'ATasorb-N'

controls diarrhoed and restores normal bowel function

'ATASORB-N' is a new product containing activated attapulgite, neomycin and pectin. Attapulgite is an unusual clay mineral possessing outstanding adsorptive properties far superior to those of kaolin. 'Atasorb-N' is of special value in the treatment of acute bacterial diarrhoeas caused by organisms susceptible to neomycin, chronic non-specific ulcerative colitis and other ulcerative infected lesions of the colon in which secondary infection is significant.

'ATasorb-n'

is a delicately flavoured smooth suspension. The average adult dose is two tablespoonfuls three or four times daily. Each 30 ml. (two tablespoonfuls) contains:

Activated Attapulgite 3G
Activated Attapulgite
Colloidal 0.9G
Neomycin Sulphate . . . 321mg
Pectin 300mg

Availability:

In bottles of 4 and 16 fl. ozs.

Also available as 'ATASORB' (without Neomycin)

griseofulvin treatment for ringworm infections

'FULCIN', introduced by I.C.I. in 1959, marked a new era in the treatment of fungal infections of the skin, hair and nails. Continued research has shown that the absorption of the drug when given orally is greatly improved by increasing its fineness.

'FULCIN' FORTE is 'Fulcin' in a finely divided form. It produces the same clinical response as the original 'Fulcin' at half the dosage.

Indications

- All cases of Tinea capitis and favus (avoids X-ray epilation)
- Tinea of the nails
- Tinea cruris and Tinea corporis
- Chronic ringworm of the feet
- Tinea barbae

A daily dose of 0.5 gramme (1 'FULCIN' FORTE tablet four times a day) is adequate for most cases.

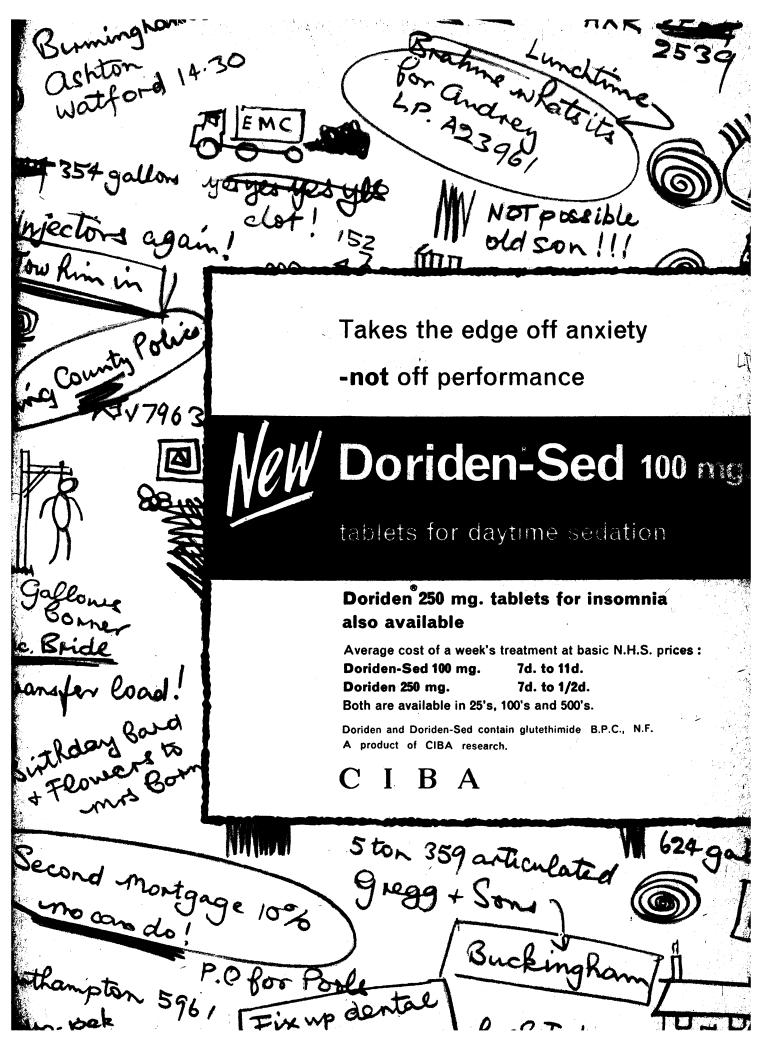

ONE WEEK'S TREATMENT NOW COSTS APPROXIMATELY 8/5d.

Fulcin Forte

Griseofulvin (Fine Particle)
Issued in tablets of
125 mg. (scored)

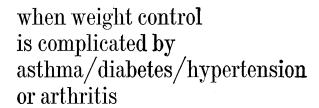

Containers of 100, basic N.H.S. cost 30/- Containers of 1,000, basic N.H.S. cost 280/-

Safety is of major importance

"There was no interference by benzphetamine [Didrex] with the management of concomitant diseases such as hypertension, diabetes mellitus, hypothyroidism, congestive heart failure, or coronary insufficiency."¹

On the basis of blood pressure determinations, urinalyses, haemoglobin studies, and blood sugar curves Didrex may be safely used in obese patients with hypertension or diabetes.²

"It [Didrex] may be especially useful in obese patients who are also pregnant, diabetic or hypertensive."³

Dosage: Initiate appetite control with 1 to 2 tablets (25 to 50 mg.) in mid-morning for several days. Then "adjust" dosage to suit each patient's need to a maximum of 6 tablets daily (150 mg.).

Side effects: No effects on blood, urine, renal or hepatic functions have been noted. Minimal side effects, similar to those reported from placebos, have been observed occasionally: dry mouth, insomnia, nausea, palpitations and nervousness.

Supplied: 25 mg. press-coated tablets, in bottles of 50 and 100.

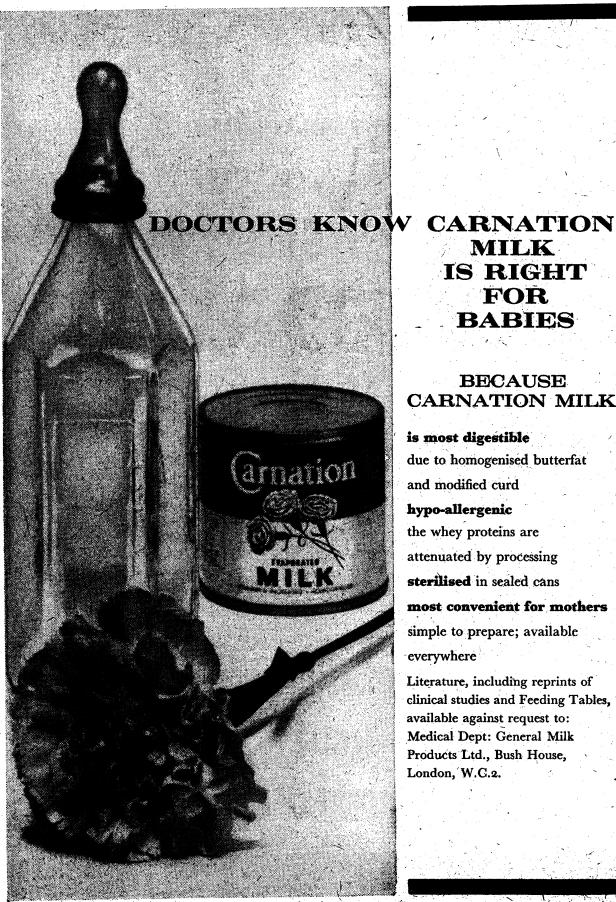

^{*}Benzphetamine hydrochloride

A major advance in the treatment of hypertension

ALDOMET

Methyldopa

'ALDOMET' is a unique antihypertensive agent. Its development has stemmed from fundamental research on antagonists to the biosynthesis of pressor amines from aromatic amino acids. 'Aldomet' provides effective lowering of standing and lying blood pressure, usually without symptomatic postural hypotension. Daily blood pressure fluctuations are minimised. Exercise hypotension rarely occurs.

'Aldomet' may replace ganglion and adrenergic blocking agents in many patients including some with severe benign, or malignant hypertension.

A striking feature of therapy with 'Aldomet' is the general lack of severe side-effects — patients usually feel well and improve symptomatically.

'Aldomet' is supplied as tablets containing 250 mg. methyldopa, for oral administration. Fully detailed information on 'Aldomet' is available on request.

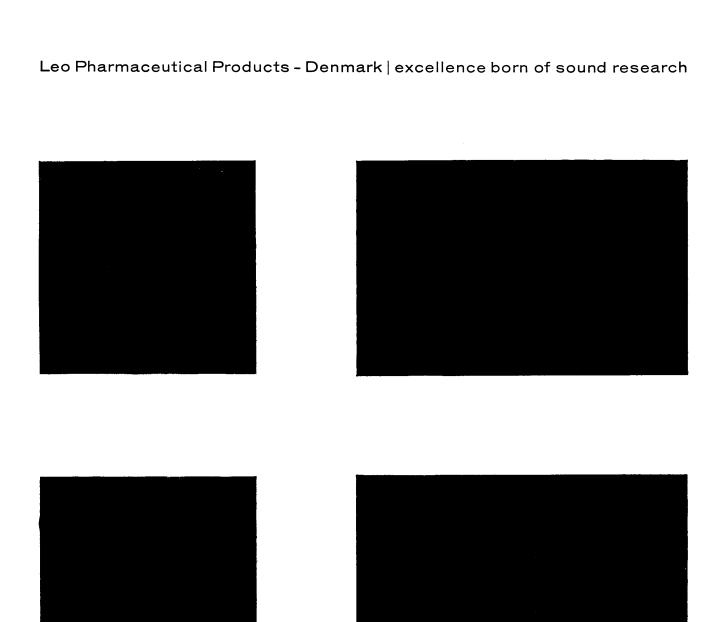

Now available for hospitals. Shortly to be released generally.

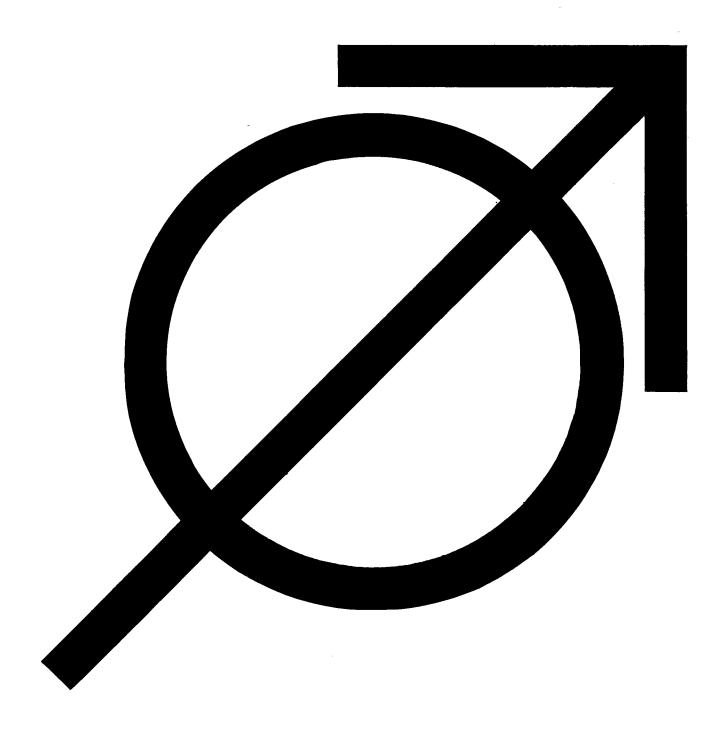

Lancet (1962): Feb. 10th, p. 300; Apr. 14th, p. 759; Apr. 14, p. 763.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

Introducing FUCIDIN ZN6-Na

an oral antibiotic of completely new personality

original product of Leo Research

In releasing FUCIDIN, LEO-DENMARK appreciate that a number of pharmaceutical preparations have been introduced with high expectations, only to exhibit in subsequent widespread clinical use properties limiting their usefulness.

Initially therefore, LEO restrict themselves to the following statements:

- 1. In laboratory and clinical trials over a period of two years, FUCIDIN, the sodium salt of fusidic acid, a substance unrelated to any available antibiotic, has demonstrated outstanding activity against the staphylococcus, whether antibiotic sensitive or resistant.
- 2. While it is probably inappropriate to use the word 'safe' with respect to any chemotherapeutic substance, no serious side-effects have been reported to date following extensive clinical trials with FUCIDIN. Its basic steroid structure, far from causing any of the untoward reactions that have become associated with the steroids, may be responsible for the efficient diffusion of FUCIDIN throughout the majority of body fluids and tissues.
- 3. There is substantial reason for believing that FUCIDIN will be shown, in further work currently under way, to possess a range of antibacterial activity different from any antibiotic at present available. Furthermore the absence of effect on gram-negative coliform organisms eliminates the risk of sterilization of the gastro-intestinal tract, a phenomenon predisposing to fungal superinfection which has often followed therapy with oral antibiotics.

Only Nulacin provides intragastric milk-alkali drip therapy for the ambulatory patient

66In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy. 99 (Medical Times 1958, 1: 74)

NULACIN TABLETS have been developed so that when allowed to dissolve slowly in the mouth, they give continuous milk-alkali drip therapy and provide a treatment of peptic ulcer and other conditions associated with hyperacidity. The effectiveness of Nulacin therapy has been established by clinical work in many countries. The following are a few references to the literature:

Potent tissue-building action

ADROYD

(oxymetholone,

for the lagging convalescent

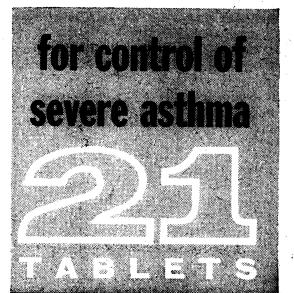

Where chronic debilitating illness, trauma or old age cause prolonged nitrogen loss, metabolic support is an urgent need. ADROYD* with its high anabolic and minimal androgenic activity promotes the retention of nitrogen and elements essential for rebuilding body tissues. Its timulates appetite, promotes weight gain and a sense of well-being, thereby accelerating recovery.

ADROYD is also indicated in osteoporosis and fractures, following burns, in weight loss and asthenia, and before and after surgery.

ADROYD is supplied as 5 mg. scored tablets in bottles of 30, 100 and 250. *Trademark

PARKE-DAVIS

HOUNSLOW, MIDDLESEX. TEL HOUNSLOW 2361

Betnelan (betamethasone) is the recent anti-inflammatory steroid developed by Glaxo. It has proved remarkably effective in the treatment of severe asthma when other measures have proved inadequate.

Although dosage should be varied to suit the individual, in general practice a short-term course of 21 Betnelan tablets given over 6 days, is usually sufficient to achieve control. Side effects are no problem in short-term use and treatment is inexpensive.

Betnelan

TWO TABLE	S THREE TIME	S DAILY FOR	ZYAG GWS

HALF A TABL	ET THREE TIME	S DAILY FOR	TWO DAYS
	\Box		7
	\sim		
4			7

When control of asthma by conventional treatment is interrupted by an acute attack, short-term Betnelan therapy can restore control. When the attack is extremely severe (status asthmaticus) all recognised measures should be taken which may include corticosteroids by injection (Efcortelan or Predsol) at least initially. At the same time oral treatment with Betnelan can be started to maintain control.

Betnelan is presented as scored tablets of 0.5 milligrams betamethasone in bottles of 30, 100 and 500.

The name Betnelan is a Glaxo trade mark

GLAXO LABORATORIES LIMITED

Shorten the road to recovery with ANABOLEX

ANABOLEX* promotes return of appetite, increased weight and a sense of well-being

Convalescence can be shortened by the administration of ANABOLEX. Protein metabolism is stimulated; the patient feels better, eats better and gains weight. ANABOLEX is safe for adults and children. It is indicated for

all patients in negative nitrogen balance. Presentation: Tablets each containing 25 mg. androstanolone in vials of 25, 100 and 250 at a basic NHS cost of 20/-, 70/- and 160/-. Samples and literature will gladly be sent on request.

*the non-virilizing protein anabolic compound

diabetes at the door female middle-aged obese

Leading article (1959) Brit. med. J., 2, 555.

'The general practitioner has to be on the alert for patients who are likely to have symptomless or almost symptomless diabetes. Three things should always be regarded with suspicion-obesity, a family history of diabetes, and, in women, a history of having had big babies'.

will your next patient be an unknown diabetic?

It is estimated that there are at least ten unknown diabetics in your practice. Today, the symptoms of many of them are absent or slight. In the future, however, serious and disabling complications may develop. The need is clear; to find the unknown diabetic before his complications bring him to you.

Such a task is made simpler if the search is begun with those known to be most prone to diabetes, the 'peak-risk' groups.

Likely cases should be screened before they leave the surgery by testing their urine for glycosuria with Clinistix.

Ames Company Division of Miles Laboratories Ltd Stoke Poges Buckinghamshire

peak-risk diabetics

the obese

Diabetes developing after the age of 40 is usually associated with overweight. Since early symptoms of diabetes may be dismissed by the patient as unimportant, obesity itself occurring in the over 40's should be regarded as an indication for investigation.

relatives of known diabetics

Overwhelming evidence confirms that blood relatives of known diabetics have a far greater chance of developing diabetes. The average age of onset is also much lower where a family history of diabetes exists. These facts emphasize the importance of testing all relatives of known diabetics for glycosuria, at least once or twice a year, so that the onset of diabetes may be detected at the earliest stage.

patients with recurrent skin infections

Recurrent skin infections should always raise the suspicion of diabetes. Boils and carbuncles are frequently complaints at the time of diagnosis and genital pruritus is the commonest presenting symptom of mild diabetes in women. These skin conditions may be the first indication of the disease and thereby provide an opportunity to diagnose the diabetes before the more serious vascular and neurological conditions supervene.

patients with poor eyesight

Transient blurring of vision without any ocular abnormality is a frequent presenting symptom of diabetes. Visual disturbances are so commonly associated with diabetes that any patient complaining of 'poor sight' should be tested for glycosuria as a matter of routine.

Safety with efficiency in antisepsis

Long and comprehensive experience has fully demonstrated the value of Dettol in general practice, obstetrics and surgery.

It is well-tolerated on the skin and tissues in high concentrations.

It is an efficient bactericide :-

Dettol will destroy the following organisms in 10 minutes at 20 degrees C. in the dilutions given:—

Staph. aureus:	•••••		I in 200
S. typhi:			1 in 350
Strept. pyogenes:		•	I in 500
Bact. coli:			I in 250
Ps. pyocyanea:			I in 40
Myco. tuberculosis:			I in 200
Sh. shigae:		•••••	I in 400

Different strains can vary widely in resistance, but the figures quoted are representative.

Dettol efficiency is well maintained in the presence of organic material.

A dilution of 1 in 50 will kill Staph. aureus in the presence of 25% blood in 5 minutes.

It is compatible with soap.

"Unlike the other antiseptics, Dettol appeared to have its activity increased by the presence of soap, and against Staph. pyogenes the effect was one of true synergism." (British Medical Journal, 28th July, 1956.)

It is non-poisonous.

It does not stain linen, etc.

It is stable in solution.

Surgical Dettol, Orange, Blue or colourless — For pre-operative skin preparations.

Dettol Antiseptic Cream — For obstetrics and prevention of cross-infection.

Instrument Dettol-For instrument disinfection.

The fairest things in life are Death and Birth

And of these two

the fairer thing is death?

Ode to the Setting Sun Francis Thompson Was Francis Thompson a depressive? One strongly suspects so. Certainly he was a mystic and predisposed to bouts of severe melancholy. He saw himself as an outcast, alone—he felt that life was not worth living; he was preoccupied with death. Many of your patients may show just such a morbid thought-pattern. For these modern-day sufferers effective therapy is possible: the treatment is NARDIL.

MILD TO MODERATE DEPRESSION

NARDIL is safe and is effective at low dosage levels. Toxic effects on blood or liver are extremely rare. NARDIL acts quickly. Response is usually seen within the first weeks or even days of treatment. NARDIL provides reliable treatment for depressives—often the problem patients of a busy practice.

ortable OXYGEN THERAP With the Normalair C570 pocket-size set, on-the-spot

oxygen first-aid is put into the hands of the doctor, ambulance attendant, police officer, fire and rescue teams, for the first time. The C570 can be taken anywhere. It weighs only 5 lb. and gives oxygen flow rates of 1, 2, 4, 6 or 10 litres a minute, a range to meet all requirements. The Normalair C990 light-weight set is carried comfortably by shoulder strap or in coat pocket. This personal set gives an accurately-metered oxygen flow or 2 or 4 litres a minute from 120 or 200 litres capacity cylinders.

helps them to stop smokin

confidently recommended to medical practitioners as the practical part of their invaluable advice to patients to stop or reduce their consumption of tobacco. Lobidan makes a contribution to preventive medicine, for the prophylaxis, or the treatment, of specific diseases where smoking is contra-indicated.

UNI-PHARMA LIMITED

This iron won't upset you...

Summary of Clinical Report

"In a series of 115 patients treated with ferrous aminoacetosulphate ('plesmet') the incidence of gastro-intestinal symptoms was 1.7%. In view of its minimal toxicity and relatively low cost, it is suggested that this iron chelate preparation is a most effective preparation for the treatment of iron-deficiency anaemia by the oral route."

(The Practitioner, 1960, 124, 792.)

Chelated Iron = Plesmet in tablet or syrup form

Tablets (containing 50 mg. Fe.) packings of 100 – 3/- and 1,000 – 20/(Basic N.H.S. cost).

Syrup (25 mg. Fe. per teaspoonful) bottles of 2 oz. -2/- and 40 oz. -18/- (Basic N.H.S. cost).

New Books

THE THEORY AND PRACTICE OF ANTICOAGULANT TREATMENT

L. POLLER

160 pages. 35 illustrations. 27s. 6d., post Is. Id. Although few medical subjects have been as extensively studied as anticoagulant therapy, there is considerable confusion and little general agreement on the precise indications and methods of control of administration. This volume presents a balanced view of the clinical value of the anticoagulant agents at our disposal and of the best means of achieving an effective and safe therapeutic action.

SCHIZOPHRENIA

Ready May

F. J. FISH. 190 pages. 32s. 6d., post is. ld. Offers to junior postgraduates a reasonably priced text-book on Schizophrenia. In order to avoid too much psychological interpretation and to separate theory from fact the author presents a fairly dogmatic summary of the problem with particular stress on the clinical aspects of the disorder.

THE GROWING BRAIN

Ready May

M. C. H. DODGSON.

240 pages. 46 illustrations.

50s., post ls. 4d. Endeavours to bring together in one study the morphology and physiology of the nervous system. It is intended to demonstrate that no structure is too complicated to be understood if its developmental history is known to those who study adult

human neuro-anatomy or whose studies of the C.N.S. lead them to inquire into the construction of the biological

Soothes the general nervous system

In the fight against asthma RYBRONSOL has proved itself to be an ideal sedative powder. It calms the general nervous system, helps to relax bronchial spasm and relieves congestion in the bronchial tree. Taken at bedtime, it promotes sleep; after meals, it alleviates the congestion and excitability of the bronchial tubes.

RYBRONSOL can be recommended to all suffer-

ers of asthma as complementary to Rybarvin and/or Rybarex, the well-known inhalation treatments produced by Rybar Laboratories Ltd.

FULLY DESCR

IN THIS PROFESSIONALLY COMPILED INDEX

THE NUFFIELD ORTHOPAEDIC CENTRE, Oxford, has collected together over 500 items of equipment for disabled people—a project made possible by a grant from the National Fund for Research into Poliomyelitis and other Crippling Diseases.

This grant also makes it possible to publish, at cost price, a complete Index of these items. Each article is fully described and illustrated on a separate page. The Index is published in four specially titled loose-leaf binders. Items which become obsolete can be extracted, and new additions when issued by the publishers can be easily inserted. The Index is available at a price of £6 FOR FULL INFORMATION, WRITE TO:

a new high safety factor in today's motoring...

A NEW TYRE WITH TOTALLY NEW ROAD GRIP

Dunlop were the first to use high-adhesion rubber in tyres for wet weather racing, in the 'RS5' speed tyre for really fast production cars, and in the 'Elite' for luxury motoring. Now, for everyday motoring, Dunlop introduce the new 'Gold Seal C41' in the latest road-hug rubber, with the unique safety shoulder and safety tread from the Dunlop 'Road Speed RS5' built into it.

New wet-road safety The new 'Gold Seal' tyre gives you road-grip that assures definitely

greater safety in cornering, braking and emergency stopping, most of all when roads are wet or greasy. You can *feel* the extra security.

New steering control More, the safety shoulder gives you sure, straight-line running over road-joints, raised white lines, metal strips, cat's eyes and the like. No wheel snatch with the 'Gold Seal C41'. More positive steering control.

The new tyre is offered at no extra cost—and in sizes for the majority of popular modern cars.

DUNLOP GOLD SEAL C41

COMMERCIAL APPOINTMENTS

CYANAMID OF GREAT BRITAIN LIMITED (LEDERLE LABORATORIES DIVISION) MEDICAL DIRECTOR

An exceptional position, that of Medical Director of Lederle Laboratories, exists for a man of outstanding qualities.

The position demands high medical qualifications, wide medical knowledge, and a thorough understanding of drug evaluation techniques. It presents an unusual opportunity for advancement.

Duties will include the organization of clinical investigations, thus requiring experience in working with senior professional colleagues in hospitals and medical research.

The Director will control an adequately staffed department and will be afforded every opportunity for initiative and expansion of interests in the medical sphere. He will advise top management on all medical matters affecting the Company.

Obviously he must believe in the importance of the pharmaceutical industry and the service it gives to modern medicine. Residence in or near London will be necessary.

The commencing salary will be in the region of £3,500 per annum. Additional benefits include an excellent Pension/Life Assurance Scheme and the use of a Company car.

If the requirements and prospects of this appointment are interesting to you, please apply in full confidence to:

General Manager, Lederle Laboratories Division, Cyanamid of Great Britain Limited, Bush House, Aldwych, London W.C.2.

(5361)

University and Research Appointments, etc.-contd.

THE MELVILLE TRUST FELLOWSHIPS IN CANCER RESEARCH

The Trustees of the above Scheme invite applications for Fellowships in Cancer Research commencing in October, 1962. The initial stipend will be according to experience, in the range £800-£1,500 per annum; and funds are available for the provision of equipment and for technical assistance. A Fellowship is normally awarded for a period of two years, but thereafter may be renewed at the discretion of the Trustees.

The research is normally to be carried out in one of the recognized clinical or scientific departments in Edinburgh and, if possible, applicants should have made prior contact with the head of the appropriate department. If this is not possible the Trustees will endeavour to make suitable arrangements.

The research may deal with any aspect of malignant disease, and candidates need not necessarily hold a medical qualification.

Applications for Fellowships, giving details of academic qualifications and of previous scientific or research experience, together with the names of three referees, should be submitted by May 31, 1962, to the Honorary Secretary, Scientific Advisory Committee, The Melville Trust, Royal College of Surgeons, Edinburgh 8, from whom further particulars may be obtained. The Application should be accompanied by an outline of the proposed research.

The expenses incurred in travelling to the United Kingdom by any Research Fellow appointed from overseas will be defrayed by the Trust, which will also reimburse all candidates who are requested to attend for interview.

THE UNIVERSITY OF LIVERPOOL

Applications are invited for the post of LECTURER IN BACTERIOLOGY
The initial salary will be within the range £1,050£1,850 per annum, according to qualifications and experience. The successful applicant will be appointed Senior Registrar (part-time) and the duties will include bacteriological work at the Liverpool Royal Infirmary.

Applications, stating age, academic qualifications and experience, together with the names of three referees, should be received not later than June 1, 1962, by the Registrar, from whom further particulars of the conditions of appointment may be obtained. Quoting Ref. CV/72/BM. (5363)

UNIVERSITY OF ST. ANDREWS

Applications are invited for a LECTURESHIP IN PHARMACOLOGY in the Department of Pharmacology and Therapeutics, Queen's College, Dundee, with effect from a date to be arranged. dent, non-profit-making bulletin service for prescribers, providing unbiased evaluations of drugs in a concise and readily accessible form. Consumers' Association Ltd., by arrangements with the American publishers of THE MEDICAL LETTER, is now publishing a British edition. Edited in this country by a clinical pharmacologist in consultation with a specially appointed Advisory Council, THE MEDICAL LETTER refers to drugs by British generic and proprietary names and gives prices current in Great Britain. Each issue contains appraisals of a number of drugs. THE MEDICAL LETTER, published fortnightly, is available on annual subscription only, £3 3s. Subscriptions and inquiries to THE MEDICAL LETTER, Consumers' Association Ltd. (Room 14), 14 Buckingham Street, London W.C.2. THE MEDICAL LETTER is an indepen-

WORLD HEALTH ORGANIZATION FELLOWSHIPS

A small number of Fellowships for study abroad will be awarded in 1962 by the World Health Organization to registered medical practitioners, dental practitioners. State registered nurses, or other professional personnel engaged in the health services, medical education, or medical research in the U.K.

The Fellowships will normally be of a few months' duration.

Applicants should be of at least five years' stand-

Applicants should be of at least twe years stand-ing in their profession and of sufficient experience in their field of study to be able to assess critically the value of experience abroad and to utilize it for the benefit of the health services of the U.K. They will be expected to continue in the health services of the U.K. for at least three years after holding a Fellowship.

Applications, giving full particulars of qualifi-cations, experience, proposed programme, and duration of study, and accompanied by the names of two referees, should be sent:

(a) BY THOSE RESIDENT IN SCOTLAND to

The Secretary,
Department of Health for Scotland,
St. Andrew's House, Edinburgh 1;
BY THOSE RESIDENT IN NORTHERN
IRELAND to

The Secretary,
Ministry of Health and Local Government,
Stormont, Belfast;
and

(c) BY OTHERS to

The Secretary, Ministry of Health, Savile Row, London W.1.

Envelopes should be marked "World Health Organization Fellowships."

Applications must be received on or before June 5, 1952. (5304)

UNIVERSITY OF MADICINE

PRINCE OF MADICINE

FACULTY OF MEDICINE

DIPLOMA IN DIAGNOSTIC RADIOLOGY
(R.C.P. and S.Eng.)

A course of instruction for the above diploma will commence in early October, 1962, and extend over a period of 25 months. The course is full-time, non-resident; inclusive fee £75. Applicants must be registered medical practitioners who fulfil the requirements as to previous medical experience laid down by the Examining Board in England (D.M.R.D. regulations obtainable from the London Conjoint Board, 8/11 Queen Square, London W.C.I).

In connection with the above course the Man-

In connection with the above course the Manchester Regional Hospital Board and the Board of Governors of the United Manchester Hospitals offer two whole-time non-resident trainee posts of Senior House Officer status. Facilities will be granted to attend the university course for the D.M.R.D.

D.M.R.D.

Application to take the course should be made to the Dean of Postgraduate Medical Studies, the Royal Infirmary, Manchester 13, not later than Thursday, May 31.

Application for a trainee appointment should be made (enclosing copies of two recent testimonials) to the Senior Administrative Medical Officer, Manchester Regional Hospital Board, Chectwood Road, Manchester 8, not later than Thursday, May 31.

UNIVERSITY OF MANCHESTER FACULTY OF MEDICINE

DIPLOMA IN PUBLIC HEALTH

DIPLOMA IN PUBLIC HEALTH

A part-time course covering two academic years is available, and the next course will commence early in October, 1962. Candidates are required to obtain approved posts in the Manchester region from which they are permitted to attend the university for the equivalent of 2½ days each week for six terms. Every assistance is given to prospective candidates to obtain suitable employment. Further particulars may be obtained from Professor C. F. Brockington, Department of Social and Preventive Medicine, Clinical Sciences Building, York Place, Manchester 13, to whom application should be made as soon as possible. (5468)

UNIVERSITY OF CAMBRIDGE SCHOOL OF CLINICAL RESEARCH AND POSTGRADUATE MEDICAL TEACHING

COURSES FOR GENERAL PRACTITIONERS
Two one-week courses will be held at Addenbrooke's Hospital from July 9 to 14 and July 16 to 21, 1962. For the latter course accommodation will be provided in Downing College; for the first course those attending will be left to arrange their own accommodation. N.H.S. practitioners will be eligible for grant under the usual conditions of the Ministry of Health Scheme; for others the course fee will be £5 5s. The numbers accepted for each course will be limited.

The programme for each week will include daily ward-rounds and clinical demonstrations, a clinicopathological conference, visits to the cardio-pathological and surgical units at Papworth Hospital, to the Neurological and Neurosurgical Unit, and the Orthopaedic and Accident Service at the new Addenbrooke's Hospital, with lecture-discussion on a variety of medical and surgical subjects, e.g., rheumatic disorders, hormone therapy, diabetes, hypothermia, purpura, cranial arteritis, bacterial endocarditis, tranquillizers, intractable pain, fitness for anaesthesia, rehabilitation, paediatrics, geriatrics, radiology, urology, psychiatry, and dermatology.

Registration forms and details of the procedure for claiming grant under the Ministry of Health Postgraduate scheme may be obtained from the Secretary of the Medical School, Tennis Court Road, Cambridge.

UNIVERSITY OF MANCHESTER UNITED MANCHESTER HOSPITALS MANCHESTER REGIONAL HOSPITAL BOARD

MANCHESTER REGIONAL HOSPITAL BOARD

The University of Manchester will offer a course in preparation for the Diploma in Psychological Medicine, to commence in October, 1962, subject to a sufficient number of candidates being available. The instruction is part-time, covering two half-days per week for the first two terms, and three half-days a week for the remaining seven terms. Further particulars as to admission and fees may be obtained from the Dean of Postgraduate Medical Studies, the Dean's Office, the Royal Infirmary, Manchester 13, to whom application to take the course should be made not later than Thursday, May 31.

In connection with the above course, applications are invited from practitioners qualified for a minimum of two years and with a sound basic training in general medicine for two non-resident trainee registrar posts in psychiatry, tenable initially for a year from October, 1962, and renewable annually for a total of three years. Arrangements will be made for the trainees to gain wide experience in all branches of psychiatry in several hospitals, including the University Unit of the Teaching Hospital, and facilities will be provided for the appointees to attend the course of instruction for the D.P.M. at the University of Manchester, which they must be prepared to take.

Applications for the two appointments (enclosing copies of two recent testimonials) should be sent to the Senior Administrative Medical Officer, Manchester Regional Hospital Board. Cheetwood Road, Manchester 8, not later than Thursday, May 31. This is in addition to application to take the D.P.M. course, to be made to the Dean of Postgraduate Medical Studies. (5467)

UNIVERSITY OF MANCHESTER

UNIVERSITY OF MANCHESTER

DIPLOMA IN MEDICAL RADIOTHERAPY
(R.C.P. and S.Eng.)

A course of instruction in Radiotherapy, in training for the diploma, will begin at the Christie Hospital and Holt Radium Institute, Manchester, on October 1, 1962. This will continue until the end of July, 1963, after which students without previous experience recognized by the Joint Colleges must still spend a further 14 months, working either in the Holt Radium Institute or in the Radiotherapy Department of some other recognized hospital. The course is full-time and non-resident. The fee for one year's tuition is £37 lbs. Applications are invited from registered medical practitioners who fulfil the requirement as to previous medical experience laid down by the Examining Board in England (D.M.R.T. regulations obtainable from the London Conjoint Board, 8/11 Queen Square, London W.C.I).

Applicants from Great Britain may be eligible for S.H.O. appointments. Special consideration will be given to candidates possessing a higher qualification in medicine or surgery, and Registrar appointments may be available to such candidates. Further information may be obtained from Professor Ralston Paterson, Director, Christie Hospital and Holt Radium Institute, Wilmslow Road, Manchester 20, or from the Dean of Postgraduate Medical Studies, the Dean's Office, the Royal Infirmary, Manchester 13. Applications should be sent to Professor Ralston Paterson as soon as possible.

SEMI-DISPLAYED ADVERTISEMENTS are charged at the rate of £8 per single column inch and pro rata.

INSTRUCTIONS TO ADVERTISERS

Please write advertisements and name and address clearly in BLOCK CAPITALS and send to the Classified Advertisement Manager, British Medical Journal, B.M.A. House, Tavistock Square, London W.C.I. Telephone: Euston 4490. Telegrams: Britmedads, Westeent, London. To cut down book-keeping entries and to avoid delay, please ENCLOSE PAYMENT with advertisement.

All advertisements, subject to approval, will appear in the forthcoming issue provided they reach this office not later than first post on the THURSDAY of the week preceding date of issue.

Cancellation of advertisements cannot be accepted if received after 2 p.m. on the Friday of the week preceding date of issue (issues affected by public holidays excepted).

Every effort is made to ensure the accuracy of advertisements appearing in the Journal. No recommendation is implied by acceptance, and the Editor of the British Medical Journal reserves the right to refuse or interrupt the insertion of any advertisement.

REPLIES TO BOX NUMBERS. The names and addresses of advertisers under box numbers are held by us in strict confidence and cannot be disclosed. Each Box No. should be addressed separately. Two or more replies can be enclosed in one envelope, addressed to the Classified Advertisement Department. The replies will be forwarded to the advertisers in plain envelopes.

DOCTORS ABROAD. Copies of vacancies advertised in the "Journal" can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to three separate headings: additional headings 1s. each.

THE MEDICAL DEFENCE UNION

Important Announcement for all Overseas Practitioners

THE MEDICAL DEFENCE UNION is able to announce a SUBSTANTIAL REDUCTION in the subscription rates available to doctors practising overseas together with—for the first time—an offer of UNLIMITED INDEMNITY in respect of damages and/or costs awarded against any Member as a consequence of litigation involving a question of professional principle. As from the 1st July, 1962, the sliding subscription scale and the fixed indemnity ceiling are abolished. From this date the annual subscription rate for overseas medical practitioners will be £5. For practitioners joining within one year of registration the annual rates will be £3 for the first three years, £4 for the fourth year and £5 thereafter.

THE MEDICAL DEFENCE UNION IS THE OLDEST AND LARGEST ORGANIZATION OF ITS KIND IN THE WORLD. ITS VAST RESOURCES AND UNRIVALLED EXPERIENCE ARE AT THE DISPOSAL OF ALL ITS MEMBERS WHEREVER THEY MAY BE PRACTISING, OTHER THAN IN THE U.S.A.

Membership is open to all practitioners holding a qualification which is registrable with the General Medical Council in London. For full particulars and Membership forms apply to the London office.

Secretary:

Philip H. Addison, M.R.C.S., L.R.C.P.

Dental Secretary:

A. H. R. Rowe, B.D.S., F.D.S.
