

## How to save money (and like it)!

*This booklet shows you the way*

The City Prudential Building Society has devised a really practical plan for building up savings. With Five-Year Bonus Shares, you set aside money at monthly intervals for five years — and earn a bonus rate of interest for doing so. You can pay in any sum you choose between 10/- and £20 each month. And your money is always accessible at very short notice. Five-Year Bonus Shares are not susceptible to Stock Market fluctuations. And they can produce  $4\frac{1}{4}\%$  tax paid — equivalent to £6.18.9d. per cent. if you pay income tax at the standard rate of 7/9d. This excellent rate of interest is backed by the security of a well-established Building Society. Read about Five-Year Bonus Shares for yourself. Write today, to the Managing Director for full details.

The new Philips 83 is extremely light and *really* portable for on-the-spot recording anywhere. It is simple to operate. It can be used even in noisy surroundings: the special microphone cancels background noise. When recording observations, the 83 Portable allows full concentration because you need never look away from the patient or X-ray film—and hands can be left free for examination or for adjusting equipment. It runs on ordinary torch batteries. The easy-to-load cassettes eliminate tape threading and record for a full 40 minutes. Completely compatible with Philips 82 mains-operated Dictation Machines.

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis... The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects."

"Pripsen... is a highly effective agent against ascariasis."

"Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and, in the remaining 14, repeated dosage... resulted in a 100% cure-rate... Apart from one patient... there were no undesirable side-effects in this series, which included babies of 4 and 5 months."

## The soap that knows when to stop

NEUTROGENA is a tablet of soap—not a tablet of magic. It offers no medical panacea. But it does do what Nature wants a soap to do: It simply cleans. Recommended for soap and/or detergent sensitivity. Much less irritating than normal soaps: leaves acid barrier intact; has less skin penetration, hence less irritation.

## BRITISH OBSTETRIC AND GYNAECOLOGICAL PRACTICE THIRD EDITION

### BRITISH OBSTETRIC PRACTICE

Edited by Sir Andrew Claye, M.D., F.R.C.S., F.R.C.O.G.  
1,328 pages 450 illus. £8 8s. net

This is one of the leading textbooks on British Obstetrics and carries a big responsibility for the reputation abroad of this branch of medicine; and this it does with credit.

*The Practitioner.*

It can be confidently stated that this work is truly representative of British obstetrics as practised in this country, and every facet of this vast subject has been adequately covered. Although the book is in essence clinical and practical it has been designed as a guide for all those interested in practice—specialists, general practitioners, obstetricians, registrars and resident medical officers. It should prove of real value to postgraduate students who are working for higher degrees or diplomas. . . . It is the outstanding British work on obstetrics.

*The British Journal of Surgery.*

Here, then, is a worthy new edition of a textbook that has already become established as a major contribution to British medical literature.

### BRITISH GYNAECOLOGICAL PRACTICE

Edited by Aleck Bourne, M.A., M.D., F.R.C.S., F.R.C.O.G.  
962 pages 415 illustrations £6 6s. net

There are six new authors, and they, as well as the other authors, are to be congratulated on the high standard of their contributions . . . the general production of the book is superb.

*The Practitioner.*

There are some newcomers to the authors in this volume; Stanley Clayton contributes an excellent article on the vagina, in which many illustrations appear. Professor W. C. W. Nixon writes on endometriosis and Professor James Scott deals with intersex in a most interesting way. The whole volume has been revised and many chapters have been rewritten. This work is a great credit to British Gynaecologists and it will long remain the reference volume on this subject.

## Clinical Neurology

LORD BRAIN, *Consulting Neurologist, The London Hospital and Consulting Physician, the Maida Vale Hospital for Nervous Diseases*

This book is intended for those doctors who need to know only the essentials of neurology, but to know them thoroughly. The approach is essentially clinical, the basic anatomy and physiology being presented in concise explanatory sections that precede the clinical descriptions. Full accounts have been given of all the common disorders and most of the rarer ones omitted. This new edition has been brought thoroughly up to date and a large number of new illustrations have been introduced.

## ABSTRACTING AND CODING OF DRUG LITERATURE

As from July 1st, 1964, Derwent Publications Ltd. will be operating a new pooled pharmaceutical literature documentation service known as RINGDOC, to which most of the largest drug manufacturers throughout the world have agreed to subscribe. The RINGDOC service will employ a large staff of full- and part-time workers having specialized knowledge of chemistry, biochemistry, pharmacology and/or medicine. Applications are invited from suitably qualified people for the following vacancies.

**PART-TIME ABSTRACTORS** to work at home on the preparation of informative summaries in good English of journal articles relating to drugs, at an average rate of £1 per 1-1½ hr. abstract. There are approximately 70 vacancies. Applications, which may be from abroad, should be upon our form RPTA, obtainable from Technical Director.

**FULL-TIME EDITORS** to work at Rochdale House, for editing summaries of journal articles relating to drugs received from part-time abstractors, coding these abstracts using key-words and auxiliary terms according to established procedure to be taught to them perhaps initially in Switzerland, and also checking the typed abstracts. There are vacancies for one or two Senior Editors at a commencing salary of around £2,000 per annum, and six or seven Editors at a commencing salary of around £1,500 per annum. Applications should be upon our form RFTE, obtainable from Technical Director.

**FULL-TIME CODERS** to work at Rochdale House, for punched card coding from originals and abstracts of journal articles relating to drugs, according to an established code to be taught to them, perhaps initially in Switzerland or Germany. There are vacancies for one Senior Chemical Coder and one Senior Biological Coder, each at a commencing salary of around £2,000 per annum; and for six Coders at a commencing salary of around £1,500 per annum. Applicants need not have had previous coding experience, but must have a really sound knowledge of chemistry and/or pharmacology or medicine. Applications should be upon our form RCOD, obtainable from Technical Director.

All applications in confidence to **Technical Director, Derwent Publications Ltd.**, Rochdale House, Theobalds Road, London, W.C.1. Application forms may be requested by telephone CHAncery 5851, attention Mrs. B. I. Brooks.

## **SIDROS**—FOR THE PATIENT DEFICIENT IN IRON

well tolerated iron compound plus reducing agent to aid absorption

In the treatment of iron-deficiency anaemia many iron salts can produce the desired increase in haemoglobin level. Some also have a tendency to produce side-effects, and there can be a great deal of wastage through non-absorption.

**SIDROS** is designed to overcome these disadvantages, and provides a reliable treatment for iron-deficiency anaemia.

**Ferrous gluconate** Each Sidros tablet contains 300 mg of ferrous gluconate which produces a highly satisfactory clinical response and is very well tolerated.

**Ascorbic acid** Sidros also contains ascorbic acid (30 mg per tablet) which is known to aid absorption by maintaining iron in the reduced state.

*The basic NHS price of 100 Sidros tablets is 2/8 as dispensed from 1000 tablet bottle. Samples of Sidros are available on request.*

*new wide spectrum mood enhancer  
lends wings to troubled minds*

When the patient is overwhelmed by normal everyday stresses, 'Aventyl' often brings prompt relief. Even in the more serious behaviour disturbances—whether marked by depression or anxiety, or both—'Aventyl', with its unusually wide spectrum of action, broadens the doctor's power to relieve the troubled mind swiftly.

'Aventyl' has an inherent beneficial effect on anxiety and hostility—it is not a combination of an anti-depressant with a tranquillizer, but a *single entity* going beyond mere antidepressant action as such. Four out of five patients with symptoms referable to anxiety and depression (including psychosomatic disturbances) are likely to respond favourably to 'Aventyl', many of them within a week.

'Aventyl' is not a monoamine oxidase inhibitor.

## QUESTIONS, PLEASE?

*Internal tampons to combat perineal cross-contamination*

**Q** *Has the perineal pad used for menstrual protection been known to carry pathogens from the anus to the vagina? Would use of Tampax be more hygienic or does one then risk ascending infections?*

**A** A leading research worker considered that the perineal menstrual pad may carry contamination from the anus to the vulvovaginal canal by to-and-fro motion with dampness and warmth favouring the process.<sup>1</sup> On the other hand, Tampax is inserted well into the vagina by means of its hygienic container-applicator. The tampon is then out of contact with the perineum and the danger of travelling contamination is eliminated.

The theoretical possibility of ascending infections with tampons has not been borne out by clinical or bacteriological research. No appreciable change in the bacterial flora of the vagina in 100 women who used tampons for from one to ten successive periods was found.<sup>2</sup> A further intensive study of a group of 25 women showed "no appreciable difference in the bacterial flora of the vagina or cervix, as determined by smear and culture, before menstruation and after the use of tampons during the menstrual period".<sup>3</sup>

A woman doctor studied the use of vaginal tampons by 110 subjects, the period of study varying from a minimum of one year (30 subjects) to a maximum of two years (56 subjects). She then reported that "no subject acquired trichomonas or yeast infections during the period of study. There was no evidence of any other pelvic infection during this time".<sup>4</sup>

Tampax is available in Regular and Super absorbencies.

## Clinical tests confirm Alphosyl's effectiveness

Accumulating evidence increasingly underlines Alphosyl's effectiveness in cases of psoriasis, even in those that have proved intractable to other forms of treatment. Its success is attested by the fact that after only 2 years Alphosyl Lotion became the leading branded preparation for psoriasis in this country.

**New Alphosyl Cream** Following the success of Alphosyl Lotion, this coal-tar and allantoin combination is now available in Britain as a lubricating cream. The cream base has proved a particularly effective vehicle for Alphosyl as it incorporates a combination of free fatty acids (saturated and unsaturated) naturally occurring in triglycerides, sterols and esters to give the lipid phase of the base a significant resemblance to the lipid array of normal human skin<sup>1</sup>.

**Clinical Trials** The table below gives the results of four different clinical trials which show the effectiveness of Alphosyl in lotion and in cream form.

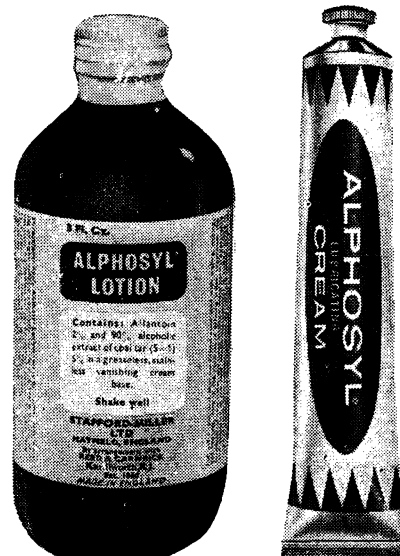

No. of patients	100% cleared	75%–99% improved	50%–74% improved	25%–49% improved	No improvement
62 <sup>3</sup>	29	26	7	0	0
50 <sup>4</sup>	11	16	17	6	0
41 <sup>1</sup>	27	9	5	0	0
96 <sup>2</sup>	44	29	15	0	8

**Why Alphosyl is so effective** In Alphosyl, allantoin and a specially refined coal-tar extract were combined for the first time. Allantoin has been found to be particularly effective in loosening psoriatic scales<sup>5</sup>, while the keratoplastic effect of coal-tar is well known<sup>5</sup>. Alphosyl is non-greasy and non-staining and vanishes on application. It is notably safe,<sup>5,4</sup> being free from the risks which are found in other forms of treatment such as arsenicals, mercury, corticosteroids, x-ray, etc. It certainly deserves a trial in all cases of psoriasis.

Stafford-Miller Limited, Hatfield, Herts. by arrangement with Reed & Carnrick, Kenilworth, New Jersey, USA.

**Alphosyl Lotion** formula – special coal-tar extract 5% + allantoin 2% in a smooth, non-greasy lotion base.

**Alphosyl Cream** formula – allantoin 2% + 90% alcoholic extract of coal-tar (5–1) 5% in a vanishing cream type base.

### Curare: Its History and Usage

*K. Bryn Thomas*

This is a stimulating work of medical literature which links medical history with the most modern clinical methods. 'Curare' begins with the usage of the drug in South America in ancient times and ends with the dramatic development of curare-based drugs in anaesthetics in the Second World War.

### Disability Evaluation

*E. D. McBride*

As a result of the great upsurge in medico-legal problems there is a growing need on the part of all doctors to understand disability evaluation. The new sixth edition of this book contains many improvements that will make it a must for any doctor involved with the determination of disability.

### Modern Advances in Cataract Surgery

*Edited by R. M. Fasanella*

Based on Dr. Fasanella's own broad personal experience and on that of half a dozen leading international authorities this book will prove invaluable to all ophthalmologists. It provides accurate and relevant coverage of all the latest and most useful developments in cataract surgery, explaining clearly the procedures as they were actually performed in the operating room.

## Low-sodium Diets

Restriction of the sodium intake is sometimes unavoidable in cardiac or renal disease, or in pregnancy. Unfortunately, meals prepared without salt tend to be insipid and the diet may soon become monotonous.

Salt-free Marmite imparts a pleasant savoury taste to soups and stews and is therefore popular with patients who have to adhere to a low-sodium diet. It is also appreciated as a sandwich spread or as a flavouring for egg dishes. Moreover, it improves the nutritional value of the diet by providing all known factors of the vitamin B complex.
