, floors, kitchen surfaces, sinks, etc.*

(c) *For safeguarding against the infection of food by bluebottles, flies, vermin.*

(d) *For the disinfection of yards, paths, etc,*

(e) *For the disinfection and cleaning of clogged drains.*

1. 'Topical Aspects of Poliomyelitis'; 'Journal of the Royal Society of Health' Dec. 1956.
2. World Health Organisation Technical Report Series, No. 81, 'Expert Committee on Poliomyelitis'.
3. Domestos Technical Report D.R. 82A.

In the treatment of diarrhoea

Ivax

Effective!

Palatable!

Economical!

Ivax is an effective, palatable preparation of neomycin, sulphaguanidine and kaolin which consolidates the stools, suppresses the infecting organisms and soothes the irritated tissues. Relief is quickly obtained and Ivax is readily accepted by both children and adults.

Ivax is indicated in the treatment of 'summer diarrhoea', bacillary dysentery, food-poisoning (including salmonellosis), infantile diarrhoea and other specific and non-specific diarrhoeas.

Ivax is available in 6 fl. oz. bottles at the basic N.H.S. price of 7/8 per bottle.

Each fluid ounce contains:

Neomycin Sulphate B.P. .. 300 mg.

Sulphaguanidine B.P. .. 4 g.

Light Kaolin B.P. .. 6 g.

BOOTS PURE DRUG CO. LTD.,
STATION STREET, NOTTINGHAM

ANNOUNCEMENT BY MILES LABORATORIES LTD.

With effect from 1st May 1959, Don S. Momand Ltd., Dentesive Ltd., and Ames Company (London) Ltd., ceased to operate as subsidiary companies. Their functions will be carried on by the following newly formed divisions of Miles Laboratories Limited:

AMES COMPANY

This division will handle the distribution and sales of all ethical products at home and overseas:

'CLINITEST' 'ACETEST' 'ALBUSTIX'
'CLINISTIX' 'ICTOTEST' 'HEMATEST'
'OCCULTEST'

MILES PRODUCTS DIVISION

will handle the home and overseas marketing of all products advertised to the public.

As a result of this integration of the companies of the group, it will be possible to consolidate many services and to prepare for further expansion of the business.

All orders and communications should, in future, be sent to:

AMES COMPANY

(Division of Miles Laboratories Ltd.)

NUFFIELD HOUSE, 41/46 PICCADILLY, LONDON, W1

Telephone: REGent 5321

*The Company takes this opportunity of thanking its many friends
for their support and co-operation*

*Established
in clinical practice*

RASTINON

*Complete oral control
without side-effects
for thousands of diabetics*

EFFECTIVE Over 1,000 published articles substantiate the clinical value of Rastinon (tolbutamide). Thousands of patients have been effectively controlled for more than three years.

SAFE No cases of dyshaemopoiesis, jaundice or other serious side-effects have been reported. Analysis of over 10,000 case histories shows Rastinon to be completely safe for suitable diabetics.

Rapid excretion precludes cumulative effects. The significant difference between Rastinon and all other available anti-diabetic agents is that there is virtually no danger of hypoglycaemic reactions as a result of Rastinon therapy.

SIMPLE One tablet by mouth once or twice a day is all that is necessary for maintenance. There is no added cost of treatment for the patient previously on insulin.

HOECHST PHARMACEUTICALS LIMITED, SLOUGH

NEW WEAPONS

AGAINST DISEASE

THE RESEARCH LABORATORY is the very centre of a great pharmaceutical company. Without it no discoveries could be made, no progress would be possible—it is the hub of all activity. For this is where ideas are conceived, experiments carried out, and results evaluated—in the hope that something will come to light to advance the frontier of medical knowledge another step.

300 graduate scientists—chemists, doctors, pharmacists—are employed by Hoechst in Frankfurt on pharmaceutical research alone. They work in ultra-modern laboratories, with all the equipment they could possibly need—inspired by the example of such illustrious predecessors at Hoechst as Emil von Behring and Paul Ehrlich, originators respectively of the first diphtheria antitoxin and Salvarsan.

Hoechst standards, not only in research but also in production, are second to none in the world.

Anatomy of the Human Body

R. D. LOCKHART

M.D., Ch.M., F.R.S.E.

Regius Professor of Anatomy,
Aberdeen University

G. F. HAMILTON

B.Sc., M.B., Ch.B.

Senior Lecturer in Anatomy,
Aberdeen University

F. W. FYFE

M.A., M.B., Ch.B.

Associate Professor of Anatomy,
Dalhousie University

Formerly Lecturer in Anatomy,
Aberdeen University

The purpose of this new textbook, in the words of the Preface, is "*to lighten the burden of the student of anatomy.*" The text, while remaining fully instructive, has been cut to half the length of the standard texts by brevity, the avoidance of repetition and by greatly increasing the ratio of pictures to text. In a volume of nearly 700 pages there are 965 illustrations, many full page, and over 600 of them in colour. Great care has been taken to ensure that they are all placed at the appropriate point in the text. Emphasis is laid throughout on function and clinical application, so that the book will appeal not only to medical students of all grades, but also to students of physiotherapy, radiography and dentistry, and to clinicians. *A four-page illustrated prospectus is available on request to the publishers. Price 5 gns. net.*

Cecil's Medicine in a new (10th) edition . . .

... TEXTBOOK OF MEDICINE ...

By 164 American Authorities. Edited by **Russell L. Cecil** (Cornell); and **Robert F. Loeb** (Columbia); assisted by Associate Editors **Alexander B. Gutman** (Columbia); **Walsh McDermott** (Cornell); and **Harold G. Wolff** (Cornell).

1,665 pages, with 171 illustrations. In single volume at £5 15s. 6d., or in set of two volumes at £7 3s. 6d.

For more than 30 years, earlier editions of *Cecil's Medicine* have served as the "back-bone" of a professional library for tens of thousands of physicians all over the world. Authority and completeness have been unassailable.

This *new (10th) edition* is the most extensive revision the book has yet sustained and it is now even more useful, more informative, more an integral part of the daily round of clinical medicine than was any previous edition.

Practitioners and students alike can depend on *Cecil & Loeb* to fill in the broad picture of to-day's medicine with the multitude of details needed to effectively understand, diagnose and treat the multiplicity of known diseases.

Its organization is superb. It is completely integrated—no need to look for symptoms in one place, pathology in another and treatment in still another. From *Etiology right through to Follow-up Care* all material is in logical order under the disease being discussed.

The 164 eminent authorities who contribute to the book have expended every effort to present the important medical developments of the last four years. Each man writes intensively and knowledgeably about that segment of medicine with which he is most familiar.

The book represents a superbly woven presentation of to-day's collective knowledge on patho-physiology, diagnosis and management of disease.

For the first time this important book is available in a single volume or in a two-volume set.

Your patient will *prefer*
DECADRON
Trademark
 because unlike other steroids
 it promotes a *natural*
 sense of well-being

An unexpected but very acceptable finding has emerged during widespread experience with 'Decadron' in a great variety of disorders—patients report that they *feel* better. This healthy sense of *improvement* is particularly noticed by patients who have previously been treated with other steroids, and, as a result, their co-operation during a prolonged and difficult illness is much easier to obtain. Reduction in the incidence and severity of many of the side-effects associated with the older steroids (e.g., oedema and hypertension) has made possible the treatment of patients with cardiovascular disease, and the relative freedom from diabetogenic effect allows 'Decadron' to be given to diabetics when indicated. Thus, the discovery of 'Decadron' has increased still further the number of patients who may now be given the immense benefits of corticosteroid therapy.

'Decadron' (Dexamethasone) is now available in TWO strengths:
 'Decadron'-75 (0.75 mg), green, half-scored tablets. 'Decadron' (0.5 mg.), yellow, half-scored tablets.
 The United Kingdom N.H.S. basic cost is 24s. 0d. per 30 x 0.5 mg. tablets.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

DUST-BORNE CROSS-INFECTION

The problem

A disquieting situation arising in hospitals throughout the country is the closure of wards due to dust-borne cross-infection. The floors act as a depository for dust and dirt (whether by settlement or displacement) and bacteria-laden particles can be seriously disturbed by brooms, mops or non-approved polishing and vacuum cleaning machines.

The solution

Medical research has established that suitable, controlled conditions can help to eliminate or reduce to acceptable proportions the risk of cross-infection from pathogenic bacteria.

Now, for the first time, a floor cleaning machine has been developed which makes a positive contribution towards overcoming the risk of cross-infection. This machine, the

Columbus Dixon Model III Suction Polisher and Cleaner, has undergone laboratory tests at a London Hospital, and the results of these tests are now available in our new publication. The detailed case-history of the outbreak of cross-infection, which prompted the development and testing of this machine, has already been published.*

*THE LANCET (1958), ii 713.

Micro-photographs, reproduced top left, illustrate the reduction in the bacterial count where the new COLUMBUS Machine, with two-stage dust control and disposable dust-bag, was employed.

A Blood Agar test plate is clipped in position on controlled exhaust outlet. This ensured that the test covered maximum possible pollution.

A Columbus-Dixon Suction Polisher being subjected to one of a series of tests.

Contaminated plates were incubated for the appropriate period. Following the three timed tests, counts of three, one and two bacterial colonies only were recorded.

The COLUMBUS SUCTION POLISHER AND CLEANER, which has been used successfully in hospitals for 25 years, controls and traps 98% of all floor dust and dirt. This new patented two-stage dust-bag canalises dust flow into a separate protected chamber, preventing fall-out or drop-back of dust, the disposable bag trapping bacteria to an effective degree. High speed brushes work in an unrestricted vacuum field giving 360° all round suction. A designed unit for high power suction polishing and cleaning, the new COLUMBUS is the most advanced Suction Polisher and Cleaner in the World.

An old friend

in a new guise

a molecular complex of chloral hydrate
in tablet form **WELLDORM**

(dichloralphenazone)

'Welldorm' has all the advantages that make chloral hydrate one of the best hypnotics. It has none of the disadvantages—the nauseating taste and smell, the gastric irritation—that restrict the use of chloral in daily practice. 'Welldorm' induces, without excitation, calm deep sleep with no hangover effect. 'Welldorm' is ideally suited for both the very old and the very young, because it is one of the safest of all hypnotics.

'Welldorm' is presented as tablets each containing 10 grains dichloralphenazone in 25s and 250s. The basic NHS cost of 12 tablets (supplied from a dispensing pack) is 1/-. There is also available a 2½ grain strength for children at a basic NHS cost of 6d. for 12 tablets (supplied from a dispensing pack). Clinical samples will be sent on request.

WELLDORM

safe, non-barbiturate sedative/hypnotic

SAFETY IS IN YOUR HANDS

*is your warning
adequate?*

"A warning instrument capable of giving audible and sufficient warning of approach or position shall be fitted to motor vehicles"

Here in its own efficient manner, the law is clearly laid down. It is vitally essential for your safety and the safety of all other road users that your horns give constant efficiency. Make sure your warning is adequate by fitting Lucas Quality Electric Windtone Horns supplied in matched pairs to give a harmonious note that is both pleasant and distinctive. Ebony black finish, 6 or 12 volt.

MODERN CONTRACEPTIVE TECHNIQUE?

*modern
contraceptive
technique*

Have you received your copy of

This practical manual on contraception has already proved invaluable to many doctors in advising their patients. It presents a concise and compact survey of methods commonly used, together with notes on methods which have medical approval, and also on others which are medically contra-indicated. If you have not yet received a copy, you are invited to write for one now.

The case against 'natural' methods

Medical opinion generally agrees that the practice of so-called "natural" methods of contraception (coitus interruptus, coitus reservatus, etc.) can have an adverse effect on physical and mental health. One of the principal reasons why these unreliable methods are used is the slight loss of sensitivity experienced with protectives (condoms).

This problem has now been largely overcome by the introduction of Durex Gossamer, a new type of lubricated protective. The lubricant, which is not "wet or messy", is called "Sensitol", and has been specially developed to increase the level of sensitivity. *Samples of Durex Gossamer will be gladly sent on request.*

BIG INSURANCE SAVING!

It's a new experience in motoring!

The Triumph Herald, with its super-safety features, introduces a new era in car insurance with a unique insurance plan for Triumph Herald owners. This plan can not only save you half-a-crown on every pound you pay for Triumph Herald insurance, but also gives you a No-Claim bonus of up to 50 per cent. Furthermore, repairs can proceed immediately when the work is carried out by a Triumph distributor or dealer. Here is practical proof of the safety built into the Triumph Herald... a new experience in safe, economical motoring for you.

Summer Bane...

Hay Fever brings misery and discomfort to thousands at this time of the year. Pabracort Insufflations have proved their value in the control of Hay Fever both by clinical trial and in general practice. Dramatic relief is usually obtained within two or three days and complete alleviation after two weeks treatment.

Each insufflation capsule contains 15 mg. hydrocortisone acetate in a specially prepared snuff base (micronized).

ACTAL ACTUALITIES No. 1

ACTAL AUTHORS

Actal authors are usually, like Henry Inkfiller, angry and young. Unfortunately, in setting the world to rights, Henry tends to upset his own stomach. It's partly the strain of hating so many things at the same time, partly because (until the world recognises his genius) his eating habits are erratic.

It is debatable whether the vehemence of his opinions causes his dyspepsia or the discomfort of his dyspepsia influences his outlook. Certainly many people (older and less angry) are unable to digest his opinions. One thing Henry does not attack—Actal. A few tablets by his typewriter means that he can relieve his dyspepsia and save excess acid for his pen.

And he doesn't have to be chained to a bottle and spoon. Because he knows that with Actal he gets all the activity of a liquid antacid in tablet form. The only snag is that after taking Actal he somehow feels younger and less angry.

The people responsible for assuaging Henry's ire are his doctor and Bayer Products Ltd. of Kingston-upon-Thames (the makers of Actal).

The chemical constituent of Actal is sodium polyhydroxyaluminium monocarbonate hexitol complex (360 mg.)—almost a chapter in itself.

Foreign editions are published by the associated exporting company, Winthrop Products Ltd.

If Henry is prescribed 2 Actal tablets t.d.s., the ingredient cost of one week's treatment works out at 1/10½d.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing in any form will disqualify.

★SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners**: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners**: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

IMPORTANT: All intending applicants should read the revised NOTICE at the top of page 31

PUBLIC HEALTH**COUNTY COUNCIL OF THE WEST RIDING**
OF YORKSHIRE**APPOINTMENT OF ASSISTANT COUNTY**
MEDICAL OFFICER AND SCHOOL MEDICAL
OFFICER in the Shipley (No. 4) Division

Applications invited from registered medical practitioners with at least three years' experience since qualification. Duties mainly in School Health and Infant Welfare Services. Salary £1,150 to £1,640 per annum. County Council scale of travelling and subsistence allowances. Post superannuable and subject to medical examination. Forms of application, from the undersigned, to be returned not later than June 15, 1959.—R. W. Elliott, County Medical Officer, County Hall, Wakefield. (9747)

BRECONSHIRE COUNTY COUNCIL**APPOINTMENT OF ASSISTANT MEDICAL**
OFFICER OF HEALTH

Applications are invited from duly qualified male medical practitioners, not exceeding 45 years of age, for the above-named permanent appointment. Salary will be at the rate of £1,150 per annum, rising by six annual increments of £60 and two of £65 to a maximum of £1,640 per annum. The successful candidate will be on the staff of and work under the administrative supervision of the County Medical Officer. The duties will primarily be concerned with School Medical Inspection, Infant Welfare Centres, general duties pertaining to the department, and possibly some attendance at committees. Previous practical experience is essential. The possession of a Diploma in Public Health or Child Health will be considered additional qualifications. The appointment will be subject to a satisfactory medical examination and to the conditions of the National Health Service Superannuation Regulations, and will be terminable by three months' written notice on either side. The successful candidate will be required to reside in or near Brecon (but no housing accommodation can be provided by the Council), and to provide a car, for which a travelling allowance on the Council's scale will be payable. The question of appointing the successful candidate as Deputy County Medical Officer of Health will be considered by the Council at the expiration of 12 months' service. Candidates must state whether to their knowledge they are related to any member or senior officer of the Council. Canvassing, directly or indirectly, will definitely disqualify the candidate for the appointment. Applications, stating age, education, qualifications, experience, past and present appointments, with the names and addresses of three referees, must be received by the undersigned not later than June 6, 1959.—C. M. S. Wells, Clerk of the County Council, County Hall, Brecon. (9742)

CITY AND COUNTY OF BRISTOL
Department of Public Health

Applications invited from registered medical practitioners (male or female), preferably holding Diploma in Public Health, for appointment as

ASSISTANT MEDICAL OFFICERS

for duties in School Health and Maternal and Child Welfare Services. There will also be opportunities for suitable candidates to gain experience in other branches of public health service such as port health, housing and mental health work. Good facilities for research work. Successful applicants must devote their whole time to those duties and not engage in private practice. Post's superannuable. Medical examination. Salary scale £1,150 by £60 (6) by £65 (2) to £1,640 per annum, and consideration may be given to previous professional experience since qualification in determining starting salary. Applications by June 13, on forms from Medical Officer of Health, Central Health Clinic, G.P.O. Box No. 201, Tower Hill, Bristol, 2. (9574)

AMENDED ADVERTISEMENT

UNIVERSITY OF LONDON
 London School of Hygiene and Tropical Medicine
 and Institute of Child Health
"THE CHILD IN THE TROPICS"

A special refresher course in paediatrics for medical officers working in tropical countries will be held from Monday, March 28, to Friday, April 8, 1960, in London. The course will consist of lectures, clinical instruction, seminars, and demonstrations. Reservations should be made by January 31, 1960. For further details apply to the Dean, Institute of Child Health, the Hospital for Sick Children, Great Ormond Street, London. W.C.1. (8862)

UNIVERSITY OF ST. ANDREWS**COMBINED CLINICAL AND MEDICAL SCIENCES COURSE**

Graduates in Medicine and Surgery are invited to make application for a Combined Clinical and Medical Sciences Course to be held in Queen's College, Dundee, from October, 1959, to March, 1960.

All those taking the Combined Clinical and Medical Sciences Course will have:

(1) A clinical attachment in the special subject of their choice. In 1959-60 the following subjects will be offered:

General Surgery	Respiratory Diseases
General Medicine	Obstetrics
Cardiology	Gynaecology
Cardiovascular Surgery	Paediatrics
Endocrinology	Psychiatry
Dermatology	Ophthalmology
Haematology	Oto-rhino-laryngology
Infectious Diseases	Orthopaedics

(2) A supervisor who would guide their reading and laboratory work in relation to their specialty; and

(3) All would attend the medical sciences course.

The number accepted for this educational programme will be small and only 1 or at the most 2 candidates will get an attachment in each special subject. The Eastern Regional Hospital Board will give the successful candidate an honorary clinical assistantship within the Unit where he is studying the special subject of his choice. The Supervisor will not only guide the reading and laboratory work of the student but will in appropriate cases allow him to take part in current research programmes. The objective of the medical sciences course, which all the postgraduates, whether medical, surgical, or other specialists, will follow, is to bring the postgraduate student up to date on current trends in the medical sciences which are of importance to future medical developments.

In addition to this course, the Medical School offers weekly open postgraduate lectures by distinguished visitors and a course of lectures on scientific methods which postgraduate students in the school will be free to attend.

The fee for the course will be £36. Applications should be submitted before July 31, 1959, to the Dean of the Faculty of Medicine, University of St. Andrews, Queen's College Dundee, from whom further information may be obtained. (9491)

THE JENNER MEMORIAL LECTURE OF 1959 entitled "In Quest of Allergy" will be given by Professor Carl Prausnitz-Giles (Emeritus Professor, University of Breslau), on Thursday, June 4, at 5.30 p.m., in the Board Room, St. George's Hospital, S.W.1. Admission free without ticket. (9554)

UNIVERSITY OF ST. ANDREWS**POSTGRADUATE COURSE IN ANATOMY AND PHYSIOLOGY**

Graduates in Medicine and Surgery are invited to make application for a Course in Anatomy and Physiology (including Biochemistry) to be held in the Pre-clinical Department of St. Salvador's College, University of St. Andrews, from October, 1959, to March, 1960. The number of graduates accepted for this course will be small. They will be attached to, and expected to take some part in the work of, the Anatomy and Physiology Departments. Instruction will be given, formally and informally, in systematic, practical and applied aspects of Anatomy, Physiology and Biochemistry, and students will be afforded opportunity of gaining experience in methods to be individually selected. They will be required to take part in tutorial discussions both with members of staff and with medical undergraduates, and to make themselves familiar with current teaching. The Anatomy Department is responsible for the teaching of Histology, and has particular interest in Bone, Arthrology, Heart and Central Nervous System. The Department of Physiology and Biochemistry operates a course in Applied Physiology and Biochemistry for senior medical students, and is equipped to supervise techniques in Neurophysiology and Neurochemistry. Protein and Carbohydrate Chemistry, and various aspects of medical Biophysics. The fee for the course will be £36. Applications should be submitted before July 31, 1959, to the Dean of the Faculty of Medicine, University of St. Andrews, Queen's College, Dundee, from whom further information may be obtained. (9490)
