Ease her depression...calm her anxiety

Symptoms of mental distress rarely come singly.

'Aventyl' provides the comprehensive relief she needs.

Promptly, smoothly, 25 mg. t.i.d. will help to ease her depression and calm her anxiety—without serious side-effects.

'Aventyl' lends wings to troubled minds

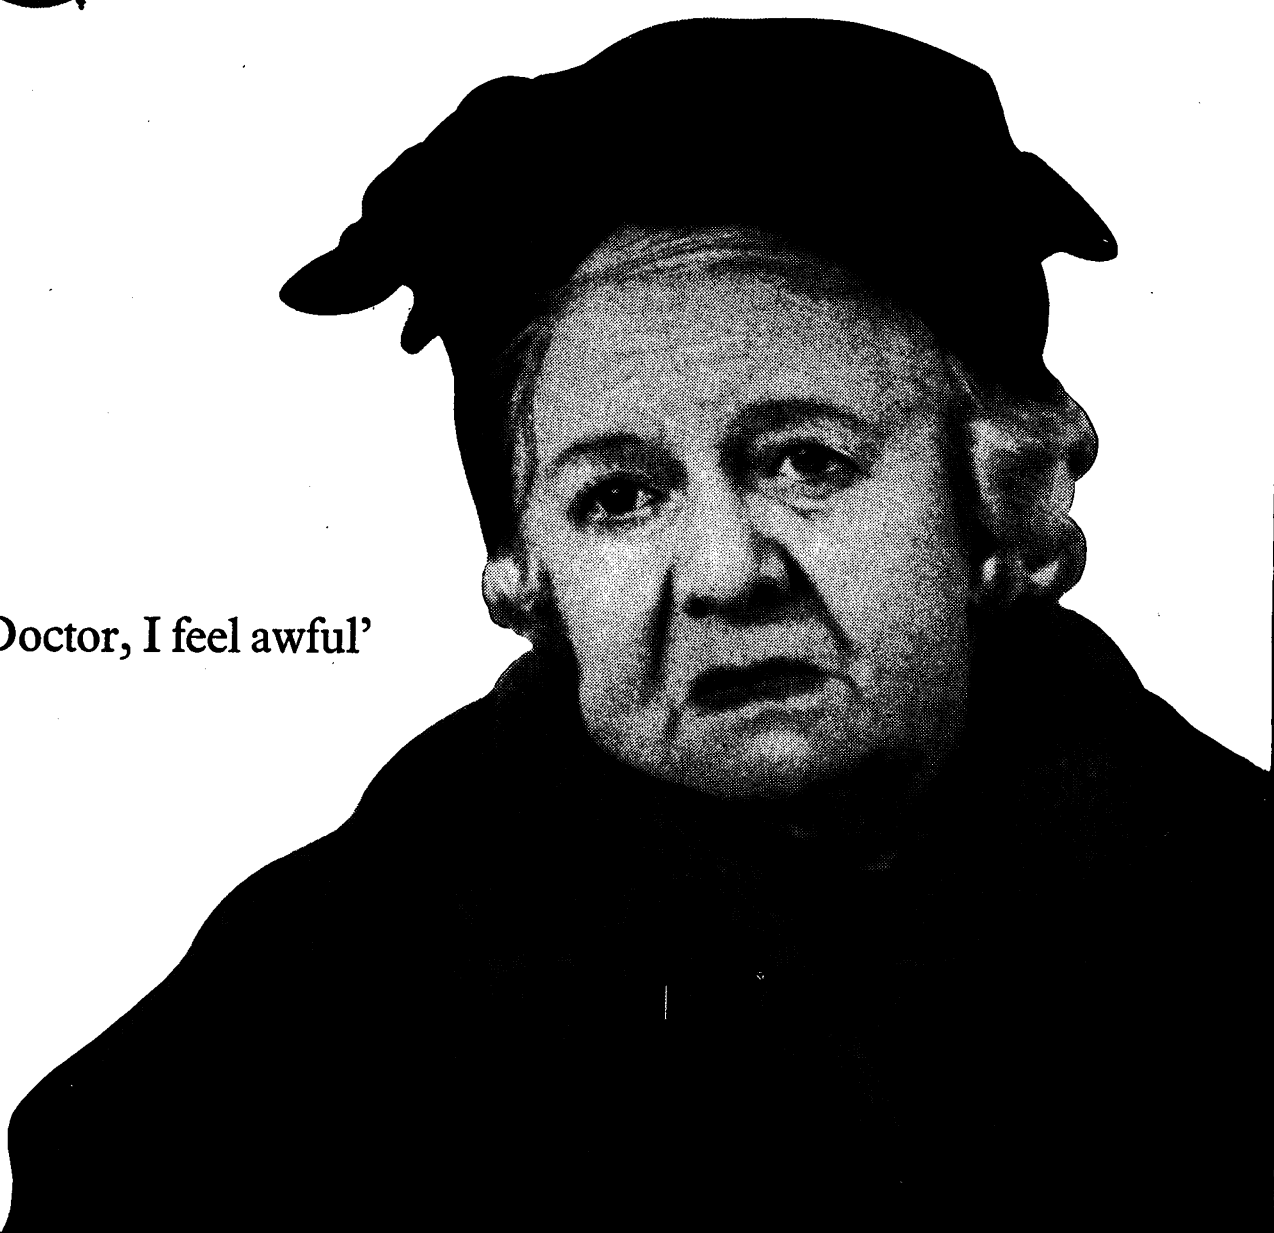

nortriptyline (as the hydrochloride)

'Pulvules' of 25 mg. and 10 mg. Liquid 10 mg. per 5 ml., in bottles of 120 and 480 ml.

Eli Lilly and Company Limited Basingstoke England

'Doctor, I feel awful'

SINGLE-DOSE TREATMENT FOR BOTH THREADWORMS AND ROUNDWORMS

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis...The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects."

Lancet, 1960, i, 256.

"Pripsen...is a highly effective agent against ascariasis."

"Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and, in the remaining 14, repeated dosage...resulted in a 100% cure-rate...Apart from one patient...there were no undesirable side-effects in this series, which included babies of 4 and 5 months."

S. Afr. med. J., 1962, 36, 240.

Need Wendy have been born a spastic?

Every 8 hours a spastic is born in Britain. Another 1,000 or more will be born this year.

The Spastics Society is spending £200,000 a year on intensive research into the causes of cerebral palsy. Its child health research unit at Guy's Hospital is the most advanced in the world. Recent work there gives cause for hope that it may soon be possible to greatly reduce the high incidence of spastic births.

Until cerebral palsy can be prevented, the Society will continue to care for many of the 75,000 spastics in Britain to-day. With careful teaching many of them can be taught to compensate for their disability. Because such teaching is very costly the Society is desperately in need of funds. Your donation, legacy or covenant could help children like Wendy towards a normal life.

Give their courage practical support.

Box No. 30, The Spastics Society, 12 Park Crescent, London, W.1.

ASERBINE FOR THE TREATMENT OF BURNS, VARICOSE ULCERS AND INDOLENT ULCERS

ASERBINE IS A NEW SUCCESSFUL, TOPICAL TREATMENT FOR BURNS, VARICOSE ULCERS AND OTHER INDOLENT ULCERS

**Experience suggests that
the chief uses of Aserbine are :**

- 1 As a de-sloughing agent in the treatment of burns and especially in preparing an area for skin grafting.
- 2 As a treatment for varicose ulcers.
- 3 As a treatment for pressure-sores.

It is indicated for topical use for regrowth of epithelium and formation of granulation tissue in chronic lesions of the skin.

Aserbine is available as a cream and as a solution.

ASERBINE FOR BURNS

Thirty-four superficial and full thickness burns treated with Aserbine were described in a report which concluded that the new solution is an effective method of cleansing and promoting the healing of open wounds.¹

Aserbine has been successfully used in

conjunction with plastic surgery where it accelerates de-sloughing and prepares the burn for grafting.

"In cases where grafting has been necessary it was considered that the new lotion reduced the period before grafting."¹

One paper¹³ reported the treatment of 21 patients with Aserbine and concluded that it was easy to use. The authors particularly noted the absence of immediate or secondary reactions, the aseptic condition of the burns and the rapid epithelialization.

No destruction of living tissue was observed in a large series of cases.² In this series Aserbine cream was applied on the second day after injury and application was repeated twice daily. Early application of the cream quickly differentiated superficial from full thickness burns. Crusts and dead skin were removed with forceps before new cream was applied. The wounds were rapidly cleaned, good granulation

Photomicrograph of chronic ulcer of ankle.

tissue produced and grafting was successful.

A significant comment is made in the report of a trial carried out in this country on thirty-four children admitted to hospital with severe burns.

"It was proposed to carry out an initial investigation before proceeding to a clinical trial. Results have, however, demonstrated convincingly that the lotion is superior to treatment used in this hospital previously and we have therefore instituted the new lotion as routine treatment in all burn cases."¹

Aserbine keeps the burn aseptic, removes any dead tissue, encourages the formation of granulation tissue and the regrowth of epithelium.

ASERBINE FOR VARICOSE ULCERS

Varicose ulcers treated with Aserbine remain clean, slough is removed and there is an improvement in the formation of granulation tissue. In cases where plastic surgery is necessary Aserbine accelerates the de-sloughing process and prepares the area for grafting.

In one trial³, Aserbine was found highly successful in approximately half the 40 cases of leg ulcers treated, and promoted healing of all ulcers within a few weeks. Another published report⁴ included 19 patients with ulcer or trophic wounds, one with ecthyma and one with a pressure-sore. Eighteen of the ulcers showed a rapid, complete and successful healing without relapse. Only one case showed slower rate of healing than normal. This report describes Aserbine as a new and acceptable treatment for difficult ulcers and pressure-sores.

The following case history⁴ illustrates the treatment with Aserbine of a varicose ulcer on the right leg of a female patient. There was little granulation tissue and the size of the ulcer was 86 x 45 mm. Dressings were well tolerated, although a slight burning sensation was experienced 5-10 minutes after application. There were no other side effects.

Improvement was noticed in 15 days and by the 45th day the healing of the ulcer was almost complete.

1. Appearance of burnt leg showing slough after 5 days.

2. Prominent granulation tissue after treatment begun with Aserbine.

3. Wound almost healed after 28 days' treatment with Aserbine.

Stages in the treatment of a varicose ulcer with Aserbine showing the rapid process of healing.¹²

ASERBINE FOR INDOLENT ULCERS

Reports on the use of Aserbine in the treatment of varicose ulcers have stressed its value when dealing with indolent or "difficult" ulcers.^{3,4}

"It seems to have an antiseptic and healing action. It does not promote uneven healing but rather a progressive epithelialization from the edges of the wound. In some cases Aserbine promotes the formation of a scab under which healing progresses satisfactorily."³

One report⁴ refers to Aserbine as an acceptable treatment for pressure-sores.

There is a reference to pressure-sores in another report⁶ which states that the use of Aserbine, in conjunction with modern nursing methods, produces a marked improvement in the healing of sloughing pressure-sores in paraplegic and bed-ridden patients.

BACTERICIDAL AND BACTERIOSTATIC PROPERTIES

Aserbine has bactericidal properties and has been found effective against most common infective organisms. Aserbine is bactericidal against *E. Coli*, within 10 minutes, pyocyanea within 5 minutes, proteus vulgaris within 2½ minutes, staphylococcus aureus within 10 minutes and streptococcus pyocyanea within 10 minutes.⁵

Aserbine has been tested *in vivo* on burn cases and appears to have bacteriostatic and bactericidal potency.^{5,2}

SAFETY IN USE

No serious side effects have been experienced in patients treated with Aserbine.

An initial smarting sensation has been reported in some patients treated with the solution. The probable explanation is the presence of propylene glycol in the solution. It is not, however, regarded as a sensitizer, and there are no records of contact dermatitis due to propylene glycol. Aserbine solution may be described as a bland dressing which causes no skin sensitivity, no pain or inflammation of raw surfaces.¹³

Pyrexia is common in extensive burns treated with Aserbine cream. It has never been proved to be serious and is not associated with a positive blood culture. Localized urticaria at the periphery of the wound particularly where the exudate collects has been reported.

PRICE AND PRESENTATION

ASERBINE CREAM

Method of Application

Aserbine cream should be applied to the affected area once or twice daily.

Active Ingredients

Malic Acid Ester of propylene glycol 160 mg.
Malic acid 250 mg.
Benzoic acid 25 mg.
Salicylic acid 5 mg.
in 100 G of cream

Presentation

Aserbine Cream is available in jars containing 100 G cream at a basic N.H.S. price of 12/- each subject to purchase tax.

ASERBINE SOLUTION

Method of Application

Aserbine solution is applied as a wet dressing and it is important to keep the dressing moist.

Active Ingredients

Malic Acid Ester of propylene glycol 5.25 G
Malic acid 7.65 G
Benzoic acid 0.75 G
Salicylic acid 0.15 G
in 500 ml. of solution

Presentation

Aserbine Solution is available in bottles containing 500 ml. solution at a basic N.H.S. price of 15/- each subject to purchase tax.

A constant check on your cardiac patient

At your patient's bedside, Sanborn's visomonitor model 780 acts for you. Three basic and vital functions are automatically provided.

A self-contained electrocardiograph can be programmed to operate automatically for 10 seconds at selected time intervals. Distress conditions—arrest, bradycardia, tachycardia and loss of peripheral pressure pulse—can also turn on the ECG.

The system's internal-external pacemaker provides controls for manual or automatic operation. When set for automatic

operation, pacing is initiated only when an arrest condition is detected. The threshold criterion for arrest may be varied from a 1.5 to 11 second asystole interval.

The visual alarm system on the model 780 consists of a series of eight colored indicator panels, which indicate operation of the monitor and alert an attendant during cardiac distress.

The Sanborn model 780 costs £774. For further information please contact Sanborn Medical Division, Hewlett Packard Ltd.

Two notable "firsts".

1. For the first time MEDEX has moved to London's premier Exhibition Venue—Grand Hall at Olympia.
2. For the first time MEDEX will be held at the same time, same place as the International Hospital Equipment and Medical Services Exhibition but retaining its unique identity and remaining a self-contained Exhibition.

Here then is your opportunity to keep abreast of developments in the Medical World. On display will be drugs, preparation techniques, instruments, dietary foodstuffs, employed in all departments of modern clinical practice, medical education and research. All this in addition to over 220 stands devoted to the improvement of Britain's Hospitals.

A series of lectures will take place during MEDEX delivered by leading personalities on subjects of vital interest to the profession.

Films will be shown on the mornings of Tuesday, Wednesday, Thursday and Friday.

Ample car parking space adjacent to Olympia—bookable in advance.

Write now to the Organisers for your admission ticket and details of the films and lectures.

Glaxo announce a new type of tablet for diuretic and anti-hypertensive treatment

Prompt anti-hypertensive/diuretic effect
Gradual, sustained potassium release and absorption

Glaxo's new two-layer tablet helps to counter the problem of potassium depletion during prolonged treatment. It is designed for gradual, sustained potassium release and absorption and to minimise gastric irritation.

This unique tablet design has been applied to two new products :

Neo-NaClex-K

Bendrofluazide 2·5 mg, potassium chloride 630 mg—pink and white. In bottles of 25, 100 and 500.

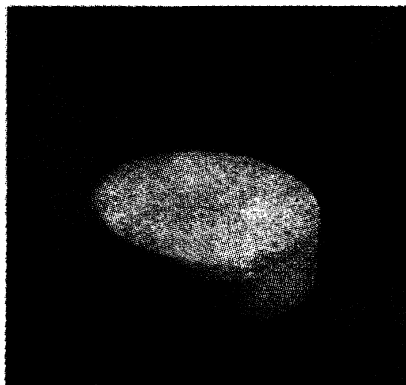

Serplex

Reserpine 0·125 mg, bendrofluazide 2·5 mg, potassium chloride 630 mg—blue and white. In bottles of 25, 100 and 500.

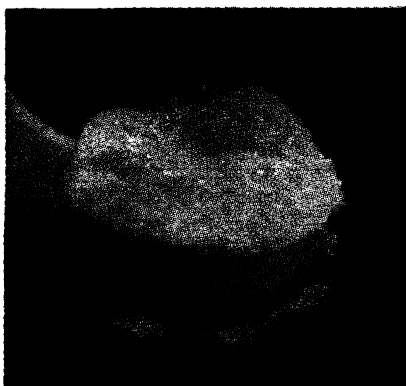

Neo-NaClex-K and Serplex are Glaxo trade marks

Detailed literature is available from Glaxo Laboratories Limited

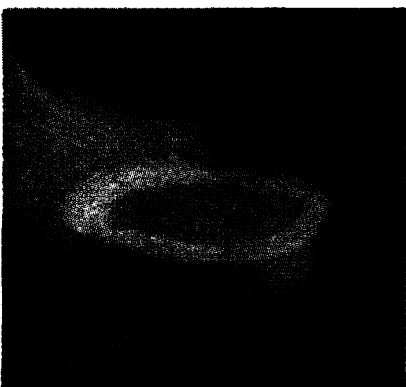

How Neo-NaClex-K and Serplex tablets work

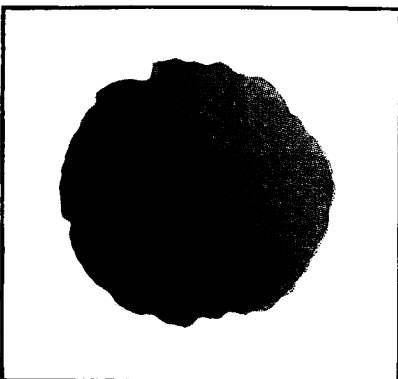

The film-coated tablets are tasteless and easily swallowed.

Very shortly after the tablet is swallowed, the white layer disintegrates and the diuretic/anti-hypertensive dose is available for absorption.

The coloured layer, containing potassium chloride crystals, is designed to give a gradual release of the potassium to minimise gastric irritation. Reliable absorption of this material from the intestine has been demonstrated.

This layer dissolves slowly, exposing and releasing the crystals of potassium chloride very slowly so that no great concentration is reached at one time. The final photograph shows (after magnification) what remains of the coloured matrix after the potassium chloride has leached out steadily and completely for absorption.

LASIX less potassium loss
effective where thiazides fail
precise control of response

FURTHER INFORMATION
ON LASIX the new diuretic

6. LESS POTASSIUM LOSS

"urinary potassium concentration . . . was 34.8 milliequivalents/litre when [Lasix] was given, as opposed to 67.7 milliequivalents/litre during hydrochlorothiazide therapy."

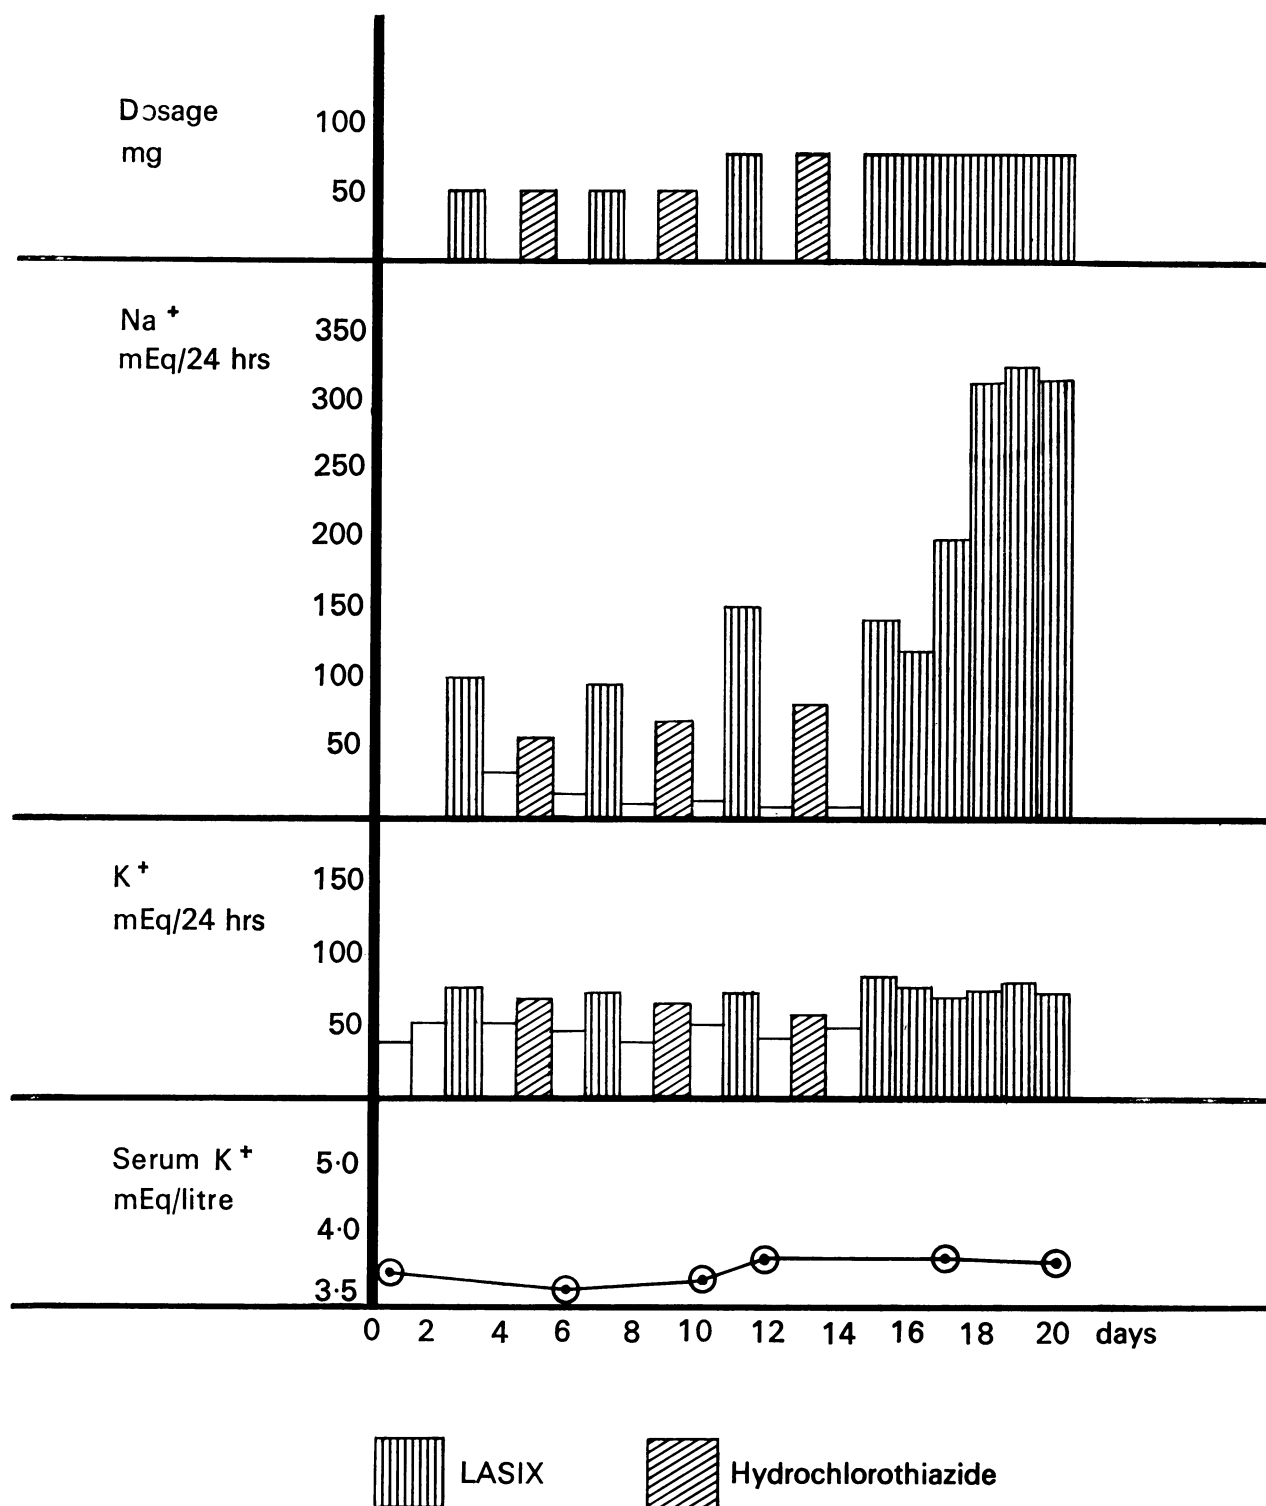

Dtsch. med. Wschr., 1963, **88**, 1695

Lasix the new diuretic

A product of Hoechst world-wide research

In a paper reporting investigations and clinical trials with Lasix, it was suggested that the best way of comparing potassium losses during treatment with different diuretics is to express potassium excretion in relation to urine volume. The quotation above gives the mean values obtained with eight patients mostly with severe oedema. The diagram opposite shows the course of treatment in another patient, a 60-year-old man with severe cirrhosis of the liver. "During the period of preliminary observation sodium excretion ranged between 1 and 2 milliequivalents/24 hours. . . . Hydrochlorothiazide in doses of 50 and 75 mg. had scarcely any effect on urinary output, although it produced a moderate rise in sodium excretion. It was again noted that potassium loss during treatment with hydrochlorothiazide reached almost exactly the same level as it attained during the intense diuresis induced by [Lasix]. Before the commencement of treatment, the serum potassium level was somewhat low—3.7 milliequivalents/litre—but during treatment it showed no significant change."

The diagram shows the course of treatment in a 60-year-old man with cirrhosis of the liver.

PRESENTATION:

Lasix is presented as tablets of 40 mg. frusemide in containers of 50 and 250; and in ampoules containing 20 mg. in 2 ml. in packages of 5 and 25.

Detailed information and samples will gladly be sent on request to the Medical Information Department.

Four tablespoons of corn oil and the reduction of high serum cholesterol levels

A recent article in the medical press¹ published the results of a study in the use of corn oil with a low animal fat diet in the reduction of high serum cholesterol levels.

The article ended: *'It is concluded that corn oil, together with a diet low in animal fat, is feasible as a long-term measure for the lowering of serum cholesterol, being safe, acceptable to the great majority of patients, and having virtually no clinical contraindications.'*

The oil used in the study, corn oil, linoleic acid content 56%—was added to diets of 1,630 and 2,080 calories, and comprised 41·5% of the total fat in the former, 40·0% in the latter. The

quantity of oil added to each diet was 57 grams; just four table-
spoons of corn oil a day.

Mazola Pure Corn Oil has a fatty-acid composition (56·2% linoleic) identical to that of the oil used in this experiment. In addition, Mazola is palatable; it is widely used as a cooking oil. Thus Mazola, available from grocers throughout the country, is probably the most accessible and appetising source of supplementary dietary oil.

The go-ahead LIFE of a NAVAL MEDICAL OFFICER

A pilot being prepared for a simulated high altitude test.

This is a life of unbounded opportunity. Anywhere in the world, you practise medicine with complete medical freedom. Among 100,000 Naval men and women you gain extensive medical experience of the most varied nature. Civilian patients, too, of both sexes and all ages, are treated in Naval hospitals. You have excellent opportunities for specialising in the normal clinical subjects, and in the less usual, such as Nuclear, Underwater, and Aviation medicine. You are actively encouraged and financially assisted to acquire higher degrees. You can gain consultant status.

As a Medical Officer, your pay, allowances, and gratuity—or permanent commission pension—are very good: for example, your initial pay is considerably higher than that of a civilian hospital registrar.

You can enter in one of three ways: as a registered Medical Practitioner—your civilian experience back-dating seniority—or as a qualified doctor doing your pre-registration year, or as a student with a 2nd M.B. For qualified women doctors, there is a special short service commission. For fullest details of your Royal Navy life as a Medical Officer, write, mentioning your own qualifications and age to: **The Medical Director-General of the Navy, Medical Dept. (HN66/L), Empress State Building, London, S.W.6.**

Heinz Baby Foods provide an unequalled variety for baby's daily diet

An obvious advantage of Heinz Baby Foods—quite apart from their high nutritive value—is the extremely varied diet they offer.

Broths and soups, meat, fish, chicken, and cheese dishes; breakfast dishes; vegetables; fruits and puddings—69 varieties in all. It would be impossible for most mothers to provide such a varied diet.

Moreover, many fruits and vegetables are out of season for months at a time. Heinz have the added advantage that their fruit and vegetable dishes are available all the year round.

Thus that essential ingredient, variety, (often sketchy with home-prepared meals) is well provided for with Heinz.

In addition, Heinz high standards of cooking, quality, and hygiene are constant.

So in prescribing these infant foods, you are advising the mother a course of action which not only makes life easier for her, but is more nutritionally satisfactory for her child.

The Baby Foods come in two categories: Strained and Junior.

Strained, the first solids, are forced through a fine mesh sieve to remove any harsh fibres and to ensure easy digestibility.

The more advanced Junior Foods, finely chopped or minced, prepare the child for the coarser texture of adult foods.

If you would like further information about Heinz Strained and Junior Foods please write to: Foods Science, Advisory Service, H. J. Heinz Co. Ltd., Hayes Park, Hayes, Middlesex.

Heinz Baby Foods

The cast-iron Galton Bridge at Smethwick was designed by Thomas Telford, and built in 1829. It carries the road over the Birmingham Canal.

SIDROS—FOR THE PATIENT DEFICIENT IN IRON

well tolerated iron compound plus reducing agent to aid absorption

In the treatment of iron-deficiency anaemia many iron salts can produce the desired increase in haemoglobin level. Some also have a tendency to produce side-effects, and there can be a great deal of wastage through non-absorption.

SIDROS is designed to overcome these disadvantages, and provides a reliable treatment for iron-deficiency anaemia.

Ferrous gluconate Each Sidros tablet contains 300 mg of ferrous gluconate which produces a highly satisfactory clinical response and is very well tolerated.

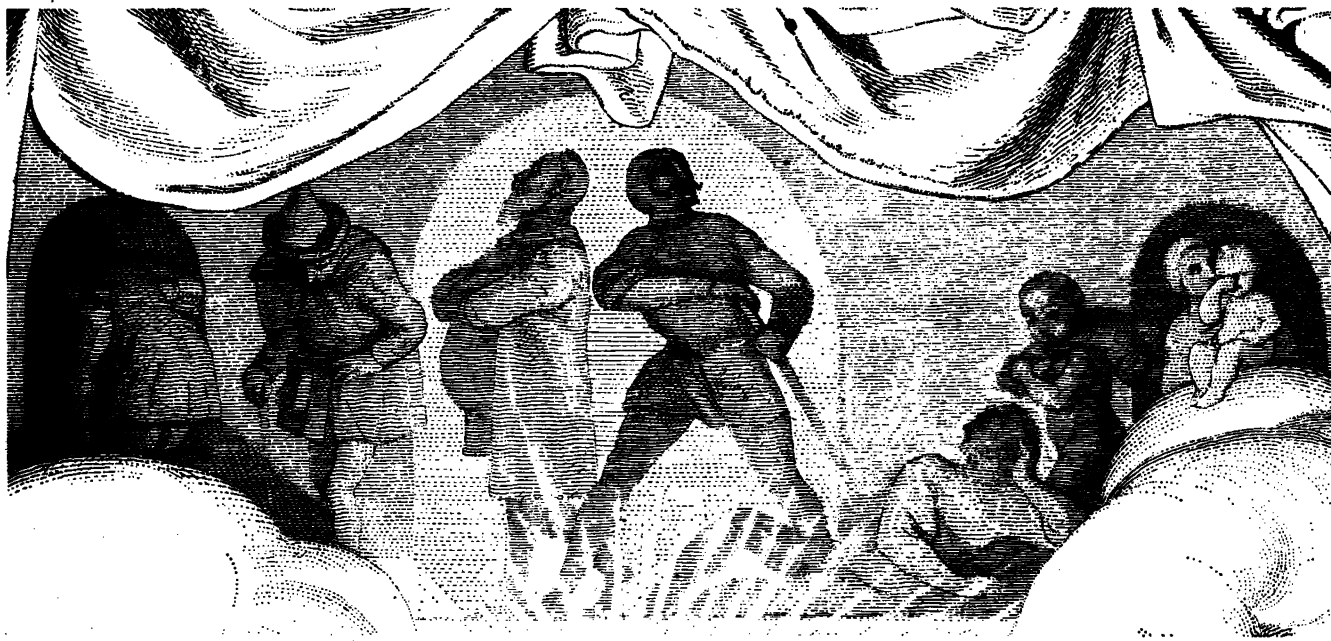

Ascorbic acid Sidros also contains stabilized ascorbic acid (30 mg per tablet) which is known to aid absorption by maintaining iron in the reduced state.

The basic NHS price of 100 Sidros tablets is 2/8 as dispensed from 1000 tablet bottle. Samples of Sidros are available on request.

SIDROS is effective, well absorbed, well tolerated and economical

Tricloryl

Non-barbiturate sedative with a wide margin of safety

Tricloryl (triclofos) is a non-barbiturate sedative which, for the young and elderly in particular, has a number of outstanding advantages both for promoting sleep and daytime sedation.

Tricloryl is palatable, well-tolerated and effective, and conspicuously free from tendency to cause 'hangover' and other side effects.

It is available as syrup, which can be conveniently taken in water to form an acceptable drink, and as film-coated tablets.

In trauma

Chymoral

helps where

it hurts

'... healing time [of inflamed traumatised skin] was reduced and consequently the period of incapacity from work was correspondingly reduced. The pain and discomfort were relieved within twenty-four hours; the swelling decreased rapidly after forty-eight hours; and discolouration of the skin, at the end of seven days, was but a yellow stain.'

Med. Press, 1961, 245: 453

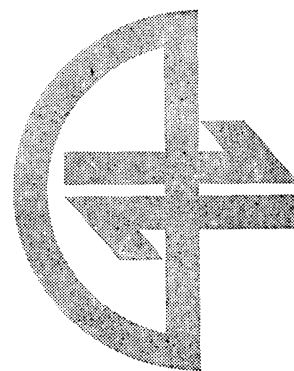

Each enteric coated tablet of Chymoral contains the proteolytic enzymes trypsin and chymotrypsin in a ratio of approximately six to one and providing enzyme activity equivalent to 50,000 Armour units.

Chymoral is dramatically effective in reducing inflammation and traumatic oedema. This action is valuable in: **trauma**—for the rapid healing of grazes and superficial injuries, bruises, lacerations and burns; **rhinitis and sinusitis**—to loosen thick stubborn secretions; **thrombophlebitis**—to accelerate the absorption of blood and lymph

dosage 2 tablets q.i.d. until clinical improvement
1 tablet q.i.d. for maintenance or prophylaxis
children under twelve 1 tablet q.i.d.

best results are obtained if Chymoral is administered half-an-hour before meals.

packs and basic NHS price bottles of 48 tablets—31/2d. bottles of 500 tablets—278/4d.

'PRO-ACTIDIL'

a very versatile antihistamine

'Pro-Actidil' contains triprolidine hydrochloride. It is specially formulated to give continuous action for 19 to 24 hours.

If given in the evening four to five hours before retiring, 'Pro-Actidil' will ensure a good night's sleep for the patient, free from sneezing, nasal congestion, irritation and restlessness. If drowsiness is induced, it will occur at bedtime.

A most interesting clinical observation has been reported indicating that 'Pro-Actidil' also provides excellent protection in various forms of solar dermatosis [*Brit. J. Derm.* (1963). 75, 254; *Med. Proc.* (1963). 9, 461]. Wider clinical application is needed to confirm this specific action.

'Pro-Actidil' is recommended for adults and children over ten years.

Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulant patient

"In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy."

Med. Times, N.Y., 1958, 1, 74

Safe, Simple, Effective

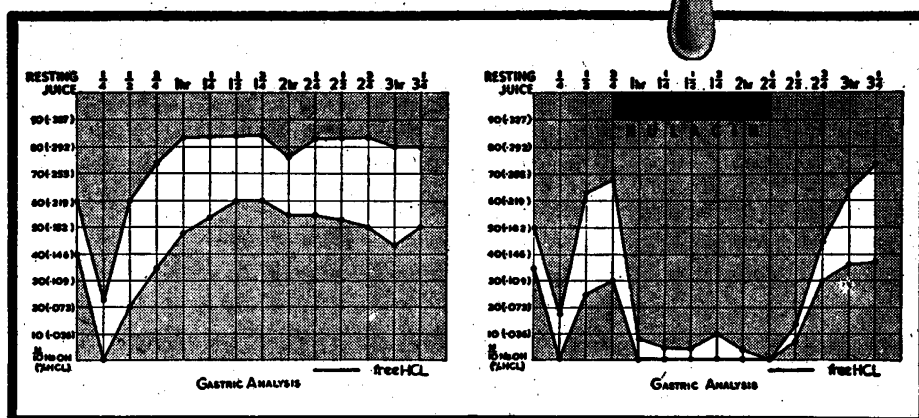

NULACIN TABLETS provide a safe, simple and effective treatment of peptic ulcer.

In treating peptic ulcer a Ryles tube may be passed through the nose and into the oesophagus and a mixture of milk and antacid allowed to flow continuously over the affected area. This form of therapy can only be employed in those patients who are in bed and for the ambulant patient Nulacin tablets are preferable.¹ Nulacin tablets are prepared from whole milk combined with dextrans and maltose, together with the trisilicate, oxide and carbonate of magnesium and calcium carbonate. Nulacin tablets when allowed to dissolve slowly in the mouth provide milk-alkali drip therapy. In fact, Nulacin tablets have revolutionized the treatment of peptic ulcer.⁸

ACTHAR GEL

ACTH Gel. Inj. B.P.

GIVES THE RHEUMATOID PATIENT AN ACTIVE LIFE AGAIN

In the treatment of rheumatoid arthritis ACTH has achieved an outstanding record of success and has particularly helped restore patients to a fuller, more active life.

ACTHAR GEL is as effective as corticosteroids in relieving severe rheumatoid arthritis and does not carry the risk of adrenal suppression which is associated with these drugs.

ACTHAR GEL is purified ACTH (corticotrophin) in gelatin and conforms in every way with the B.P. 1963 specification ACTH Gel. Inj.

Presentation

5 ml vials of 20 iu per ml
5 ml vials of 40 iu per ml
2 ml vials of 40 iu per ml

Indications

Leading indications for ACTHAR GEL include rheumatoid arthritis and ankylosing spondylitis, tenosynovitis and bursitis;

multiple sclerosis; allergic conditions such as serum sickness, urticaria, penicillin reactions and asthma.

Contra-indications

Acute psychoses, Cushing's syndrome, active tuberculosis or peptic ulcer, hypertension, diabetes mellitus, and congestive heart failure, except that due to rheumatic heart disease.

Dosage and administration

ACTHAR GEL is administered subcutaneously or intramuscularly. The normal commencing dose is 20 iu per day; when the optimum dose has been determined the drug may safely be self-administered. Further details about administration and dosage will gladly be supplied.

a matter of judgement

The snooker player makes a series of judgements in planning each shot so as to place the balls in the best position to continue his break, or to snooker his opponent. In treating an infection the doctor makes a series of judgements against a more serious opponent, not least in his choice of an antibiotic.

After rejecting those of the antibiotics unlikely to be effective, and those which should be used only in special circumstances, Erythrocin (erythromycin, Abbott) will be chosen as the ideal antibiotic for initial therapy in a wide variety of common infections. The tetracyclines and chloramphenicol have narrower clinical indications than their broad bacterial spectra might suggest—unexcelled in certain infections, but often better replaced by less toxic agents. Erythrocin is probably the least toxic of all antibiotics, yet it has similar clinical effectiveness in the more common infections. Penicillin G and V are cheap and often effective, had not so many strains of staphylococci become resistant. Even

the synthetic penicillins have not entirely overcome the problem of allergic reactions. Erythrocin is perhaps the least allergenic antibiotic available.

Erythrocin is very active against the cocci and several of the more commonly pathogenic Gram-negative organisms, without upsetting the balance of the commensals. Though it has been in use for more than ten years, relatively few staphylococci have developed resistance. Whereas it was once an expensive antibiotic, with continued increasing use it is now an extremely economical one. Most important, the Erythrocin preparations are perhaps the safest forms of the safest of all antibiotics, for none has been shown to cause liver damage.

LOW BACK
PAIN...

...CARISOMA RELIEVES IT FAST

One of the occupational hazards of being human is low-back pain. Our erect posture lets us reach for the stars, yet often baulks when we reach for a package on the floor. The advantage gained by man from his unique skeletal structure and musculature is greater versatility and range of movement. *The cost: greater vulnerability to low-back pain.*

Carisoma. The unique muscle relaxant and analgesic in one single drug, provides prompt relief of low-

back pain. **Carisoma**^{1,2} attacks both phases of the pain-spasm cycle—quickly, effectively, with a lack of harmful side effects. Carisoma is the modern answer to an age-old problem...low-back pain.

Clarks specialise... in correct fit for growing feet

Clarks Childrens Shoes wear well. They look good, they're very good value for money. But the fame of Clarks Childrens Shoes is in their reputation for correct fit and a wide choice of width fittings to every length size and half size.

This is why Clarks promise freedom from all foot troubles caused by footwear if, from babyhood, none but Clarks footgauge-fitted shoes are worn.

Clarks

CHILDRENS SHOES
in 4 width fittings

YES

When it's parked in a busy street, you can see the heads snap round to drool.

This is because the Bond Equipe G.T.4.S. is not another mass-produced conformee. It's hand-built.

From the outside it looks rather like a smaller version of the most expensive car in the world. Which is thrilling. In the inside it has black upholstery and deep grey carpets and polished walnut everywhere. Even on the steering wheel.

It's trimmed by hand too. Watch the man fitting the roof lining. He does it with infinite skill, and a pair of scissors. And the body is made of hand-moulded reinforced glass fibre which, incidentally, is totally rust-proof.

But the Bond Equipe G.T.4.S. isn't just a pretty face.

It's built by Bond in association with Standard Triumph. So deep down you have the throaty chortle of the 67 B.H.P. Triumph Mark II Spitfire engine and the incredible

IS THIS
THE
PRETTIEST
CAR IN
BRITAIN
?

parkability of the Triumph Herald turning circle and independent suspension on all four wheels, and disc brakes on the front two and the reassuring strength of an all steel chassis.

You also have, as well as having a hand-built car, the full servicing facilities of the Standard Triumph dealer network.

Quite a point.

Though it's really quite a little car, four fit in in perfect comfort; there's headroom in the back for 2 man-sized men. There's also a large boot.

Price, Ex Works and incl. Purchase Tax is £829-5-5d. and this includes heater, windscreen washers, and twin reversing lights. You can buy your Bond Equipe G.T.4.S. from many Standard Triumph dealers, and you get a 12,000 mile/12 month warranty.

Names? Write Bond Cars, Preston, Lancs, for full list. It's not everyone's car, the Bond Equipe G.T.4.S.

But it could be yours.

Built by Bond in association with Standard Triumph.

he's taking the 'France'

Look out ! He's at it again. Talking about his long weekend on "France" on the way to New York. How he's going to idle around, swim a bit, dance a bit and sit back and be entertained. 11 decks, he says, all fitted carpets and air-conditioning. Sounds fairly palatial, admittedly. Oh no ! Now he's raving about the food again. Mind you, French food and wine are pretty splendid. You've got to give him that. But the way he goes on about the wonderful service. Do they give him a personal retinue or something ? You'd think he owned the "France".

SCOTTISH POSTGRADUATE MEDICAL ASSOCIATION

Chairman:
PROFESSOR SIR DERRICK DUNLOP

The Scottish Postgraduate Medical Association is constituted by the Universities of St. Andrews, Glasgow, Aberdeen and Edinburgh and by the Royal College of Physicians of Edinburgh, the Royal College of Surgeons of Edinburgh, and the Royal College of Physicians and Surgeons of Glasgow.

The object of the Association is to develop postgraduate medical education in Scotland by means of co-operative endeavour and co-ordinated planning.

All the requirements of postgraduate medical education are available in Scotland and the Postgraduate Deans and Directors in Edinburgh, Glasgow, Dundee and Aberdeen are prepared to organise integrated courses of training for postgraduate students.

General enquiries should be directed to Professor R. B. Hunter, Secretary of the Scottish Postgraduate Medical Association, Department of Pharmacology and Therapeutics, Queen's College, Dundee, from whom further information can be obtained.

PRACTICES (Executive Councils)

For vacancies (except those in Scotland)
apply on Form E.C.16A obtainable from
the Executive Council. Mark envelopes
"Vacancy."

DONCASTER, Yorkshire

Applications are invited for a single-handed resignation vacancy in the urban area of Doncaster at present classified "Open." List at present approximately 2,100. Resigning doctor's residence and surgery will be available for purchase by the incoming doctor. Successful candidate will be required to take over on July 1, 1965. Applications on Form E.C.16A should be submitted, not later than April 30, 1965, to the Clerk, Doncaster Executive Council, Provincial House, 39 Market Place, Doncaster. (9485)

GLASGOW

Applications are invited from registered medical practitioners to fill a vacancy which has arisen in the North-eastern area. The practice is situated mainly in the Dennistoun district, and the number of persons presently on the list is approximately 3,700, including 70 in the Lanarkshire area. The lock-up surgery may be available for purchase to the successor. Further information and forms of application may be obtained from the undersigned, with whom applications should be lodged not later than fourteen days from the date of publication of this advertisement.—T. H. Souter, Clerk and Finance Officer, Executive Council for the City of Glasgow, 5 Woodside Crescent Glasgow, C.3. (9523)

LANCASHIRE EXECUTIVE COUNCIL (National Health Service)

MEDICAL PRACTICE VACANCY— BACUP, Lancashire

Applications invited for vacancy (urban and rural) due to death. Designated area. List at present approximately 2,400. Residence not available. Main surgery available on rent and branch surgery available for sale. Successful candidate will be required to take over as early as possible. Apply, on Form E.C.16A (obtainable from the undersigned), not later than May 8, 1965, to the Clerk, Lancashire Executive Council, 42 West Cliff, Preston, Lancs. (9486)

MANCHESTER EXECUTIVE COUNCIL

Applications invited from doctors wishing to undertake general medical services in West Didsbury, Manchester (health resignation). Approximate list number is 2,150. Applications, on Form E.C.16A (obtainable from address below), must be received by the undersigned not later than May 10, 1965.—H. Glass, Clerk of the Council, 2a Higher Ardwick, Manchester 12. (9360)

SOUTH-WEST LONDON AND SURREY EXECUTIVE COUNCIL Worcester Park Postal Area

Applications invited for vacancy in the above postal area (classified OPEN) arising from the retirement of a medical practitioner. Numbers on list currently 1,525. Residence, which includes surgery, not available. Forms E.C.16A and further details obtainable from the Clerk, South-West London and Surrey Executive Council, 187 Ewell Road, Surbiton, Surrey, to be received not later than 12 noon on May 4, 1965. (9524)

VACANCY AT TREHERBERT, Rhonda (Glam.)

Applications invited for vacancy (Colliery district). List at present approximately 1,811 (all prescribing). Surgery premises may be available. Apply on E.C.16A (obtainable from the address given below) before May 3, 1965, to the undersigned.—P. D. White, Clerk of the Glamorgan Executive Council, 47 Park Place, Cardiff. (9015)

SOUTH-WEST LONDON AND SURREY EXECUTIVE COUNCIL

Royal Borough of Kingston upon Thames

Applications invited for vacancy in the Malden and Coombe area of the above Greater London Borough (classified open) arising from the retirement of a medical practitioner.

Numbers on list currently 1,612. Residence and branch surgery available for purchase. Forms E.C.16A and further details obtainable from the Clerk, South-West London and Surrey Executive Council, 187 Ewell Road, Surbiton, Surrey, to be received not later than 12 noon on May 4, 1965. (9525)

WEST PARK HOSPITAL
Epsom, Surrey**PSYCHIATRIC REGISTRAR**

required at this hospital (2,000 beds), which is within easy reach of London, and is associated with the acute psychiatric unit at St. John's Hospital, S.W.11, and the West Park and St. George's Day Hospital Centre, Footing, S.W.17.

Candidate appointed will be expected to take advantage of facilities for studying for the D.P.M.

Single residential quarters only: available to candidate of either sex.

Application forms, to be returned within fourteen days of the appearance of this advertisement, obtainable from the Group Secretary. (9274)

SHREWSBURY HOSPITAL GROUP
Shelton (Psychiatric Hospital (950 beds))**JUNIOR HOSPITAL MEDICAL OFFICERS (LOCUM)**

Appointment for one year in first instance in recently modernized hospital. Single accommodation available.

Would work under consultant in a Firm System attending Out-patient Clinics and also in charge of acute and long-stay patients. Regular weekly clinical meetings and seminars (supervised by postgraduate clinical tutor, University of Birmingham).

Facilities to attend Part I and Part II course of D.P.M. at University of Birmingham (one hour by train). Facilities for training in psychotherapy.

Applications to Medical Superintendent. (9284)

CENTRAL HOSPITAL
Warwick**SENIOR HOUSE OFFICER (Psychiatry)**

required at this hospital of over 1,400 beds. Hospital specializes in rehabilitation techniques. Is equipped with purpose built Industrial Rehabilitation Unit and active departments of E.E.G., psychology, Psychiatric Social Work and Occupational Therapy. Duties include attendances at Psychiatric Out-patient Clinics in General Hospitals in Coventry and South Warwickshire and at Child Guidance Clinics. Candidates for D.P.M. Part I and II afforded instruction at Birmingham University. Single accommodation available. Peripheral Allowance £115 per annum.

Applications, with names and addresses of two referees, should be sent to the Medical Superintendent. (8859)

MORGANNW HOSPITAL
Bridgend**APPOINTMENT OF SENIOR HOUSE OFFICER**

Applications are invited for the above post at this hospital, to which there is an admission rate of well over 1,400 patients annually, and which is responsible for extensive domiciliary and out-patient services throughout the county.

The hospital possesses very full facilities for all modern methods of investigation and treatment.

The post provides excellent opportunities for study for D.P.M., and staff in training are expected to attend the tutorials in psychology and psychiatry which are given by the senior staff, in addition to attending the clinical conferences, etc. Considerable use is made of films for training purposes.

A Child Guidance Clinic is closely associated with the hospital.

Single accommodation is available. Applications, giving full details of qualifications and experience, together with the names and addresses of two referees, to be sent to the Group Secretary, Morgannw Hospital, Bridgend. (8941)

GLANTWAE HOSPITAL
MANAGEMENT COMMITTEE
Cefn Coed Hospital, Cockett, Swansea**Applications are invited for the post of SENIOR HOUSE OFFICER**

at the above hospital.

The hospital is a modern psychiatric hospital of 600 beds with associated hospital day centre. The hospital work is closely integrated with the mental health services through the Day Centre.

Single accommodation or a self-contained furnished flat for married officers is available.

Applications, stating age and experience, together with copies of two recent testimonials, should be sent to the Medical Superintendent of the hospital.—T. E. Jones, Group Secretary. (9285)

NORTH WALES HOSPITAL FOR NERVOUS AND MENTAL DISORDERS
Denbigh

There is a vacancy at this 1,500-bed psychiatric hospital, pleasantly situated in the Vale of Clwyd, 15 miles from Rhyl, for a SENIOR HOUSE OFFICER

Peripheral allowance of £115 p.a. annum payable.

Modern and well-equipped admission units cater for an admission rate of over 1,600 patients each year. The hospital provides a comprehensive psychiatric service for the whole of North Wales. Well established out-patient clinics are held at five General Hospitals and there is an active re-habilitation programme for chronic patients.

The appointee would have duties in an admission unit under Consultant supervision. There is scope for wide clinical experience in psychiatry and close liaison exists with the Child Guidance Service, a Day Hospital, and the Sub-normal Hospitals, with regular case conferences. There are visiting Consultants in various specialties and Departments of Electroencephalography, Biochemistry, and Psychiatric Social Work. The appointee will be given facilities to attend a neurology centre. The hospital is recognized for the D.P.M. and tutorials are given for this examination.

Furnished or unfurnished flats are available at moderate rentals for married or single applicants of either sex.

Applications, with names of three referees, to the Physician Superintendent. (9430)

RUNWELL HOSPITAL
near Wickford, Essex (1,052 beds)**SENIOR HOUSE OFFICER**

full-term (male or female) required for one of the Consultant's Divisions and to assist in out-patient work. This well known and research orientated Hospital with Special Department of Neuropathology, Biochemistry, Electroencephalography, and Psychology, and within easy reach of London, offers unusually good facilities to those preparing for the D.P.M. and higher medical qualifications.

There is an excellent medical library. Residential accommodation is available for single persons and newly reconstructed furnished or unfurnished flats for married candidates.

Applications, with copies of testimonials, to the Secretary. (9030)

SOUTHERN GENERAL HOSPITAL
GLASGOW S.W.1**TWO SENIOR HOUSE OFFICERS**

required by University Department of PSYCHOLOGICAL MEDICINE

These posts permit attendance at a part-time University Course suitable for the D.P.M. The unit is situated in a large general hospital and offers opportunities for wide experience and research. Applications to the Group Medical Superintendent, Southern General Hospital, Glasgow S.W.1, naming two referees, within fourteen days. (9440)

ST. BERNARD'S PSYCHIATRIC HOSPITAL
Southall, Middlesex**SENIOR HOUSE OFFICER**

required, resident or non-resident. Facilities are afforded junior staff to become versed in all branches of Psychiatry, including attendance at Out-patient Clinics. Easy access to Central London.

Facilities given for attendance at D.P.M. Courses, enhanced by liaison with the National Hospitals for Nervous Diseases.

N.H.S. salary and conditions.

Applications, giving full details and copies of three recent testimonials, should be sent to the Physician Superintendent, St. Bernard's Hospital, Southall, Middlesex, within seven days of the appearance of this advertisement. (9008)

THE UNITED BIRMINGHAM HOSPITALS
The Children's Hospital

Applications are invited for the post of SENIOR HOUSE OFFICER IN CHILD PSYCHIATRY AND GENERAL

PAEDIATRICS

This resident post, created in 1964, successfully integrates child psychiatry with general paediatrics.

Application forms may be obtained from the Secretary, United Birmingham Hospitals, Queen Elizabeth Hospital, Birmingham 15, and should be returned to him within fourteen days of appearance of this advertisement. (9414)

RADIOLOGY**BIRMINGHAM REGIONAL HOSPITAL BOARD**

Whole-time or maximum part-time (nine notional half-days)

CONSULTANT RADIOLOGIST

Duties at Coventry Hospitals (nine or seven notional half-days), and Hospital of St. Cross, Rugby (two notional half-days). Applications, with the names of three

Flt. Lt. John Bradshaw, M.B., Ch.B., has just taken up his first appointment on an R.A.F. Station. "I like the way the R.A.F. treats its doctors," he says. "The conditions of work are much better than in general practice under the National Health Scheme." Dr. Bradshaw is 24 and qualified at Sheffield. His wife is an ex-Nurse and they have two young children.

Before you commit yourself to a practice, work 3 or 5 years in the R.A.F.

You'll do some interesting, out-of-the-rut medicine, see a bit of the world, live well, and 'retire' with up to £3,000, tax free.

If you are in your pre-Registration year, here is something for you to think about.

You do not, now, need to take up your workaday N.H.S. career straight away. Furthermore, there are good reasons why you should not be in too much of a hurry. After 3 or 5 years you'll know, far better than you do now, where your particular talents and interests lie, and what sort of a future—personal as well as professional—you want to make for yourself. If you're a round peg, you'll know what a square hole looks like.

A short spell in the R.A.F. is, in fact, a *breathing-space*. It gives you the chance to make up your mind about all sorts of things.

You'd get your first job in the R.A.F. 3 months after you joined—probably as junior M.O. at a Station: rather like being an "Assistant with a view". In a typical case you could be one of two doctors with, between you, 1500 to 2500 people to take care of, and your own 'cottage hospital' with wards, theatre and laboratory, and secretarial as well as nursing staff.

You'd have a shorter list than a civilian G.P., and to this extent you would live a less strenuous life. To compensate, you would give more comprehensive care. It is this—and the variety of your work—that makes practice in the R.A.F. so interesting.

In the R.A.F. you combine several functions. You are in medical care not only of people, but of the environment they live in, and of the work they do. In proportion you do less curative work and more preventive work than is even possible for most civilian doctors.

A lot of people hold the view that this is the way all medicine should be practised: with the

closest possible integration of the doctor and the community.

This is the choice you face

Think of two doctors, both aged 40. One went to his practice straight from his teaching hospital, and has been there ever since. The other went into the R.A.F. on a 5-year commission. He lived—and lived well—in the tropics with his family for 2½ years, and, on leave or on duty, visited 7 countries: two European, three Asiatic, and two Australasian. By now he's been in civilian practice for 10 years: he's as well established as the other doctor. But which of the two has got more out of life, and has the richer memories to look back upon?

In many ways, the transition from hospital into the R.A.F. seems more 'natural' than the movement to civilian practice. You go from one community to another—and they have much in common: both are young, cheerful, energetic, rather self-contained—and at the same time very professional, with a marked sense of purpose. If you can feel, now, that you are going to miss Medical School—think about the R.A.F. Service life would probably be 'right' for you.

The vulgar matter of £. s. d. . . .

Next year, if you were in the R.A.F. as a married officer aged 25, your pay and allowances would be over £2000 and your cost of living would be low. If you were single, living in the mess, you'd get the equivalent of first class hotel accommodation and service for only a few shillings a day out of your pay.

Leave the Service after 3 years, and you get a gratuity of £1,500, cash. Stay on for 5, and

you get £3,000. With this, you could put down a deposit on a house and furnish it very well indeed, attic to cellar.

What a start to a civilian career!

The time for bold decisions is when you are young and free

Today, because you are at the beginning of your career, you can take a short time out from the main stream of civilian practice *just by deciding to do it.*

Now, you are free to go. In a few years time, you probably won't be.

You'll have a practice 'with your name on it'; children who want a permanent home to strike roots in; and so on. It will be time for you to settle down.

Meanwhile, at the parting of the ways, you have this chance. Now is the time to find out about it.

The best thing is to write off straight away. If you can't—tear this page out and put it in your pocket to remind you.

The address to write to is: Wing Commander D. G. M. Hills, O.B.E., M.B., B.S., D.P.H., R.A.F., Ministry of Defence (MA1/HN206), 1-6 Tavistock Square, London, W.C.1. Please give your age and qualifications.

COMMERCIAL APPOINTMENTS

We are searching for a Literary Doctor

We need him to advise our Medical Unit on the accuracy of the information presented to doctors and to act as the Team's medical expert.

It is essential that he be able to write quickly and well about any topic that is likely to be of interest to practising doctors.

Ideally this job would suit the younger man, aged 28-33 years, who would like to develop his literary skills without wholly leaving the field of medicine. Our organization is staffed by young, able men of intelligence, drive and enthusiasm. We'd like to add a medical man of the same ilk.

*Write to The Chairman · Digby Wills Limited
Incorporated Practitioners in Advertising
43 Dorset Street · London W1*

(9357)

PHARMACEUTICALS DIVISION

MEDICAL INFORMATION SECTION

Applications are invited for an appointment in the Medical Services Department concerned with abstracting and documenting medical literature and some copy-writing. Candidates should have sound scientific training and a knowledge of medical terminology as well as one or more foreign languages. This post involves interesting and varied work and, while men are eligible, it might particularly suit a woman doctor living in the South Manchester/North Cheshire area within reach of Alderley Park, near Macclesfield, Cheshire. Salary, depending on qualifications and experience, and other conditions of employment, would be discussed at interview.

*Applications with brief particulars should be addressed to
The Personnel Manager,*

INDUSTRIAL APPOINTMENTS

Attention is drawn to the British Medical Association's statement of policy on the Remuneration of Industrial Medical Officers as approved by the Representative Body, 1963, which is available on request from the Secretary.

H. J. HEINZ COMPANY LIMITED

invite applications for a

FELLOWSHIP IN OCCUPATIONAL HEALTH

The post is open to doctors wishing to start a career in occupational medicine and is offered in association with the Department of Occupational Health at the London School of Hygiene and Tropical Medicine where, at the conclusion of his traineeship, a place would be made available to him on the course for the Diploma in Industrial Health run by the Department.

The candidate holding such a Fellowship and subsequently attending the course at the London School of Hygiene would be eligible to sit the examination for the Diploma of Industrial Health (Conjoint Board).

Applicants should be not more than four years and not less than two years qualified (including pre-registration year).

The successful candidate will work under the direction of the Principal Medical Officer. The post will be in accordance with Association recommendations.

Please write, giving details of qualifications and experience, together with the names of two referees, to:

**The Principal Medical Officer,
H. J. Heinz Company Ltd.,
Waxlow Road, Harlesden, N.W.10.**

Management Consultants Ltd.
PERSONNEL SERVICES DIVISION

MEDICAL OFFICER Food company

This U.K. subsidiary of a large American company producing and marketing food products is establishing a new factory in a pleasant rural site within 100 miles of London. Employees will ultimately total around 1,500, and the Medical Officer will be responsible for their medical well-being. A fully equipped medical centre and a small trained nursing staff will assist him in carrying out pre-employment medical examinations and minor medical and surgical treatment. He will be encouraged to develop his own ideas and pursue individual research into relevant aspects of industrial medicine, and will be expected to advise on working conditions, safety measures, employee selection and placement, etc. He will also act as a link between the new site and the community in which it is situated. A young (27-35) fully qualified medical practitioner will find this a challenging and stimulating opportunity within a progressive industrial concern. Attractive starting salary will be at least in accordance with B.M.A. recommendations, with a full range of fringe benefits.

(Ref: M15/1637/BMJ)

The identity of candidates will not be revealed to our client without prior permission. Applicants should forward brief details, quoting the reference number, to:

The Bayer Products Company, one of

Britain's leading Pharmaceutical Companies,

is constantly striving to improve its

service to the medical profession.

to add extra "weight" to the service we seek

A YOUNG DOCTOR

aged 25-35 years who will report to the Medical Director

The Post

The man appointed—the Medical Manager—will help with the work of the Department, Clinical Trials and in the Medical Education Department.

He would have a general responsibility for keeping abreast of new developments in medicine and communicating new technical information to other branches of the business.

He would ensure that close contact is maintained between all branches of the Medical Department and the Sales Promotion Department.

He would provide information on our products and our competitors for "Communicator" and other departments in Winthrop House.

Through Clinical Trials Unit, he would be responsible for arranging contact with doctors in general practice and in hospitals, especially with a view to increasing the number and quality of clinical trials.

In co-operation with the Education Officer, he would endeavour to improve the training of Professional Service Representatives, and would help to organise any training course which might be held.

He would ensure that all queries from doctors are speedily and accurately dealt with.

The Man

The man appointed should have a positive enquiring mind. His personality should be acceptable to a broad range of medical men.

His Background

He should have a sound medical background including experience in both general practice and hospital. It would be desirable, though not essential, for him to have held a registrar post in a hospital.

A knowledge of clinical trial planning and some basic grounding in statistical method would be an advantage.

It would be desirable, though not essential, for him to have some evidence of scientific or literary experience. He should have an interest in and a knowledge of administration and ability to "handle" staff.

He should be able to think in terms of commercial promotion without at the same time losing sight of essential ethical principles.

In addition to having a definite interest in the pharmaceutical industry, qualities of enthusiasm, drive, and a creative flair would be desirable.

The starting salary could be up to £2,750 per annum. We work a 5 day week—have 3 weeks paid holiday a year and there is every encouragement given to men who wish to increase their medical knowledge or commercial experience.

If you would like to discuss the job informally please write to the Staff Director, who has been asked to handle this matter personally.

Address your letters, giving details of your experience to date to David Rowlands, Staff Director, The Bayer Products Company, Winthrop House, Surbiton, Surrey.

GOVERNMENTAL

MINISTRY OF DEFENCE

Applications are invited from registered medical practitioners below 60 years of age for employment for varying periods as full-time Civilian Medical Practitioners with the Royal Air Force.

Vacancies exist in various places in England and Wales. Duties are similar to those of general practice, involving in most cases the care of Service families as well as R.A.F. personnel. Salary varies with age from £2,011 at 28 years to £2,534 at 35 years and over.

Applicants should write to the Ministry of Defence, CE2(a)(Air), Sentinel House, Southampton Row, London W.C.1, for application form and further particulars. (9400)

MINISTRY OF LABOUR Disability Advisory Committees

Occasional vacancies occur in the membership of Disability Advisory Committees and their Panels. Membership of a Disability Advisory Committee is unpaid, but service on Panels is remunerated on a sessional basis. General practitioners or industrial medical officers wishing to be considered for such appointments should apply to his Local Medical Committee or the Secretary, Ministry of Labour, Queen Anne's Mansions, Queen Anne's Gate, London S.W.1. (9455)

SITUATIONS

AN INTERNATIONAL COMPANY wishes to appoint, towards the middle of 1966, a part-time

MEDICAL ADVISER for its home and overseas staff. He will be required to examine all new employees, and all overseas employees and their families coming on home leave. He will advise the company on medical and allied problems primarily concerned with overseas employment and residence, and may from time to time be required to travel abroad for this purpose. Candidates, preferably between 35 to 45, should have had experience of or studied tropical medicine at university education an advantage. Apply in writing, with a brief outline of career and relevant experience, to Box Z116, Overmark, 4 Holborn Circus, E.C.1. (9421)

FAMILY PLANNING ASSOCIATION, Falmouth Branch, F.P.A. trained clinic doctor required end of May.—Box SV.2618, B.M.J.

FAMILY PLANNING ASSOCIATION Woman doctor required for sessional work. Mo day evenings.—Write Secretary, Post Office Box No. 4, Dartford. (7783)

CARDIOLOGIST (SPECIALIST/SENIOR SPECIALIST), CARDIOLOGICAL DEPARTMENT, GREEN LANE HOSPITAL Applications are invited from suitably qualified Medical Practitioners for the position of:

Cardiologist (Specialist/Senior Specialist), Cardiological Department, Green Lane Hospital.

Applicants must be Members of a recognized College of Physicians, and have had two or more years' experience in the specialty of Cardiology.

The position is non-residential and is designated as either "Specialist" or "Senior Specialist" under the Hospital Employment (Medical Officers) Regulations, 1964, the salary prescribed being:

Specialist—ENZ.2,600 to 2,370 to 2,530 to 2,705 p.a. annum.

Senior Specialist—Scale 2 B—ENZ.3,100 to 3,300 to 3,450 p.a. annum.

Scale 2 C—ENZ.2,900 to 2,900 to 3,005 to 3,100 p.a. annum.

The actual scale, the commencing salary and maximum rate within these scales will be determined by the Medical Officers' Salaries Grading Committee in accordance with the qualifications and experience of the appointee.

Conditions of Appointment, giving further details of this position, together with details of assistance towards travelling expenses to New Zealand, as well as Form of Application, are available from the High Commissioner for New Zealand, New Zealand House, The Maymarket, London W.C.2, England.

Applications addressed to the Secretary, Auckland Hospital Board, P.O. Box 5546, Auckland C.1, New Zealand, close at noon on Tuesday, May 25, 1965. (9545)

PSYCHIATRISTS WANTED IN
NEW ZEALAND

To meet demands for a wide expansion of psychiatric services there are now unusual opportunities for young doctors to join the New Zealand Health Department Division of Mental Health at a senior level and take part in these challenging developments.

ASSISTANT DIRECTOR—
VACANCY 1700 (a)

In charge of Clinical Research (salary £3,100/£3,300). New Post. Will be centred mainly on the Wellington area and responsible for planning and direction of clinical and epidemiological studies on a national basis. New Zealand's small population, white and Maori races, and excellent statistical services offer ideal research material. Previous research experience is essential and possession of a postgraduate degree in medicine would be an advantage.

CHILD PSYCHIATRISTS (TWO)—
VACANCY 1700 (b)

(Salary £2,900/£3,100). New posts as senior psychiatrists for all child psychiatric services in Auckland, Wellington or Christchurch.

SENIOR MEDICAL OFFICERS
(£2,700/£3,100) and
MEDICAL OFFICERS (£2,230/£2,530)—
VACANCY 1700 (c)

Grading depends upon qualifications and experience. Nine vacancies exist offering varied opportunities in the Division's hospitals and clinics. All applicants must have the D.P.M.

For all hospital posts good houses are provided at £150 per annum, with fuel, electricity, and laundry included. E.N.Z. is equal to £1.

There are numerous opportunities for promotion in the service, and also openings in private psychiatric practice for those who do not wish to remain in the Division throughout their careers. A residential climate, scenery and good free education are added attractions.

Fares to New Zealand for those selected, with wife and dependent children, will be paid in return for a bond of three years service.

Applications, naming two referees, should be made by mail to the Director, Division of Mental Health, P.O. Box 5013, Wellington, New Zealand. Further enquiries welcomed. Selected applicants from the U.K. will be interviewed by the Director in London, Edinburgh and possibly other cities during May and June, 1965.

Applications from other countries with degree registrable in New Zealand will be welcomed and arrangements will be made for interviews where possible. (9442)

ROTATING INTERNSHIPS JULY 1: Director Medical Education; formal teaching programme in association with medical school faculty; £400 monthly, maintenance, uniforms, apartments; accredited—George A. Sprague, M.D., Lawrence Memorial Hospitals, New London, Connecticut.

ST. JOSEPH'S HOSPITAL
127 South Broadway, Yonkers, N.Y.

INTERNSHIPS
A.M.A. approved. Rotating. St. Joseph's Hospital, Yonkers, New York. Accredited 165-bed hospital. Integrated educational programme organized by Director of Medical Education, in-patient, out-patient and resident material for clinical training and a stipend \$4,800, plus modern living arrangements. Openings for July, 1965. Apply Administrator, St. Joseph's Hospital, Yonkers, New York. (6024)

THE ROYAL MELBOURNE HOSPITAL
Applications invited from legally qualified medical practitioners for appointment as
RESPIRATORY SPECIALIST

This is a new, full-time appointment initially within the Cardiac Department. Responsibilities will include:

Development and supervision of routine lung function tests within the Hospital.
Development of specialized investigation techniques, including cardiac respiratory testing.
Supervision of blood gas and similar analysis.

Organization and supervision of respiratory resuscitation service in conjunction with the Cardiac Department and the Department of Anaesthetics.

Provision of a consultative service to the patients and Medical Staff of the Hospital regarding respiratory problems, including co-operation in the care of patients with respiratory disease, under the overall care of members of the Medical Staff.

Applicants should possess a higher qualification in medicine and have had extensive experience in respiratory physiology and respiratory medicine.

The appointee will have the right to limited private practice within the Hospital and will be eligible for membership of the superannuation scheme after a probationary period. Salary within the range of £3,660 to £4,510 in accordance with qualifications and experience and the Medical Salaries Committee Report which provides the general conditions for this appointment.

Applications on prescribed form, obtainable from the undersigned, close on May 14, 1965. Names of at least two (2) referees must be submitted, and not more than two (2) testimonials may accompany the application. L. B. Swinden, Manager. (9466)

THE QUEEN ELIZABETH HOME
HOSPITAL FOR THE AGED

Ballarat, Victoria, Australia

MEDICAL SUPERINTENDENT

Applications are invited for the position of Medical Superintendent. Conditions of appointment and particulars of duties and general information regarding the Home, and Ballarat, will be furnished on request.

Applicants should be legally qualified medical practitioners registrable in Victoria, Australia, preferably possessing a degree in a Ph.D. or M.D. with experience in a geriatric hospital. The Medical Superintendent will be expected to undertake administrative duties associated with his office.

The appointee will be a full-time one and salary will be within the range of £A3,770 and £A4,510 for an officer possessing a higher qualification, adjusted according to qualification and experience, or £A3,385 and £A4,010 for an officer not possessing a higher qualification. Superannuation is optional. Sick leave, recreational leave, long service leave when eligible.

Applicants should furnish full details of qualifications, training, experience, age, marital state, war service, health, etc. The names and addresses of three referees will be required. A residence and information on a reasonable rental basis. Under certain conditions a contribution towards cost of removal will be considered.

The successful applicant will be required to commence duty not later than September 30, 1965.

Applicants in the United Kingdom may obtain copies of the condition of appointment, particulars of duties, and information regarding the City of Ballarat from, and should lodge their applications with, Dr. C. Ellingworth, United Kingdom Selection Officer, Agent-General for Victoria, Victoria House, Melbourne Place, Strand, London W.C.2, not later than June 30, 1965.—F. G. Black, Manager. (8722)

UNIVERSITY COLLEGE HOSPITAL OF
THE WEST INDIES

CONSULTANT ANAESTHETIST

Applications are invited for the post of Consultant Anaesthetist at the above named teaching hospital which consists of 481 beds.

The salary scale attached to the post (and which is now under review) is £2,300 by £100 to £2,850 per year. The point of entry into the salary scale will be determined in the light of the appointee's experience and qualifications. Five per cent of salary will be deducted towards the hospital's superannuation scheme or a gratuity of 10% of salary based on every three months' satisfactory service will be paid at the termination of the contract.

The appointment will be on contract for three years in the first instance, subject to renewal. Passages will be provided for the successful applicant and his family in accordance with the passage regulations governing contract.

The appointee will be required to take up as soon as possible.

Unfurnished accommodation will be provided for which a rental of 5% of salary will be charged. The appointment is full-time and will include teaching duties.

Applicants, stating full details of qualifications, experience, and all relevant data, together with the names and addresses of three referees, should be sent not later than May 15, 1965, to the Hospital Manager and Secretary, University College Hospital of the West Indies, Mona, Jamaica, W.I. (9372)

UNIVERSITY OF QUEENSLAND

READER (CLINICAL) IN
PSYCHOLOGICAL MEDICINE

The University invites applications for the position of Reader (Clinical) in Psychological Medicine. Applicants should hold one of the recognized Diplomas of Psychological Medicine and should preferably hold a higher Diploma or Degree in General Medicine. The applicant should have a wide knowledge of all aspects of psychiatry and should have spent not less than five years in the full-time practice of their specialty. It would be advantageous if some of this period had been spent in a University Department of Psychological Medicine, where the applicant would have gained teaching experience. Preference will be given to candidates who have some experience in clinical or laboratory research on topics related to Psychological Medicine.

The salary range for Reader (Clinical) is £A4,000 by 100 (3) to £A4,300 per annum plus a loading of £A480. The University provides Superannuation similar to F.S.S.U., Housing Assistance, Study Leave and Travel Grants.

Additional information and application forms will be supplied upon request to the Association of Commonwealth Universities, Marlborough House, Pall Mall, London S.W.1. Applications close in London and Brisbane on May 14, 1965. (9474)

U.S.A.—CLINICAL PATHOLOGIST

Appointment to commence October 1965. Family passages, Children's and car allowances, F.S.S.U. Part-furnished accommodation, Regular U.K. leave. Detailed applications (10 copies), naming three referees, by May 24, 1965, to Secretary, Senate Committee on Higher Education Overseas, University of London, Senate House, London W.C.1, from whom full details may be obtained. (9401)

UNIVERSITY OF SYDNEY
ASSOCIATE PROFESSOR IN
PSYCHOLOGY
(in the field of Abnormal and Clinical Psychology)

Applications are invited for the position of Associate Professor in Psychology (in the field of Abnormal and Clinical Psychology). Under the present administrative arrangements in the Department of Psychology, the person appointed will be in charge, under the general supervision of the Professor, of undergraduate courses in abnormal psychology, a postgraduate diploma course of professional training in clinical psychology and higher degree courses in abnormal and clinical psychology. Good opportunities exist for research and the appointee will directly supervise research in such areas of his field as may be decided upon from time to time. Recent research in the field has included work on personality dynamics and structure related to psychopathology, hypnotic phenomena and their conditions and correlates, diagnostic techniques and the efficacy of psychotherapeutic procedures, the psychological effects of brain damage and related conditions and various aspects of experimental psychopathology.

Salary will be £A.4,300 per annum (incorporating cost of living adjustments).

Information concerning superannuation, housing scheme, sabbatical leave, etc., and method of application is obtainable from the Association of Commonwealth Universities (Branch Office), Marlborough House, Pall Mall, London S.W.1.

Applications close in Australia and London on May 28, 1965. (9475)

WANGANUI HOSPITAL BOARD
New ZealandVISITING EAR, NOSE AND THROAT
SURGEON

Applications are invited from registered medical practitioners suitably qualified for the position of part-time Ear, Nose and Throat Surgeon, and the appointee will be the sole specialist in this field in the area. Salary will be in accordance with the New Zealand Hospital Regulations and will be based on a nominal whole-time salary of £2,550 to £3,800 depending on qualifications and experience, and hours of duty which will be a minimum of three-tenths.

Further particulars are available from the Advertisement Manager of the "British Medical Journal", New Zealand High Commissioner in London and the Medical Superintendent of the Wanganui Hospital Board.

Full particulars as to age, qualifications, and experience and advice as to when the appointment can be taken up, should be addressed to the Secretary, Wanganui Hospital Board, Private Bag, Wanganui, New Zealand. —K. Harris, Secretary. (9467)

WESTERN AUSTRALIA

HOMES

NORTHUMBERLAND HOUSE
Finchley, N.3. Tel.: Finchley 5283

A psychiatric Nursing Home providing all modern treatment. Elderly patients accepted. Moderate inclusive terms. Apply Resident Physician.

ST. ANDREW'S HOSPITAL,
NORTHAMPTON
FOR NERVOUS AND MENTAL
DISORDERS

President: The Earl Spencer

Medical Superintendent:

D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from sixteen guineas per week. Private rooms with special nurses can be provided, either in the hospital or one of the one of the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recreation and Occupation Centre, known as Gloucester House, has been opened recently which includes an occupational therapy department, a swimming pool, a squash court, and a library with an adjoining reading room.

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available.

MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch. For terms and further particulars apply to the Medical Superintendent (Telephone No. 34354 Northampton), who can be seen in London by appointment.

WYKE HOUSE, ISLEWORTH

A private hospital, established in 1826, for the individual treatment and care of a limited number of psychiatric patients. Apply Resident Physician. Tel.: ISL 7000.
