New long-term therapy for asthma PARTICULARLY SUITABLE FOR CHILDREN

WORTEL.

ISOPROPHENAMINE COMPOUND

TRADE MARK

'Vortel' provides a balanced approach to asthma treatment. It produces broncho-dilatation, controls allergic symptoms and allays nervousness. It is consistently anti-asthmatic—

prophylactically... in acute attacks... in long-term treatment—and is particularly valuable in relaxing spasm of the bronchioles in bronchial asthma. 'Vortel' is especially useful for the younger patient.

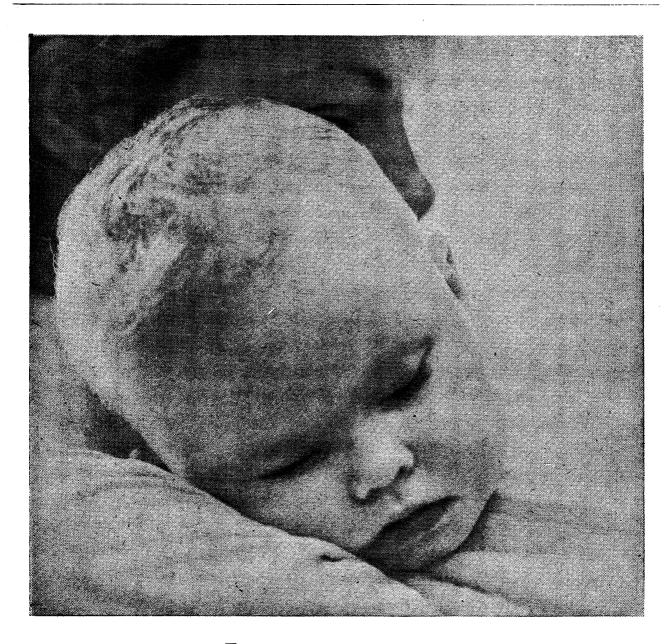

Presentation:

Syrup 'Vortel' and 'Pulvules' 'Vortel'. Each 5 ml. (teaspoonful) of the Syrup and each of the 'Pulvules' contains:

Isoprophenamine Hydrochloride 10 mg.
Ethomoxane Hydrochloride 1.5 mg.
Thenylpyramine Hydrochloride 16 mg.
Syrup: 4 and 16 fl. ozs. 'Pulvules': 100 and 500

ELI LILLY AND COMPANY LIMITED · BASINGSTOKE · ENGLAND

Drapolene specific for napkin rash

The success of Drapolene as a preventive and treatment of napkin rash is due to its activity against the urea splitting organisms which are known to be the causative factor of this common skin condition.

Drapolene is formulated in a pleasant water miscible base which promotes residual activity, thus preventing the liberation of free urinary ammonia. Drapolene is quick acting, even where an ulcerated condition has developed. It also assists cleansing of the affected area.

FORMULA

Benzalkonium chloride: 0.01 per cent in a water miscible base.

BASIC N.H.S. COST

Counteracting protein loss in the elderly

In the elderly, the lack of interest in food is both cause and result of failing energy and vitality.

ORABOLIN ensures full use of such nitrogen as is available in the food, thus counteracting body protein loss; the renewed vigour and appetite lead to improved independence and gain in weight.

ORABOLIN is effective in doses as low as 0.05 mg. per kilo body weight, well tolerated and free from liver toxicity or other harmful effects.

DOSAGE

FORM AND PACKS

1 to 2 tablets daily. Scored tablets containing: 2 mg. ethylestrenol. Bottles of 25 and 100

TARCORTIN FOR ECZEMA

A HEALING COMBINATION — TAR + HYDROCORTISONE

In Tarcortin cream the combination of tar with hydrocortisone has provided a preparation with spectacular results in cases of eczema and other dermatic affections - both sub-acute and chronic. Clinical trials have shown that the combination of tar with hydrocortisone is more effective than either preparation alone. The photographs show the response of a case of eczema to only two days' treatment with Tarcortin.

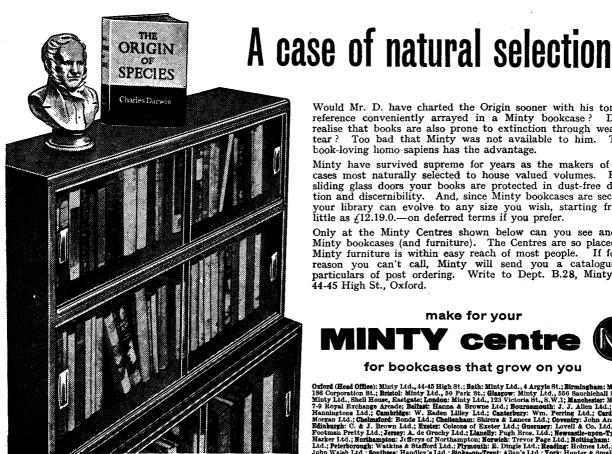

Tarcortin is supplied in 7gm and 15gm tubes containing 0.5% hydrocortisone and 5% special coal tar extract in a vanishing type base. Literature and samples are available on request.

Face Eczema March 26

STAFFORD-MILLER LTD., HATFIELD, HERTFORDSHIRE By arrangement with Reed & Carnrick, Kenilworth, New Jersey, U.S.A. (est. 1860)

Would Mr. D. have charted the Origin sooner with his tomes of reference conveniently arrayed in a Minty bookcase? Did he realise that books are also prone to extinction through wear and tear? Too bad that Minty was not available to him. book-loving homo sapiens has the advantage.

Minty have survived supreme for years as the makers of bookcases most naturally selected to house valued volumes. Behind sliding glass doors your books are protected in dust-free distinction and discernibility. And, since Minty bookcases are sectional, your library can evolve to any size you wish, starting from as little as £12.19.0.—on deferred terms if you prefer.

Only at the Minty Centres shown below can you see and buy Minty bookcases (and furniture). The Centres are so placed that Minty furniture is within easy reach of most people. If for any reason you can't call, Minty will send you a catalogue and particulars of post ordering. Write to Dept. B.28, Minty Ltd., particulars of post ordering. 44-45 High St., Oxford.

makes TB dosage more flexible

Whichever school of PAS-isoniazid therapy you favour—b.i.d. or t.i.d.—PYCASIX, the new 6-cachet daily form of Pycamisan, suits either and gives the full daily requirements of both drugs in the minimum number of cachets. Each daily dose is presented in a single packet, an incentive for the patient to take his full dose regularly.

Each daily dose of 6 cachets provides 12 G. sodium aminosalicylate B.P. and 300 mg. isoniazid B.P. Tins of 180 cachets (1 month) and 360 cachets (2 months).

6-CACHET DAILY PAS-INH THERAPY

THESE ARE THE CURE RATES WHICH MAY BE EXPECTED IN THE TREATMENT OF AMOEBIASIS WITH

EFFECTIVE Cure rates of 75% to 80% in the acute stage, and 90% to 100% in the chronic condition may be expected.

CONVENIENT No injections, no enemas, no special diet. Furamide is very suitable for ambulant patients.

SIMPLE Dosage is simple—1 tablet three times daily for ten days in patients of average weight.

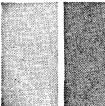

SAFE Side-effects are unlikely. The toxicity of Furamide is very low.

ECONOMICAL Hospitalization is not normally necessary so that treatment with Furamide is cheaper than the older forms of therapy.

Extensive clinical trials in many tropical and sub-tropical countries have borne out these claims. A list of references and detailed literature will gladly be sent on request.

FURAMIDE Each tablet contains 0.5 G of Entamide (diloxanide) furoate. Packed in bottles of 15 and 250 tablets.

one certain fact in hypertension

It is suitable for all grades of hypertension

Satisfactory response in most patients

More than 280 papers provide a positive clinical background

Easy to administer—one dose daily

Long-term control readily maintained

In wide clinical use for over three years

Named the drug of choice by many authorities

Since the introduction of Ismelin over three years ago, it has been extensively investigated in many parts of the world: many authorities have described it as "the drug of choice." * Ismelin provides satisfactory control of blood pressure in nearly 90% of cases, with a single daily dose and with relative freedom from side-effects.

Because of its superior control and ease of use, Ismelin is now widely prescribed in general practice. The hypotensive effect is potent and prolonged, yet easily controlled. Tolerance and drug resistance are rarely a problem with Ismelin, so that control is readily maintained over long periods without undue inconvenience to the patient and with reasonable economy.

VEB GEORG THIEME LEIPZIG

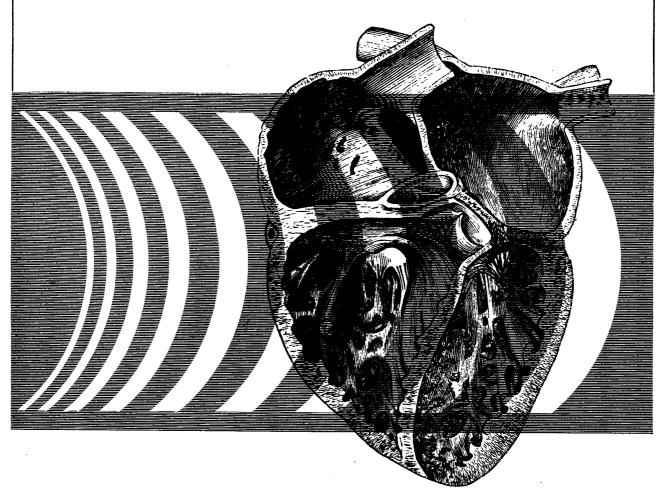

Deutsche Demokratische Republik

Persantin has been shown in both animal and human studies to be a potent coronary vasodilator. In the treatment of ischaemic heart disease Persantin should be given in a dosage of two 25mg. tablets three times a day before meals. Experience has shown that this regime may have to be maintained for at least two or three months before results can be assessed. Further information on Persantin is readily available on request.

for coronary vasodilatation

new from GLAXO

first British quadruple vaccine

OUADBLIN

Quadrilin is unique. It gives protection simultaneously against the four most dangerous childhood diseases:

pertussis diphtheria tetanus and poliomyelitis

the name Quadrilin is a Glaxo trade mark

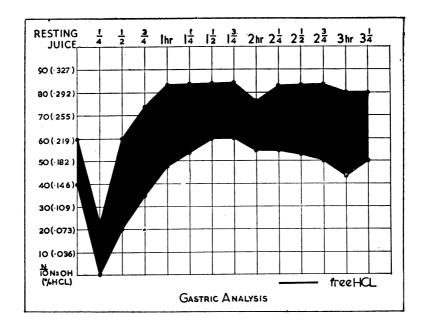

Laboratory and clinical trial 1.2 has confirmed that Quadrilin is a highly potent vaccine that produces an adequate response to all components.

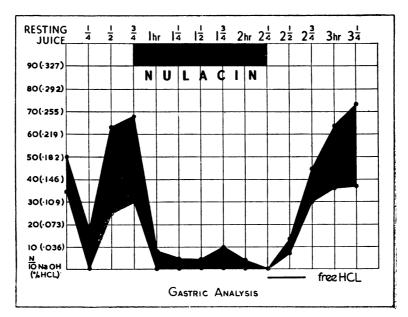

By simplifying immunisation,
Quadrilin can help to multiply
considerably the number of
children being protected in the
critical early months of life.
Because of the extremely high
potency of the pollomyelitis
fraction of Quadrilin (especially the
Type 1 component) it can be given
as early as three months of age to
fit in with the Ministry of Health
Schedule P.

In boxes of 1ml single dose ampoules.

Wright's Coal Tar Soap has been in continuous use by the Medical Profession for nearly a century. Its world-wide use is largely due to professional approval of its quality, and to the fact that it contains the original 'Liquor Carbonis Detergens'. Even in 1882 this ingredient was described by the B.M.J. as "by no means a new preparation".

To maintain this front-rank position has not been easy. It has called for unremitting effort, continuous improvements in technique, ever higher analytical standards, and a record of service in which we take modest pride.

DRUGS in the TREATMENT of DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the British Medical Journal, the book presents an up-to-date, indexed, authority on medicinal treatment—of considerable help to the doctor in choosing the best drug for his patient.

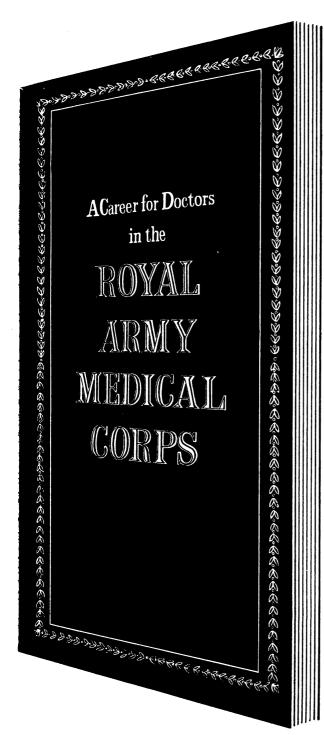

Medium 8vo. 570 pages. 36s. 91. by post (cover price 35s.)

GOOD GENERAL PRACTICE

In the Royal Army Medical Corps you can practise medicine in very good conditions. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work and devote more time to the care of your patients. There is great scope for the family doctor, particularly overseas, as the Royal Army Medical Corps looks after a very large number of women and children.

Great importance is attached to post-graduate study, and, during their service, permanent officers are given the opportunity of sitting for diplomas, such as D.C.H., D.Obst.R.C.O.G.

There is a large and comprehensive hospital service, consisting of thirty military hospitals at home and overseas, with consultant opinion readily available to you. As a general practitioner, you are welcomed in the hospital to consult with your brother officers and follow up your cases.

Married quarters are provided, and you can count on regular off-duty periods with opportunities for games and social activities; there is generous annual leave on full pay without the trouble or expense of finding a locum.

FULLY REGISTERED PRACTITIONERS may apply for permanent or short service commissions. Minimum entry salary £2,000 p.a. Credit is given for previous experience and there are good opportunities for specialist training and rising to consultant rank. Consultants may earn from £4,000 to £5,000 p.a. depending on seniority. Suitable officers may be given employment to the age of 65. For all officers holding permanent commissions there is a non-contributory pension scheme. DOCTORS IN PRE-REGISTRATION YEAR are also eligible for commissions. Board and lodging is free; salary £875 p.a. or £1,050 p.a. if over age 25.

THE ABOVE SALARY SCALES INCLUDE MARRIAGE ALLOWANCE

MEDICAL STUDENTS are eligible for cadetships. Salary £950 p.a. for single men, and for married men under 25.

The Booklet, 'A Career for Doctors in the R.A.M.C.,' may be obtained from The Director General, Army Medical Services, The War Office (HNR/6 D), London S.W.1. Tel: GRO 8040. Ext. 740.

ARE YOUR HYPERTENSIVES PLAGUED BY DEPRESSION?

Presented are notes from three clinical studies. Harmonyl was used as sole agent of therapy by 343 mixed hypertensives, and patients with mild functional/psychiatric disorders. Only eight reported mild depression concurrent with therapy—an incidence of 2.33%.

Study No. 1. Two hundred and eighty-three patients treated in private practice, at hospital outpatient clinics, and in office psychiatric practice. Average initial dosage of Harmonyl was 0.1 mg. to 0.25 mg. three or four times daily. No patient received more than 6 mg. daily. Eight reports of mild depression. Study No. 2. Eighty patients with benign essential hypertension were studied via 'double-blind' method. Mean daily dosage of Harmonyl was 0.25 mg., with a minimum dosage of 0.1 mg. and a maximum of 0.5 mg. daily. No reports of depression in the group of 20 on Harmonyl therapy.

Study No. 3. Forty patients with hypertension and anxiety neurosis...from mild to moderately severe. Half of the group had received other anti-hypertensive agents at one time or another; these were discontinued before and throughout the study. Usual dosage of Harmonyl was 0.1 mg. three times daily after meals. Sometimes an additional dose was taken at bedtime. No reports of depression associated with this therapy. Other investigators have found so little indication of depression with Harmonyl therapy that they do not record it as a significant side-effect.

In convalescence after serious illness **ANABOLEX**

ANABOLEX promotes return of appetite, increased weight and a sense of well-being

Convalescence can be shortened by the administration of ANABOLEX, which stimulates protein metabolism. ANABOLEX is indicated for all patients—adults and children—in negative nitrogen balance.

Presentation: Tablets each containing 25 mg.

androstanolone in vials of 25, 100 and 250. Dose: The maintenance dose of Anabolex is 2-3 tablets daily and, based on the new reduced NHS price, costs only 1/11d. a day. ANABOLEX—the non-virilizing anabolic compound.

The anti-inflammatory steroid which has proved so successful in the treatment of asthma is also highly effective in cases of severe hay fever. Betamethasone, with its high potency, is well suited where systemic treatment is indicated in severe attacks. A few days' treatment will usually control the condition rapidly but the continued local application of a spray may also be indicated.

Betamethasone is available in two forms—the alcohol (Betnelan tablets) and the phosphate (Betnesol tablets). Betnesol tablets are effervescent and dissolve completely in water providing a palatable solution. Administration of the steroid in solution has been shown to reduce the risk of steroid-induced dyspepsia and at the same time provide maximum efficiency and consistency of absorption.

Mild attacks of hay fever can often be controlled by Betnesol-N Nasal Spray. This product also contains the soluble form of betamethasone and can therefore reach inflamed tissues more readily. Neomycin, with its wide range of activity and low risk of sensitisation, is included to control any infection

which may be associated with the primary condition. Naphazoline is included for its decongestive action; a lower than usual concentration minimising any risk of the 'rebound phenomenon' which may sometimes follow too intensive a use of vasoconstrictors.

Betnelan tablets

0.5mg betamethasone. Bottles of 30, 100 and 500 Betnelan Half Strength tablets

0.25mg betamethasone. Bottles of 30, 100 and 500

Betnesol tablets

Betnesol-N Nasal spray

0.02% betamethas one disodium phosphate 0.59% neomycin sulphate 0.02% naphazoline nitrate. 15ml plastic squeeze bottles

The names Betnelan and Betnesol are Glaxo trade marks

confidence in SALURIC is a matter of fact

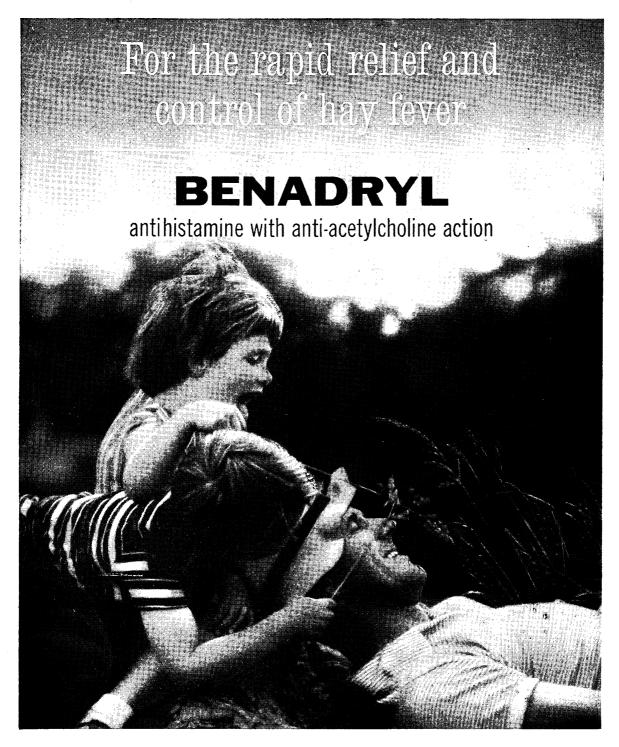

-and justified by experience

Few if any practising physicians have not prescribed SALURIC: in fact chlorothiazide BP is the original and only official thiazide diuretic. Backed by over 900,000,000 'patient days' of use, SALURIC is unsurpassed in therapeutic effectiveness and safety. It has the advantage of a short duration of action, allowing uninterrupted nights for the patient.

Supplied as white, half-scored tablets containing 0.5G chlorothiazide **BP** (tab. chlorothiaz. **BNF**). Detailed information on indications, dosage, administration, precautions and bibliography is available on request.

BENADRYL* provides effective antihistaminic action supplemented by a marked atropine-like effect to give comprehensive relief from allergic rhinitis. Lachrymation, nasal congestion, sneezing and irritation are brought swiftly under control. Benadryl (diphenhydramine hydrochloride B.P., Parke-Davis); capsules of 25 mg. and 50 mg. in bottles of 50 and 500.

WILL SHE TAKE IRON?

Most oral iron preparations are well absorbed *if* the patient takes them.

So important is patient co-operation that the success of iron therapy often depends on its acceptability. Ferrodic tablets, with their exceptionally low toxicity*, rarely cause gastric irritation and are so palatable that they can be sucked or chewed. Consequently, the safest oral iron also tends to give more reliable results in practice.

* Pharmacological studies in dogs. Lancet, (1960) ii, 1304.

FERRODIC LOW TOXICITY IRON

Each tablet contains: Ferrous iron (as ferrous carbonate) 50 mg, ascorbic acid 12.5 mg.

Manufactured in England by

ALLEN & HANBURYS LTD LONDON E2

a new Riker antihypertensive

with great potential in general practice

Thiaver is particularly valuable in general practice for that large group of hypertensive patients who are not adequately controlled by milder agents and their combinations. Thiaver provides an alternative to adrenergic or ganglion-blocking agents whose use is often limited by the side-effects they produce.

Potent yet suitable for prolonged use *Thiaver* combines the hypotensive properties of *Veriloid*, one of the few effective centrally-acting antihypertensives, with those of epithiazide, a new potent diuretic/hypotensive, to provide smooth but positive control of blood pressure with gradual onset of effect. Outstanding advantages of *Thiaver* are that it does not cause postural hypotension nor does tolerance develop.

Very simple dosage Treatment with *Thiaver* is free from the need for frequent and critical dosage adjustment. Satisfactory control of blood pressure is obtained in most patients with two or three tablets daily. Each tablet contains *Veriloid* (standardised alkaloids of *Veratrum viride*) 4 mg. and epithiazide 4 mg.

Packs: Bottles of 100 tablets 48/- basic NHS price 500 tablets 234/- basic NHS price

EDUCATIONAL

SCHOLARSHIPS

THE NUFFIELD FOUNDATION

THE NUFFIELD FOUNDATION

SCHOLARSHIPS IN FOOD SCIENCE

The Nuffield Foundation, with the aim of helping to advance fundamental research in food science, is prepared to offer annually up to five research scholarships for science graduates and up to three research scholarships for medical or veterinary graduates. The Foundation hopes these awards will be helpful in attracting more people to make a career in the field of focd science research. The awards, tenable for periods of up to four years, are intended to provide suitable graduates with research experience to Ph.D. level, together with some formal training in selected subjects. The choice of subjects for study and research will be related to a candidate's background and interests, with special reference to toxicology, pharmacology or pathology. The value of the awards, which will be fixed according to age, qualifications and experience, should make them of considerable interest. The awards can be supplemented by the amount of fees, marriage and child allowances, and, in appropriate cases, research expenses. The scholarships are open to men and women holders of a science, medical or veterinary degree of a U.K. or other Commonwealth university.

Applications may be submitted by July 1, 1963. Further particulars and forms of an iciation are available from the Director, The Nuffield Foundation, Nuffield Lodge, Regent's Park, N.W.1. (6485)

UNIVERSITY OF CAMBRIDGE

HOMES

BARNWOOD HOUSE
BARNWOOD, GLOUCESTER (66207)
Established 1860,
A private hospital (outside the Nationa Health Service) for the care and treatmen of nervous and mental disorders and geriatric cases. Wide range of fees. Apply Medical Superintendent.

BOWDEN HOUSE CLINIC Harrow-on-the-Hill, Middlesex Established in 1911 Tel.: BYRON 1011 and 4772.

Established in 1911. Tel.: BYRON 1011 and 4772.

(Incorporated Association not carried on for profit)

A private clinic outside the National Health Service for the treatment of patients suffering from the neuroses, sychosomatic and nervous disorders, also the specialized treatment of alcoholism and drug addiction. All modern forms on physical psychiatric treatment and intensive psychotherapy are employed. A full physical examination and pathological investical examination and pathological investical examination and pathological investical examination and pathological investical retainent by members of the staff is in clusive. The clinic is a 30 minutes' journey by train or road from Marble Arch, and is surrounded by six acres of grounds, so that there are quiet and tranquil surroundings within easy reach of London.

Consulting Psychiatrist:

E. A. Bennet, M.C., M.D., D.P.M.

Medical Director;

Glyn Davies, B.A., M.R.C.S., D.P.M.

ST. ANDREW'S HOSPITAL

ST. ANDREW'S HOSPITAL FOR NERVOUS AND MENTAL DISORDERS

FOR NERVOUS AND MENTAL DISORDERS
NORTHAMPTON
President: The Earl Spencer.
Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.
This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senie illnesses. The fees range from fourteen guineas per week, Private rooms with special nurses can be provided either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds, which provide all recreational facilities These include a nine-hole golf course gardening, fruit growing, etc.

WANTAGE HOUSE
This is a separate reception unit to which

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

chemical, bacteriological and pathologica' research.

MOULTON PARK
Some two miles from the main hospital is the farm of approximately 600 acres Occupational therapy is a feature of this branch, and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

BRYN-Y-NEUADD HALL
The seaside home of the hospital is beautifully situated in a park of 330 acres in Llanfairfechan, amidst the finest scenery in North Wales. On the north-west side of the estate a mile of sea coast forms the boundary. Patients may visit this hom for a short seaside change or for longer beautifully in the world of the decidence of the seasoner.

For terms and further particulars apply to the Medical Superintendent (Telephone No. 34534, Northampton), who can be seen in London by appointment.
