Cedilanid

BY **SANDOZ**

rapid digitalisation
easy maintenance
—and safety above all

TABLETS: 0.25 mg. lanatoside C

AMPOULES: 0.4 mg. desacetyl-lanatoside C in 2 ml.

“...Cedilanid is probably safest of all”

— British Encyclopaedia of Medical Practice, 6, 407

MELSE DIN

produces
natural
sleep

MELSE DIN—methaqualone hydrochloride—is a new non-barbiturate hypnotic which produces *natural* sleep and is often effective where other hypnotics have failed. Melsedin is of low toxicity, quick-acting—within 15-30 minutes—and its effect lasts for 6-8 hours. Side-effects are negligible; rapid excretion obviates cumulative effects, and neither tolerance nor addiction has been demonstrated in Melsedin therapy.

Melsedin is an entirely new product chemically unrelated to all other hypnotics. It is the ideal alternative to barbiturates in the treatment of insomnia.

DOSEAGE: A dose of 150 mg. 15-30 minutes before retiring will usually be sufficient. In some cases, a dose of 300 mg. may be necessary at first, reducing later as the condition responds.

● **FREE FROM THE
DISADVANTAGES OF
BARBITURATES**

● **NON-HABIT-FORMING**

Melsedin is supplied in tablets of 150 mg.

Basic N.H.S. prices:

containers of 25 — 5s. (Plus P. Tax)

containers of 100 — 13s. (Plus P. Tax)

containers of 500 — 60s. (Plus P. Tax)

Further information will be gladly sent on request.

NULACIN "has revolutionized the treatment of duodenal ulcer"

"This new method of the administration of antacids (Nulacin) has revolutionized the treatment of duodenal ulcer... milk drip is no longer part of our therapeutic stock in trade."

PROC. ROY. SOC. MED., December, 1958, 51, 1063

NULACIN tablets, when allowed to dissolve slowly in the mouth, provide intragastric milk-alkali drip therapy safely and effectively for both the bed-ridden and ambulant patient. They may be relied on to provide a treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity.

The safety and effectiveness of Nulacin therapy has been proven by "in vivo" clinical work carried out in many countries. References to this work include:—

Current Status of the Medical Treatment of Peptic Ulcer, *Med. Times*, January, 1958, 1, 74

INSTITUTIONAL NEUROSIS

By Russell Barton

Institutional neurosis is, so to speak, a 'mental bed-sore,' says the author, which occurs also in such institutions as prisoner-of-war camps, orphanages, prisons, convents, etc., but it responds to treatment. He discusses the differential diagnosis, clinical features, aetiology, and treatment of this disorder.

57 pages. Illustrated. 8s. 6d., post 5d.

BIOCHEMICAL VALUES IN CLINICAL MEDICINE

By Robert D. Eastham

The author's aim in this book is to provide an accurate summary of the ways in which various conditions affect many biochemical tests. The book will stimulate a greater interest in clinical chemistry.

PAVACOL

COUGH SYRUP

Papaverine relaxes the bronchi by direct action. Pholcodine is a central cough suppressant. In PAVACOL these ingredients are combined with mild expectorants and demulcents. The apparent synergistic effect which this formula produces makes necessary only small doses, rendering PAVACOL suitable even for small children. PAVACOL is supplied in bottles of 4, 16 and 80 ounces.

PAVACOL diabetic syrup and pastilles are also available.

These are the advantages of

Calcium B-PAS **WANDER**

and

B-Pasinah **WANDER**

(calcium B-PAS Wander plus isoniazid)

in the

Chemotherapy of Tuberculosis

B-PAS (Wander), benzamidosalicylic acid, first introduced by our Research Laboratories in 1948, is the drug of choice in regimens comprising PAS in concurrent therapy.

In the form of its calcium salt, it provides extended bacteriostatic levels, induces only minimal side-effects as compared with sodium PAS, and because of its high acceptability guarantees as far as possible that patients, particularly on domiciliary treatment, do take their medication.

Available in 3.5 g. envelopes and in 1 g. cachets; and as bulk powder.

'B-PASINAH' is available in two convenient forms:

Powders each containing 3.5 g. calcium B-PAS (Wander) and 87.5 mg. isoniazid.

Cachets each containing 1 g. calcium B-PAS (Wander) and 25 mg. isoniazid.

must it be an antibiotic?

Recent literature stresses the dangers inherent in the widespread and sometimes indiscriminate use of antibiotics, and emphasises the continuing value of sulphonamide therapy. Many organisms resistant to antibiotics still retain their sensitivity to sulphonamides. 'CREMOTRESAMIDE' is a microfine suspension of three well-known sulphonamides. Its delightful flavour ensures its ready acceptance by children—an important asset in General Practice.

Dosage: Adults—6 to 8 teaspoonfuls initially, followed by 2 teaspoonfuls every six hours.

Children—Depending on weight, 1½ to 8 teaspoonfuls daily in divided doses.

The United Kingdom N.H.S. basic cost is 1s. 3d. per fl.oz.

Solprin·Codis·Cafdis

Contain neutral stable soluble aspirin

SOLPRIN. Dissolves in water to form a true solution of calcium acetylsalicylate (neutral soluble aspirin).

Clinical evidence produced over a long period of years indicates that Solprin is unlikely to irritate the gastric mucosa, even in the massive dosage prescribed in rheumatic conditions.

More rapidly absorbed, giving a quicker effect.

CODIS. Neutral soluble aspirin with phenacetin and codeine phosphate.

CAFDIS. Neutral soluble aspirin with phenacetin and caffeine.

.....
N.H.S. basic prices for 500 tablets in foil, which ensures protection from moisture:

SOLPRIN 12/6 · CODIS 25/- · CAFDIS 16/-

Relief without risk!

CALPOL TABLETS

a safe, non-irritant, low cost analgesic

CALPOL

- * A **NON-SALICYLATE** analgesic and antipyretic
- * No adverse cardiac effects
- * Rapidly absorbed and quick acting
- * Does not cause occult bleeding. Non-constipating
- * Suitable for children
- * May be given to dyspeptics and peptic ulcer patients without any undesirable effects
- * For occasional or prolonged use

INDICATIONS For use whenever a safe analgesic or antipyretic is required.

For relief of rheumatic pain, dysmenorrhoea, headaches, coryza, influenzal states, tonsillitis and other pyrexial conditions.

FORMULA Each tablet contains 0.5 gm. Paracetamol.

DOSE Adults: 1 or 2 Tablets repeated after 3-4 hours if necessary.

Children:

2-6 years of age $\frac{1}{4}$ - $\frac{1}{2}$ Tablet.

7-12 years of age $\frac{1}{2}$ -1 Tablet.

Mornidine

An entirely
new drug
for the safe
and specific
treatment of
nausea and
vomiting
of pregnancy

Mornidine for morning sickness

Mornidine is a new phenothiazine in which a useful separation of activities has been achieved. Even at maximum therapeutic dosage levels Mornidine does not have the specific tranquillising action of previous phenothiazine drugs and is therefore not liable to produce the characteristic side effects associated with this type of activity.

Mornidine (brand of Pipamazine) is available as a sugar-coated tablet containing 5 mg.

G. D. **SEARLE** & CO. LTD., HIGH WYCOMBE, BUCKS.

FOR SUPPRESSION OF**severe
cough**

'PHYSEPTONE' LINCTUS has a direct suppressive action on the cough reflex. It is especially valuable in such conditions as bronchiectasis, pertussis, post-influenzal tracheitis, chronic passive pulmonary congestion, pulmonary tuberculosis, and other conditions requiring a powerful cough suppressant.

'PHYSEPTONE' LINCTUS is not constipating, and seldom causes other side-reactions. Although subject to D.D.A., the Linctus in therapeutic doses carries negligible risk of addiction since only a small amount of the drug is contained in such doses.

'PHYSEPTONE' LINCTUS contains 2 mgm. of methadone hydrochloride in each fluid drachm (the recommended adult dose). For children it should be diluted with simple syrup in the proportion of one part linctus and seven parts syrup—one to two teaspoonfuls (0.25—0.5 mgm.) of this *diluted* linctus to be given according to the age of the child.

**a NEW ointment for the treatment
of all bacterial skin infections**

A NEW ANTIBIOTIC

ECOMYTRIN Ointment contains amphomycin, 0.5%, a potent new antibiotic derived from *Streptomyces canus* which has substantially the same antibacterial spectrum as penicillin and bacitracin. Neomycin, 0.33%, is also included and these two antibiotics are effective against virtually all pathogenic bacteria. Neither antibiotic is used systemically.

A NEW BASE

ECOMYTRIN differs from other antibiotic ointments in one important respect. Because amphomycin is stable in water, it is possible to make an oil-in-water preparation with the whole of the antibiotic content in the aqueous phase. This has three advantages:

- 1** The antibiotics are brought into very intimate contact with the skin and response is rapid.
- 2** In acute infected weeping lesions, there is no interference with the weeping process (in contrast to greasy ointments).
- 3** ECOMYTRIN is cosmetically acceptable.

rapidly effective · economical · non-greasy · pleasant to use · stable

INDICATIONS: Primary infective skin disorders. Secondly infected skin disorders.

ADMINISTRATION: Ecomytrin should be used three or four times daily in a thin layer applied directly to the affected skin area.

ACTIVE INGREDIENTS: Amphomycin 0.5% Neomycin 0.33%.

PRESENTATION: Ecomytrin is available in tubes of 15 G.

WILLIAM R. WARNER & CO. LTD., EASTLEIGH, HAMPSHIRE.

ECU 428/4

IN MEDICAL EMERGENCIES.....

It is the general practitioner, rather than the Casualty Officer, who is called to treat the Home Emergency...

- * the patient who alarms his family by becoming confused after a few days of influenza...
- * the patient who cannot be roused in the morning, and who is known to have been taking barbiturates for sleeplessness...
- * the puerperal patient who suddenly becomes disorientated...
- * the post-gastrectomy patient whose convalescence fails to progress...
- * the cardiac case who does not improve on digitalis, salt-restriction and rest...

... these are merely a few examples of induced tissue deficiencies for which **PARENTROVITE**, containing massive concentrations of the B and C vitamins, may provide the answer.

The formula of **PARENTROVITE** is based on the fact that normal cerebral function depends on the oxidation of glucose, and that any interference with the underlying biochemical mechanisms can cause symptoms of mental disturbance. Severe infections, burns, trauma, surgical operations and stresses of all kinds can be as potent as drugs or alcohol in causing interference with the enzyme systems responsible for glucose oxidation and resultant failure of return to health.

To reverse such changes, and to restore normal cerebral function, massive doses of the B vitamins and ascorbic acid are needed—doses out of all proportion to normal nutritional needs. The vitamins are here used not as nutrients, but as potent drugs employed pharmacologically.

Parentrovite

THE BRITISH DRUG HOUSES LTD. (Medical Department) LONDON N.1

Have you received your copy of

MODERN CONTRACEPTIVE TECHNIQUE?

This practical manual on contraception has already proved invaluable to many doctors in advising their patients. It presents a concise and compact survey of methods commonly used, together with notes on methods which have medical approval, and also on others which are medically contra-indicated. If you have not yet received a copy, you are invited to write for one now.

The case against 'natural' methods

Medical opinion generally agrees that the practice of so-called "natural" methods of contraception (coitus interruptus, coitus reservatus, etc.) can have an adverse effect on physical and mental health. One of the principal reasons why these unreliable methods are used is the slight loss of sensitivity experienced with protectives (condoms).

This problem has now been almost entirely overcome by the introduction of Durex Gossamer, a new kind of *lubricated* protective. Durex Gossamer, is treated with Sensitol, "a non-wet, non-messy" lubricant which substantially increases the level of sensitivity. *Samples of Durex Gossamer protectives on request.*

The richest source of natural vitamin C

DELROSA ROSE HIP SYRUP is the ideal medium for the administration of Vitamin C. Babies tolerate it more readily than orange juice, and children of all ages enjoy its palatable flavour. Delrosa is made from rose-hips, the richest source of Natural Vitamin C. It contains nearly three times as much Vitamin C as blackcurrant syrup B.P.C. and three times as much as fresh orange juice.

We shall be pleased to send a full size bottle for clinical trial, on request.

Delrosa
ROSE HIP SYRUP

Every fluid ounce of Delrosa contains 57 mgms. of Vitamin C.

Scott & Turner Ltd., Andrews House, Newcastle upon Tyne.

Why parents need special aspirin for their children...

Many parents find it difficult to measure sub-doses of adult aspirins when they have to administer them to children. Angiers Junior Aspirin overcomes this difficulty because it is correctly measured to the safe child's dose of $1\frac{1}{4}$ grains of aspirin per tablet.

Not only is Angiers Junior Aspirin easy for parents to administer safely but children find it pleasant to take because it is orange-flavoured. Angiers Junior Aspirin also contains $1\frac{1}{4}$ grains of Di-calcium Phosphate per tablet, to check any possible acid irritation of sensitive stomachs.

ANGIERS JUNIOR ASPIRIN

Specially made for children

THE PATIENT SPENT A COMFORTABLE NIGHT AT A WASHINGTON GROUP HOTEL

Patients coming to the Harley Street/Wimpole Street area for treatment are well-advised to follow their doctor's lead—and patronize one of the four Washington-Group Hotels nearby. Here—at the Mandeville, the Clifton Ford, the Mostyn or the Stratford Court—they may complete their treatment by spending the night in a luxuriously restful room, or celebrate their return to health by enjoying the artistry of our superb chefs.

To spend even an hour or so in an atmosphere of such tranquil elegance is a tonic that doctors thoroughly recommend... and the prices are sensible enough to encourage frequent 'doses'.

THE QUÈRE TITRATOR

has wide applications in
recording physico-chemical processes

The Quère Titrator is a precision instrument for recording titrations accurately. Equipped with an automatically variable recording table to suit the gradient of the curve, it permits the rate of advance to be reduced when the rate of change increases. Reagent flow is controlled by the table mechanism and by changing the jet of the syringe, the volume being represented by the abscissa of the graph and the state of mixture by the ordinate. The circle method determines accurately the end points of titration. *The circuit permits all kinds of potentiometric titrations, and with special attachments it is possible to perform conductimetric or polarised-electrode titrations.*

- * **PHOTOMETRY** The Quère strip photometer attachment is provided with filters and a vacuum type photocell giving accurate and stable readings.
- * **USING A LIQUID MEDIUM** photometric attachment to this Recorder allows any photocolometric titration, recording photometric variations instead of equivalent points.
- * **INTEGRATION** The Recorder automatically integrates the curve as it is traced. The results are entered on the axis of the ordinate of the curve by means of an electric pen marking 'tens' and 'units'.
- * **RECORDING TIME FUNCTIONS** The Titrator is fitted with a zero drift correcting circuit using an automatic potentiometer. To make accurate measurements it is necessary only to check the zero periodically; the instrument itself will then introduce the necessary corrections.

Write for fully illustrated and descriptive leaflet.

Deep skin penetration in Arthritis and Rheumatism

**NICOTINIC, SALICYLIC AND
p-AMINOBENZOIC ACIDS in Ester form**

In cases of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau 1952, 8, 143

the world's discovered Malta

the newest, sunniest, Mediterranean playground

There's an accent on relaxation in Malta — where a holiday inspires the feeling that one has at last got away from it all. Perhaps that is why it is becoming increasingly fashionable among people in search of a changing rhythm from the hurly-burly of life. Possibly the scenery accounts for it — the sands are whiter, the skies bluer, the sea warmer. Or it could be the year-round sunshine. Of course there's the kind of sport that helps one to limber up in a way all of us would like to — effortlessly. Or can we ascribe Malta's popularity to 'atmosphere' — an atmosphere fostered by the cultural legacies of civilizations going back 5000 years. In the silver shadows of its cathedrals and grand palaces history does seem to come alive.

*When you recommend a rest, recommend Malta —
In fact, take a trip there yourself sometime.*

Malta

ADRENOXYL

reduces the mean capillary bleeding time

Adrenoxyl is a capillary haemostatic which reduces the mean capillary bleeding time by increasing the contractility and resistance, and decreasing the permeability of the capillary wall.

Reduces capillary oozing

Reports have been received of the value of Adrenoxyl in diminishing capillary oozing both at the time of operation and post-operatively in many types of operation, including ear, nose and throat, ophthalmic, plastic and dental surgery. It has no effect on venous or arterial bleeding.

Safe and free from side-effects

Adrenoxyl is safe, and no side-effects have been reported following its use. It does not affect pulse rate, blood pressure, nor blood coagulation.

Packs

Adrenoxyl is available in ampoules for intramuscular or subcutaneous injection and in tablets for oral administration.

AMPOULES Each 2 ml. ampoule contains 0.75 mg. of

adrenochrome monosemicarbazone dihydrate. The ampoules are packed in boxes of 6 and 50.

TABLETS Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate. The tablets are packed in tubes of 25 and bottles of 500.

REFRESHER COURSE FOR GENERAL PRACTITIONERS

● Second Collection

● Third Collection, with Classified Contents list to volumes 1, 2 and 3

Price 25s. each (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the *British Medical Journal*. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments.

They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years; £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) *Provisionally registered medical practitioners*: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) *Fully registered medical practitioners*: £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER**: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER**: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

ASSISTANT COUNTY MEDICAL OFFICER

to undertake duties primarily connected with maternal and child welfare. Salary scale £1,150 by £60 to £1,510 by £65 to £1,640. Previous experience may be taken into consideration in determining the commencing salary. Travelling and subsistence allowances when applicable will be paid in accordance with the Council's scale. The appointment is subject to superannuation, and will be determinable by three months' notice on either side. The successful candidate will be required to pass a medical examination. Applicants must hold a driving licence. Mileage allowance will be paid, or a car provided. Forms of application, and any further particulars required, may be obtained from the County Medical Officer, County Hall, Newcastle upon Tyne, 1, and must be returned not later than January 25, 1960. (7871)

STAFFORDSHIRE COUNTY COUNCIL**APPOINTMENT OF ASSISTANT COUNTY MEDICAL OFFICER AND SCHOOL MEDICAL OFFICER**

Applications are invited from fully qualified medical practitioners, and those holding the Diploma of Public Health will be given preference. The candidate appointed will undertake clinical work in the School Health and Child Welfare Services under the direction of the County Medical Officer of Health, and will be required to perform such other duties as may from time to time be prescribed. The salary scale is £1,150 by £60 to £1,510 by £68 to £1,640, and the Local Authority may, at its discretion, take account of previous professional experience when determining the commencing rate. The appointment will be terminable by three months' notice in writing on either side, and subject to the provisions of the appropriate Superannuation Acts and Regulations, in which connexion the selected candidate must pass a medical examination and submit his or her birth certificate. Forms of application may be obtained from the County Medical Officer, County Buildings, Stafford, to whom they should be returned, when completed, not later than January 18, 1960.—T. H. Evans, Clerk of the County Council, County Buildings, Stafford. (7870)

STATES OF GUERNSEY**ASSISTANT MEDICAL OFFICER OF HEALTH**

Applications are invited for the above post from registered medical practitioners. Possession of D.P.H. and D.C.H. an advantage. Duties will be principally connected with the tuberculosis and school medical services, but will include general public health work when required. Applicants should have special experience in tuberculosis. Salary scale £1,150 to £1,640, according to experience. The post is pensionable, subject to the provisions of a non-contributory staff pension scheme, and, unless he is unable to qualify thereunder, the successful candidate will be subject to the rules and regulations governing the Contingency Fund to provide pensions to widows and orphans of the male members of the salaried staff. Particulars may be obtained from the Secretary, States Appointments Board, Royal Court House, Guernsey. Applications, stating age, sex, qualifications, and giving details of experience, with names and addresses of three referees, to be sent to the President, States Appointments Board, Royal Court House, Guernsey, before January 31, 1960, (7897)

Applications (12 copies), stating date of birth, qualifications, experience, present appointment, and the names of three referees, to reach the Secretary, Western Regional Hospital Board, 64, West Regent Street, Glasgow, C.2, by January 30, 1960. (7963)

GOVERNMENTAL**PART-TIME MEDICAL OFFICER—WAR OFFICE**

Part-time Medical Officer required at the Royal Ordnance Factory, Chorley, Lancs. Applications are invited from registered medical practitioners. Duties may include pre-employment examinations, periodic examination of those at special hazard, and attendance in case of injury. Payment on a sessional basis. Applications forms, and further details, should be obtained, within two weeks of this advertisement, from Ministry of Aviation, Est.1(C)2, Shell Mex House, Strand, W.C.2. (7982)

COMMERCIAL APPOINTMENTS

BOOTS PURE DRUG COMPANY LTD. invite applications from registered medical practitioners for appointment as an Assistant Medical Adviser in their Medical Department. This is not a new post but a replacement for a retiring member of the staff. In addition to the Head of the Department there are three qualified medical advisers. The department is responsible for the organization of clinical trials, the provision of a comprehensive medical service and also for close co-operation on all medical and scientific matters with the Research Department. The successful candidate will be required to take full part in all these departmental functions. Applicants should be under 40 years of age and have had several years' clinical experience, preferably both in hospital and general practice. Some knowledge of clinical and laboratory research and in particular postgraduate experience in pathology and histology would be an advantage. A higher qualification is not essential. The appointment is permanent and full-time, and the salary will be according to qualifications and experience, but will not be less than £1,500 per annum. The Company operates a contributory pension scheme. Applications, stating age, experience, and full particulars of medical experience, should be sent to the Head of the Medical Department, Boots Pure Drug Co. Ltd., Station Street, Nottingham, and will be treated with strict confidence. (7544)

SERVICES**ROYAL NAVAL RESERVE
H.M.S. SUSSEX
(Sussex Sea Training Centre, Hove)**

Applications are invited for appointment as **SURGEON LIEUTENANTS** in the Royal Naval Reserve. The duties include evening work at the Sea Training Centre, with periods of training at sea, at naval air stations, in hospitals and on special courses. Candidates should have completed their National Service. Seniority will be adjusted in accordance with previous commissioned service in any branch of the Armed Forces, including the Medical Service of the Royal Navy. For further details apply to the Staff Officer, R.N.R. Sea Training Centre, Kingsway, Hove, Sussex (Tel. 34072). (7904)

THE MEDICAL SERVICE OF THE ROYAL NAVY**VACANCIES FOR MEDICAL OFFICERS**

Candidates are invited for Short Service Commissions of three years, on termination of which a gratuity of £600 (tax free) is payable. Ample opportunity is granted for transfer to permanent commissions on completion of one year's total service. Officers so transferred are paid instead a grant of £1,500 (taxable). All entrants are required to be British subjects, whose parents are British subjects, medically qualified, physically fit, and to pass an interview. Full particulars from the Admiralty Medical Department, Queen Anne's Mansions, St. James's Park, London, S.W.1.

INDUSTRIAL APPOINTMENTS**(Vacant)**

Attention is drawn to the B.M.A. statement of policy on the remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958), which is available on request from the Secretary.

CENTRAL ELECTRICITY GENERATING BOARD**REGIONAL MEDICAL ADVISER**

Applications are invited from registered medical practitioners for the full-time appointment of Regional Medical Adviser to the Eastern, London and South-Eastern Region of the Board based at Westminster, London, S.W.1.

The successful candidate will be responsible to Regional Director for the organization and supervision of medical and health services throughout the Region, which controls the power stations and transmission systems in Eastern and South-Eastern England, including the London area. He will supervise the work of assistant medical advisers, nursing staff and nominated first-aiders. He will in addition be encouraged to undertake the investigation of specific industrial medical problems, and facilities would be made available for this purpose.

Candidates should be over 30 years of age, and experience in industrial medicine is desirable. A higher qualification in medicine would be an advantage but is not essential.

Salary range £2,820 to £3,020 per annum. Applications, stating age, qualifications, experience, present position and salary, to the Personnel Officer, 24/30, Holborn, London, E.C.1, by January 15. Envelopes should be marked "Confidential. Ref. BM/476A." (7933)

FACTORY DOCTORS**FACTORIES ACTS, 1937 and 1948**

The following appointment as Appointed Factory Doctor is vacant: Alyth, in the County of Perth. Applications, which should be received not later than January 16, 1960, should be sent to H.M. Chief Inspector of Factories, 19, St. James's Square, London, S.W.1. (7903)

BIOCHEMISTS

Bradford "A" Group Hospital Management Committee

St. Luke's Hospital and St. Luke's Maternity Hospital (total 849 beds)

Non-Medical Biochemist (Senior grade)

to supervise the Biochemistry Section of the Pathological Department. Applications to Secretary, Royal Infirmary, Bradford, 9. (8007)

New End Hospital, Hampstead, London, N.W.3

Basic Grade Biochemist

required for the Department of Endocrinology. Previous experience in clinical biochemistry an advantage. Detailed applications, naming two referees, to the Surgeon Superintendent by January 12, 1960. (7732)

United Birmingham Hospitals

Applications are invited for the appointment of an **Assistant Biochemist (Basic grade)**

at the General Hospital. Candidates should possess a Science Degree, preferably with Honours in Biochemistry or Chemistry, or the A.R.I.C. This post is a temporary one in the first place, but the prospects of a permanent appointment are good. Applications, with the names of two referees, should be sent to the House Governor, the General Hospital, Birmingham, 4, within two weeks of the appearance of this advertisement. (7999)

SITUATIONS VACANT

University of Cape Town/Provincial Administration of the Cape of Good Hope/Joint Staff

Physiology Technician

Applications are invited for a vacant post of **Grade I Technician** in the Department of Physiology and Pharmacology. The technician will be responsible for the performance of biological tests on material from hospital patients and should have experience of laboratory routine in either a physiology or a pathology department. Experience in handling laboratory animals will be an advantage. The salary scale is £1,080 by £60 to £1,260 per annum, initial placing depending on qualifications and experience. Applicants should state age, qualifications and experience, and give the names of two referees whom the University may consult. Two copies of the application (with copies of testimonials) should reach the Secretary, Association of Universities of the British Commonwealth, 36, Gordon Square, London, W.C.1 (from whom a memorandum giving the general conditions of appointment for technicians should be obtained), by January 19, 1960. A third copy should be sent direct by airmail to the Registrar, University of Cape Town, Private Bag, Rondebosch, Cape Town, South Africa, by the same date. The University reserves the right to appoint a person other than one of the applicants or to make no appointment. (7857)

ST. ANDREWS HOSPITAL, NORTHAMPTON

For Nervous and Mental Disorders

President: The Earl Spencer, Medical Supt., Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M. This registered hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble, temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided. **MOULTON PARK.**—Two miles from the main hospital there are several branch establishments and villas situated in a park and farm of 650 acres. Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds, with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods; insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department of Diathermy and high-frequency treatment. It also contains laboratories for biochemical, bacteriological and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairfechan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore. There is trout-fishing in the park.

At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent. (Telephone No.: Northampton 4354 (3 lines)), who can be seen in London by appointment.

WYKE HOUSE, ISLEWORTH, MIDDLESEX

Tel.: ISLEWORTH 7000

A Private Nursing Home for the individual treatment and care of all forms of Nervous and Mental Illness, including addiction. The number of patients is limited to twenty-five, and all modern treatments are available. This well-known home for men and women and the aged stands in a park of 15 acres, seven miles from Marble Arch. Resident Physicians: H. Pullar-Strecker, M.D., G. W. Smith, O.B.E., M.B.

ORION
PETRI DISHES

The fact that the walls of the dishes made by the most up-to-date manufacturing processes are free from bubbles, streaks, rings and discoloration guarantees undisturbed examination and accurate counting of the microbe colonies.

Its material is accordance with the use to which the dish is put, resistant perfectly to chemical and thermal effects.

The glass of the dish contains any harmful internal inclusion detectable with an optical stress tester, and this circumstance guarantees the high breaking strength necessary during sterilization in an autoclave.

When rest and tonic air are what the patient needs

HASTINGS AND ST. LEONARDS

are what the doctor might order

Hastings is one of the nearest places to London that combines a mild climate with complete absence of smog, plus excellent hotels—and the peace and quiet a convalescent needs.

A patient can hardly fail to benefit by (literally) a 'breather' at Hastings. There is, on average, 400 hours more sunshine a year than in

London. There are cleverly designed suntrap shelters on the Promenades. And there is a delightfully relaxed feeling about the whole town. As a spot for taking it easy, Hastings is hard to better.

A postcard to the P.R. 37 Bureau, Hastings, Sussex, will bring you more information.

pencil (complete in
aluminium case) 2/-

Soothes instantly, encourages rapid reduction of inflammation and promotes healing. Pernomol can be applied to broken chilblains, but early treatment will prevent this complication. Pernomol is applied directly and economically from the convenient pocket vial (in aluminium case). Pernomol is free from sensitization. It is not advertised to the public and can be prescribed on N.H.S. Form E.C.10.

or three times daily.

Nutrition in Geriatrics

An adequate diet plays a considerable part in maintaining the health and vitality of the elderly. Although this fact is well known, malnutrition tends to be more prevalent in the higher age groups, as physical and economic factors may restrict the choice of food and render preparation and cooking troublesome.

Marmite is a useful source of the B vitamins and has the added advantage of requiring very little preparation. Sandwiches made with Marmite are very popular with old people, who appreciate the piquant flavour. Appetising drinks can also be quickly made by stirring Marmite into boiling water or hot milk.

MARMITE
