

. . . I shouldn't wonder. Something he ate anyway. Just suddenly started feeling sick. Then he was. Said he had a gripe right in the pit of his stomach. Couldn't keep anything down hardly. Been a bit loose at the other end too. Still, he's a shade better since I telephoned. Got his school sports tomorrow, you see.'

Diagnosis?—Acute gastritis. What the mother didn't even bother to say was that the only fluid this little boy did keep down was Lucozade. And he wanted it—like so many patients, for the liquid glucose in Lucozade is only one quarter as sweet as sucrose, and one third as sweet as dextrose. Also, as the doctor knows, it supplies needed calories more quickly. That is why Lucozade is such a useful therapeutic aid, and why the doctor too approves of . . .

Lucozade for the patient

# You can earn £2000 a year <u>on entry</u> in the Royal Air Force

#### **New Conditions for Registered Practitioners**

Under a new scheme announced by the Air Ministry, if you are a qualified doctor you can enter the Royal Air Force immediately after full registration and be commissioned as a Flight Lieutenant, earning, with full allowances, £2,000 a year. If you have post-graduate experience you can be granted up to seven years back-dated seniority; a doctor with six years' civilian experience will be appointed Squadron Leader on entry, earning, with full allowances, £2,300 a year.

Tax free gratuities are payable on completion of short service commissions. These are £1,500 after three years or £3,000 after five years.

You can be offered a permanent pensionable commission with guaranteed employment to the age of 65 and excellent prospects of promotion to Group Captain rank and a salary of well over £3,000 a year. If you are married and serving at a Station you will be allocated an official married quarter. This will be a comfortably furnished house near your surgery.

You will have full clinical freedom and your practice will normally include the families of serving members of the Royal Air Force. You will have opportunities for specialising, and study leave is granted on full pay and allowances to permanent officers who wish to read for further qualifications.

#### **'Pre-Registration Year' Scheme**

If you are a medical graduate you may be commissioned in the Royal Air Force immediately in the rank of Flying Officer. You may then spend your pre-registration year seconded to a civilian hospital. This means that during your year as house physician or surgeon you may earn, with full pay and allowances, up to £1,339 a year. On registration, you will become a Flight Lieutenant with possible earnings of over £2,000 a year. To qualify for this scheme you must undertake to serve for at least three years after full registration. Your pre-registration year counts towards your gratuity following a short service commission and towards retired pay on a permanent commission. The gratuity on completion of a three year commission is £1,500 plus £200 for the full pre-registration year; on completing a five year commission the gratuity is £3,000 plus £200 for the full pre-registration year. These gratuities are tax free.

#### **'Medical Cadetship' Scheme**

If you are a medical student and have passed your second M.B. examination or the equivalent you may be commissioned *now* in the Royal Air Force. During the remainder of your medical training your fees will be paid and you will receive the full pay and allowances of a Pilot Officer which can amount to £1,090 a year.

To qualify for this scheme, you must undertake to serve for at least five years in the Medical Branch of the Royal Air Force after full registration.

At the end of the five years you may enter civilian practice with a tax free gratuity of between £1,400 and £2,600, or you may be selected for a permanent commission which guarantees pensionable employment to the age of 65 and which may take you to the most senior ranks in the Service.

For full information on the new conditions for doctors, specialists, graduates and cadets in the Royal Air Force, write to the Director-General of Medical Services, Air Ministry (M.A.I), (HN 893), I Tavistock Square, London, W.C.I.

#### Searle announce a further development in oral contraception

#### provides the same unsurpassed effectiveness as Conovid

unsurpassed contraceptive effectiveness marked aesthetic acceptability simplicity of dosage no impairment of subsequent fertility no effect on later pregnancies

CONOVID-E contains the same active ingredients as Conovid but in different proportions: Conovid-E tablets contain 2.5 mg. norethynodrel with 0.1 mg. ethinyloestradiol 3-methyl ether (EE3ME). Conovid tablets contain 5 mg. norethynodrel with 0.075 mg. EE3ME. The EE3ME content was shown to be critical by a trial in Birmingham using an experimental low dosage tablet. Trials in more than 1,500 women for over 9,000 cycles, using 2.5 mg. of norethynodrel with additional oestrogen (CONOVID-E), have, however, been very satisfactory. CONOVID-E is much cheaper than Conovid and costs only 10/- for a month's course of 20 tablets.

Full medical literature on Conovid and CONOVID-E is available on request.

'Conovid' is a Registered Trade Mark

## ANXIETY SYMPTOMS AND MARRIAGE

All too frequently the underlying cause of numerous anxiety symptoms in young married patients is the fear of an unwanted pregnancy brought about by the use of unreliable contraceptive methods. Three million people, for example, still practice coitus interruptus.

Fortunately, today, married people are less inhibited in their attitudes towards the subject of family planning and more and more they turn to you, their family doctor, for advice.

Specially published to assist you with enquiries of this sort is a number of factual leaflets and booklets, among them a new edition of Modern Family Planning suitable for patients when the need arises. Others in the series (for purely professional reading) are Fertility Control in General Practice and The Condom as a Contraceptive (both written by Christopher Tietze, M.D.); A Married Woman's Views on Contraception; Modern Contraceptive Technique; Diaphragm or Protective? and The Case Against Coitus Interruptus.

If you would like copies of any of these publications, please write stating titles and quantities required to Medical Division, (Dept. 12c), London Rubber Industries Ltd., Hall Lane, London, E.4.

## Shorten the road to recovery with ANABOLEX

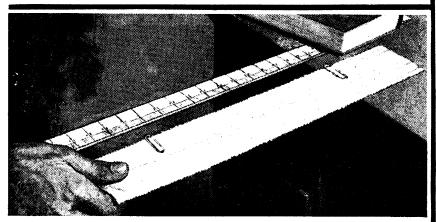

ANABOLEX\* promotes return of appetite, increased weight and a sense of well-being

Convalescence can be shortened by the administration of ANABOLEX. Protein metabolism is stimulated; the patient feels better, eats better and gains weight. ANABOLEX is safe for adults and children. It is indicated for all patients in negative nitrogen balance. Presentation: Tablets each containing 25 mg. androstanolone in vials of 25, 100 and 250 at a basic NHS cost of 20/-, 70/- and 160/-. Samples and literature will gladly be sent on request.

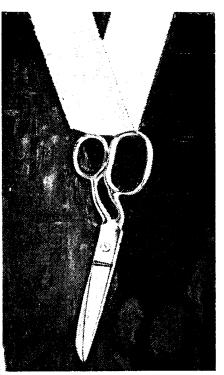

\*the non-virilizing protein anabolic compound

## The 4 features of Elastoplast

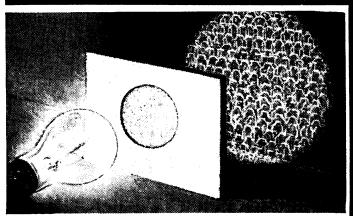

TRY THESE TESTS FOR YOURSELF

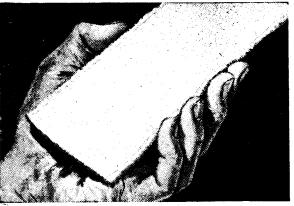

STRETCH AND REGAIN Stretch a marked length of Elastoplast bandage. It will extend by 75% with little effort and return almost to its original length. This critical stretch and regain is at its maximum in Elastoplast.

1 POSITIVE ADHESION You will be surprised how long you can suspend a pair of heavy scissors from a length of Elastoplast. The powerful adhesive sticks with very little pressure and keeps Elastoplast firmly in position during the longest treatment.

EVEN, ALL-OVER POROSITY Project images of the filament of a clear electric lamp through the pores of stretched Elastoplast on to a white surface. See how even the filament pattern is. Elastoplast leaves no occluded patches of skin even when there is more than one layer.

SOFT, NON-ADHESIVE EDGES Feel the softness of the selvedge of an Elastoplast bandage. It does not cut nor mark the skin. The edges are free from adhesive so that Elastoplast cannot stick to clothing nor ruck during wear.

#### Only Elastoplast has all four advantages

IT COSTS NO MORE TO SPECIFY ELASTOPLAST

#### the tranquilliser pure and simple...

Schloss Seeon, Bavaria

"Of the high dosage phenothiazines, thioridazine hydrochloride (Melleril) has had the most careful trials . . . and has the great advantage that even in full doses of between 300

in full doses of between 300 and 400 mg. daily it is free from the risk of liver damage, extrapyramidal complications or a granulocytosis."

Brit. Encyc. of Medical Practice, 1961

### Melleril

"The most striking aspect of Melleril therapy is the poverty of side-effects."

J. Amer. med. Ass. (1959) 170, 1283

#### Furamide

With Furamide, cure rates of 75-80% in the acute stage and 90-100% in the chronic condition have been achieved in clinical trials and may be expected in practice. Symptoms are relieved in a few days.

Treatment of amoebiasis with Furamide tablets is simple, safe, effective and readily accepted by the patient. Furamide causes no gastric or colonic irritation and is completely non-toxic. Side-effects, apart from occasional flatulence, have not been reported.

One tablet three times a day for ten days for adults is all that is necessary. Children may receive 20 mg./Kg. body weight daily in divided doses for 10 days. No injections, special diet or enemas are required.

Furamide tablets each contain 0.5G Entamide (diloxanide) furoate and are supplied in containers of 15 and 250. Furamide is a product of Boots Research.

#### tiglyssin

### tiglyssin

#### brand tigloidine hydrobromide for relief of spasticity and spasms associated with upper motor neurone disease.

Tigloidine is a minor alkaloid of the atropine series, but is almost totally devoid of anticholinergic activity. It has however been shown (1) to share with atropine an effect on muscle characterised by quick fatigue on rapidly repeated stimulation. For this reason, its possible therapeutic effect on pathologically increased muscle tone was investigated, and useful activity subsequently reported in Parkinsonism (2) Huntington's chorea (3) and spastic paraplegia (4, 5).

In controlled trials Tigloidine has been found to reduce spasms and spasticity to a useful extent in approximately fifty per cent of patients suffering from upper motor neurone disease: an incidence and degree of improvement greater than were produced by a matching placebo. The effect of the drug in any individual patient is unpredictable; patients whose clinical state is similar do not necessarily benefit to the same extent. In patients who do respond, however, the effect of the drug appears to be well maintained—in one trial (4) no loss was seen after periods of administration up to a year.

The effect of Tigloidine is, of course, purely palliative, it has no curative effect on the cause of spasticity, nor can it slow down the advance of progressive CNS disease.

#### DOSE AND ADMINISTRATION

The daily dose for adults is 1-2G. divided into three and taken with meals. A suitable starting dose is 0.75 g., and this should be slowly increased until no further improvement occurs or mild atropine-like side-effects appear. Administration for 3-4 weeks is usually needed for the full effect to appear.

# Low-sodium Diets

Restriction of the sodium intake is sometimes unavoidable in cardiac or renal disease, or in pregnancy. Unfortunately, meals prepared without salt tend to be insipid and the diet may soon become monotonous.

Salt-free Marmite imparts a pleasant savoury taste to soups and stews and is therefore popular with patients who have to adhere to a low-sodium diet. It is also appreciated as a sandwich spread or as a flavouring for egg dishes. Moreover, it improves the nutritional value of the diet by providing all known factors of the vitamin B complex.

Glaxo

Antibiotic Research

GRISOVIN-FP

fine particle 
griseofulvin for 
greater absorption

Glaxo research, which first developed large-scale manufacture of griscofulvin, has produced a new fine particle form of the antibiotic. This is now marketed as GRISOVIN-FP. Griscofulvin is relatively insoluble. By reducing the particle size its absorption is substantially increased. Grisovin-FP taken orally produces blood levels equal to those obtained with the original material but in half the dosage. For this reason Grisovin-FP is issued in a tablet of 125 mg which is equivalent to the original 250 mg tablet in the production of griscofulvin blood levels. The reduced particle size is purely a physical change and in all other respects but one Grisovin-FP is identical with the griscofulvin so extensively, and so successfully, used for the treatment of fungal skin infections. The exception is the price—Grisovin-FP costs much less.

Wright's Coal Tar Soap has been in continuous use by the Medical Profession for nearly a century. Its world-wide use is largely due to professional approval of its quality, and to the fact that it contains the original 'Liquor Carbonis Detergens'. Even in 1882 this ingredient was described by the B.M.J. as "by no means a new preparation".

To maintain this front-rank position has not been easy. It has called for unremitting effort, continuous improvements in technique, ever higher analytical standards, and a record of service in which we take modest pride.

# DRUGS IN THE TREATMENT OF DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the seties of articles published in the British Medical Journal, the book presents an up-to-date, indexed, authority on medicinal treatment—of considerable help to the doctor in choosing the best drug for his patient.

Medium 8vo. 570 pages. Price 35s. (by post 36s. 9d.)

# A natural action laxative

When advising a laxative, medical preference usually favours the use of a product which acts in a perfectly natural way. Andrews meets this demand admirably. Its effect is to increase the fluid content in the bowel by osmosis and so induce a mild and natural aperient action that does not irritate the intestine.

Andrews will be found particularly useful for relieving constipation arising from decreased food intake, either during illness or restricted diet.

Andrews has further advantages, it is mildly antacid and relieves gastric discomfort. It also improves the flow of bile and helps to check biliousness and sick headaches.

The pleasant taste and refreshing effervescence of Andrews make it readily acceptable to most patients.

A case of natural selection

Would Mr. D. have charted the Origin sooner with his tomes of reference conveniently arrayed in a Minty bookcase? Did he realise that books are also prone to extinction through wear and tear? Too bad that Minty was not available to him. Today, book-loving homo sapiens has the advantage.

Minty have survived supreme for years as the makers of bookcases most naturally selected to house valued volumes. Behind sliding glass doors your books are protected in dust-free distinction and discernibility. And, since Minty bookcases are sectional, your library can evolve to any size you wish, starting from as little as £12.19.0.—on deferred terms if you prefer.

Only at the Minty Centres shown below can you see and buy Minty bookcases (and furniture). The Centres are so placed that Minty furniture is within easy reach of most people. If for any reason you can't call, Minty will send you a catalogue and particulars of post ordering. Write to Dept. B.22, Minty Ltd., 44-45 High St., Oxford.

# A NEW DEAL FOR DOCTORS JOINING THE ROYAL ARMY MEDICAL CORPS

Short service and permanent commissions are now open to both men and women graduates as general practitioners and specialists under excellent new terms.

# ENTRY AND PROMOTION

A fully registered practitioner now enters the R.A.M.C. in the *minimum* rank of Captain, earning £2,000 a year. After five years he is promoted to Major, earning £2,300; after a further 8 years a permanent commissioned officer can become a Lieutenant-Colonel, earning £2,760 a year. All permanent officers can be employed up to the age of 65. Short service commissions are for three or five years and may lead to permanent commissions.

These figures include marriage and ration allowances but do not include diploma or specialist pay. Most officers can expect to reach the rank of full Colonel, and there is opportunity for promotion to still higher ranks.

# CIVIL EXPERIENCE

Credit is given for civilian experience, which means, for example, a candidate with six years' practice will enter as a Major.

# PROFESSIONAL OPPORTUNITY

Opportunities for permanent officers to specialise are excellent and they can achieve consultant status. Non-specialists may now be employed in general practice up to the rank of Colonel.

# PENSIONS GRANTS GRATUITIES

For permanent officers there is an initial £1,500 grant, a generous non-contributory pension and tax-free terminal grant. On leaving, short, service officers receive tax-free gratuities of £1,500 after three years or £3,000 after five years.

# **PRE-REGISTRATION COMMISSIONS**

Medical graduates may be granted permanent or short service commissions as Lieutenants during their pre-registration year. Married, they can earn up to £1,339 a year, and on registration are promoted to Captain. Short service officers then serve a minimum period of three years, earning tax-free gratuities ranging from £1,700 to £3,200.

# STUDENT CADETSHIPS

Medical students who have completed their pre-clinical studies may be granted permanent or short service commissions as Second Lieutenants. All tuition fees are paid and with allowances, if married, they can receive £1,090 a year. On registration short service officers serve for a minimum period of five years, earning tax-free gratuities ranging from £1,400 to £2.600

Further details of terms and conditions of service, pay, pensions and gratuities, from: Major-General J. C. Barnetson, O.B.E., Q.H.P., M.B., Deputy Director-General, Army Medical Services, The War Office (HN/1), London, S.W.1.

Tel. No: GROsvenor 8040, Ext. 740.

# APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent  $\bigstar$  testimonials with short statement of experience and appointments

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply.

Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

\* SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

# SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) REGISTRAR. Posts obtainable normally not less than one year after full registration as a medical practitioner and held normally for two years: £1,250 in the first year; £1,400 in the second and any subsequent years. Deduction of £215 per annum for compulsory residence; £255 per annum for voluntary residence.

residence.

(b) SENIOR REGISTRAR. Posts obtained normally not less than three years after full registration and held normally for four years; £1,500 by £100 to £1,800 in the fourth year; thereafter, £1,900 in the fifth and sixth years; £2,000 in the seventh and eighth years; £2,100 in the ninth and any subsequent years. Deduction of £250 per annum for compulsory residence; £275 per annum for voluntary residence.

# Other Grades, Whole-time

Other Grades, Whole-time

(a) HOUSE OFFICERS. Each post in this grade shall be tenable for six months.

£675 per annum for the first post held; deduction of £155 per annum for compulsory residence or £195 per annum for voluntary residence;

£750 per annum for the second post held; deduction of £160 per annum for compulsory residence or £195 per annum for voluntary residence:

£825 per annum for the third and any subsequent posts held; deduction of £165 per annum for compulsory residence or £195 per annum for voluntary residence:

provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that the remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £750 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff; provided further that where a House Officer has previously held two such outside posts the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that his remuneration shall be £825 per annum. Any House Officer who on first appointment is paid at the appropriate rate to the second or third post held in accordance with the above provision shall be paid at the third post rate for any subsequent appointments in this grade.

(b) \$ENIOR HOUSE OFFICERS. Posts obtained by fully registered medical practitioners and held normally for one year only: £1,050 on appointment at age 27 or under; £1,100 on appointment at age 28 or over. Deduction of £180 per annum for compulsory residence or £215 per annum for voluntary residence.

or over. Deduction of £180 per annum for computor, residence.

(c) JUNIOR HOSPITAL MEDICAL OFFICERS. Officers who have held house appointments but who are not registrars and who have less responsibility than other hospital officers of non-consultant status, and who have been appointed for a limited or indefinite period, not less than one year after full registration as a medical practitioner: £1,100 by £60 (8) to £1,580. Deduction of £215 per annum for compulsory residence or £255 per annum for voluntary residence.

Allowances at rates of up to £100 per annum shall be payable to house officers, senior house officers, junior hospital medical officers and registrars occupying posts approved for such allowances in peripheral hospitals.

All National Health Service hospital appointments are in accordance with the Terms and Conditions of Service of Hospital Medical St-ff (9/2/62

# Introducing FUCIDIN ZN6-Na

an oral antibiotic of completely new personality

original product of Leo Research

In releasing FUCIDIN, LEO-DENMARK appreciate that a number of pharmaceutical preparations have been introduced with high expectations, only to exhibit in subsequent widespread clinical use properties limiting their usefulness.

Initially therefore, LEO restrict themselves to the following statements:

- 1. In laboratory and clinical trials over a period of two years, FUCIDIN, the sodium salt of fusidic acid, a substance unrelated to any available antibiotic, has demonstrated outstanding activity against the staphylococcus, whether antibiotic sensitive or resistant.
- 2. While it is probably inappropriate to use the word 'safe' with respect to any chemotherapeutic substance, no serious side-effects have been reported to date following extensive clinical trials with FUCIDIN. Its basic steroid structure, far from causing any of the untoward reactions that have become associated with the steroids, may be responsible for the efficient diffusion of FUCIDIN throughout the majority of body fluids and tissues.
- 3. There is substantial reason for believing that FUCIDIN will be shown, in further work currently under way, to possess a range of antibacterial activity different from any antibiotic at present available. Furthermore the absence of effect on gram-negative coliform organisms eliminates the risk of sterilization of the gastro-intestinal tract, a phenomenon predisposing to fungal superinfection which has often followed therapy with oral antibiotics.

# ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS NORTHAMPTON President: The Earl Spencer. Medical Superintendent: D. J. O'Connell, M.D., D.P.M. This private hospital receives patients, both male and female, suffering from nervous and mental disorders including alcoholism and senile illnesses.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and scnile illnesses. The fees range from fourteen guineas per week. Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc.

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

BRYN-Y-NEUADD HALL

The seaside home of the hospital is beautifully situated in a park of 330 acres at Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this home for a short seaside change or for longer periods. The hospital has its own private bathing house on the seashore.

on the seashore.

For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354, Northampton), who can be seen in London by appointment.
