New (2nd) Edition

GASTROENTEROLOGY

Volume I: ESOPHAGUS AND STOMACH

By Henry L. Bockus, M.D.

Emeritus Professor of Medicine, University of Pennsylvania Graduate School of Medicine.

Brought completely up to date to incorporate the tremendous advances made within the past decade, the new (2nd) edition of this monumental three-volume work constitutes one of the world's great books on gastroenterology.

In the introductory section on Examination of the Patient, there is a new discussion on the oral manifestations of internal disease. Dr. Bockus describes in detail the steps in taking the history, conducting the physical examination, using laboratory tests and other diagnostic methods.

Section II on the Esophagus and Diaphragm includes a new chapter on tests used in studying esophageal function and disease. Topics range from physiology of the esophagus to treatment of such disorders as stenosis, tumours, fungus infections, perforations and diaphragmatic hernia.

Section III on Affections of the Stomach covers every step—etiology to treatment—for disorders ranging from acute and chronic gastritis to malignant tumours and ruptures. Special diagnostic aids are described. This section of Volume I also covers the factors influencing prognosis and the management of complications. Over 150 pages are devoted entirely to modern methods in diagnosis and management of the peptic ulcer. Volume I: £8 15s.

Volume II (2nd Edition) will be published in September 1963.

Volume III (2nd Edition) will be published in January 1964.

W. B. SAUNDERS COMPANY

12 Dyott Street, London, W.C.1

Cool and calm, (under hot arc lights), a surgeon works without pause. In Maternity a baby takes a first breath of clean, temperature-right air. Patients sleep in an atmosphere that makes sleeping easier. In wards, in labs, in store-rooms, in therapy departments, people, equipment and supplies are better for an ideal, controlled, dehumidified climate. This is Chrysler Airtemp in action. Chrysler Airtemp: the world's finest, more reliable Air Conditioning Equipment...to create a planned climate.

PACKAGED UNITS: neat, compact almost silent self-contained units in the 3 through 35 h.p. range. A 3 h.p. model takes up only 20" x 35" floor space. Or where necessary.

SPLIT SYSTEMS: the Air Handling Unit Section is incorporated in or adjacent to the area to be conditioned, with remote Water or Air Cooled Condensing Units.

SPECIAL PROBLEMS—SPECIALIST ADVICE Two main considerations are involved in Hospital Air Conditioning: creating the ideal climate for the well-being of patients and staff, and meeting the highly-specialised climatic requirements of each separate section and department. Please contact our free Advisory Service which will be pleased to help solve both these problems.

You'll like a Volkswagen for what it hasn't got

- NO RADIATOR to leak, burst or freeze up. Radiators are out of date as far as Volkswagens are concerned.
- NO WATER. That's out of date, too. Volkswagen engines are cooled by air.
- NO ANTI-FREEZE. Volkswagens don't need it; air can't freeze.
- NO HOSES. You don't replace perished hoses on a Volkswagen. There aren't any to replace.
- NO WINTER STARTING PROBLEMS.
 Volkswagens start instantly, at a turn of the key, even after weeks out in the coldest weather.

After eighteen years of development, the Volkswagen today is the most highly evolved and reliable vehicle in the world. For this reason, over 1,000,000 people now buy Volkswagens every year.

Bottle of 30 tablets 6/6.

Basic N.H.S. price. Subject to P.T.

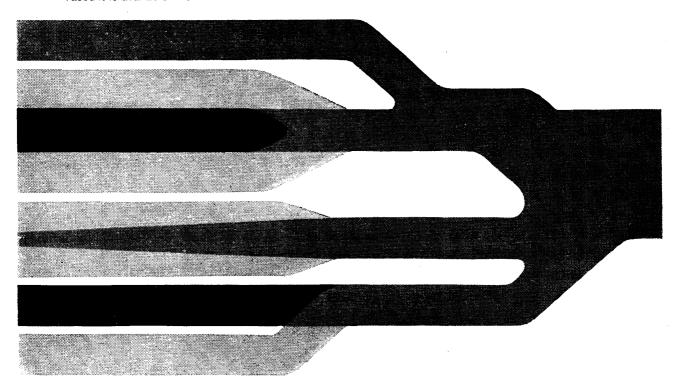

An increased flow of blood to the tissues with Vasculit For the prophylaxis and treatment of chilblains peripheral vasodilators are commonly prescribed. Vasculit is one of the most effective of these. It increases blood flow to muscle as well as to skin.¹ Side effects, if they occur at all, are minor and transient. The basic N.H.S. cost of a week's treatment with Vasculit at a dose of two tablets four times a day is 5/2. Vasculit is of value in the treatment not only of chilblains but also of many other vasomotor and peripheral vascular disorders. The only contra-indications to its use are recent myocardial infarction and angina pectoris.

Further information on the use of Vasculit will be supplied on request.

a new antacid palatable effective economical

Alcin is a new antacid offering several important advantages. It provides safe and effective treatment of symptoms associated with gastric hyperacidity and peptic ulceration.

Palatability Having an absence of chalkiness and an agreeable flavour, Alcin is nonnauseating.

Buffering Activity Alcin not only rapidly neutralises excess acid, but at the same time its sustained buffering activity maintains the level of acidity of the gastric contents within the desired range.

Safety Alcin is safe for prolonged administra-

tion. There is no risk from overdosage as Alcin cannot cause either alkalosis or acid rebound.

No Digestive tract ill-effects Alcin has no known laxative or constipating effects.

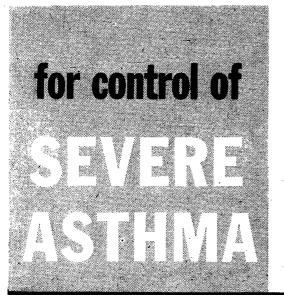

Economy Alcin is economical in use. The basic N.H.S. cost of 50 tablets is $1/9\frac{1}{2}d$.

Composition: Each tablet contains 360 mg. anhydrous co-prepared sodium magnesium aluminium silicate and basic magnesium aluminate.

Samples available on request to Reckitt & Sons Limited, Pharmaceutical Department, Hull.

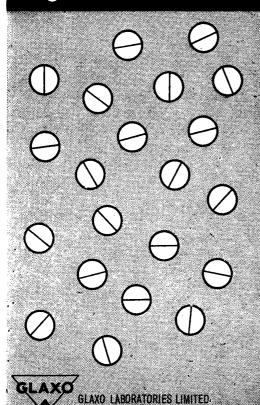

Reckitt & Sons Limited. 17,11

Betnelan (betamethasone) is the recent anti-inflammatory steroid developed by Glaxo. It has proved remarkably effective in the treatment of severe asthma when other measures have proved inadequate.

Although dosage should be varied to suit the individual, in general practice a short-term course of 21 Betnelan tablets given over 6 days, is usually sufficient to achieve control. Side effects are no problem in short-term use and treatment is inexpensive.

Betnelan

When conventional treatment of less severe asthma is interrupted by an acute attack, short-term Betnelan therapy can restore control. When the attack is extremely severe (status asthmaticus) all recognised measures which may include injectable corticosteroids (Betnesol Injection is recommended) should be taken, at least initially. At the same time oral treatment with Betnelan can be started to maintain control. Betnelan is presented as scored tablets of 0.5 milligrams betamethasone in bottles of 30, 100 and 500. Half-strength tablets of 0.25 mg are also available in similar quantities.

NEW—soluble corticosteroid tablets

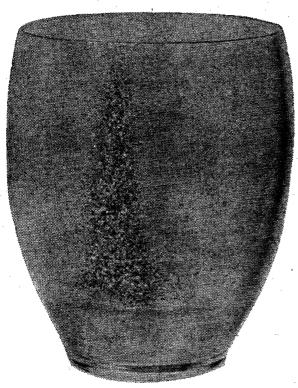

BETNESOL TABLETS

Betamethasone disodium phosphate in a form which dissolves spontaneously in water to provide a palatable solution. This new form of betamethasone ensures maximum efficiency of absorption and greater tolerance in patients liable to dyspepsia.

The names Betnelan and Betnesol are Glaxo trade marks.

the importance of it being

Terra-Cortril* eye - ear suspension

Where there is the remotest risk of damage to the cornea or to the outer ear due to Ps. aeroginosa, the only really effective prophylactic is polymyxin. Together with Terramycin and hydrocortisone, polymyxin is the third major constituent of Terra-Cortril eye ear suspension.

Thus combined, these three constituents provide the broadest and most certain therapeutic action against eye and ear infections.

The simplest and most pleasant way of ensuring an adequate vitamin C intake in such cases is by giving Ribena. This natural product contains 45% of pure blackcurrant juice and provides not less than 20 milligrams of vitamin C per fluid ounce. The energy value is 83 Calories per fluid ounce.

Ribena

Which would you recommend for patients with arterial disease?

In planning diets for patients with arterial disease and coronary heart disease, many doctors recommend the substitution of a vegetable fat to aid in lowering the patient's serum cholesterol level. Look carefully at the two bottles above: which would you recommend to a patient? **ANSWER**: They are identical. The bottle on the right contains Mazola Corn Oil, labelled with its fatty-acids percentages. The bottle on the left contains *exactly the same oil*, and bears the label under which it is sold in thousands of grocery stores throughout the country. (Where your patients can buy it easily and inexpensively.) Mazola Pure Corn Oil: 3/7 for 16 fluid ounces.

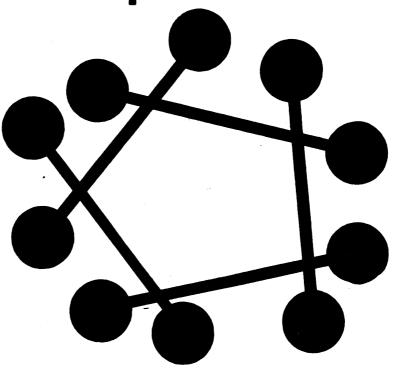

Reliable relief with Buscopan

The monthly problem of spasmodic dysmenorrhoea can be solved in all but a few difficult cases by antispasmodic therapy with Buscopan.^{1,2} Buscopan is not an analgesic. Its effect is specific as it has a direct action on the para-sympathetic innervation of the uterus where it relieves the spasm without significant side-effects.

Treatment with Buscopan should ideally be commenced two or three days before the anticipated onset of menstruation. The normal dose is two tablets three times daily.

New for chronic bronchitis

Two recent reports have confirmed Alupent's effectiveness in the relief and prevention of bronchospasm associated with chronic bronchitis. 1. 2.

Even greater convenience of use is now added to its clinical advantages by the introduction of the ALUPENT METERED AEROSOL. The ALUPENT METERED AEROSOL delivers a dry spray of minute but separate particles of Alupent into the inhaled airstream and thence directly to the surfaces of the bronchioles. Its unique metering valve ensures that dosage is precise, consistent, and economical.

To the chronic bronchitic patient the ALUPENT METERED AEROSOL represents an effective, unobtrusive and instantly-to-hand prophylaxis against bronchospasm or treatment of an actual attack.

Counteracting protein loss in the elderly

In the elderly, the lack of interest in food is both cause and result of failing energy and vitality.

ORABOLIN ensures full use of such nitrogen as is available in the food, thus counteracting body protein loss; the renewed vigour and appetite lead to improved independence and gain in weight.

ORABOLIN is effective in doses as low as 0.05 mg. per kilo body weight, well tolerated and free from liver toxicity or other harmful effects.

why CRYSTANYCIN

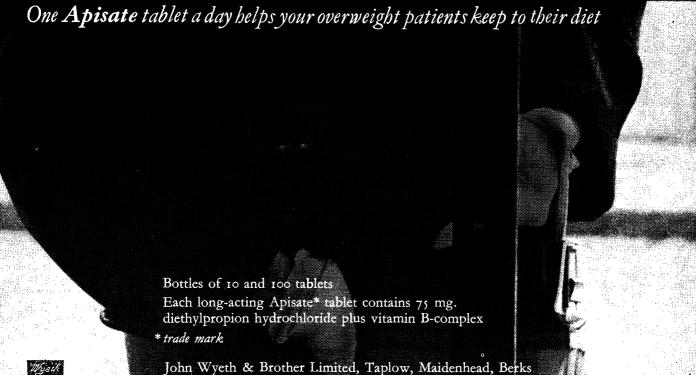

Because its two antibiotic components frequently have a synergistic effect, providing an intensive bactericidal attack beyond the scope of either substance used alone. The penicillin in Crystamycin is in the soluble sodium form to exert a swift bactericidal effect. Streptomycin has been selected for its decisive effect on gram-negative organisms. And finally Crystamycin is surprisingly low in cost. Effectiveness plus economy—reasons why Crystamycin...

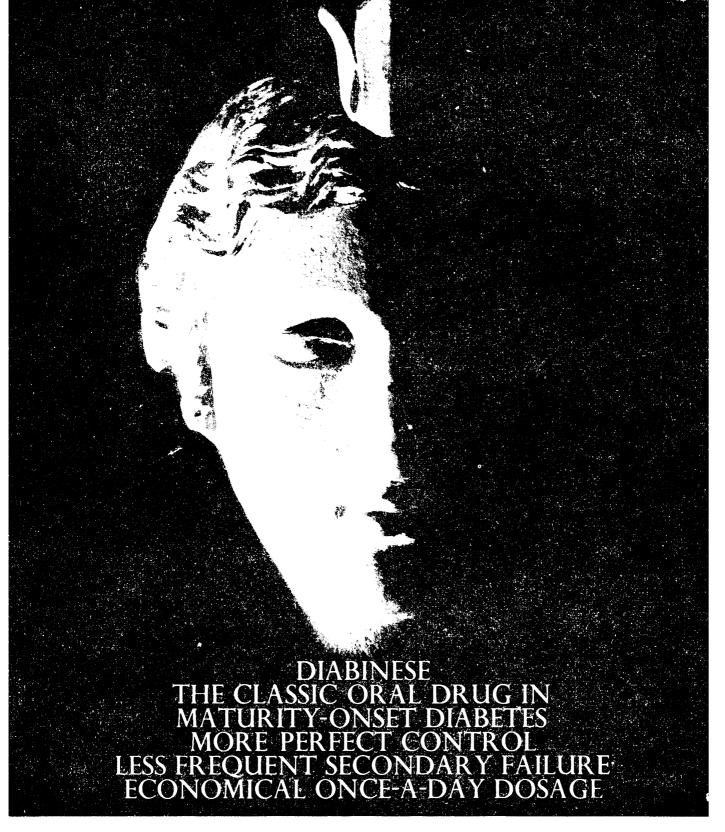

is so often chosen to put a swift end to bacteria

ABBOTT LABORATORIES LTD . QUEENBOROUGH . KENT

Periods of intensive diuresis, continuous administration of thiazide diuretics in severe oedema or hypertension, administration to debilitated patients with poor appetite, all may lead to the development of potassium depletion.

In such cases, and for patients undergoing digitalis therapy who are particularly sensitive to lowered potassium levels, the administration of HydroSALURIC-K will provide a reasonable safeguard against hypopotassaemia and its sequelae.

HydroSALURIC-K is supplied as pink, sugar-coated tablets containing 25 mg. hydrochlorothiazide and 572 mg. potassium chloride. The potassium supplement is contained in an enteric coating to avoid nausea and vomiting. Full information on dosage, administration, indications, precautions and bibliography is available on request.

more effective diuretic programme

In a comparative study* of hospital patients with oedema, "combined spironolactone and chlorothiazide therapy was significantly more effective than chlorothiazide alone." The diuretic response was enhanced, and the effect of chlorothiazide on potassium balance diminished by the concomitant administration of spironolactone. "The additive diuretic effect of combined spironolactone and chlorothiazide therapy constitutes further evidence that these drugs interfere with separate sodium reabsorptive mechanisms."

THE

ROYAL NAVY offers you MORE

YOU CAN SERVE almost anywhere in almost any field of Naval activity, combining your calling as a doctor with the stimulus of a life as a commissioned officer in the Royal Navy. You could serve in almost any vessel from a frigate to an aircraft carrier, sail with the fleet to the Far East or work with a squadron in the West Indies. You could apply your care to Royal Marines Commandos, among parachutists, frogmen or rock climbers. You could fly with the Fleet Air Arm as a specialist in aviation medicine or investigate the problems of deep diving and advanced submarine development. You could work in a laboratory, hospital or medical school; serve at home or abroad, on shore or afloat; or study any one of a variety of subjects ranging from radio-biology to tropical diseases. And throughout your service as a Naval Medical Officer you would be working with the finest equipment in complete clinical freedom - and perhaps a greater opportunity to exercise your versatility than would ever be possible in civilian life.

YOU CAN ENTER BY ONE OF THREE METHODS All schemes lead to Short Service Commissions of 3-5 years' duration. Holders of such commissions can apply for permanent commissions after one year following appointment as Surgeon Lieutenant.

In the Royal Army Medical Corps you can practise medicine in very good conditions. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work, and devote more time to the care of your patients. There is great scope for the family doctor, particularly overseas, as the Royal Army Medical Corps looks after a very large number of women and children.

Great importance is attached to postgraduate study, and, during their service, permanent officers are given the opportunity of sitting for diplomas, such as D.C.H., D.Obst.R.C.O.G.

There is a large and comprehensive hospital service, consisting of thirty military hospitals at home and overseas, with consultant opinion readily available to you. As a general practitioner you are welcomed in the hospital to consult with your brother officers and follow up your cases.

Married quarters are provided, and you can count on regular off-duty periods with opportunities for games and social activities; there is generous annual leave on full pay without the trouble or expense of finding a locum.

FULLY REGISTERED PRACTITIONERS may apply for permanent or short service commissions. Minimum entry salary: £2,000 p.a. There is opportunity for specialist training. Permanent officers are guaranteed employment to age 65.

DOCTORS IN PRE-REGISTRATION YEAR are also eligible for commissions. Minimum salary: £850 with free board and lodging.

MEDICAL STUDENTS are eligible for cadetships: Minimum salary: £890 p.a.

ALL SALARY SCALES INCLUDE MARRIAGE ALLOWANCE

The booklet, 'A Career for Doctors in the R.A.M.C.', may be obtained from The Director General, Army Medical Services, The War Office (HNR/4), London S.W.1. Tel: Gro 8040. Ext. 740.

Welldorm (dichloralphenazone) leads the trend towards safer hypnotics and sedatives. Welldorm is chloral hydrate—the safest of the non-barbiturate hypnotics—in its most acceptable and best tolerated form. Welldorm gently induces natural sleep without hangover or drowsiness next day. It has a unique record of freedom from toxic side-effects. It is supremely safe even in the very young and the very old.

Tablets of 10 grains (Paediatric, 2½ grains). Elixir—2½ grains per teaspoonful

Welldorm is known as 'Bonadorm' in Austrália and 'Dormwell' in the rest of the British Commonwealth

NORTH CANTERBURY HOSPITAL BOARD

Christchurch, New Zealand

POSITION OF MEDICAL SUPERINTENDENT-IN-CHIEF

Applications are invited from qualified medical practitioners of the British Commonwealth of appropriate standing for the position of Medical Superintendent-in-Chief.

The Medical Superintendent-in-Chief is the Board's chief medical administrative officer and the post is, widely interpreted, mainly wholly administrative. The position is a whole-time one, without the right of private practice. The Board is responsible for public hospital services in an area serving a population of 274,000. It administers 22 institutions comprising three general hospitals, three old people's homes, a sanatorium, a children's home, a maternity hospital, and thirteen country hospitals, a grand total of approximately 1,536 available beds. Extensive outpatient facilities are provided in Christehurch and well-developed specialties are spread over the three major hospitals located in Christchurch city.

The salary scale, commencing rate and maximum will be determined in accordance with the provisions of the Hospital Employment Regulations, bearing in mind the qualifications, experience, status and ability of the appointee. The scale will be one of the following: £N.Z.2,800/£N.Z.3,100 per annum, £N.Z.3,100/£.N.Z.3,500 per annum.

Liberal grants towards transport expenses to New Zealand for an appointee, his wife and dependent children, will be paid to a successful applicant resident in the United Kingdom or Australia conditional on a bond of at least two years' service.

Conditions of appointment, including details required in support of applications, obtainable on request from the undersigned or from New Zealand House, London. Applications close at 9 a.m. on Wednesday, March 27, 1963. All overseas correspondence should be forwarded by airmail.—J. G. Laurenson, Secretary.

ROTATING INTERNSHIPS. WEST SUB-urban Hospital, Oak Park, Illinois, U.S.A. 400-bed community hospital in pleasant suburb adjoining city of Chicago. Salary is \$400 per month. Transportation from Eurape provided with one-year contract. Round trip transportation with two-year contract. Applicants must have passed American Medical Qualification Examina-tion. Please contact Dr. Joseph B. Moles, 518 North Austin Boulevard, Oak Park, Illinois, U.S.A. (3470)

FARM HOLIDAYS. — 1963 GUIDE covering Britain's Best Farm and Country Guest Houses. Full board from £5 per week. 2,000 reviews. Send 4s. 3d. Farm Guide. 18 High Street, Paisley.

FOR PEOPLE UNACCUSTOMED to taking caravan holidays, the Dinas Country Club offers a new experi-ence, having only 160 caravans in 50 secluded acres on the beautiful Pembrokeshire coast. At this exclusive club you will meet many pro-fessional men "en famille." The 14th-century club house is renowned for its cuisine, and offers every amenity, including pony trekking. Caravans may be rented or pur-chased, or if you own a caravan rent only a site. Associated with the club is the Newport Bay Park—the sea "on its doorstep." For details write to: The Dinas Country Park Co. Ltd., Dinas Cross, Nr. Newport, Pembs.

150 mg. CAPSULES 2 b.d.

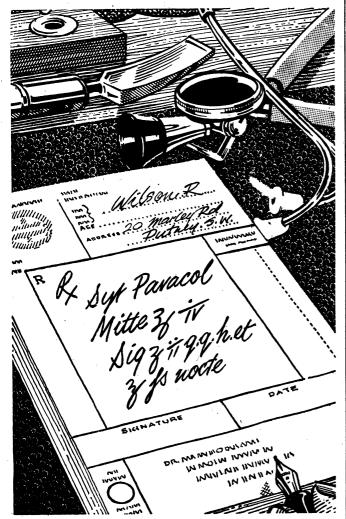

LEDERLE LABORATORIES

a division of

CYANAMID OF GREAT BRITAIN LTD

PAVACOL

an economical prescription for effective treatment of Coughs and Bronchitis

ECONOMY: The cost of Pavacol at the dispensing pack rate to chemists is only 7d. per fluid ounce.

- DUAL ACTIVITY: Pavacol relieves Cough by acting in two ways:—

 1 The pholocdine content exhibits a cough suppressant effect comparable with that of Heroin but without the latter's disadvantages in being addictive and constipating;
 - 2 The Papaverine content relaxes plain muscle by direct action and the resultant bronchodilatation makes it easier for the patient to cough up sputum.

DIABETIC SYRUP ALSO AVAILABLE—Pavacol Diabetic contains the same ingredients as ordinary Pavacol Syrup but carbohydrates are omitted: Indications, dosage and price are identical.

Literature and professional samples available on request.

For the true connoisseur...

Domecajs

CASINO

If your palate appreciates an Amontillado sherry, of very fine character, try "Casino."

Aged in Pedro Domecq's lodges in Spain, it is something quite unique in Amontillado's. Delicate, tempting, satisfying, there is nothing quite like Domecq's "Casino."

Sole Importers (Wholesale only) Luis Gordon & Sons Ltd., 12 Hobart Place, London S.W.1.

Availability of Vitamins in Yeast

Deficiencies of single factors of the Vitamin B Group do not occur. Accordingly, even if a deficiency condition appears to result from the lack of an individual factor of the group and it is considered necessary to give intensive treatment with this factor, the entire Vitamin B Complex should always be administered concurrently.

It is, however, extremely important, in view of suggestions in recent publications, that the vehicle selected as a source of the entire B Complex does not withhold its vitamin content from the patient.

Human experiments show that the rich, natural vitamin potency of Aluzyme is totally available to the human system.

• Aluzyme is not advertised to the public and may be prescribed under J.S.C. Classification Category "S."
