the tranquilliser pure and simple...

"Of the high dosage phenothiazines, thioridazine hydrochloride (Melleril) has had the most careful trials . . . and has the great advantage that even

in full doses of between 300
and 400 mg. daily it is free from
the risk of liver damage,
extrapyramidal complications
or agranulocytosis."

Brit. Encyc. of Medical Practice

Melleril

BY

SANDOZ

"In its low incidence of side-effects and toxicity it is superior to all other tranquillising drugs tested."

J. Amer. med. Ass. (1959) 170, 1283

the wave of evidence is for

Diabinese BRAND OF CHLORPROPAMIDE

The Wave of Evidence mounts...
Two 1962 publications confirm
the superiority of Diabinese.
In the first, the authors say
that in their clinics '...
chlorpropamide has become the
sulphonylurea of choice...'

In the second, the author states '...some patients who have failed to respond, or have become resistant to tolbutamide, can be controlled with chlorpropamide.'2

ORATORI∎8

Extracts: "Senokot, a standardized senna derivative, produced excellent results in over 90 per cent. of 46 constipated pregnant patients, with no failures. It is the most logical product to be used when intestinal tonus is impaired during pregnancy."

Quart. Rev. Surg. Obstet. Gynec., 1957, 14, 196.

"The pregnant woman is filled full of vitamin tablets yet so often is prescribed liquid paraffin. For three years, apart from advice on diet, I have found it unnecessary to prescribe any other laxative than standardized senna (Senokot)...The pregnant woman, so difficult to please because of nausea, has a choice with regard to this preparation of chocolate granules or tablets. And she can go on taking it nightly without ill effect."

British Medical Journal, 1957, ii, 1438.

Senokot is half the cost of liquid paraffin and is the most widely prescribed stimulant laxative under the National Health Service.

MILK-LIKE

Itralac

COMPARATIVE ANTACID ACTIVITY OF 5 OZ. MILK AND 1 TITRALAC TABLET

ONE TABLET PROVIDES THE ANTACID AND BUFFERING ACTION OF $\frac{1}{4}$ PINT FRESH MILK

Titralac

FASTER ACTING THAN OTHER ANTACIDS

'an excellent antacid it acts more rapidly than other antacid compounds, generally exerting its full neutralising effect before it is discharged from the stomach'

The Medical Letter (1960) 2: 94

EXCEPTIONAL PALATABILITY

Titralac tablets are notable for their exceptional palatability and are readily accepted by the patient. They dissolve easily and quickly to a smooth consistency, do not cling to the mouth, throat or oesophagus and leave no chalky or gritty sensation in the mouth after they are swallowed.

(Gastroenterology' 1956).

INEXPENSIVE

Titralac tablets are available in convenient rollpacks of 10 tablets — enough for one day's treatment, in many cases — at a cost of only 6d a day (basic NHS)

composition:

each tablet contains Calcium Carbonate B.P. 420 mg. and glycine 180 mg.

dosage: one or two tablets as required.

In urinary tract infections

Acts rapidly

The normal time-table in the treatment of acute infections with 'Furadantin' is:

30 minutes — antibacterial concentration in the urine

24 hours—turbid urine clear 3 days—patients asymptomatic 1 week—urine sterile

is safe

Side effects with 'Furadantin' are few and mild; the drug has proved safe even in long-term therapy, where it has been employed in chronic infections for up to 15 months, and prophylactically for up to 3 years.

presents no resistance problem

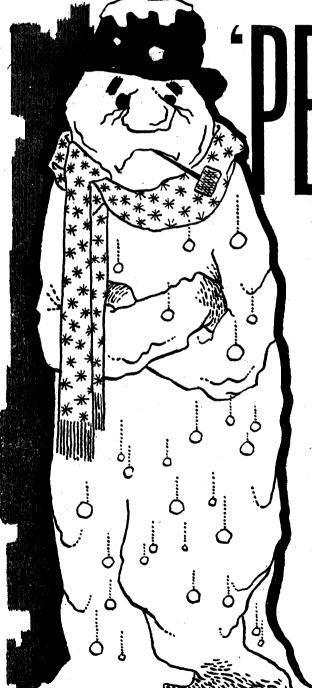

Ten years of clinical and laboratory experience have shown that bacteria develop negligible resistance to 'Furadantin'. There is no risk of cross-resistance or cross-sensitization with other classes of antibacterial drugs.

'Furadantin' is available as 50 mg. and 100 mg. tablets, and as a palatable suspension in 4 fl. oz. bottles and 80 fl. oz. winchesters.

CICATRIN

accelerates healing rates by 25-50%*

Prolonged and expensive treatment of chronic ulcers may be avoided by the use of Cicatrin, the leading amino-acid/antibiotic preparation for topical application.

Further evidence of its efficacy is provided by a recently controlled clinical trial to evaluate the influence of various topical applications on the healing rates of stasis ulcers which shows that Cicatrin with its combination of selected amino-acids and antibiotics accelerates the healing rates by 25-50%.

It is also significant that in one group where the main difference between the two preparations was that one contained amino-acids and antibiotics (Cicatrin) and the other antibiotics only, the healing time in the Cicatrin treated group was shortened considerably both in bed rest and ambulatory cases.

and give up headhunting

yomesan

taeniacide

eliminates tapeworm completely

YOMESAN kills off the patient's tapeworm safely, comfortably* and quickly. Yomesan, taken in the morning, attacks and kills the tapeworm almost at once, ready for expulsion the same day (stubborn patients may take a little longer, and need a little help to pass their tapeworm). And because Yomesan kills the worm, there is no need to search for its head in the stools.

* Yomesan does its job without protracted preliminary fasting or purging, and is not absorbed into the patient's system.

indications:

Taenia Saginata (beef tapeworm)
Taenia Solium (pork tapeworm)
Diphyllobothrium latum (fish tapeworm)
Hymenolepis nana (dwarf tapeworm)
Yomesan is not absorbed from the intestine and has no effect in cysticercosis and echinococcosis.

dosage:

Adults: 2 tablets, followed an hour later by another two.

Children over 8 years—adult dosage; Children under 8 years—half adult dose, i.e. one tablet, followed an hour later by another one.

administration:

Tablets should be chewed thoroughly and washed down with a little water.

presentation:

4 tablets of 0.5 gm.

composition:

5-Chloro-N-(2-chloro-4-nitrophenyl) salicylamide.

WHEN PAIN

IS DUE TO **MUSCULAR SPASM**

P.R. Spray gives Prompt Relief

The pain associated with lumbago, fibrositis, renal colic, dysmenorrhoea, and sprains can now be quickly dispelled. P.R. Spray is entirely suitable for use at home by the patient as, unlike ethyl chloride, it is non-toxic and non-inflammable. Its vapour has no general anaesthetic effect and there is no risk of 'cold burn' when used as directed.

P.R. Spray

contains fluorochloromethanes and is supplied in pressurised containers, each holding approximately 5 fl. oz.

Basic N.H.S. Price 3/8d. (Plus Purchase Tax).

BOOTS PURE DRUG COMPANY LIMITED STATION STREET · NOTTINGHAM

For his tomorrows—we work today

Helpless—but not unhelped! While he sleeps the unceasing search goes on for new or better antigens to protect him from infectious diseases once regarded as unavoidable hazards.

Take whooping cough, the world's No. 1 killing disease of babies in the first year of life. By perfecting precise methods of making and testing pertussis vaccines Glaxo research has materially helped to raise whooping cough immunisation to its present high level of effectiveness. Significantly, it was Glaxo workers who were asked to assist in the preparation of the British Standard Pertussis Vaccine which was subsequently accepted as the International Standard. Every batch of Whooping Cough Vaccine Glaxo (and combined antigens containing it) measures up to these same high standards.

The primary immunising course with Whooping Cough Vaccine Glaxo is three 1 ml injections (or three $\frac{1}{2}$ ml injections if the Glaxo half volume vaccine is used); the first injection should be given at not later than three months of age.

GLAXO PRODUCTS FOR PROTECTION

The following vaccines are available in two concentrations, which provide a full dose of antigen in either 1 ml (standard vaccine) or 0.5 ml (half-volume vaccine)

topical corticosteroid

Steroid-antibiotic combination 'DRENISON' with NEOMYCIN

Particularly useful in steroid-responsive dermatoses complicated by potential or actual skin infections.

Availability: 'Drenison' and 'Drenison' with Neomycin are available in both a cosmetically acceptable vanishing cream and a hydrophilic ointment base, in tubes of 5Gm. and 15Gm.

ELI LILLY AND COMPANY LIMITED
BASINGSTOKE ENGLAND

"The most popular antibiotics for topical application . . .

... are bacitracin, polymyxin, and neomycin because of their stability, limited diffusion, low allergenic potential and high clinical efficacy against organisms..."

(New England J. Med. (1959) 261, 756.)

'CORTISPORIN' OINTMENT

issued in tubes of 4 gm. and 10 gm. has all these merits, for it contains all three antibiotics. In each gramme of petrolatum base is: polymyxin B sulphate 5,000 units \cdot zinc bacitracin 400 units \cdot hydrocortisone 10 mgm. \cdot neomycin sulphate 5 mgm.

'CORTISPORIN' LOTION

issued in bottles of 10 c.c. is indicated for larger, moist or abraded lesions. It contains, in each c.c. of aqueous vehicle: polymyxin B sulphate 10,000 units · hydrocortisone 10 mgm. neomycin sulphate 5 mgm.

The hydrocortisone in 'CORTISPORIN' products reduces inflammation and therefore enables the potent antibiotics to reach bacteria more easily.

Skin sensitisation has not been reported with 'Cortisporin' products. Cross-resistance or cross-sensitisation to other antibiotics does not occur.

'CORTISPORIN'

OINTMENT AND LOTION

-antibacterial, anti-inflammatory

IMPERIAL CHEMICAL INDUSTRIES LIMITED PHARMACEUTICALS DIVISION WILMSLOW CHESHIRE

For antisocial coughing

... and for just plain annoying coughing that goes on and on, the remedy is 'Thorpax' Syrup

- Immediately effective and one dose lasts for 3-5 hours.
- Completely safe for patients of all ages and particularly suitable for adults.
- Does not cause sedation, respiratory depression, gastric disturbance or constipation.
- Non-narcotic, non-addictive and eminently suitable for long-term treatment.

'Thorpax' contains dimethoxanate hydrochloride, a recently discovered potent antitussive; and 'Nilergex' isothipendyl hydrochloride—the highly effective non-sedative anti-histamine.

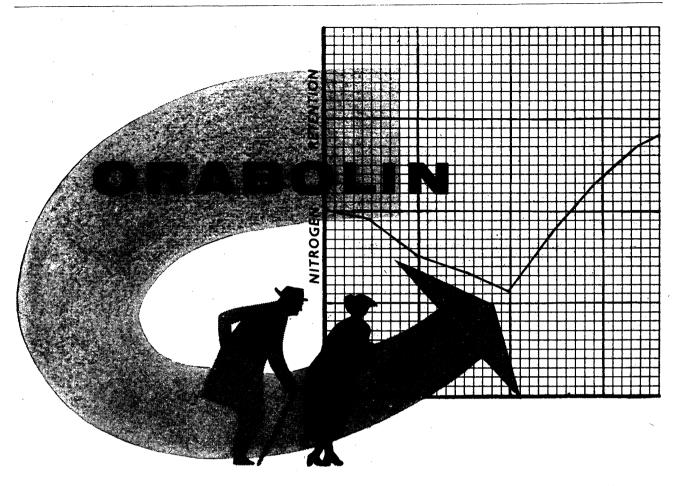

Thorpax syrup

Issued in bottles of 3 fl. oz. Also dispensing packs of 40 fl. oz.

Basic N.H.S. cost for 3 fl. oz. when dispensed from the 40 fl. oz. pack is 1/9½d.

Dosage: I teaspoonful (3.5 ml) 3 to 4 times daily as required.

CHESHIRE

In the elderly, the lack of interest in food is both cause and result of failing energy and vitality. ORABOLIN reverses body protein wastage and ensures full use of such nitrogen as is available in the food; the renewed vigour and appetite lead to improved stamina and gain in weight. ORABOLIN, effective in doses as low as 0.05 mg. per kilo body weight, is well tolerated and is free from liver toxicity or other harmful effects.

FORM AND PACKS

Scored tablets containing 2 mg. ethylestrenol. Bottles of 25 and 100.

tiglyssin

brand tigloidine hydrobromide for relief of spasticity and spasms

non-toxic

free from side-effects

Tigloidine is related to atropine: it has, however, almost no anticholinergic activity, but has the atropine-like action on muscle described as 'delayed recovery'—characterised by quick fatigue.

A 'double-blind' trial showed relief of spasticity and spasms associated with paraplegia due to spinal cord injury. The patients were more cheerful and easier to manage.

A similar trial in Disseminated Sclerosis was of benefit to about half the patients though the full therapeutic effect may take up to three weeks to develop. Good results are reported in other degenerative Upper Motor Neurone Diseases.

The effect of 'Tiglyssin' is palliative. Apart from relieving spasticity and spasms, which helps rehabilitation and reveals any useful remaining function, patients become more cheerful and comfortable—most important, nursing is made easier.

Spasticity and spasms associated with:

partial or complete rupture of the cord.
disseminated sclerosis.

transverse myelitis. cerebro-vascular accidents.

subacute combined degeneration of the cord.

The therapeutic daily dose for adults is 1-2 gm. divided into three, with meals. An initial daily doze of 0.75 to 1.0 G. is suggested, and this should be slowly increased until no further improvement occurs or until mild atropine-like effects appear.

A continuous flow of Medical and Surgical know-how . . .

THE CLINICS OF NORTH AMERICA

Let these world-famous CLINICS OF NORTH AMERICA help you in your postgraduate study in 1962. They'll keep you right in touch with what is going on TODAY in the fields of medicine and surgery in the United States. Many thousands of doctors all over the world have been taking these Clinics for years.

THE MEDICAL CLINICS OF NORTH AMERICA

Published 6 times a year (January, March, May, July, September and November). Annual subscription to 6 consecutive numbers £6 6s. cloth covers, or £5 5s. paper covers.

THE SURGICAL CLINICS OF NORTH AMERICA

Published 6 times a year (February, April, June, August, October and December). Annual subscription to 6 consecutive numbers £6 6s, cloth covers, or £5 5s. paper covers.

THE PEDIATRIC CLINICS OF NORTH AMERICA

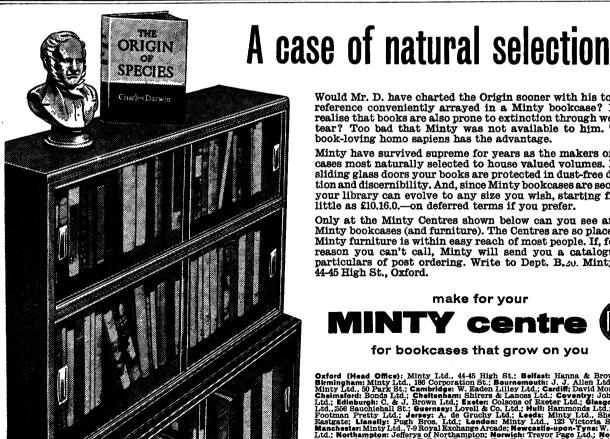

Published 4 times a year (February, May, August, November). Annual subscription to 4 consecutive numbers £5 5s. (cloth covers only).

These unique books, that are becoming so increasingly popular, offer the doctor or surgeon the very best means of keeping abreast of recent developments. They provide a continuous flow of effective and up-to-date medical and surgical know-how. Each book contains a Symposium (sometimes two) on a subject of special current importance.

These Clinics carry no advertising-all the 300-odd pages of each number are packed with good solid clinical information from the leading medical and surgical centres in America. For the physician or surgeon wishing to keep in touch with developments in the United States, these Clinics are ideal.

B. SAUNDERS COMPANY LIMITED

7 Grape Street, LONDON, W.C.2

Would Mr. D. have charted the Origin sooner with his tomes of reference conveniently arrayed in a Minty bookcase? Did he realise that books are also prone to extinction through wear and tear? Too bad that Minty was not available to him. Today, book-loving homo sapiens has the advantage.

Minty have survived supreme for years as the makers of bookcases most naturally selected to house valued volumes. Behind sliding glass doors your books are protected in dust-free distinc-tion and discernibility. And, since Minty bookcases are sectional, your library can evolve to any size you wish, starting from as little as £10.16.0.—on deferred terms if you prefer.

Only at the Minty Centres shown below can you see and buy Minty bookcases (and furniture). The Centres are so placed that Minty furniture is within easy reach of most people. If, for any reason you can't call, Minty will send you a catalogue and particulars of post ordering. Write to Dept. B.20. Minty Ltd., 44-45 High St., Oxford.

NEW Syntocinon Spray

BY SANDOZ

Facilitates milk let-down Prevents milk engorgement

Sprdy boliles of 5 ml. 40 psytocic units in 1 ml.

STRONG PENOTRANE
PESSARIES contain 5 mg.
of phenylmercuric
dinaphthylmethane
disulphonate (' Penotrane'),
a little more than three times
the strength of the standard
Pessary. PENOTRANE is
highly effective against
T. vaginalis, Candida
albicans and a wide range
of gram-positive and
gram-negative bacteria.
A small percentage of cases
of vaginitis, especially if of
mixed aetiology, do not

respond readily to treatment with the standard Penotrane Pessary. These cases will usually respond to the new STRONG PENOTRANE PESSARY.* Cases which appear to be heavily infected should be treated with STRONG PENOTRANE PESSARIES from the outset.

Pruritus and R.B.C.

A bland, sedative germicidal cream possessing powerful local anaesthetic properties. It is of great value in the treatment of eczematous conditions, pruritus, tinea and other skin infections due to bacteria or fungi.

The soothing effect produced on the application of R.B.C. in cases of intractable itching materially assists healing by promoting sleep and preventing rubbing and scratching.

PB44

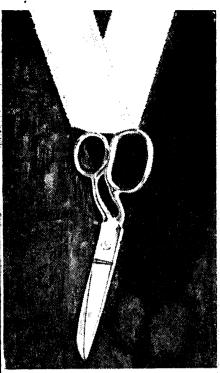

The 4 features of Elastoplast

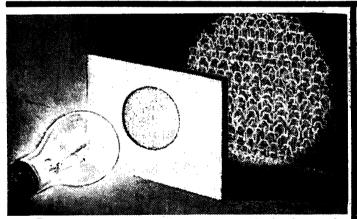

TRY THESE TESTS FOR YOURSELF

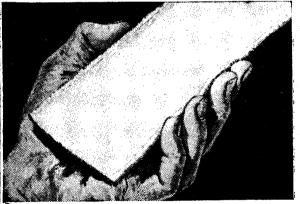

STRETCH AND REGAIN Stretch a marked length of Elastoplast bandage. It will extend by 75% with little effort and return almost to its original length. This critical stretch and regain is at its maximum in Elastoplast.

1 POSITIVE ADHESION You will be surprised how long you can suspend a pair of heavy scissors from a length of Elastoplast. The powerful adhesive sticks with very little pressure and keeps Elastoplast firmly in position during the longest treatment.

EVEN, ALL-OVER POROSITY Project images of the filament of a clear electric lamp through the pores of stretched Elastoplast on to a white surface. See how even the filament pattern is. Elastoplast leaves no occluded patches of skin even when there is more than one layer.

SOFT. NON-ADHESIVE EDGES Feel the softness of the selvedge of an Elastoplast bandage. It does not cut nor mark the skin. The edges are free from adhesive so that Elastoplast cannot stick to clothing nor ruck during wear.

Only Elastoplast has all four advantages

OXYGEN THERAPY

With the Normalair C570 pocket-size set, on-the-spot oxygen first-aid is put into the hands of the doctor, ambulance attendant, police officer, fire and rescue teams, for the first time. The C570 can be taken anywhere. It weighs only 5 lb. and gives oxygen flow rates of 1, 2, 4, 6 or 10 litres a minute, a range to meet all requirements. The Normalair C990 light-weight set is carried comfortably by shoulder strap or in coat pocket. This personal set gives an accurately-metered oxygen flow or 2 or 4 litres a minute from 120 or 200 litres capacity cylinders.

REFRESHER COURSE FOR GENERAL PRACTITIONERS

Third Collection with classified contents list to volumes 1, 2, and 3

Price 25s. (by post 26s. 9d.) Each book contains a collection of sixty Refresher Course articles

Each book contains a collection of sixty Refresher Course articles from the British Medical Journal. Each article, written by an acknowledged expert, has been revised by its author. The articles cover a wide range. Their object is to refresh the reader's memory of what so old and well-established and to tell him about new developments. They are invaluable to general practitioners and residents as practical reference books, to specialists as a means of keeping in touch with developments outside their own field, and to final-year students as up-to-date and reliable text-books.

The Third Collection has a cumulative classified contents list to the three volumes of "Refresher Course for General Practitioners."

SOUTH-EASTERN REGIONAL HOSPITAL BOARD, Scotland

Joint Training Scheme for Psychological Medicine of the Regional Board and the University of Edin-burgh Department of Psychological Medicine.

Vacancies exist for trainee Registrar posts within the above scheme. Appointments are normally for two years. During the first year the trainee works in one of the Board's hospitals and is given facilities for part-time study at the University Department. Individual vacancies will be advertised as they arise. Residential accommodation is available in some cases. On passing of Part I of the Dip. Psych. of Edinburgh University, a candidate becomes eligible for secondment for full-time study at the University Department in order to prepare for Part II. During the period of appointment, arrangements are made for secondment to special hospitals and clinics for the experience required by the examination regulations. Regional specialist units for different branches of the subject are distributed among the hospitals which form part of the Mental Health Service in process of rapid expansion. Inquiries about the scheme should be made to the Secretary, South-Eastern Regional Hospital Board, Scotland, 11 Drumsheugh Gardens, Edinburgh 3. Applications should be made only in relation to advertisements for specific vacancies.
