

Single-dose treatment for both

THREADWORMS AND ROUNDWORMS

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis.

"The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects." Lancet (1960), i, 256.

"Pripsen is a highly effective agent against ascariasis... of the 88 patients who completed the trial, 84% were cured by a single dose. The remaining 14... responded to repeated dosage in increasing amounts. Side-effects appeared in only one patient." S. Afr. med. J. (1962), 36, 240.

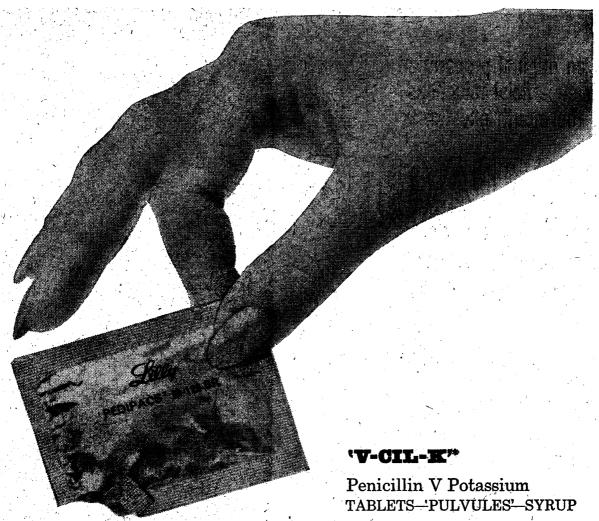

Pripsen.

GRANULES

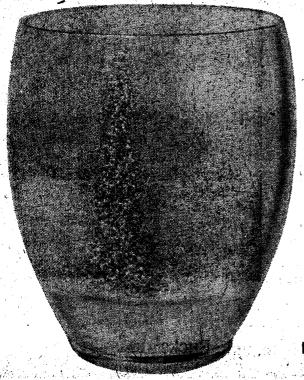

10 G. (Full dose); 80 G. and 450 G. (Dose measure enclosed).

A pleasant drink is obtained by mixing Pripsen granules in hot or cold milk or water

and now 'PEDIPACS' 'V-CIL-K'

Single-dose sachets containing 125 mg. in readily soluble granules. Convenient, economical, hygienic.

The 'V-Cil-K' range:

Tablets 60 mg. 125 mg. 250 mg.

'Pulvules' 125 mg. 250 mg.

Syrup 125 mg. in each 5ml.

when prepared.

'Pedipacs' 125 mg. in each sachet.

'V-Cil-K'—the oral penicillin proved by 5 years wide clinical use.

TARCORTIN FOR ECZEMA

Face Eczema March 24

A HEALING COMBINATION – TAR + HYDROCORTISONE

In Tarcortin cream the combination of tar with hydrocortisone has provided a preparation with spectacular results in cases of eczema and other dermatic affections—both sub-acute and chronic. Clinical trials have shown that the combination of tar with hydrocortisone is more effective than either preparation alone. The photographs show the response of a case of eczema to only two days' treatment with Tarcortin.

Tarcortin is supplied in 7gm and 15gm tubes containing 0.5% hydrocortisone and 5% special coal tar extract in a vanishing type base. Literature and samples are available on request.

Face Eczema March 26

ANTIBIOTIC-INDUCED DIARRHOEA*

There is good evidence in continental literature, for which further confirmation is being sought in this country, that this troublesome complication of broad-spectrum antibiotic treatment can be relieved or prevented by administering living antibiotic-resistant *Lactobacillus acidophilus* in the form of ENPAC.

The lactobacilli can be shown to establish themselves and multiply in the bowel, and their presence is inimical to that of pathogens, including, according to some reports, Salmonella species, and to Candida and staphylococci.

"Patients in hospital who have had an operation, and a course of 'broad-spectrum' antibiotics, sometimes develop diarrhoea which may be severe and even fatal."—Lancet Annotations, 25th February, 1961.

ORBENIN (BRL) SOBIUM CLOXACILLIS

ORAL PENICILLIN ACTIVE AGAINST RESISTANT STAPHYLOCOCCI

ORBENIN is indicated for immediate use in known or suspected resistant staphylococcal infections, and in mixed Gram-positive infections (e.g. infected burns) where resistant staphylococci may be present.

- Orbenin is stable to staphylococcal penicillinase and highly effective against 'resistant' staphylococci. Its activity is four times that of methicillin.
- Orbenin is also highly effective against other Gram-positive organisms, including streptococci, pneumococci and penicillin-sensitive staphylococci.
- Orbenin is bactericidal; it is acid-stable and well absorbed by either the oral or intramuscular routes.

Dosage by mouth is 500 mg. 6 hourly. Dosage by intramuscular injection is 250 mg. four to six hourly

ORBENIN is a product of British research at BEECHAM RESEARCH LABORATORIES LIMITED

PRENOMISER PLUS

a new development in the treatment of Bronchospasm

FACTS ABOUT THE PRENOMISER PLUS:

The Prenomiser Plus is a microaerosol presentation of two known drugs — isoprenaline sulphate and atropine methonitrate. One inhalation provides immediate and prolonged bronchodilatory effect — nearly four times as long as that of isoprenaline alone.

Prolonged Bronchodilatory Effect from One Inhalation restores confidence and helps prevent patients being overdependent on aerosol therapy.1

The New Valve and Metering Device ensures consistent accuracy of drug delivery throughout the 200 dose life of the aerosol container.

The Unique Design of the appliance ensures synchrony of inhalation with release of dose, thus achieving optimum penetration throughout the respiratory tree.

Protective Dust-Cap prevents accidental delivery of dose when not in use and helps to keep the mouthpiece clean.

In the Interests of Hygiene a new mouthpiece is given with each prescription for the Prenomiser Plus.

1Lancet, 1962, 2, 1019

PRESENTATION.

The Prenomiser Plus is a micro-aerosol presentation of isoprenaline sulphate B.P.o.1% w/w plus atropine methonitrate B.P.o.04% w/w in an inert propellant. Each aerosol container provides 200 doses. Simple instructions for use are enclosed with each Prenomiser Plus. Basic N.H.S. price 14/2.

to reduce the risk of potassium depletion

Periods of intensive diuresis, continuous administration of thiazide diuretics in severe oedema or hypertension, administration to debilitated patients with poor appetite, all may lead to the development of potassium depletion.

In such cases, and for patients undergoing digitalis therapy who are particularly sensitive to lowered potassium levels, the administration of HydroSALURIC-K will provide a reasonable safeguard against hypopotassaemia and its sequelae.

HydroSALURIC-K is supplied as pink, sugar-coated tablets containing 25 mg. hydrochlorothiazide and 572 mg. potassium chloride. The potassium supplement is contained in an enteric coating to avoid nausea and vomiting. Full information on dosage, administration, indications, precautions and bibliography is available on request.

HydroSALURIC-K is made in England by

A Combined Effort

The Russian troika, pulled by the combined effort of three horses, was a popular and safe means of transport. In antibacterial therapy, too, the combined effort of three sulphonamides is more effective and safe than that of a single sulphonamide, which accounts for the popularity of 'Sulphatriad' over the past fifteen years.

In 'Penitriad', the combined effort of three sulphonamides is enhanced by that of penicillin V-K, 'Penitriad' being effective against infections caused by both sulphonamide- and penicillin-susceptible organisms.

...do you recommend an external wedge on the shoes?

But the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's. As the diagram on the left clearly shows, any external wedge to heel disturbs the plane of forepart and heel. Surely it's more logical to have a wedge built-in between the inner and the outer sole—where it can correctly corset the foot, remain invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made—on remedial lasts specially adapted to accommodate the internal wedge. That is why they are the only practical and thoroughly effective solution to this problem.

Low-sodium Diets

Restriction of the sodium intake is sometimes unavoidable in cardiac or renal disease, or in pregnancy. Unfortunately, meals prepared without salt tend to be insipid and the diet may soon become monotonous.

Salt-free Marmite imparts a pleasant savoury taste to soups and stews and is therefore popular with patients who have to adhere to a low-sodium diet. It is also appreciated as a sandwich spread or as a flavouring for egg dishes. Moreover, it improves the nutritional value of the diet by providing all known factors of the vitamin B complex.

HUMBER SUPER SNIPE

The greatest value today in the field of luxury motoring

Striking a perfect balance between size and manoeuvrability, luxury and elegance, the new Super Snipe is understandably a popular choice among leading medical practitioners.

A more powerful 3-litre, 6-cylinder engine and improved suspension and gear change make swift, frequent journeys seem effortless, quiet and unhurried. Large, wide-opening doors and a step-down floor ensure easy entry and exit, while deep-sprung spacious leather seating gives complete, relaxing comfort at all times. A lockable, easily accessible dashboard compartment provides safe storage space for drugs and instruments. With front disc and large rear braking safety to match outstanding performance, reliability and improved styling, the Super Snipe creates with its owner a partnership of complete assurance. Remarkable value at its price: £1120 plus p.t. £233.17.11. Overdrive or fully-automatic transmission, individual front seats, power-assisted steering and whitewall tyres available as extras.

CRYSTAPEN

INJECTION · TABLETS · SYRUP

There is no swifter, more effective or more economical treatment for the majority of patients with acute otitis media than Crystapen (soluble penicillin G). Preferably it is given by injection, at least to commence treatment, or if one of the oral preparations is used large initial doses are recommended.

Crystapen is a Glaxo trade mark

TRANSVASIN RELIEVES MUSCLE SPASM

Muscle spasm caused by physical injury or rheumatic lesions is rapidly relieved by the application of Transvasin. The esters of nicotinic, salicylic and p-amino benzoic acids penetrate the skin and are concentrated at the point of injury. Transvasin is an effective and economical therapy.

Transvasin contains ethyl and n-hexyl nicotinate, ethyl p-aminobenzoate, 2% each and tetrahydrofurfuryl salicylate 14%. The N.H.S. price of the 30g. tube is 2/6d and the cost of an average application of the cream is under 1d.

PORTABLE 2-FLOW

OXYGEN THERAPY

AND FIRST AID RESUSCITATION SETS

Specially designed for personal use, this set provides an accurately controlled oxygen supply at flow rates of 2 or 4 litres per minute.

The selected flow is obtained simply by turning a clearly marked control knob and the rate of flow is maintained automatically to within very fine limits throughout the life of the cylinder.

Home Office approved oxygen cylinders of 120 or 200 litres capacity are available.

Every modern comfort... -and that includes her Anglepoise

Progressive hospital managements reckon they're on a good thing in Anglepoise . . . have done so for years. It solves the bed lighting problem . . . the weakest patient can operate it at a finger touch . . . it can be put exactly where required . . . moved out of the way when not needed-at a finger touch. It doesn't disturb nearby patients and it is silent in operation.

Anglepoise comes in a variety of sizes and base fittings . . . table, wall and trolley. It has many practical uses in Surgery, Dispensary and Consulting Rooms. If you would like to know more about this 1001-angle lamp, write today for illustrated booklets - free on request from Sole Makers:

THE ROYAL NAVY offers you MORE

You can serve almost anywhere in almost any field of Naval activity, combining your calling as a doctor with the stimulus of a life as a commissioned officer in the Royal Navy. You could serve in almost any vessel from a frigate to an aircraft carrier, sail with the fleet to the Far East or work with a squadron in the West Indies. You could apply your care to Royal Marines Commandos, among parachutists, frogmen or rock climbers. You could fly with the Fleet Air Arm as a specialist in aviation medicine or investigate the problems of deep diving and advanced submarine development. You could work in a laboratory, hospital or medical school; serve at home or abroad, on shore or afloat; or study any one of a variety of subjects ranging from radio-biology to tropical diseases. And throughout your service as a Naval Medical Officer you would be working with the finest equipment in complete clinical freedom -and perhaps a greater opportunity to exercise your versatility than would ever be possible in civilian life.

YOU CAN ENTER BY ONE OF THREE METHODS All schemes lead to

Short Service Commissions of 3-5 can apply for permanent commiss Surgeon Lieutenant.

MEDICAL DIRECTOR GENERAL OF THE NAVY

Admiralty, Lillie Road, London, S.W.6.

Rapid relief this winter for chilblains and coughs

PAVACOL SYRUP AND PASTILLES FOR COUGHS

Pavacol Syrup (Improved Formula)—a distinctively flavoured cough remedy containing papaverine and pholcodine. Papaverine relaxes the bronchi by direct action. Pholcodine, the new ingredient, is a central cough suppressant which is as effective as heroin (diamorphine), but without the disadvantages of that dangerous drug. Pholcodine is much less toxic even than codeine, and it does not cause constipation. Pavacol Syrup and Pavacol Diabetic Syrup are supplied in bottles of 4, 16, and 80 ozs.

Pavacol Pastilles—contain the powerful, wide-range, quaternary ammonium antiseptic, Octaphen, together with the antitussive compounds, papaverine and codeine, and the demulcents and volatile oils present in Pavacol Syrup. For the prophylaxis and treatment of bacterial and fungal infections of the mouth and throat—and for symptomatic treatment of cough. In tins of 24 pastilles.

ADAPRIN TABLETS FOR CHILBLAINS

Among predisposing factors to chilblains are assumed to be defective peripheral circulation and diminished coagulability of the blood.

Each Adaprin tablet contains nicotinamide (50 mg.) and acetomenaphthone (10 mg.) as the logical drugs to counteract these defects. Nicotinamide is preferred to nicotinic acid because of the unpleasant symptoms of rapid vasodilatation associated with the latter compound. Adaprin is non-toxic and may safely be given to children and adults for long periods for prevention. Relief from existing chilblains may be expected in a few days. In containers of 25, 100, and 500 tablets.

Pruritus and R.B.C.

A bland, sedative germicidal cream possessing powerful local anaesthetic properties. It is of great value in the treatment of eczematous conditions, pruritus, tinea and other skin infections due to bacteria or fungi.

The soothing effect produced on the application of R.B.C. in cases of intractable itching materially assists healing by promoting sleep and preventing rubbing and scratching.

HEARING COUNSELLORS LTD

53 GEORGE STREET, LONDON, W.I Tel.: WELbeck 84);

Signatories to the Code of Commercial Practice of the Hearing Aid Industry approved by the National Institute for the Deaf.

In the Royal Army Medical Corps you can practise medicine in very good conditions. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work, and devote more time to the care of your patients. There is great scope for the family doctor, particularly overseas, as the Royal Army Medical Corps looks after a very large number of women and children.

Great importance is attached to post-graduate study, and, during their service, permanent officers are given the opportunity of sitting for diplomas, such as D.C.H., D.Obst.R.C.O.G.

There is a large and comprehensive hospital service, consisting of thirty military hospitals at home and overseas, with consultant opinion readily available to you. As a general practitioner you are welcomed in the hospital to consult with your brother officers and follow up your cases.

Married quarters are provided, and you can count on regular off-duty periods with opportunities for games and social activities; there is generous annual leave on full pay without the trouble or expense of finding a locum.

FULLY REGISTERED PRACTITIONERS may apply for permanent or short service commissions. Minimum entry salary: £2,000 p.a. There is opportunity for specialist training. Permanent officers are guaranteed employment to age 65.

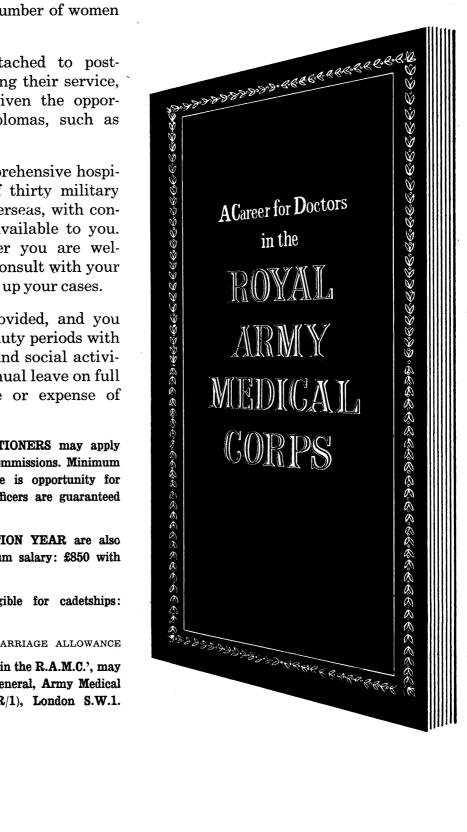

DOCTORS IN PRE-REGISTRATION YEAR are also eligible for commissions. Minimum salary: £850 with free board and lodging.

MEDICAL STUDENTS are eligible for cadetships: Minimum salary: £890 p.a.

ALL SALARY SCALES INCLUDE MARRIAGE ALLOWANCE

Good General Practice

APPOINTMENTS

Applicants should state name, address, age, nationality, qualifications, and enclose (unless otherwise specified) one copy each of 3 recent \star testimonials with short statement of experience and appointments held. Applications should be sent at once if no closing date is given. House Officers should submit a separate application for each post for which they apply. Canvassing of members of the Board or Advisory Appointments Committee will lead to disqualification (Statutory Instrument 1950, No. 1259, N.H.S.).

** SERVICE MEMBERS may have difficulty in supplying recent testimonials, but this should not deter them from applying.

SALARY SCALES OF JUNIOR GRADES OF HOSPITAL MEDICAL STAFF

Registrar Grades, Whole-time

(a) REGISTRAR. Posts obtainable normally not less than one year after full registration as a medical practitioner and held normally for two years: £1,250 in the first year; £1,400 in the second and any subsequent years. Deduction of £215 per annum for compulsory residence; £255 per annum for voluntary residence.
(b) SENIOR REGISTRAR. Posts obtained normally not less than three years after full registration and held normally for four years; £1,500 by £100 to £1,800 in the fourth year; thereafter, £1,900 in the fifth and sixth years; £2,000 in the seventh and eighth years; £2,100 in the ninth and any subsequent years. Deduction of £250 per annum for compulsory residence; £275 per annum for voluntary residence.

Other Grades, Whole-time

(a) HOUSE OFFICERS. Each post in this grade shall be tenable for six months.

£675 per annum for the first post held; deduction of £155 per annum for compulsory residence or £195 per num for voluntary residence; £750 per annum for the second post held; deduction of £160 per annum for compulsory residence or £195

#750 per annum for the second post held; deduction of £160 per annum for compulsory residence or £195 per annum for the third and any subsequent posts held; deduction of £165 per annum for compulsory residence;

#825 per annum for the third and any subsequent posts held; deduction of £165 per annum for compulsory residence or £195 per annum for voluntary residence; provided that the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that he remuneration of any officer holding his first post in the National Health Service as a House Officer shall be £750 per annum if they are satisfied that the officer has held at least one hospital post outside, of not less than six months' duration, involving clinical responsibilities equivalent to those of house posts in the National Health Service and supervised by appropriate specialist staff; provided further that where a House Officer has previously held two such outside posts the employing authority (subject in the case of a Hospital Management Committee to the consent of the Regional Hospital Board) shall have discretion to determine that his remuneration shall be £825 per annum. Any House Officer who on first appointment is paid at the appropriate rate to the second or third post held in accordance with the above provision shall be paid at the third post rate for any subsequent appointments in this grade.

(b) \$ENIOR HOUSE OFFICERS. Posts obtained by fully registered medical practitioners and held normally for one year only: £1,050 on appointment at age 27 or under; £1,100 on appointment at age 28 or over. Deduction of £180 per annum for compulsory residence.

MEDICAL RESEARCH COUNCIL

JUNIOR RESEARCH **FELLOWSHIPS**

1963-64

The Medical Research Council invite applications for Junior Research Fellowships, tenable at centres in the United Kingdom during the academic year 1963-64.

year 1963-64.

The Fellowships will ordinarily be restricted to British subjects resident in the United Kingdom who intend to make their careers in medical or dental research in the United Kingdom. The awards are intended primarily for medical graduatts who have completed their pre-registration hospital appointments, or for young dental graduates of similar standing. They will also be open to science graduates with postgraduate degrees who wish to have a further period of specialized research experience.

The Fellowships are tenable in the departments in which the cand dates are already working or at other suitable and a submit to the cand dates are already working or at other suitable to the submit to the submit

Forms of application for these Fellowships may be obtained from the Secretary, Medical Research Council, 20 Park Crescent, London W.1, with

whom applications should be lodged not later than March 1. 1963.

MEDICAL RESEARCH COUNCIL

FELLOWSHIPS IN CLINICAL RESEARCH

The Medical Research Council invite applications for a further series of Fellowships in Clinical Research tenable at centres in the United Kingdom during the academic year 1963-64.

These Fellowships are open to suitably qualified medical or dental graduates who desire to prepare themselves for a career in clinical research. In general, it is interded that each Fellow appointed under the scheme should be given an opp-trunity, as part of his training for clinical research, to study methods of research in the basic subject most relevant to his particular clinical interest, and to broaden his experience by working in other departments in the United Kingdom In appropriate cases, arrangements can be made for Fellows to work in the Council's own research establishments, including the National Institute for Medical Research.

The awards will be made for a period of one year in the first instance and will be renewable annually up to a maximum of three years in all, subject to satisfactory progress. Stipend will be within the range £1,200 by £100 to £1,700 per annum, the point of entry being determined according to age qualifications and experience, with superannuation provision in addition.

Candidates for these Fellowships, which are ordinarily restricted to British subjects resident in the United Kingdom, must be medically or dentally qualified and clinically experienced, and should preferably have worked for a period in a department in which clinical research was in progress. Applicants will be invited to submit their own proposals as to type and place of work, but the Council will be glad to addisc successful candidates on the additional session of suitable centres of study and experience where the desired training and experience can be obtained.

Applications must be sponsored in each case by the head of the appropriate department in the andidate's University Medical or Dental School, and an undertaking will be that a suitable academic post clinical department will be available to the candidate in that institution on satisfactory completion of the period of study under the Fellowship.

Forms of application for these Fel lowships may be obtained from the Secretary, Medical Research Council, 20 Park Crescent, Lord in W.I. with whom applications should be lodged as soon as possible, and in any event not later than March 1, 1963. (1425)

THE MEDICAL WOMEN'S FEDERATION

Applications invited for THE CHRISTINE MURRELL MEMORIAL FELLOWSHIP AWARD value £150. to a woman medical practitioner registered in one of the countries of the British Commonwealth of Nations and on the British Medical Register The Award will be made for research, or undertaking of secretarial expenses of research work, or the purchase of equipment required therefor. The Award will be for one year and be renewable for one further year.

one year and be renewable for one further year.

Frm of application may be had on request to the Secretary. The Medical Women's Federation, Tavistock Hills North, Tavistock Square, London W.C.I., and should be returned not later than April 30, 1963 It should be accompanied by a plan of the proposed subject of research to be undertaken. The names of three referees, should be supplied. (1719)

UNIVERSITY OF OXFORD

RADCLIFFE TRAVELLING
FELLOWSHIP, 1963
