

# Clarks promise....

Poorly made, ill-fitted shoes can damage young children's feet, but Clarks promise freedom from all foot troubles caused by footwear, if from babyhood none but Clarks shoes are worn, fitted by Clarks footgauge. Children's feet need these shoes. Available in four widths in each size and half size at Retail stores specially appointed throughout the country.

**SUPPORT.** Firm but gentle at heel and instep, where it is needed.

**LENGTH.** Made in full and half sizes, with plenty of toe-room for straight, strong growth.

**WIDTH.** A choice of width-fittings ensures the right, repeat *right*, fit for each and every foot.

**FIT.** Trained assistants fit these shoes on Clarks footgauge for the all-important combination of length and width-fittings.

CYANAMID OF GREAT BRITAIN LTD London WC2

The border between normal and pathological depression is not always clearly defined. Often, the patient does not recognize depressive illness for what it is until the process is far advanced. By that time he may be suffering from chronic worry because of the apathy, listlessness and mental fatigue that so deeply affect his life. In such cases it becomes necessary to treat depression and anxiety at the same time. This is the function of 'Parstelin'.

## PARSTELIN—for the tense, agitated depressive

Each tablet contains 10 mg. of the antidepressant 'Parnate' (brand of tranylepromine) and 1 mg. of the tranquillizer 'Stelazine' (brand of trifluoperazine).

# Hay Fever

**THIS MONTH**, as the catkins come to maturity, the first hay fever patients appear. There aren't many of them, but they provide an opportunity to test Daneral before the season proper starts.

Daneral is a potent and long-acting antihistamine. It gives prompt and long-lasting relief from hay-fever symptoms. Daneral is an original compound discovered and developed by Farbwerke Hoechst. Its usefulness has been proved by its efficacy in thousands of patients. Daneral is a powerful antihistamine and in normal dosage produces no serious side-effects.

## ANTI-RHEUMATIC PASTE

RHEUSALATE has been formulated for the relief of pain associated with muscular rheumatism (fibrositis), sprains and strains. Early experiments with RHEUSALATE indicated that a significant proportion of patients respond favourably and that relief from pain or stiffness, or both, is achieved. RHEUSALATE contains diethylamine salicylate, salicylamide and ethyl nicotinate. By an improved procedure developed in our Laboratories, the normal aqueous solubility of salicylamide has been increased fifteen-fold and this further facilitates penetration of the skin barrier. RHEUSALATE, which is water soluble, can be massaged into the affected part, or dissolved in a very little water and applied by means of lint.

RHEUSALATE- the *new* product for rheumatism.  
Available in 40G. tubes.

## The success of the cures in the BAVARIAN SPAS results from

- ★ the waters and the climates, whose natural healing powers have been known for centuries
- ★ the ability of the skilled resident physicians to make proper use of the natural resources
- ★ the most up-to-date technical installations for drinking, bathing and inhalation cures

### Additional Cure Factors:

exercise . kinesitherapy . massage . terrain-cures . respiratory gymnastics . dieting .  
Kneipp hydrotherapy . electrotherapy

All courses of treatment are carried out under medical supervision.

Whether the patient chooses to stay in a sanatorium, hotel or pension, the pleasantness of friendly care and attention, the beauty of the surrounding countryside, excursions — including visits to places of interest, sport and stimulating social facilities, increase vitality, thereby adding to the effect of the prescribed treatment.

## Does your wife see red?

Every Ego or Id must influence, to a greater or lesser degree, the behaviour pattern of mankind. So *your* book-habits, which you no doubt fondly believe are your own business, are not a purely domestic matter. If you throw your books around like confetti at a wedding, or if your wife has frequent crying fits after dusting your collected works, it's time you faced the truth—that your book-habits may well start a revolution and bring 1984 and Newspeak closer than is comfortable.

Fortunately, there is always a solution. Minty have specialised for years in making bookcases that house your books behind glass and keep them dust-free. They give your books an elegant, well-tailored home, and leave you more room to walk around in. They allow you to go on reading and buying—for Minty bookcases are *sectional* and may be started for as little as £10.1.0—on deferred terms if you prefer.

Only at the Minty Centres shown below can you see and buy Minty bookcases (and furniture). These Centres are so placed that Minty furniture is within reasonably easy reach of most people. If, however, for any reason you can't call, Minty will be glad to send you a catalogue and particulars of post ordering. Write to Dept. B.15. Minty Ltd., 44-45 High Street, Oxford.

## RESPIROMETER

This is a respiratory measuring instrument for use in anaesthesia, oxygen therapy and for general application in respiratory physiology. It has a watch-type dial which shows at a glance the precise amount of gas that has passed through the instrument. Air resistance and inertia are extremely low, and the instrument can be plugged into any part of an anaesthetic circuit or used with a face mask for respiratory studies. We shall be pleased to send you fully illustrated literature on the Wright respirometer. Just ask us.

## MEDICAL PUBLICATIONS FROM HUNGARY . . .

E. KELEMEN, M.D.

### PERMEABILITY IN ACUTE EXPERIMENTAL INFLAMMATORY OEDEMA IN THE LIGHT OF THE ACTION OF SALICYLATES

50/-

*In English.* 280 pages, 32 illustr., 46 tables. Cloth

Relying on the results of experiments on some 4,000 animals and of observations made on about 100 human subjects, the author analyses in his work the origin and the possible inhibition of acute experimental inflammatory oedema. "Highly recommended"—*Modern Medicine* (March '61)

Prof. P. VÉGHÉLYI, M.D.

### DIE KÜNSTLICHE HIBERNATION (ARTIFICIAL HIBERNATION)

£7

*In German.* 612 pages, 107 illustr., 20 supplements. Cloth

Besides discussing the theoretical and practical aspects of the question, in his present monograph the author describes his own experimental observations and his experiences gained in the cases of several thousand patients.

### ATLAS OF HUMAN ANATOMY, I-III

£9 per set

Edited by F. KISS, M.D., and J. SZENTÁGOTHAÍ, M.D.

*In English.* In three volumes. Together about 900 pages, 789 illustr., 423 of them in colour. Cloth

After three Hungarian, two German, one Russian and Bulgarian and one Chinese edition, this impressive work in three volumes has now appeared in English. The high number of editions published within a comparatively short time (9 years), in itself accounts for the value of the Atlas.

# doctors' wives give a big THANK-YOU

— for spotless, shining, hygienic floors in hall, waiting-room and surgery ALWAYS—without drudgery

All your floor problems are solved when you install one of these handy little COLUMBUS-DIXON machines. Scrubbing, washing, polishing, drying—all are taken care of in no time at all and without any effort whatsoever.

And in a matter of seconds this machine is convertible into an efficient, powerful suction-cleaner to take regular care of carpets, rugs, upholstery and curtains.

These machines are designed so that rigorous dust and dirt control is scrupulously maintained right to the point of disposal. Pathological tests have proved their striking effectiveness in reducing the incidence of infection from dust-borne pathogenic bacteria.

This rose needs its pole for firm support. The asthmatic, too, needs a reliable aid to enable him to lead a normal life. He will find this aid in 'Neo-Epinine'

'Neo-Epinine' Isoprenaline Sulphate has these advantages:

- \* Superior to ephedrine and adrenaline in bronchodilatory potency
- \* Simpler than adrenaline to administer and effective in adrenaline-resistant cases
- \* Non-irritating
- \* Does not cause excitability or insomnia

'Neo-Epinine' No. 2 Compound Spray Solution is especially valuable in intractable cases or where a prolonged effect is desired.

*"The noses of healthy individuals probably form by far the largest breeding ground for the pathogenic staphylococci."*

Brit. med. J. 1959, ii. 658

## Naseptin

nasal-carrier cream

### An essential precaution against cross-infection

'Naseptin' Nasal-Carrier Cream has been shown to be the most effective preparation for preventing colonisation of the nose with pathogenic hospital strains of staphylococci.

The routine twice daily application of 'Naseptin' will prevent patients from becoming carriers of these organisms. For established nasal carriage amongst hospital staff, more frequent applications of 'Naseptin' are recommended.

### ADVANTAGES

- \* Easy and pleasant to use.
- \* Maximum effectiveness.
- \* Resistant strains have not been encountered nor is resistance likely to be induced.
- \* Sensitivity reactions are most unlikely to occur.
- \* Treatment is extremely cheap.

# AN AUTHORITATIVE NEW WORK ON CONCEPTION CONTROL

*A detailed analysis  
of the effectiveness  
and acceptability  
of the condom*

This recent book, written by the Director of Research at the National Committee on Maternal Health Inc., New York—an acknowledged authority on the statistical evaluation of family planning—examines every aspect of the condom in detail.

The author reviews the history of this type of contraceptive, and the manufacturing and testing methods employed at the present time. He then analyses the world-wide acceptance of the condom as a family planning aid, its

unchallenged effectiveness as a contraceptive, and finally considers the clinical and psychological aspects of this method. The writer comes to the conclusion that the condom proves itself to be the most acceptable, effective and practicable method of conception control available.

**Please note also—**

*How easy it is for your patients to insert.*

*How flat Tampax expands to fit the vaginal canal.*

*How gentle its contact with the vaginal epithelium.*

*How positive its wick action in absorbing the flux.*

*How dainty it is for your patients to remove.*

*Professional samples and literature will gladly be supplied by Medical Department, Tampax Limited, Havant, Hants.*

For different patients—or on different days—the two sizes of Tampax meet the varying requirements incident to even normal menstruation.

“Super Tampax”, with its 13 cc. absorptive capacity, is especially indicated for the woman with profuse discharge, or for those days when extra protection may be desired.

“Regular Tampax’s” absorptive capacity of 10 cc. adapts it for the average woman with normal flow, for whom it usually serves during the entire period.

For ready insertion, these two sizes are compressed to a cross section diameter of  $\frac{9}{16}$ " and  $\frac{1}{2}$ " respectively, and supplied in individual (one-time) applicators. *In situ*, the unique, flat expansion of their fine surgical cotton conforms them to the flat cross section of the collapsed vagina. Positive wick action prevents any blocking of the flow, and disintegration is safely precluded by an exclusive central stitching. By the moisture-proof cord, dainty removal is facilitated.

Have you compared the two sizes of Tampax?

**Tampax provides better physical management of menstrual hygiene**

a fresh start for corticoid therapy

# Betnelan

an entirely new  
anti-inflammatory steroid

Here is a steroid having increased anti-inflammatory activity with a decreased possibility of side effects. Betnelan, a most potent steroid available for clinical use,

is devoid of salt retention activity  
has negligible effect on potassium balance  
causes no mental depression

and shows promise of clinical superiority in other respects. For short-term therapy a "2:1:½" dosage scheme is suggested. For example, in acute asthma, severe eczema, urticaria, shock and other conditions for which corticoids are indicated systemically, the dosage may be

2 tablets t.i.d. for 2 days followed by

1 tablet t.i.d. for 2 days and

½ tablet t.i.d. for 2 days

For maintenance, dosage need be no more than ½ tablet twice daily.

BETNELAN is presented as scored tablets containing 0.5 milligrams betamethasone in bottles of 30, 100 and 500.

**Dose for dose, Betnelan is the lowest priced of all corticosteroids available.**

*Betnelan (betamethasone) is an entirely new parent compound developed in Britain by Glaxo Laboratories Ltd. Its merits are derived from its unique chemical structure—the beta position of 16 methyl group in the formula 16β-methyl-9α-fluoroprednisolone (betamethasone) representing more than 20 new stages of manufacturing complexity.*

**BETNELAN—better—for safety: activity: economy**

# How painful is influenza?

Just how much of the general misery and discomfort of your influenzal patients is due to aches and pains or to weakness or to any of the other symptoms of this debilitating disease would be difficult to say. But there's no doubt that relief of the constitutional symptoms with a simple antipyretic and an analgesic can do much to ease your patients' recovery and hasten convalescence.

When you prescribe Zactirin you not only provide effective symptomatic treatment, you also ensure that you do not add to your patients' distress with troublesome side-effects such as constipation and dizziness. Zactirin contains Wyeth's new analgesic discovery—ethoheptazine—plus soluble aspirin.

## Zactirin<sup>\*</sup>

the safer, effective analgesic

Bottles of 10 and 100 tablets (75 mg. ethoheptazine citrate, plus 325 mg. aspirin and 97 mg. calcium carbonate per tablet).

## When the patient needs iron . . . . .

In iron-deficiency anaemias, the problem of obtaining rapid absorption, maximum utilization and effective Hb. increase by oral medication without gastro-intestinal distress is readily resolved by the administration of *Chelated Iron*.

**Plesmet**

**Tablets                      Syrup**  
(Ferrous Aminoacetosulphate)

### Available as :

Basic N.H.S. price

Tablets (containing 50 mg. Fe.)  
Packings of 100 2s. 8d. and 1,000 20s. od.  
Syrup (25 mg. Fe. per teaspoonful)  
Bottles of 2 oz. 2s. od. and 40 oz. 18s. od.

### Summary of Clinical Report

"in a series of 115 patients treated with ferrous aminoacetosulphate ('plesmet') the incidence of gastro-intestinal symptoms was 1.7%. In view of its minimal toxicity and relatively low cost, it is suggested that this iron chelate preparation is a most effective preparation for the treatment of iron-deficiency anaemia by the oral route."

## DIET PROBLEM?

**TAKE A CARD...** When diet is an important factor in treatment, it saves valuable time if you can put your finger on an indexed card giving the appropriate diet.

The Energen Desk Filing Box with its selection of standard diets is but one of the aids provided for the general practitioner by the Energen Dietary Service. Other facilities include the preparation of special diets for individual cases and consultations with a dietitian where desirable. These services are available *free* in the United Kingdom. For full details please write to: The Dietitian

## Nutrition in Geriatrics

An adequate diet plays a considerable part in maintaining the health and vitality of the elderly. Although this fact is well known, malnutrition tends to be more prevalent in the higher age groups, as physical and economic factors may restrict the choice of food and render preparation and cooking troublesome.

Marmite is a useful source of the B vitamins and has the added advantage of requiring very little preparation. Sandwiches made with Marmite are very popular with old people who appreciate the piquant flavour. Appetising drinks can also be quickly made by stirring Marmite into boiling water or hot milk.

### MARMITE yeast extract

## APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent★ testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★ SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

### SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

#### Registrar Grades. Whole-time

(a) **REGISTRAR**: Posts obtained normally not less than one year after full registration as a medical practitioner and held normally for two years: £1,250 in the first year; £1,400 in the second and any subsequent years. Deduction of £215 per annum for compulsory residence; £255 per annum for voluntary residence.

(b) **SENIOR REGISTRAR**: Posts obtained normally not less than three years after full registration and held normally for four years: £1,500 by £100 to £1,800 in the fourth year; thereafter, £1,900 in the fifth and sixth years; £2,000 in the seventh and eighth years; £2,100 in the ninth and any subsequent years. Deduction of £250 per annum for compulsory residence; £275 per annum for voluntary residence.

#### Other Grades. Whole-time

(a) **HOUSE OFFICERS**: Each post in this grade shall be tenable for six months.

£675 per annum for the first post held; deduction of £155 per annum for compulsory residence or £195 per annum for voluntary residence;

£750 per annum for the second post held; deduction of £160 per annum for compulsory residence or £195 per annum for voluntary residence;

£825 per annum for the third and any subsequent posts held; deduction of £165 per annum for compulsory residence or £195 per annum for voluntary residence;

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £750 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff; provided further that where a House Officer has previously held two such outside posts the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that his remuneration shall be £825 per annum. Any House Officer who on first appointment is paid at the appropriate rate to the second or third post held in accordance with the above provision shall be paid at the third post rate for any subsequent appointments in this grade.

(b) **SENIOR HOUSE OFFICERS**: Posts obtained by fully registered medical practitioners and held normally for one year only: £1,050 on appointment at age 27 or under; £1,100 on appointment at age 28 or over. Deduction of £180 per annum for compulsory residence or £215 per annum for voluntary residence.

(c) **JUNIOR HOSPITAL MEDICAL OFFICERS**: Officers who have held house appointments but who are not registrars and who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or indefinite period, not less than one year after full registration as a medical practitioner: £1,100 by £50 (8) to £1,580. Deduction of £215 per annum for compulsory residence or £255 per annum for voluntary residence.

Allowances at rates of up to £100 per annum shall be payable to house officers, senior house officers, junior hospital medical officers and registrars occupying posts approved for such allowances in peripheral hospitals.

**ALL NATIONAL HEALTH SERVICE HOSPITAL APPOINTMENTS ARE IN ACCORDANCE WITH THE TERMS AND CONDITIONS OF SERVICE OF HOSPITAL MEDICAL STAFF** (3/3/61)

**SERVICES****16 PARACHUTE BRIGADE GROUP****TWO MEDICAL OFFICERS**

will be required to fill vacancies in the Parachute Brigade in mid-1961. The Parachute Brigade offers a challenge to the right man and gives opportunities for short trips abroad. Outdoor training is combined with active hospital work. Applicants must be fit, self-reliant, and games players. They will be required to pass a parachute course after undergoing a selection test. Suitable applicants may join on short service commissions for three years or more on the Active List in the Royal Army Medical Corps for service in airborne units only, or on permanent commissions for a tour of three years. For further information apply to Officer Commanding, 23 Parachute Field Ambulance, Parson's Barracks, Aldershot, Hants. (6862)

## COMMERCIAL AND INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers (as approved by the Annual Representative Meeting, 1958, and amended by the Council in June, 1960), which is available on request from the Secretary.

**APPLICATIONS ARE INVITED FROM REGISTERED** medical practitioners, between 28 and 35 years, for the full-time post of Medical Officer, to join the staff of the health service of the Merseyside group of Unilever Companies. In conjunction with two colleagues, one of whom is the Senior Medical Officer, the successful candidate will be required to assist in the health supervision of a large group of factory and office workers (approximately 9,000). The scope of the work will include, among other things: (a) pre-employment and other forms of medical examination; (b) assessment of, and advice on, environmental working conditions; (c) advice to management concerning the physical and mental well-being of the working community. Candidates should have a good standard of clinical medicine combined with an interest in all aspects of preventive and industrial medicine. Experience in general practice would be an advantage. Salary will be in accordance with experience, qualifications and age, and will be not less than that set out in the B.M.A. scale. The list of those invited to attend for interview will be made out from the letters of application. Candidates therefore are asked to give full details of their training and experience, including their reasons for wishing to make a career in industrial medicine. The names of three persons to whom reference may be made should also be included. Applications should be submitted not later than April 10, to the Principal Medical Adviser, Unilever House, Blackfriars, London E.C.4. (6561)

**APPLICATIONS ARE INVITED FROM REGISTERED** medical practitioners, between 30 and 45 years, for a part-time Medical Adviser to T. Wall & Sons (Ice Cream) Limited, Scotland. The successful candidate will be required to undertake the health supervision of a factory community in Craigmillar, the employees in a number of Ice Cream Depots and the Sales Force, and to advise the regional management on problems concerning the health and well-being of the industrial community. The work will require three hours per day for five days a week of the doctor's time, and the salary will be in accordance with the B.M.A. scale. The short list of those invited to attend for interview will be made out from the letters of application. Candidates are therefore asked to give details of their career and experience, including their reasons for wishing to practise industrial medicine. Two persons to whom reference may be made should be included. Applications should be submitted not later than April 10 to the Principal Medical Adviser, Unilever House, Blackfriars, London E.C.4. (6562)

### APPOINTED FACTORY DOCTORS FACTORIES ACTS, 1937 TO 1959

The following appointment as Appointed Factory Doctor is vacant: Pontyates, in the County of Carmarthen. Applications, which should be received not later than April 15, 1961, should be sent to H.M. Chief Inspector of Factories, 19 St. James's Square, London S.W.1. (6813)
