You can earn £2000 a year on entry in the Royal Air Force

New Conditions for Registered Practitioners

Under a new scheme announced by the Air Ministry, if you are a qualified doctor you can enter the Royal Air Force immediately after full registration and be commissioned as a Flight Lieutenant, earning, with full allowances, £2,000 a year. If you have post-graduate experience you can be granted up to seven years back-dated seniority; a doctor with six years civilian experience will be appointed Squadron Leader on entry, earning, with full allowances, £2,300 a year.

Tax free gratuities are payable on completion of short service commissions. These are £1,500 after three years or £3,000 after five years.

You can be offered a permanent commission which guarantees pensionable employment to the age of 65 and excellent prospects of promotion to Group Captain rank and a salary of well over £3,000 a year. If you are married and serving at a Station you may be allocated an official married quarter. This will be a comfortably furnished house near your surgery.

You will have full clinical freedom and your practice will normally include the families of serving members of the Royal Air Force. You will have opportunities for specialising, and study leave is granted on full pay and allowances to permanent officers who wish to read for further qualifications.

'Pre-Registration Year' Scheme

If you are a medical graduate you may be commissioned in the Royal Air Force immediately in the rank of Flying Officer. You may then spend your pre-registration year seconded to a civilian hospital. This means that during your year as house physician or surgeon you may earn, with full

pay and allowances, up to £1,339 a year. On registration, you will become a Flight Lieutenant with possible earnings of £2,000 a year. To qualify for this scheme you must undertake to serve for at least three years after full registration. Your pre-registration year counts towards your gratuity following a short service commission and towards retired pay on a permanent commission. The gratuity on completion of a three year commission is £1,500 plus £200 for the full pre-registration year; on completing a five year commission the gratuity is £3,000 plus £200 for the full pre-registration year. These gratuities are tax free.

'Medical Cadetship' Scheme

If you are a medical student and have passed your second M.B. examination or the equivalent you may be commissioned *now* in the Royal Air Force. During the remainder of your medical training your fees will be paid and you will receive the full pay and allowances of a Pilot Officer which can amount to £1,090 a year.

To qualify for this scheme, you must undertake to serve for at least five years in the Medical Branch of the Royal Air Force after full registration.

At the end of the five years you may enter civilian practice with a tax free gratuity of between £1,400 and £2,600, or you may be selected for a permanent commission which guarantees pensionable employment to the age of 65 and which may take you to the most senior ranks in the Service.

For full information on the new conditions for doctors, specialists, graduates and cadets in the Royal Air Force, write to the Director-General of Medical Services, Air Ministry (M.A.1), (HN 893B), 1 Tavistock Square, London, W.C.1.

CAN YOU TRUST HIM?

Can you trust your patient's child not to get hold of his mother's iron tablets? Can you always rely on your anaemic patient to observe the necessary care and watchfulness?

Ferrodic virtually removes the toxic risks from iron therapy. It is 100 times less toxic than ferrous sulphate, 30 times less toxic than ferrous gluconate.* Yet, because it is stabilised, this unique form of ferrous carbonate is readily absorbed to give maximum haemoglobin response... And, in keeping with its low toxicity, Ferrodic is exceptionally well tolerated and free from unpleasant side effects.

Synadrin

Regd. Trade Mark

new compound for the treatment of patients with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments¹⁸⁻²⁴, but the final test of the value of a new drug is in clinical trial in human patients. Synadrin has been tested in over 1,000 patients, and results of trials so far reported have been promising¹⁻¹⁷.

Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

...do you recommend an external wedge on the shoes?

But the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's. As the diagram on the left clearly shows, any external wedge to heel disturbs the plane of forepart and heel. Surely it's more logical to have a wedge built-in between the inner and the outer sole—where it can correctly corset the foot, remain invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made—on remedial lasts specially adapted to accommodate the internal wedge. That is why they are the only practical and thoroughly effective solution to this problem.

for control of severe asthma

Betnelan

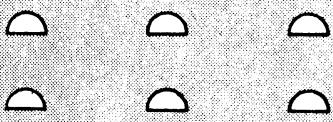

TWO TABLETS THREE TIMES DAILY FOR TWO DAYS

ONE TABLET THREE TIMES DAILY FOR TWO DAYS

HALF A TABLET THREE TIMES DAILY FOR TWO DAYS

Betnelan (betamethasone) is the recent anti-inflammatory steroid developed by Glaxo. It has proved remarkably effective in the treatment of severe asthma when other measures have proved inadequate.

Although dosage should be varied to suit the individual, in general practice a short-term course of 21 Betnelan tablets given over 6 days, is usually sufficient to achieve control. Side effects are no problem in short-term use and treatment is inexpensive.

When control of asthma by conventional treatment is interrupted by an acute attack, short-term Betnelan therapy can restore control. When the attack is extremely severe (status asthmaticus) all recognised measures should be taken which may include corticosteroids by injection (Efcorlan or Predsol) at least initially. At the same time oral treatment with Betnelan can be started to maintain control.

Betnelan is presented as scored tablets of 0.5 milligrams betamethasone in bottles of 30, 100 and 500.

The name Betnelan is a Glaxo trade mark

All too often, conventional antihistamines fail to control allergic and pruritic disorders. Investigations have shown that, besides histamine, serotonin may also play a part in producing allergic manifestations. The precipitating factor in any particular case may be histamine, serotonin or both.

PERIACTIN provides "parallel antagonism" of histamine and serotonin. It offers, therefore, more certain relief of hay fever and other allergic and pruritic disorders.

A NEW DEAL FOR DOCTORS JOINING THE ROYAL ARMY MEDICAL CORPS

Short service and permanent commissions are now open to both men and women graduates as general practitioners and specialists under excellent new terms.

ENTRY AND PROMOTION

A fully registered practitioner now enters the R.A.M.C. in the *minimum* rank of Captain, earning £2,000 a year. After five years he is promoted to Major, earning £2,300; after a further 8 years a permanent commissioned officer can become a Lieutenant-Colonel, earning £2,760 a year. All permanent officers can be employed up to the age of 65. Short service commissions are for three or five years and may lead to permanent commissions.

These figures include marriage and ration allowances but do not include diploma or specialist pay. Most officers can expect to reach the rank of full Colonel, and there is opportunity for promotion to still higher ranks.

CIVIL EXPERIENCE

Credit is given for civilian experience, which means, for example, a candidate with six years' practice will enter as a Major.

PROFESSIONAL OPPORTUNITY

Opportunities for permanent officers to specialise are excellent and they can achieve consultant status. Non-specialists may now be employed in general practice up to the rank of Colonel.

PENSIONS GRANTS GRATUITIES

For permanent officers there is an initial £1,500 grant, a generous non-contributory pension and tax-free terminal grant. On leaving, short service officers receive tax-free gratuities of £1,500 after three years or £3,000 after five years.

PRE-REGISTRATION COMMISSIONS

Medical graduates may be granted permanent or short service commissions as Lieutenants during their pre-registration year. Married, they can earn up to £1,339 a year, and on registration are promoted to Captain. Short service officers then serve a minimum period of three years, earning tax-free gratuities ranging from £1,700 to £3,200.

STUDENT CADETSHIPS

Medical students who have completed their pre-clinical studies may be granted permanent or short service commissions as Second Lieutenants. All tuition fees are paid and with allowances, if married, they can receive £1,090 a year. On registration short service officers serve for a minimum period of five years, earning tax-free gratuities ranging from £1,400 to £2,600.

Further details of terms and conditions of service, pay, pensions and gratuities, from: Major-General J. C. Barnetson, O.B.E., Q.H.P., M.B., Deputy Director-General, Army Medical Services, The War Office (HN/2), London, S.W.1. Tel. No: GROsvenor 8040, Ext. 740.

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent **★** testimonials with short statement of experience and appointments held.

Applications should be sent at once if no closing date is given.

House Officers should submit a separate application for each post for which they apply. Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

★ SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

BOROUGH OF HARROW

APPOINTMENT OF MEDICAL OFFICER
OF HEALTH
to be also
AREA MEDICAL OFFICER
Middlesex County Council

Applications are invited from fully qualified medical practitioners for the post of Medical Officer of Health of the Borough, which will shortly become vacant on the retirement of Dr. Caryl Thomas.

The officer appointed will be required (under contractual arrangements between the Borough Council and the Middlesex County Council) to devote 60 per cent. of whole-time to the duties of County Council Area Medical Officer (including local School Medical Officer) Area No. 5, for which purposes he will be deemed to be an employee or authorized officer of the County Council.

Harrow is the largest Municipal Borough in England and Wales; and the Borough alone of the Middlesex Boroughs and Districts forms a complete unit, of itself (Area No. 5), for the purpose of administering certain services provided by Middlesex County Council, as Local Health Authority under Part III of the National Health Service Act, 1946. The Government is proposing in the recent White Paper to accept the recommendation of the Royal Commission that Harrow should remain as a Greater London Borough with its boundaries unaffected, with additional powers, including the health services provided by Local Health Authorities.

The salary scale is : £3,295 by £140 (1) and £120 (2) to £3,675 per annum. A car allowance in accordance with the "casual" user scale will be paid; and the successful applicant will be required to pass a medical examination, and to take up residence within the Borough within a reasonable time.

Applicants must have had an extensive experience in Public Health duties, and hold the Diploma in Public Health or its equivalent.

The successful candidate will, as to the duties of Medical Officer of Health of the Borough, be responsible, subject to the Public Health Officers' Regulations, 1959, to the Council of the Borough and/or its Public Health Committee; and as to Area Health duties, he will work under the direction of the County Medical Officer of Health and be responsible to the County Council through the Local Area Committee or the Divisional Executive as the case may be.

The appointment is superannuable, and subject to three calendar months' notice, in writing, on either side.

Applications, giving full details of qualifications and experience, together with names of three persons to whom reference may be made, should be sent to me, to be received not later than Friday, June 15, 1962.

Full details of the contractual arrangements between the two Councils and further details of the scope of the duties to be carried out for the County Council will be sent to each applicant.—David Pritchard, Town Clerk, Council Offices, Harrow Weald Lodge, Harrow. (6277)

CONOVID-E contains the same active ingredients as Conovid but in different proportions: Conovid-E tablets contain 2.5 mg. norethynodrel with 0.1 mg. ethinylloestradiol 3-methyl ether (EE3ME). Conovid tablets contain 5 mg. norethynodrel with 0.075 mg. EE3ME. The EE3ME content was shown to be critical by a trial in Birmingham using an experimental low dosage tablet. Trials in more than 1,500 women for over 9,000 cycles, using 2.5 mg. of norethynodrel with additional oestrogen (CONOVID-E), have, however, been very satisfactory.
