

SYR. FERRI PHOSPH. CO. (AMERICAN)

PARRISH'S CHEMICAL FOOD,

PREPARED BY PARRISH, OF PHILADELPHIA,

And Imported by his **SOLE AGENTS,****P. & P. W. SQUIRE, 277, OXFORD STREET, LONDON, W.**

For convenience and security, this preparation is supplied in 4 oz., 8 oz., and 1 lb. bottles.

Each Bottle bears the name **SQUIRE** on the Seal and Label.**NEPENTHE.**

PREPARED EXCLUSIVELY FROM OPIUM. (Dose the same as Tinctura Opii.)

Price 8s. per lb.

From the "Lancet," Dec. 18, 1869.

"NEPENTHE, OR ANODYNE TINCTURE, prepared by Messrs. FERRIS & Co., Bristol.—This preparation really consists, as stated, solely of opium, resembling somewhat the liquid extract of the British Pharmacopœia. It is claimed for it that it does not produce headache, stupor, giddiness, depression of spirits, diminution of nervous energy, prostration of strength, nor constipation; it is doubtless less stimulating than those preparations of opium made with the solid and crude drug; and a further commendation of Nepenthe is its uniformity of strength. The Nepenthe intended for subcutaneous injection is of double the ordinary strength; and that it is really so we have verified by analysis."

*May be procured direct from the Sole Manufacturers,***FERRIS, BOORNE, TOWNSEND, and BOUCHER,**
Wholesale Druggists, Bristol,*And through all leading Wholesale and Retail Chemists in Great Britain and the Colonies.***NOTICE.**—Notwithstanding the enormous and increasing advance in Opium, the price of Nepenthe remains the same, and it is now the cheapest as well as the best preparation of this important drug.**N.B.**—Two pounds Nepenthe, or one pound Nepenthe and two pounds Ferris & Co.'s Syrup of Chloral will be sent Carriage Paid to any Railway Station on receipt of P.O.O. for Sixteen Shillings.**CHLORODYNE.****[SPECIAL NOTICE.]**

The absurd statements that have recently appeared in Medical and other Journals respecting the constituents of CHLORODYNE (each analysis differing widely), J. T. DAVENPORT is compelled to further caution the Profession against using any Compound under the name of Chlorodyne but the genuine, which alone has gained such extraordinary celebrity.

J. T. DAVENPORT appends Medical Testimony in confirmation of the above.

The wonderful efficacy of Chlorodyne being universally acknowledged, it must be evident to all that the assumption of the name to any other Compound than the Genuine is not only improper, but unprincipled, as it is liable to injure the health of the patient and cause discredit to the physician. Even death has resulted from the use of spurious Chlorodyne when benefit had been previously experienced from the Genuine; and this melancholy circumstance has no effect in restraining these heartless proceedings.

From **Dr. J. WILSON**, Castleton, Yorkshire.

"I require to use a considerable quantity of Chlorodyne in cases where no other medicine is of the least avail; and my object in wishing a supply from your own establishment is, that I am frequently deceived by getting a *spurious* article from other places, although I never order anything but the genuine Brown's Chlorodyne."

From **JAS. ATKIN, M.D.**, Medical Officer, Fever Hospital, Oldcastle, Co. Meath.

"Having ordered from our Druggists 'Chlorodyne,' I was not only **DISAPPOINTED** IN ITS EFFECTS, but annoyed when I received a spurious compound. I have been in the habit of using your Chlorodyne with great advantage to my patients and satisfaction to myself."

From **F. E. BARTON, Esq.**, Surgeon, Dover.

"I have now used your Chlorodyne in numerous cases, and have much pleasure in adding my testimony to its very great efficacy as an Anti-spasmodic and Anodyne, having found it especially valuable in those cases in which Opium does not agree well with the patient."

From **THOMAS F. HALE, Esq.**, Surgeon, Saundersfoot, Pembrokeshire.

"SIR,—I should be much obliged by your forwarding three bottles of Dr. J. COLLIS BROWNE'S CHLORODYNE, which I have found most useful in allaying pain. have used twelve ounces of it, and in nearly every case in which I have employed it have every reason to be satisfied with the results, and although I object, as a rule, to use any preparation of a secret nature, and whose composition I am not fully acquainted with, still, having once tried the Chlorodyne, and found that it really did produce the effects stated, I do not think I should be justified in withholding such a preparation from my patients, when I see the value of the remedy."

From **Lord FRANCIS CONYNGHAM**, Mount Charles, Donegal, December 11th, 1868.

"Lord Francis Conyngham, who, this time last year, bought some of Dr. J. Collis Browne's Chlorodyne from Mr. Davenport, and has found it a most wonderful medicine, will be glad to have half a dozen bottles sent at once to the above address."

"EARL RUSSELL communicated to the College of Physicians that he received a dispatch from Her Majesty's Consul at Manila to the effect that Cholera has been raging fearfully, and that the **ONLY** remedy of any service was CHLORODYNE."—See *The Lancet*, 1st December, 1864.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of CHLORODYNE,—that the whole story of the Defendant was deliberately untrue, which, he regretted to say, had been sworn to."—See *Times*, 13th July, 1864.

The Sole Manufacturer of **DR. COLLIS BROWNE'S Chlorodyne** is**J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury Square,**

Who alone received the Recipe, and who is the Only Authorised Maker.
