#### Butterworth Publications -

#### A PRIMER OF MEDICINE being an Introduction to Clinical Neurology, Alimentary, Respiratory and Cardiovascular Diseases

By M. H. PAPPWORTH, M.D., M.R.C.P. Pp. viii+241+Index. 32s. 6d. net, by post 2s. extra.

The clinician must always be concerned primarily with facts and secondly only with theories, and the author of this new work stresses that it is impossible to be a good clinician without possessing wide factual knowledge. Based on his M.R.C.P.(London) course, this is a book of basic facts with the emphasis on good history-taking and the identification and interpretation of physical signs.

#### PRINCIPLES OF CHEST X-RAY DIAGNOSIS

By GEORGE SIMON, M.D., M.R.C.P., F.F.R. Pp. x+174+Index. 162 illustrations. 50s. net, by post 1s. 9d. extra.

"... it can be read with profit by all, including the experienced radiologist. I have been told that Dr. Simon's 'reporting session' at Bart's are a 'must' for all D.M.R. and F.F.R. candidates. I have no doubt that this is so, for, judging by the quality of this book, they must be models of lucidity... It is strongly recommended to everyone interested in the quality of this book, they must be models of lucidity. . . . It is the diagnosis of chest conditions."—Irish Journal of Medical Science.

#### PRINCIPLES OF BONE X-RAY DIAGNOSIS

By GEORGE SIMON, M.D., M.R.C.P., F.F.R. Pp. xx+170+Index. 244 illustrations, 57s. 6d. net, by post 1s. 9d. extra.

Dr. Simon uses his familiar method of classifying the abnormalities shown on the X-ray, and then linking a provisional or even final diagnosis with the clinical findings. Essentially for the radiologist, this book will also be welcomed by orthopaedic surgeons and by all doctors who may be required to interpret the appearances on bone X-rays.

# Allergic conditions

### A more potent antihistaminic—rapid, strong, and prolonged in its action... with no serious side-effects

Of the many antihistamine compounds available today, Daneral is exceptional for its strong, rapid, and prolonged action. Even small doses are sufficient to counteract the histamine effects that occur in antigenantibody reaction. Daneral also has a strong antispasmodic action; it also reduces capillary permeability.

It is exceptionally free of toxic side-reactions and has no pronounced action on blood-pressure or vascular resistance.

Indications: Extensive clinical trials have established the effectiveness of Daneral in most allergic conditions. It also has value in many conditions that have no clear allergic origin or tissue reaction.

In hay fever and vaso-motor rhinitis Daneral is especially effective. In

In hay fever and vaso-motor rhinitis Daneral is especially effective. In dermatology it is used in urticaria and angioneurotic oedema; serum reactions; drug allergy; pruritus. In general medicine bronchial asthma and cardiac asthma are helped by Daneral.

Packs: 10 mg. tablets—tubes of 20 and bottles of 250.

50 mg. tablets-tubes of 10 and bottles of 100.

# a case for

# Daneral

# Eczema (INFECTIVE)

Acute Infective Eczema before treatment

After 5 days' treatment (Cambison 0.5% twice a day)

## Steroid ointments are frequently successful in varieties of eczema that have resisted other therapy

They have the advantage of being anti-allergic, anti-inflammatory and anti-pruritic. Even severe itching is usually relieved in a few hours, and hyperaemia, swelling, and exudation reduced during the first day of treatment.

Cambison ointment combines the steroid prednisolone with a two-fold protection against infection. Not only does it include the antibiotic neomycin, which is highly effective against staphylococci and streptococci, but also a quinolylurea compound with chemotherapeutic action particularly directed against gram-positive organisms. This combination widens the antimicrobial spectrum and enhances the antibacterial effect.

Cambison is indicated in cases of acute and chronic eczema and dermatitis, particularly where infection is present or threatened.

Packs: Tubes of 5 G and 20 G. Available with prednisolone 0.25% or 0.5%

# a case for

# Cambison

For your files:—If you would like to have information about this new treatment, Cambison, write to:—HOECHST PHARMACEUTICALS LIMITED, SLOUGH, BUCKS.

Sole distributors in the United Kingdom: HORLICKS LIMITED, SLOUGH, BUCKS.

# Eczema

Chronic exudative eczema on back of the left hand. Severe itching and weeping.

Result after 2 days of treatment.

#### New ointment combines advantages of the corticosteroids with traditional ichthammol type therapy

In chronic dermatoses, steroid ointments alone do not always effect radical cures.

Tumeson (Tumenol Prednisolone Ointment) combines the advantages of the corticosteroids with more traditional therapy.

It has two components:-

*Prednisolone* 0.25%, with its well-known anti-inflammatory and anti-allergie properties.

Tumenol Ammonium, a bituminous shale tar-oil similar to ichthammol, which is widely used in sub-acute and chronic skin conditions. As well as having an anti-inflammatory and anti-pruritic effect, it is a vasoconstricting agent with fungicidal and bacteriocidal properties.

Where a rapid, pronounced and sustained anti-pruritic and anti-eczematous action is called for, Tumeson is especially useful.

Packs: tubes of 5 G. and 20 G.

#### GLAXO INTRODUCE

# **Neo-NaClex**

# the 'one dose daily' diuretic

Neo-NaClex (bendrofluazide) is an oral diuretic sufficiently potent and long lasting to give effective treatment with a single dose daily.

In practice one 5 mg Neo-NaClex tablet daily could replace, for example, a twice daily dosage of 50 mg hydrochlorothiazide or two 500 mg chlorothiazide tablets daily. One dose of Neo-NaClex produces up to eighteen hours diuresis. Yet it is relatively free from significant side-effects and has minimum likelihood of causing potassium loss.

You can use Neo-NaClex for every

diuretic purpose. Start treatment with one 5 mg tablet daily at breakfast. Leave a three day interval between each week of treatment. Start maintenance with one 2.5 mg tablet daily. Eventually one dose weekly may suffice. Of course, dosage will be varied to suit the individual.

The once daily dosage of Neo-NaClex greatly reduces cost of treatment. Moreover, the initial price is well under half that of chlorothiazide.

So for effective, economical diuresis from a single dose daily remember this newest oral diuretic.

# LEO PHARMACEUTICAL PRODUCTS

#### LØVENS KEMISKE FABRIK COPENHAGEN

Dear Doctor.

Leo Pharmaceutical Products announce the introduction of 'Centyl' - a new and improved diuretic discovered and developed in the Leo laboratories in Denmark. Given orally, 'Centyl' is 100 times more potent than chlorothiazide, and almost twice as potent as the parenteral mercurials. Further, although the sodium excretion rate is greatly increased, potassium depletion is not normally a problem. Thus 'Centyl', promoting physiological diuresis, approaches the criteria for the ideal diuretic.

The indications for 'Centyl' include oedema of cardiac, renal or hepatic origin; druginduced oedema, and certain syndromes associated with sodium retention, including migraine and pre-menstrual tension.

The normal dosage for the induction of diuresis is 5 to 10mg. daily. For maintenance therapy, 2.5 to 5mg. is normally sufficient. Since 'Centyl' is excreted only slewly, once-aday dosage is entirely satisfactory.

'Centyl' is bendrofluazide. It is available in tablets of 2.5mg. and 5.0mg. Both strengths are issued in bottles of 25, 100 and 500 tablets. The basic NHS cost of 'Centyl' treatment ranges from 8d. to 2/- a week. 'Centyl' is not a scheduled poison. Samples and literature are available from Leo Laboratories, 223 Kensington High Street, London W8.

Yours faithfully,

LEO PHARMACEUTICAL PRODUCTS

the
METHYL CELLULOSE
SLIMMING AID
that is

EASY TO TAKE

It is generally recognised that methyl cellulose is one of today's safest and most reliable aids to weight reduction, since it can be used in cases where drugs might adversely affect co-existing heart or nervous conditions. In prescriptive form, however, it is often found difficult to take, and this may increase the patient's natural resistance to dieting. Formula 21 is a methyl cellulose product in granular form. It has a pleasant lemon flavour and is readily acceptable. It contains no drugs or harmful ingredients, and may be safely recommended in cases of obesity or slight overweight. See page 1135 of "The Lancet" (19th December issue).

DOSAGE

One teaspoonful of Formula 21 laken before meals with a glass of water reduces appetite and assists dicting. Full instructions and dict menus are included with every pack.

 5th of a series on the problems of domiciliary chemotherapy in tuberculosis published by smith & Nephew pharmaceuticals limited

# it may not be last night's oyster

After the tuberculous patient has been told of the benefits of PAS and INAH, he should be warned discreetly of the possibility of untoward reactions. Although the incidence is very small, the risk is real, because the patient may ascribe these reactions to some other source, such as food.

Nausea, vomiting, dizziness and skin rashes have been reported and it is well that the patient should be aware of these. If the patient is unfortunate enough to suffer any of these reactions, he should be encouraged to report immediately to his doctor who will decide the right action to take.

Investigation will reveal whether the reaction is really due to the drugs taken and whether the drug need be stopped. Change to a more palatable preparation, such as a granule formulation of sodium PAS, may be indicated or, where appropriate, a process of desensitization carried out.

Discussing drug treatment with the patient stimulates his interest and co-operation, and helps to avoid interruption of therapy.

PYCAMISAN B.D. is the special new presentation of cachets of PAS and INAH in tubes of 8 for one day's supply. It is specially designed for twice-daily dosage eliminating the awkward and often missed midday dose. The tube is marked 'morning' and 'evening' to help the patient remember his doses. The total daily dose is 12 grammes PAS and 300 mg. INAH, the most widely used and recommended combination in current use.

Others in the range of S.N.P. tuberculostatic drugs are:

PARAMISAN Sodium Aminosalicylate BP

PYCAZIDE Isoniazid BP

PYCAMISAN PAS with Isoniazid

THERAPAS Calcium B-PAS

THERAZID Calcium B-PAS with Isoniazid

NUPA-SAL a derivative of Isoniazid

# announces

# Aldactone

Brand of Spironolactone

The new therapeutic principle embodied in this drug effectively extends the control of oedema and ascites in

Congestive Heart Failure
Hepatic Cirrhosis
The Nephrotic Syndrome
Idiopathic Oedema

Aldactone provides satisfactory relief of resistant or advanced oedema even when all other agents, alone or in combination, are ineffective or are on y partially effective.

Aldactone blocks the effect of aldosterone which is the major cause of resistance to diuretics, and because of its different site and mode of action, Aldactone has a true and highly synergistic activity when used with a mercurial or thiazide diuretic.

# the first specific aldosterone – blocking agent

# Aldactone

#### bas the following advantages

- Satisfactory relief where all other agents fail.
- Does not induce potassium loss.
- No serious toxic or side effects.
- Exerts true, striking, synergistic activity in a programme of treatment including mercurial or thiazide diuretics.
- Offsets the potassium loss from concomitantly administered mercurial or thiazide diuretics.

#### What physicians may expect of Aldactone

It is fully expected that Aldactone will change present medical concepts of therapeutic limitations in the management of oedema. Many patients living in a greater or lesser state of oedematous invalidism can now be oedemafree. To others, gravely ill, Aldactone will be life-saving.

References
Science, 1957, 126, 1015.
Ibid. 1016.
Lancet, 1958, 2, 1084.
Arch. Int. Med., 1958, 102, 998.
Lancet, 1959, 1, 127.

When Aldactone is used in a comprehensive therapeutic regimen, which includes a mercurial or a thiazide diuretic, a satistactory diuresis and relief of oedema may be expected in approximately 85 per cent of oedematous patients who would not otherwise respond.

Aldactone is supplied as compression-coated yellow tablets of 100 mg.

## INTRODUCING

# 'Pasinah-302'

WANDER

# FOR PATIENTS' CONVENIENCE

# AND COLLABORATION

# DURING TUBERCULOTHERAPY

#### WHY '302'?

This new addition to the Pasinah range of concurrent PAS-Isoniazid products has been designed specifically to encourage, throughout treatment, patients' fullest co-operation in order to obviate the known dangers which may result from default in taking medication.

#### **ADVANTAGES**

- Total 24-hour intake in a single convenient pack.
- Only 6 cachets per 24 hours, to provide 12 g. Sodium Aminosalicylate B.P.

and 300 mg. Isoniazid B.P.

Flexibility of single dosage maintained:
3 cachets twice daily

or 2 cachets three times daily according to your instructions.

Acceptability improved, because smooth cachets without sharp edges make swallowing easier; because the number to be taken on each occasion is reduced to a minimum:

never more than 3 cachets per single dose.

#### **FORMULA**

Each 'Pasinah-302' cachet contains: Sodium Aminosalicylate B.P. 2 g. Isoniazid B.P. 50 mg.

#### PRESENTATION

Tins of 180 cachets (30 days' supply) packed in daily units of 6 cachets.

Terms for institutional quantities gladly sent on request.

We are also pleased to announce that we now offer our established range of 'Pasinah' products in an improved, smaller flanged-cachet form, the doses of the contents remaining unchanged.

This alteration of form has been devised likewise especially for the greater convenience of patients, and, by extension, to induce their better co-operation.

M416

# Striking the right

# NOTE

'ACTIDIL', most potent of the antihistamines, strikes the right note in the treatment of allergies. It is exceptionally strong—yet safe for all ages. Two or three daily doses of 'Actidil' Tablets or 'Actidil' Elixir will restore most patients to harmony with nature.

# ACTIDIL's -in allergies

🔀 BURROUGHS WELLCOME & CO. LONDON

(The Wellcome Foundation Ltd.)

# Safety with efficiency in antisepsis

Long and comprehensive experience has fully demonstrated the value of Dettol in general practice, obstetrics and surgery.

It is well-tolerated on the skin and tissues in high concentrations.

#### It is an efficient bactericide:-

Dettol will destroy the following organisms in 10 minutes at 20 degrees C. in the dilutions given:—

Staph. aureus:	 	I in 200
S. typhi:	 	I in 350
Strept. pyogenes:	 	1 in 500
Bact. coli:	 	1 in 250
Ps. pyocyanea:	 	1 in 40
Myco. tuberculosis:	 	1 in 200
Sh. shigae:	 	1 in 400

Different strains can vary widely in resistance, but the figures quoted are representative.

Dettol efficiency is well maintained in the presence of organic material.

A dilution of 1 in 50 will kill Staph. aureus in the presence of 25% blood in 5 minutes.

#### It is compatible with soap.

"Unlike the other antiseptics, Dettol appeared to have its activity increased by the presence of soap, and against Staph. pyogenes the effect was one of true synergism." (British Medical Journal, 28th July, 1956.)

It is non-poisonous.

It does not stain linen, etc.

It is stable in solution.

Surgical Dettol, Orange, Blue or colourless — For pre-operative skin preparations.

**Dettol Antiseptic Cream** — For obstetrics and prevention of cross-infection.

Instrument Dettol-For instrument disinfection.

# 'Mysoline' opens a window on a new world

To the epileptic child, 'Mysoline' can bring new-found confidence and alertness. It enables the child to enjoy normal activity in a safe and healthy environment. 'Mysoline' can often be used with advantage in cases already controlled with other drugs but where free-

dom from hypnotic effect would be desirable.

The place of 'Mysoline' in juvenile epilepsy is now well documented in the literature.

Available in tablets of 0.25 G. and as a palatable oral suspension. Basic N.H.S. costs: 4/4d. for 30 tablets dispensed from packs of 1,000 and 5/8d. for 100 ml. of suspension.

# You have good reason to prescribe Carnation Milk

"The Feeding of Infants"—a book specially prepared for doctors—together with reprints of clinical investigations and Carnation feeding charts are available from: The Medical Dept., General Milk Products Ltd., Bush House, Aldwych, London, W.C.2.

CARNATION solves mother's problems in feed preparation—as well as meeting your exacting requirements. Clinical studies have proved that babies thrive on Carnation.

You can prescribe Carnation with complete confidence for the following reasons:—

**DIGESTIBILITY** Carnation Milk ensures maximum digestibility because of soft granular curds and homogenized butterfat.

**STERILITY** Carnation Milk is sterilized *after* the tins are sealed. No matter when or where Carnation is bought, its sterility is assured.

**EASE OF PREPARATION** Carnation Milk saves time in preparation of feeds because it blends *instantly* with boiled water.

FLEXIBILITY Carnation Milk feeds are easily adjusted to individual requirements.

**ACCURACY** Carnation Milk is a liquid and provides for accurate measurement of every feed.

VITAMIN D INCREASE Carnation Milk is adequately fortified to a safe level with Vitamin D.

**UNIFORMITY** Carnation Milk is uniform because every tin is processed to precise standards of butterfat and total solids.

These advantages uphold the highest standards of Infant Feeding when you prescribe Carnation.

For the best start in life.... Carnation

## BRITISH PHARMACEUTICAL CODEX

1959

The seventh edition of the British Pharmaceutical Codex, recently published, provides the latest available information on the properties, standards, actions and uses, contraindications, dosage and formulation of nearly 1,000 medicinal substances in current use.

There are 70 new monographs — 78 new formulæ — 3 new appendixes

The Codex has been compiled by the aid of ten committees and subcommittees on which over 100 experts in their particular spheres have served. In addition approximately 50 specialists have prepared and commented on proposed new and amended formulæ.

## **MARMITE**

veast extract

contains

Riboflavin (vitamin B<sub>2</sub>) 1.5 mg. per oz. Niacin (nicotinic acid) 16.5 mg. per oz.

## In Pregnancy

During pregnancy the demands on all maternal resources are increased. Diet, therefore, assumes a particular importance during this period. Marmite, taken as a drink or in sandwiches, or used in cooking, is popular among expectant mothers and raises the level of the B vitamins in their diet.

## In Geriatrics

The opinion has been expressed that the need for vitamins, especially those of the B complex, is increased in frail elderly persons. These essential nutrients seem to exert a beneficial effect even when the diet appears to be adequate. Marmite is a yeast extract containing all the known factors of the vitamin B group; it can easily be incorporated in the diet and is economical to use.

## Have you received your copy of

## MODERN CONTRACEPTIVE TECHNIQUE?

This practical manual on contraception has already proved invaluable to many doctors in advising their patients. It presents a concise and compact survey of methods commonly used, together with notes on methods which have medical approval, and also on others which are medically contra-indicated. If you have not yet received a copy, you are invited to write for one now.

## The case against 'natural' methods

Medical opinion generally agrees that the practice of so-called "natural" methods of contraception (coitus interruptus, coitus reservatus, etc.) can have an adverse effect on physical and mental health. One of the principal reasons why these unreliable methods are used is the slight loss of sensitivity experienced with protectives (condoms).

This problem has now been almost entirely overcome by the intraduction of Durex Gossamer, a new kind of lubricated protective. Durex Gossamer, is treated with Sensitol, "a non-wet, non-messy" lubricant which substantially increases the level of sensitivity. Samples of Durex Gossamer protectives on request.

## **Two Important New Editions**

Ready in June

## Demonstrations of PHYSICAL SIGNS IN CLINICAL SURGERY

13th Edition

By HAMILTON BAILEY. 944 pp. 1,142 illustrations, a very large number in colour. 75s., post 2s. 3d. Completely revised and its scope enlarged; nearly double the amount of text and twice the number of illustrations. The illustrations have always been considered to be of prime importance and for the new edition many have been replaced, many added, and those retained have in the main been remade. The new edition will indeed not only maintain its position but very greatly enhance it. It would be difficult to imagine a finer book.

## FRENCH'S INDEX OF DIFFERENTIAL DIAGNOSIS

8th Edition

Edited by ARTHUR H. DOUTHWAITE. 1,123 pp. 731 illustrations, many in colour. 126s., post 2s. 6d. The whole ground of Medicine, Surgery, Gynaecology, Ophthalmology, Dermatology, and Neurology is covered thoroughly and clearly, making the work a treasure-house of information Indispensable to specialist and general practitioner alike. For the new edition much revision and rewriting has been undertaken, and new material and illustrations have been added, bringing the book thoroughly up to date.

WRIGHT'S of BRISTOL

## Do you imperil your sterilization by dubious air filtration?

Recontamination of autoclaved goods—dressings, gloves, bowls, and instruments—is always possible unless *only* bacteria-free air is admitted to sterilizers.

Modern medical opinion insists on the need for adequate air filtration (M.R.C. Report on Pressure Steam Sterilizers, 1959, Lancet, i, 425).

## the answer is

STERIFILTA employs a pre-sterilized non-absorbent cartridge type Cotton Wool Filter which has been proved efficient under the most stringent bacteriological tests. A special filter holder guarantees the air-seal, ensuring that *only* filtered air enters the sterilizer. The Cotton Wool Filter should be changed daily.

STERIFILTA Filter Cartridges are manufactured and supplied by VERNON & CO. LTD., PRESTON Price 10/- per doz. nett.

STERIFILTA Holder (Patent Pending) is manufactured by STERITEC LTD, Wigman Road, Bilborough, Nottingham and is obtainable from the manufacturers or from Vernon & Co. Ltd, Preston Price £3.17.6d each, nett. Carriage Extra.

## A GENERAL STIMULANT FOR. THE CENTRAL NERVOUS SYSTEM

For cases requiring a quick-acting general stimulant without increasing the patient's appetite, we consider Amphetone unique. It combines for the first time Dexamphetamine Sulphate and Strychnine with Glycerophosphates and members of the Vitamin B Group. The Dexamphetamine provides the convalescent with an immediate feeling of well-being, this being followed by the well-known tonic effects of the other medicaments. Clinical reports have been excellent.

**FORMULA** 

Dexamphetamine Sulphate B.P.C., 1/12 grain: Strychnine Hydrochloride B.P., 1/60 grain: Calcium Glycerophosphate B.P.C., 2 grains: Sodium Glycerophosphate B.P.C., 2 grains: Aneurine Hydrochloride B.P., 1/30 grain: Nicotinamide B.P., 1/4 grain: Riboflavin B.P., 1/60 grain: Syrup of Blackcurrant B.P.C., 2 fluid drms.: Water, to 1/2 fluid ounce.

POISON S4

Available in bottles containing 10, 20, 40, 80 fluid ounces. Basic N.H.S. Prices 4/9, 8/9, 15/6, 27/9 each. Exempt from Tax. Samples available on request

## **APPOINTMENTS**

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent\*testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

\*SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

A fully registered medical practitioner who is liable for National Service must obtain deferment of recruitment in writing from the Central Medical Recruitment Committee or (in Scotland) the Scottish Central Medical Recruitment Committee before accepting any civilian

The position of provisionally registered medical practitioners who are liable for National Service has been made clear in a notice sent to them by the Ministry of Labour and National

## SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

## Registrar Grades, Whole-time

(a) REGISTRAR: Posts obtained normally not less than two years after registration as a medical practitioner and held normally for two years: £9.2 8s. per annum in the first year; £1,103 19s. per annum in the second and any subsequent years. If the post is resident a deduction of £170 per annum is made.

(b) SENIOR REGISTRAR: Posts obtained normally not less than four years after registration as a medical practitioner and held normally for four years; £1,258 8s, per annum in the first year; £1,372 16s, per annum in the second year; £1,487 4s, per annum in the third year; £1,601 12s, per annum in any subsequent years. If the post is resident a detuntion of £700 resources in second year; deduction of £200 per annum is made.

## Other Grades, Whole-time (a) HOUSE OFFICERS:

(a) HOUSE OFFICERS:

(i) Provisionally registered medical practitioners: £486 4s. per annum for the first post held; £543 8s. per annum for the second and all subsequent posts held; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £543 8s. per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff.

(ii) Fully registered medical practitioners: £600 12s. per annum for any post held;

provided that in exceptional circumstances, subject to the consent of the Minister, this rate may be exceeded by up to £50 per annum where a post cannot be filled otherwise.

In each case under sub-sections (i) and (ii) above, a deduction of £125 per annum in respect of board and lodging and other services provided shall be made and each post shall be tenable for six months.

(b) SENIOR HOUSE OFFICER: Posts obtained by fully registered medical practitioners, and held normally for one year only: £852 6s. per annum. If the post is resident a deduction of £150 per annum is made.

(c) JUNIOR HOSPITAL MEDICAL OFFICER: Officers who have held house appointments but who are neither Senior House Officers nor in one of the registrar grades, who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £886 12s, by £57 4s. to £1,229 16s. per annum. If the post is resident a deduction of £170 per annum is made.

## BRITISH MEDICAL ASSOCIATION

## ASSISTANT SECRETARY

The Council of the British Medical Association invites applications from registered medical practitioners for the post of Assistant Secretary. The salary will be £1,850, rising by annual increments of £115 to a maximum of £2,890 per annum. In determining the commencing salary the Council will have regard to the age, qualifications and experience of the practitioner appointed. The Association's superannuation scheme will apply on substantive appointment.

The practitioner appointed will be required initially to be resident in Northern Ireland and to devote the whole of his time to Association affairs in Northern Ireland.

The appointment will be for a probationary period of six months in the first instance, and thereafter may be terminated by six months' notice on either side.

Applications, giving details of qualifications and experience, and accompanied by the names of three persons to whom reference may be made, should be addressed to the Secretary of the Association, B.M.A. House, Tavistock Square, London, W.C.1, and must be received not later than May 23.

## THE MEDICAL PROTECTION SOCIETY

The Council of the Medical Protection Society invites applications from registered medical practitioners for the appointment of

## ASSISTANT SECRETARY

Commencing salary, according to age, qualifications, and experience, will be in the range of £1,500 to £2,100, with expectation of rising to a maximum of

£2,500 within five years and ultimate promotion. Generous superannuation provisions.

Experience of general practice will be of great value. The Council has in mind appointing somebody not older than 40.

Applications, giving full particulars, together with the names of not more than three referees, should reach the Secretary, Medical Protection Society, 50, Hallam Street, London, W.1, not later than June 7, 1960.

## PRACTICES (Evecutive Councils)

# ADRENOXYL

# reduces the mean capillary bleeding time

Adrenoxyl is a capillary haemostatic which reduces the mean capillary bleeding time by increasing the contractility and resistance, and decreasing the permeability of the capillary wall.

### Reduces capillary oozing

Reports have been received of the value of Adrenoxyl in diminishing capillary oozing both at the time of operation and post-operatively in many types of operation, including ear, nose and throat, ophthalmic, plastic and dental surgery. It has no effect on venous or arterial bleeding.

### Safe and free from side-effects

Adrenoxyl is safe, and no side-effects have been reported following its use. It does not affect pulse rate, blood pressure, nor blood coagulation.

### **Packs**

Adrenoxyl is available in ampoules for intramuscular or subcutaneous injection and in tablets for oral administration.

AMPOULES Each 2 ml. ampoule contains 0.75 mg. of

adrenochrome monosemicarbazone dihydrate. The ampoules are packed in boxes of 6 and 50.

TABLETS Each tablet contains 2.5 mg. of adrenochrome monosemicarbazone dihydrate. The tablets are packed in tubes of 25 and bottles of 500.
