DR. EUSTACE CHESSER

his important new book

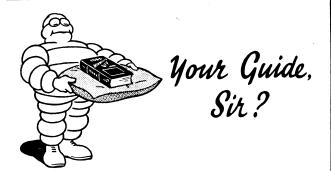

AN OUTLINE OF HUMAN RELATIONSHIPS

"Its purpose is to examine from a practical standpoint the relations between human beings at each succeeding phase of life—in the family, in the school, in society, and in the world at large. Through all these crises he offers himself as a guide, philosopher and friend . . . In my view of all the valuable and interesting volumes that Dr.

Chesser has written, this is unquestionably the best." From the foreword by Sir Cyril Burt.

NUTRITION AND THE PUBLIC HEALTH

H. E. MAGEE, M.B., B.Ch., D.Sc., M.R.C.P. Formerly Senior Medical Officer (Nutrition), Ministry of Health

The author is well known as a nutrition expert. He has been concerned with food and nutrition for more than forty years and was responsible for nutrition at the Ministry of Health during the war. This short and readable book is the essence of his considerable experience. It will be invaluable for all concerned with nutrition, public health workers and medical and nursing students.

ANTIBIOTIC DEVELOPMENT OF GREAT PROMISE

GRISOVIN

(griseofulvin Glaxo)

The first <u>oral</u> treatment for fungal infections of the skin

Systemic therapy of intractable fungal infections of the skin has long been recognised to be the desirable form of treatment. It can now be achieved orally with griseofulvin, an antibiotic developed by Glaxo.

In extensive trials conducted in Britain, the U.S.A. and Austria griseofulvin given by mouth has demonstrated quite remarkable and consistent activity against dermatophyte infections of the skin, hair and nails. Previously untreatable *Trichophyton rubrum* infections, some of many years' duration, have made a striking response to the antibiotic.

An introductory booklet on Grisovin is available. It summarizes existing knowledge, now accumulating rapidly, and provides a guide to treatment with this important new Glaxo antibiotic.

ACTAL ACTUALITIES No. 2

ACTAL ALPINISTS

The man on the left is an Actal alpinist
looking for edelweiss. His dyspepsia is hidden by the rock
against which (unknown to him) his rope is fraying to
the point of breaking. Precarious though his position
may seem to non-alpinists, it is one in which he finds
himself most weekends and he usually survives. Note the
Actal tablets in the pocket of his ex-army officer-type
land-combat sleeveless windcheater jacket. Even hanging
upside-down over a crevasse, the Actal alpinist finds it
easy to relieve his dyspepsia by taking two Actal tablets.

He knows he gets all the activity of a liquid antacid without carrying a bottle and spoon. This means he has room in his knapsack for more edelweiss. Grateful Actal alpinists have been known to present souvenir alpenstocks to their doctors—and even to the makers of Actal, Bayer Products Ltd., of Kingston-upon-Thames, Surrey. The same goes for foreign alpinists and the associated exporting company,

Winthrop Products Ltd.

Doctors are advised not to frighten alpinists with the chemical name of Actal, which is sodium polyhydroxyaluminium monocarbonate hexitol complex (tablets of 360 mg.). This makes it all the more amazing that the ingredient cost of one week's treatment (2 tablets t.d.s.) is only 1/10½d.

Now Divided into Five Specialist Sections_

OPERATIVE SURGERY

Under the General Editorship of

CHARLES ROB, M.C., M.CHIR., F.R.C.S., and RODNEY SMITH, M.S., F.R.C.S. Professor of Surgery, St Mary's Hospital, London Surgeon, St George's Hospital, London

Now that all eight volumes of OPERATIVE SURGERY have been published, it has been decided to divide the work into five main groups, and it will be possible to buy the sets or single volumes devoted to special subjects as follows:—

GENERAL SURGERY (Set of four Volumes)

Volume I Introductory, Trauma and Abdomen

Volume II Completion of Abdomen

Volume III Rectum, Anus, Thorax

Volume IV Head, Neck, Lymph Nodes. Vascular Surgery, Endocrines, Breast.

Consolidated Index

Index to both Volumes

ORTHOPAEDIC AND PLASTIC SURGERY (Set of two Volumes)

Index to both Volumes

Volume II Regional Orthopaedic Surgery

Introductory, Trauma, Hand-Amputations, Plastic Surgery.

GYNAECOLOGY AND OBSTETRICS Separate Volume

GENITO-URINARY SYSTEM Separate Volume

Volume I

EYES, EARS, NOSE AND THROAT AND NEUROSURGERY Separate Volume

The work can still be purchased as a complete set of eight text volumes with Index and Progress Volume

LOMUDASE LOMUPREN and the LOMULIZER

from 1st June all these products are prescribable on form E.C.10

A new level of living

for your asthmatics and chronic bronchitics

Lomudase, Lomupren and the Lomulizer are now available on E.C.10.

The Lomu range of products has been available to hospitals and specialists since March. But for every asthmatic and bronchitic receiving hospital treatment, there are many 'on the brink': chronically ill, recurrently incapacitated, inexorably advancing to permanent disablement. Now fully available for prescription on E.C. 10, the Lomu range of products enters the field of general practice—the field in which a simple, self-administered and effective treatment can help the greatest number of patients.

- •LOMUDASE is a special presentation of the mucolytic enzyme, chymotrypsin, which acts specifically on the muco-protein fibrils. It enables the patient to clear his chest within minutes whenever and wherever the need arises, without interruption to everyday routine. Prepared in an entirely new way—as ultra-fine particles, homogeneous by weight, in the size range of 2-6 μ —Lomudase is delivered topically to the sites of the disease process in the bronchi and bronchioles. Since treatment is greatly enhanced when mucolytic and bronchodilator therapy is given simultaneously, a highly efficient bronchodilator, isoprenaline, is incorporated.
- •LOMUPREN is a presentation of isoprenaline in a similar form, for use in support of Lomudase therapy or where the bronchodilation alone is required. The 0.1 mg. of isoprenaline, administered by the Lomulizer, brings about maximal bronchodilation.
- •THE LOMULIZER This ingenious disdisper ensures that the patient receives a measured dose of either Lomudase or Lomupren only at the correct point in inspiration. Accuracy of dosage is certain because the drugs are supplied in single dose cartridges. The Lomulizer is foolproof, positive in action and fits easily into the handbag or pocket. And it enables bronchitics and asthmatics to obtain all the benefits of treatment with Lomudase and Lomupren anywhere and at any time.

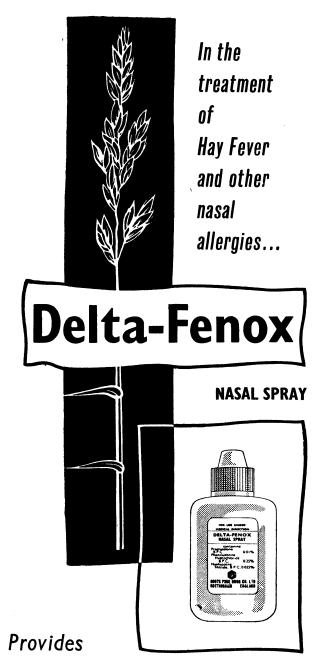

LOMUDASE · LOMUPREN and the LOMULIZER

may be used used in 24 hours.

When bronchospasm alone occurs two to six LOMUPREN cartridges daily as required

for revolutionary therapy in chronic bronchitis and asthma

prompt symptomatic relief

DELTA-FENOX (Prednisolone Nasal Spray) combines the anti-inflammatory activity of prednisolone with the established decongestant properties of FENOX.

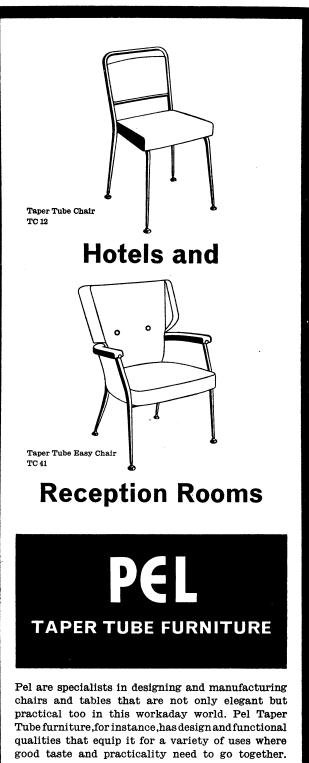

Delta-Fenox is only available on prescription

GLAXO LABORATORIES LTD GREENFORD, MIDDLESEX BYRon 3434 Farex is available in most countries.

The esters of NICOTINIC, SALICYLIC and

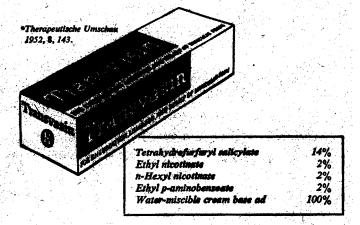

p-AMINOBENZOIC acids bring relief to cases of arthritis and rheumatism

In CASES of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial crythems, but also brings about a deep hyperacmia of the underlying tissues. It is non-irritant and can be safely used on delicate akins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

Transvasin is available in 1 oz. tubes, basic N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. It may be prescribed on Form E.C. 10. Samples and literature will be gladly sent on application

first major advance in hookworm therapy for 30 years

falcopar, Brand Dispersible Granules

'Alcopar' (bephenium hydroxynaphthoate) is a new and powerful anthelmintic drug discovered by research workers at the Wellcome Laboratories of Tropical Medicine, and proved in carefully controlled clinical trials in London and Ceylon. It is issued in packs of 25 and 100 single-dose sachets.

safe no toxic effects at all have been observed in the field trials even when high doses have been given.

highly effective eradicates Hookworm Infection (Ancylostomiasis); equally efficient against Ascariasis.

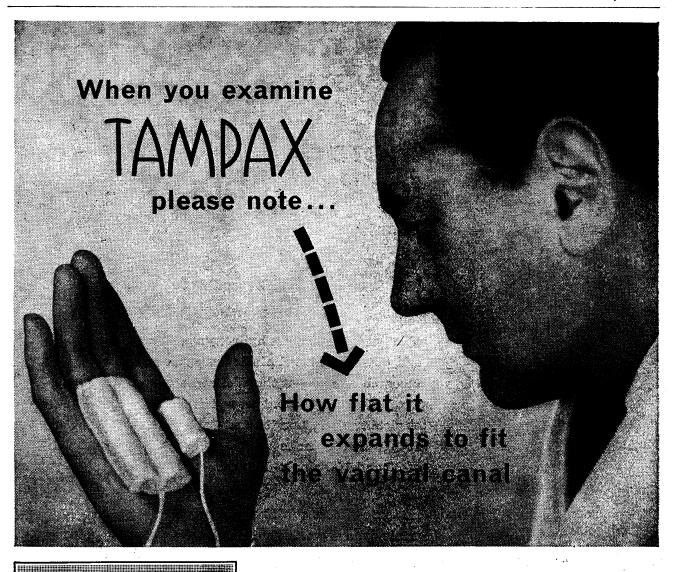

single dose the contents of one sachet, taken in water, controls both infections in the majority of cases. 'Alcopar' is therefore eminently suitable for large-scale use in the field, and for routine control in out-patient clinics, schools, etc.

no purging a useful advantage in mass treatment and an invaluable asset in dealing with seriously ill hospital patients.

Literature giving detailed clinical information on 'Alcopar' is now available at your request.

BURROUGHS WELLCOME & CO. (The Wellcome Foundation Ltd) LONDON
THE WELLCOME BUILDING EUSTON ROAD, LONDON, N.W.1, ENGLAND

Please note also-

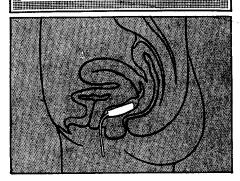

How easy it is for your patients to insert.

How gentle its contact with the vaginal epithelium.

How positive its wick action in absorbing the flux.

How dainty it is for the patients to remove.

How well it is adapted to individual needs.

The Tampax tampon is unique in providing "flat expansion"—conforming to the flat cross-section of the normal collapsed vagina. The Medical Profession realizes the essential physiological advantages of this feature; and patients appreciate the comfort of Tampax in situ.

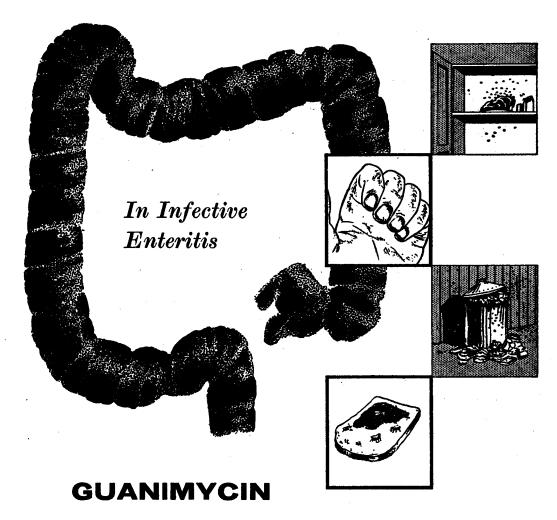

Indeed, because Tampax was designed by a physician the most thorough scientific consideration was given to all such essential details. To meet individual requirements Tampax is available in two absorbencies (Regular and Super). The surgical cotton is compressed to one-eighth of its original size, and is supplied in a simple individual applicator to assure easy insertion and a hitherto unknown degree of hygiene. When placed within the vaginal canal, Tampax expands without irritation or pressure on the cervix—its positive wick action drawing the flux freely away from the cervix and preventing any blockage of the flow.

The comfort, convenience and complete hygiene, which this modern form of menstrual protection provides, can contribute so much to your patient's peace of mind and encourage her to lead a normal life during the period.

If you have not closely examined Tampax, Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Belvue Road, Northolt, Greenford, Middlesex.

Tampax provides better physical management of menstrual hygiene

AUGROX is still the most acceptable, effective and safest antacid.

Prepared, dried and milled by a special manufacturing process, the aluminium hydroxide gel used in Aludrox is remarkable in that it buffers not less than 20 times its own volume of free gastric acid in an hour. Approx. cost per day's treatment; Gel-2d.; 13 gr. tablets-5d.

JOHN WYETH AND BROTHER LIMITED, CLIFTON HOUSE, LONDON, N.W.I

a new, effective treatment in a wide range of psychiatric disorders

rentazine reprenazine

broad-span effectiveness

- effective in anxiety and tension states
- effective in nausea and vomiting
 - effective in psychoneuroses
 - effective in psychoses

Fentazin is remarkably effective for the treatment of a wide range of psychiatric disorders. Fentazin is several times more active than older phenothiazines, and is effective in proportionately smaller dosage. Side-effects are greatly reduced: indeed, Fentazin in recommended dosage produces virtually no side-effects.

Because it is so safe, Fentazin may be used for the routine management of anxiety and tension states. Because it is so active, it is effective in even severe psychoses. Fentazin safely spans the field from anxiety to schizophrenia. Fentazin tablets contain 2 mg., 4 mg., or 8 mg. perphenazine. Supplied in bottles of 50 and 500 tablets of each strength. Fentazin Injection contains 5 mg. perphenazine in each c.c., supplied in boxes of 5×1 c.c. ampoules.

30%-50% of tuberculosis patients depart from their P.A.S. schedule when on domiciliary treatment. ¹²³ This unsatisfactory state of affairs can be largely attributed to the unpalatability of P.A.S. and the high incidence of gastric symptoms associated with it.

*Pasade adegrate granules have been designed to overcome all these difficulties. These new granules are unusual in that the sodium P.A.S. is processed with a special type of fat, the presence of which retards gastric release of the irritant P.A.S. in the stomach. Full release occurs only within the comparative safety of the intestine, when the danger of stomach upsets has passed. Published reports ⁴⁵ have confirmed the efficacy of this preparation and have demonstrated that high and sustained blood levels are produced.

Full details of clinical trials will be gladly sent on request.

THE NEW FRONTIER: Man's Survival in the Sky

by K. G. Williams, M.R.C.S., Assoc.M.I.Mech.E.

The New Frontier describes the hazards that man has to face when he leaves the earth's surface to fly within, or outside, its atmosphere. It discusses the nature and causation of these many human problems and dangers, and lays down the general principles by which they can be overcome. The aim of the book is to give a general picture of what aviation and the future possibility of space-flight mean in terms of human function and survival. 176 pages. 56 illustrations. (Publication June 25th)

NOBODY NEED BE FAT

by Robert Kemp, M.D., M.R.C.P.

The author makes no claims for "miracle cures," recognizing that the causes of overweight vary enormously from individual to individual. His book is designed to help the patient to grasp the simple dietetics underlying his own case. Subjects dealt with include Exercise and Activity, Smoking and Alcohol, Meals and Menus and Suggested Recipes. 160 pages. 12s. 6d.

COGNAC BRANDY AT ITS BEST

The richest source of natural vitamin C

Delrosa rose hip syrup is the ideal medium for the administration of Vitamin C. Babies tolerate it more readily than orange juice, and children of all ages enjoy its palatable flavour. Delrosa is made from rosehips, the richest source of Natural Vitamin C. It contains nearly three times as much Vitamin C as blackcurrant syrup B.P.C. and three times as much as fresh orange juice.

We shall be pleased to send a full size bottle for clinical trial, on request.

Delrosa

Every
fluid ounce
of Delrosa
contains
57 mgms. of
Vitamin C.

You, the doctor and the Clarks story

Clarks advertising is widespread—in the Press and on Television. Though it is not directed at the medical profession, you have probably seen it in the course of normal reading or viewing. Here we should like to tell you about the thinking which lies behind those advertisements.

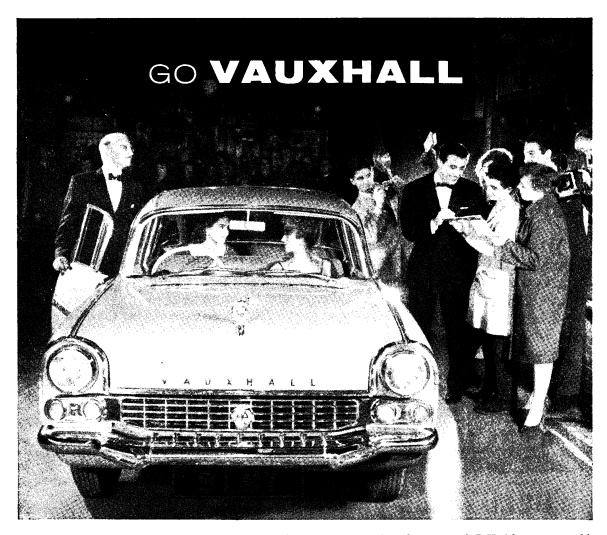

Most doctors seem to agree that a large number of the foot ailments suffered by adults are the results of wearing badly fitting shoes in childhood. Clarks have long been concerned with this problem—in fact, we have built up our business in the sincere belief that something ought to be done about it. We have tried to make available well designed and well constructed shoes for growing children. We make these in a choice of widths and in half-sizes, and we try to see to it that they are sold through authorized stockists with fully trained fittings staffs. We feel so strongly about this that we actually train our stockists' staffs in the art of foot-fitting and in the use of the Clarks Footgauge. Every Clarks specialist has one of these. This specialised shoe-fitting service is now available in almost every town and city throughout the United Kingdom.

Clarks shoes

fitted for length, width and girth

MEN IN THE LEAD ...

Whenever you find yourself at the centre of the scene, you will be glad you chose a Cresta. Here is the fine car that perfectly expresses your good taste; a car combining new beauty of line with the most advanced engineering features . . . panoramic vision, phenomenal roadholding, remarkably spacious interior and luggage boot, a new high standard of comfort, and superbly smooth performance. Only a trial run in the new Cresta (or Velox) can fully demonstrate to you its many advantages over other 6-cylinder cars. See your local Vauxhall dealer and he will gladly give you further details.

How Heinz Baby Foods simplify mixed feeding

The days are gone when mixed feeding involved mother in hours of work, sieving and straining meat and vegetables for her baby's dinner.

To-day, she finds it much more simple and pleasant—when you recommend Heinz Baby Foods as soon as baby is 11 or 12 weeks old. Baby takes his food more readily from a calm and relaxed mother, and this should result in happy, contented mealtimes that both mother and baby enjoy. And, with the 25 varieties of Heinz Baby Foods, a mother can give her baby the very best fruits, vegetables and meats all the year round.

All the ingredients used by Heinz are carefully selected, prepared in scrupulously hygienic conditions, and specially cooked to retain the maximum nutritional value. Accustoming baby as early as possible to this wide range of foods, trains growing appetites along healthy lines.

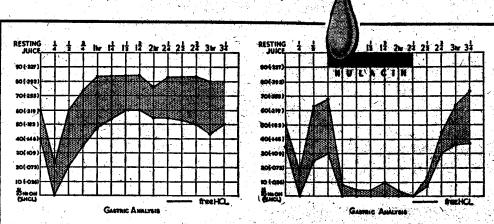

Further information about Heinz Baby Foods will be gladly sent on request. Please write to: H. J. Heinz Company Limited, Harlesden, London N.W.10

Only Malacin provides intracastric milk-cikeli drip therapy for the ambulatory patient

66 In view of the ineffectiveness of most of the tableted antacids, the milk alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy. 59

(Medical Times 1958, 1, 74)

NULAGIN TABLETS have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Antacids. The Practitioner, January 1957, 178: 43

Antacids in Peptic Ulcer. The Practitioner, January 1956, 176: 103

Recent Advances in the Ulcerative Diseases of the Gastrointestinal Tract. Amer. J. Gastro., December 1956, 26: 665

Ambulatory Continuous Drip Method in the Treatment of Peptic Ulcer. Amer. J. Dig. Dis., March 1955, 22: 67-71

Management of Peptic Ulceration in General Practice. *Med. World*, December 1954, 81: 591-601

Clinical Investigation into the Action of Antacids. The Practitioner, July 1954, 173: 46

Further Studies on the Reduction of Gastric Acidity. Brit. Med. J., 23rd January 1954, 1: 183-184

Control of Gastric Acidity by a New Way of Antacid Administration. J. Lab. & Clin. Med., 1953, 42: 955

The Effect on Gastric Acidity of "Nulacin" Tablets. Med. J. Aust., 28th November 1953, 2: 823-824

The basic N.H.S. price of the 25 tablet tube is 2/-.

Announcing

A NEW TOPICALLY SUPERIOR ANTI-INFLAMMATORY STEROID

NOW AVAILABLE FOR TOPICAL APPLICATION IN DERMATOTHERAPY

Adcortyl-A (triamcinolone acetonide) is a new synthetic corticoid compound with powerful anti-inflammatory and antipruritic action. Developed by the Squibb Institute for Medical Research and evaluated during preliminary clinical trials in over 1,000 patients, Adcortyl-A used topically has demonstrated its greater effectiveness in controlling most common dermatoses. Symptoms of itching and burning are dramatically relieved after topical

application of Adcortyl-A. A superior agent for both acute and chronic dermatoses, its greater anti-inflammatory action is most clearly apparent in the treatment of chronic, therapeutically refractory conditions, such as chronic eczematous dermatitis. Complete resolution is often obtained with Adcortyl-A where other topically applied steroids have failed.

Adcortyl-A in ointment or lotion form may be used for treatment of a wide variety of dermatoses including:

Atopic dermatitis Contact dermatitis Eczematous dermatitis

Neurodermatitis

Seborrheic dermatitis Insect bites Pruritus ani Pruritus vulvae

Lichen simplex chronicus Exfoliative dermatitis Stasis dermatitis Nummular eczema

Adcortyl-A safely and effectively provides for prompt symptomatic relief as well as control of many common dermatologic disorders.

In double-blind tests in 309 patients comparing 0.1% Adcortyl-A and 1.0% hydrocortisone, Adcortyl-A exhibited superior anti-inflammatory, antiallergic and anti-pruritic activity.

Adcortyl-A is extremely well tolerated locally. No systemic toxicity has been observed in clinical studies, published and in progress, involving over 1,000 patients. Metabolic studies show that there is no electrolyte disturbance when Adcortyl-A is applied topically.

SUPPLY Adcortyl-A lotion, 0.1% with Graneodin (each c.c. of lotion contains 2.5 mg. Neomycin, 0.25 mil. Gramicidin)—15 c.c. plastic squeeze bottles. Adcortyl-A lotion, 0.1%—15 .i.c. plastic squeeze bottles. Adcortyl-A ointment, 0.1% with Graneodin—5 Gm. and 15 Gm. tubes. Adcortyl-A ointment, 0.1%—5 Gm. and 15 Gm. tubes.

Adcortyl-A is a SQUIBB trademark

CLINICAL PATHOLOGY IN GENERAL PRACTICE

321 pages. Price 21s. (by post-inland and overseas, 22s. 3d.)

This handbook on clinical pathology meets the needs of the general practitioner, the houseman, and the senior student. It contains thirty-nine articles comprising a series specially written for the British Medical Journal. Each article has been revised and brought up to date by its author. The book gives authoritative information on—

- available laboratory facilities
- reliable tests and which to use
- techniques for collecting and preserving specimens
- interpretation of results and significance of abnormal findings

Obtainable from booksellers or by post from Publishing Manager BRITISH MEDICAL ASSOCIATION

B.M.A. House, Tavistock Square, London, W.C.1 or from Regional Offices of the Association

REFRESHER **PRACTITIONERS**

- Second Collection
- Third Collection, with Classified Contents list to volumes 1, 2 and 3

Price 25s. each (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the British Medical Journal. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well established and to tell him about new developments.

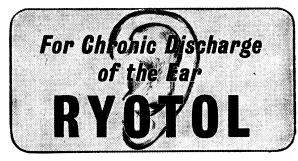

They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners.'

From booksellers or by post from Publishing Manager

BRITISH MEDICAL ASSOCIATION

RYOTOL is lethal to Ps. pyocyanea, Staphylococcus aureus, Proteus vulgaris and Streptococcus pyogenes found in C.S.O.M. and Otitis Externa.

The presence of Ps. pyocyanea has been demonstrated in 90% of cases of chronically discharging ears. This gram-negative, highly resistant organism is unaffected by penicillin, sulphonamides and many other bactericides. It produces abundant pus and is therefore extremely troublesome.

RYOTOL Ear Drops are the outcome of clinical work on humans, following outstanding results obtained in the veterinary field.

EDINBURGH POSTGRADUATE BOARD FOR MEDICINE

SURGERY

Three-month courses of postgraduate surgery suitable for surgeons requiring a refresher course in the current outlook on surgery or for graduates preparing to specialize in surgery start on September 28, 1959, and March 14, 1960. The programme has been arranged so as to provide co-ordinated clinical and systematic instruction in general surgical wards and specialized surgical units in Edinburgh. Fee £37 12s. 6d.

MEDICAL SCIENCES

A three-month course in Applied Anatomy, Physiology, Pathology, Bacteriology and Biochemistry will begin on June 20, 1960. This course includes an adequate amount of practical instruction and is suitable for postgraduates wishing to take the Primary Fellowsh p examination. Fee 37 12s. 6d., including matriculation fee of £2 12s. 6d. Courses in the Basic Sciences (Anatomy, Physiology, Pathology, including Bacteriology) are arranged by the Royal College of Surgeons under the aegis of the Edinburgh Postgraduate Board for Medicine. These courses, comprising lectures, demonstrations and practical instruction, will begin on February 1 and September 26, 1960, and continue for 12 weeks. Fee £35. Courses in Medical Sciences are designed as a final preparation for the Primary Fellowship examination, and it is essential that those attending should already have a considerable knowledge of the subjects.

INTERNAL MEDICINE

Courses lasting 12 weeks, suitable for graduates desiring a refresher course or to specialize in Medicine, begin on September 28, 1959, and March 21, 1950. These courses consist of 320 hours' instruction, comprising lectures, clinical demonstrations and ward visits. Fee 237 12s. 6d. Additional instruction in Clinical Paediatrics, Tropical Medicine and Clinical Chemistry is arranged in conjunction with the course in Medicine. There is a small additional fee and the numbers are limited.

a small additional fee and the numbers are limited.

HILL PATTISON-STRUTHERS BURSARIES
The Royal College of Physicians of Edinburgh award two Hill Pattison-Struthers Bursaries each year to graduates attending the Internal Medicine Course. Each bursary amounts to £100. Applications must be submitted to the Secretary, Royal College of Physicians of Edinburgh, 9, Queen Street, Edinburgh, 2, before July 1, 1959, for those attending the September, 1959, course.

REFRESHER COURSE FOR GENERAL.

REFRESHER COURSE FOR GENERAL
PRACTITIONERS
The twenty-seventh fortnight Refresher Course for general practitioners wil start on May 2, 1950. Fee for graduates not claiming expenses from Government sources, 10 guineas. Applications for enrolment should be addressed to the Director of Postgraduate Studies, Surgeons' Hall, Edinburgh, 8. Applicants for courses, except general practitioners, should supply particulars of qualifications and postgraduate experience. (3098)

POSTGRADUATE COURSE IN INDUSTRIAL
OPHTHALMOLOGY
To be held at the Birmingham and Midland Eye
Hospital. September 21 to 25, 1959. The course
is for Ophthalmologists and Industrial Medical
Officers, but is open to all medical practitioners,
It will include clinical demonstrations, lectures on
industrial diseases and injuries, also visits to local
factories. Fee £5 55, for the full course, £2 125, 6d,
for morning sessions only. The syllabus can be
obtained from the Secretary, Industrial Ophthalmology Course, Birmingham and Midland Eye Hospital, Church Street Birmingham, 3, (3088)

ST. BARTHOLOMEW'S HOSPITAL MEDICAL COLLEGE

FINAL F.R.C.S.—NOVEMBER, 1959
A course will be held for the above examination on Tuesday and Thursday evenings at 6.30 p.m., starting on Tuesday. September 1. 1959, and ending on Thursday. October 22, 1959. The course will consist of 16 clinical tutorial classes with short cases followed, by lecture-demonstrations on selected subjects. The course is not comprehensive. The class will be limited to 24 members. Fee: Twenty guineas, or to Bart's men fifteen guineas. Entry forms must be obtained from the Sub-Dean, St. Bartholomew's Hospital Medical College, West Smithfield, E.C.1. The closing date for applications is July 1, 1959. (3008)

Educational and Lectures-contd.

THE UNIVERSITY OF SHEFFIELD

A refresher course for general practitioners will be held during the week beginning Monday, September 28. The fee is five guineas, and accommodation at one of the University's Halls of Residence can be arranged at a moderate additional charge. N.H.S. practitioners are (subject to certain conditions) eligible to have the course fee paid on their behalf and to receive also certain allowances (travelling expenses, subsistence, locum fees). As the number who can be accepted is limited, enquiries and applications (stating whether or not he latter are under the Scheme for N.H.S. practitioners, and whether residential accommodation is desired), should be addressed as soon as possible, to the Dean of the Faculty of Medicine, The University, Sheffield, 10. Available as cream and ointment in tubes of 5G. (basic N.H.S. price 3s. 3d.) and 20G containing 3% iodochlorhydroxyquinoline and 1% hydrocortisone.

'Vioform' is a registered trade mark. Reg. user CIBA Laboratories Limited, Horsham, Sussex

1/9

-the new name in steroids
WITH SIMPLER DOSAGE SCHEMES, INCREASED POTENCY

'Secrosteron' marks a significant advance in its specific field. It is a highly potent, orally active progestational agent. It brings about true secretory changes in the endometrium; and it has no estrogenic or androgenic action. Above all it has increased potency over ethisterone and is active in a wide range of conditions, at many times smaller dosage levels.

DOSAGE 'Secrosteron' dosage schemes are simple—5 mg. three times daily in cases of Premenstrual Tension, Threatened Abortion, Menorrhagia, Metrorrhagia, Toxæmia of Pregnancy and Amenorrhæa.

5 mg. daily for Habitual Abortion.
