CATERING WITH CONA

Ideal for the Dining Halls, etc. Electric Two Burner Unit only 17 in. in length and produces up to 6 pints of perfect coffee every 5-6 minutes.

Throughout Britain, in hospitals, medical institutes, staff hostels and professional societies, the famous CONA Coffee Makers are the accepted and approved means of providing perfect, full-flavoured coffee at the lowest possible cost.

CONA have been famous for over half a century as originators of the all-glass coffee making method. Efficient and extremely hygienic catering units, such as the TWIN FB103 produce up to 6 pints of perfect coffee every 5-6 minutes. In fact, whatever your requirements you'll find the perfect model to meet them in the CONA range.

ANNOUNCEMENT

"The XIV Biennial Congress of the International College of Surgeons is to be held in Vienna from May 11th to 16th, 1964. For further information and registration, application should be made to Professor J. H. Oltramare, Rue de Condolle 16, Geneve, Switzerland.

"The Third Annual Meeting of the British Section of the International College of Surgeons is to be held in London on May 7th and 8th, 1964. The Clinical Meeting will be held at the Royal Northern Hospital, London. There will be a cocktail party on the evening of the 7th, and a banquet at the hall of the Society of Apothecaries on the evening of the 8th. It is expected that many Fellows of the I.C.S. from Japan and from the U.S.A. en route to Vienna will be visiting London for this meeting.

"The theme of this meeting is 'Thoraco-Abdominal Injuries and Disease,' and the Guests of Honour are Professor Komei Nakayama, President-Elect of the Japanese Society of Surgeons and President-Elect of the International College of Surgeons, who will speak on 'Recent Concepts for Treatment of Carcinoma of the Oesophagus,' and Dr. John B. O'Donoghue, M.D., President of the United States Section of the International College of Surgeons, who will speak on 'Peptic Ulcer Disease and the part it played in its Therapy and Surgery.'

"For further information and registration, apply to the Secretariat, 107, Harley Street, London, W.1."

In congestive cardiac failure Nephril excels in clearing oedema and preventing re-accumulation of fluid

- * Achieves maximum diuretic effect within 2 to 6 hours after administration so doesn't interfere with the patient's sleep pattern.
- * Less likely to cause potassium depletion because (1) it produces a sodium and potassium ratio of excretion more favourable than that of the other thiazides (2) Nephril itself contains a potassium supplement.

Nephril*

brand of polythiazide with potassium chloride *Trade Mark

Each tablet contains 1 mg. polythiazide with an enteric-coated core of 600 mg. potassium chloride. Bottle of 100.

In mild to moderate hypertension Nephril-R reduces blood pressure gently and gradually—with little or no risk of postural hypotension

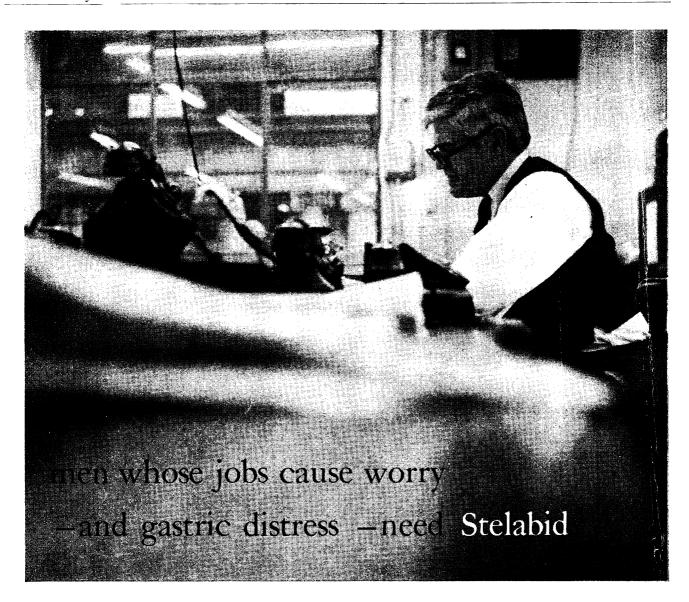

- * This combination of Nephril and reserpine provides a more prompt and prolonged antihypertensive effect than either drug alone.
- * The reserpine component also exerts a sedative-tranquillizing effect, of particular value when emotional stress is a complicating factor.

Nephril-R^{*}

brand of polythiazide and reserpine with potassium chloride *Trade Mark

Each tablet contains 0.5 mg. polythiazide, 0.0625 mg. reserpine, and 400 mg. potassium chloride. Bottle of 100.

People in every walk of life, subjected to everyday stresses and strains, may suffer from gastric disorders. And if mental stress has not actually caused the condition, it will almost certainly aggravate it. 'Stelabid' is specific for such disorders. It reduces gastric secretion and, by inhibiting motility and spasm, relieves physical pain; and it protects against nausea and vomiting. Furthermore, 'Stelabid' combats the underlying cause by effectively relieving the anxiety and tension that provoke the condition.

Each 'Stelabid' tablet contains 1 mg. 'Stelazine' (brand of trifluoperazine) and 5 mg. 'Tyrimide' (brand of isopropamide). In containers of 30 and 250.

Literature containing prescribing information is available on request.

The cast-iron Galton Bridge at Smethwick was designed by Thomas Telford, and built in 1829. It carries the road over the Birmingham Canal.

SIDROS—a new name in Iron Therapy

In the treatment of iron-deficiency anaemia many iron salts are capable of producing the desired increase in haemoglobin level. Some also have a tendency to produce side-effects, and there can be a high element of non-absorption.

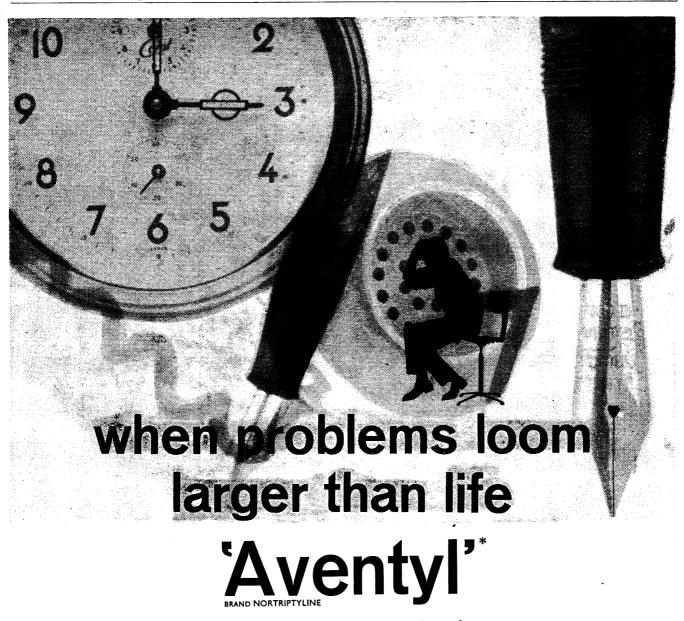

SIDROS is designed to overcome the known disadvantages and to provide a *reliable treatment for iron-deficiency anaemia*. It contains ferrous gluconate which produces a highly satisfactory clinical

response and is very well tolerated. Sidros also contains ascorbic acid, which is known to aid the absorption of iron. Its action in Sidros is to maintain iron in the reduced state for absorption. Sidros is presented as tablets, each containing ascorbic acid (stabilized) 30 mg and ferrous gluconate 300 mg at a basic N.H.S. price of 2/8 for 100 tablets as dispensed from 1000 tablet bottle. Samples of Sidros are available on request.

new wide spectrum mood enhancer lends wings to troubled minds

When the patient is overwhelmed by normal everyday stresses, 'Aventyl' often brings prompt relief. Even in the more serious behaviour disturbances—whether marked by depression or anxiety, or both—'Aventyl', with its unusually wide spectrum of action, broadens the doctor's power to relieve the troubled mind swiftly.

'Aventyl' has an inherent beneficial effect on anxiety and hostility—it is not a combination of an antidepressant with a tranquillizer, but a *single entity* going beyond mere antidepressant action as such. Four out of five patients with symptoms referable to anxiety and depression (including psychosomatic disturbances) are likely to respond favourably to 'Aventyl', many of them within a week.

'Aventyl' is not a monoamine oxidase inhibitor.

'Pulvules' of 10 mg. and 25 mg. Liquid containing 10 mg. per 5 ml. teaspoonful

A major new antihypertensive agent from Abbott

Eutonyl* is an important new drug for the treatment of moderate to severe essential hypertension. Most hypertensive patients respond to Eutonyl therapy with a reduction of both systolic and diastolic blood pressures in the standing position, and many also experience significant reductions in other positions.

Many hypertensive patients have been impressed by an improved sense of well-being; and while the use of Eutonyl in the treatment of depression is still being evaluated, in this respect alone it offers a useful advance over other antihypertensive agents.

Eutonyl is a unique non-hydrazine chemical substance with monoamine oxidase inhibiting Extensive laboratory and clinical studies have so far shown no serious toxicities, though suitable precautions

observed as with all new drugs. The side effects of Eutonyl therapy are relatively infrequent and mild if dosage is adjusted to prevent orthostatic hypotension. The combination of a thiazide diuretic such as Enduron* (methyclothiazide, Abbott) with a reduced dosage of Eutonyl further reduces side effects and also enhances the antihypertensive response in the sitting and lying positions.

Eutonyl is supplied in two strengths as Eutonyl (25 mg pargyline hydrochloride) and Eutonyl-Ten (10 mg pargyline hydrochloride) Filmtabs*, in bottles of 100.

Comprehensive literature is available on all aspects of this important new agent: dosage, side effects, precautions and the wide measure of agreement on its clinical efficacy even in the most difficult cases.

Synadrin with angina pectoris

for the patient

Synadrin is chemically unrelated to any known treatment for coronary disease. Its activity has been demonstrated in animal experiments 11-17 and it has been tested in over 1,000 patients.¹⁻¹⁰ Results of trials so far reported have been promising and Synadrin has been described as "an effective drug for treating angina pectoris."1

Effective and safe Synadrin has been shown to reduce the frequency of anginal attacks. It is particularly successful in patients with coronary ischaemia with or without previous infarction. It produces prolonged improvement of the coronary blood supply, and consistent treatment over a period of weeks produces the best results. Synadrin is well tolerated and its safety has been shown by use in more than 1,000 patients over the last two years.

Dosage Treatment may be initiated with 2 tablets, three times daily, reducing after three days to a maintenance dosage of 1 tablet two or three times daily.

Presentation Synadrin is presented as tablets, each containing 15 mg. of prenylamine lactate in bottles of 30 and 150 at basic NHS prices of 8/8d. and 34/8d. (subject to P.T.). Synadrin is known in some other countries as Segontin.

Safety with efficiency in antisepsis

Long and comprehensive experience has fully demonstrated the value of Dettol in general practice, obstetrics and surgery.

It is well-tolerated on the skin and tissues in high concentrations.

It is an efficient bactericide:-

Dettol will destroy the following organisms in 10 minutes at 20 degrees C. in the dilutions given:-

Staph. aureus:	 I in 200
S. typhi:	 1 in 350
Strept. pyogenes:	 1 in 500
Bact. coli:	 I in 250
Ps. pyocyanea:	 1 in 40
Myco. tuberculosis:	 I in 200
Sh. shigae:	 1 in 400

Different strains can vary widely in resistance, but the figures quoted are representative. Dettol efficiency is well maintained in the presence of organic material.

A dilution of 1 in 50 will kill Staph. aureus in the presence of 25% blood in 5 minutes.

It is compatible with soap.

"Unlike the other antiseptics, Dettol appeared to have its activity increased by the presence of soap, and against Staph. pyogenes the effect was one of true synergism." (British Medical Journal, 28th July, 1956.)

It is non-poisonous.

It does not stain linen, etc.

It is stable in solution.

Surgical Dettol, Orange, Blue or colourless -For pre-operative skin preparations.

Dettol Antiseptic Cream - For obstetrics and prevention of cross-infection.

Instrument Dettol-For instrument disinfection.

A career for doctors

in the R.A.M.C.

GOOD GENERAL PRACTICE

Professional standards in the Royal Army Medical Corps are high. The R.A.M.C. is responsible for the welfare not only of serving officers and men but also for many of their dependants; there is thus great scope for good general practice. An illustration of this is the fact that over 12,000 babies were born in military hospitals during, for example, 1961. There are thirty well-equipped hospitals at home and overseas, as well as field medical units to provide medical care for the Army in its active role.

Except in unusual circumstances, accommodation is provided. Well-equipped surgeries with medical assistants are provided, allowing you to do your best work, and devote more time to the care of your patients. Consultant opinion is available to you, and, as a general practitioner, you are welcome in the hospital to follow up your cases

PAY, ALLOWANCES AND LEAVE

The range of pay varies from not less than £2,000 for the young married medical officer up to £5,000 for the senior consultant; and you will be offered employment up to the age of 65. Annual allowances of up to £185 for the first, up to £225 for the second, and up to £260 for the third and all subsequent children. may be granted to assist in the education of children who are sent to boarding schools in the United Kingdom. These allowances are untaxed when serving outside the United Kingdom.

Six weeks' leave is given each year, and you are not responsible for finding or paying your relief.

SPECIALISATION

Doctors granted permanent commissions may apply for training in any of fourteen specialities, and those selected are given ample time and opportunity for obtaining their higher qualifications. Senior specialists may be awarded consultant grading directly comparable with civilian standards. Extra pay for specialists ranges between £109 and £584 a year.

POST-GRADUATE STUDY AND RESEARCH

Great importance is attached to post-graduate study for permanent officers engaged in general practice, as well as specialists. General practitioners are expected to take diplomas, such as D.C.H., D.Obst. R.C.O.G.,

An officer in the R.A.M.C. visits a patient, accompanied by a member of Queen Alexandra's Royal Army Nursing Corps.

and refresher courses are arranged for both specialists and general practitioners at the Royal Army Medical College and other post-graduate centres.

Research is an increasingly important aspect of the work of the R.A.M.C. Several officers are engaged either wholly or in part in clinical and physiological research, their work covering a wide range of subjects.

GENERAL CONDITIONS

Previous service in the Armed Forces counts for pay and promotion, and an antedate of up to seven years may be granted for civilian experience.

Short service commissions are for 3 to 5 years with terminal tax-free gratuities of £1,500 and £3,000 respectively. A short service commission can lead to a permanent commission. For permanent officers, there is an initial taxable grant of £1,500 and a terminal tax-free grant of three times the annual pension. The pension scheme is non-contributory. The upper age limit for permanent commissions is forty, and for short service commissions, fifty.

PRE-REGISTRATION COMMISSIONS

Medical graduates may be accepted for short service commissions of 3 or 5 years at any time before full registration.

Age limit is 32 years. Pre-registration appointments may be done in N.H.S. hospitals of choice, or in selected military hospitals. Board and accommodation are free, and salary is £876 for a married man; £1,065, if over 25 years. The short service commissions carry a terminal gratuity. In addition, a gratuity of £200 is payable in respect of the pre-registration year's service.

MEDICAL CADETSHIPS

A limited number of cadetships is open to male medical students who have passed their 2nd M.B. or equivalent examination. Tuition fees are paid from Army funds, and books and instruments are issued on loan. The age limit is 28 years: the salary for a single man is £930.

Service with the R.A.M.C. is for a minimum period of five years after full registration; this service carries a terminal gratuity. A booklet, 'A Career for Doctors in the Royal Army Medical Corps,' containing details of pay, gratuities, pensions and conditions of service, may be obtained from: The Director-General, Army Medical Services, The War Office. (HNR/36/H) (AMD 2B), London S.W.1, Tel: GRO 8040, Ext. 602, or you may care to come and discuss your application personally.

PRACTICES (Executive Councils)

xliv-Inside Back Cover

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

GLASGOW

Applications are invited from registered medical practitioners including practitioners already on the Council's medical list to fill a vacancy which has arisen in the southeastern area. The practice is situated mainly in the Hutchesontown/Gorbals districts and the number of persons on the list in those districts is approximately 2,300. The area of practice is due for comprehensive redevelopment in the next five years which will severely reduce the population. Further information and forms of application may be obtained from the undersigned. Completed forms of application should be returned to the Council not later than March 11, 1964.—I'. H. Souter, Clerk and Finance Officer, Executive Council for the Cut of Glasgow, 5 Woodside Crescent, Glasgow C.3.

NATIONAL HEALTH SERVICE COUNTY OF ORKNEY EXECUTIVE COUNCIL

VACANCY—ISLAND OF WESTRAY

This is a challenging position which would suit a doctor in his late twenties or early thirties who wishes to make a career in the Pharmaceutical Industry.

> Please write in the first instance to the Personnel Director, Riker Laboratories, (7633)Morley Street, Loughborough, Leics.

SERVICES

A PRACTICE AS WIDE AS THE WORLD

In the Medical Branch of the Royal Air Force you gain wide clinical experience. You travel the world and among the subjects with which you will become familiar are tropical medicine, rescue operations, the care of airborne patients and medicine in relation to flying. You will also be expected to contribute to research.

As Medical Officer on a Royal Air Force Station you have a vigorous general practice among the officers, men and their families. You enjoy complete clinical freedom in charge of sick quarters with your own beds, and you will be assisted by a well-trained nursing and clerical staff. You and your family can live comfortably and near your surgery.

Your salary and career prospects are good: as a married man drawing full allowances you could receive over £2000 per year on entry. If you have post-graduate civilian experience you could be granted up to seven years back-dated seniority. Pensionable career commissions or short service engagements entitling you to a generous tax-free gratuity on completion are still available to the right applicants.

GRADUATES AND MEDICAL STUDENTS

If you are a pre-registration year graduate or a senior medical student you may apply for a commissioned cadetship. This will enable you to finish your pre-registration house jobs or medical training as an officer in the R.A.F. drawing full pay and certain allowances. On completion you will serve on a long or short service engagement in the Medical Branch of the Service.

For details of entry to the Royal Air Force as a registered doctor, a graduate or a medical student, write to the Director-General of Medical Services, Air Ministry (M.A.I.), (HN 53Z), I Tavistock Square, London, WCI.

Governmental-contd.

HOME OFFICE PRISON DEPARTMENT

Prison Medical Officers

At least 15 pensionable posts in England and Wales for registered medical practitioners (men or women) aged at least 28 on March 1, 1964, with sound knowledge of medical and surgical practice, preferably with experience in psychological medicine. D.P.M. an advantage. Duties are mainly clinical, including responsibility for the physical and mental health of persons in custody; supervision of the hospital and general hygiene of the establishment; provision of medical and-psychiatric reports to the Department and the Courts. There are opportunities for research into mental and physical disorders. National starting salary: £1,904 at 28 to £2,982 at 40 or over (possibly higher at 41 or over). Scale maximum £3,385. Promotion prospects. Write Civil Service Commission, Savile Row, London W.1, for application form quoting 5839/64. Closing date March 20, 1964. (7701)

TREASURY MEDICAL SERVICE

Medical Officers

Two posts for registered medical practitioners (men or women) with extensive clinical experience and an interest in people. The Service is an occupational medical advisory service. Duties include advising Government Departments about the health of individual officers and about working conditions in relation to health generally. There is a liability to undertake periods of duty abroad involving general medical practice. (See below for further details.)

WAR DEPARTMENT Medical Officers

Three posts for registered medical practitioners (men or women) as follows:

(a) Two posts in the Department's Civilian Medical Service concerned with the examination and protection of employees in Royal Ordnance Factories and similar establishments, and advising upon wide variety of occupational health hazards, including radiation, toxic chemicals, and explosives, and the hygienic, protective, or preventive measures required. Candidates should have a sound clinical background and must hold, or shortly obtain, the Diploma of Industrial Health. Preference may be given to candidates between the ages of 35 and 40. (b) One post, as Deputy Safety Officer, in the Microbiological Research Establishment, Porton Down, Wilts, to assist in the development of safe equipment and techniques for handling pathogens and materials containing radioactive tracers, the supervision of procedures, and the general surveillance of the health of the staff. Some research in the field of air hygiene will be expected. Candidates should normally have had experience of health and safety work in either Government establishments or industry, and have both an interest in clinical medicine and an aptitude for pure and applied research. (See below for further details.)

details.)
All the above posts are pensionable. Candidates must be at least 28 on March 1, 1964. Inner London salary £1,969 at 28 to £3,047 at 40 or over (or possibly higher at 41 or over), rising to £3,450. Promotion prospects. Write Civil Service Commission, Savile Row, London W.1, for application form, quoting 5840/64. Closing date March 20, 1964. (7702)

DOCTORS ABROAD. Coples of vacancia, advertised in the "Journal" can be sent by AIR MAIL. The minimum cost is 3s. per week, which covers up to five separate headings; additional headings 1s. each. Orders for specific grades cannot be accepted.

Governmental—contd.

Governmental—contd.

HOMES

ST. ANDREW'S HOSPITAL
NORTHAMPTON
FOR NERVOUS AND MENTAL
DISORDERS
President: The Earl Spencer.
Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.
This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from fifteen guineas per week. Private rooms with special or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf-course. sports ground, tennis courts, etc. A Recreation and Occupational therapy department, a swimming pool, a squash court, and a library with an adjoining reading room.

WANTAGE HOUSE

and a library with an adjoining reading room.

WANTAGE HOUSE
This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available. It contains laboratories for biochemical, bacteriological and pathological research.

MOULTON PARK
Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch and patients are given every facility for occupying themselves in farming, gardening, fruit growing, etc.

For terms and further particulars apply to the Medical Superintendent (Telephone No.: 34354 Morthampton), who can be seen in London by appointment.

WYKE HOUSE, ISLEWORTH

A private hospital, established in 1826, for the individual treatment and care of a limited number of psychiatric patients.

Apply Resident Physician. Tel.: ISL 7000
