

ACHIEVEMENT

H.M.S. Victory, 2,162 tons, took 6 years to build and was launched in 1765. At the mercy of the wind, she was obliged to sail into battle at Trafalgar under full canvas, at a speed of 3 knots. The 45,000 ton Canberra was completed in 2 years and launched in March 1960. Its service speed is 27½ knots.

BROXIL ACHIEVES MORE RAPID CLINICAL RESULTS IN ALL GRAM-POSITIVE INFECTIONS

Quickly absorbed from the gastro-intestinal tract, Broxil produces within a period of half to one hour peak serum concentrations higher than can be obtained with any other penicillin. Clinical response with Broxil has been noted to be more rapid than with penicillin V and in most cases recourse to injections is unnecessary.

Broxil, the high peak penicillin, is the potassium salt of 6-(alpha-phenoxypropionamido)-penicillanic acid. It is available in tablet or syrup form.

Broxil Tablets Basic NHS price: packs of 100 tablets: 125 mg. 54/9, 250 mg. 108/-.

assures TENACIOUS appetite control

Impressive weight-loss

Levonor has proved unusually successful in securing patient co-operation in following recommended diets.¹ Extensive trials^{2,3} have shown that the average weight-loss with Levonor ranges from 2 - 2.4lb. per week.

**Round-the-clock appetite control
without CNS stimulation**

Levonor induces neither euphoria nor wakefulness. For this reason Levonor can be taken in the late evening to suppress night-hunger, without causing sleeplessness.

Dosage 5mg. t.i.d.

One tablet three times daily. Under proper supervision Levonor can be given to obstetric and paediatric patients as well as those with moderate cardiovascular disease, hypertension or diabetes. Levonor should not be given to patients with severe hypertension, thyrotoxicosis, or acute coronary disease. Levonor (lævo-amphetamine alginate) 5 mg. tablets, in containers of 30 and 250. Basic NHS costs 3s. 4d. and 23s. 6d. respectively.

SKEFRON

for rapid pain relief

It has been known for a very long time that pain can be relieved by counter-irritation. This has most often been accomplished by the local application of heat—friction, hot-water bottles, or rubefacient preparations.

In recent years cold has been found even more dramatically effective than heat in achieving rapid and long-lasting relief of many painful conditions.

SKEFRON

- 'Skefron' is virtually non-toxic and has no general anaesthetic property
- 'Skefron' is not inflammable
- 'Skefron' does not readily freeze the skin—a factor that contributes to its efficacy and safety
- 'Skefron' may be given to the patient for home use

Indications Lumbago, fibrositis, renal colic, spasmodic dysmenorrhoea, torticollis, joint sprains, migraine, and post-herpetic neuralgia. 'Skefron' is especially valuable in pain associated with muscle spasm.

Presentation 'Skefron', a mixture of chlorofluoromethanes, is available in metal canisters, each holding 5 fl. oz. of the product.

Lucofen

is a new compound for appetite limitation, pharmacologically different from all other anorectics

Advantages: Lucofen acts without interfering with meal anticipation—without the frustration and irritability caused by many weight reducing programmes.

The resultant weight loss is gradual, safe and dependable. Lucofen is free from the disadvantages of the usual amphetamine-like drugs. Lucofen causes no restlessness, sleeplessness or addiction. It is especially useful in combating the evening hunger felt by many patients. There is evidence of fat mobilisation.

Dosage: The recommended dose is one tablet three times a day before meals, or three tablets with breakfast. This dosage normally results in an average loss of 1 lb. to 1½ lbs. per week.

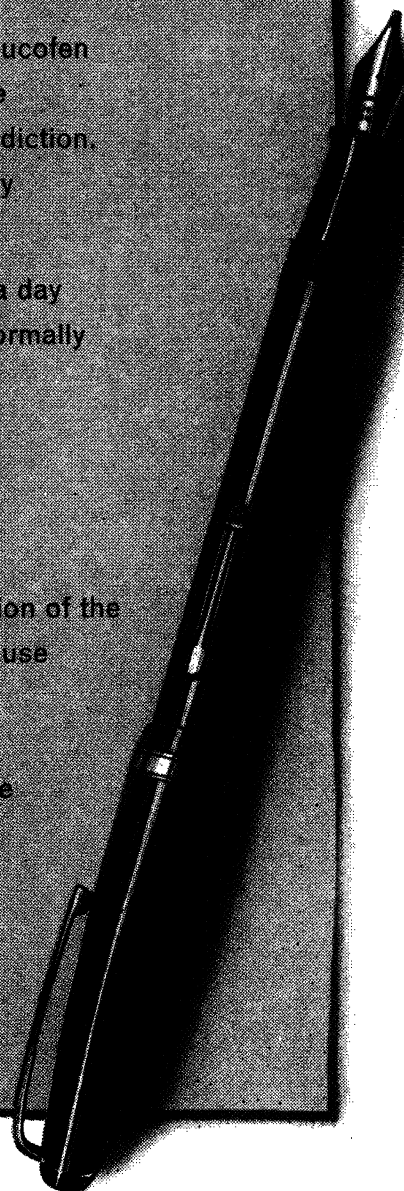

Formula: Each Lucofen tablet contains 25 mg. of 1-(p-chlorophenyl)-2-methyl-2-aminopropane hydrochloride.

Presentation: Bottles of 50 and 500 tablets.

Summary: In the treatment of obesity, the active co-operation of the patient is essential. Lucofen secures this co-operation, because his normal anticipation of meals and pleasure in eating is unaffected—but he will be satisfied much earlier. Eating sensibly and taking Lucofen, the co-operative patient is more ready to help the doctor and himself.

in the treatment of peptic ulcer

has particular advantages

ROTER achieves a high cure rate and often gives effective control of even refractory chronic cases which have resisted other treatments.

ROTER in many cases obviates the need for hospitalization or surgical intervention.

ROTER helps patients to keep ambulant and symptom-free with a minimum of medication and with few, if any, dietary restrictions.

ROTER in general practice enables the physician to take adequate care of his gastric cases without frequent or prolonged supervision.

ROTER has no known side effects.

ROTER requires no supplementary medication such as sedatives or anti-spasmodics.

ROTER shows a saving in cost when compared with conventional methods of treatment.

Whatever the illness, whether infection, metabolic disorder or a condition requiring surgical intervention, the patient needs full nutritional support for the restoration of health. And this implies more than a good mixed diet. Not only must the appetite be stimulated but the tissues must respond to the extra demands for full physiological activity, and this means supplying them with more than the usual intake of vitamins, especially of the B complex and ascorbic acid. For these purposes the three preparations BEFORTISS, BECOVITE and OROVITE are designed, the elixir being pleasantly flavoured and acceptable to patients of all ages.

Announcement

The Nutrition Department of Wilts United Dairies Ltd. proudly announce that they have been appointed sole distributors in the U.K. for UNIFLOR and ENPAC — *Lactobacillus acidophilus* preparations developed by the Biologicals Division of Aplin & Barrett Ltd.

UNIFLOR is highly beneficial in certain gastro-intestinal disorders which give rise to or are a result of a disturbance of the intestinal flora. It acts by re-implanting *L. acidophilus* in the intestine and thus restores or maintains the normal balance of the flora.

UNIFLOR provides the bottle-fed infant with an intestinal flora approximating that of the breast-fed infant, and is thus particularly effective in the prophylaxis and treatment of such disorders as ammoniacal dermatitis, diarrhoea and vomiting, and thrush, both in its oral and anal forms.

ENPAC has all the properties of UNIFLOR but with the important difference that its strains of *L. acidophilus* have been rendered resistant to the ten main antibiotics in current therapeutic use. Thus, when antibiotics are being co-administered, ENPAC should be prescribed in place of UNIFLOR. This will prevent the proliferation of pathogenic organisms, notably *Staphylococcus* and *Monilia*, and preclude such gastro-intestinal side-effects.

Samples and literature will be sent to the
medical profession on request to:—

NULACIN "has revolutionized the treatment of duodenal ulcer"

simply

safely

Nulacin tablets, dissolved slowly in the mouth, provide intragastric milk-alkali drip therapy, obviating the necessity for a tube. Treatment is easy and convenient for the ambulant as well as the bedridden patient. Nulacin may be relied on to provide an effective treatment for peptic ulcer as well as other conditions associated with gastric hyperacidity. No undesirable side effects occur and no cases of alkalosis or acid rebound due to Nulacin have ever been reported. The safety and effectiveness of Nulacin therapy has been proven by 'in vivo' clinical work carried out in many countries.

effectively

**Proc. R. Soc. Med.*, 1958, 51, 1063

economically

Nulacin tablets have no B.P. equivalent. The basic N.H.S. price of the 25 tablet tube is 2/-.

GASTRIC ANALYSIS 1 *Superimposed gruel fractional test-meal curves of five cases of duodenal ulcer.*

GASTRIC ANALYSIS 2 *Same patients as in first graph, two days later, showing the striking neutralizing effect of sucking Nulacin tablets (3 an hour). Note the return of acidity when Nulacin is discontinued.*

NULACIN is a **HORLICKS** pharmaceutical product

THREADWORMS AND ROUNDWORMS

SINGLE-DOSE TREATMENT

1. A single dose of Pripsen is effective for both threadworms and roundworms.
2. The palatable granules are readily accepted by children.
3. For threadworms, Pripsen in a single dose replaces the usual seven-day treatment.
4. The dose can be given under supervision, thus avoiding any risk of treatment not being carried out.
5. No extra laxative is required.
6. Pripsen is not a dye, and therefore is non-staining.

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard Pripsen as, at present, the remedy of choice for enterobiasis."—Lancet, 1960, 1, 256.

C.O.N.

APPARATUS FOR ANAESTHESIA IN MINOR SURGERY

The C.O.N. apparatus is a portable device for administering cyclopropane with oxygen and nitrogen for anaesthesia in minor surgery. It is particularly suitable for use in emergency—in remote areas, or where there are mass casualties: also for use

in dental surgeries and out-patient departments. It is very simple to operate, highly portable and has a wide range of potential applications. We shall be glad to send you fully illustrated literature on the C.O.N. apparatus. Just ask us.

Nuffield Travelling Fellowships and Assistantships for General Practitioners of the United Kingdom

As part of its programme for the advancement of health, the Nuffield Foundation, in co-operation with the College of General Practitioners, is prepared, in 1961, to award men and women of the United Kingdom:

Three Fellowships
(each for a period of six consecutive months) to enable general medical practitioners of outstanding ability, preferably between the ages of 35 and 45, to undertake approved study overseas in July-December, 1962, in some subject of importance to general practice. The value of the Fellowship award will cover for the Fellow (and for his wife) tourist return travel by air and other fares at tourist rates, together with an adequate subsistence allowance.

Three Assistantships
to enable suitable persons to gain experience as locum tenens in the practices of the Fellowship holders in their absence from the United Kingdom. The value of the Assistantship award will be up to £850 for seven months, in addition to travelling expenses.

Application for these awards must be received by the Nuffield Foundation not later than October 31, 1961. The conditions of the Fellowships and application forms may be obtained from L. Farrer-Brown, Esq., C.B.E., J.P., Director, the Nuffield Foundation, Nuffield Lodge, Regent's Park, London N.W.1. (8827)
