

# FIGHT CANCER

## WITH A WILL!

When you are consulted about bequests for medical work that deserves support, please remember the work of the Imperial Cancer Research Fund. Founded on the initiative of the Royal Colleges of Physicians and Surgeons, the I.C.R.F. is fighting all forms of cancer, including leukaemia, with every weapon of modern science in up-to-date laboratories. It has no official grants and is entirely supported by voluntary contributions. Will you please help—now?

### How to word your Will

*'I hereby bequeath the sum of.....pounds five of duty to the Imperial Cancer Research Fund, Lincoln's Inn Fields, WC2 for the purpose of scientific research, and I direct that the receipt of the Honorary Treasurer shall be a good discharge for such legacy'.*

Patron:

HydroSaluric-K

# 5000 times a day

## 'HydroSaluric'-K is endorsed 5,000 times a day

Every day, over 5,000 patients leave their doctors' surgeries with prescriptions for 'HydroSaluric'-K. Since its introduction in 1960, 'HydroSaluric'-K has been prescribed more than five million times.

**the most widely prescribed  
diuretic agent**

Why 'HydroSaluric'-K is prescribed more than any other diuretic:

- Because during the past five years, 'HydroSaluric'-K has proved its value in the long-term management of oedema.
- Because 'HydroSaluric'-K produces a smooth and predictable diuresis in most cases of oedema.
- Because 'HydroSaluric'-K provides a measure of protection against potassium depletion in patients where dietary intake may be inadequate.

## Is there a bronchial barrier

which prevents some of your patients  
with bronchitis from getting the benefit of the Tetracycline you prescribe?

### THE PROBLEM...

"Absorption of tetracycline is rather variable from patient to patient."<sup>1</sup>

"Tetracyclines are widely used in bronchitis but often give relief rather than elimination of bacterial pathogens."<sup>2</sup>

### ...AND ITS EFFECTS

Permanent and irreversible lung damage can be prevented by tetracycline PROVIDED IT IS PRESENT IN SUFFICIENT QUANTITIES IN THE SPUTUM TO INHIBIT *H. INFLUENZAE*.

"The effective sputum level of tetracycline is 0.5 mcg./ml."<sup>2</sup>

BUT THE BRONCHIAL BARRIER RESTRICTS THE SPUTUM LEVEL.

"The sputum level of tetracycline is 10-30% of the serum level in most patients."<sup>2</sup>

Since it has also been shown that up to 25% of patients can be poor tetracycline absorbers,<sup>3</sup> what happens to those bronchitics who have not achieved adequate serum levels?—they are prevented by the bronchial barrier from producing sputum levels capable of inhibiting *H. influenzae*.

raise the  
bronchial barrier  
by prescribing

## TETREX\*

(tetracycline phosphate complex)

the tetracycline that most reliably ensures adequate serum levels even in the poor absorber.

### TETREX PROVIDES YOU WITH ALL THESE ADVANTAGES

Many studies have shown:

Higher average peak blood levels<sup>4</sup> which in some cases may be double those obtained with tetracycline hydrochloride.

Faster blood levels<sup>5</sup> ensuring a more rapid onset of therapeutic effect.

Reliability of absorption<sup>3</sup>, high tolerance, more efficiency and economy, low dosage produces high blood levels.

## Psoriasis ... rapid response to Alphosyl

... even in previously intractable cases. A patient of 48 who had a generalised psoriasis for 20 years was essentially clear in six weeks.<sup>2</sup> A girl of 10 with a strong familial history of psoriasis, cleared almost completely after three weeks' application of Alphosyl Cream.<sup>2</sup> These are just two typical cases from the extensive clinical records underlining Alphosyl's outstanding effectiveness in bringing psoriasis under control.

**New Alphosyl lubricating cream.** A new water-in-oil dosage form, Alphosyl Lubricating Cream is particularly significant in the treatment of the dry, extremely scaly psoriatic lesion confined to the small site and the intertriginous area. Alphosyl cream is especially helpful in clearing psoriatic plaques exposed to constant friction. By enhancing lubrication of the skin folds, it serves to lessen irritation and facilitate healing. Clearing is prompt, even in previously resistant cases. The effectiveness of Alphosyl in this form is attributable in large measure to its unique cream base. This consists of a combination of saturated and unsaturated free fatty acids, naturally occurring triglycerides and esters that resemble the lipoid constituents of normal healthy skin. The vehicle also contains hydrophylip-lipophilic bipolar substances which

Oct. 9th

enhance the moisture uptake and retention of the amphoteric proteins of the stratum corneum. Significantly, it has been shown that squalane, one of the components of the base, is most effective in dissolving a cement substance in psoriatic scales.

**Formula:** Allantoin 2%+90% alcoholic extract of coal-tar (5=1) 5% in a vanishing type cream base or a smooth, non-greasy lotion base.

# For greater simplicity in oral contraception...

## Ovulen—the low dose oral contraceptive—now comes in this 3week wallet

Ovulen (brand of ethynodiol diacetate with mestranol) is the oral contraceptive with a progestin content of only 1 mg. per tablet. The new 3-week wallet means that Ovulen now combines the benefits of low dosage with a simple 3-week administration schedule. *This routine can be easily explained to the patient in a few minutes.*

**SIMPLICITY** The patient takes one tablet a day for 3 weeks, waits one week, then starts her next course of tablets. The complete 4-week cycle makes it easier for her to remember her 'pill routine', because her *starting day* will always be the same day of the week. Ovulen's low progestin content is consistently associated with a very low incidence of side effects.

If you have a patient with a chronic itch  
a good scratch will help, but FENOSTIL  
is much more effective.

A few milligrams of FENOSTIL per day are sufficient to control symptoms associated with histamine release: Therapeutic ratio 14,800: Greater potency and longer duration of action than chlorpheniramine.

FENOSTIL—non-phenothiazine—reduces to a minimum the side effects often met with in anti-histaminics. Drowsiness is rare, and if it occurs, can usually be avoided by modification of dosage.

FENOSTIL may safely be prescribed in all cases of pruritus and skin allergies; allergic conditions of the nose; allergic conditions of the eye; sensitisation reactions.

Anxiety and similar emotional factors lie at the root of most overeating problems. Treatment of the obese must therefore not merely curb the appetite—it must compensate for the solace formerly provided by eating. *Durophet-M* does just that. It contains not only laevo- and dextro-amphetamine (ratio 1:3)—probably the most effective appetite depressant available—but also methaqualone, a calmate to counter the underlying emotional factors that motivate the compulsive over-eater. In obesity, with its attendant hazards to health, these agents together provide more effective weight loss than do simple appetite depressants. Dosage is simple—just one capsule daily.

# PENBRITIN K.S.

**Brings bacterial enteritis  
firmly under control**

PENBRITIN K.S., a new product from Beecham Research Laboratories, combines all the advantages of broad spectrum antibiotic therapy with a soluble, well absorbed sulphonamide (sulphadimidine) that is effective against certain bacterial strains insensitive to ampicillin. This formulation, with Kaolin, provides a highly effective treatment that brings bacterial enteritis firmly under control by eliminating both the cause and symptoms of diarrhoea.

- The systemic action of Penbritin and sulphadimidine removes infection in the wall of the intestine – the most important site of infection.
- The unabsorbed Penbritin and sulphadimidine deal effectively with bacteria in the lumen of the gut.
- Kaolin adsorbs toxins, consolidates stools and exerts a demulcent action on inflamed mucosa.

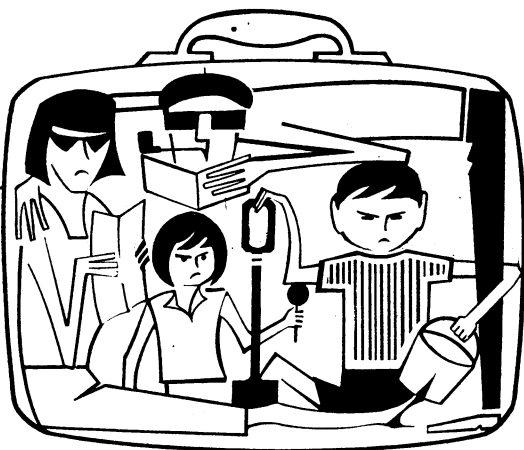

PENBRITIN K.S. gives the broadest coverage against entero-pathogenic bacteria.

Each 20ml. dose contains Penbritin (ampicillin B.P.) 0.375g./Sulphadimidine B.P. 1.0g./Light Kaolin B.P. 5.0g.

*Availability:* 60ml. bottles with dosage measure provided. A bottle is sufficient for one course of treatment.

## Spencer "Free Action" Support Brief for men

Spencer's revolutionary new concept of support in non-rubber, spandex elastic for back and abdomen.

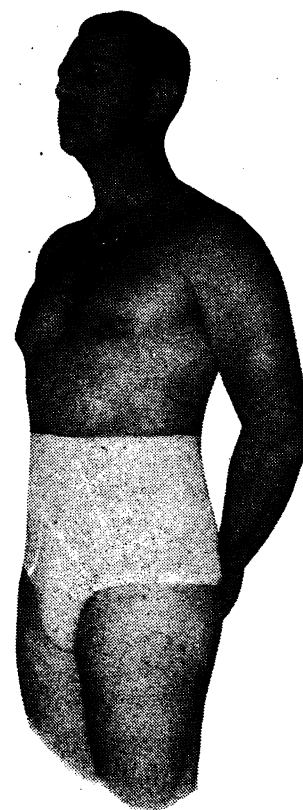

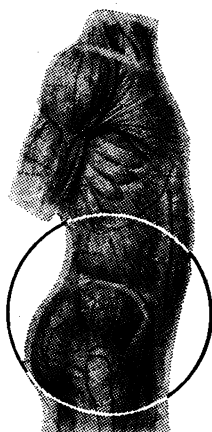

Subtle in design to the degree of being mistaken for tailored, body-fitting underwear in the locker room, it actually provides powerful, functional support in elevating the viscera, thus relieving low back strain.

- ★ Front inner panels follow natural musculature.
- ★ Soft expansion areas at top edge and around legs allow motion and minimize bulging.
- ★ Comfortable, accommodating crotch section has easy access opening.

Patients have experienced relief from chronic low back pain while wearing the Support Brief.

We recommend this Brief for minor low back conditions and where it is considered beneficial to raise abdominal contents in aiding respiration, relieving ptosis, minimizing pooling of blood in lower abdomen, etc.

# Betnovate

the topical steroid  
most likely to succeed

The excellence of Betnovate (betamethasone 17-valerate) in treating psoriasis and eczema of all types has now been firmly established. The evidence from extensive clinical trials—"that a better response is more likely with betamethasone 17-valerate than with any of the other corticosteroids tested"\*—has been fully substantiated by the outstanding results obtained with Betnovate in hospital and general practice. Used increasingly for many conditions other than psoriasis and eczema, Betnovate has also been shown to produce a better response throughout the whole range of steroid-responsive dermatoses. The majority of such skin disorders can in fact be treated satisfactorily by simply applying a Betnovate preparation once or twice daily.

Today, more than 10 years after its introduction by Lederle, ACHROMYCIN tetracycline is not only the world's most popular broad-spectrum antibiotic, but also the most imitated. Not only are there dozens of names for tetracycline today, but many tetracyclines are practically nameless. What better reason for so many physicians today to trust and prescribe tetracycline only as ACHROMYCIN.

## **RASTINON** tolbutamide BP

The diabetic's treatment extends, at the moment, throughout his lifetime. The long-term safety of the preparations used is just as important as their ability to maintain satisfactory blood levels. Rastinon has a record of safety exceeding that of any comparable preparation. Its effectiveness is such that during the last 8 years over three million of the world's diabetics have been stabilized on Rastinon. This is why Rastinon is the first choice in initiating and continuing treatment of diabetes.

ST. ANDREW'S HOSPITAL  
NORTHAMPTON

FOR NERVOUS AND MENTAL DISORDERS

President: The Earl Spencer  
Medical Superintendent:  
D. J. O'Connell, M.D., D.P.M.

This private hospital receives patients, both male and female, suffering from nervous and mental disorders, including alcoholism and senile illnesses. The fees range from eighteen guineas per week. Private rooms with special nurses can be provided, either in the hospital or in one of the villas in the grounds. The hospital is situated in 130 acres of pleasant grounds which provide all recreational facilities. These include a nine-hole golf course, sports ground, tennis courts, etc. A Recreation and Occupation Centre, known as Gloucester House, was opened in 1962, which comprises an occupational therapy department, a swimming pool, a squash court, and a library with an adjoining reading room.

## WANTAGE HOUSE

This is a separate reception unit to which patients may be admitted. It is equipped for the complete investigation of nervous and mental disorders by the most modern methods. All forms of treatment are available.

## MOULTON PARK

Some two miles from the main hospital is the farm of approximately 600 acres. Occupational therapy is a feature of this branch. For terms and further particulars apply to the Medical Superintendent (Telephone No.: 34354 Northampton), who can be seen in London by appointment.

## NURSING HOMES

**HOLY ROOD NURSING HOME**  
Grove Hill, Middlesbrough, Yorks (Middlesbrough 43463)

Medical Nursing Home administered by Anglican religious community. Elderly patients of any denomination received. Terms moderate. Apply Matron.
