The Family Planning Association advises that for maximum safety any chemical contraceptive should be used with a mechanical barrier.

The doctor and the patient are the best judges of which method of family planning meets the circumstances of the individual. Obviously, aesthetic considerations are important. And this is one reason why Gynomin tablets and Antemin cream are so widely recommended. Both products are efficiently spermicidal, unobtrusive, easily applied and approved by the Family Planning Association. One or the other suits a great many fastidious people. We shall be pleased to send you professional samples, together with copies of our booklet, 'Planned Parenthood'.

## A more normal life for the hypertensive patient

69931

**ALDOMET**  
METHYLDOPA REGD

as the literature reports

'We found little postural effect, with considerable lowering of the blood-pressure in the lying as well as the standing position.' *Lancet*, 1962, i, 300 (10 Feb)

'... methyldopa does not usually cause troublesome symptomatic postural hypotension...' *Lancet*, 1962, i, 763 (14 Apr)

'Methyldopa does not cause severe hypotension on exercise.' *Lancet*, 1962, i, 759 (14 Apr)

'The blood-pressure response to methyldopa was reasonably predictable without undue fluctuations...' *Brit. med. J.*, 1962, 2, 156 (21 Jul)

'... the dosage was less critical and the response easier to regulate than with ganglion-blocking and adrenergic-blocking compounds.' *Lancet*, 1962, i, 763 (14 Apr)

'Producing singularly few side-effects, particularly hypotension and severe gastro-intestinal symptoms, methyldopa presents a great advance in the treatment of hypertension.' *Brit. med. J.*, 1963, 1, 151 (19 Jan)

'Almost all of my patients on maintenance treatment have felt better and of those who had been previously treated with other hypotensive drugs, all emphasized their preference for methyldopa.' *Practitioner*, 1963, 191, 96 (Jul)

*Because of these advantages,  
'Aldomet' offers a fuller life  
for the hypertensive patient*

### METRULEN AND METRULEN-M

Metrulen	Ethinodiol diacetate	2.0 mg.
	Mestranol	0.1 mg.
Metrulen-M	Ethinodiol diacetate	1.0 mg.
	Mestranol	0.1 mg.

It should be noted that the amount of mestranol is the same in both tablets—half a Metrulen tablet is not, therefore, therapeutically equivalent to one Metrulen-M tablet.

### Indications

Metrulen	Endometriosis Threatened and recurrent abortion. Infertility due to inadequate luteal phase. Emergency treatment of functional uterine bleeding.
Metrulen-M	Functional uterine bleeding of all types—menorrhagia, metrorrhagia including metropathia haemorrhagica. Dysmenorrhoea. Premenstrual tension. Amenorrhoea. Oligomenorrhoea. Idiopathic infertility. Advancement or postponement of menstruation.

### Dosage

Full details of dosage and administration for the various indications are contained in the Metrulen and Metrulen-M New Product Brochure, available on request.

### Contraindications

Metrulen and Metrulen-M should not be prescribed for patients with carcinoma of the breast.

### Side-effects

Metrulen and Metrulen-M produce no effects other than those which may be produced by administration of the naturally occurring hormone progesterone when combined with oestrogen. Metrulen and Metrulen-M are extremely well tolerated and unwanted side-effects due to the hormonal activities are seldom encountered when they are prescribed in the manner recommended.

Nausea is occasionally encountered at the outset of treatment. As with other progestins, caution should be used when prescribing this compound for patients with hepatic disorders.

### Availability

Metrulen is supplied as uncoated, white tablets stamped 'SEARLE' on one side and with a pentagon on the other, in bottles of 20, 50 and 250. Metrulen-M is supplied as uncoated, white, pentagonal tablets stamped 'SEARLE' on one side, in bottles of 20, 50 and 250 tablets.

### **The London ; The Second Hundred Years, 1840-1948**

*A. E. Clark-Kennedy*

The story of The London, in this the second volume of Dr. Clark-Kennedy's work, flows against the social changes of the 19th century and the tragic events of the 20th. The story captures the spirit of the voluntary hospital system, a system which now belongs to a past age. **50s. net**

### **Teenagers Talking**

*H. Edelston*

Thoroughly revised and brought into line with present-day trends, this second edition, formerly called "Problems of Adolescents," is primarily the record of an experiment in sex education with adolescents: it takes a serious and much needed look at the difficulties encountered by teenagers. **10s. 6d. net**

### **The Porphyrrias**

*Geoffrey Dean*

One of the most remarkable medical books ever written, "The Porphyrrias" is not just a work on the disease, but it is also a fascinating study of genetics, and lastly it is a detective story that has taken the author back, in time over three hundred years, in order to trace the original carrier of the disease into South Africa. **25s. net**

### **The Central Middlesex Hospital**

*J. D. Allan Gray*

The life story of one of the best-known hospitals in the country, this book deals with the development of The Middlesex from its start, as a Poor Law Institution under a Board of Guardians, to its position now, as an outstanding hospital of the Modern Welfare State. **30s. net**

*By 276 Authorities—Published every two years*

Edited by Sydney S. Gellis, M.D., *Professor of Pediatrics, Boston University School of Medicine*, and Benjamin M. Kagan, M.D., *Director of Pediatrics, Cedars of Lebanon Hospital, Los Angeles*.

There has long been a need for some way to acquaint those who treat sick infants and children with the details of pediatric therapy currently used by specialists whose larger experience in limited areas gives them extensive and advanced knowledge. This book gives the personal approach and opinions of over 270 leading authorities from America and other countries, who devote a large part of their effort to keeping abreast of the most recent and complete information relative to the particular problem they discuss.

### WORLD HEALTH AND HISTORY

W. Hobson

This book is concerned with the war against disease which has been raging through the ages from prehistoric times. An altogether fascinating account, enlivened by vivid illustrations. The author, a member of the World Health Organization, also offers guidance for the future welfare of mankind.—A book which can be read with pleasure and profit, not only by members of the medical profession, but by all interested in the conquest of disease.

Price 45s., post 1s. 4d.

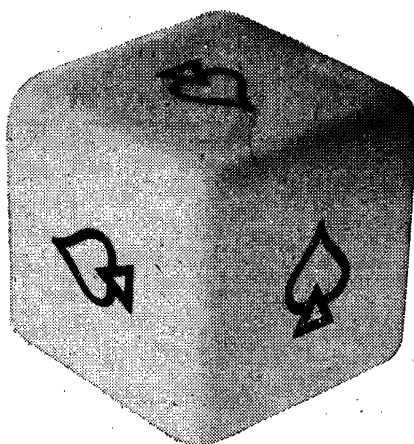

### CLINICAL PSYCHIATRY FOR THE LAYMAN

F. J. Fish

This book should fill a gap in the literature by providing all interested laymen with a sound grasp of the principles and practice of modern psychiatry. The contents are based on the author's lectures on the subject to mental health officers and theological students.

## SORE THROAT

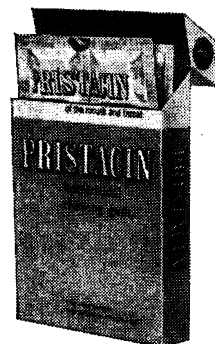

# PRISTACIN BACTERICIDAL CHEWING GUM

Pristacin is a simple and effective first choice treatment of sore throat because:—

- (a) *It is bactericidal*
- (b) *It increases salivation, rather than inhibiting it*
- (c) *It contains neither antibiotics nor sulphonamides*
- (d) *It contains no local anaesthetics*

Pristacin is a chewing gum containing 4 mg. cetyl pyridinium chloride in each piece. With chewing, this ingredient is slowly released and bathes the affected area in a concentration sufficient to inhibit the growth of most Gram-positive and Gram-negative organisms. Pristacin does not contain any antibiotics nor does it have any anaesthetic action. It is not contra-indicated during systemic therapy.

The packet of 12 pieces costs 1/8—basic NHS price—and the recommended dose is 3 to 4 pieces daily, each piece to be chewed for as long as possible.

Single daily doses of 5 to 10 mg. reliably clear oedema, while similar doses twice or thrice weekly maintain the oedema-free state. In hypertension, doses of 2.5 to 5 mg. daily lower the elevated blood-pressure and enhance the hypotensive effects of reserpine and ganglion-blocking agents. Aprinox is inexpensive—the basic NHS cost of 25 x 5 mg. Aprinox tablets is 3/9, (ex 500 pack).

has particular  
advantages

**ROTER** achieves a high cure rate and often gives effective control of even refractory chronic cases which have resisted other treatments.

**ROTER** in many cases obviates the need for hospitalization or surgical intervention.

**ROTER** helps patients to keep ambulant and symptom-free with a minimum of medication and with few, if any, dietary restrictions.

**ROTER** in general practice enables the physician to take adequate care of his gastric cases without frequent or prolonged supervision.

**ROTER** has no known side effects.

**ROTER** requires no supplementary medication such as sedatives or anti-spasmodics.

**ROTER** shows a saving in cost when compared with conventional methods of treatment.

# Synadrin

Regd. Trade Mark

## for the patient with angina pectoris

Synadrin is a specific coronary vasodilator, and is chemically unrelated to any known treatment for coronary disease. Its specific activity has been demonstrated in animal experiments<sup>11-17</sup> and it has been tested in over 1,000 patients<sup>1-10</sup>. Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."<sup>1</sup>

### Effective and safe

Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

### Dosage

Treatment may be initiated with 2 tablets, three times daily, reducing after three days to a maintenance dosage of 1 tablet two or three times daily.

### Presentation

Synadrin is presented as tablets, each containing 15 mg. of prenylamine lactate in bottles of 30 and 150 at basic NHS prices of 8/8d. and 34/8d. (subject to P.T.). Synadrin is known in some other countries as Segontin.

## FOR PLEASANT AND RELIABLE ORAL IRON FERRODIC TABLETS

To be effective, oral iron must first be *taken*. More than any other therapy, perhaps, acceptability can make all the difference between failure and success. Ferrodic tablets provide effective oral iron that your patient *will* take. So pleasant that they can be chewed, Ferrodic tablets are readily absorbed and utilised without causing gastric upsets. Low toxicity also reduces accidental hazards when there are young children about.

# 5 drops for the removal of **EAR WAX**

Cerumol avoids discomfort to the patient, inconvenience to the doctor and saves time for both.

Cerumol is now routinely used in most hospitals and general practices throughout the country.

Satisfactory results confirm that it is the most efficient agent yet introduced for the purpose and that it is exceptionally reliable and safe.

In 10-30 minutes the softened or disimpacted wax can usually be wiped out with a probe tipped with cotton wool, or by gentle syringing.

Patients can readily be instructed to instil the drops themselves and, in many cases, the loosened wax will run out of its own accord, rendering further attendance at the surgery unnecessary.

## RIKER

To extend their potential in the clinical assessment of new drugs, Riker Laboratories wish to appoint an additional Medical Practitioner in the Clinical Research Department of the Research and Development Division.

Candidates up to the age of 40 will be considered and experience in Hospital practice, while not essential, would be an advantage.

Based in Loughborough, the successful candidate will assist the Head of Clinical Research in initiating and integrating clinical results.

This appointment will be attractive to the medical practitioner who is considering a permanent career with a rapidly expanding ethical pharmaceutical company of international reputation.

Remuneration will be commensurate with ability and experience and a Company car will be provided. Other Company benefits (Contributory Pension Fund, etc.) will also apply.

Applications in confidence to:

# POLES APART

Rickets is prevented by cod liver oil. But rickets is an expression of hypovitaminosis D. It is sometimes argued, hypervitaminosis D must be a hazard of cod liver oil therapy. In fact, in the context of such therapy the two conditions are poles apart; and no unequivocal case of hypervitaminosis due to cod liver oil has ever been reported. Hypervitaminosis A or D is due to massive overdosage of these vitamins: the regular ingestion of 25 fluid ounces of cod liver oil daily in the case of hypervitaminosis A—4 fluid ounces daily for hypervitaminosis D. It is highly improbable that anyone would drink such an amount over a long period, even of the hermetic and very acceptable cod liver oil we now produce.

Perhaps the most relevant comments on this matter are provided by a leading British text on nutrition\*.

This says (p. 205) of hypervitaminosis A: "*Some concentrated preparation, such as halibut-liver oil, has usually been given in doses appropriate for cod-liver oil.*"

And of hypervitaminosis D (p. 209): "*the mother of an infant mistakes her instructions and gives some concentrated calciferol preparation by the teaspoonful—in the mistaken belief that it is similar to cod-liver oil—without realising that it may be fifty times more potent.*"

Idiopathic hypercalcaemia is a separate issue. It is not a simple hypervitaminosis—though it may be due to hypersensitivity to vitamin D—and it is not common. It seems usually to have been associated with an intake of vitamin D coming from a number of sources, especially those fortified with synthetic vitamin D<sub>2</sub>, whereas pure cod liver oil contains mainly the naturally occurring vitamin D<sub>3</sub>. Further, the recent drop in the degree of food fortification in this country has apparently been followed by a corresponding fall in the incidence of idiopathic hypercalcaemia. And finally, there is no report of this condition ever having been caused simply by ingestion of pure cod liver oil.

The danger of hypervitaminosis from cod liver oil is thus a largely theoretical one, and needs to be seen as such because of the increasing daily consumption of the oil by adults for its cholesterol-lowering action. At the opposite pole of cod liver oil therapy, rickets is now getting commoner again. We had thought that the disease was a thing of the past, but recently no less than 19 cases were reported in South East London. This is not surprising in view of the continuing apathy towards the uptake of welfare foods; but it is ironical that we should, in trying to avoid one unreal danger, be courting another that is very real indeed. Cod liver oil will certainly prevent rickets; and a speculative hazard should never be allowed to outweigh an established benefit.

**OLIVER TOURS**

14 BUTE STREET, LONDON, S.W.7.

It has been said that doctors buy tyres more frequently than shoes and that unless they can go by car they just do not go at all. Maybe this is true, maybe it is not, but there is no doubt that when it comes to holidays it is amazing how far you can travel these days with your car but without turning a wheel. Scotland, Devon, Norway, Sweden, Switzerland, Italy, Austria, and even down to Yugoslavia, all come within the scope of the ferry services, either train, sea, or air, or any combination of the three.

Undoubtedly when young—in years or heart—it is an adventure to motor several hundreds of miles a day for two or three days to a favourite resort, putting up at way-side motels, transport cafes, or luxury hotels, but after a few years this is not unlike commuting from Tunbridge Wells to the Harley Street area. There is a lot to be said, therefore, for arriving reasonably fresh at your destination still having your car available. The travel time saved can be put to great advantage.

Travelling by air this year does promise to be a little easier and in some cases cheaper than previously, and most of the Air Lines are increasing their number of services. It is a very wise move because more Travel Agencies are advertising "flights by scheduled services of international Air Lines", than has been their custom in recent years.

"Packaged" holidays—why not call them "inclusive" tours?—are being widely advertised, and at prices that seem incredibly low considering they include travel, accommodation, and tips—14 days in Italy £40, or in Greece £46, 15 days on the Costa del Sol £48, or touring Roumania £74. If you like sea holidays there is a Caribbean cruise, 32 days for £135, a Black Sea cruise, 18 days for £135, a cruise to the Azores, 17 days for 127 guineas or, for that matter, a cruise combined with air travel, 135 days to India, Polynesia, and China for £2,572.

**Life more

Relax, renew, recover! You, too, can find the source of overflowing life where so many sufferers have blazed the trail—in the remote stillness of a German healing spa, of which there are two hundred, scattered between the Alps and the sea. The people who run these resorts understand your need. Their quiet gardens, up-to-date treatment facilities and individual consultation with experienced physicians equipped with a background of extensive balneological research, are placed unstintingly at your disposal.

**A Cure in a spa will revitalize you**

To arrive at the final choice for a holiday is always difficult—you can follow the sun but even this offers such a wide range that elimination is necessary. Why not link up with a beer or wine holiday and, at the same time, enjoy the beautiful Rhine Valley, Cognac country, the sherry districts of Spain, or even the spas of Germany and France if you favour less potent but more healthy waters! Alternatively, why not a mildly gastronomical holiday—the various sections of the Mediterranean coast all offer their own specialities of fish, shell-fish, and other individual dishes that are most pleasing.

The popularity of renting villas and bungalows shows no sign of waning and can indeed provide an economical and relatively carefree holiday to the family man, particularly if domestic help and babysitters are available.

## DRUGS in the TREATMENT of DISEASE

An authoritative guide to the use and comparative efficacy of many drugs developed in recent years. It assists the practising doctor to compare the newer drugs with each other and with those older remedies that are still the best of their kind. Information is also given regarding toxic and side effects.

Compiled from the series of articles published in the *British Medical Journal*, the book presents an up-to-date, indexed authority on medicinal treatment—of considerable help to the doctor in choosing the best drug for his patient.

## SERVICES

## A PRACTICE AS WIDE AS THE WORLD

In the Medical Branch of the Royal Air Force you gain wide clinical experience. You travel the world and among the subjects with which you will become familiar are tropical medicine, rescue operations, the care of airborne patients and medicine in relation to flying. You will also be expected to contribute to research.

As Medical Officer on a Royal Air Force Station you have a vigorous general practice among the officers, men and their families. You enjoy complete clinical freedom in charge of sick quarters with your own beds, and you will be assisted by a well-trained nursing and clerical staff. You and your family can live comfortably and near your surgery.

Your salary and career prospects are good: as a married man drawing full allowances you could receive £2000 per year on entry. If you have post-graduate civilian experience you could be granted up to seven years back-dated seniority. Pensionable career commissions or short service engagements entitling you to a generous tax-free gratuity on completion are still available to the right applicants.

## GRADUATES AND MEDICAL STUDENTS

If you are a pre-registration year graduate or a senior medical student you may apply for a commissioned cadetship. This will enable you to finish your pre-registration house jobs or medical training as an officer in the R.A.F. drawing full pay and certain allowances. On completion you will serve on a long or short service engagement in the Medical Branch of the Service.

For details of entry to the Royal Air Force as a registered doctor, a graduate or a medical student, write to the Director-General of Medical Services, Air Ministry (M.A.I.), (HN 53V), 1 Tavistock Square, London, W.C.1.

**MEDICAL OFFICER**

Applications are invited for a full-time appointment in the medical services of a Unilever Company operating in Commonwealth West Africa. Candidates should preferably be not more than 35 years of age, and should have had good experience since qualifying.

The scope of the work done by the Company's medical services varies from place to place in West Africa, but in general may be said to cover the health supervision of working communities and their dependants. In many cases this involves taking charge of a small hospital. There is also considerable opportunity for the practice of preventive medicine, public health and industrial medicine in the widest sense.

While each Doctor is administratively responsible to his local manager, his professional links are with the Assistant Principal Medical Adviser, Unilever Limited, to whom applications should be made at Unilever House, Blackfriars, London E.C.4, where the appointment will be made following a personal interview.

The starting salary, with allowances for overseas service, will not be less than £3,000 per annum, and in accordance with age, qualifications and experience. The length of tour in West Africa is approximately 15 months, followed by generous leave on full pay. There is a contributory pension fund, mid-tour passages are arranged, and education allowances paid for children under education in the United Kingdom.

Those preferring a short-term appointment with similar terms of service will also be considered, and in such cases an end of tour gratuity would be payable. (8623)

Emphasis on pharmacology, chemotherapy, and haematologic study, available at major teaching hospital in Boston, Mass., July 1, 1964. Broad aspects of oncologic medicine as well as laboratory techniques stressed. Inquire: Box 80, B.M.J.

**FULLY APPROVED INTERNSHIP POSITION** available in one of the largest private hospitals in the U.S.A. Stipend \$225 per month with additional \$75 per month for food allotment. Applications now being considered for July 1, 1964. Write to Director of Medical Education, Good Samaritan Hospital, Cincinnati 20, Ohio, U.S.A. (9433)

**GOVERNMENT OF JAMAICA****MEDICAL SPECIALIST (Ophthalmologist)**

required, to take charge of the Eye Department of Kingston Public Hospital and to advise on the development of ophthalmological services in the territory. Candidates must possess qualifications registrable in Great Britain, a Specialist qualification in ophthalmology, including F.R.C.S., and at least five years' experience in ophthalmology and ophthalmic surgery. Candidates must also be nationals of and permanently resident in Great Britain or the Republic of Ireland.

Appointment on contract for one tour of three years with gratuity (taxable) of 20% of salary for each completed period of three months' service on satisfactory completion of contract.

Salary £2,470 a year, with privilege of consulting practice or £2,860 a year without this privilege.

Free passages for officer, wife and up to four dependent children. Furnished quarters available at reasonable rental. Educational allowances at varying rates. Approximately five months' home leave on full pay on satisfactory completion of contract; local leave of 24 days a year granted.

Application forms and further particulars from Department of Technical Co-operation, Room 404, Eland House, Stag Place, Victoria, London S.W.1. (Please quote RC 205/78/06, and state full name.) (9420)

**GOVERNMENT OF NYASALAND**

Government of Nyasaland requires Director of Public Health Laboratory. Candidates should possess medical qualifications registrable in the United Kingdom with Diploma in Pathology and/or considerable experience in this field.

Salary £3,045 a year. Post on contract for one tour of 2½ to 3 years in the first instance, with gratuity of 15% of emoluments on satisfactory completion. Free passages for officer, wife and dependent children under 21, although officer may have to travel in advance of family. Education allowances for children being educated in the U.K. and free passages for these children to visit parents in Nyasaland once a year. Quarters with heavy furniture at low rental. Six months' home leave on full pay on completion of contract. Free medical attention.

Further particulars and application forms from Department of Technical Co-operation, Room 404, Eland House, Stag Place, London S.W.1. Please quote RC.205/110/010, and state full name. (9418)

**GREECE. TECHNICAL ASSISTANCE IN Euboea.** General Practitioner/Paediatrician or Paediatrician required by North Euboean Foundation to work with Greek colleagues as volunteer in rural health service for minimum period of one year from early summer, 1964. Free accommodation and small allowance. Further particulars from 49 Cresswell Place, London S.W.10. (9273)

**GOVERNMENT OF KENYA**

Applications are invited for ten posts in the grade of Medical Officer. Candidates must possess qualifications registrable in the United Kingdom, and should be nationals of and permanently resident in the United Kingdom or the Republic of Ireland. Possession of a D.P.H. is desirable but not essential.

The duties on which officers will be employed include Public Health, Clinical Medicine, and Hospital Administration. Kenya is a country at present in a dynamic state of evolution and the opportunities for doctors possessing initiative and imagination are considerable.

Appointments will be on contract for two tours each of 21 to 27 months, in the salary scale £1,617 to £2,664 a year. Initial salary will be determined by qualifications and approved experience. On satisfactory completion of service the officer will be eligible for a gratuity (taxable) of 25% of salary. Free passages for the officer, his wife, and dependent children on appointment and on leave after each tour. Government quarters with heavy furniture usually available at a rental varying from £60 to £115 a year. Approximately 14 weeks' home leave on full pay after each tour; local leave of 16 days in each tour also granted. N.H.S. Superannuation rights may be safeguarded.

It is considered that doctors contemplating a career in the public health service will find such an appointment an opportunity for gaining valuable experience in a developing field of public health where the problems are thrown into sharper relief than in a more developed community.

Application should be made (giving full name) to Department of Technical Co-operation, Room 404, Eland House, Stag Place, Victoria, London S.W.1. Please quote RC.205/80/03. (9305)

## SCHOLARSHIPS

## THE NUFFIELD FOUNDATION POSTGRADUATE SCHOLARSHIPS IN FOOD SCIENCE

The Nuffield Foundation is prepared to offer annually up to five scholarships for science graduates and three scholarships for medical or veterinary graduates, to help advance fundamental research in food science. The Foundation hopes these awards will attract more people to make a career in the field of food science research. The awards, tenable for periods of up to four years, are intended to provide research experience to Ph.D. level together with some formal training in selected subjects. The choice of subjects for study and research will be related to a candidate's background and interests, with special reference to toxicology, pharmacology or pathology. The value of the awards will be fixed according to age, qualifications and experience, and can be supplemented by the amount of fees, marriage and child allowances, and in appropriate cases, research expenses. The scholarships are open to men and women holders of a science, medical or veterinary degree of a U.K. or other Commonwealth university.

Applications should be submitted by March 1, 1964. Further particulars and forms of application are available from the Director, Nuffield Foundation, Nuffield Lodge, Regent Park, London N.W.1. (9319)

new catalogue with simplified product coding now available

The new coding system is clear and easy to follow. All codes now bear where possible a direct relationship with the product and are planned to simplify stock keeping and ordering. The catalogue shows you

- \* The new comprehensive range of LHC eyeless needles with non-absorbable sutures.
- \* An increased range of eyeless needles with catgut.
- \* Non-absorbable materials in stock lengths of varying quantities.
- \* New braided stainless steel suture wires.
- \* An increased range of ligatures.
- \* Emergency sutures.
- \* B.P. (1963) and B.P.C. (1963) Summary of Monographs.
