

the world's discovered Malta

the newest, sunniest, Mediterranean playground

There's an accent on relaxation in Malta — where a holiday inspires the feeling that one has at last got away from it all. Perhaps that is why it is becoming increasingly fashionable among people in search of a changing rhythm from the hurly-burly of life. Possibly the scenery accounts for it — the sands are whiter, the skies bluer, the sea warmer. Or it could be the year-round sunshine. Of course there's the kind of sport that helps one to limber up in a way all of us would like to — effortlessly. Or can we ascribe Malta's popularity to 'atmosphere' — an atmosphere fostered by the cultural legacies of civilizations going back 5000 years. In the silver shadows of its cathedrals and grand palaces history does seem to come alive.

*When you recommend a rest, recommend Malta—
In fact, take a trip there yourself sometime.*

Malta
where summer lingers longest

All this year Malta celebrates the 19th Centenary of the landing of St. Paul

Thymoleptic

The mode of action of Tofranil differs from that of all previous drugs used in the treatment of depression. To describe the specific action that Tofranil exerts on the depressive syndrome a new classification has been introduced—**thymoleptic** or "mood-regulating" drugs. Tofranil is neither a stimulant nor a tranquillizer but modifies the basic processes of the depressive illness.

Tofranil

Tofranil, the first thymoleptic, is the result of many years experimental research and clinical investigation. Tofranil is capable of replacing E.C.T., affording a basic advantage for the "intellectual" patient where possible loss of memory or confusion would be particularly undesirable.¹

Melancholia

Tofranil is specific for endogenous depression; reactive depression, and depression associated with other psychiatric states have also shown a high degree of therapeutic response. The main features of the depressive syndrome are characterized by: Tiredness; Heaviness of the limbs; Feeling of oppression; Retardation; Inhibition; all these features together being worse in the morning and slightly better at night.

Clinical results

In Great Britain clinical evaluation of Tofranil and widespread practical experience resulting from the treatment of over 100,000 individual diagnosed depressive patients have confirmed the 60–70% success rate reported by earlier workers.

A controlled trial¹ found Tofranil to be therapeutically effective in 74% of patients suffering from endogenous depression and in 59% of patients with reactive depression.

¹Brit. med. J. 2, 1052 (1959)

Availability

The thymoleptic Tofranil is available in tablets, each containing 25 mg N-(γ-Dimethylaminopropyl)-iminodibenzyl hydrochloride

In containers of 50, 200 and 1000

INTRODUCING

'Pasinah-302'**WANDER****FOR PATIENTS' CONVENIENCE
AND COLLABORATION
DURING TUBERCULOTHERAPY****WHY '302'?**

This new addition to the Pasinah range of concurrent PAS-Isoniazid products has been designed specifically to encourage, throughout treatment, patients' fullest co-operation in order to obviate the known dangers which may result from default in taking medication.

ADVANTAGES

- Total 24-hour intake in a single convenient pack.
- Only 6 cachets per 24 hours, to provide 12 g. Sodium Aminosalicylate B.P. and 300 mg. Isoniazid B.P.
- Flexibility of single dosage maintained:
3 cachets twice daily
or 2 cachets three times daily
according to your instructions.
- Acceptability improved, because smooth cachets without sharp edges make swallowing easier; because the number to be taken on each occasion is reduced to a minimum:
never more than 3 cachets per single dose.

FORMULA

Each 'Pasinah-302' cachet contains:
Sodium Aminosalicylate B.P. 2 g.
Isoniazid B.P. 50 mg.

PRESENTATION

Tins of 180 cachets (30 days' supply) packed in daily units of 6 cachets.
Terms for institutional quantities gladly sent on request.

We are also pleased to announce that we now offer our established range of 'Pasinah' products in an improved, smaller flanged-cachet form, the doses of the contents remaining unchanged.

This alteration of form has been devised likewise especially for the greater convenience of patients, and, by extension, to induce their better co-operation.

no
ifs and buts
about

Terramycin*
brand of oxytetracycline

backed by
overwhelming
clinical evidence

'Middle-aged and elderly people with bronchitis are not suitable subjects for experimentation with the newest antibiotic that has come along and in such cases it is best to rely on a well-tried preparation so long as it gives good results.'

Practitioner, 1958, **181**, 684-5.

in chronic bronchitis

'The most useful [oral antibiotic] is oxytetracycline [Terramycin] and there is no doubt, as to its value in reducing the amount and the purulence of sputum.'

Practitioner, 1955, **175**, 670.

'Of the treatment regimes tested, oxytetracycline [Terramycin] stood out as an effective single therapeutic agent, ...'

Brit. med. J., 1957, **ii**, 263.

in chest complications of influenza

'... 39 per cent. developed varied complications, 25 per cent. of these being serious and necessitating vigorous treatment with antibiotics. All recovered with modern drugs, *the most effective being oxytetracycline* [Terramycin]. Side-effects of the drugs were not observed and their early use produced rapid resolution of the secondary infections so common in influenza.'

Practitioner, 1959, **183**, 751-752.

in urinary infections

'Terramycin is an effective antibiotic for treating many urinary infections caused by both gram-positive and gram-negative organisms and has cured where all other antibiotics have failed.'

J. Urol. (Baltimore), 1953, **69**, 319.

in infectious diarrhoea

Results of treatment of 205 premature and very young infants with Terramycin demonstrate the possibility of treating this infection successfully without dietary restriction. Tolerability of Terramycin was excellent, even in the very young.'

Abstracted (*Medizinische*, 1955, **46**, 1601).

RASTINON

World-wide clinical experience
supports the safety
and effectiveness of
Rastinon oral diabetes therapy

1 ends out from over a thousand
tested for safety and efficacy
in the oral treatment of
diabetes.

1,000 usand published articles
substantiate the choice of this
one substance to be the safest
and most reliable.

1,250,000 One million, two-hundred and fifty-
thousand patients are controlled
effectively on Rastinon tablets.

SUBJECTIVE ADVANTAGES OF RASTINON:—

Rastinon therapy removes all the self-administration problems associated with conventional injection treatment. One tablet by mouth once or twice a day is often sufficient for maintenance. In diabetic patients who suffer from physical disability, or psychic problems, the advantages of Rastinon's oral control may be especially relevant.

OBJECTIVE ADVANTAGES OF RASTINON:—

There is virtually no danger of hypoglycaemic reactions as a result of Rastinon therapy, regardless of dosage. Rastinon is a true euglycaemic agent. In patients in whom maintenance dosage has been established, it lowers the blood sugar to normal levels, but almost never *beyond* that point.

There is no added cost of treatment for the patient previously on insulin.

HOECHST PHARMACEUTICALS LIMITED, SLOUGH

Sole distributors in the U.K. Horlicks Limited, Slough, Bucks

THE TOWER AND THE BRIDGE—

*twin symbols
of a great
pharmaceutical company*

The people, animals, or objects displayed in symbols usually have two "lives"—one as *what they are*, and one as *what they stand for*. The lion that stalks the jungle is a real lion, very much alive. The symbolic lion of state *stands for* a set of national values—strength, courage, nobility—qualities of the lion itself.

Many trade symbols have this same "double life."

At Farbwerke Hoechst, A.G., Frankfurt, there is, indeed, a tower, to which is connected a bridge; they make an attractive pair of buildings, and are well-known to visitors to Hoechst.

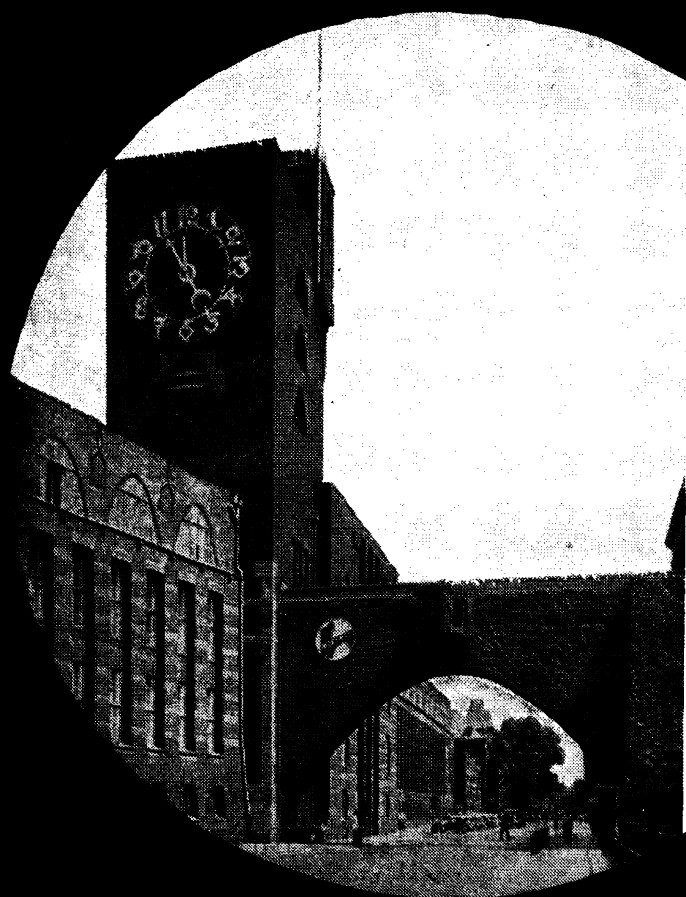

But—in the Hoechst trade-mark—the tower and the bridge also *stand for* things valued by Hoechst. The *soaring tower* symbolizes the high-aiming endeavour and far-seeing research of the Company's personnel. The *sweeping bridge* for the far-flung connections, obligations, and trust that exists between Hoechst and the world at large—"the bridge of confidence."

300 graduate scientists—chemists, doctors, pharmacists—are employed by Hoechst in Frankfurt in the pharmaceutical field alone. They work in ultra-modern laboratories with advanced equipment. And they work within a tradition of ambitious endeavour and significant discovery—inspired by such illustrious predecessors as Emil von Behring and Paul Ehrlich, originators respectively of the first diphtheria anti-toxin and Salvarsan.

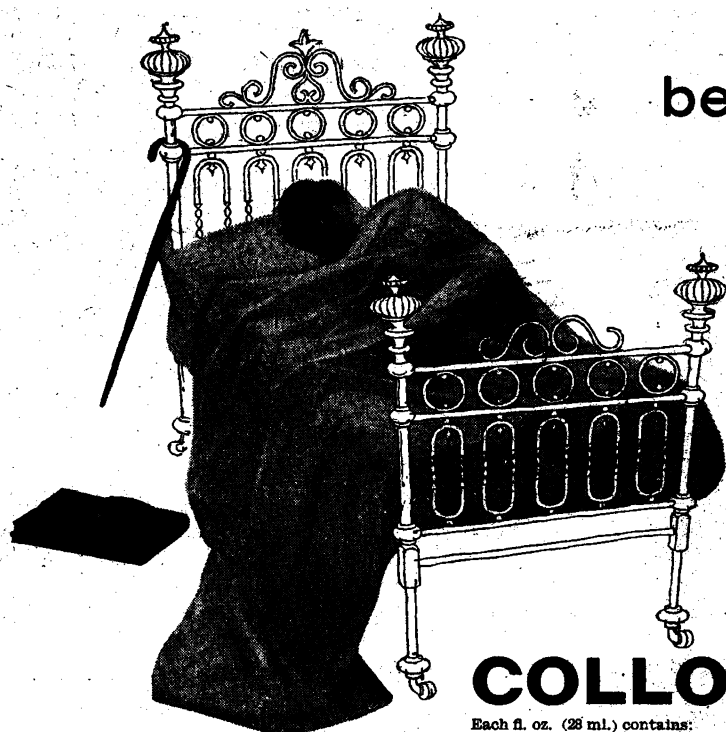

A soaring tower—and a sweeping bridge . . . these are fitting symbols for a pharmaceutical company that is second to none both in research and in production.

SOME OF THE MAJOR DISCOVERIES OF HOECHST SCIENTISTS

1958	Reverin	1921	Metamizol
1955	Rastinon	1910	Arsphenamine
1948	Normethadone	1906	Epinephrine
1945	Methadone	1905	Procaine
1939	Pethidine	1897	Amidopyrine
1931	Tetracaine	1892	Diphtheria Anti-toxin

NARPHEN

Trade Mark
brand PHENAZOCINE (NIB 7519)

new synthetic analgesic

more powerful than morphine

NARPHEN is chemically 2'-hydroxy-5,9-dimethyl-1-2-phenethyl-6,7-benzomorphan; its 'Approved Name' is phenazocine.

NARPHEN is a quick-acting and potent analgesic that is more powerful than morphine and pethidine. Early reports show that Narphen is from 3 to 10 times more effective an analgesic than morphine.

NARPHEN produces less respiratory depression, less hypotension, and less nausea and vomiting than morphine.

NARPHEN appears to produce addiction more slowly than morphine and the effects of withdrawal are less intense.

NARPHEN is available in boxes of 10 and 100 ampoules each containing 2 mg. per 1 ml. ampoule.

JOHN WYETH AND BROTHER LIMITED CLIFTON HOUSE EUSTON ROAD LONDON NW1

**trade mark*

an improved

antacid preparation

'ALMACARB' tablets are prepared from an aluminium hydroxide-magnesium carbonate co-dried gel manufactured by an entirely new process (Brit. Pat. 812503). The result is a product of exceptional stability with a more rapid and prolonged acid-neutralising action than that of dried aluminium hydroxide gel either alone or in mechanical admixture with magnesium carbonate. 'ALMACARB' tablets sucked at regular intervals will ensure effective control of gastric acidity. Used in this way they are preferable to liquid antacids both for effectiveness and convenience. 'ALMACARB' tablets are unique because there is no loss of neutralising action either on processing or tableting.

DOSAGE

One tablet to be chewed as an initial dose and thereafter one tablet to be sucked slowly at regular intervals.

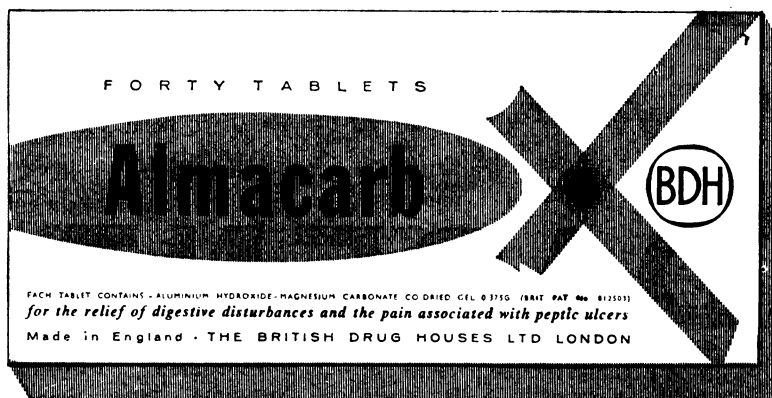

PACK

Individually foil wrapped tablets.

Bufferin relieves
rheumatic and
arthritic pains
without causing
gastric upset*

The best drug to relieve arthritic pain is undoubtedly aspirin. But it causes gastric upset in as many as 42% of arthritic patients. (British Medical Journal 1954, 1 : 1223.) Hence the need for BUFFERIN.

BUFFERIN has two antacid ingredients, aluminium glycinate and magnesium carbonate, which prevent gastric distress, even when taken in massive doses as for arthritis. A clinical investigation carried out at the Robert Breck Brigham Hospital in Boston, showed that 70% of arthritics who had a *proved* intolerance to straight aspirin were able to take BUFFERIN without gastric distress. *(Bufferin in the Management of Rheumatoid Arthritis, J.A.M.A. 158 : 386 (June 4), 1955.)

BUFFERIN has no equivalent in the B.P. or National Formulary and is prescribable on E.C.10's.

Please write for free samples to: Bristol-Myers Company Limited, 209-215 Blackfriars Road, London, SE1.

P&O

Sunshine Cruising

British Oxygen equipment and gases . . .

THE WRIGHT respirometer

This respiratory measuring instrument for use in anaesthesia, oxygen therapy and for general application in respiratory physiology has a watch-type dial which shows at a glance the precise amount of gas that has passed through the instrument. Air resistance and inertia are extremely low, and the instrument can be plugged into any part of an anaesthetic circuit or used with a face mask for respiratory studies.

For illustrated literature please write to British Oxygen Gases Limited, Medical Division, Great West Road, Brentford, Middlesex.

... used every day to ease pain and save lives

A  COMPANY

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

**SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.*

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian appointment.

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National Service.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) **REGISTRAR:** Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £972 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) **SENIOR REGISTRAR:** Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years: £1,258 8s. per annum in the first year; £1,372 16s. per annum in the second year; £1,487 4s. per annum in the third year; £1,601 12s. per annum in any subsequent years. If the post is resident a deduction of £200 per annum is made.

Other Grades, Whole-time

(a) HOUSE OFFICERS:

(i) **Provisionally registered medical practitioners:** £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) **Fully registered medical practitioners:** £600 12s. per annum for any post held; provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) **SENIOR HOUSE OFFICER:** Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) **JUNIOR HOSPITAL MEDICAL OFFICER:** Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s. by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

MANCHESTER REGIONAL HOSPITAL BOARD

Salford Hospital Management Committee

REGISTRAR IN PSYCHIATRY

required at Salford Royal and Hope Hospitals,
Salford. At Hope Hospital 12 beds are allotted
to Psychiatry in the general medical wards, and
a varying number of amenity beds is also available.
Last year 160 cases were admitted and there were
5,600 out-patient attendances at the two hospitals.
Candidates should be particularly interested in
prophylactic measures in psychotherapy and social
psychiatry. The work includes attendance at social
therapeutic clubs and a day hospital. The success-
ful candidate will be expected to read for the
D.P.M., and arrangements may be made with the
University of Manchester for this purpose. The
post is recognized as fulfilling the requirements for
the conjoint D.P.M. Applications, with the names
and addresses of two referees, to be sent to Group
Secretary, Salford Royal Hospital, Salford, 3,
before April 30, 1960. (6809)

to St. John's Hospital, Stone, near Aylesbury (865
beds). These posts offer wide experience in all
branches of psychiatry, including child guidance,
mental deficiency and E.E.G. The appointments
are for one year, eligible for extension to a second
year. Applications, on forms obtainable from the
Secretary, Registrar Committee, 43, Banbury Road,
Oxford, should reach him by April 30. (6340)

RUBERY HILL HOSPITAL, Rubery, Birmingham**REGISTRAR**

This hospital lies at the southern edge of Bir-
mingham. It is undergoing a process of structural
rejuvenation and the medical establishment has
recently been increased. The persons appointed
will be supervised and trained by the consul-
tant staff, and group training will be available.
Facilities for study for the D.P.M. or other higher
qualifications will be provided and there is a medi-
cal library. Candidates are invited to visit the
hospital. Residential accommodation for single
persons if required. Applications, including age,
nationality, and the names of three referees, should
be sent to the Medical Superintendent. (6612)

**ST. MARYLEBONE HOSPITAL FOR
PSYCHIATRY AND CHILD GUIDANCE**

Applications are invited for the post of
REGISTRAR

In the Child Guidance Department for one session
a week. Applicants should have had previous ex-
perience in child guidance. Application forms
obtainable from, and returnable to, Secretary, Pad-
dington Group Hospital Management Committee,
Harrow Road, W.9, by April 30, 1960. (6686)

APPLICATIONS ARE INVITED FOR THE appointment of a Medical Officer with a leading British company in Commonwealth West Africa. Applicants should not be more than 35 years of age and should have had good all-round experience since qualifying. Salary will be between £1,800 to £2,000 per annum, in accordance with age, qualifications and experience. In addition there are family allowances, free passages to and from West Africa, and free furnished quarters. Membership of pension fund is compulsory. Tours of duty will be about 18 months, followed by leave on full pay. Applications, giving full details of experience, should be made to the Principal Medical Adviser, Unilever House, Blackfriars, London, E.C.4, not later than April 29. (6512)

C I B A

Applications are invited from British trained medical practitioners for a position in the Clinical Investigation Section of the Research Department of the parent company of the CIBA international concern in Basle, Switzerland.

The duties are primarily administrative and relate to the co-ordination of the clinical trials programme, which is extensive and world-wide. The main requirement is a sound medical training, and preference will be given to candidates with a higher qualification and/or experience in clinical or laboratory research. A knowledge of German will be an important advantage, and candidates should be not more than 35 years of age.

The position is permanent and pensionable, and the remuneration, which is progressive, will depend on age and qualifications and is adjusted to local living conditions.

Replicas (including details of age, qualifications, and experience) should be addressed to the Personnel Department, CIBA Limited, Basle, Switzerland.

MEDICAL EDITOR

Independent, Dominions Medical Journal—a monthly devoted to all aspects of general practice—invites applications for the position of Medical Editor. The post offers an inspiring opportunity for an applicant with appropriate medical and academic qualifications who possesses ideas and the drive and ability to realize them. He should be an experienced medical journalist, familiar with press procedures, an able and authoritative writer and a pleasant cultivated personality who would add lustre to the journal and discharge his functions with savoir faire and distinction. He would command a commencing salary of £2,500 per annum, be given a free passage, and enjoy liberal paid leave. As the successful applicant would have complete and unrestricted editorial and administrative control of the journal, which he would be expected to expand, he would be required to contract for a minimum period of five years with the option of renewal and to acquire a £0,000 shareholding in the publication—a condition specifically designed to ensure his permanent tenure of office, an uninterrupted continuity of development that should proceed therefrom, and his reasonable participation in profits. These, currently, will substantially augment basic salary. Taxation is moderate. The climate of the country is superb. Socio-economic and professional standards are high and the city to which the applicant will come offers all modern facilities and amenities. Interviews with the Managing Director in London will be arranged from mid-May. Applications, marked "Medical Editor. Confidential," should be addressed to Box 2752, B.M.J.

PERSIAN ROAD PROJECTS. THREE Doctors required: one now, one June, one September. Salary \$640 per month, untaxed, payable anywhere. No family housing on sites. Two-year contract.—Ammann & Whitney, P.O.B. 1423, Teheran, Iran.

ANGLICAN MISSION HOSPITAL

Anglican Mission Hospital urgently needs two Doctors. These appointments are suitable for medical married couple, one preferably with interest in surgery. Part-time duties for wife possible, experience in anaesthetics a recommendation. Hospital founded 1921, recently rebuilt, well equipped, 300 beds and 11 outlying clinics. Nurses' training school, general and midwifery. Present staff four doctors. Revised salary scale £1,200 by £60 to £1,500 by £50, commencing salary according to qualifications and experience. Free house and other emoluments. Full sympathy with missionary objectives essential. Applications to Medical Superintendent, Jane Furse Memorial Hospital, via Middelburg, Transvaal, South Africa. (6230)

APPROVED ROTATING INTERNSHIP, 500-BED general hospital in Midwestern United States, associated with medical school, active and stimulating teaching programme. Completely approved residencies in medicine, surgery, obstetrics, pathology, radiology and anaesthesiology. Stipend \$175 per month, plus maintenance.—Box 2663, B.M.J.

UNIVERSITY COLLEGE HOSPITAL
 Ibadan, Nigeria
 Department of Bacteriology

SENIOR REGISTRAR

The Board of Management invite applications from registered medical practitioners with the requisite postgraduate experience for appointment as Senior Registrar in the Department of Bacteriology of the above teaching hospital. The salary offered for the post is £1,542 per annum, rising by three annual increments to £1,722 per annum, plus inducement addition of £300 per annum payable to an expatriate doctor. The appointment will be initially for one tour of 12 months, renewable for subsequent tours by mutual agreement. On satisfactory completion of the agreement a gratuity of £37 10s. will be paid for each completed term of three months' service. Partly furnished quarters are provided at a rental of 8½% of salary, excluding inducement addition, and an expatriate doctor appointed will be eligible for seven days' leave on full pay for each completed month of service in Nigeria. A Nigerian doctor is eligible for five days' leave for each completed month of service. Free first-class passages are provided for expatriate doctors and their wives on first appointment, for vacation leave, and on completion of their agreement. Free first-class passages to Nigeria will, in certain circumstances be provided for non-expatriate doctors. Expatriate doctors will be eligible for children's allowances in accordance with the existing regulations. Arrangements can be made to enable doctors to continue their N.H.S. Superannuation Scheme contributions, and details of the revised salary and gratuity payable in such cases will accompany application forms. Applications should be submitted not later than April 30, 1960, on the appropriate forms, which will be forwarded, together with additional information, on receipt of an addressed foolscap envelope, by the Adviser on Staff Recruitment, London Office (University College Hospital, Ibadan), 91, Regent Street (Third Floor), London, W.1. (6766)

UNIVERSITY COLLEGE HOSPITAL OF THE WEST INDIES

The Board of Management invites applications for the appointment of

RADIOLOGIST

at the above teaching hospital. The salary for the appointment will be £2,300 per annum, together with an allowance at present at the rate of £250 per annum from the University College in respect of teaching duties, and there are opportunities for limited consultant practice. A contract will be offered for three years in the first instance, subject to renewal, and passages will be provided for the successful candidate and his family on appointment and on termination of contract. Unfurnished accommodation will be provided, for which a rental of 5% of salary will be charged. The appointment is full-time and the holder of the post will be required to contribute 5% of his salary to the Hospital's Superannuation Scheme. Applications (six copies), stating full details of qualifications, present appointment and previous experience, together with the names and addresses of three referees, should be sent, not later than April 30, 1960, to the Hospital Manager and Secretary, University College Hospital of the West Indies, Mona, Jamaica, W.I., from whom further information may be obtained. (6828)

UNIVERSITY OF CEYLON
CHAIR OF SURGERY

Applications are invited for the above-mentioned chair. Preference will be given to experienced University teachers. The salary scale of the post is Rs.18,750/- per annum, rising to Rs.26,250/- per annum, by ten annual increments of Rs.750/-, without any allowances in lieu of private practice. No private practice of any kind will be allowed. The Council may make the appointment at any point on this scale according to qualifications and experience. Rent allowance (15% of salary in the case of a married man, and 7½% in the case of an unmarried man, subject to a maximum of Rs.170/- and Rs.85/- per mensem, respectively) will be paid. First-class passages for the Professor, his wife and not more than three children will be provided. The post is not pensionable, but the holder will become a contributor to the University Provident Fund, contributing 5% of salary and the University adding 10%. The appointment will be for a period of four years in the first instance but may be renewed up to the age of 55 or 60. Further particulars and information as to the method of application may be obtained from the Secretary, Association of Universities of the British Commonwealth, 36, Gordon Square, London, W.C.1. Applications close, in Ceylon and London, on April 30, 1960. (6809)

AGENTS**PERCIVAL TURNER, LTD.**

MEDICAL AGENCY (Est. 75 years)

25, Maiden Lane, Strand, W.C.2. Telephone: TEMple Bar 9011. Night: Walton-on-Thames 21785.

Prescribing a Laxative

WHEN THE PHYSICIAN is called upon to prescribe a laxative, Andrews merits special consideration.

Andrews does not irritate the intestine and causes no griping or discomfort. Its laxative action is due to the presence of magnesium sulphate and other salts in balanced proportion. Their effect is to increase the fluid in the bowel by osmosis, and so induce easy, comfortable evacuation. Andrews has a pleasant taste and a refreshing effervescence which make it readily acceptable.

Andrews is particularly suitable for patients liable to digestive upsets. It is mildly antacid and allays gastric discomfort. It also improves the flow of bile, and helps to check biliousness and sick headaches.

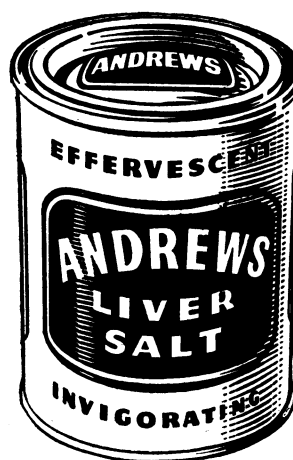

No costive reaction results when Andrews is discontinued.

Andrews LIVER SALT

ACTIVE CONSTITUENTS:

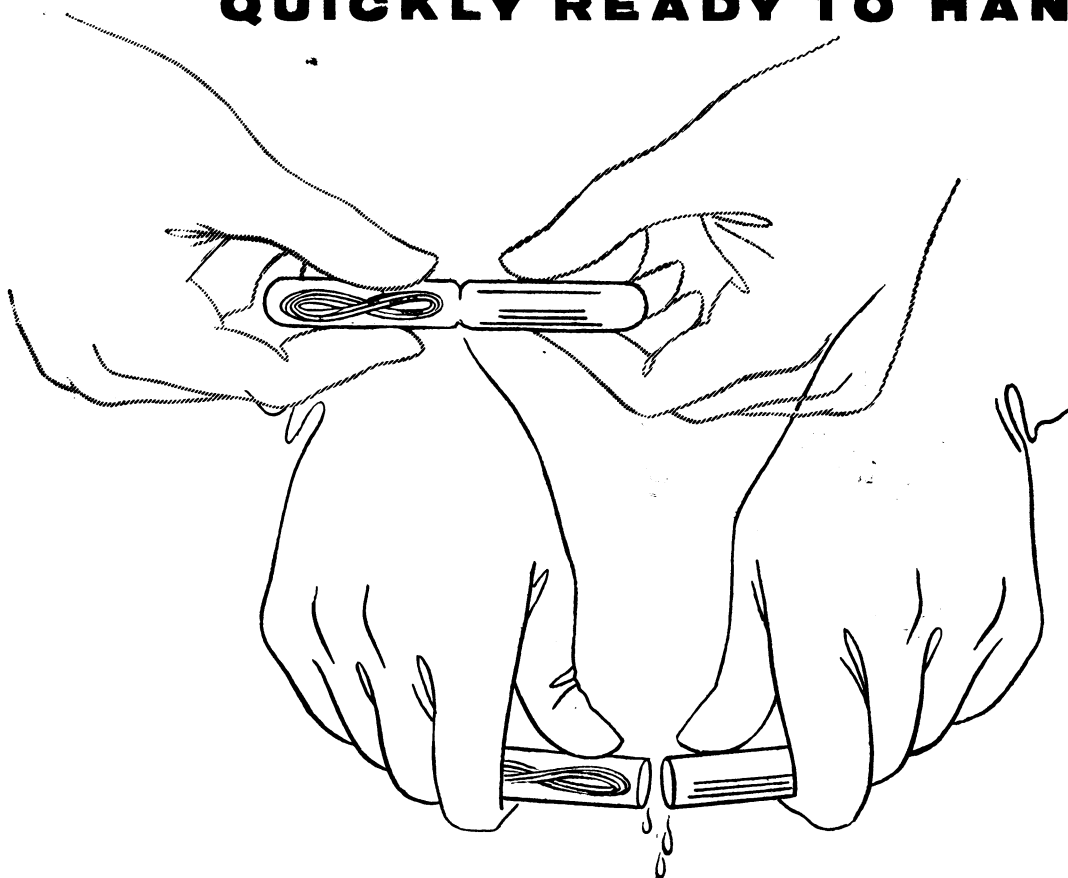

<i>Tartaric Acid</i>	23%	<i>Sucros</i>	37%
<i>Sod. Bicarb</i>	23%	<i>Mag. Sulph.(B.P.Exsic.)</i>	17%

A medical sample is available free on request.

QUICKLY READY TO HAND

London Hospital Catgut in non-splintering 'spot' tubes

Speed is a matter of urgency in the Operating Theatre—which is why the London Hospital 'spot' tubes are so popular. Just a slight pressure, and instantly the tube breaks cleanly at the 'spot' position, and the sterilised suture is ready for use.

These are the advantages :

- The spot indicates the exact breaking point of the tube.
- If the thumbs are placed about $\frac{3}{4}$ " apart, exactly opposite the spot, the tube breaks cleanly and easily under slight pressure.
- No filing is needed, no instruments required, no need to hold the tube in a swab.
- There are no dangerous glass splinters.
