

# THE MEDICAL SIGKNESS SOCIETY

the specialist Insurance Company for the Medical and Dental Professions provides the particular insurances you need at every step in your career.

As a young general practitioner you may need to provide for a family and your children's education. There are specially designed policies for this and, of course, the well known Sickness and Accident Policies that provide an income when you are ill.

Remember, the Medical Sickness Society belongs to the Medical and Dental professions:

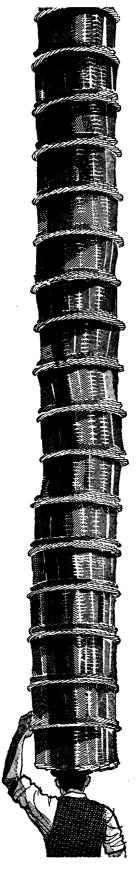

Non-Cancellable, Long Term
SICKNESS AND
ACCIDENT INSURANCES
with bonuses allotted
irrespective of claims.
LIFE ASSURANCES
Whole Life, Endowment,
Family Income,
Educational and
Children's Deferred
Policies.
PENSION POLICIES
Special Policies for

CAR FINANCE through our Subsidiary Company

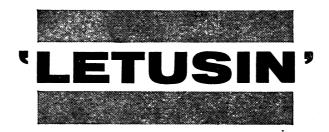

Students and Newly Qualified Practitioners.

# when a cough could upset the picture

### saves the situation

When control of non-productive cough is called for, 'Letusin', a new suppressant, will provide the answer. Laevopropoxyphene, the "single-entity" active ingredient, is specific for cough. 'Letusin' is safe and well tolerated. Unlike codeine, it permits normal expectoration and does not give rise to constipation or sedation.

In acute and chronic respiratory conditions remember

# To treat oedema and hypertension

AN ORAL DIURETIC
OF HIGH POTENCY,
LONG DURATION
OF ACTION, AND
LOW TOXICITY

Enduron is the Abbott trade mark for methyclothiazide, a new oral diuretic agent. Chemically, Enduron is a member of the thiazide family of diuretics.

The predominant effects of Enduron are diuresis, natruresis, and chloruresis. Serum potassium levels are little affected. Although the excretion of sodium is greatly enhanced, the excretion of potassium is not increased proportionally. Consequently, potassium depletion infrequently presents a problem in patients treated with Enduron. Clinically Enduron offers several important advantages when compared with the older thiazides: Enduron is highly potent; 10 mg. produce as great a natruresis as the peak effect of any available thiazide. Enduron has a duration of effect of at least 24 hours—longer than most thiazides—affording satisfactory therapy with one dose daily.

Enduron leads to greater sodium excretion per unit of potassium excreted and to less total potassium loss than many other thiazides.

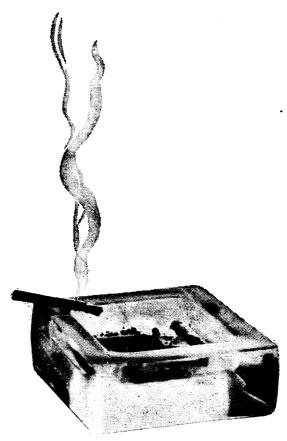

2.5 mg. Enduron tablets are available in bottles of 25 and 100.5 mg. Enduron tablets also in bottles of 25 and 100. Basic NHS prices 3/9 and 6/9 per 25.

POWERFULLY GENTLE

In the diuretic range, Nephril exhibits high antihypertensive activity, achieving rapid responses in terms of lowered blood pressure and improvement in symptoms. Nephril also secures prompt reduction in oedema. In hypertension, Nephril is clinically effective in doses as low as 1 mg. (one tablet) daily; its diuretic activity becomes significant within two hours and reaches its peak within six hours. Once-a-day dosage normally suffices.

rapid, intense activity . . . excellent tolerability . . . once-a-day dosage

Welldorm (dichloralphenazone) leads the trend towards safer hypnotics and sedatives. Welldorm is chloral hydrate—the safest of the non-barbiturate hypnotics—in its most acceptable and best tolerated form. Welldorm gently induces natural sleep without hangover or drowsiness next day. It has a unique record of freedom from toxic side-effects. It is supremely safe even in the very young and the very old.

Tablets of 10 grains (Paediatric, 2½ grains). Elixir—2½ grains per teaspoonful

# Weather BEATEN

Enjoy a new freedom with the Volkswagen. Freedom from garaging, from worry over weather deterioration. Freedom to leave your car wherever you like, whatever the weather.

Every VW has three coats of baked enamel—a lasting lustrous all-weather finish—that seals and protects your investment. No wonder owners say "a Volkswagen is its own garage".

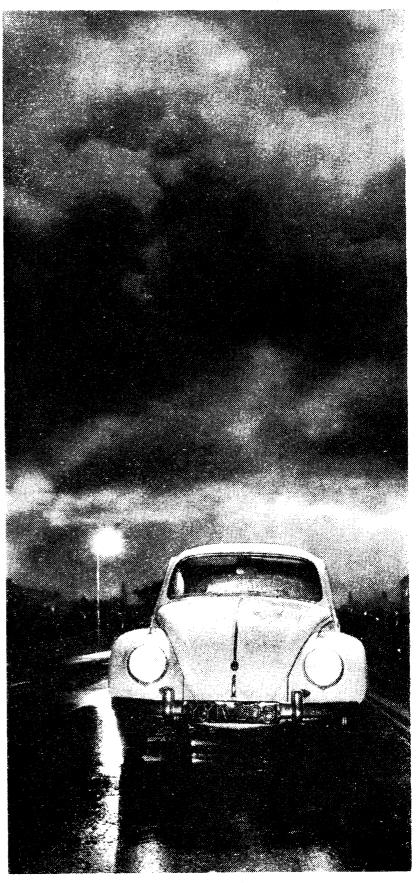

Your VW is designed to be left out, all night, in all weathers, and to give you an instant get away under any conditions. The engine is air cooled and there's nothing to freeze. No water. No radiator.

Fifteen years of continuous improvement make to-day's VW the most highly developed light car on the road—the most reliable and satisfying light car to own. All independent suspension, synchromesh on all four forward gears, built-in heater, demisters, windscreen washers—they're all part of the Volkswagen.

In addition, you'll enjoy an immediate spare parts service, with factory trained mechanics in all parts of the country, and the highest resale value in the world. Ask any one of the 6 million owners.

# a new antacid palatable effective economical

Alcin is a new antacid offering several important advantages. It provides safe and effective treatment of symptoms associated with gastric hyperacidity and peptic ulceration.

Palatability Having an absence of chalkiness and an agreeable flavour, Alcin is non-nauseating.

Buffering Activity Alcin not only rapidly neutralises excess acid, but at the same time its sustained buffering activity maintains the level of acidity of the gastric contents within the desired range.

Safety Alcin is safe for prolonged administra-

tion. There is no risk from overdosage as Alcin cannot cause either alkalosis or acid rebound.

No Digestive tract ill-effects Alcin has no known laxative or constipating effects.

**Economy** Alcin is economical in use. The basic N.H.S. cost of 50 tablets is  $1/9\frac{1}{2}d$ .

**Composition:** Each tablet contains 360 mg. anhydrous co-prepared sodium magnesium aluminium silicate and basic magnesium aluminate.

Samples available on request to Reckitt & Sons Limited, Pharmaceutical Department, Hull.

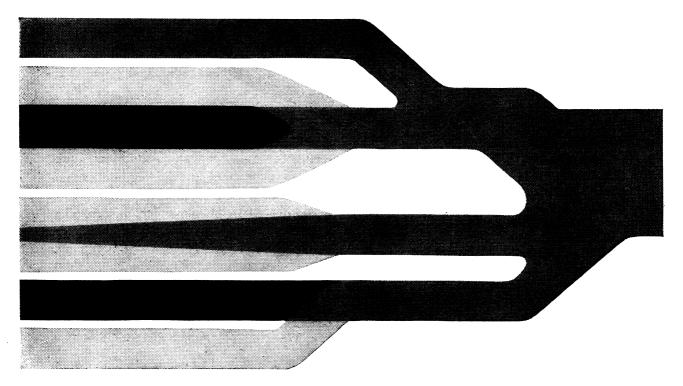

An increased flow of blood to the tissues with Vasculit For the prophylaxis and treatment of chilblains peripheral vasodilators are commonly prescribed. Vasculit is one of the most effective of these. It increases blood flow to muscle as well as to skin.¹ Side effects, if they occur at all, are minor and transient. The basic N.H.S. cost of a week's treatment with Vasculit at a dose of two tablets four times a day is 5/2. Vasculit is of value in the treatment not only of chilblains but also of many other vasomotor and peripheral vascular disorders. The only contra-indications to its use are recent myocardial infarction and angina pectoris.

Further information on the use of Vasculit will be supplied on request.

BOEHRINGER INGELHEIM LTD · ISLEWORTH · MIDDLESEX

# In the control of blood abnormalities in Coronary Artery Disease

'Atromid' is an original product of I.C.I. research. Evidence suggests it controls lipid metabolism through normal body mechanisms. It returns raised plasma levels of triglycerides, uric acid and cholesterol towards normality. 'Atromid' also acts favourably on certain abnormal thrombotic mechanisms.

'Atromid' is the first product to influence abnormal lipid levels and mechanisms of thrombosis at one and the same time. 'Atromid' could make a significant contribution to resolving the problem of cardiovascular disease.

### **CLINICAL EXPERIENCE**

Over 1,500 patients have now been treated for periods from a few weeks to two years. In the great majority of cases, serum triglycerides, serum cholesterol and serum uric acid levels return to normal or near normal.

#### INDICATIONS AND DOSAGE

'Atromid' is indicated in those patients who are considered to carry an enhanced risk of developing coronary artery disease, namely those patients who exhibit raised serum lipid levels as in Atherosclerosis and its sequelae, cerebral vascular disease, and familial hypercholesterolaemia.

The average daily dosage is 8 capsules. 'Atromid' is given in divided doses administered after meals, e.g. 3 capsules after breakfast, with 2 capsules after the midday meal and 3 capsules after the evening meal.

### ATROMID

REFERENCES: J. Clin. Invest., (1962), 41, 1364; Lancet, (1962), i, 1321; Proceedings IV World Cardiology Congress 1962 (In Press); Lancet, (1963), i, 143; Lancet, (1962), i, 1323; Nature, (1962), 194, 948.

Available in packs of 50, 250 and 1,000. Each 250 mg. 'Atromid' capsule contains 244.5 mg. ethyl chlorophenoxyisobutyrate and 5.5 mg. Androsterone.

The basic N.H.S. cost for one week's treatment is 14/3 (+P.T.)

## PHYSIOLOGY OF THE CIRCULATION IN HUMAN LIMBS IN HEALTH AND DISEASE

By John T. Shepherd, M.D., M.Ch., D.Sc.

Professor of Physiology, Mayo Foundation Graduate School, University of Minnesota, Rochester. Consultant, Section of Physiology, Mayo Clinic

In this new monograph, Dr. Shepherd shows how the latest findings in the physiology of limb circulation can aid diagnosis and treatment of vascular disorders.

Investigations on both normal and diseased subjects reveal physiologic effects of exercise, drugs, denervation, changes in posture and temperature, etc. By measuring these changes, it is possible to draw a clear picture of the physiologic phenomena associated with a number of common clinical states, including: coarctation of the aorta—diabetes mellitus—arteriovenous fistulas—hypoglycaemia—osteitis deformans.

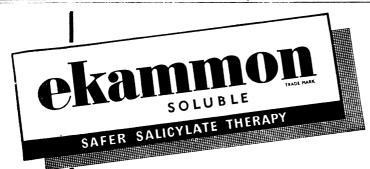

#### Includes latest information on:

- Role of vasoconstrictor and vasodilator nerves in reflex control of muscle and skin blood vessels
- Role of bradykinin in regulation of skin circulation
- Mechanisms of return of tone to vessels after sympathectomy
- Factors affecting capacity and distensibility of limb blood vessels
- Mechanism of reactive hyperaemia and of muscle vasodilatation following exercise
- Altered reactivity of vessels in Raynaud's disease, in hypertension, in hypotension and in diseases and injuries to the nervous system

416 pages, 179 illustrations.

### W. B. SAUNDERS COMPANY LIMITED · 12 Dyott St., London W.C.1

### for <u>SAFER</u> Salicylate Therapy

Ekammon-soluble makes possible the administration of aspirin in full analgesic, antipyretic and antirheumatic doses.

#### Composition

Each tablet is tangerine-flavoured and contains: Soluble Aspirin equivalent to acetylsalicylic acid 330 mgm (5 grains), Acetomenaphthone (Vitamin K) 0.49 mgm, Ascorbic Acid (Vitamin C) 20 mgm.

#### **Advantages**

Gastric irritation due to the use of insoluble aspirin is considerably reduced or abolished when replaced by soluble aspirin in Ekammon-soluble, avoiding erosive gastritis and its potentially lethal complications. The inclusion of Vitamin K counteracts the prothrombin-reducing action of aspirin, averting haemorrhagic tendencies; and Vitamin C prevents the depressant effects usually associated with the administration of salicylate medication.

#### Packs

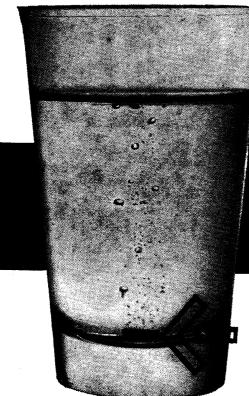

Containers of 50, 100, 350 and 750 tablets.

Detailed literature and samples available on request

# the corticosteroid tablet your patients **DRINK**

# Betnesol the soluble steroid

Betnesol is a tablet of *soluble* betamethasone phosphate. It dissolves spontaneously in water to form a palatable, tinted, particle-free solution for oral administration.

#### **Greater consistency of therapeutic effect**

By reducing particle size of corticosteroids, efficiency of their absorption is increased. The ultimate attainable is a true solution, the form in which Betnesol is taken. This ensures maximum absorption, the most consistent therapeutic effect, and allows reduction of dosage in certain cases.

#### Less dyspepsia

Because no solid steroid reaches the stomach, the incidence of gastric disturbance is even less with Betnesol than it already is with betamethasone alcohol (Betnelan).

Betnesol Tablets give further good reasons for making betamethasone your standard corticosteroid for treating such conditions as asthma, allergies and dermatoses. This compound has enhanced anti-inflammatory activity, and negligible effect on sodium and potassium balance. It offers renewed benefit to patients on long-term steroid treatment.

### **BETNESOL**

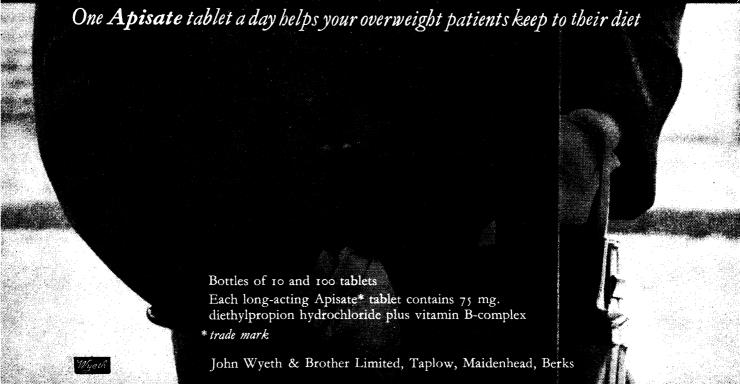

Small, scored tablet 0.5 mg betamethasone (as disodium phosphate). In bottles of 30, 100 and 500. Half-strength (0.25 mg) tablets are available in the same quantities.

The name Betnesol is a Glaxo trade mark

GLAXO LABORATORIES LIMITED

### WHAT'S A LITTLE DRYNESS...

In a recent study of 57 ulcer patients on Daricon, temporary discomforts such as dryness of the mouth and slight urinary slowing were observed in some patients. Yet only 3 stopped treatment—2 because of dryness of the mouth, the other [a patient with underlying benign prostation hypertrophy] because of urinary retention.

And the end result of this study? Complete disappearance of symptoms in 31 patients and amelioration of symptoms in 21—an outstandingly high success-rate of 91%.

What makes Daricon so effective in the treatment of peptic ulcer? Very simply, it inhibits acid secretion and, by so doing, renders gastric juice more mucoid.<sup>2</sup>

Concerning antisecretory activity. 'Prolonged consistent control of gastric secretion is the objective of most ulcer programmes'. The action of Daricon is '. . . definitely more prolonged, persisting beyond twelve-hours'. 'All 36 patients became asymptomatic within the first forty-four days of treatment . . .' 'Daricon has proved to be an excellent sustained-action anticholinergic . . .'<sup>3</sup>

In another paper, mucus was emphasized: It has a '... mechanical protective action ... there is evidence it may adsorb pepsin ... has an inhibiting action on peptic digestion by virtue of its sulphated polysaccharide content ... has a slight acid neutralizing capacity'. The paper ended: '... in the treatment of peptic ulceration, anticholinergic drugs [like Daricon] would have a beneficial effect because of their action on the mucus secretion as well as because of their action on acid secretion'.

### TRANSVASIN RELIEVES MUSCLE SPASM

Muscle spasm caused by physical injury or rheumatic lesions is rapidly relieved by the application of Transvasin. The esters of nicotinic, salicylic and p-amino benzoic acids penetrate the skin and are concentrated at the point of injury. Transvasin is an effective and economical therapy.

Transvasin contains ethyl and n-hexyl nicotinate, ethyl p-aminobenzoate, 2% each and tetrahydrofurfuryl salicylate 14%. The N.H.S. price of the 30g. tube is 2/6d and the cost of an average application of the cream is under 1d.

LLOYD-HAMOL LIMITED
11 WATERLOO PLACE, LONDON S.W.1 (H)

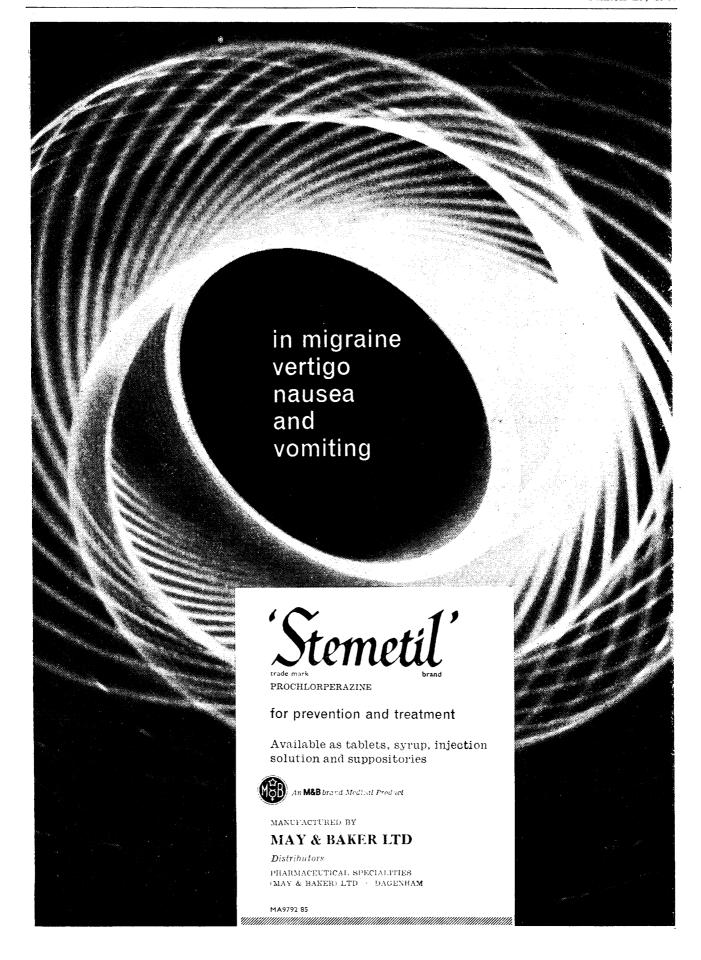

'Actifed' Tablets and Syrup relieve nasal and respiratory congestion. They are taken by mouth and affect areas inaccessible to sprays and nasal drops. Rapidity of action is an outstanding feature of 'Actifed' products-relief of symptoms is felt within 10-30 minutes. 'Actifed' Tablets and Syrup combine the most potent antihistamine, triprolidine hydrochloride, with pseudoephedrine.

ALSO AVAILABLE: 'Actifed' Compound Linctus for the control of cough with or without congestion; it contains codeine in addition to the other ingredients.

BURROUGHS WELLÇOME & CO. (THE WELLCOME FOUNDATION LTD.) LONDON

# Psoriasis

All the time fresh evidence is received of Alphosyl's effectiveness in cases of psoriasis, even in those which have defied other treatment for years.

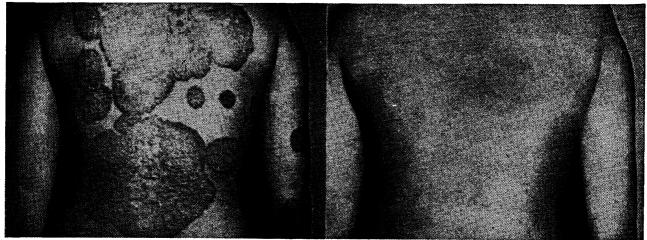

Excellent clinical trials. In a recent controlled study¹ of 62 cases of psoriatic lesions, 29 were completely cleared after use of Alphosyl and altogether 55 cases obtained between 75 per cent and 100 per cent clearance. In no case was the condition less than 50 per cent cleared.

Patients observed included those with total scalp-to-toe psoriasis, psoriasis of many years' duration, psoriasis involving tender areas and psoriasis refractory to all previous treatment. These results confirm others obtained under comparable conditions.

Why Alphosyl is so successful. In Alphosyl allantoin and a special refined coal tar extract are presented together for the first time. Allantoin has been found to be particularly effective in loosening psoriatic scales,² while the keratoplastic effect of coal tar is well known.² Alphosyl is non-greasy and non-staining and vanishes on application.

Freedom from side effects. Alphosyl is notably safe,<sup>2-3</sup> being free from the risks which are found in other forms of treatment such as arsenicals, mercury, corticosteroids, X-ray, etc. It certainly deserves a trial in all cases of psoriasis, for which it is so widely prescribed.

- 1. Ohio St. J. 55:805 June 1959
- 2. Reports to Conf. on Psoriasis, N.Y. Acad. Sc. May 9, 1959
- 3. Clin. Med. 5:485 (Apr.) 1958

An example of Alphosyl's effectiveness. Patient J Adult female. Total body psoriasis of several year's duration. Alphosyl started January 22nd.

Lesions practically clear by March 5th.

### **Alphosyl Lotion**

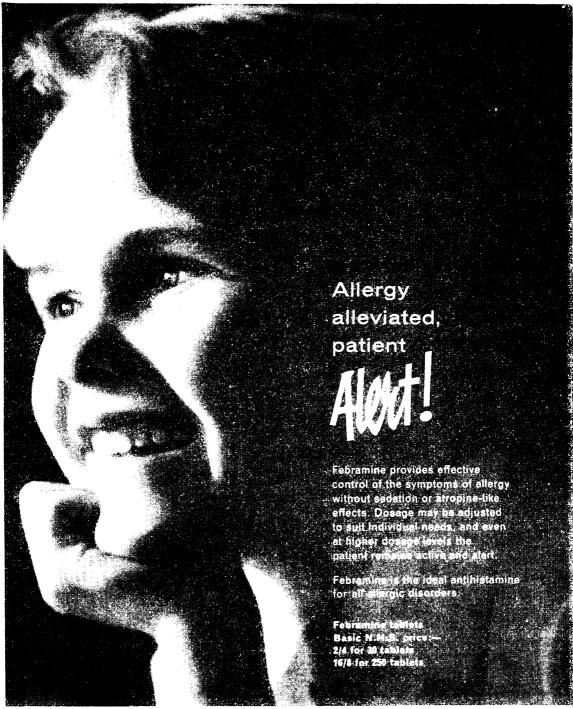

Formula: special coal tar extract 5% and allantoin 2% in a smooth non-greasy lotion base.

### ...do you recommend an external wedge on the shoesP

But the wedges soon wear away; and very often the child is made to feel self-conscious because his shoes look different from other children's. As the diagram on the left clearly shows, any external wedge to heel disturbs the plane of forepart and heel. Surely it's more logical to have a wedge built-in between the inner and the outer sole—where it can correctly corset the foot, remain invisible, and completely unaffected by wear or repair of the shoe. That is how Start-rite INNERAZE shoes are made—on remedial lasts specially adapted to accommodate the internal wedge. That is why they are the only practical and thoroughly effective solution to this problem.

Information from Mr. W. J. Peake, James Southall & Co. Ltd., Crome Road, Norwich. NOR 60A

(who make the finest children's shoes of all types)

### IN ASTHMA Bronchitis Emphysema

# TWO-STAGE ACTION ISO-BROVON TABLETS

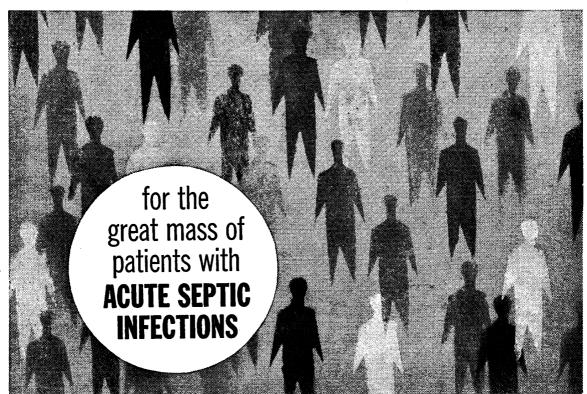

### PROVIDE IMMEDIATE AND SUSTAINED RELIEF

- 1 Swiftly opens the airway through the rapid bronchodilatory action provided by sub-lingual absorption of the isoprenaline sulphate from the coating of the tablet.
- Keeps the airway open through the sustained bronchodilatory action of theophylline and 'Metheph', provided by normal alimentary absorption of these substances from the core of the tablet.

In ISO-BROVON Tablets, the physician has at his command a valuable combination for the treatment of pulmonary insufficiency. ISO-BROVON Tablets are specially indicated for hypertensive subjects because 'Metheph' (a non-toxic derivative of ephedrine) has a blood pressor action only about one-tenth that of ephedrine.

ISO-BROVON Tablets are issued in bottles of 25 tablets (basic N.H.S. price 3/2, exempt P. Tax).

# CRYSTAPEN G

INJECTION · TABLETS · SYRUP

Despite the very many antibiotics now available penicillin G remains the first choice for the treatment of the majority of acute septic infections. It is generally agreed that other substances are used only if bacteriological or other factors indicate specific need or if the administration of penicillin G in full dosage fails to produce response.

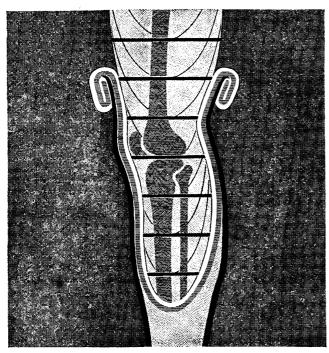

The early treatment of boils, carbuncles, abscesses and other soft tissue infections is essential if treatment is to be effective. Crystapen (soluble sodium penicillin G Glaxo) with its rapid bactericidal action, is a logical first choice for the treatment of such conditions. It is also cheap to use and frequently costs only a quarter as much as alternative antibiotics.

The name Crystapen is a Glaxo trade mark

A Spa will add years to your life

### Reliable relief with Buscopan

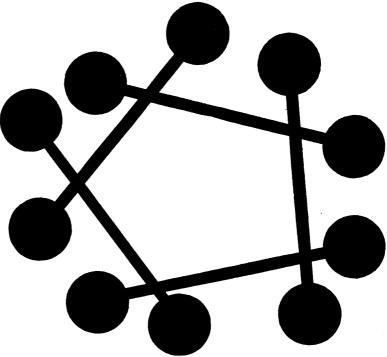

The monthly problem of spasmodic dysmenorrhoea can be solved in all but a few difficult cases by antispasmodic therapy with Buscopan.<sup>1,2</sup> Buscopan is not an analgesic. Its effect is specific as it has a direct action on the para-sympathetic innervation of the uterus where it relieves the spasm without significant side-effects.

Treatment with Buscopan should ideally be commenced two or three days before the anticipated onset of menstruation. The normal dose is two tablets three times daily.

BOEHRINGER INGELHEIM LTD · ISLEWORTH · MIDDLESEX

The problem
of the
dirty mouth

Even in 1963 the dangers, and the unpleasantness, of the dirty mouth are still present in the post-operative period, as well as in many fevers; the geriatric patient being especially prone to them. Careful attention to oral hygiene will usually, of course, keep the patient comfortable and prevent complications. Such attention, however, is very time-consuming to the nurse; and it is not often realised that for most patients it can be replaced or supplemented by the use of chewing gum.
The regular use of chewing gum, by stimulating salivary flow, keeps the mouth clean in the most natural way possible. The patient is in a sense providing his own nursing care with the minimum of energy expenditure by himself.
Child patients, of course, need no encouragement to chew gum. The older patient may need encouraging—but not once he has appreciated the very obvious cleansing and refreshing effect that chewing gum has upon the mouth. Chewing gum is also of value to patients who are forbidden to smoke.

# THAT OLD **FAMILY TRUST**

It is always a responsibility. But with the coming of the Trustee Investments Act the position becomes more onerous. Trustees will be able, and may be expected, to invest the funds to the extent permitted by the Act, in Ordinary Shares. To the Trustee's present armoury of talents, must now be added an expert knowledge of equity investment and the ability to manage a complicated system of book-keeping. Help, however, is no further away than the nearest branch of the Westminster Bank, where the Manager will give you full information about services of the Trustee Department.

## **WESTMINSTER BANK LIMITED**

HEAD OFFICE: 41 LOTHBURY, LONDON, E.C.2

Cool and calm, (under hot arc lights), a surgeon works without pause. In Maternity a baby takes a first breath of clean, temperature-right air. Patients sleep in an atmosphere that makes sleeping easier. In wards, in labs, in store-rooms, in therapy departments, people, equipment and supplies are better for an ideal, controlled, dehumidified climate. This is Chrysler Airtemp in action. Chrysler Airtemp: the world's finest, most reliable Air Conditioning Equipment...to create a planned climate.

PACKAGED UNITS: neat, compact almost silent self-contained units in the 3 through 35 h.p. range. A 3 h.p. model takes up only 20" x 35" floor space. Or where necessary:

SPLIT SYSTEMS: the Air Handling Unit Section is incorporated in or adjacent to the area to be conditioned, with remote Water or Air Cooled Condensing Units.

SPECIAL PROBLEMS-SPECIALIST ADVICE Two main considerations are involved in Hospital Air Conditioning: creating the ideal climate for the well-being of patients and staff, and meeting the highly-specialised climatic requirements of each separate section and department. Please contact our free Advisory Service which will be pleased to help solve both these problems.

A NEW CONCEPT OF COOLING AND CONDITIONING

# THE ROYAL NAVY offers you MORE

You can serve almost anywhere in almost any field of Naval activity, combining your calling as a doctor with the stimulus of a life as a commissioned officer in the Royal Navy. You could serve in almost any vessel from a frigate to an aircraft carrier, sail with the fleet to the Far East or work with a squadron in the West Indies. You could apply your care to Royal Marines Commandos, among parachutists, frogmen or rock climbers. You could fly with the Fleet Air Arm as a specialist in aviation medicine or investigate the problems of deep diving and advanced submarine development. You could work in a laboratory, hospital or medical school; serve at home or abroad, on shore or afloat; or study any one of a variety of subjects ranging from radio-biology to tropical diseases. And throughout your service as a Naval Medical Officer you would be working with the finest equipment in complete clinical freedom -and perhaps a greater opportunity to exercise your versatility than would ever be possible in civilian life.

YOU CAN ENTER BY ONE OF THREE METHODS All schemes lead to Short Service Commissions of 3-5 years' duration. Holders of such commissions can apply for permanent commissions after one year following appointment as Surgeon Lieutenant.

PERMANENT COMMISSION GRANTS PAY ON ENTRY GRATUITIES (tax free)

registered Medical Practitioner in rank of SURGEON LIEUTENANT.

£2,002 p.a. married, over 25

On completion of Short Service Commission of 3 years: £1,500; 5 years £3,000

£1.500 (nullifies gratuity)

As a qualified doctor during pre-registration year in rank of ACTING SURGEON LIEUTENANT.

\* £630 p.a. or up to £1,339 with riage allow-

As above plus £200 for pre-registration year in each case.

(nullifies gratuity)

As a medical student under Medical Cadetship in rank of SURGEON SUBLIEUTENANT.

\* £557 p.a.

Following 5 years' S.S.C., up to £2,600 subject to service. £1,000 subject to

\* These rates of pay to be increased April 1, 1963.

ALLOWANCES Cover overseas service, rations, lodging, marriage, children's education, U.K. travel, London allowance, etc.

OPPORTUNITIES You can rise automatically to SURGEON LIEUTENANT COMMANDER (£2,304 p.a.) in 5 years or less (civilian experience counts towards seniority). Further promotion, by selection, could take you to the highest ranks in the Medical Branch of the Royal Navy. For full details write NOW to:

## OFFICE FURNITURE LEASING

Saves Capital Outlay

LEASING FOR THE PROFESSIONS. For the professional man—or partnership—there are particular advantages in leasing furniture, with no capital outlay, no deposit, and payments allowed as a business expense. PRECISE COSTS DEPEND ON CIRCUMSTANCES but we would expect to offer the professional man £250 worth of office furniture selected from any of the nationally known branded furniture in our catalogue delivered for an initial payment of £16 5s., with a further 19 payments of the same amount each 3 months—just 25s. per week. After 5 years, the lease figure is reduced to 30s. PER QUARTER.

£100 worth of furniture 10s. per week. £250 worth of furniture 25s. per week.

METHOD. Furniture can be selected in our showrooms or from the fully illustrated and priced 90-page catalogue. The minimum lease period is 5 years. Payments by Banker's order. All contracts safeguard rights of both parties. For more detailed information write now to:

## PREMIER LABORATORIES LTD.

110 Black Lion St., Brighton

# Good General Practice

In the Royal Army Medical Corps you can practise medicine in very good conditions. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work, and devote more time to the care of your patients. There is great scope for the family doctor, particularly overseas, as the Royal Army Medical Corps looks after a very large number of women and children.

Great importance is attached to postgraduate study, and, during their service, permanent officers are given the opportunity of sitting for diplomas, such as D.C.H., D.Obst.R.C.O.G.

There is a large and comprehensive hospital service, consisting of thirty military hospitals at home and overseas, with consultant opinion readily available to you. As a general practitioner you are welcomed in the hospital to consult with your brother officers and follow up your cases.

Married quarters are provided, and you can count on regular off-duty periods with opportunities for games and social activities; there is generous annual leave on full pay without the trouble or expense of finding a locum.

FULLY REGISTERED PRACTITIONERS may apply for permanent or short service commissions. Minimum entry salary: £2,000 p.a. There is opportunity for specialist training. Permanent officers are guaranteed employment to age 65.

DOCTORS IN PRE-REGISTRATION YEAR are also eligible for commissions. Minimum salary: £850 with free board and lodging.

MEDICAL STUDENTS are eligible for cadetships: Minimum salary: \$890 p.a.

ALL SALARY SCALES INCLUDE MARRIAGE ALLOWANCE

The booklet, 'A Career for Doctors in the R.A.M.C.', may be obtained from The Director General, Army Medical Services, The War Office (HNR/6), London S.W.1. Tel: Gro 8040. Ext. 740.

INDUSTRIAL **APPOINTMENTS** 

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Offi-cers (as revised in the light of the Report of the Royal Commission on Doctors' and Dentists' Remuneration, 1966, and approved by the Representative Body, 1961), which is available on request from the Secretary.

RANKS HOVIS McDOUGALL

invite applications for the appointment of

MEDICAL OFFICER

in the following locations:

WARMLEY (Bristol) SUNDERLAND DARLINGTON

These appointments, which are part-time, will involve responsibility to the Company's Chief Medical Officer for the medical examinations of employees and for advice to local management on environmental hygiene standards and hygiene practices.

Fees for this work will be in accordance with the B.M.A. scale of emuneration for Industrial Medical

Applications, with particulars of Applications, with particulars of age, qualifications, and experience, together with the names of two referees, one to be a professional colleague, should be sent to the Group Staff Manager, Ranks Hovis McDougall Ltd., Millocrat House, 53 Eastcheap, London E.C.3, by March 30, 1963. (4491)

#### **SERVICES**

## A PRACTICE AS WIDE AS THE WORLD

In the Medical Branch of the Royal Air Force you gain wide clinical experience. You travel the world and among the subjects with which you will become familiar are tropical medicine, rescue operations, the care of airborne patients and medicine in relation to flying. You will also be expected to contribute to research.

As Medical Officer on a Royal Air Force Station you have a vigorous general practice among the officers, men and their families. You enjoy complete clinical freedom in charge of sick quarters with your own beds, and you will be assisted by a well-trained nursing and clerical staff. You and your family can live comfortably and near your surgery.

Your salary and career prospects are good: as a married man drawing full allowances you could receive £2000 per year on entry. If you have post-graduate civilian experience you could be granted up to seven years back-dated seniority. Pensionable career commissions or short service engagements entitling you to a generous tax-free gratuity on completion are still available to the right applicants.

#### **GRADUATES AND MEDICAL STUDENTS**

If you are a pre-registration year graduate or a senior medical student you may apply for a commissioned cadetship. This will enable you to finish your pre-registration house jobs or medical training as an officer in the R.A.F. drawing full pay and allowances. On completion you will serve on a long or short service engagement in the Medical Branch of the Service.

For details of entry to the Royal Air Force as a registered doctor, a graduate or a medical student, write to the Director-General of Medical Services, Air Ministry (M.A.I.), (HN 53), 1 Tavistock Square, London, WC1.
