case
for

SAFE

Rastinon (tolbutamide) has been proved to be *completely safe*—in clinical trials and in routine usage—by over 1,250,000 diabetics. It has fewer side-effects than any other oral anti-diabetic substance and no serious side-effects have ever been reported.

EFFECTIVE

Over 1,000 published articles substantiate the effectiveness and safety of Rastinon.

Rastinon

RESEARCH . . .

THE FUTURE . . .

AND HOECHST

The great German pharmaceutical company, Farbwerke Hoechst A.G., last year celebrated its seventy-fifth anniversary. It could look back on many outstanding developments in medical science that it had introduced—ranging from the first diphtheria antitoxin, to Rastinon, the established oral treatment of diabetes.

Today, in the Pharmacopoeia of every country are listed drugs originated at Hoechst; for example, in the British Pharmacopoeia 1958 are listed Procaine, Epinephrine, Mersalyl, Tetracaine, Pethidine, Methadone, and Normethadone, each one of which was discovered in the Hoechst laboratories.

300 graduate scientists — chemists, doctors, pharmacists — are employed by Hoechst in Frankfurt on pharmaceutical research alone. They work in ultra-modern laboratories, with all the equipment they could possibly need.

The promise from Hoechst is of even greater achievement in the discovery of new weapons against disease.

SOUND PRACTICE

The new British National Formulary
sounds a note of commendation for
sulphadimidine. We would like to
remind you that this valuable drug—
introduced 18 years ago by I.C.I. under the
name 'Sulphamezathine'—is today's
most widely prescribed sulphonamide.

IMPERIAL CHEMICAL INDUSTRIES LIMITED

Still the best sulphonamide for routine use . . .

The British National Formulary 1960 again confirms the pre-eminence of sulphadimidine amongst sulphonamides and draws attention to the following advantages :—

- * Probably the best sulphonamide for routine use.
- * Particularly suitable for children.
- * A compound of high activity.
- * Produces high blood levels when given six hourly.
- * Toxic effects are rare.
- * Fulfils all the theoretical advantages of a sulphonamide mixture.

In addition, it is worthy of note that 'Sulphamezathine' is featured as the drug of first choice for urinary tract infections and for bacillary dysentery.

*Important
new
product*

relieves the total cold syndrome-Orally

'Triotussic' provides—

■ non-addictive cough suppressant action, respiratory stimulation and bronchodilatation

■ nasal decongestion and relief of rhinorrhoea without "rebound", or damage to respiratory cilia, or central stimulation

■ analgesic and antipyretic actions without gastric intolerance

■ expectorant action to increase respiratory tract lubrication

■ the known anti-allergic advantages of 'Triominic'

Triotussic 'timed-release' tablets provide in minutes relief which lasts 6 to 8 hours.

First—the outer layer dissolves within minutes to give 3 to 4 hours' relief.

Then—the inner core disintegrates to give a further 3 to 4 hours' relief.

Thus—3 doses provide round-the-clock total antitussive relief.

FORMULA: Each 'timed-release' tablet contains;

'Triominic'	25 mg.
(phenylpropanol-amine-HCl	12.5 mg.
mepyramine maleate B.P.	6.25 mg.
pheniramine maleate	6.25 mg.)

Noscapine hydrochloride	20 mg.
Terpin hydrate B.P.C.	90 mg.
Paracetamol	160 mg.

DOSAGE for adults—2 tablets every 6 to 8 hours. Total 24-hour dosage should not exceed 6 tablets.

PACKS: Supplied in dispensing bottles of 50 and 250.

PRICE: Basic N.H.S. Price (including P.T.) for 50 tablets (8 days' treatment) is 6/8d.

Also available: 'Triotussic' Suspension, for children and patients who prefer liquid medication, in bottles of 4 fl. oz. and 20 fl. oz. (dispensing). Basic N.H.S. Price (including P.T.) for 4 fl. oz. is 6/3d.

Anabolex

the protein anabolizing, non-virilizing steroid promotes
—a return to appetite—an increase in weight—a sense of well-being

PATIENTS who are run down or who are recovering from illness frequently suffer from faulty protein metabolism. They are in negative nitrogen balance. Protein, in effect, is being broken down and lost faster than it is being built up.

Anabolex (androstanolone) restores the physiological balance. Many clinical trials have shown that, following the administration of Anabolex, there is an immediate return of the body's capacity to build up protein. The patient feels better, eats better and gains weight.

Here, then, is a physiological "tonic" with a wide therapeutic range. The weakness, lassitude, lack of energy and interest associated with many pathological states may be rapidly overcome by the administration of Anabolex.

Anabolex can be safely given to patients of all ages and both sexes; in therapeutic doses, its virilizing properties are almost negligible. The only known contra-indication is prostatic carcinoma.

*Anabolex is a
registered trade mark*

PRESENTATION: In vials of 25 and 100 tablets, each tablet containing 25 mg. Androstanolone. Basic N.H.S. cost 20/- and 70/-. Anabolex is exempt from purchase tax. Samples and literature will be gladly sent on application.

INDICATIONS Middle-aged or elderly people who are debilitated or "run down." Preparation for and recovery from planned surgery. Convalescent patients. Premature infants. The child or adolescent who is under weight. Anorexia, Asthenia, Malnutrition, Wasting diseases.

LLOYD-HAMOL LIMITED  **11 WATERLOO PLACE, LONDON, S.W.1**

To simplify home treatment of
ULCERATIVE COLITIS

PREDSOL ENEMA

THE FIRST PRESENTATION OF A CORTICOID IN A DISPOSABLE PLASTIC BAG

A water-soluble corticoid given as a rectal infusion has produced complete symptomatic relief and considerable improvement, as judged by sigmoidoscopic and histological findings,¹ in a high proportion of patients with ulcerative colitis. This technique has now been further simplified² by presenting a small quantity of Predsol (water-soluble prednisolone) in solution as an enema to avoid the inconvenience of prolonged administration by rectal drip.

The course of treatment is one Predsol Enema contained in a disposable plastic bag, self administered nightly for about a month ... a course to which the majority of patients will respond.

1. *British Medical J.* 1958, 2, 1072.

2. *Lancet* 1960, 1, 517.

Predsol Enema is available in boxes holding a week's supply of seven plastic bags each containing 100 ml. Instructions to the patient are enclosed.

PREDSOL RETENTION ENEMA

20 mg water-soluble prednisolone in a disposable plastic bag for self administration.

GLAXO LABORATORIES LIMITED

*Some facts about
the Durex Gossamer
protective, the latest
and most acceptable
family planning
method*

FOR many years, DUREX Protectives have enjoyed widespread acceptability among the majority of married people who practise birth control. This acceptability—proved by the results of recent surveys—is not difficult to explain. DUREX Protectives are supremely reliable; they bring freedom from anxiety and stress for both partners; they are simple to use; can do no organic harm; they are inexpensive; and their obvious efficiency is visually evident and brings reassurance.

However, some criticism has, in the past, been levelled at protectives on the grounds that they reduce sensitivity. DUREX Gossamer, recently introduced by the London Rubber Company almost entirely overcome such objections.

DUREX Gossamer Protectives are pre-treated with 'Sensitol', a remarkable new lubricant which is neither wet nor messy, is bland, non-toxic and non-sensitising. This pre-lubrication ensures that the DUREX Gossamer is almost imperceptible in use, affording complete satisfaction. DUREX Gossamer Protectives are fully tested by the most up-to-date electronic equipment for complete reliability and are hygienically packaged in separately sealed foil containers.

Freely available from chemists and

drug stores, DUREX Gossamer Protectives have been proved to be the most acceptable method of family planning available, and, emotionally and physically, can contribute greatly to the well-being and harmony of marriage.

Free literature on family planning

The Condom as a Contraceptive

Written by the Director of Research at the National Committee on Maternal Health Inc., New York, a well-known authority on the statistical evaluation of family planning, analyses the effectiveness and acceptability of the condom in detail. The foreword and conclusions of this booklet alone—even if the detailed analysis is not read—put forward a strong case for the recommendation of the condom as a reliable family planning method.

Modern Family Planning A new booklet discussing the various methods of family planning written in simple language for distribution to patients.

Diaphragm or Protective A comparison of the two leading methods of contraception.

The case against Coitus Interruptus
An indictment of this method of birth

control—its failure rate and its physical and mental effects.

The married woman's views on contraception A survey based on facts revealed by a recent investigation of the opinions of married women about family planning.

Contraception—the facts about recent developments An enquiry into the stage reached in the development of oral contraception—the advances to date, the interest of the general public, the known disadvantages and the long-term dangers.

Drapolene

for napkin rash

therapeutic and prophylactic

The success of Drapolene as a preventive and treatment of napkin rash is due to its almost specific activity against the urea splitting organisms which are known to be the causative factor of this common skin condition.

Drapolene is formulated in a pleasant water miscible base which promotes residual activity, thus preventing the liberation of free urinary ammonia.

- ★ Effective against the urea splitting organisms and a wide range of pathogens.
- ★ Quick acting, even where an ulcerated condition has developed.
- ★ Assists cleansing of the affected area.
- ★ Soothing, non-toxic, and prophylactic.
- ★ Not oily or greasy, non-staining.

Formula : Benzalkonium chloride: 0.01 per cent in a water miscible base.

Trade price : 2 oz. tube 2/8 (exempt P.T.) 1 lb. jar 12/6

whatever the situation

... relief is always within reach

Immediate action is the key to successful treatment of migraine. And 'Migril' is tailor-made for such action. The tablets can be taken anywhere—at any time—to avert an attack. And thanks to their adequate content of ergotamine, they provide really prompt relief. Each tablet contains 2 mgm. ergotamine tartrate; yet this dosage can be taken with minimal risk of nausea or vomiting—for 'Migril' also incorporates the powerful anti-emetic, cyclizine hydrochloride. Caffeine is added, too, to potentiate the action of ergotamine. For these good reasons the patient who carries 'Migril' carries constant insurance against attacks.

CREMOSTREP

arrests

DIARRHOEA

'SULFASUXIDINE' WITH STREPTOMYCIN

'CREMOSTREP' is an oral anti-diarrhoeal agent containing succinylsulphathiazole (Sulfasuxidine*) and streptomycin, chosen for their powerful, synergistic, anti-bacterial activity.

Advantages are:

- (1) Speedy relief of symptoms
- (2) Well-tolerated, since absorption is minimal
- (3) Microfine suspension assuring maximal mucosal contact
- (4) Pleasant taste appeals to children
- (5) Contains two agents most likely to combat intestinal pathogens

Indications: Diarrhoeas, including bacillary dysentery, neonatal diarrhoeas, those due to *Salmonella* and *E. coli*, paratyphoid.

Dosage: Average adult dosage—4 teaspoonfuls (20 ml.) 2 to 4 times daily before meals.

For full information, please refer to literature.

The United Kingdom N.H.S. basic cost is 2s. 2d. per fl. oz.

Supplied in bottles of 3 fl. oz.

THE WRIGHT RESPIROMETER

This is a respiratory measuring instrument for use in anæsthesia, oxygen therapy and for general application in respiratory physiology. It has a watch-type dial which shows at a glance the precise amount of gas that has passed through the instrument. Air resistance and inertia are extremely low, and the instrument can be plugged into any part of an anæsthetic circuit or used with a face mask for respiratory studies. We shall be pleased to send you fully illustrated literature on the Wright respirometer. Just ask us.

BRITISH OXYGEN IN THE SERVICE OF MEDICINE 

THE BRITISH OXYGEN COMPANY LIMITED, MEDICAL DEPARTMENT, SPENCER HOUSE, 27 ST. JAMES'S PLACE, LONDON, S.W.1.

Adult female. Total body psoriasis of several years' duration.
Alphosyl started 22/1/58. Lesions practically clear by 5/3/58.

dramatic clinical results in psoriasis

followed by medical successes
throughout the United Kingdom

Though modern medicaments have brought almost dramatic relief to many forms of skin affection, Psoriasis has so far remained intractable. Its aetiology continues to baffle investigation and many forms of tried therapy have yielded only partial or temporary results.

Now ALPHOSYL—after extensive clinical trials and medical successes throughout the United Kingdom—shows promise of bringing total clearances in many cases of Psoriasis.

In ALPHOSYL, for the first time, are presented in combination two powerful and proved agents: allantoin and a specially refined coal tar extract. The synergistic effects of these medicaments result in rapid clearance of the condition itself and positive stimulation of the healing process.

ALPHOSYL LOTION combines these two valuable agents in one preparation and has had impressive results where other medications have failed.

The successes obtained with ALPHOSYL indicate that it deserves a trial in all cases of Psoriasis—no matter how extensive the area of infection, how long the duration of the condition, or whatever the therapy previously used. References: "Clinical Medicine" Vol. 5, No. 4, April 1958; and "Ohio State Medical Journal," Vol. 55, No. 6, June, 1959.

LOTION

FOR SUB-ACUTE and chronic dermatoses TAR + HYDROCORTISONE

combined in

TARCORTIN

CREAM

have pronounced advantages over
either medicament alone.

The established germicidal, stimulating and anti-pruritic properties of tar in the treatment of sub-acute and refractory skin affections, can now be considerably enhanced by its incorporation with hydrocortisone.

*Clinical trials have shown that the two medicaments together exert a powerful synergistic action that is far more rapid, more pronounced and complete than the action of either alone. These two valuable therapeutic agents are presented in a non-greasy, stainless hydrophilic cream, known as TARCORTIN.

TARCORTIN CREAM is supplied in 7 grm. and 15 grm. tubes, containing 0.5% hydrocortisone in a special coal-tar extract.

*Literature available on request.

Favourite patient: favourite drink

Mrs K. The indomitable she, all quips and curls. And the favourite patient's favourite drink, the one in the glass in her hand?—Lucozade, of course. It has helped during the last few days of gastro-enteritis, when appetite was poor and glycogen stores were low. It is helping now as the patient emerges into convalescence, ready for a light diet, eager to be up and about. Less than a quarter as sweet as sucrose, providing 126 Calories in one glass, and putting them into the blood-stream *quickly*—those are the reasons why the doctor too approves of . . .

LUCOZADE

LIGNAX

TRADE MARK

HAEMORRHOIDAL SUPPOSITORIES

(and ointment)

LIGNAX is safe because it contains lignocaine local anaesthetic which (unlike other surface anaesthetics) does not give rise to sensitisation dermatitis.

The rapid effective anaesthesia provided by LIGNAX, combined with the soothing action of the base, reduces pain, irritation and discomfort promptly, with immediate benefit to the patient which is maintained by the effective therapy of the well-tried medicaments embodied in the formula. The anaesthetic does not mask underlying causes, which should be investigated. The well-being of the patient is restored and at night restful sleep is obtained where this has hitherto been denied.

LIGNAX—the safe and sure haemorrhoidal treatment.

Available as follows:—

Suppositories in boxes of 12 and 100 and ointment in 20G. tubes.

may depend
on the safety of
'Distaval'

Consider the possible outcome in a case such as this —had the bottle contained a conventional barbiturate. Year by year, the barbiturates claim a mounting toll of childhood victims. Yet today it is simple enough to prescribe a sedative and hypnotic which is both highly effective...and outstandingly safe. 'Distaval' (*thalidomide*) has been prescribed for nearly three years in this country, where the accidental poisonings rate is notoriously high; but there is no case on record in which even gross overdosage with 'Distaval' has had harmful results. Depend on the safety of

LIFE

There's a special Andrews for diabetics

(and others on restricted diets)

IN RESPONSE TO REPEATED REQUESTS, a special formulation of Andrews, free of sugar but retaining Andrews' characteristic palatability, has now been produced for diabetic patients and others on a special diet.

Andrews Liver Salt is a pleasant-tasting effervescing aperient. Its reliable laxative action is brought about by an effervescent saline combined with magnesium sulphate, the osmotic action of which ensures the retention of sufficient fluid in the bowel for easy and comfortable evacuation.

Andrews is mildly alkaline. It is useful for counteracting stomach acidity, nausea and headaches of the migraine (bilious) type.

Andrews for diabetics

(and others on restricted diets)

ACTIVE CONSTITUENTS

Nurse prefers it,
Baxter' ...*

but, perhaps, what is more important, so does the physician . . . and the patient, too. I.Z.S. is preferable in most cases from all points of view. A single injection to give 24-hour control in your diabetics is a great advantage in itself. But when this is obtained independently of any modifying protein, you have also virtually eliminated the risk of allergic reactions. That is why you will find that I.Z.S. Lente is so suitable for 90 per cent. of diabetic patients . . . And on this firm we prefer I.Z.S.A.B. . . don't we, Sister?

A SPENCER SUPPORT for Intervertebral Disc

In both conservative and surgical treatment of intervertebral disc, application of a back support is usually indicated.* We invite the surgeons' investigation of Spencer as an adjunct to treatment. Each Spencer is *individually designed, cut and made* for each patient—after a description of the patient's body and posture has been recorded and detailed measurements taken. Thus, individual support requirements are accurately met. The Spencer Spinal Supports shown incorporating rigid Spinal Brace were individually designed for both man and woman patients. Note exterior pelvic binder for added pelvic stability.

*Doctor, motoring enthusiast, or both
—this remarkable car has
everything you could wish for*

Yes *remarkable!* That's the only word for SAAB. Sleek, aerodynamic lines; tremendous body-strength; an incredibly efficient engine that gives amazing power and acceleration compared with its size and fuel consumption; and an astonishing record of successes in rallies the world over.

And of particular interest to you as a doctor: however cold or wet the weather, SAAB starts *first time every time* and warms up within seconds—guarantees you an immediate get-away when you're off to a case, and top performance at once.

We'll say it again: it's a *remarkable* car, of which only the briefest glimpse has been possible here. Write for full details and specification.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★ SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar: Grades, Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than one year after full registration as a medical practitioner and held normally for two years: £1,250 in the first year; £1,400 in the second and any subsequent years. Deduction of £215 per annum for compulsory residence; £255 per annum for voluntary residence.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than three years after full registration and held normally for four years: £1,500 by £100 to £1,800 in the fourth year; thereafter, £1,900 in the fifth and sixth years; £2,000 in the seventh and eighth years; £2,100 in the ninth and any subsequent years. Deduction of £250 per annum for compulsory residence; £275 per annum for voluntary residence.

Other Grades, Whole-time

(a) **HOUSE OFFICERS**: Each post in this grade shall be tenable for six months.

£675 per annum for the first post held; deduction of £155 per annum for compulsory residence or £195 per annum for voluntary residence;

£750 per annum for the second post held; deduction of £160 per annum for compulsory residence or £195 per annum for voluntary residence;

£825 per annum for the third and any subsequent posts held; deduction of £165 per annum for compulsory residence or £195 per annum for voluntary residence;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £750 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff; provided further that where a House Officer has previously held two such outside posts the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that his remuneration shall be £825 per annum. Any House Officer who on first appointment is paid at the appropriate rate to the second or third post held in accordance with the above provision shall be paid at the third post rate for any subsequent appointments in this grade.

(b) **SENIOR HOUSE OFFICERS**: Posts obtained by fully registered medical practitioners and held normally for one year only: £1,050 on appointment at age 27 or under; £1,100 on appointment at age 28 or over. Deduction of £180 per annum for compulsory residence or £215 per annum for voluntary residence.

(c) **JUNIOR HOSPITAL MEDICAL OFFICERS**: Officers who have held house appointments but who are not registrars and who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or an indefinite period, not less than one year after full registration as a medical practitioner: £1,100 by £60 (8) to £1,580. Deduction of £215 per annum for compulsory residence or £255 per annum for voluntary residence.

Allowances at rates of up to £100 per annum shall be payable to house officers, senior house officers, junior hospital medical officers and registrars occupying posts approved for such allowances in peripheral hospitals.

ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF

Any advertisement appearing in this issue for posts in the hospital service which quote the rates of salary and other conditions which obtained before the recent agreement are published on the assumption that the employing authorities will in due course make the necessary adjustments. (17/10/60)

(8231)

COMMERCIAL AND INDUSTRIAL**APPOINTMENTS**

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958, and amended by the Council in June, 1960), which is available on request from the Secretary.

APPLICATIONS ARE INVITED FROM REGISTERED medical practitioners between 28 and 35 years for the full-time post of Medical Officer to join the staff of the health service of the Merseyside group of Unilever Companies. In conjunction with two colleagues, one of whom is the Senior Medical Officer, the successful candidate will be required to assist in the health supervision of a large group of factory and office workers (approximately 9,000). The scope of the work will include, among other things: (a) Pre-employment and other forms of medical examination; (b) assessment of, and advice on, environmental working conditions; (c) advice to management concerning the physical and mental well-being of the working community. Candidates should have a good standard of clinical medicine combined with an interest in all aspects of preventive and industrial medicine. Experience in general practice would be an advantage. Salary will be in accordance with experience, qualifications, and age, and will be not less than that set out in the B.M.A. scale. The list of those invited to attend for interview will be made out from the letters of application. Candidates are therefore asked to give full details of their training and experience, including their reasons for wishing to make a career in industrial medicine. The names of three persons to whom reference may be made should also be included. Applications should be submitted not later than February 4, 1961, to the Principal Medical Adviser, Unilever House, Blackfriars, London E.C.4. (7998)

UNIVERSITY AND RESEARCH**APPOINTMENTS, ETC.****INSTITUTE OF DENTAL SURGERY**

(University of London)
Eastman Dental Hospital, Gray's Inn Road,
London W.C.1

Applications are invited from suitably qualified science graduates for the appointment of

LECTURER IN DENTAL MATERIALS

The person appointed will be in charge of the Dental Materials Research Laboratory and workshop, and will be expected to undertake and direct research into the properties and application of materials used in dentistry. The field covers plastics, elastomers, alloys, ceramics and other materials, together with the mechanical aspects of clinical instrumentation. Salary will be in the range £1,250/£1,850, plus £60 London allowance, according to qualifications and experience, with F.S.S.U. benefits and children's allowance. Applications should be sent, within three weeks of the appearance of this advertisement, to Jack R. Tayler, Secretary, from whom further details may be obtained. (8357)

University and Research**Appointments, etc.—contd.****INSTITUTE OF CARDIOLOGY**

(British Postgraduate Medical Federation, University of London) (Associated with the National Heart Hospital, Westmoreland Street, W.1)

ASSISTANT DIRECTOR (Full-time)

Applications are invited for the above post. Salary scale £2,150 by £100 to £3,150, with family allowances and superannuation under the F.S.S.U. Duties will consist of research, teaching, and care of beds and an out-patient clinic. The appointment will be for three years in the first instance, subject to annual confirmation, and may thereafter be renewed by annual reappointment. Further information may be obtained from the Dean, at 35 Wimpole Street, W.1, to whom applications, together with the names of three referees, should be sent not later than February 18, 1961. (7499)

THE UNIVERSITY OF LEEDS**Department of Surgery**

Applications are invited for the post of **ASSISTANT DIRECTOR of the Professorial Surgical Unit** in the General Infirmary at Leeds. The holder of the post will be a Senior Lecturer or a Reader (regulations provide that the title of Reader shall be personal to the holder and shall be conferred by the Council in recognition of distinction in scholarship or original work); and will, it is expected, be given Honorary Consultant status. The initial salary, on the scale £2,350 by £100 to £3,150 by £50 to £3,200 a year, will be fixed according to experience and qualifications. Applications (twelve copies), stating date of birth, qualifications and experience, together with the names of three referees, should reach the Registrar, The University, Leeds 2 (from whom further particulars may be obtained), not later than January 30, 1961. (7960)

THE UNIVERSITY OF SHEFFIELD

Applications are invited for the post of **LECTURER IN CHILD HEALTH** to begin duties on April 1, 1961, or as soon as possible thereafter. Candidates should be members of the Royal College of Physicians. Initial salary, according to qualifications and experience, on the scale £1,400 by £100 to £2,400, with F.S.S.U. provision and family allowance. A grant towards removal expenses will be made. Further particulars may be obtained from the Registrar, to whom applications (eight copies) should be sent by February 18, 1961. (8196)

THE WELSH NATIONAL SCHOOL OF MEDICINE (University of Wales), Cardiff

Applications are invited for the following full-time appointments in the Professorial Medical Unit:

(i) LECTURER

Salary within the range £1,100 by £100 to £2,400 per annum, the commencing salary will be according to age, qualifications and experience, and may be about £1,500; superannuation and family allowance schemes. This appointment is normally held for a period of three to four years.

(ii) CARDIFF ROYAL INFIRMARY RESEARCH FELLOW IN MEDICINE

Stipend at the rate of £1,500 per annum, together with appropriate superannuation scheme. This appointment is for one year in the first instance. Further particulars of both appointments may be obtained from the undersigned, by whom applications should be received within three weeks of the appearance of this advertisement.—F. Dodsworth, Secretary, 34 Newport Road, Cardiff. (8216)

UNIVERSITY OF ABERDEEN**Applications are invited for an I.C.I. RESEARCH FELLOWSHIP in Biochemistry, Chemistry, Engineering, Pharmacology, or Physics**

or related subjects. Appointment from October 1, 1961, or earlier. Salary on scale £800 to £1,100 per annum, with placing according to qualifications and experience. F.S.S.U. and child allowance. Conditions of appointment and forms of application should be obtained from the Secretary, The University, Aberdeen, with whom applications (10 copies) should be lodged by February 25, 1961. Applicants outside the British Isles may submit one copy of application. (8217)

UNIVERSITY OF LONDON**READERSHIP IN EXPERIMENTAL PATHOLOGY at Institute of Cancer Research**

The Senate invite applications for the Readership in Experimental Pathology, tenable at the Institute of Cancer Research, Royal Cancer Hospital (salary within the range £2,050 to £2,550 a year). Applications (10 copies) must be received not later than February 16, 1961, by the Academic Registrar, University of London, Senate House, W.C.1, from whom further particulars may be obtained. (8258)

UNIVERSITY OF DURHAM

The Medical School, King's College, Newcastle upon Tyne, and the United Newcastle upon Tyne Hospitals

The Council of King's College invite applications from registered medical practitioners for the post of

LECTURER IN PATHOLOGY

The successful candidate will work under the direction of the Professor of Pathology, and will be expected to devote the whole of his time to teaching, diagnostic, and research work in the Department of Pathology, which is housed in the Royal Victoria Infirmary. The appointment will be made at a suitable point on the Lecturer's Higher Clinical grade (£2,150 by £100 to £2,650), according to qualifications and experience. F.S.S.U. and family allowances. Applications (12 copies), including the names and addresses of three referees, should be submitted within four weeks of the appearance of this advertisement to the Registrar and Secretary of King's College, from whom further particulars may be obtained. (7893)

UNIVERSITY OF DURHAM

The Medical School, King's College, Newcastle upon Tyne

The Council of King's College invite applications from suitably qualified graduates in medicine or science for the post of

RESEARCH ASSISTANT

in the Department of Anaesthetics

Physiological knowledge and experience in simpler biochemical estimations would be of value. Commencing salary will be at a suitable point on the salary grade for Clinical Medical Research Assistants (£1,300 to £2,150), or on the Non-medical Research Assistants grade (£1,050 to £1,850), according to qualifications and experience. Family allowances and F.S.S.U. Applications (12 copies), together with the names and addresses of three persons to whom reference may be made, should be submitted, not later than February 18, 1961, to the Registrar and Secretary of King's College. (8247)

THE UNIVERSITY OF SHEFFIELD Department of Psychiatry

A short course dealing mainly with psychiatric problems which arise in general practice will be held on Saturday and Sunday, March 25 and 26, 1961 (morning and afternoon on both days), at the Whiteley Wood Clinic, Woodfindin Road, Sheffield 10. The fee is two guineas, and accommodation at one of the University's Halls of Residence can be arranged at a moderate additional charge. N.H.S. practitioners are (subject to certain conditions) eligible to have the course fee paid on their behalf and to receive also certain allowances (travelling expenses, subsistence, locum fees). As the number who can be accepted is limited, enquiries and applications (stating whether or not the latter are made under the scheme for N.H.S. practitioners, and whether residential accommodation is desired, and if so for which nights) should be addressed, as soon as possible, to the Dean of the Faculty of Medicine, the University, Sheffield 10. (8197)

UNIVERSITY OF LONDON

A course of two lectures entitled "Pharmacology of Antibiotics" will be delivered by Professor T. Vályi-Nagy (Debrecen, Hungary) at 5.30 p.m. on January 26 and 27 at the School of Pharmacy, 29-39 Brunswick Square, W.C.1. Admission free, without ticket.—James Henderson, Academic Registrar. (8305)

Rheumatoid Arthritis

RESOCHIN

chloroquine phosphate

1 Tablet daily

Good to excellent results in
70% of patients
total remission in 35% of patients

Resochin (chloroquine phosphate)
has important, new implications in
the treatment of rheumatoid arthritis.
Extensive clinical trials
have shown that good to excellent
results are obtained in 70% of
patients treated.

**In more than half of
these patients total remission of
the disease was achieved.¹**

Each Resochin tablet contains
250 mg. chloroquine phosphate.
Available in containers of 100 tablets.

a new, non-amphetamine appetite suppressant

Duromine

for the ACTIVE obese patient
predictable weight loss
from a single capsule daily

for the
ACTIVE
obese
patient

dependable weight loss without stimulation

Duromine contains phenyl-*tertiary*-butylamine—a new non-amphetamine appetite suppressant—in the form of a long-acting ion-exchange resin complex.

for the ACTIVE obese patient

Duromine is of particular value in those cases where even mild stimulation is neither necessary nor desirable, as in the *active* obese patient.

one capsule provides 10-14 hours effect

Through ion-exchange release, Duromine provides smooth, prolonged effect for 10-14 hours from one capsule daily.

two strength capsules

15 mg. and 30 mg. capsules are available to meet individual needs.
