# 'HydroSaluric'-K is endorsed 5,000 times a day

Every day, over 5,000 patients leave their doctors' surgeries with prescriptions for 'HydroSaluric'-K. Since its introduction in 1960, 'HydroSaluric'-K has been prescribed more than five million times.

the most widely prescribed diuretic agent

Why 'HydroSaluric'-K is prescribed more than any other diuretic:

- Because during the past five years, 'HydroSaluric'-K has proved its value in the long-term management of oedema.
- Because 'HydroSaluric'-K produces a smooth and predictable diuresis in most cases of oedema.
- Because 'HydroSaluric'-K provides a measure of protection against potassium depletion in patients where dietary intake may be inadequate.

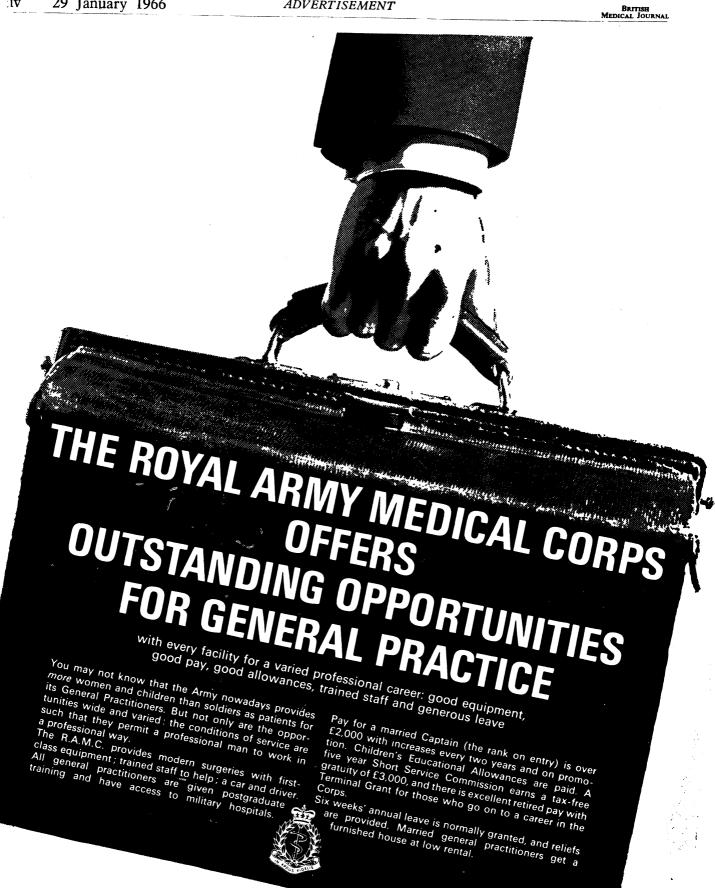

Detailed information is available to physicians on request

LURIC-K

Hydrochlorothiazide 25 mg with potassium chloride 572 mg

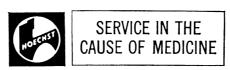

# The best companion for a long journey

# RASTINON tolbutamide BP

The diabetic's treatment extends, at the moment, throughout his lifetime. The long-term safety of the preparations used is just as important as their ability to maintain satisfactory blood levels. Rastinon has a record of safety exceeding that of any comparable preparation. Its effectiveness is such that during the last 8 years over three million of the world's diabetics have been stabilized on Rastinon. This is why Rastinon is the first choice in initiating and continuing treatment of diabetes.

RASTINON »HOECHST« is a registered trade mark

# **HOECHST**

# not only most powerful but also easily controlled

Lasix is a more potent diuretic at a dose of 80 mg. than is the normal therapeutic dose of hydrochlorothiazide, chlorthalidone, cyclopenthiazide, or triamterene (*Lancet*, 1964, *ii*, 1088). At this dosage the effect of Lasix is approximately the same as the effect of 2 ml. mersalyl given intramuscularly.

Not only is Lasix powerful, but it is also unusual among diuretics for its breadth of action, which gives great versatility and a high degree of control. The diuretic effect is proportional to the dose given over a uniquely wide range: the greater the dose, the greater the response. And the effect begins half an hour after an oral dose; is normally over in 4 to 5 hours.

This means that whatever the required effect, Lasix dosage can be adjusted to produce it. The normal dose range is 40 to 120 mg. For special cases, perhaps where other diuretics have failed, higher doses can be used. While these are rarely necessary they will require adequate clinical and laboratory control.

### the new diuretic

Lasix tablets each contain 40 mg. frusemide and Lasix ampoules 20 mg. frusemide in 2 ml. Lasix is a registered trade mark.

# for the patient who complains . . . and complains . . .

### quickly relieves depression in any guise

The true condition of the depressed and anxious patient may often be hidden behind a variety of misleading symptoms until her appearance in the surgery becomes a problem in itself.

### Allegron simplifies treatment

It is one drug especially suited to treating those mental and emotional states often associated with refractory physical symptoms.

### Allegron acts quickly

It lifts the underlying depression, calms any anxiety and relieves psychosomatic symptoms by removing their cause.

### Allegron is well tolerated

It is without the restrictions of the MAOI's, and is one of the safest of psychotropic drugs.

Usual adult dosage: 25 mg. three times daily.

Tablets of 25 mg. (No. 1011) and 10 mg. (No. 1010) base equivalent. Liquid 10 mg. base equivalent per 5 ml. (No. 5010).

# Norgesic

In timewasting painful muscular conditions Norgesic can quickly get the patient on the move again. Its muscle relaxant-analgesic action rapidly relieves both the pain resulting from local tissue damage and the pain and stiffness associated with skeletal muscle spasm. In acute and chronic muscular conditions, and in tension headache, influenzal aches and pains, and dysmenorrhoea, Norgesic overcomes the limitations of simple analgesics. Norgesic speeds recovery—and spares the patient wasted days of pain.

Each Norgesic tablet contains the muscle relaxant orphenadrine citrate 35 mg, and the analgesic paracetamol 450 mg. Dosage is two tablets three times daily.

Basic NHS prices: 100 tablets 14/8; 500 tablets 71/4

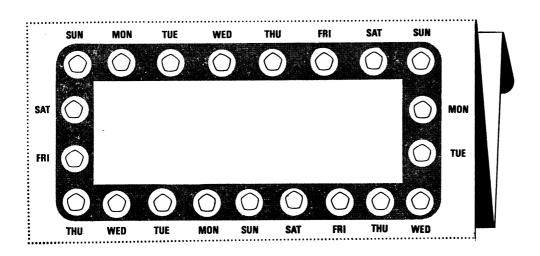

Riker Laboratories Loughborough England

# For greater simplicity in oral contraception... Ovulen—the low dose oral contraceptive—now comes in this 3week wallet

Ovulen (brand of ethynodiol diacetate with mestranol) is the oral contraceptive with a progestin content of only 1 mg. per tablet. The new 3-week wallet means that Ovulen now combines the benefits of low dosage with a simple 3-week administration schedule. This routine can be easily explained to the patient in a few minutes.

SIMPLICITY The patient takes one tablet a day for 3 weeks, waits one week, then starts her next course of tablets. The complete 4-week cycle makes it easier for her to remember her 'pill routine', because her starting day will always be the same day of the week. Ovulen's low progestin content is consistently associated with a very low incidence of side effects.

# Pylura ointment provides rapid relief from the pain and discomfort of haemorrhoids

Pylura presents adrenaline and betaeucaine lactate incorporated in a soft lanolin and petroleum jelly ointment to which phenol has been added to prevent infection and inflammation.

When applied locally, adrenaline causes constriction of blood vessels and is employed for this purpose in the treatment of haemorrhoids, fistulae and other inflammatory conditions of the anus and rectum where, for any reason, surgery is not desirable.

When these conditions are painful the local anaesthetic beta-eucaine lactate has been found extremely effective in alleviating such pain.

Pylura is supplied with a nozzle for easy application of the ointment. Full instructions with every tube.

BETTER MEDICINES FOR A BETTER WORLD

Benylin Expectorant\* is the ethical preparation of choice for the control of cough, and for rapid relief of nasal and bronchial congestion. Benylets\* provide all the advantages of Benylin in an easy-to-carry lozenge form.

By prescribing both preparations simultaneously, your treatment continues and your

patient is afforded quicker relief of symptoms. Benylin and Benylets combine the antitussive, antispasmodic and antihistaminic actions of Benadryl\* (diphenhydramine hydrochloride B.P.) with the expectorant effects of other established agents. When you prescribe Benylin—prescribe Benylets.

# Benylin & Benylets

# When Codeine compound is indicated—

Codis for quick relief and less risk of gastric irritation.

Codis contains neutral soluble aspirin with phenacetin and codeine phosphate.

SOLUBILITY Taken in water Codis provides a solution of calcium aspirin and codeine phosphate with phenacetin in fine suspension. Irritation of the gastric mucosa due to undissolved particles of aspirin is avoided. Prompt relief is ensured.

# When aspirin alone is indicated—

Solprin Solprin offers the same advantages of quick relief and less likelihood of gastric irritation. It is soluble and substantially neutral.

N.H.S. basic prices for 500 tablets in foil, which ensures protection from moisture. Codis 25/-. Solprin 12/6.

Literature and clinical samples available from:

Reckitt & Sons Limited, Pharmaceutical Department, Hull, Yorkshire

# MOGADON\* AND NATURAL SLEEP

Striking advances have recently been made into the knowledge of sleep with the aid of the electroencephalogram, and it is now recognised that sleep does not consist of a quantitative reduction in cortical activity but of a qualitative change. Hypnotics, by their generalised depressant action on all the brain structures, greatly reduce cortical activity and sleep takes on an abnormal pattern. The development of Mogadon, however, has now made the treatment of insomnia possible without any significant lessening of cortical activity. The sleep induced closely resembles natural sleep; there is no disturbance of the normal rhythmical balance that exists between the sleep and wake processes and the patient will awake refreshed, without hangover and without mental confusion.

Mogadon the successor to the hypnotics

### **COMMERCIAL APPOINTMENTS**

Management Consultants Ltd. PERSONNEL SERVICES DIVISION

## **MEDICAL DIRECTOR**

£5,000

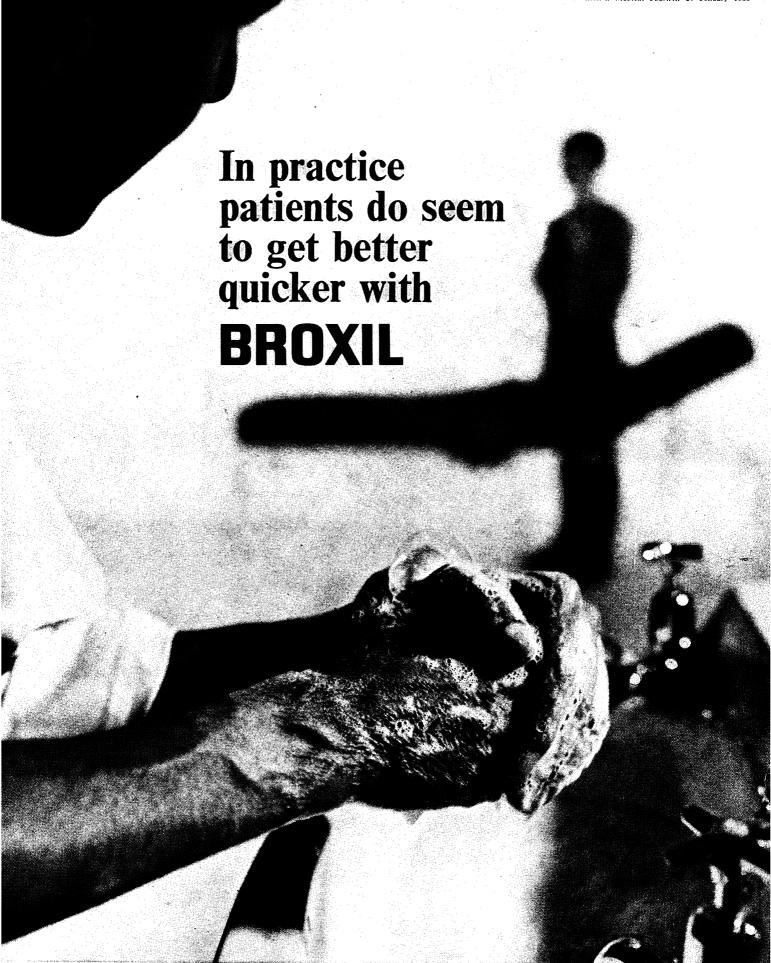

With a turnover of around £1m. this famous ethical pharmaceutical company has seen steady growth, but the doubling of this figure during the next three to five years is projected. There is tremendous research backing, and to take full advantage of this an outstanding man is sought to run the existing medical department. Previous experience in the industry is very desirable and the right man will either already be at the head of a department or acting fully as his deputy. He will work closely with the research team and, among other duties, will be responsible for all medical aspects of product assessment, reformulations, and comparative tests. He will report directly to the Managing Director and form part of the young top management team. He should preferably be in his 30s or early 40s and while a higher qualification is desirable it is no substitute for the commercial shrewdness and outgoing personality which are essential characteristics. The progressive salary policy and the fringe benefits are attractive. Location—outer London area. Ref. M6/1882/BMJ.)

The identity of candidates will not be revealed to our client without prior permission. Applicants should forward brief details, quoting the reference number, to:—

P.A. Management Consultants Ltd., Personnel Services Division, 60a Knightsbridge, London S.W.1.

Dosage: 125-250mg. every 4-6 hours

BROXIL\*, phenethicillin potassium B.P.C., is a product of British research at

# Robinul® glycopyrronium bromide (glycopyrrolate ROBINS) Patent No. 865,453 Robinul® (Robinul with phenobarbitone)

Robinul acts quickly in relieving ulcer pain and establishes a near-ideal healing environment at the ulcer site.

Robinul reduces or eliminates the free HCI under both basic conditions and conditions of stress by virtue of a "medical vagotomy". By exerting a more specific pharmacological action on the gastro-intestinal tract than any other organ system, blurred vision, dry mouth etc. are avoided or occur only rarely when Robinul is given in the recommended dosage range.

Indications: In addition to its primary indications for duodenal and gastric ulcer, Robinul is indicated for other G-I conditions which may benefit from anticholinergic therapy. Robinul-PH is indicated when these situations are complicated by mild anxiety or tension.

**Dosage:** Should be adjusted according to individual patient response. Average dose is 1 or 2 tablets three times a day,

in the a.m., early p.m., and at bedtime. In acute conditions with severe manifestations, larger dosage of plain Robinul may be indicated until symptoms subside. Thereafter, dosage should be reduced to the minimum required for maintenance of symptomatic relief.

**Precautions:** Administer with care to patients with incipient glaucoma. Contraindicated in acute glaucoma, prostatic hypertrophy, and in the presence of urinary bladder neck obstruction and in pyloric obstruction or stenosis with significant gastric retention. Robinul-PH is contraindicated in patients sensitive to phenobarbitone or with advanced hepatic or renal disease.

Packaging: ROBINUL (pink) and ROBINUL-PH (white) tablets are available in bottles of 50 and 500.

Reference: Practitioner (1965) Vol No. 195 Pp 335-339 Ann N.Y. Acad Sci (1962) 99: 153 Amer J. Med Sci. (1963) 246: 325.

# What's all the fizz about?

## **Paracodol**

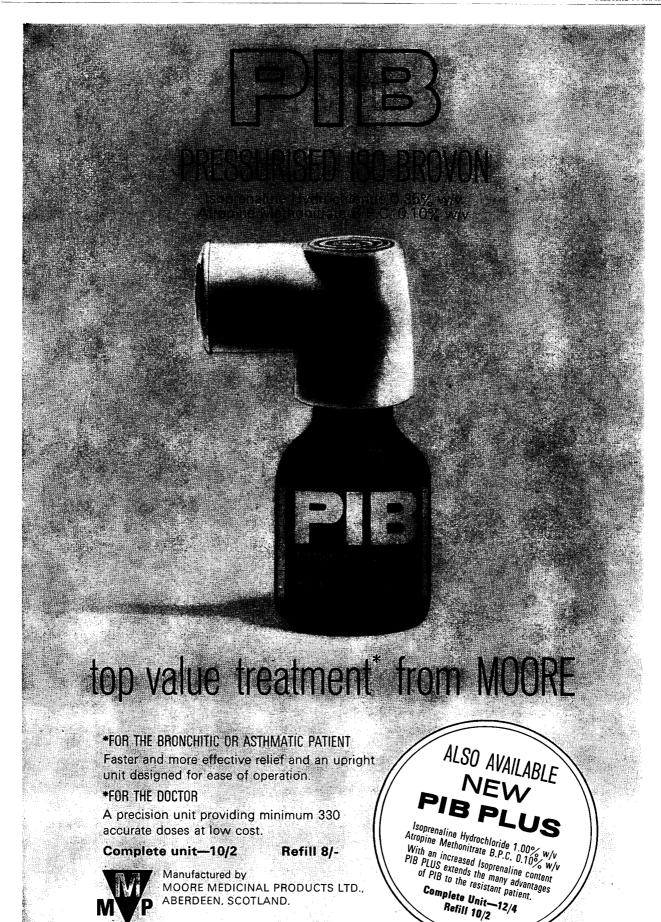

## dissolves pain

It won't be surprising if you bubble over with enthusiasm for Paracodol tablets; your patients are almost sure to. This new analgesic contains Paracetamol and Codeine in effervescent form, for more rapid absorption and fast and effective pain relief. Furthermore, Paracodol is pleasant to take and free from the dangers of gastric disturbances associated with aspirin.

When do you prescribe Paracodol? Whenever there is pain of mild to moderate severity, particularly when it is of rheumatic, arthritic or muscular origin.

Each tablet of Paracodol contains Paracetamol B.P. 500 mg. and Codeine Phosphate B.P. 8 mg. in an effervescent base.

Applications, addressed to the Secretary, Mental Health Authority, 300 Queen Street, Melbourne, are invited for the following positions:

Consultant Psychiatrist—Dandenong Psychiatric Centre
Consultant Psychiatrist—Malvern Clinic, Melbourne
The Dandenong Psychiatric Centre is the first of a series of specially designed early treatment centres which are being set up at strategic points in the State of Victoria. This centre has only been functioning since late 1964 and is already a very active unit. There are combined in-patient (40 beds), day hospital, and out-patient facilities. The unit serves the Eastern suburbs, the Mornington Peninsula, and East Gippsland.

The City of Dandenong itself is a highly important industrial centre and has a population of 29,000.

The University of Monash is only 6 miles from Dandenong.
The Malvern Clinic, Melbourne, as a Psychiatric Centre provides combined in-patient, day-patient, out-patient facilities and is strategically placed in a very pleasant suburb in the Melbourne Metropolitan Area. While emphasis has been placed on the development of group and individual psychotherapeutic techniques, physical treatments are applied as indicated. This unit is an extremely active one with very important outpatient commitments.

Salary—£4,108 per annum. Paid evening out-patient sessions up to a total of £250 per year are available if requested. A salary adjustment will be made in the very near future.

Residence—An unfurnished house is available to the successful applicants. Allowances—Supply of fuel, light, water, milk, laundry, and vegetables. Charges for residences and allowances—£314 5s. per annum.

Qualifications—(1) D.P.M., M.D., or M.R.C.P.

(2) At least 6 years experience in full-time Psychiatry, and to have possessed one of the above qualifications for not less than two years and to have made a contribution to research and scientific literature, or has experience in special aspects of Psychiatry.

Superannuation—An attractive scheme, making adequate provision for wife and childre

All appointments are made subject to the Mental Health Act, 1959, and

# Medical Service OVERSEAS Helps DEVELOPMENT

The developing countries overseas are in urgent need of doctors. A break from normal routine is offered, together with the opportunity to see something of the world and to gain valuable and interesting experience. These appointments carry attractive salaries, normally with an overseas allowance and a gratuity on completion of contract. There are also educational allowances for children and free family passages. Accommodation is provided free, or at a low rental, and income tax is usually low. In most cases superannuation rights can be preserved or maintained. Here are some examples of posts available:

## MEDICAL OFFICERS

### Gambia

To work in preventative medicine at a new Endemic Control Unit. The D.P.H. is desirable. Salary scale: £1,560 to £2,512 per annum. Appointment for 18 to 24 months in the first instance. Private practice is not permitted, but an allowance of £150 per annum is payable in lieu.

### lamaica

Need a Medical Officer (Psychiatry) for the care and treatment of psychiatric in-patients

and out-patients for the Belle Vue Hospital and appointed clinics. Consultative services in Forensic and Medical Board cases. He should possess the D.P.M. Appointment for three years. Salary scale £1,430 to £2,275 per annum.

### Kenya

For general duties in Clinical Medicine, Public Health and Hospital Administration. Doctors contemplating a career in the public health service will find such an appointment an opportunity for gaining valuable experience. Posses-

sion of the D.P.H. is desirable but not essential. Salary scale: £1.818 to £3.000 per annum. Private practice is permitted in certain stations. Appointment for two years.

### Swaziland

To undertake general medical duties at a Government Hospital. The ability to undertake surgery and to administer anaesthetics will be an advantage. Salary scale: £1,683 to £2,772 per annum. Appointment for two to three years.

## **SPECIALISTS**

### Zambia

Pathologist for a Public Health Laboratory in Kitwe or Lusaka. He must possess the D.C.P. or D.Path., or at least three years' full-time experience as a pathologist. Salary £3,005 per annum plus allowance of £800 per annum in lieu of private practice. On contract for three years.

Radiologists (Diagnostic) for duties at a Central or General Hospital. They must possess the D.M.R. or D.M.R.D. Salary of £3,005 per annum, plus an allowance of £800 per annum in lieu of private practice. On contract for three years.

### Malaysia

Specialist in Physical Medicine and Rehabilitation is urgently required at the new Rehabilitation Centre for the Physically Handicapped, Cheras, Malaysia. He will advise and plan the reorganization and development of facilities for medical rehabilitation, and participate in the teaching programme. He must possess experience in physical medicine and rehabilitation, as well as teaching ability for Physic and Occupational Therapist Training Courses. On contract for two years. Salary would be as for equivalent posts in this country, plus a variable tax free overseas allowance currently payable at £1,395 per annum (married man accompanied) or £445 per annum (single man).

### Uganda

Consultant Physician and Specialist Gynaecologists to act as Consultants to the Uganda Medical Service and to undertake such teaching duties as may be required. They must possess the highest qualifications and have several years' experience in the specialty. Salary scale £3,234 to £3,378 per annum. On contract for 21-27 months.

Pathologist to work at the Medical Laboratory at Kampala under the Specialist in Clinical Pathology. Must be prepared to teach clinical pathology, forensic medicine, and haematology to students or trainees. Experience in pathological work essential. Salary £1,818 to £3,000 per annum. ### HOMES

### NORTHUMBERLAND HOUSE

Finchley, N.3. Tel. Finchley 5283

A psychiatric Nursing Home. Elderly patients accepted, Moderate inclusive terms. Apply Resident Physician.

### ST. ANDREW'S HOSPITAL NORTHAMPTON FOR NERVOUS AND MENTAL DISORDERS

FOR NERVOUS AND MENTAL DISOPDERS

President: The Earl Spencer Medical Superintendent:
D. J. O'Connell, M.D., D.P.M.
This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from eighteen guineas per week. Private rooms with special nurses can be provided, either in the hospital nurses can be provided, either in the hospital ror in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recretion and Occupation Centre, Known as Gloucester House, was opened in 1962, which comprises an occupational therapy department, a swimming pool. A squash court, and a library with an adjoining reading room.

WANTAGE HOUSE

WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available.

### MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch. For terms and further particulars, apply to the Medical Superintendent (Telephone No.: 34354 Northampton) who can be seen in longing by approximation of the magnitude of the second o London by appointment.

# The "Battle of Britain" that's still being fought

The presence of winter once again underlines the disturbing fact that 15-20,000 people with respiratory symptoms will die during the next 6 months. The unceasing war against diseases of the bronchitis-asthmaemphysema group has plainly not yet been won.

About 30,000 deaths occur annually in Britain from bronchitis alone and the number shows no sign of decreasing. Deaths attributable to chronic bronchitis amount to nearly 10% of all deaths of men aged 45-64—more than from any other respiratory disease. In another category—but none the less important—is the fact that bronchitis currently accounts for more working days off than any other illness.

### Into combat - with tetracycline

In the treatment of chronic bronchitis, current opinion advocates the employment of a drug capable of suppressing both the Pneumococcus and the Haemophilus influenzae. The one capable of doing this with safety is tetracycline. 1.

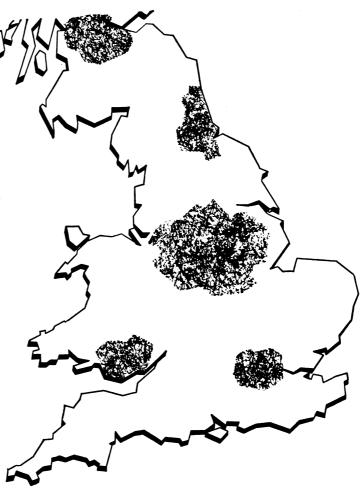

## The most effective weapon—demethylchlortetracycline Lederle

The modern tetracycline—Ledermycin demethylchlortetracycline Lederle—has been shown to provide higher and more sustained antibacterial activity levels in the serum than other tetracyclines. Broad-spectrum coverage persists up to 48 hours after the final dose—a safeguard against stopping treatment too early. "Most clinicians are agreed that tetracycline is preferable to the oxy- and chlor- derivatives... demethylchlortetracycline may possibly become the treatment of choice." 2.
