

THE MEDICAL SIGKNESS SOCIETY

the specialist Insurance Company for the Medical and Dental Professions provides the particular insurances you need at every step in your career.

As a young general practitioner you may need to provide for a family and your children's education. There are specially designed policies for this and, of course, the well known Sickness and Accident Policies that provide an income when you are ill.

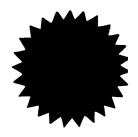

Remember, the Medical Sickness Society belongs to the Medical and Dental professions:

Non-Cancellable, Long Term SICKNESS AND ACCIDENT INSURANCES with bonuses allotted irrespective of claims. LIFE ASSURANCES Whole Life, Endowment, Family Income, Educational and Children's Deferred Policies. PENSION POLICIES Special Policies for Students and Newly Qualified Practitioners.

CAR FINANCE through our Subsidiary Company

in urticaria

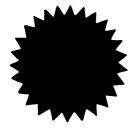

and other allergic and pruritic disorders

PERIACTIN

Cyproheptadine hydrochloride

offers excellent control

Clinical results show that PERIACTIN, antihistamine and antiserotonin agent, is effective even in 'problem' cases of allergy and pruritus which have hitherto been difficult to treat. For example, in one British controlled trial* in the treatment of chronic urticaria, most of the patients had failed to respond to simple antihistamines. On PERIACTIN, 64 per cent had an excellent response and a further 20 per cent showed improvement.

* Brit. med. J., 1961, 2, 430 (12 Aug).

PERIACTIN is supplied as white, half-scored tablets containing 4 mg. cyproheptadine hydrochloride. Detailed information on indications, dosage, administration, precautions and bibliography is available on request.

MERCK SHARP & DOHME LIMITED, HODDESDON, HERTS

Serenity at the menopause

Mixogen restores a real sense
of mental and physical well-being.
This proven hormone combination quickly
and safely relieves hot flushes and other
symptoms without risk of withdrawal bleeding.
Depression and emotional tension disappear
without recourse to sedatives.

DOSAGE

FORMS AND PACKS

1 to 2 tablets daily, omitting treatment every fourth week. Each Mixogen tablet contains: Ethinyloestradiol B.P. 0.0044 mg. Methyltestosterone B.P. 3.6 mg. Tubes of 25. Bottles of 100.

HORMONE THERAPY

Samples and literature on request ORGANON LABORATORIES LTD., Crown House, London Road, Morden, Surrey.

a new antacid palatable effective economical

Alcin is a new antacid offering several important advantages. It provides safe and effective treatment of symptoms associated with gastric hyperacidity and peptic ulceration.

Palatability Having an absence of chalkiness and an agreeable flavour, Alcin is nonnauseating.

Buffering Activity Alcin not only rapidly neutralises excess acid, but at the same time its sustained buffering activity maintains the level of acidity of the gastric contents within the desired range.

Safety Alcin is safe for prolonged administra-

tion. There is no risk from overdosage as Alcin cannot cause either alkalosis or acid rebound.

No Digestive tract ill-effects Alcin has no known laxative or constipating effects.

Economy Alcin is economical in use. The basic N.H.S. cost of 50 tablets is 1/9½d.

Composition: Each tablet contains 360 mg. anhydrous co-prepared sodium magnesium aluminium silicate and basic magnesium aluminate.

Samples available on request to Reckitt & Sons Limited, Pharmaceutical Department, Hull.

TARCORTIN FOR ECZEMA

A HEALING COMBINATION — TAR + HYDROCORTISONE

In Tarcortin cream the combination of tar with hydrocortisone has provided a preparation with spectacular results in cases of eczema and other dermatic affections - both sub-acute and chronic. Clinical trials have shown that the combination of tar with hydrocortisone is more effective than either preparation alone. The photographs show the response of a case of eczema to only two days' treatment with Tarcortin.

Tarcortin is supplied in 7gm and 15gm tubes containing 0.5% hydrocortisone and 5% special coal tar extract in a vanishing type base. Literature and samples are available on request.

NEW from Brand's

LOW SALT FOODS & SALT SUBSTITUTE

AS A SERVICE TO PATIENTS

on low salt diets Scott-Brand Foods Limited make available

A NEW SALT SUBSTITUTE

It leaves no unpleasant after-taste. Hospital tests show that it is readily acceptable as a condiment.

COMPOSITION

Potassium Chloride - 75%

I-Glutamic Acid - - 20%

Tartaric Acid - - - 5%

To this mixture 1% of Magnesium Carbonate is added.

AND—A RANGE OF LOW SALT FOODS SPECIALLY PREPARED WITHOUT ADDED SALT

These foods bring welcome variety to the monotony of sodium restricted diets. They give a wider choice than ever before of palatable, nutritious and easily prepared meals. The Sodium content is shown clearly on each individual pack, for the guidance of physician, dietitian and patient.

All these products are obtainable through Boots, Timothy Whites and Taylors and other leading chemists.

Scott-Brand Foods Limited will be pleased to answer any enquiries.

SCOTT-BRAND FOODS LTD (Dietetic Division) 10 Victoria Road, London NW10 · Tel: ELGar 2001

DENVER 2 HOUR PREGNANCY TEST

5 MINUTE PROCEDURE

READING IN 2 HOURS

PRINCIPLE: UCG Test detects Human Chorionic Gonadotrophin (HCG) immunologically in the urine of pregnant women. It requires no animals and no special equipment. It is a rapid, specific test and pregnancy can be detected as early as 4 days after missed period (expected date of menstruation). direct comparison with a commonly used animal test, UCG test was superior with an overall accuracy in normal patients of 96.7%.

Clear instructions for carrying out and reading the test are included with every kit of 10

tests.

Price: (to laboratories and hospitals) 90/- per Kit for 10 tests.

- Reliable and sensitive. Pregnancy can be determined as early as four days after date of missed period (expected date of menstruation).
- All reagents ready to use—no making up—and are completely stable for over a year.
- Test carried out in five minutes—clear result read after two hours at room temperature—NO INCUBATION NEEDED.
- No special equipment required.
- No animals, no cages, no odours, no maintenance.
- Prior ingestion of aspirin does not affect the result.

WILL SHE TAKE IRON?

Most oral iron preparations are well absorbed *if* the patient takes them.

So important is patient co-operation that the success of iron therapy often depends on its acceptability. Ferrodic tablets, with their exceptionally low toxicity*, rarely cause gastric irritation and are so palatable that they can be sucked or chewed. Consequently, the safest oral iron also tends to give more reliable results in practice.

* Pharmacological studies in dogs. Lancet, (1960) ii, 1304.

FERRODIC LOW TOXICITY IRON

Each tablet contains: Ferrous iron (as ferrous carbonate) 50 mg, ascorbic acid 12.5 mg.

Manufactured in England by

ALLEN & HANBURYS LTD . LONDON . E2

an anatomical demonstration the development of collateral

The dramatic increase in survival rate—together with angiograms of all animals in this study—provided the first evidence that a specific drug can encourage the development of vital collateral circulation after occlusion of a major coronary artery.

In a departure from customary cardiac research techniques, the investigator used the pig as his experimental animal. He based his decision on an earlier series of studies ^{1, 2, 3} that made it clear that in the pig—more than in the dog and other experimental animals—coronary artery distribution resembles that of man.

References 1. Collateral circulation and survival related to gradual occlusion of the right coronary artery in the pig. Paper presented at the annual meeting of the American Heart Association, Cleveland, Oct. 26, 1962. 2. Circulation 1:10,1950. 3. Am. J. Path. 41:65,1962.

5 weeks after occlusion	Untreated (control) group 30 animals	Peritrate-treated group 30 animals	
Died	83.3%	36.7 %	
Survived	16.7%	63.3%

difference Peritrate SA

Peritrate (pentaerythritol tetranitrate) is available as Peritrate SA, Peritrate and Peritrate with phenobarbitone.

Just as
high blood sugar
requires
24 hour control,

so does high blood pressure!

ALDOMET METHYLDOPA

ALDOMET (methyldopa) usually reduces blood pressure whether the patient is standing, sitting or lying. Symptoms of postural hypotension are fewer and less severe than is the case with other effective antihypertensive agents. Diurnal blood pressure fluctuations and exertional hypotension rarely occur. ALDOMET is simple to use, and the incidence of side effects has been relatively low.

These attributes have been repeatedly confirmed in published clinical work throughout the world. Already seven major papers have appeared in British journals, together with leading articles, annotations and other editorial comment, all endorsing the value of ALDOMET.

ALDOMET is supplied as yellow, film-coated tablets containing 250 mg. methyldopa. Detailed information on indications, dosage, administration, precautions and the extensive bibliography is available on request.

The prescribing of

ELASTIC HOSIERY

* SIMIPLIFIED

CONDITION: Medium varices

* PRESCRIPTION: Scholl standard elastic yarn stockings.

Available in thigh length stockings or below-knee stockings.

They have four prime features:-

1 Correct compression throughout the entire length and girth, including the important area of the malleoli.

 $\mathbf{2}^{Avoidance\ of\ constriction}$ by means of the Soft-Grip ribbed nylon extremities of the stockings.

3 Comfort for the patient: cool, light and well ventilated.

4 Cosmetic acceptance: seamless, they pass unnoticed under dress hose.

CONDITION: Early or mild varices

* PRESCRIPTION: Nylastik lightweight elastic yarn stockings. Full-footed, thigh length: Nylastik are indiscernible in wear and they provide a degree of support quite remarkable for such light stockings. They are widely applicable for prophylaxis during pregnancy.

*PRESCRIBABLE ON N.H.S.

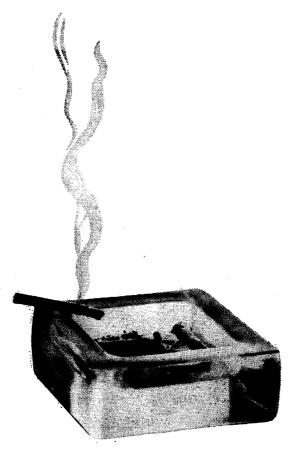

A portfolio for quick reference in the surgery, containing specimens of both types of stockings will be sent on request to:

THE SCHOLL MFG. CO. LTD., 182-204 ST. JOHN STREET, LONDON, EC1.

Lobidan

helps them to **stop** smoking...

... and is
confidently recommended

as the practical part
of their invaluable advice
to patients to stop or reduce
their consumption of tobacco.
Lobidan makes a contribution
to preventive medicine, for
the prophylaxis, or the treatment,
of specific diseases where
smoking is contra-indicated.

Each tablet contains lobeline sulphate 2.0 mgm., magnesium carbonate 125.0 mgm., tribasic calcium phosphate 180.0 mgm.

"Cardiovascular Disease is now the leading cause of death, with coronary heart disease accounting for two-thirds of all heart disease deaths."

Ann. Int. Med. (1961), 55, 33

For the control of blood abnormalities in Coronary Artery Disease

'Atromid', an original product of I.C.I. research, represents a new departure that could make a significant contribution to resolving the problem of coronary artery disease.

'Atromid' restores towards normal the serum levels of triglycerides, cholesterol and uric acid.

'Atromid' also favourably affects thrombogenic mechanisms, so being the first compound to influence lipid levels and coagulation mechanisms at one and the same time.

CLINICAL EXPERIENCE

Over 1,500 patients have now been treated for periods from a few weeks to two years. In the great majority of cases, acrum triglycerides, scrum cholesterol and scrum uric acid levels return to normal or near normal.

INDICATIONS AND DOSAGE

'Atromid' is indicated in those patients who, because they exhibit raised serum lipid levels are considered to carry an enhanced risk of developing coronary artery disease.

The average daily dosage is 8 capsules given in divided doses after meals, e.g. 3 capsules after breakfast, with 2 capsules after the midday meal and 3 capsules after the evening meal. Each 250 mg. 'Atromid' capsule contains 244.5 mg. ethyl chlorophenoxyisobutyrate and 5.5 mg. Androsterone.

and there are facts which could explain this. For one thing, Broxil compared with oral penicillin V has a very high absorption rate and gives very high tissue levels. It is therefore quickly and effectively bactericidal at the site of infection.

Broxil is also bactericidal to some penicillin G and V resistant staphylococci³, which of course means greater certainty in therapy.

It is not surprising that these advantages produce measurable advances in clinical efficiency. For example, it has been possible to count in days the saving of recovery time achieved by using Broxil in upper respiratory tract infections, while many physicians have recorded its effectiveness in other indications. 4.5.6.7.8

ARE YOUR HYPERTENSIVES PLAGUED BY DEPRESSION ?

Presented are notes from three clinical studies. Harmonyl was used as sole agent of therapy by 343 mixed hypertensives, and patients with mild functional/psychiatric disorders. Only eight reported mild depression concurrent with therapy—an incidence of 2.33%.

Study No. 1. Two hundred and eighty-three patients treated in private practice, at hospital outpatient clinics, and in office psychiatric practice. Average initial dosage of Harmonyl was 0.1 mg. to 0.25 mg. three or four times daily. No patient received more than 6 mg. daily. Eight reports of mild depression. Study No. 2. Eighty patients with benign essential hypertension were studied via 'double-blind' method. Mean daily dosage of Harmonyl was 0.25 mg., with a minimum dosage of 0.1 mg. and a maximum of 0.5 mg. daily. No reports of depression in the group of 20 on Harmonyl therapy.

Study No. 3. Forty patients with hypertension and anxiety neurosis... from mild to moderately severe. Half of the group had received other anti-hypertensive agents at one time or another; these were discontinued before and throughout the study. Usual dosage of Harmonyl was 0.1 mg, three times daily after meals. Sometimes an additional dose was taken at bedtime. No reports of depression associated with this therapy. Other investigators have found so little indication of depression with Harmonyl therapy that they do not record it as a significant side-effect.

TRANSVASIN RELIEVES MUSCLE SPASM

Muscle spasm caused by physical injury or rheumatic lesions is rapidly relieved by the application of Transvasin. The esters of nicotinic, salicylic and p-amino benzoic acids penetrate the skin and are concentrated at the point of injury. Transvasin is an effective and economical therapy.

Transvasin contains ethyl and n-hexyl nicotinate, ethyl p-aminobenzoate, 2% each and tetrahydrofurfuryl salicylate 14%. The N.H.S. price of the 30g. tube is 2/6d and the cost of an average application of the cream is under 1d.

LLOYD-HAMOL LIMITED

11 WATERLOO PLACE, LONDON S.W.1

CRYSTAPEN G

INJECTION · TABLETS · SYRUP

Despite the very many antibiotics now available penicillin G remains the first choice for the treatment of the majority of acute septic infections. It is generally agreed that other substances are used only if bacteriological or other factors indicate specific need or if the administration of penicillin G in full dosage fails to produce response.

The early treatment of boils, carbuncles, abscesses and other soft tissue infections is essential if treatment is to be effective. Crystapen (soluble sodium penicillin G Glaxo) with its rapid bactericidal action, is a logical first choice for the treatment of such conditions. It is also cheap to use and frequently costs only a quarter as much as alternative antibiotics.

The name Crystapen is a Glaxo trade mark

- Tar fractions and hydrocortisone
- Produce synergistic response
- Tar therapy at an earlier stage
- Colourless tar fractions superior to Coal Tar B.P.

now available with 1% Hydrocortisone "The synthetic tar proved more efficient, less liable to produce adverse reactions and was cosmetically superior to prepared Coal Tar B.P." Practitioner, 1957, 179, 598

Cortipix contains:

Genatosan purified fractions equivalent to 3% Coal Tar B.P. with 1% Hydrocortisone Acetate B.P.-Basic NHS cost 6/- per 15 G. tube or with ½% Hydrocortisone Acetate B.P.-Basic NHS cost 4/- per 15 G. tube: in a water miscible cream base.

*The change in brand name of this preparation has been made to avoid confusion with Pixcyl, which is still available in the Genatosan range.

Genatosan Limited Loughborough Leicestershire

Durex Gossamer and the post-partum period

The new, pre-lubricated protective—Durex Gossamer—is advocated by many gynaecologists and obstetricians, as an important adjunct to the treatment of certain abnormal vaginal conditions.

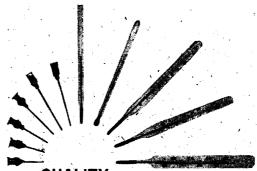

A most important application of the Durex Gossamer is in preventing an exacerbation during coitus—of the inflammation and discomfort which frequently accompanies the post-partum period, vaginitis and leucorrhea. Furthermore, this type of protective is recommended where insufficient vaginal secretion is manifest, as in early marriage, frigidity and menopausal atrophy.

Where there is risk of transferring infection, Durex Gossamer has been shown to reduce the incidence of vaginal infection during the post-partum period.

But the outstanding advantage of Durex Gossamer is the confidence it instils, and the comfort it provides during the postpartum period. The physician and patient know it to be an effective and reliable contraceptive.

> For further details and samples of Durex Gossamer write to:-

In Atherosclerosis SUNFLO SUNFLOWER OIL WITH S.G.C.

A RICH AND PALATABLE SOURCE OF UNSATURATED FATTY ACIDS

Sunflower Seed Oil is rich in linoleic acid, an essential unsaturated fatty acid. "Sunflo" with S.G.C. is pure sunflower oil reinforced with synergistol concentrate derived from fish oil. In therapy which includes the substitution of saturated by unsaturated fatty acids—as in the treatment of atherosclerosis, hypercholesteremia and coronary insufficiency—"Sunflo" Oil is welcomed by the patient for its palatability and practical usefulness in salads and cooking. An independent analysis of "Sunflo" Oil is available on request.

An air clear filtered, aromatic and fresh! Such is the climate of German health resorts. There the dust-swallowing city dweller will feel how smart he was to combine his vacation with a lastingly efficacious course of mineral waters. Each of the over 200 spas opened all year round will offer what he needs most: rest, relaxation and a therapy practical for him, determined by experienced doctors and supported by modern resort facilities.

Information is gladly given by the: GERMAN TOURIST INFORMATION BUREAU, 61 Conduit Street, Regent Street, London W.I., and Deutscher Bäderverband e.V., Bonn, Schumannstr. 111.

A Spa will add years to your life

This is the Minifon. It looks like a tiny tape recorder but actually is the never failing substitute for a memory. Specially made for the man who is for ever thinking on his feet, or in his car—or in his bath for that matter—and can't continuously stop to make notes. In fact, it is a pocket size dictation machine, transistor operated, battery powered, giving a good half-hour's dictation of exceptional clarity. A superbly made, self-contained pocket dictation system. Minifon—once you're using it you'll wonder how you ever managed without one.

DRUGS in the TREATMENT of DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the British Medical Journal, the book presents an up-to-date, indexed, authority on medicinal treatment—of considerable help to the doctor in choosing the best drug for his patient.

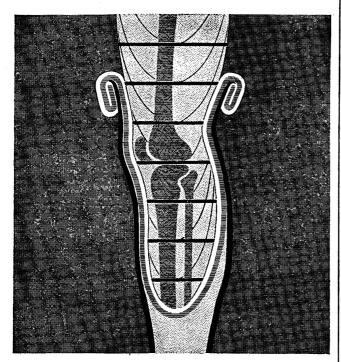

Medium 8vo. 570 pages. 36s. 9d. by post (cover price 35s.)

NEW RELIEF & COMFORT FOR AMPUTEES

with the REM-DAW sheath

U.K. PATENT No. 826041

The Rem-Daw sheath gives relief from the chafing, irritation, callouses and other conditions that may arise from wearing an artificial limb. It is made from lanolised nylon which has a cooling effect and is worn *under* the wool stump sock. The Rem-Daw sheath protects against overheating (reducing perspiration), chilblains and abscesses. It is suitable for all amputations, above or below knee and arms. Walking is easier and less fatiguing. This relief costs only 15/- per sheath. Further information can be obtained by writing to:—

GOOD GENERAL PRACTICE

In the Royal Army Medical Corps you can practise medicine in very good conditions. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work and devote more time to the care of your patients. There is great scope for the family doctor, particularly overseas, as the Royal Army Medical Corps looks after a very large number of women and children.

Great importance is attached to post-graduate study, and, during their service, permanent officers are given the opportunity of sitting for diplomas, such as D.C.H., D.Obst. R.C.O.G.

There is a large and comprehensive hospital service, consisting of thirty military hospitals at home and overseas, with consultant opinion readily available to you. As a general practitioner, you are welcomed in the hospital to consult with your brother officers and follow up your cases.

Married quarters are provided, and you can count on regular off-duty periods with opportunities for games and social activities; there is generous annual leave on full pay without the trouble or expense of finding a locum

FULLY REGISTERED PRACTITIONERS may apply for permanent or short service commissions. Minimum entry salary £2,000 p.a. Credit is given for previous experience and there are good opportunities for specialist training and rising to consultant rank. Consultants may earn from £4,000 to £5,000 p.a. depending on seniority. Suitable officers may be given employment to the age of 65. For all officers holding permanent commissions there is a non-contributory pension scheme. DOCTORS IN PRE-REGISTRATION YEAR are also eligible for commissions. Board and lodging is free; salary £875 p.a. or £1,050 p.a. if over age 25.

THE AEOVE SALARY SCALES INCLUDE MARRIAGE ALLOWANCE

MEDICAL STUDENTS are eligible for cadetships. Salary £950 p.a. for single men, and for married men under 25.

The booklet, 'A Career for Doctors in the R.A.M.C.,' may be obtained from The Director General, Army Medical Services, The War Office (HNR/6/A), London S.W.1. Tel: GRO 8040. Ext. 740.

SERVICES

The go-ahead OPPORTUNITY

that is **ROYAL NAVY**

you find it as a MEDICAL OFFICER

As a Medical Officer, you have complete clinical freedom and a widely varied medical experience. Your practice is among 100,000 Naval men and women. Ashore or afloat, it can take you anywhere in the world from Malta to Singapore: and, when you have a shore appointment abroad, your family can be with you. Go-ahead, too, is your opportunity to specialize: not only in traditional categories, but in the modern sciences of aviation and nuclear medicine.

As a Medical Officer, your pay, allowances, and gratuity—or permanent commission pension—are very good: for example, your initial pay is considerably higher than that of a civilian hospital registrar.

You can enter by one of three ways: as a registered medical practitioner—your civilian experience back-dating seniority or as a qualified doctor doing your pre-registration year, or as a student with a 2nd M.B. For qualified women doctors, there is a special short service commission.

For full details of your Royal Navy life as a Medical Officer, write, mentioning your own qualifications and age, to: The Medical Director General of the Navy, Medical Dept., HN/2, Admiralty, Lillie Road, London S.W.6

Obstetrics and Gynaecology -contd.

BRITISH MEDICAL JOURNAL

Leavesden Hospital, Abbots Langley, near Leavesden Hospital, Abbots Langley, near Watford, Herts, by May 4, 1963. (5846)

when a cough could upset the picture

'LETUSIN'

saves the situation

When control of unproductive cough is called for, 'Letusin', a new suppressant, will provide the answer. Laevopropoxyphene, the "single-entity" active ingredient, is specific for cough. 'Letusin' is safe and well tolerated. Unlike Codeine, it permits normal expectoration and does not give rise to constipation or sedation.

In acute and chronic respiratory conditions remember

'LETUSIN'*

either 'Pulvules' or Suspension.
'Pulvules' 100 mg. Suspension 50 mg. in each 5 ml. (teaspoonful)

Descriptive literature available on request.

diabetes detection is urgent

Over 4,000,000 people are currently undergoing diabetes screening. British surveys show that 1 — 2% of the population are diabetic, over half of them undiagnosed and in danger of serious degenerative complications. Detection starts in the 'peak-risk' groups† with a screening test for glycosuria — a step that can be quickly, simply and economically taken with the help of Clinistix*.

†'peak-risk' groups — all people over 40; relatives of known diabetics; the obese; women with large babies; and people with vascular disease.

SERVICES

A PRACTICE AS WIDE AS THE WORLD

In the Medical Branch of the Royal Air Force you gain wide clinical experience. You travel the world and among the subjects with which you will become familiar are tropical medicine, rescue operations, the care of airborne patients and medicine in relation to flying. You will also be expected to contribute to research.

As Medical Officer on a Royal Air Force Station you have a vigorous general practice among the officers, men and their families. You enjoy complete clinical freedom in charge of sick quarters with your own beds, and you will be assisted by a well-trained nursing and clerical staff. You and your family can live comfortably and near your surgery.

Your salary and career prospects are good: as a married man drawing full allowances you could receive £2000 per year on entry. If you have post-graduate civilian experience you could be granted up to seven years back-dated seniority. Pensionable career commissions or short service engagements entitling you to a generous tax-free gratuity on completion are still available to the right applicants.

GRADUATES AND MEDICAL STUDENTS

If you are a pre-registration year graduate or a senior medical student you may apply for a commissioned cadetship. This will enable you to finish your pre-registration house jobs or medical training as an officer in the R.A.F. drawing full pay and allowances. On completion you will serve on a long or short service engagement in the Medical Branch of the Service.

For details of entry to the Royal Air Force as a registered doctor, a graduate or a medical student, write to the Director-General of Medical Services, Air Ministry (M.A.I.) (HN53A), I Tavistock Square, London, WCI.

LEDERLE INTERNATIONAL FELLOWSHIP

The Lederle International Fellowship, created by Cyanamid International, a division of the American Cyanamid Company, is awarded annually to a medical graduate wishing to pursue postgraduate studies in his specialty in an American medical institution of his own choosing. The Fellowship is for one year and the amount of the award is \$3,900, paid in twelve monthly stipends of \$325. Round trip travel expenses are paid from the city of origin to the site of the selected American scientific institution.

Preferred applicants will be British male medical graduates with at least four years' experience in their specialty, electing to pursue research studies in respiratory disease, cardiology or internal medicine.

The successful candidate will be selected by an independent sponsor acting on behalf of the Company, and candidates should apply, giving details of experience, academic attainment and proposed programme of work, to:

> Professor A. Kekwick, M.A., M.B., F.R.C.P., Department of Medicine, Middlesex Hospital, London W.1. (5832)

MONASH UNIVERSITY Victoria, Australia

FACULTY OF MEDICINE

Applications are invited for appointment to the following positions:

DEPARTMENT OF ANATOMY

SENIOR LECTURER/LECTURER IN ANATOMY

The Department is contributing to the courses for the degrees of M.B., B.S., and will accept postgraduate students in medicine and biology. Research activities so far are oriented towards experimental neurology, but programmes which include electron microscopy, tissue culture, and autoradiography are under way.

DEPARTMENT OF BIOCHEMISTRY

SENIOR LECTURER/LECTURER IN BIOCHEMISTRY

The Department is contributing to the courses for the degrees of M.B., B.S., provides courses for the degrees of B.Sc. and B.Sc.(Hons.), and accepts postgraduate students for the degrees of M.Sc. and Ph.D. Its research programme includes studies on the mechanism of biosynthesis of protein with particular reference to hormonal control, of action of androgens in inhibiting the growth of breast carcinoma tissue, of neuromuscular transmission and artificially induced cerebral convulsions, on the aminoacid sequence of biologically active pituitary polypeptides derived from the hydrolysis of growth hormones, and the biogenesis of the oxidative system in cells.

DEPARTMENT OF PHYSIOLOGY SENIOR LECTURER/LECTURER IN PHYSIOLOGY

The Department's principal research interests at present are: the physiology and pharmacology of synaptic and neuromuscular junctions, including those of smooth muscle, and the physiology of sensory mechanisms.

DEPARTMENT OF MEDICINE FIRST AND THIRD ASSISTANT

The Department of Medicine, which is situated in Prince Henry's Hospital, will be accepting its first students in 1964. Appointees will be expected to conduct research as well as to undertake clinical work and teaching.

DEPARTMENT OF SURGERY

FIRST ASSISTANT

The Department of Surgery, which is situated in Alfred Hospital, will be accepting its first students in 1964. Appointees will be expected to conduct research as well as to undertake clinical work and teaching.

DEPARTMENTS OF PATHOLOGY AND MICROBIOLOGY

These Departments are accommodated in newly built and newly equipped laboratories associated with the Alfred Hospital and will start undergraduate teaching in 1964.

DEPARTMENT OF PATHOLOGY LECTURER, and SENIOR TEACHING FELLOW/ TEACHING FELLOW

The Department of Pathology has a research programme at present oriented to problems of biological specificity and the laboratories have been designed for a variety of modern experimental pathological techniques including immunopathology, tissue culture, electron microscopy, histo-themistry, radioactive tracing, and chemical pathology. Candidates should be interested in these developments, but special technical skill or experience is not essential as training will be arranged wherever necessary.

DEPARTMENT OF MICROBIOLOGY SENIOR LECTURER/LECTURER and SENIOR TEACHING FELLOW/TEACHING FELLOW

The Department of Microbiology is similarly well-equipped for active research and its programme is under consideration pending the arrival of the Head of Department in April, 1963.

SALARY SCALES

FIRST ASSISTANT—£A.3.400 to £A.4.000 per annum.
THIRD ASSISTANT—£A.2.010 to £A.2.750 per annum.
SENIOR LECTURER—£A.2.480 to £A.3.000 per annum.
SENIOR LECTURER IF MEDICALLY QUALIFIED—£A.2,600 to £A.3,300 per annum.
LECTURER—£A.1,660 to £A.2.450 per annum.
SENIOR TEACHING FELLOW—£A.1,400 to £A.1,600 per annum.
TEACHING FELLOW—£A.1,120 to £A.1,300 per annum.

With superannuation provision on the F.S.S.U. basis.

Information regarding application procedure, conditions of appointment, superannuation, travel and removal allowances, study leave and housing is available from the Secretary, Association of Universities of the British Commonwealth (Branch Office), Marlborough House, Pall Mall, London, S.W.1, or the Registrar of the University, P.O. Box 92, Clayton, Victoria, Australia

Inquiries relating to research facilities, equipment, and details of courses should be addressed to the Head of the Department concerned:

Anatomy—Professor G. C. Schofield.
Biochemistry—Professor J. Bornstein.
Physiology—Professor A. K. McIntyre.
Medicine—Professor Bryan Hudson.
Surgery—Professor H. A. F. Dudley.
Pathology—Professor R. C. Nairn.
Microbiology—Professor B. P. Marmion.

Correspondence to the above Professors should be directed to Monash University, P.O. Box 92, Clayton, Victoria.

Closing date for applications: Applications close in Australia and London on June 17, 1963.

The University reserves the right to make no appointment or to appoint by invitation at any stage.

Oversea (Vacant)—contd,

UNIVERSITY OF ADELAIDE SENIOR LECTURER IN MENTAL HEALTH

Applications are invited for the

above-mentioned appointment.

Salary Scale: £A.2,450 by £A.110 to £A.3,000. INSTITUTE OF BASIC MEDICAL SCIENCES

ROYAL COLLEGE OF SURGEONS OF LONDON

BRITISH POSTGRADUATE MEDICAL FEDERATION (University of London)

A course of study in Anatomy, Physiology, Pathology, Biochemistry, and Pharmacology has been arranged beginning in September, 1964, and continuing for a period of approximately four months. This course includes systematic revision lectures, practical demonstrations, and tutorials covering Anatomy with Histology, General Pathology and Microbiology, Physiology, Biochemistry with Pharmacology. It is designed for all postgraduate students proceeding to higher diplomas in Surgery, Medicine, and Anaesthetics, and will include tutorials and demonstrations. strations for small groups.

The fee for the full-time course is 70 guineas and for the lectures the fee is 40 guineas. In order to make it possible for overseas students to make financial and other arrangements, applications received by November 30, 1963, will be considered by the Selection Committee in December, 1963. These and all other inquiries should be sent to Mr. W. F. Davis, Secretary, Institute of Basic Medical Sciences, Royal College of Surgeons of England, Lincoln's Inn Fields, London W.C.2.

For students in the United Kingdom, a further notice of this course will be issued later.
