individually designed

SPENCER SUPPORTS

in modern therapy

SPENCERFLEX—This versatile support for men has three tabs on each side of the back section and an abdominal extension at the top of the front section which has a telescoping action that provides maximum flexibility and comfort at rest, work and play.

Especially recommended following upper abdominal surgery, for angina pectoris, and for any controllable ventral or umbilical hernia that can be covered by the abdominal section.

May be designed with stiff steels or rigid steels for Lumbo-Sacral or other back conditions.

NULACIN "has revolutionized the treatment of duodenal ulcer"

"This new method of the administration of antacids (Nulacin) has revolutionized the treatment of duodenal ulcer...milk drip is no longer part of our therapeutic stock in trade."

PROC. ROY. SOC. MED., December, 1958, 51, 1063

NULACIN tablets, when allowed to dissolve slowly in the mouth, provide intragastric milk-alkali drip therapy safely and effectively for both the bedridden and ambulant patient. They may be relied on to provide a treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity.

The safety and effectiveness of Nulacin therapy has been proven by "in vivo" clinical work carried out in many countries. References to this work include:—

Allergic conditions

A more potent antihistaminic—rapid, strong, and prolonged in its action... with no serious side-effects

Of the many antihistamine compounds available today, Daneral is exceptional for its strong, rapid, and prolonged action. Even small doses are sufficient to counteract the histamine effects that occur in antigenantibody reaction. Daneral also has a strong antispasmodic action; it also reduces capillary permeability.

It is exceptionally free of toxic side-reactions and has no pronounced action on blood-pressure or vascular resistance.

Indications: Extensive clinical trials have established the effectiveness of Daneral in most allergic conditions. It also has value in many conditions that have no clear allergic origin or tissue reaction.

In hay fever and vaso-motor rhinitis Daneral is especially effective. In dermatology it is used in urticaria and angioneurotic oedema; serum reactions; drug allergy; pruritus. In general medicine bronchial asthma and cardiac asthma are helped by Daneral.

Packs: 10 mg. tablets—tubes of 20 and bottles of 250.

50 mg. tablets—tubes of 10 and bottles of 100.

Eczema (INFECTIVE)

After 5 days' treatment (Cambison 0.5% twice a day)

Steroid ointments are frequently successful in varieties of eczema that have resisted other therapy

They have the advantage of being anti-allergic, anti-inflammatory and anti-pruritic. Even severe itching is usually relieved in a few hours, and hyperaemia, swelling, and exudation reduced during the first day of treatment.

Cambison ointment combines the steroid prednisolone with a two-fold protection against infection. Not only does it include the antibiotic neomycin, which is highly effective against staphylococci and streptococci, but also a quinolylurea compound with chemotherapeutic action particularly directed against gram-positive organisms. This combination widens the antimicrobial spectrum and enhances the antibacterial effect.

Cambison is indicated in cases of acute and chronic eczema and dermatitis, particularly where infection is present or threatened.

Packs: Tubes of 5G and 20G. Available with prednisolone 0.25% or 0.5%

Eczema

 $\begin{tabular}{ll} \textbf{Chronic exudative eczema on back of the left hand.} \\ \textbf{Severe itching and weeping.} \end{tabular}$

Result after 2 days of treatment.

New ointment combines advantages of the corticosteroids with traditional ichthammol type therapy

In chronic dermatoses, steroid ointments alone do not always effect radical cures.

Tumeson (Tumenol Prednisolone Ointment) combines the advantages of the corticosteroids with more traditional therapy.

It has two components:—

 $Prednisolone\,0.25\%$, with its well-known anti-inflammatory and anti-allergic properties.

Tumenol Ammonium, a bituminous shale tar-oil similar to ichthammol, which is widely used in sub-acute and chronic skin conditions. As well as having an anti-inflammatory and anti-pruritic effect, it is a vasoconstricting agent with fungicidal and bacteriocidal properties.

Where a rapid, pronounced and sustained anti-pruritic and anti-eczematous action is called for, Tumeson is especially useful.

Packs: tubes of 5 G. and 20 G.

Athlete's Foot

Ringworm of the feet

After 7 days' treatment with Jadit

An effective new treatment that is odourless and colourless

Fungus infections of the skin—and particularly 'athlete's foot'—still remain a prevalent cause of distress and morbidity. The need for a reliable and cosmetically acceptable local treatment is greater than ever before.

The advantage of Jadit (chlorhydroxybenzoic acid butylamide) is that it provides a potent fungicidal action that is practically unimpaired in the presence of tissue protein. It is elegant, simple and safe.

a case for

For inflammatory and allergic mycotic reactions, hydrocortisone is added

Jadit 'H' contains 0.5% of hydrocortisone, which has a reliable anti-inflammatory, anti-allergic and anti-pruritic action. In combination with Jadit's antimycotic action, hydrocortisone suppresses inflammatory reactions.

Packs

Jadit Cintment.......Tube 20 g.

Aldactone

Brand of Spironolactone

The new therapeutic principle embodied in this drug effectively extends the control of oedema and ascites in

Congestive Heart Failure Hepatic Cirrhosis The Nephrotic Syndrome Idiopathic Oedema

Aldactone provides satisfactory relief of resistant or advanced oedema even when all other agents, alone or in combination, are ineffective or are only partially effective.

Aldactone blocks the effect of aldosterone which is the major cause of resistance to diuretics, and because of its different site and mode of action, Aldactone has a true and highly synergistic activity when used with a mercurial or thiazide diuretic.

the first specific aldosterone – blocking agent

Aldactone

bas the following advantages

- Satisfactory relief where all other agents fail.
- Does not induce potassium loss.
- No serious toxic or side effects.
- Exerts true, striking, synergistic activity in a programme of treatment including mercurial or thiazide diuretics.
- Offsets the potassium loss from concomitantly administered mercurial or thiazide diuretics.

What physicians may expect of Aldactone

It is fully expected that Aldactone will change present medical concepts of therapeutic limitations in the management of oedema. Many patients living in a greater or lesser state of oedematous invalidism can now be oedemafree. To others, gravely ill, Aldactone will be life-saving.

References

Patients' preference...

Why has Lucozade a very special attraction for the patient? The answer lies in its remarkably refreshing flavour and fragrance, qualities that baffle precise description. The colour, the sparkle and the glucose content ensure equally its recommendation by the doctor and its ready acceptance by the patient.

Lucozade is lightly carbonated with an attractive golden colour and a pleasant citrus flavour. It contains 23.5% w/v Liquid Glucose and its energy value is 21 Calories per fluid ounce. It is supplied in 6 oz. and 26 oz. bottles.

LUCOZADE

Striking the right

NOTE

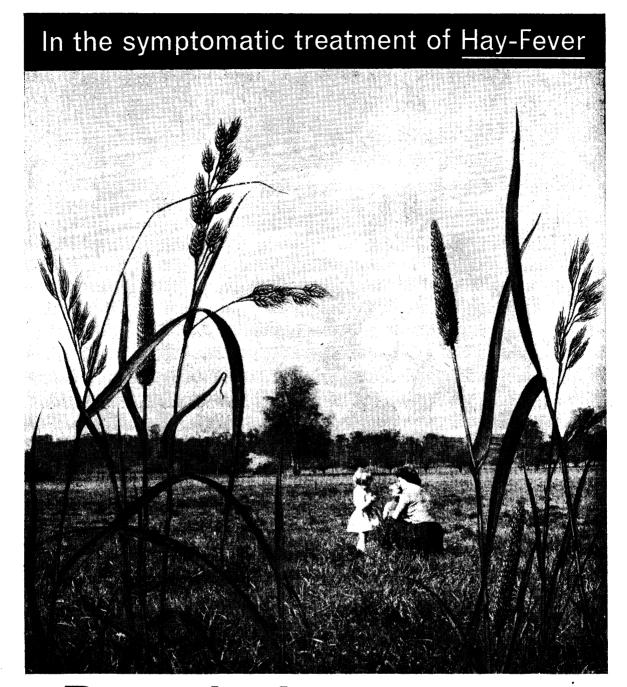

'ACTIDIL', most potent of the antihistamines, strikes the right note in the treatment of allergies. It is exceptionally strong—yet safe for all ages. Two or three daily doses of 'Actidil' Tablets or 'Actidil' Elixir will restore most patients to harmony with nature.

The richest source of natural vitamin C

Delrosa rose hip syrup is the ideal medium for the administration of Vitamin C. Babies tolerate it more readily than orange juice, and children of all ages enjoy its palatable flavour. Delrosa is made from rosehips, the richest source of Natural Vitamin C. It contains nearly three times as much Vitamin C as blackcurrant syrup B.P.C. and three times as much as fresh orange juice.

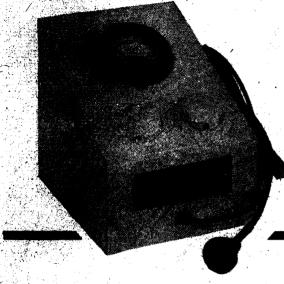

Delrosa

amplifying pulses having a short development time.

Small and compact and very suitable for use between scintillation counter or ion chambers and ratemeters or scalers.

'The safest family car in the world'

a NEW, SAFE hypnotic-analgesic combination

'Valgis'

'VALGIS' is a combination of 'Distaval' with aspirin and phenacetin for administration at night to relieve pain and give restful sleep. The inclusion of 'Distaval' as the hypnotic element avoids the toxic risks and such undesirable side-effects as the confusion and initial excitement associated with barbiturates.

The combination in 'VALGIS' of the safe hypnotic with two well-tried analgesics offers an effective hypnotic/analgesic preparation which is suitable for a wide range of conditions in general practice.

Each 'Valgis' tablet contains:

'Distaval' (thalidomide) Acetylsalicylic acid Phenacetin 50 mg.

250 mg. (4 grains) 250 mg. (4 grains)

Doorgo

One or two tablets at night before retiring. The dose should be reduced proportionately for

Tubes of 12 and containers of 100 tablets. Basic cost to N.H.S. of 12 tablets from dispensing pack of 100-2s. $2\frac{1}{2}d$.

'Valgis'

for insomnia associated with pain

Do you imperil your sterilization by dubious air filtration?

Recontamination of autoclaved goods—dressings, gloves, bowls, and instruments—is always possible unless *only* bacteria-free air is admitted to sterilizers.

Modern medical opinion insists on the need for adequate air filtration (M.R.C. Report on Pressure Steam Sterilizers, 1959, Lancet, i, 425).

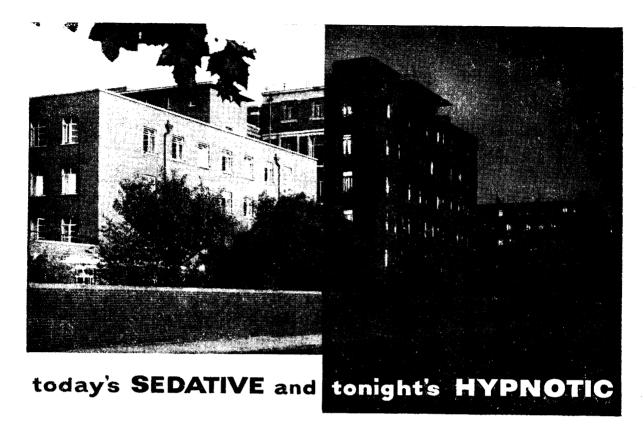

the answer is

STERIFILTA employs a pre-sterilized non-absorbent cartridge type Cotton Wool Filter which has been proved efficient under the most stringent bacteriological tests. A special filter holder guarantees the air-seal, ensuring that *only* filtered air enters the sterilizer. The Cotton Wool Filter should be changed daily.

STERIFILTA Filter Cartridges are manufactured and supplied by VERNON & CO. LTD., PRESTON Price 10/- per doz. nett.

STERIFILTA Holder (Patent Pending) is manufactured by STERITEC LTD, Wigman Road, Bilborough, Nottingham and is obtainable from the manufacturers or from Vernon & Co. Ltd, Preston Price £3.17.6d each, nett. Carriage Extra.

When sleep is a necessary aid to treatment in mental or physical illness, 'Distaval' is welcome for its potent hypnotic effect combined with outstanding safety. Having no demonstrable toxicity and minimal side-effects, this effective hypnotic can safely be given to infants and the elderly and in conditions where other drugs may be contra-indicated. It is also tasteless. In sedative doses, 'Distaval' is an invaluable aid in the treatment of certain mental illnesses or whenever it is desirable to ease the pressure of emotional stress.

'DISTAVAL'

brand of α - phthalimidoglutarimide (thalidomide)

SAFE but effective non-barbituric sedative and hypnotic

DOSAGE

As a bedtime hypnotic: Adults 50 mg.—200 mg. Infants and children: 25 mg.—100 mg.

As a daytime sedative: Adults: 25 mg. two or three times a day. Infants and children: Half to one 25 mg. tablet, according to age, one to three times a day.

PRESENTATION:

'Distaval' 25 mg. scored tablets in tubes of 24, bottles of 100, 500 and 1,000. Basic cost to N.H.S. of 12 tablets from dispensing pack of 100, 1s. 0d.

'Distaval' Forte 100 mg. scored tablets in tubes of 12 and bottles of 100 and 500. Basic cost to N.H.S. of 12 tablets from dispensing pack of 100, 2s. 8d.

Gastroenterology

A NEW

SPECIALIST

JOURNAL

GUT

for physicians, surgeons, radiologists, pathologists, with topical and authoritative articles on all aspects of gastroenterology.

GUT

number one (March 1960) contains among others, papers on the early diagnosis of the cause of haematemesis, on intestinal pseudo-obstruction with steatorrhoea, and on aspects of gastric secretion.

GUT

is edited by Mr. Harold Edwards, with Dr. F. Avery Jones as editorial secretary, supported by an expert committee. The quality of illustrations and their reproduction will be a special feature of this journal.

GUT

the Journal of the British Society of Gastroenterology is published by the British Medical Association, quarterly. Annual Subscription £3. U.S.A. and Canada \$10. From your usual subscription agent or from Publishing Manager, B.M.A. House, Tavistock Square, London, W.C.I.

I ought to get this-must send at once

Have <u>you</u> a talent for writing?

Mills & Boon Ltd., Publishers, offer prizes totalling £1,000 for full-length prose works with a medical background or interest. Entries are invited in two categories: (1) A romantic novel, (2) A work of fiction or non-fiction (other than a medical text-book) outside Category 1. Prizes offered in each class are: 1st £350 and publication on usual royalty and other terms, 2nd £100, 3rd £50. Entries which fail to win a First Prize may nonetheless be considered for publication. Prize money will not be regarded as an advance on royalties. All work submitted must be hitherto unpublished. This competition is intended to encourage new authors, and therefore entries will not be accepted from writers who have previously had a full-length work published within either of the above categories. This competition will be judged by the following panel: Lady Barnett, M.B., Ch.B., Miss J. Elise Gordon, O.B.E., M.A., Sir Heneage Ogilvie, K.B.E., M.Ch., F.R.C.S., etc., J. Harvey Flack, M.D., etc., the Editorial Director of Mills & Boon. More than one entry may be submitted by any competitor, but a separate entry form must be used in each case. Closing date June 1, 1961; Overseas competitors six weeks later.

For further details please send stamped addressed envelope to:

MILLS & BOON LTD. (Comp.) 50 GRAFTON WAY, LONDON, W.1.

THE UNIVERSITY OF GLASGOW and the ROYAL FACULTY OF PHYSICIANS AND SURGEONS POSTGRADUATE MEDICAL EDUCATION COMMITTEE

COURSE

COURSE
on the
USE OF ISOTOPES IN MEDICAL AND
BIOLOGICAL RESEARCH
A course of instruction for research workers in
hospitals, university departments, and industrial
laboratories will be held in Glasgow from Monday,
September 19, to Friday, September 30, 1960.
The course will be directed by Dr. J. M. A.
Lenihan. Regional Physicist to the Western
Regional Hospital Board of Scotland, and
Dr. W. Mulligan, Senior Lecturer in Veterinary
Biochemistry.
The object of the course is to give instruction in
the techniques by which radioactive isotopes are
used in medical and biological research. Lectures,
demonstrations, and laboratory classes will be held
in the Glasgow University Veterinary School,
the Physics Department of the Western Regional
Hospital Board, and the Gardiner Institute of
Medicine.

Twelve places will be available; applicants must be graduates in medicine or in one of the biological sciences. The fee for the course is twenty

guineas.

Application forms may be obtained from the Convener of the Postgraduate Medical Education Committee, The University, Glasgow, W.2, to whom they should be returned before July 15. 1960. Candidates selected for the course will be notified shortly after this date.

Anyone who applied for admission to a previous course and failed to obtain a place should submit a fresh application if he wishes to be considered for the forthcoming course. (8912)

UNIVERSITY OF LONDON

A lecture entitled "The Cholinergic Receptor" will be delivered by Professor P. Waser (Zürich) at 5.30 p.m. on May 26 at King's College, Strand, W.C.2. Admission free, without ticket.—James Henderson, Academic Registrar. (8806)

UNIVERSITY OF GLASGOW

DIPLOMA IN CLINICAL PSYCHOLOGY
A Course of Instruction over two years, leading to the Diploma in Clinical Psychology, will commence in July, 1960. An initial hospital attachment will be followed by a cource of formal instruction covering three academic terms. The final twelve months of the course will be devoted to practical training in a mental hospital. A limited number of paid appointments under the Regional Hospital Board is available, permitting attendance on the course. The fee for the full course, including examination fee, is £100. This is payable in two instalments: £70 for the first year and £30 for the second. Applicants must be first- or second-class honours graduates in psychology of a British or other recognized university. Further details, application forms, and regulations may be obtained from the Professor of Psychological Medicine, Southern General Hospital, Glasgow. The closing date for the submission of applications is July 1, 1960.

UNIVERSITY OF LONDON

A lecture entitled "Evolution of the Curative Treatment of Eclampsia" will be delivered by Professor M. K. Krishna Menon (Institute of Obstetrics and Gynaecology, Madras) at 5 p.m. on May 30 at University College Hospital Medical School, University Street, W.C.1. Admission free without ticket.—James Henderson, Academic (1805) Registrar.

ST. ANDREW'S HOSPITAL, NORTHAMPTON
For Nervous and Mental Disorders
President: The Earl Spencer, Medical Supt.
Thomas Tennent, M.D., F.R.C.P., D.P.H., D.P.M.,
This registered hospital is situated in 130 acres of park and pleasure grounds. Voluntary patients who are suffering from incipient mental disorders or who wish to prevent recurrent attacks of mental trouble temporary patients and certified patients of both sexes are received for treatment. Careful clinical, biochemical, bacteriological, and pathological examinations. Private rooms with special nurses, male or female, in hospital or in one of the numerous villas in grounds of the various branches can be provided.
MOULTON PARK.—Two miles from the man hospital there are several branch establishments and villas situated in a park and farm of 650 acres.
Milk, meat, fruit and vegetables are supplied to the hospital from the farm, gardens and orchards of hospital from the farm, gardens and orchards of Moulton Park. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening and

this branch and patients are given every facility for occupying themselves in farming, gardening and fruit-growing.

WANTAGE HOUSE.—This is a reception hospital in detached grounds, with a separate entrance to which patients can be admitted. It is equipped with all the apparatus for the complete investigation and treatment of Mental and Nervous Disorders by the most modern methods: insulin treatment is available for suitable cases. There is an Operating Theatre, a Dental Surgery, an X-ray Room, an Ultra-Violet Apparatus, and a Department of Diathermy and high-frequency treatment. It also contains laboratories for biochemical, bacteriological, and pathological research. Psychotherapeutic treatment is employed when indicated.

BRYN-Y-NEUADD HALL.—The seaside house of St. Andrew's Hospital is beautifully situated in a park of 330 acres at Llanfairicehan amidst the finest scenery in North Wales. On the North-West side of the estate a mile of sea-coast forms the boundary. Patients may visit this branch for a short seaside change or for longer periods. The hospital has its own private bathing house on the seasone. There is trout-fishing in the park. At all the branches of the hospital there are cricket grounds, football and hockey grounds, lawn tennis courts (grass and hard courts), croquet grounds, golf courses and bowling greens. Ladies and gentlemen have their own gardens, and facilities are provided for handicrafts such as carpentry, etc. For terms and further particulars apply to the Medical Superintendent (Telephone No.: Northampton 34354 (3 lines)), who can be seen in London by appointment.

New approach to

PSORIASIS

Hitherto intractable—now good response to alphosyl

THOUGH modern medicaments have brought almost dramatic relief to many forms of skin affection, Psoriasis has so far remained intractable. Its aetiology continues to baffle investigation: many forms of tried therapy have yielded only partial or temporary results.

Now ALPHOSYL—after extensive clinical trials—shows promise of bringing total clearances in many cases of Psoriasis.

In ALPHOSYL, for the first time, are presented in combination two powerful and proved agents: allantoin and a specially refined coal tar extract. The synergistic effects of these medicaments result in rapid clearance of the condition itself and positive stimulation of the healing processes.

ALPHOSYL LOTION combines these two valuable agents in one preparation and has yielded good clinical results where other medications have failed.

Clinical Properties

ALPHOSYL LOTION

relieves the condition and promotes healing by breaking up the horny layer of psoriatic skin, removing non-viable tissue and combating both the scaling and underlying erythema and induration.

has produced successful results in cases of psoriasis when the whole of the body has been affected from scalp to toe, in cases of many years' duration or when tender areas such as the anogenital and sub-mammary regions are affected.

is notably safe to use. The potential hazards of other forms of treatment—arsenic, mercury, corticosteroids, X-rays—are avoided. No irritation has been observed in any case of psoriasis treated with ALPHOSYL, even those involving tender regions.

does not produce tolerance. Patients continue to benefit from prolonged therapeutic or maintenance applications.

is a welcome advance cosmetically, as it is pleasant to use, non-greasy, non-staining, and vanishes on application to the skin. It may be used freely on the scalp, and is ideal for day or night use.

The impressive successes obtained with ALPHOSYL indicate that it deserves a trial in all cases of Psoriasis—no matter how extensive the area of affection, how long the duration of the condition, or whatever the therapy previously used.
