

Heinz have added 2 exciting new varieties to their famous range of Baby Foods

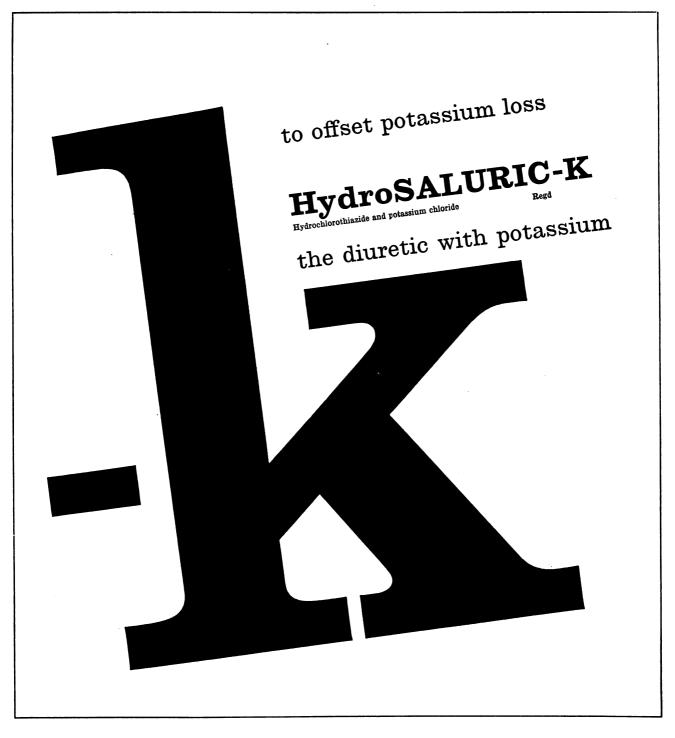

Egg and Bacon Breakfast (the first 'grown-up' breakfast for a baby) and Vegetables and Bacon add still more variety to the range of Strained and Junior Foods from Heinz. Altogether there are now 57 foods available to

mothers! Heinz Strained Foods are suitable for

young babies as young as 11 weeks old, while Junior Foods are recommended for older babies up to the second or third year. Together, they encourage mothers to give their babies a varied diet by offering a wide range of wholesome foods that are nutritious, convenient and economical.

Baby Foods

Whenever diuretic therapy is indicated, the administration of HydroSALURIC-K will provide:

- the short duration of action of hydrochlorothiazide, giving uninterrupted nights
- a reasonable safeguard against the development of thiazide-induced hypopotassaemia and its sequelae.

 The supplement of potassium chloride is enclosed in a reliable enteric coating to avoid nausea and vomiting.

HydroSALURIC-K is supplied as pink, sugar-coated tablets containing 25 mg. hydrochlorothiazide and 572 mg. potassium chloride. Detailed information on indications, dosage, administration, precautions and bibliography is available on request.

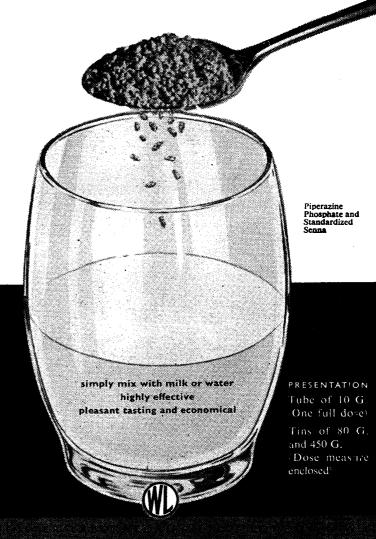

Pripsen single-dose treatment

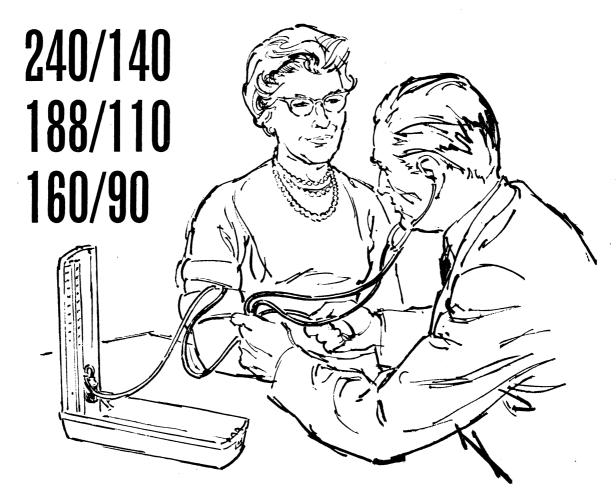

FOR BOTH ROUNDWORMS AND THREADWORMS (PINWORMS)

- "Pripsen...is a highly effective agent against ascariasis."
- "Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and in the remaining 14, repeated dosage... resulted in a 100% cure-rate."
- "With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis."²

PRODUCT OF BRITISH RESEARCH

Where BLOOD PRESSURE climbs, keep it under control with ENDURONYL

With Enduronyl, once daily is the dose for hypertension. Blood pressure starts down steadily: improvement usually is substantial within 10 days. Further reduction may continue over following weeks. At the same time, excess sodium and water are consistently eliminated. Giving Enduronyl just once a day means fewer forgotten doses. A smoothly sustained therapeutic response, too. Enduronyl combines two well-established anti-hypertensive agents: (1) Enduron, Abbott's long-acting thiazide diuretic, and (2) Harmonyl, a rauwolfia derivative of low side effects. Together they provide greater anti-hypertensive action than with either alone.

Once-a-day thiazide/rauwolfia anti-hypertensive

ENDURONYL TRADE

(Enduron* Methyclothiazide and Harmonyl* Deserpidine, Abbott)

Enduronyl (5 mg. Enduron plus 0.25 mg. Harmonyl) and Enduronyl Forte (5 mg. Enduron plus 0.5 mg. Harmonyl) are supplied in bottles of 100.

ROYAL SOCIETY OF HEALTH CONGRESS, EASTBOURNE

April 29 - May 3

The 70th Annual Congress of the Royal Society of Health is being held this week at Eastbourne. Over 3,500 health delegates from all parts of the world will be attending and the Congress will be opened by Professor A. B. Semple, Chairman of the Society.

The chief speaker will be Professor Ritchie Calder, who occupies the Chair of International Affairs at Edinburgh University, and his subject will be "Public Health in the Space Age." Amongst the other speakers will be Lord Taylor, who will deliver the Chadwick Lecture on "Mental Health in New Communities," the Earl of Feversham, the Countess of Dartmouth, Sir John Wolfenden, Miss Muriel Powell, Matron of St. George's Hospital, London, Sir George Godber, Chief Medical Officer, Ministry of Health, Sir Edward Collingwood, Sir Anthony Hurd, M.P., and Sir Arthur Thomson, Chairman of the Birmingham Regional Hospital Board.

In keeping with the aims of the Royal Society of Health, which was founded in 1876 to promote the health of the people, the range of subjects to be discussed shows considerable variation. aspects of food distribution, family anxieties, child health, diabetes, parenthood, health education and the future of medical practice outside the hospital constitute some of the chief headings.

As in previous years a Health Exhibition has been organized in conjunction with the Congress, and over 100 firms and societies will be represented. There are four main groups: Infant, Welfare, Invalid and other Foods: Publishers: Pharmaceutical/Medical: Health and Welfare.

The close association of the Congress and the Exhibition is of considerable advantage to the delegates as it enables them to meet so easily members of the organizations in which they are interested, to discuss any problems and also to see new products and apparatus.

One of the problems you often face with diabetic or over-weight patients is that they find their diets dull and hard to follow. Sugar-free, low-calorie Trim is a refreshing answer for them—a safe and effective one for you! Trim is especially helpful on reducing diets. It brings new zest to meals, gives all the lift and sparkle of an ordinary soft drink—without extra calories. TRIM contains only 2.8 calories per fluid oz.—less than a third of those in sugar-sweetened soft drinks.

In advanced Mammary Cancer

The beneficial effects of
Deca-Durabolin already reported
in cases of advanced mammary cancer
have recently been further confirmed by the results
of 175 patient-studies*.

Nearly all the patients treated with
Deca-Durabolin experienced improvement
in general well-being with
increased appetite. Regression and control
for periods up to two years were obtained.
The report concludes—"The low incidence of
side effects coupled with the well-marked
general tonic effect suggest the wider use of
this preparation as ancillary treatment in
stage III carcinoma of the breast".

DOSAGE FORMS AND PACKS 25 mg.-50mg. every third week. Ampoules containing Nandrolone decanoate 25 mg. and 50 mg. for intramuscular injection in boxes 1×1 ml. and 3×1 ml.

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments¹¹⁻¹⁷ and it has been tested in over 1,000 patients¹⁻¹⁰. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Sy nadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

Which would you recommend for patients with arterial disease?

In planning diets for patients with arterial disease and coronary heart disease, many doctors recommend the substitution of a vegetable fat to aid in lowering the patient's serum cholesterol level. Look carefully at the two bottles above: which would you recommend to a patient? **ANSWER**: They are identical. The bottle on the right contains Mazola Corn Oil, labelled with its fatty-acids percentages. The bottle on the left contains *exactly the same oil*, and bears the label under which it is sold in thousands of grocery stores throughout the country. (Where your patients can buy it easily and inexpensively.) Mazola Pure Corn Oil: 3/7 for 16 fluid ounces.

new from GLAXO

first British quadruple vaccine

QUADRILIN

Quadrilin is unique. It gives protection simultaneously against the four most dangerous childhood diseases:

pertussis diphtheria tetanus and poliomyelitis

the name Quadrilin is a Glaxo trade mark

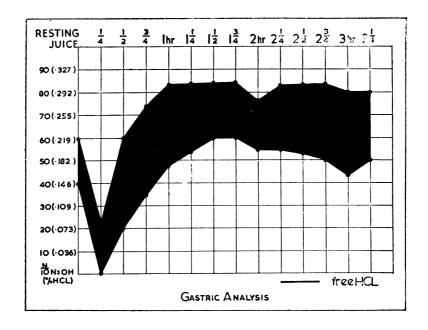

Laboratory and clinical trial 1.2 has confirmed that Quadrilin is a highly potent vaccine that produces an adequate response to all components.

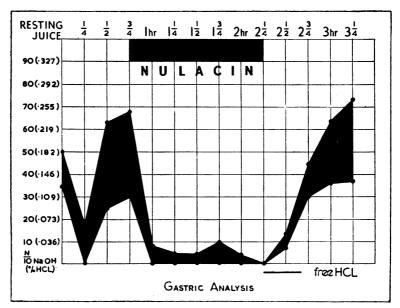

By simplifying immunisation,
Quadrilin can help to multiply
considerably the number of
children being protected in the
critical early months of life.
Because of the extremely high
potency of the poliomyelitis
fraction of Quadrilin (especially the
Type 1 component) it can be given
as early as three months of age to
fit in with the Ministry of Health
Schedule P.

In boxes of 1ml single dose ampoules.

a new Riker antihypertensive

with great potential in general practice

Thiaver is particularly valuable in general practice for that large group of hypertensive patients who are not adequately controlled by milder agents and their combinations. Thiaver provides an alternative to adrenergic or ganglion-blocking agents whose use is often limited by the side-effects they produce.

Potent yet suitable for prolonged use Thiaver combines the hypotensive properties of Veriloid, one of the few effective centrally-acting antihypertensives, with those of epithiazide, a new potent diuretic/hypotensive, to provide smooth but positive control of blood pressure with gradual onset of effect. Outstanding advantages of Thiaver are that it does not cause postural hypotension nor does tolerance develop.

Very simple dosage Treatment with *Thiaver* is free from the need for frequent and critical dosage adjustment. Satisfactory control of blood pressure is obtained in most patients with two or three tablets daily. Each tablet contains *Veriloid* (standardised alkaloids of *Veratrum viride*) 4 mg. and epithiazide 4 mg.

Packs: Bottles of 100 tablets 48/- basic NHS price 500 tablets 234/- basic NHS price

Welldorm (dichloralphenazone) leads the trend towards safer hypnotics and sedatives. Welldorm is chloral hydrate—the safest of the non-barbiturate hypnotics—in its most acceptable and best tolerated form. Welldorm gently induces natural sleep without hangover or drowsiness next day. It has a unique record of freedom from toxic side-effects. It is supremely safe even in the very young and the very old.

Tablets of 10 grains (Paediatric, 2½ grains). Elixir—2½ grains per teaspoonful

Welldorm is known as 'Bonadorm' in Australia and 'Dormwell' in the rest of the British Commonwealth

Colourless Paint for Dermatophytoses

GLIMATE AS PLANNED

Cool and calm, (under hot arc lights), a surgeon works without pause. In Maternity a baby takes a first breath of clean, temperature-right air. Patients sleep in an atmosphere that makes sleeping easier. In wards, in labs, in store-rooms, in therapy departments, people, equipment and supplies are better for an ideal, controlled, dehumidified climate. This is Chrysler Airtemp in action. Chrysler Airtemp: the world's finest, most reliable Air Conditioning Equipment...to create a planned climate.

PACKAGED UNITS: neat, compact almost silent self-contained units in the 3 through 35 h.p. range. A 3 h.p. model takes up only 20" x 35" floor space. Or where necessary:

SPLIT SYSTEMS: the Air Handling Unit Section is incorporated in or adjacent to the area to be conditioned, with remote Water or Air Cooled Condensing Units.

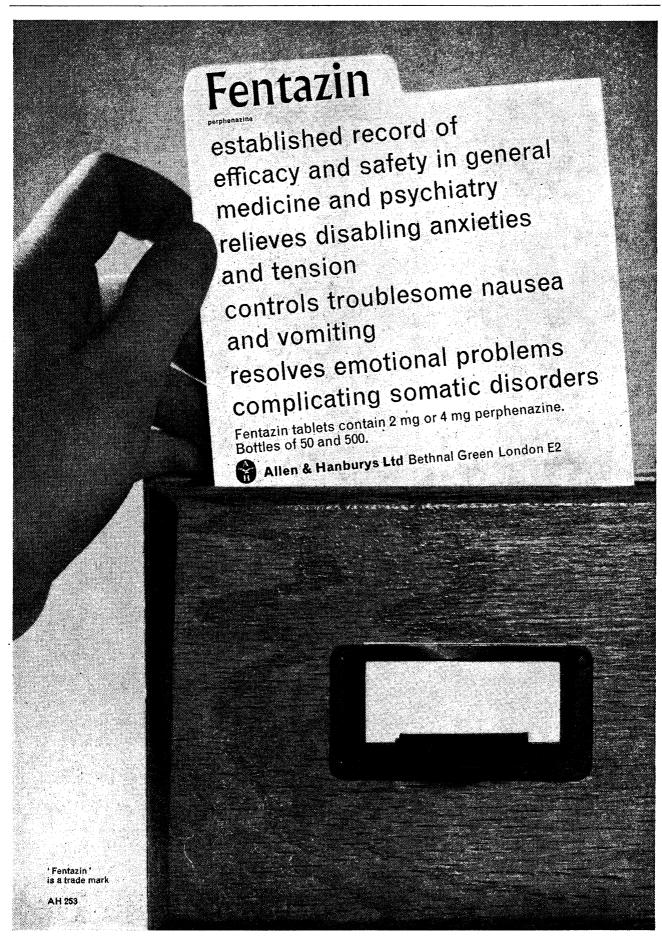

SPECIAL PROBLEMS—SPECIALIST ADVICE Two main considerations are involved in Hospital Air Conditioning: creating the ideal climate for the well-being of patients and staff, and meeting the highly-specialised climatic requirements of each separate section and department. Please contact our free Advisory Service which will be pleased to help solve both these problems.

A NEW CONCEPT OF COOLING AND CONDITIONING

For further information, contact:

Industrial Bladder Carcinogenesis

I. S. TEMKIN. Translation Editor: W. J. P. NEISH, University of Sheffield

This book, translated from the Russian, is the result of over 25 years' examinations and studies of people whose work brings them into contact with carcinogenic amino compounds of the aromatic series. The methods adopted for detecting and combating cancer of the bladder are discussed in detail.

Chapter Headings include:

Carcinogenic chemical compounds: Pathogenesis; The diagnosis of occupational neoplasms of the urinary bladder: The character of occupational neoplasms of the urinary bladder; Clinical course and prognosis: Prophylaxis and treatment; Inflammatory changes and functional disturbances of the urinary bladder in persons subjected to the action of carcinogenic substances.

The anti-inflammatory steroid which has proved so successful in the treatment of asthma is also highly effective in cases of severe hay fever. Betamethasone, with its high potency, is well suited where systemic treatment is indicated in severe attacks. A few days' treatment will usually control the condition rapidly but the continued local application of a spray may also be indicated.

Betamethasone is available in two forms—the alcohol (Betnelan tablets) and the phosphate (Betnesol tablets). Betnesol tablets are effervescent and dissolve completely in water providing a palatable solution. Administration of the steroid in solution has been shown to reduce the risk of steroid-induced dyspepsia and at the same time provide maximum efficiency and consistency of absorption.

Mild attacks of hay fever can often be controlled by Betnesol-N Nasal Spray. This product also contains the soluble form of betamethasone and can therefore reach inflamed tissues more readily. Neomycin, with its wide range of activity and low risk of sensitisation, is included to control any infection which may be associated with the primary condition. Naphazoline is included for its decongestive action; a lower than usual concentration minimising any risk of the 'rebound phenomenon' which may sometimes follow too intensive a use of vasoconstrictors.

Betnelan tablets

on broad-spectrum

FURADANTIN

Fewer patients on 'Furadantin' come back because 'Furadantin', with its powerful broadspectrum action therapeutically confined to the urinary tract, swiftly and effectively controls genito-urinary infections.

trols genito-urinary infections.

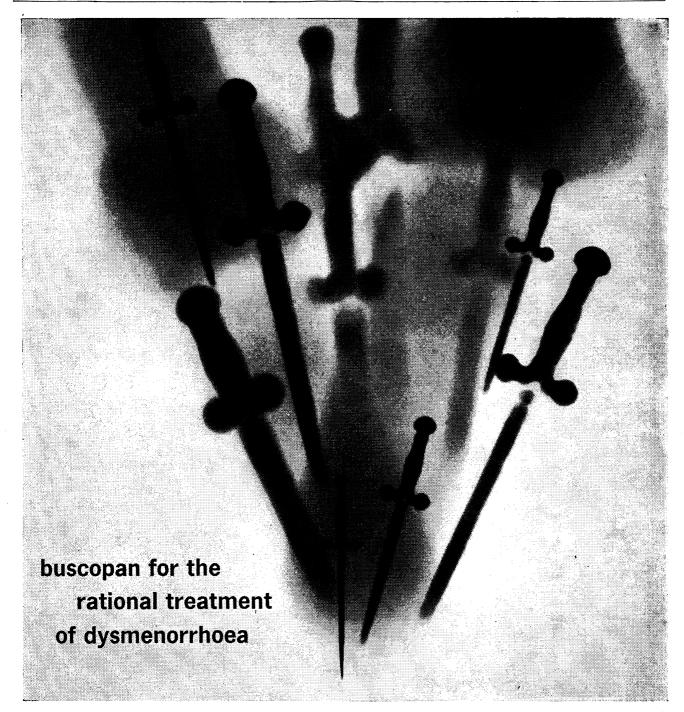

This is why 'Furadantin' is increasingly now regarded as the treatment of first choice in all 'first-visit' urinary patients.

furadantin' Suspension, 25 mg. in each 3.5 ml., in bottles of 4 fl. oz. and 80 fl. oz. Literature containing prescribing information is available on request.

Smith Kline & French Laboratories Ltd Welwyn Garden City, Herts

^{&#}x27;Furadantin' Tablets, 50 mg., and 100 mg., in packs of 100 and 1000.

Whatever its aetiology the principal cause of the pain of primary dysmenorrhoea is probably spasm, and the most rational approach to treatment must surely be based upon relaxation, or preferably prevention, of this spasm. Buscopan, which is a parasympathetic ganglion blocking agent, is ideally suited for this purpose. It has the potent antispasmodic effect of hyoscine, its parent substance, but without the toxicity and high incidence of side effects associated with the solanaceous alkaloids. The dose of Buscopan for spasmodic dysmenorrhoea is two 10 mg. tablets four times a day, preferably starting two or three days before menstruation is expected. Experience in this country with Buscopan over the past eight years has shown that the majority of patients respond well to this rational approach to what may be an irrational condition.

Further details gladly sent on request.

WHY DARICON DOES MOST

Daricon is the anticholinergic with the twelve-hour activity. This is the length of time Daricon decreases acid secretion, renders gastric juice more mucoid, eliminates pain. And Daricon is naturally long acting—no need for coatings to prolong its action.

About gastric acid inhibition: 'We, as others, were impressed with its antisecretory effect, leading to prolonged periods of achlorhydria, a fact that makes it useful in the treatment of peptic ulcer, especially duodenal ulcer.'

And about mucus: '...secretions [after Daricon] were also more mucoid ...' 'The mucus formed by the gastric secretory cells is both demulcent and antacid, and mucus has a mechanical protective action.' 'Anticholinergic drugs [like Daricon] would have a beneficial effect because of their action on the mucus secretion as well as because of their action on acid secretion.'

To quote a recent paper on Daricon: '. . . 34 of the 36 patients benefited from treatment. Of the 25 patients with duodenal ulcer, 24 were benefited by therapy, with 19 showing excellent or marked improvement and 5 showing mild improvement . . . Side-effects rarely occurred and were generally mild and transitory . . .'

A MAJOR DEVELOPMENT IN THE TREATMENT OF **BRONCHOSPASM**

Most known treatments for bronchospasm suffer from at least one of three disadvantages: slow onset of action, short-lived relief, or high dosage.

The Prenomiser Plus, a new micro-aerosol introduced by Benger Laboratories Ltd., eliminates all these drawbacks - thus taking a major step forward in the treatment of bronchospasm.

The Prenomiser Plus employs a long-acting drug combination - isoprenaline sulphate and atropine methonitrate - which gives immediate and prolonged relief from bronchospasm. This prolongation of effect helps prevent patients from becoming over-dependent on inhalation therapy - as is possible when short-acting bronchodilators are too frequently used.

Another advantage of the Prenomiser Plus is that this prolongation of effect is afforded by a dosage that is minute; in fact, the dosage of isoprenaline in this form is 200 times less than that of isoprenaline administered sublingually. Side-effects, such as tachycardia, are therefore eliminated.

To summarise: rapid action, prolongation of bronchodilatory effect and minute dosage, together with simplicity of use, combine to make the Prenomiser Plus the most advanced bronchodilator available today.

PRESENTATION

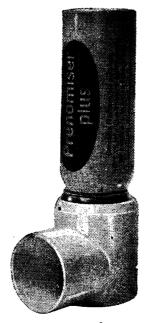

The Prenomiser Plus Is a micro-aerosol presentation of isoprenaline sulphate B.P. 0.1% w/w plus atropine methonitrate B.P. 0.04% w/w in an inert propellant. Each aerosol container provides 200 doses. When empty, the complete unit, including mouthpiece, is disposable.

NOT IN OUR FAMILY

There are so many of us Volkswagens, we have to be careful. Everywhere people trust us; from the jungle tracks of Brazil to the frozen lands of the north. They are buying us as fast as we come, over a million a year. So our inspectors at the factory have to be very careful about whom they let out. Thousands of them inspect our every part. Thousands more re-inspect us. Even the parts like paint, chrome and interior finish are closely scrutinised. (A barely visible scratch would have any of us labelled black and sent back.) You can't slam a door on us without lowering the window; for we're airtight. But you can float us; for we're watertight, too. We're so well made and so painstakingly finished, that we keep our value and last you for a long long time. All of us, whatever our shape. For we have no black sheep among us.

TYPHOID FEVER

And Other Salmonella Infections

Bv

RONALD L. HUCKSTEP M.A., M.D., F.R.C.S.

350 pages 69 illustrations 42s.

"In this book Mr. Huckstep gives a most readable and comprehensive account of typhoid in all its aspects as it is seen to-day. After a résumé of the history of the typhoid fevers he deals systematically but concisely with the epidemiology, bacteriology, and pathology of the disease before passing on to its clinical and laboratory diagnosis, its prophylaxis, and then to the treatment of the disease and of its complications. There is a final and most informative section on specific aspects of the condition.

"There is no other available work on this disease with so wide a coverage and such a wealth of up-to-date information so clearly set out. It can unhesitatingly be recommended."-British Medical Journal.

GOOD GENERAL PRACTICE

In the Royal Army Medical Corps you can practise medicine in very good conditions. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work and devote more time to the care of your patients. There is great scope for the family doctor, particularly overseas, as the Royal Army Medical Corps looks after a very large number of women and children.

Great importance is attached to post-graduate study, and, during their service, permanent officers are given the opportunity of sitting for diplomas, such as D.C.H., D.Obst. R.C.O.G.

There is a large and comprehensive hospital service, consisting of thirty military hospitals at home and overseas, with consultant opinion readily available to you. As a general practitioner, you are welcomed in the hospital to consult with your brother officers and follow up your cases.

Married quarters are provided, and you can count on regular off-duty periods with opportunities for games and social activities; there is generous annual leave on full pay without the trouble or expense of finding a locum.

FULLY REGISTERED PRACTITIONERS may apply for permanent or short service commissions. Minimum entry salary £2,000 p.a. Credit is given for previous experience and there are good opportunities for specialist training and rising to consultant rank. Consultants may earn from £4,000 to £5,000 p.a. depending on seniority. Suitable officers may be given employment to the age of 65. For all officers holding permanent commissions there is a non-contributory pension scheme. DOCTORS IN PRE-REGISTRATION YEAR are also eligible for commissions. Board and lodging is free; salary £875 p.a. or £1,050 p.a. if over age 25.

THE AFOVE SALARY SCALES INCLUDE MARRIAGE ALLOWANCE

MEDICAL STUDENTS are eligible for cadetships. Salary £950 p.a. for single men, and for married men under 25.

The booklet, 'A Career for Doctors in the R.A.M.C.,' may be obtained from The Director General, Army Medical Services, The War Office (HNR/6/B), London S.W.1. Tel: GRO 8040. Ext. 740.

NATIONAL HEART FOUNDATION

NATIONAL HEART FOUNDATION OF AUSTRALIA

FELLOWSHIPS AND GRANTS
FOR RESEARCH
Applications, closing June 30, 1963, are
invited from those seeking financial assistance in research broadly related to cardiovascular problems. The work may be
pursued in any of the basic medical
sciences or as a clinical investigation.
Awards will be made in the form of
Research Fellowships, Grants-in-Aid and
Overseas Travel Grants.
RESEARCH FELLOWSHIPS
These Fellowships will be open to University graduates who will engage in fulltime research in approved laboratories and/
or clinics.
Research Fellowships: for graduates up
135 years of age who have shown promise
first instance for research; tenders to the
first instance for one for two years commencing salary not less than £1,500 per
annum.

annum.

Senior Research Fellowships: for graduates with substantial experience and proven ability in research; tenable for three to five years; commencing salary not less

ability in research; tenable for three to five years; commencing salary not less than £2,750. Overseas Research Fellowships: for graduates with at least two years' experi-ence, and significant achievement, in re-search; normally tenable for three years, of which the first two will usually be spent overseas and the third in Australia; com-mencing salary within an adjusted range for Research and Senior Research Fellows. A travelling allowance equivalent to tourist

class air fare for the Fellow and his family will be paid.
GRANTS-IN-AID
These will be awarded only to non-profit institutions in Australia which possess the requisite basic research facilities. Grants will be made for one to three calendar years to support a particular research programme, normally under the supervision of a full-time resonable investigator, and

years to support a particular research programme, normally under the supervision of a full-time responsible investigator and with the approval of the Head of the relevant department.

A grant may cover salaries for full-time or part-time research assistants and for technical and other assistants, equipment, and supplies. It will not normally exceed £5,000 in any one year.

OVERSEAS TRAVEL GRANTS
These will be awarded to experienced research workers and clinicians to enable them to take up full-time research posts overseas or to gain experience of overseas developments in cardiovascular research and techniques. They cover the cost of tourist class air fares only, and additional stipends or allowances will not normally be paid. DIACATIONS CLOSE ON

be paid.

APPLICATIONS CLOSE ON
JUNE 30, 1963

Classified Advertisements

Please write advertisements and name and address clearly in BLOCK CAPITALS and send to the Classified Advertisement Manager, British Medical Journal, B.M.A. House, Tavistock Square, London W.C.1. PLEASE ENCLOSE PAYMENT with advertisements to avoid delay and cut down book-keeping entries.

Classified Advertisement rates are as follows:

APPOINTMENTS IN GENERAL PRACTICE. Practices; Partnerships; Assistantships; Locums and other situations; Dispensers or Secretaries. Members' rate: minimum charge 18s. for eighteen words. Additional words at the rate of 6s. for each six or less. Non-members' rate: minimum charge 22s. 6d. for eighteen words Additional words at the rate of 7s. 6d. for each six or less. Box Number extra.

PUBLIC APPOINTMENTS: Hospitals; Public Health; the Services; Commercial; Industrial; University and Research and other medical situations: Educational and Lectures; Scholarships; Practices (Executive Councils); Non-Medical Posts and Homes. Minimum charge 32s. for four lines and 8s. for each additional line.

BOX Number extra.

GENERAL AND COMMERCIAL. Notices; Meetings; Accommodation; Consulting Rooms; Houses and Property; Cruises and Tours: Hotels; Nursing, Medical, and Secretarial Agencies; Commercial. Minimum charge 42s. for twenty-one words. Additional words at the rate of 14s. for each seven or less. BOX Number extra.

DOCTORS' PERSONAL ADVERTISEMENTS. Minimum charge 21s. for fourteen words. Additional words at the rate of 7s. for each seven or less. BOX Number extra.

BOX NUMBERS. The BOX Number address forms part of the advertisement and counts as seven words. An additional charge of 1s. is made to cover the box fee and postage of replies.

REPLIES TO BOX NUMBERS. The names and addresses of advertisers under box numbers are held by us in strict confidence and cannot be disclosed. Each Box No. should be addressed separately. Two or more replies can be enclosed in one envelope. The replies will be forwarded to the advertisers in plain envelopes.

SEMI-DISPLAYED ADVERTISEMENTS

are charged at the rate of £6 per single column inch and pro rata.

All advertisements, subject to approval, will appear in the forthcoming issue provided they reach this office not later than 1 p.m. on the Monday before the date of issue.

Cancellations and/or corrections of advertisements must be received before 2 p.m. on the Monday prior to the date of issue (issues affected by public holidays excepted).

Every effort is made to ensure the accuracy of advertisements appearing in the Journal. No recommendation is implied by acceptance, and the Editor of the British Medical Journal reserves the right to refuse or interrupt the insertion of any advertisement.
