2 ways TO ATTACK **OBESITY**

'SPANSULE DEXEDRINE'

One 'Dexedrine Spansule' capsule controls appetite and relieves depression for 10-12 hours

in the overweight patient who is apathetic or lethargic

'SPANSULE DRINAMYL'

One 'Drinamyl Spansule' capsule controls appetite and relieves tension and anxiety for 10-12 hours

in the overweight patient who is tense and anxious

Formulae:

Each 'Dexedrine Spansule' capsule contains 10 or 15 mg. 'Dexedrine' (dexamphetamine sulphate BP)

Each Strength No. 1 'Drinamyl Spansule' capsule contains 10 mg. 'Dexedrine' and 65 mg. (gr. 1) amylobarbitone.

Each Strength No. 2 'Drinamyl Spansule' capsule contains 15 mg. 'Dexedrine' and 97 mg. (gr. $1\frac{1}{2}$) amylobarbitone.

There is no difference in the duration of action between the two strengths: the difference lies in the intensity of the effect.

RESOCHIN

chloroquine phosphate

1 Tablet daily

Good to excellent results in 70% of patients total remission in 35% of patients

Resochin (chloroquine phosphate) has important, new implications in the treatment of rheumatoid arthritis. Extensive clinical trials have shown that good to excellent results are obtained in 70% of patients treated.

In more than half of these patients total remission of the disease was achieved.

Each Resochin tablet contains 250 mg. chloroquine phosphate. Available in containers of 100 tablets.

DEEP SKIN **PENETRATION ARTHRITIS** AND RHEUMATISM

NICOTINIC, SALICYLIC AND p-AMINOBENZOIC ACIDS in Ester form

In cases of soft-tissue rheumatism, and arthritic disorders, many doctors are tending more and more to regard Transvasin as an indispensable adjuvant to treatment.

For Transvasin is composed of the esters of nicotinic, salicylic and p-aminobenzoic acids. These esters readily pass the skin barrier in therapeutic quantities, and so enable an effective concentration of drugs to be built up where they are needed.*

Transvasin not only induces vasodilatation of the skin with a superficial erythema, but also brings about a deep hyperaemia of the underlying tissues. It is non-irritant and can be safely used on delicate skins.

It is now being widely prescribed, with successful clinical results. Since a very small quantity is sufficient for each application, the cost of treatment is extremely low.

*Therapeutische Umschau 1952, 8, 143

Transvasin is available in 30g. tubes, N.H.S. price in the U.K. 2/6 plus P.T., and is not advertised to the public. Samples and literature will be gladly sent on application.

ANAEROBIC BACTERIOLOGY IN CLINICAL MEDICINE

By A. TREVOR WILLIS, Ph.D.(Leeds), M.B., B.S.(Melb.). Pp. xii+163+Index. 13 illustrations. 30s. net, by post 1s. 3d. extra.

In this new book the link between infection and anaerobic bacteria is recognized and the author stresses the importance of the anaerobe in clinical medicine. Methods of growing anaerobes, media, examination and identification, characteristics of the pathogenic anaerobes, anaerobic infections and the toxicology of anaerobes are all covered in great detail.

MODERN TRENDS IN DIAGNOSTIC RADIOLOGY—Third Series

Edited by J. W. McLAREN, M.A., M.R.C.P., F.F.R., D.M.R.E. Pp. xii+274+Index. 209 illustrations. 75s. net, by post 1s. 9d. extra.

The editor has brought together a team of experts in the field of radiology, covering every aspect of his subject, and dealing with apparatus, techniques and the progress made in clinical research due to diagnostic radiology. Angiocardiography, cineradiography and radiological procedures covering all the systems are dealt with fully, with detailed diagrams and plates illustrating the techniques and media used.

AN APPROACH TO OCCUPATIONAL THERAPY

A survey based on the observation of 4,115 patients treated in Farnham Park Recuperative Home, October 1947 to December 1955

By MARY S. JONES, M.C.S.P., M.A.O.T.

Pp. vii+236+Index.

76 illustrations.

Price 42s. net, by post 1s. 6d. extra.

A wealth of intense practical and personal experience has gone into this book. Specific disabilities are reviewed in detail with the appropriate training needed to overcome particular incapacities, the demands of different cases being weighed and the patient's inclinations, capabilities and occupation considered, in addition to the prime aim of reablement. The book will be a valuable guide to all engaged in therapy and of great interest also to doctors.

CASSELL MEDICAL BOOKS

HEINEMANN:

AN INTRODUCTION TO HUMAN BLOOD GROUPS

by Fulton Roberts, M.D.

In recent years many more blood groups have been discovered and some of the established systems—ABO, MN and P—have been found to be more complex than at first appeared. Furthermore, blood groups now play a wider part in scientific and medical study than is met by a consideration only of blood transfusion in haemolytic disease of the newborn. This new book is a simple introduction to the subject not only for students and practitioners, but all whose work lies in the new fields where blood group study offers opportunity for the advancement of scientific knowledge.

BLOOD TRANSFUSION:

A Guide to the Practice of Transfusion Within Hospitals

—2nd Edition

by G. Discombe, M.D., B.Sc.

The second edition of this popular little book has been rearranged to make reference easier and incorporates advances in knowledge made since the book was first issued in 1955.

RADIOLOGY AS A DIAGNOSTIC AID IN CLINICAL SURGERY

by Howard Middlemiss, M.D., F.F.R., D.M.R.D.

Special care has been taken to produce paper and blocks which will give the finest possible reproduction of the illustrations, each of which shows some definite lesion and has been chosen because of its clarity or the rare condition it delineates. The author has selected his subjects from those on which surgical colleagues have consulted him in daily practice in a busy teaching hospital. 100 illustrations.

SELECTED PAPERS OF SIR GEOFFREY JEFFERSON

A collection representative of all that is best in the writings of Sir Geoffrey Jefferson, who for the last thirty years has had few equals in the profession of surgery either for the range of his knowledge and interests or for the philosophy of his thought. The selection of papers has been made by Sir Geoffrey Jefferson himself and he has added comments and postscripts to many of them. The importance and interest of the subject matter, the depth of thought, the clear style and the warm humour which so often illuminate it, make this a book to be valued in the medical profession. £5 5s. net.

Technique for the treatment of stubborn varicose ulcers with

ICHTHOPASTE bandages and ELASTOPLAST compression bandages

ICHTHOPASTE applied to the skin beneath Elastoplast permits uninterrupted compression bandaging in cases of recalcitrant ulcers requiring long-term ambulatory treatment.

Make three slabs of Ichthopaste about 12 inches long by lapping the bandage backwards and forwards to give two or three thicknesses. Apply these to the anterior, lateral and medial aspects of the leg. Commencing just behind the toes, apply a complete Ichthopaste bandage, enclosing the heel and extending to a point immediately below the bend of the knee. Allow the bandage to follow its own course without pleating,

evenly to the shape of the leg.
A complete Elastoplast bandage not less than
3" wide is now applied over the Ichthopaste,
under firm compression from toes to
knee including the heel.

and cut where necessary. Recommence bandaging to build up a uniform thickness of paste. Mould bandage carefully to conform

In cases of copiously discharging ulcers and oedema, it may be necessary to change the bandages weekly at first, then at longer intervals as the ulcer dries and the oedema subsides.

ELASTOPLAST elastic adhesive bandages B.P.C. (porous) provide efficient compression and support, while permitting ambulation.

ICHTHOPASTE Zinc Paste and Ichthammol Bandages B.P.C. protect the hypersensitive skin and reduce oedema.

Please note also-

How easy it is for your patients to insert.

How flat Tampax expands to fit the vaginal canal.

How gentle its contact with the vaginal epithelium.

How positive its wick action in absorbing the flux.

How well it is adapted to individual needs.

Not only may Tampax be readily inserted without orificial stress or irksome effort (by virtue of its compression, and its individual one-time applicator)... but removal may be effected *daintily*, with complete assurance of freedom from any necessity for "probing".

Only Tampax (of all menstrual tampons) gives your patient the confidence engendered by the knowledge that central stitching completely precludes any possibility of disintegration in situ. Moreover, the moisture-proof cord (by which the tampon may be so gently withdrawn) is actually an inseparable extension of that stitching.

To the patient, these features (incorporated in Tampax in its original design by a doctor) are as important as is the superior absorbency of its surgical cotton... its positive "wick action" that prevents any blocking of the flow... and its comfort and convenience in use.

To the Medical Profession, these important details testify to its hygienic superiority for internal menstrual protection.

Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Havant, Hants.

falapen

One tablet gives penicillin cover for twelve hours.

When, as with penicillin, the therapeutic value of a drug is universally accepted, it is important that the drug be used in the most effective way.

'Falapen' is a fast and long-acting oral form of penicillin G. It is specially formulated to give both an *immediate* and a *prolonged* action. The shell gives immediate release in the stomach. The core and its coating are specially processed to allow gradual release of penicillin on reaching the intestine.

The basic cost to the NHS of daily 'Falapen' (two tablets) is less than 1s.2d.

DOSE: one tablet every twelve hours, preferably before a meal.

Each tablet contains 500,000 i.u. benzylpenicillin (Penicillin G B.P.)

DUNCAN, FLOCKHART & CO. LTD. EDINBURGH 11

'Brulidine' contains dibromopropamidine the powerful antibacterial agent, which is active against common wound contaminants including the pyogenic cocci, *Bacterium coli*, *Pseudomonas pyocyanea*, and *Proteus vulgaris*. It is not an antibiotic, and shows little tendency to give rise to resistant pathogenic strains, whilst sensitization reactions are minimal.

'Brulidine' is equally indicated as a first aid dressing for minor burns, scalds and other injuries, and as a treatment for established surface infections due to susceptible organisms.

PRESENTATIONS: 0.15% cream in a water miscible base in tubes of 1 oz. and containers of 1 lb.

The Pharmaceutical Press

17 Bloomsbury Square, London, W.C.1 Publishers of 'The Extra Pharmacopæia'

Have you received your copy of

MODERN CONTRACEPTIVE TECHNIQUE?

This practical manual on contraception has already proved invaluable to many doctors in advising their patients. It presents a concise and compact survey of methods commonly used, together with notes on methods which have medical approval, and also on others which are medically contra-indicated. If you have not yet received a copy, you are invited to write for one now.

The case against 'natural' methods

Medical opinion generally agrees that the practice of so-called "natural" methods of contraception (coitus interruptus, coitus reservatus, etc.) can have an adverse effect on physical and mental health. One of the principal reasons why these unreliable methods are used is the slight loss of sensitivity experienced with protectives (condoms).

This problem has now been almost entirely overcome by the introduction of Durex Gossamer, a new kind of lubricated protective. Durex Gossamer, is treated with Sensitol, "a non-wet, non-messy" lubricant which substantially increases the level of sensitivity. Samples of Durex Gossamer protectives on request.

LONDON RUBBER CO. LTD., Department 294, HALL LANE, LONDON, E.4

A GENERAL STIMULANT FOR THE CENTRAL NERVOUS

For cases requiring a quick-acting general stimulant without increasing the patient's appetite, we consider Amphetone unique. It combines for the first time Dexamphetamine Sulphate and Strychnine with Glycerophosphates and members of the Vitamin B Group. The Dexamphetamine provides the convalescent with an immediate feeling of well-being, this being followed by the well-known tonic effects of the other medicaments. Clinical reports have been excellent.

FORMULA

PORMULA

To lessen the fear of mutilation . . arrange for Prosthesis before mastectomy

The psychological hazards of mastectomy are generally recognized. A woman's fear of mutilation—of its effect on her appearance—is often as great as her fear of surgery itself. That is why arranging for the correct prosthesis replacement before surgery helps to minimize the psychic trauma—enabling the patient to face the adjustment period with more calm and assurance.

The surgeon can prescribe Spencer Mastectomy Supports with complete confidence that they will meet both the medical and cosmetic ipdications. The reason: Each Spencer Breast Support and Breast Form is individually designed, cut and made for each patient.

Wherever support is indicated for breasts, back, abdomen—for women, men, children—you will find Spencer Supports demonstrably superior.

For Chronic Discharge of the Ear. RYOTOL

RYOTOL is lethal to Ps. pyocyanea, Staphylococcus aureus, Proteus vulgaris and Streptococcus pyogenes found in C.S.O.M. and Otitis Externa.

The presence of Ps. pyocyanea has been demonstrated in 90% of cases of chronically discharging ears. This gram-negative, highly resistant organism is unaffected by penicillin, sulphonamides and many other bactericides. It produces abundant pus and is therefore extremely troublesome.

RYOTOL Ear Drops are the outcome of clinical work on humans, following outstanding results obtained in the veterinary field.

Formula:

Monophenyl ether of ethylene glycol
Phenylmercuric Nitrate
Phenyl-dimethyl iso-pyrazolone
in a stabilised non-irritant base.

Do you imperil your sterilization by dubious air filtration?

Recontamination of autoclaved goods—dressings, gloves, bowls, and instruments—is always possible unless *only* bacteria-free air is admitted to sterilizers.

Modern medical opinion insists on the need for adequate air filtration (M.R.C. Report on Pressure Steam Sterilizers, 1959, Lancet, i, 425).

the answer is

STERIFICA

Regd. Trade Mark

STERIFILTA employs a pre-sterilized non-absorbent cartridge type Cotton Wool Filter which has been proved efficient under the most stringent bacteriological tests. A special filter holder guarantees the air-seal, ensuring that *only* filtered air enters the sterilizer. The Cotton Wool Filter should be changed daily.

STERIFILTA Filter Cartridges are manufactured and supplied by VERNON & CO. LTD., PRESTON Price 10/- per doz. nett.

STERIFILTA Holder (Patent Pending) is manufactured by STERITEC LTD, Wigman Road, Bilborough, Nottingham and is obtainable from the manufacturers or from Vernon & Co. Ltd, Preston Price £3.17.6d each, nett. Carriage Extra.

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Third Collection with classified contents list to volumes 1, 2 and 3 Price 25s. (by post 26s. 9d.)

Price 25s. (by post 26s. 9d.)

Each book contains a collection of sixty Refresher Course articles from the British Medical Journal. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what is old and well-established and to tell him about new developments. They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

MUFULIRA COPPER MINES LIMITED

MEDICAL OFFICERS

Medical Officers required by Northern Rhodesia copper mining company for general duties principally in the women and children's medical wards, maternity, gynaecological, and out-patients' sections of the Company's African Hospital, to which a number of outlying clinics are attached. Medical Officers are interchangeable between the African and European Hospitals, and those normally working in the African Hospital may be required to undertake some European out-patients and visiting work. Medical Officers may also be required to lecture in the African Nurses' Training School attached to the African Hospital.

The Company's European and African Hospitals are modern, well-equipped and have approximately 100 and 400 beds, respectively, with a medical staff of ten doctors, including surgeons, anaesthetist, gynaecologist, etc. The hospitals serve populations of approximately 30,000 Africans and 5,000 Europeans.

Commencing basic salaries are commensurate with qualifications and experience, with a minimum of £1.800 per annum, plus a variable cost-of-living allowance, at present £83 per year. In addition, there is a Metal Bonus Scheme whereby employees share in the prosperity of the industry. The provisional bonus for the year ending June 30, 1960, is 431% of basic salary. There are also generous pension, life assurance, and share purchase schemes. Paid leave accrues at 51 days per annum, and may be accumulated up to three years. Up to seven days' local leave may also be granted annually. Houses, with basic furniture, are available at nominal rentals. Cars are provided for professional use. The cost of travel to the Northern Rhodesia Copperbelt will be paid for successful applicants, their wives and children.

The mine is situated at an altitude in excess of 4,000 ft. Climatic conditions are therefore pleasant and the summer not unduly hot. There are excellent schooling, sporting, and recreational facilities.

Application, giving full personal particulars and details of qualifications and experience, together with a recent photograph, and an indication of earliest date available, should be made to:

Mine Employment Department, SELECTION TRUST LIMITED, Mason's Avenue, Coleman Street, London, E.C.2. Please quote R.8 B.M.

First shoes have big responsibilities. They have to look after little feet when it's easiest of all to damage them for life with ill-fitting, ill-made footwear. Clarks Play-ups have no unnecessary gimmicks but have everything a toddler needs in shoes; firm but gentle FIT at instep and heel, room at the front for toes to grow, soft leathers which are kind to baby skin, broad but light and flexible soles to make balancing less of a problem, absorbent leather inner soles for health and comfort. Play-ups are shoes you can *trust* at a time when trustworthy shoes are all-important.

SURGERY

Don't let sickness overshadow pregnancy prescribe

'ANCOLOX

Although many women today realise that occasional morning sickness is a normal, though unpleasant part of pregnancy, they will turn to you for advice and help in these vital early months. Reassure your patient. Prescribe ANCOLOXIN, which is now well established as a real comfort to expectant mothers, in controlling pregnancy sickness.

Each tablet presents meclozine hydrochloride 25 mg., plus pyridoxine hydrochloride (vitamin B₆) 50 mg.

Meclozine hydrochloride is given for central control of the vomiting, and pyridoxine hydrochloride for basic metabolic restoration.

> BASIC N.H.S. PRICES Tubes of 10 tablets 5/6 **Bottles of 50 tablets 21/4**

DOSAGE 2 tablets at night until the condition is under control.

THE BRITISH DRUG HOUSES LTD. (MEDIGAL DEPARTMENT) LONDON N.I

Planned parenthood

needs wise advice

The responsibility for family planning shared by young married people can be helped by timely advice concerning reliable contraception methods.

Gynomin and Antemin, both of which are physiologically sound and aesthetically agreeable, provide alternative means of contraception and may be confidently recommended.

GYNOMIN

Sodium Bicarbonate B.P.12.7% Tartaric Acid B.P. 11.1% Chloramine B.P.1.1%

Sodium dioctyl sulphosuccinate 0.25% Ricinoleic Acid B.P.1.00% Boric Acid B.P.1.00% Paraformaldehyde B.P.C. 0.15%

The Family Planning Association advise that for maximum safety, any chemical contraceptive should be used with a mechanical barrier.

Further information and sample packings are available on request.
