

The SPENCERFLEX for Men

- ★ Co-relates back and abdominal support
- ★ Allows complete freedom of action
- ★ Protects scar following upper abdominal surgery

Individually designed, cut and made for each patient, this support provides pelvic control, abdominal uplift, freedom for muscular action. Thus, at work or play, or during convalescence, the Spencerflex favourably influences better posture and body mechanics.

Safe because it will not yield or slip under strain. *Comfortable* because it is made according to the prescribed needs of each patient.

The extra width at back gives exceptional back support. It is light and flexible, with no pressure on prominent part of hip bones.

Designed as an adjunct to treatment following upper abdominal surgery. Especially helpful in early ambulation and where drainage has been maintained for a considerable period. Completely covers and protects the scar without "digging-in" at lower ribs. Relieves fatigue and strain—even that caused by deep breathing and coughing—on tissues and muscles of the wound area. *We know of no other abdominal support for men* which provides these benefits.

Trained Retailer-Fitters resident throughout the Kingdom. Name and address of nearest Fitter supplied on request.

CROSSING THE ATLANTIC IN AN OPEN BOAT? CLIMBING MOUNT EVEREST?

Yes, that's fine as far as it goes; but it doesn't overshadow Mr. Bibey's achievement. You've never heard of him? Well, in his way he is just as remarkable as any of them. Mr. Bibey—pronounced Bibby, if you please—literally built his own house; both storeys, all eight rooms. Yes, brick by brick. Designed it all; installed everything. Mr. Bibey was his own architect, builder, bricklayer, plasterer, carpenter, electrician, plumber and interior decorator. The complete economic man; homo sapiens of the Utopian order. A better achievement than crossing the Atlantic in a yacht? Well, a little more useful, anyway.

And then Mr. Bibey considered the question of furnishing his home. He looked around, he considered the shopping outlets available. Shrewdly, carefully, weighing all the pros and cons. And he chose to buy through Crawford Homeplan. A dining room suite priced at £585 in a leading store Mr. Bibey bought for £429; a drawing room suite—the best—£588 in a leading store Mr. Bibey bought through Homeplan for £406. A keen chap, Bibey!

Why are we telling you all this? You wouldn't know the difference between bricklaying and laying an egg? You couldn't knock a nail into a wall? Well, never mind, you can still follow Mr. Bibey's example when it comes to furnishing and equipping your home. You too can save up to seven shillings in the pound if you buy through Crawford Homeplan. We deal in everything; furniture, carpets, electrical goods, cars, jewellery, cameras and a host of other things.

or phone PADdington 4428.

ANTIBIOTICS AND THE INTESTINAL FLORA

Treatment with broad spectrum antibiotics suppresses the normal flora, which may be replaced by abnormal resistant organisms causing diarrhoea.

This change can be prevented or reversed by the implantation of *Lactobacillus acidophilus* which has been rendered antibiotic-resistant, and is thus able to multiply freely under these abnormal conditions. The products of growth of the organism are inimical to that of many other bacteria^{1,2} and thus contribute to its rapid preponderance over other species.

Oral treatment with antibiotic-resistant *L. acidophilus* in the form of ENPAC has been shown to eliminate *Candida* from the faeces of infants with antibiotic-induced diarrhoea, with relief of symptoms succeeded by rapid gain in weight³ and greatly to reduce the numbers of staphylococci in the faeces of patients treated with tetracyclines.⁵

ACTHAR GEL

ACTH Gel. Inj. B.P.

PROMPT RELIEF OF PAIN

INCREASED MOBILITY

MORE NORMAL LIFE

Effective and Reliable

For over 15 years ACTHAR GEL therapy has brought new life to rheumatoid patients. It is still the most effective treatment and the most reliable long-acting corticotrophin available.

Safe Stimulation Therapy

ACTHAR GEL stimulates the adrenal cortex to release the full range of natural steroids, thereby avoiding the hazards of adrenal suppression associated with synthetic corticosteroid therapy.

The toxicity of the more potent analgesics is avoided and such side-effects as may occur are usually due to over-dosage. These are seldom serious and may be reversed by adjusting the dosage.

For Self-Administration

When the maintenance dose has been determined, the patient can easily be taught self-administration of ACTHAR GEL. Several thousand self-injections have now been given and many previously crippled patients have returned to, and remained at, their occupations.

For fuller details please write for the book "The Place of ACTHAR GEL in the Treatment of Rheumatoid Arthritis".

**how
much
does**

weigh?

Anxiety and similar emotional factors lie at the root of most overeating problems. Treatment of the obese must therefore not merely curb the appetite—it must compensate for the solace formerly provided by eating. *Durophet-M* does just that. It contains not only laevo- and dextro-amphetamine (ratio 1:3)—probably the most effective appetite depressant available—but also methaqualone, a calmative to counter the underlying emotional factors that motivate the compulsive over-eater. In obesity, with its attendant hazards to health, these agents together provide more effective weight loss than do simple appetite depressants. Dosage is simple—just one capsule daily.

'VALLERGAN'

breaks the itch-scratch-itch cycle

By breaking this cycle and hence encouraging the healing of lesions, 'Vallergan'* brand of Trimeprazine Tartrate B.P.C., the M&B oral antipruritic, has proved extremely effective in a wide variety of dermatological conditions and in more general disorders.

For adults, three or four tablets daily are usually sufficient, although in intractable cases up to ten tablets daily may be given.

For children, one or two small teaspoonfuls of syrup (7.5 mg. per 3.6 ml.) are usually sufficient, although up to 22 mg. three times daily has been used in cases of infantile eczema.

Presentations: Tablets of 10 mg.; Syrup, 7.5 mg. per small teaspoonful (3.6 ml.); Forte Syrup, 22 mg. per small teaspoonful (3.6 ml.)

Benvil

**RESTORES
EQUANIMITY**

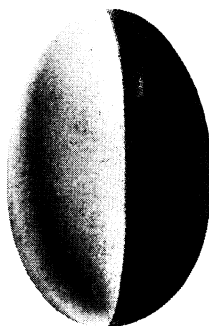

NEW!

Benvil FOR THE TREATMENT OF ANXIETY STATES

Benvil restores equanimity in acute and chronic anxiety states—so encouraging the patient to come to terms with life.

Benvil relaxes tension, calms agitation, and restores well-being in the moody, dejected patient. In clinical trials with this new compound, relief of symptoms was either complete, or more marked than with other psychotropic agents. Notable improvement occurred in cases where the results of previous medication were considered to be equivocal.

Published studies also report less sedation than with chlordiazepoxide, meprobamate, phenothiazines or barbiturates; in addition reports also suggest freedom from habituation or addiction. When prescribing Benvil, it is nevertheless advisable to follow the precautions normally applying to these compounds.

Dosage: One capsule three times a day and one at bed-time. (This may later be adjusted to 3-6 capsules per 24 hours.)

Available as blue/white capsules each containing 350mg. tybamate, in canisters of 50 and 250.

Heinz use far better, fresher ingredients than the average mother

Heinz ingredients are better and fresher than those normally available to the housewife.

Only close supervision and control keep this superiority constant.

For example, before contracting with fruit or vegetable growers, Heinz agronomists study the land and the farming methods practised.

Heinz then specify precisely which seed varieties are to be sown.

In addition, all fertilisers, insecticides, etc. must have Heinz approval—backed by laboratory tests—before being used.

This far-reaching control extends to harvesting. Crops are gathered at the correct moment of maturity, and rushed to the factory for immediate processing.

The fact that Heinz' Kitt Green

factory is adjacent to the Ormskirk market garden region—where a great deal of the produce is grown—allows the maximum supervision and speed.

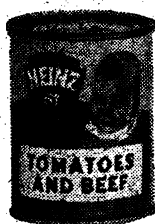

But even when crops are grown abroad, Heinz inspectors still exercise control.

The same high standards apply to meat. Only prime cuts of beef are used; tender veal; best boned legs and shoulders of lamb.

Everything is checked and re-checked from seed to harvest.

Finally, on arrival at Heinz kitchens, all ingredients must pass stringent quality control tests before being accepted for processing.

For further information about Heinz Strained and Junior Foods, please write to: Foods Science Advisory Service, H. J. Heinz Co. Ltd., Hayes Park, Hayes, Middlesex.

PENBRITIN K.S.

**Brings bacterial enteritis
firmly under control**

PENBRITIN K.S., a new product from Beecham Research Laboratories, combines all the advantages of broad spectrum antibiotic therapy with a soluble, well absorbed sulphonamide (sulphadimidine) that is effective against certain bacterial strains insensitive to ampicillin. This formulation, with Kaolin, provides a highly effective treatment that brings bacterial enteritis firmly under control by eliminating both the cause and symptoms of diarrhoea.

- The systemic action of Penbritin and sulphadimidine removes infection in the wall of the intestine – the most important site of infection.
- The unabsorbed Penbritin and sulphadimidine deal effectively with bacteria in the lumen of the gut.
- Kaolin adsorbs toxins, consolidates stools and exerts a demulcent action on inflamed mucosa.

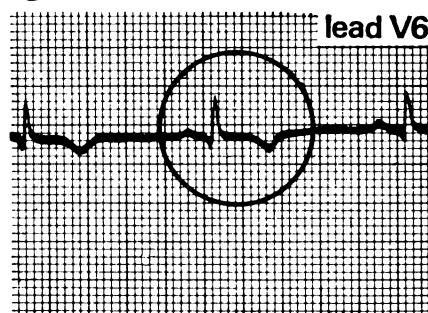

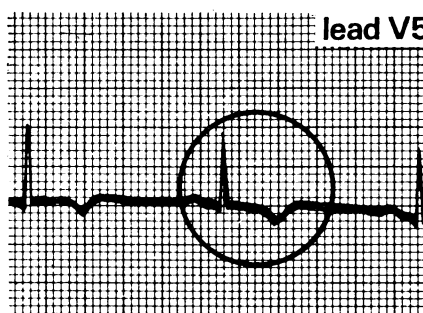

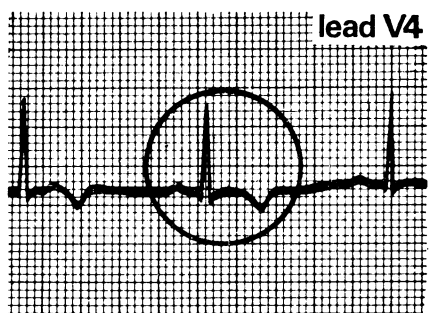

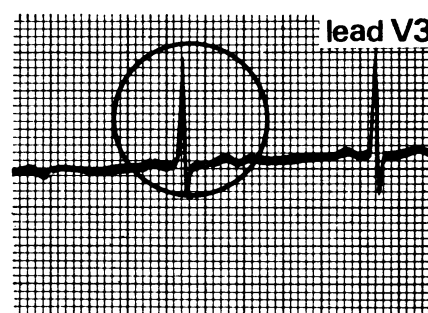

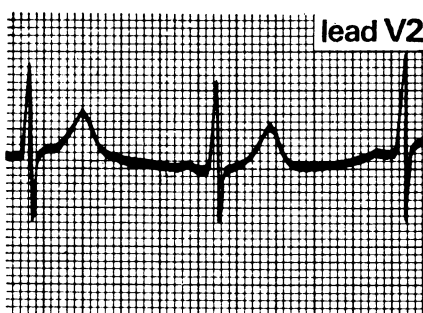

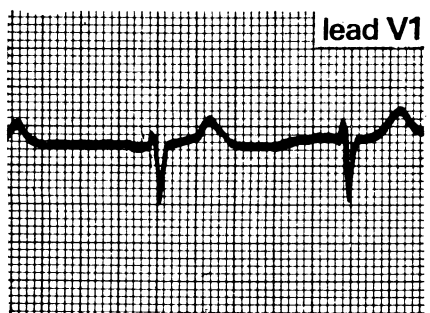

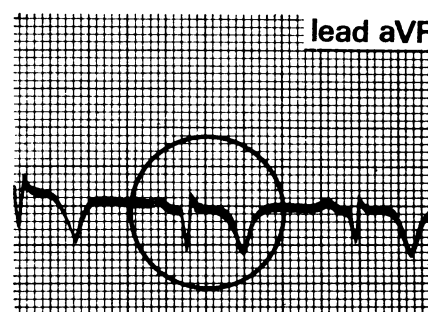

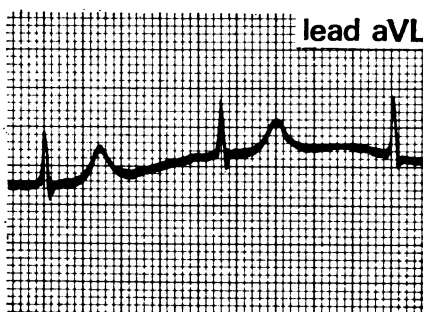

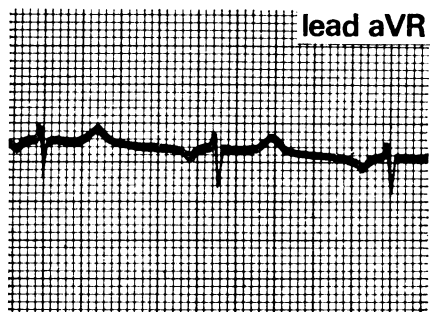

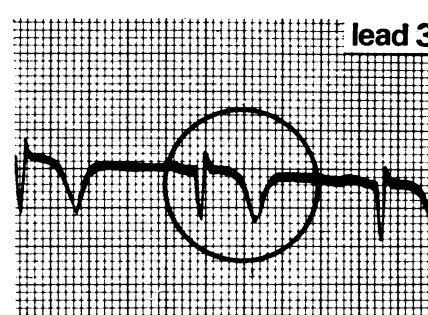

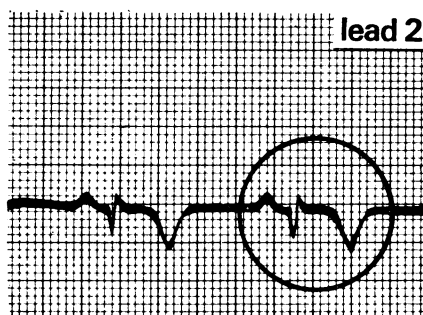

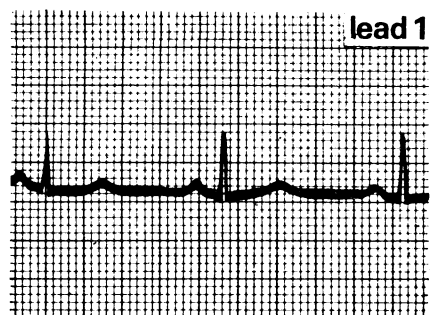

PENBRITIN K.S. gives the broadest coverage against entero-pathogenic bacteria.

Each 20ml. dose contains Penbritin (ampicillin B.P.) 0.375g./Sulphadimidine B.P. 1.0g./Light Kaolin B.P. 5.0g.

Availability: 60ml. bottles with dosage measure provided. A bottle is sufficient for one course of treatment.

Penbritin K.S. is a product of
Beecham Research Laboratories
Brentford, England.

Glaxo brief

News and views on Glaxo products

Grisovin-FP—athlete's foot

Betnovate—psoriasis

Betnesol—asthma season

Ceporin—recent clinical findings

Mevilin-L—measles vaccination

Where topical antifungals
have failed

Grisovin-FP Tablets the successful systemic approach

Given by mouth griseofulvin has a specific action against the dermatophytes which cause superficial fungal infections. Acting from within it disrupts the growth of fungal hyphae in the deeper layers of the skin—where topical antifungals cannot penetrate—and accumulates to form a resistant barrier to reinfection. Even the most stubborn *Trichophyton rubrum* infections have yielded to its systemic attack. Presented in fine-particle form as Grisovin-FP Tablets, griseofulvin is well absorbed and is effective in comparatively low dosage. Thus Grisovin-FP Tablets present a convenient, economical—and very often more successful—alternative to topical treatment for fungal infections such as athlete's foot.

Presentation

Grisovin-FP Tablets 125 mg : bottles of 100 and 1000

Grisovin-FP is a Glaxo trade mark

**Glaxo
brief**

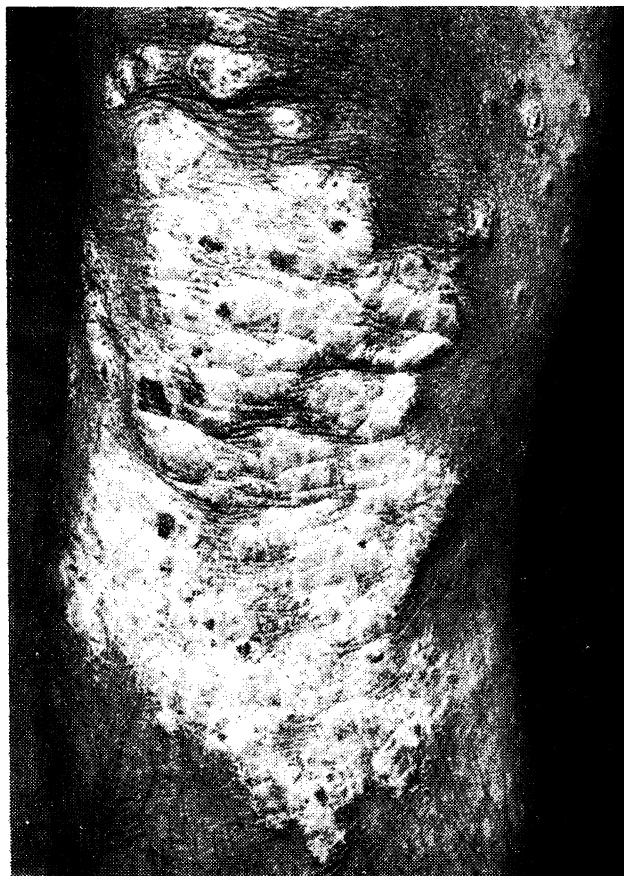

Nothing will actually
cure psoriasis

—but for relief of symptoms
no treatment is more
effective than **Betnovate**

Although a permanent cure has yet to be found for psoriasis, Betnovate will often give dramatic relief and lengthy remission of its symptoms. Application of a Betnovate preparation once or twice daily is usually effective but occlusion may be needed occasionally for chronic, thickened plaques, which may occur on the elbows and knees. The efficacy of Betnovate extends over the whole range of steroid-responsive dermatoses. Many of those conditions which respond to other steroids respond more rapidly to Betnovate. But it is in the resistant diseases such as psoriasis, which are difficult to control, that the outstanding effectiveness of Betnovate is most strikingly apparent.

Betnovate is a Glaxo trade mark

Lesions on knee in psoriasis of 51 years' duration.

Presentation

Betnovate (0.1 betamethasone as 17-valerate):

Lotion in 20 ml bottles.

Betnovate-N (0.1 betamethasone as 17-valerate
with 0.5% neomycin sulphate):
Ointment and Cream, each in 15 and 30 gram tubes;
Lotion in 20 ml bottles.

Betnovate-C (0.1 betamethasone as 17-valerate
with 3% chionoform):
Ointment and Cream in 15 gram tubes.

Betnovate-N Tulle (cotton net impregnated with
betamethasone 17-valerate with neomycin ointment):
tins of 10 pieces (4 in x 4 in)

After 24 days' treatment with Betnovate Ointment
under polythene occlusion.

Rapid rescue from asthmatic distress

When conventional control of asthma is interrupted by an acute seasonal attack, a short course of betamethasone tablets can re-establish control almost immediately. The high anti-inflammatory activity of betamethasone ensures swift, complete suppression of the most severe allergic symptoms—and with this steroid there are seldom any side effects to detract from the value of the relief obtained. It does not cause salt retention and it has negligible effect on potassium balance. Betnesol is betamethasone disodium phosphate, a soluble form of the steroid. Betnesol Tablets can therefore be taken in solution as a drink, ensuring good gastric tolerance, maximum efficiency of absorption and a consistent therapeutic effect. A suitable course for the control of exacerbations of asthma would be 21 Betnesol Tablets (0.5 mg) given over six days according to the schedule shown below. This should bring an almost immediate improvement in the patient's condition followed by a very considerable remission of symptoms.

Betnesol tablets of soluble betamethasone

Growing clinical evidence strengthens the case for **Ceporin**

broad-spectrum, bactericidal antibiotic

A recent analysis of the results from over 1,500 cases treated with Ceporin (cephaloridine) has indicated high success rates in a wide variety of infections—including infections of the urinary and respiratory tracts, soft tissue infections, septicaemias and infections of the genital tract. The reports have been drawn from centres in many parts of the world. Many mention the rapid response obtained with Ceporin after other antibiotics had failed. Reports on toxicity and side effects have confirmed the laboratory evidence that Ceporin has remarkably low toxicity—even when high doses are given for long periods. This evidence of Ceporin's broad-spectrum effectiveness and safety makes a strong case for its use in place of long courses of

more toxic drugs or combinations of antibiotics.

As it is effective against penicillin-resistant staphylococci—and usually tolerated well by patients allergic to penicillin—it can also be used to bring a quick clinical response in many serious infections where penicillin might prove ineffective or dangerous.

Presentation

Ceporin is issued in vials containing 250 mg, 500 mg and 1 gram of cephaloridine, packed singly and in boxes of 5.

Ceporin is a Glaxo trade mark

Glaxo brief

Is measles vaccination really necessary?

"In the United Kingdom, prevention of measles by a safe procedure is desirable because of the high complication rate in young children. Although the case mortality from measles in England and Wales is only approximately one per 5,000 notifications, as many as one in 15 can be expected to have potentially severe complications, such as pneumonia, otitis media, convulsions or encephalitis, and one in a hundred requires admission to hospital."*

In addition to safety, the factors which must influence the decision to vaccinate are the efficacy and convenience of available vaccines in relation to the importance of the disease. In the U.S.A. a single-dose vaccine has been available for almost a year and has been used without serious adverse reactions in more than two million children. It is a living vaccine prepared from attenuated measles virus of the Schwarz strain. A similar live-attenuated vaccine, Mevlin-L, is now available in Britain. This is the Schwarz-strain vaccine which was tested in the recent trials conducted by the Medical Research Council. These trials—and others conducted in many parts of the world—have confirmed that in the great majority of susceptible infants protection against measles can be expected to develop after a single dose of Mevlin-L. Since the development of immunity follows a very similar pattern to that induced by natural infection it is reasonable to suppose that one injection of Mevlin-L will give the same high level of protection as normal experience of the disease.

Mevlin-L thus fulfils the three requirements of a measles vaccine: safety, efficacy and convenience. It is perhaps the convenience of the single-dose vaccine which will lead to eventual eradication of measles from the accepted diseases of childhood—saving much of the general practitioner's valuable time and putting an end to the disorganisation caused by the disease in so many homes.

Presentation

Mevlin-L is a living, freeze-dried vaccine prepared from attenuated measles virus of the Schwarz strain developed by the Pitman-Moore Division of the Dow Chemical Company, U.S.A.

Single-dose vial,
0.6 ml ampoule Water for Injection

MOGADON* AND NATURAL SLEEP

Striking advances have recently been made into the knowledge of sleep with the aid of the electroencephalogram, and it is now recognised that sleep does not consist of a quantitative reduction in cortical activity but of a qualitative change. Hypnotics, by their generalised depressant action on all the brain structures, greatly reduce cortical activity and sleep takes on an abnormal pattern. The development of Mogadon, however, has now made the treatment of insomnia possible without any significant lessening of cortical activity. The sleep induced closely resembles natural sleep; there is no disturbance of the normal rhythmical balance that exists between the sleep and wake processes and the patient will awake refreshed, without hangover and without mental confusion.

Mogadon
the
successor
to the
hypnotics

Keeping patients on a low-fat diet

THE PROBLEM For patients given a low-fat diet undoubtedly one of the greatest difficulties is keeping to their diet over a longish period. Tea or coffee without milk are not the easiest of tastes to acquire; even when the patient and his household are fully co-operative, low-fat dishes, week after week, call for no mean feat of ingenuity.

NEW HELP A simple and obvious answer is the use of non-fat milk for drinks and cooking. Patients and their families accept it readily. In Cadbury's Marvel doctors now have a tested product which they can recommend with complete confidence for use in coffee, for hot or cold drinks, puddings and custards, and any other normal household use.

WHAT IS MARVEL? Marvel non-fat milk granules are made from pure fresh dairy milk, in a way that extracts only the water and all but a trace (less than 0.15% when reconstituted) of the fat. Apart from the fat, and associated vitamins A and D, all milk nutrients (including the lactose, protein and valuable mineral salts) remain.

Marvel contains no additives whatsoever. When it is reconstituted in water Marvel is exceptionally palatable, being similar in flavour and freshness to the taste of bottled milk.

OTHER USES In addition to its use where a low-fat diet is prescribed, Marvel can prove useful in high-protein diets. It is considerably less expensive than bottled milk, and can be taken as an addition to the normal milk supply. The 2s 3d tin makes 3½ pints, costing less than 8d a pint.

A MONEY SAVING OFFER

Attention is drawn to the following special discounts offered to members of the British Medical Association

FRED SNELGROVE LTD.

Furnishers, Jewellers and General Salesmen

We supply Carpets, Down Quilts, Bedding, etc., at 10% on the wholesale prices as invoiced to us. We give a note of introduction to Manufacturers' showrooms, where goods may be viewed as in a retail shop, which in most cases means a saving of 20% on normal retail prices. In the event of a customer being unable to visit showrooms, but knowing what is required, we will endeavour to obtain and supply as above if he will advise us as to the make and model. A charge is made for delivery—at cost. This is not excessive, and the saving is still more than worth while.

The same system applies to all Jewellery, Signet Rings, Wedding Rings, Brush Sets, Cut Glass, Barometers, Musical Boxes, etc.

Watches	Less 22½%
Cutlery, Fountain Pens, Lighters, Tape Recorders	Less 20%
Furniture (most makes), Perambulators, Cribs, etc.	Less 15-20%
Clocks, Infra-red Cookers, Electric Razors, Binoculars, Radio and Record Reproducers	Less 15%
Electric Blankets, Electric Fires, Oil Heaters, Typewriters, Lawn Mowers	Less 12½%
Refrigerators, Spin Dryers, Washing Machines, Electric Food Mixers	Less 7½-12½%

ALL DISCOUNTS QUOTED ARE OFF THE FULL RETAIL PRICE INCLUDING PURCHASE TAX

On acceptance of an order we require a deposit of 10%, the balance to be paid three days before delivery. We cover a very extensive range of goods and welcome all enquiries. If we cannot meet your requirements we can only regretfully tell you so.

(We do not deal in Television or Photographic equipment)

Triominic

Oral Nasal Decongestant

WANDER

'Triominic' timed-release tablets and orange-flavoured syrup contain antihistamines and a decongestant in balanced proportions to ensure relief from symptoms of nasal allergy for between 6 and 8 hours. The active constituents of 'Triominic'—the original *oral* decongestant—reach the nasal mucosa systemically. This obviates the rebound congestion which may follow the topical use of vasoconstrictors.

Formula per timed-release tablet.

Phenylpropanolamine hydrochloride.....	50 mg.
Mepyramine maleate B.P.....	25 mg.
Pheniramine maleate.....	25 mg.

S7

'Triominic' is also available as an orange-flavoured syrup.

Basic N.H.S. prices: 50 tablets 5/9½;
4 fl. oz. 2/2 (ex dispensing packs).

UNIVERSITY AND RESEARCH APPOINTMENTS

(See also under "Oversea")

**CLINICAL PHARMACOLOGIST
MINISTRY OF DEFENCE
(ARMY DEPARTMENT)**

Post at Chemical Defence Experimental Establishment, Porton Down, Salisbury, Wilts, for registered medical practitioner (man or woman) aged at least 28.

DUTIES: control of a section of the establishment's medical and pharmacological research; design of experiments; supervising and carrying out clinical pharmacological tests on compounds, assessing effects on performance, and determining interaction between such drugs and various factors, including environment; responsibility for the safety of these tests.

QUALIFICATIONS: In addition to medical qualifications, candidates should preferably have a knowledge of drugs, especially those affecting behaviour, experience in clinical pharmacology, and some knowledge of experimental psychology.

STARTING SALARY: £2,260 (at age 28) to £3,434 (at age 40 or over) (or possibly higher at 41 or over); scale maximum £3,895. Non-contributory pension.

WRITE to Civil Service Commission, Savile Row, London W.1, for application form, quoting 6339/66. Closing date extended to June 9, 1966. Candidates who have already applied need not do so again. (14085)

THE UNIVERSITY OF LEEDS

Applications are invited for a **RESEARCH FELLOWSHIP** in the Thoracic Surgery Section of the Department of Surgery to work under the direction of Mr. G. H. Wooler, F.R.C.S., at Leeds General Infirmary. Salary up to £2,000 per annum. The appointment will be for one year in the first instance commencing on July 1. An applicant particularly interested in open heart surgery, who will pursue the possibility of valve grafting, would be preferred. Applications (three copies), stating age, qualifications and experience, should reach the Registrar, The University, Leeds 2 (not later than May 25, 1966. (14306)

University and Research Appointments—contd.

MENTAL HEALTH RESEARCH FUND FELLOWSHIPS

Applications are invited for Mental Health Research Fund Fellowships from suitably qualified persons wishing to pursue full-time research work bearing on problems of mental health whether in clinical psychiatry or in one of its supporting sciences.

Both Junior and Senior Fellowships are offered in the salary ranges £800 to £1,800 and £1,800 to £2,500 plus superannuation. The appointments will be for up to three years in the first instance and in exceptional circumstances may be extended to five years.

Application forms, which must be returned before October 1, 1966, may be obtained, together with further information from the Secretary, Research Committee, Mental Health Research Fund (B), 38 Wigmore Street, London W.1 (Tel. WELbeck 4103). (H.6544)

NATIONAL SPINAL INJURIES CENTRE Stoke Mandeville Hospital, Aylesbury, Bucks

SENIOR RESEARCH ASSISTANT

A Senior Grade post is offered at the Research Department of the National Spinal Injuries Centre to a suitable applicant with experience in physiology and clinical research. The post will be vacant in July.

The Senior Assistant will work in close co-operation with the Biochemist and clinical staff under the supervision of the Director of Research. The successful applicant will receive a salary within the Senior Grade Scale for Physiologists £1,833 to £2,276 per annum or that of a University Lecturer, depending on experience and qualifications, with opportunity for advancement to higher clinical post.

Applications, with details of qualifications and experience, and the names of three referees, to the Administrative Officer, Stoke Mandeville Hospital, Aylesbury, Bucks. (13935)

THE UNIVERSITY OF MANCHESTER Department of Anatomy

MANCHESTER ROYAL EYE HOSPITAL

Applications are invited from candidates with medical qualifications registrable in this country for the post of

ASSISTANT LECTURER or DEMONSTRATOR IN ANATOMY

The person appointed will also work in the Manchester Royal Eye Hospital, spending approximately half of his time on this work; experience in ophthalmology is desirable. Candidates working for Primary F.R.C.S. acceptable. Salary ranges per annum: Assistant Lecturer, £1,310 to £1,680; Demonstrator, £1,260 to £1,470. Initial salary and status according to qualifications and experience. Duties to commence on October 1, 1966.

Applications should be received by the Registrar not later than May 21, 1966. Further particulars and forms of application may be obtained from the Registrar, the University, Manchester 13, on quoting reference 117/66/JMB. (13607)

NUFFIELD TRAVELLING FELLOWSHIPS FOR GENERAL PRACTITIONERS OF THE UNITED KINGDOM

As part of its programme for the advancement of health, the Nuffield Foundation, in co-operation with the College of General Practitioners, is prepared, in 1966, to award to men and women of the United Kingdom: Three Fellowships (each for a period of six consecutive months) to enable general medical practitioners of outstanding ability, preferably between the ages of 35 and 45, to undertake approved study overseas in July to December 1967, in some subject of importance to general practice. The value of the Fellowship award will cover (for the Fellow and his wife) tourist return travel by air, and other fares at tourist rates, together with an adequate subsistence allowance, and provision for the cost of employing an approved assistant during his absence.

Applications for these awards must be received by the Nuffield Foundation not later than October 15, 1966. The conditions of the Fellowships and application forms may be obtained from the Director, The Nuffield Foundation, Nuffield Lodge, Regent's Park, London N.W.1. (H.6683)

THE UNIVERSITY OF LIVERPOOL Department of Obstetrics and Gynaecology

Applications are invited for the whole-time post of

LECTURER IN OBSTETRICS

resident in the Liverpool Maternity Hospital. Previous resident experience in obstetrics and gynaecology is essential and a higher qualification in these subjects is desirable. The appointment will be for one year in the first instance, commencing on October 1, 1966. The initial salary will be within the range of £1,400 to £1,920 per annum, according to qualifications and experience, together with board-residence.

Applications, stating age, qualifications and experience, together with the names of three referees, should be received not later than May 23, 1966, by the Registrar, from whom further particulars of the post may be obtained. (13773)

UNITED MANCHESTER HOSPITALS Manchester Royal Infirmary

REGISTRAR

Whole-time non-resident post for twelve months from October 1, 1966. One year's experience in anaesthetics essential. The successful candidate will spend approximately half his time teaching and studying anatomy in the University. A knowledge of anatomy over the average is therefore desirable. Application form obtainable from the Secretary, Manchester Royal Infirmary, Oxford Road, Manchester 13. (13771)

CHAIR OF DENTAL MEDICINE

The Senate of The Queen's University of Belfast invites applications for a Chair of Dental Medicine (a third Chair in the School of Dentistry) from October 1, 1966. Applications should be received by May 31, 1966.

Further particulars may be obtained from G. R. Cowie, M.A., LL.B., J.P., Secretary. (14093)

THE UNIVERSITY OF LIVERPOOL

DEMONSTRATOR IN ANATOMY

Applications are invited for the post of Demonstrator in the Department of Anatomy. The salary will be £1,210 per annum.

Applications, in writing, together with copies of three references, should be sent to the Registrar, The University, Liverpool 3, from whom further particulars may be obtained, not later than June 4, 1966. (14309)

THE UNIVERSITY OF MANCHESTER

Applications are invited for a number of posts of

TEMPORARY ASSISTANT LECTURER

in anatomy from candidates with medical qualifications registrable in this country. Appointments will be for one year in the first instance, but may be renewable. Duties to commence October 1966. Salary range: £1,310 to £1,680 per annum. Initial salary according to qualifications and experience.

Applications should be sent not later than May 21, 1966, to the Registrar, the University, Manchester 13, from whom further particulars, and forms of application, may be obtained, on quoting reference 114/66/JMB. (13258)

THE UNIVERSITY OF SUSSEX

MEDICAL OFFICER

Applications are invited for the post of

STUDENT HEALTH PHYSICIAN

in the University Health Service from October 1, 1966. The work will involve both general medical and psychiatric care of students and there are opportunities for research.

Salary within the scale £2,575 by £105 to £3,415 per annum, with F.S.S.U. benefits.

Further particulars may be obtained from the Assistant Registrar (Establishment), The University of Sussex, Falmer House, Falmer, Brighton, to whom applications (six copies) should be returned by May 31, 1966. (13901)

UNIVERSITY OF IBADAN

Nigeria

Applications are invited for

(a) SENIOR LECTURESHIP or (b) LECTURESHIP

in Department of Chemical Pathology

Applicants must be medically qualified with adequate experience. Appointment, to commence October 1966, carries honorary Consultantship to University College Hospital. Salary scales: (a) £2,650 to £2,950 per annum; (b) £2,200 to £2,600 per annum. 20% supplementation basic salaries (generally free of income tax) payable to U.K. staff. Family passages, F.S.S.U. Children's and car allowances. Part-furnished accommodation. Regular U.K. leave. Detailed applications (eight copies), naming three referees by June 20, 1966, to Secretary, Senate Committee on Higher Education Overseas, University of London, Senate House, London W.C.1., from whom particulars are available. (14192)

UNIVERSITY OF BELFAST

Student Health Service

WOMAN ASSISTANT MEDICAL OFFICER

The Senate of The Queen's University of Belfast invites applications from women registered medical practitioners for a post of woman Assistant Medical Officer in the Student Health Service from July 1, 1966, or such other date as may be arranged. Salary on the scale £1,450 to £1,940 plus F.S.S.U. will depend on experience and qualifications. Applications should be submitted by May 20, 1966. Further particulars can be obtained from G. R. Cowie, M.A., LL.B., J.P., Secretary. (14094)

UNIVERSITY OF BRISTOL

Applications are invited for appointments as

DEMONSTRATOR IN PATHOLOGY

Salary scale £1,470 by £90 to £1,830 per annum according to qualifications and experience. Previous experience in pathology is not necessary. The duties include assistance with the teaching of medical and dental students and general pathology for veterinary students, and the conduct of autopsies. Facilities for research and experience of diagnostic histology are available.

Applications, giving full name, age, qualifications, details of education and experience, together with the names of not more than three referees, should reach the undersigned, from whom further particulars may be obtained, on or before June 6, 1966.—H. C. Butterfield, Registrar and Secretary. (13636)

UNIVERSITY OF BRISTOL

The University invites applications for the post of

LECTURER IN OBSTETRICS AND GYNAECOLOGY

The salary range will be either: £1,920 by £115 to £2,150 by £110 to £2,700 or £1,920 by £110 to £3,470 by £115 to £3,585 by £60 to £3,645 by £115 to £3,990, on present clinical scales, according to qualifications and experience, together with superannuation.

The successful candidate will be granted an honorary contract as Senior Registrar or Consultant with the Board of Governors of the United Bristol Hospitals, and the South Western Regional Hospital Board, according to qualifications and experience.

Twenty copies of applications, including the names of three referees, should reach the Registrar, from whom further particulars may be obtained, not later than June 10, 1966. (14139)

UNIVERSITY OF CAMBRIDGE

Applications are invited for the office of

UNIVERSITY DEMONSTRATOR in the Department of Anatomy

from October 1, 1966, or earlier if this can be arranged. Duties include teaching and research. The annual stipend of a Demonstrator is £1,600 to £1,950. Seniority may be given to determine the initial stipend. The maximum tenure is five years. There is a grant towards removal expenses.

Twenty copies of applications, together with names of not more than three referees, should be sent to T. D. Kellaway, Department of Pathology, Tennis Court Road, Cambridge, to arrive not later than June 9, 1966. (H.6685)

ROYAL COLLEGE OF PHYSICIANS AND SURGEONS OF GLASGOW

The Membership Examination will in future consist of two parts. Part I will be a written examination on the practice of medicine, the related medical sciences and therapeutics. Only those candidates successful in Part I of the examination will be eligible to sit Part II which will consist of two written papers, a clinical examination and two oral examinations.

Details of these changes may be obtained on application to the Registrar, Royal College of Physicians and Surgeons, 242 St. Vincent Street, Glasgow, C.2. Examinations will be held on the following dates:

Examination for	Last Date of Entry	Written Examinations	Practical and Oral Examinations Begin
Membership, Part I	5th Aug., 1966 2nd Dec., 1966 31st Mar., 1967	2nd Sept., 1966 30th Dec., 1966 28th Apr., 1967	—
Part II	*9th Sept., 1966 *6th Jan., 1967 *5th May, 1967	7th Oct., 1966 3rd Feb., 1967 2nd June, 1967	10th Oct., 1966 6th Feb., 1967 5th June, 1967

* The last dates of entry do not apply to candidates appearing for Part I of the examination who indicate their intention to proceed immediately to Part II of the examination if successful in Part I. Such candidates will, automatically, be accepted for Part II. (14142)

University and Research Appointments—contd.

UNIVERSITY OF EDINBURGH DEPARTMENT OF PATHOLOGY LECTURER OR ASSISTANT LECTURER

Applications are invited for the post of Lecturer or Assistant Lecturer in the department of pathology. Salary scales: Lecturer (lower), £1,250 by £110 to £1,690 per annum; Lecturer (higher), £1,805 by £115 to £2,150 by £110 to £2,700 per annum; Assistant Lecturer, £1,050 by £75 to £1,275 per annum, with placement according to qualifications and experience and with superannuation benefit. The successful candidate will be expected to take up duty at latest by October 1, 1966, or at such earlier date as can be arranged.

Further particulars may be obtained from the Secretary to the University, University of Edinburgh, Old College, South Bridge, Edinburgh, with whom applications (six copies), giving the names of two referees, should be lodged not later than May 30, 1966, April, 1966. (13688)

UNIVERSITY OF ST. ANDREWS

LECTURESHIP IN PATHOLOGY

Applications are invited for a Lectureship in Pathology in Queen's College, Dundee, payable from October 1, 1966, or earlier by arrangement. Associated with the post is an honorary appointment with the Eastern Regional Hospital Board.

Salary scale (under review): £1,400 by £70 to £1,470 by £110 to £1,690 by £115 to £1,805 (efficiency bar) by £115 to £2,150 by £110 to £2,700, with placing according to qualifications and experience. F.S.S.U. grant towards removal of household effects.

Applications (eight copies), containing the names of three referees, to be lodged by June 4, 1966, with the Secretary of the University, Queen's College, Dundee, from whom further particulars may be obtained. (14118)

UNIVERSITY COLLEGE OF RHODESIA AND NYASALAND FACULTY OF MEDICINE

Applications are invited for the following posts:

OBSTETRICS & GYNAECOLOGY:	Chair
PSYCHIATRY:	Chair
PHYSIOLOGY:	One Senior Lectureship and three Lectureships
PATHOLOGY:	Two Senior Lectureships and two Lectureships including Bacteriology (also responsible for organization of T.B. Reference Laboratory) and Chemical Pathology
MEDICINE:	Senior Lectureship or Lectureship
SOCIAL & PREVENTIVE MEDICINE:	One Senior Lectureship and one Lectureship
RADIOLOGY:	Senior Lectureship
ANAESTHETICS:	Senior Lectureship

These posts are to complete the development planned for 1966. Appointments have already been made to eight Chairs and a number of other posts.

The Faculty of Medicine provides courses leading to the M.B., Ch.B. degrees of the University of Birmingham, with which the Medical School is affiliated. The first intake of students was in 1963. Clinical introductory courses, including Pathology and Bacteriology, began in June, 1965. A new Teaching Hospital and Medical School have been planned adjacent to the College: the first section of the new School buildings has already come into use. The appointees to the new Chairs shown above will be responsible for the detailed planning of these new Departments. The Senior Lecturer in Radiology will also be responsible for radiological services in the new Teaching Hospital, and be expected to advise on the facilities and equipment.

The relevant salary scales in force at the College are as follows:

	Clinical £ p.a.	Non-clinical £ p.a.
Professors	Within the scale £4,200 by £150 to £5,400. In exceptional cases appointments might be made at a higher salary.	£3,600 by £150 to £4,200
Senior Lecturers	£2,820 by £150 to £4,020	£2,520 by £120 to £3,480
Lecturers Grade I	£2,500 by £110 to £2,940	£2,256 by £96 to £2,640
Lecturers Grade II	£1,840 by £110 to £2,390	£1,740 by £84 to £2,160

(Entry point according to qualifications and experience.)

Family passages and allowances for transport of effects on appointment. Installation grant of £100 for persons recruited from outside Africa. Travel assistance for appointee for triennial (Professors, biennial) visits overseas and for appointee and family for six-yearly sabbatical leave and on retirement or resignation after five years' service. Superannuation and medical aid schemes. Unfurnished College accommodation at rent of 15% of salary if desired.

Detailed applications (six copies), giving full personal particulars (including full names, place and date of birth, etc.), qualifications, experience and publications, and naming three referees, should be submitted by June 25, 1966, by applicants from Central or Southern Africa, to the Registrar, University College of Rhodesia and Nyasaland, P. Bag 167 H. Salisbury, Rhodesia, and by other applicants to the Registrar, University of Birmingham, Birmingham 15, England, from either of whom further particulars may be obtained. (13777)

UNIVERSITY OF EDINBURGH DEPARTMENT OF MEDICINE

ASSISTANT LECTURESHIP

Applications are invited for the post of Assistant Lecturer in the department of medicine. The appointment is for one year in the first instance. The post carries clinical responsibility and allows training in research in a number of fields. Opportunity to prepare for the M.R.C.P. will be given.

The salary scale will be: £1,105 by £75 to £1,180 by £80 to £1,340 per annum, with placement according to qualifications and experience and with superannuation benefit.

Applications, by letter (three copies), giving the names of two referees, should be sent to the Professor of Medicine, Department of Medicine, The Royal Infirmary, Edinburgh 13, as soon as possible. Further enquiries are welcomed. April, 1966. (13687)

SCHOLARSHIPS

THE NUFFIELD FOUNDATION

FOOD SAFETY TRAINING SCHOLARSHIPS

(Food Toxicology—the biological effects of the chemical and physical treatment of food)

The Nuffield Foundation offers annually up to five scholarships for science graduates and three scholarships for medical or veterinary graduates, to help advance fundamental research into the human biological effects of the chemical and physical treatment of food. The awards, tenable for periods of up to four years, are intended to provide research experience to Ph.D. level together with formal training in selected subjects, with special reference to chemistry, biochemistry, toxicology, pharmacology, or pathology. The value of the awards will be fixed according to age, qualifications and experience, and can be supplemented by the amount of fees, marriage and child allowance, and in appropriate cases, research expenses. The scholarships are open to men and women holders of a science, medical or veterinary degree of a U.K. or other Commonwealth university. Applications should be submitted by July 1, 1966. Further particulars and forms of application are available from the Nuffield Foundation, Nuffield Lodge, Regent's Park, London N.W.1. (H.6545)

EDUCATIONAL

Surgery—contd. on p. lvi

control the two
pronged
discomfort
of pain and
skeletal muscle
spasm

Robaxisal-[®] Forte

(400 mg. Methocarbamol*, 325 mg. acetylsalicylic acid)

Pain . . . spasm . . . both striking at once . . . with unfortunate effects on your patients with musculo-skeletal disorders.

Now, with Robaxisal-Forte in your armoury you have a 2 pronged therapeutic weapon which combats and conquers pain and spasm simultaneously. Robaxisal-Forte combines the dependable skeletal muscle relaxant, Robaxin (methocarbamol) with the pain-relieving benefits of acetylsalicylic acid in one convenient dosage form. When administered together these compounds have a potentiating effect upon one another. Higher plasma salicylate levels are attained than with the same dosage of acetylsalicylic acid alone.

Indications: Effective in treating sprains and strains, painful back disorders, "whiplash" injury, myositis, pain and spasm associated with arthritis, low back

The Military Fork shown here was extensively used by sappers and miners during the 17th, 18th and 19th centuries. Over 8ft long it evolved, like many infantry weapons, from agricultural instruments - in this case the pitch fork.

pain, torticollis, and headache associated with muscular tension.

Dosage: 2 tablets four times daily or as directed.

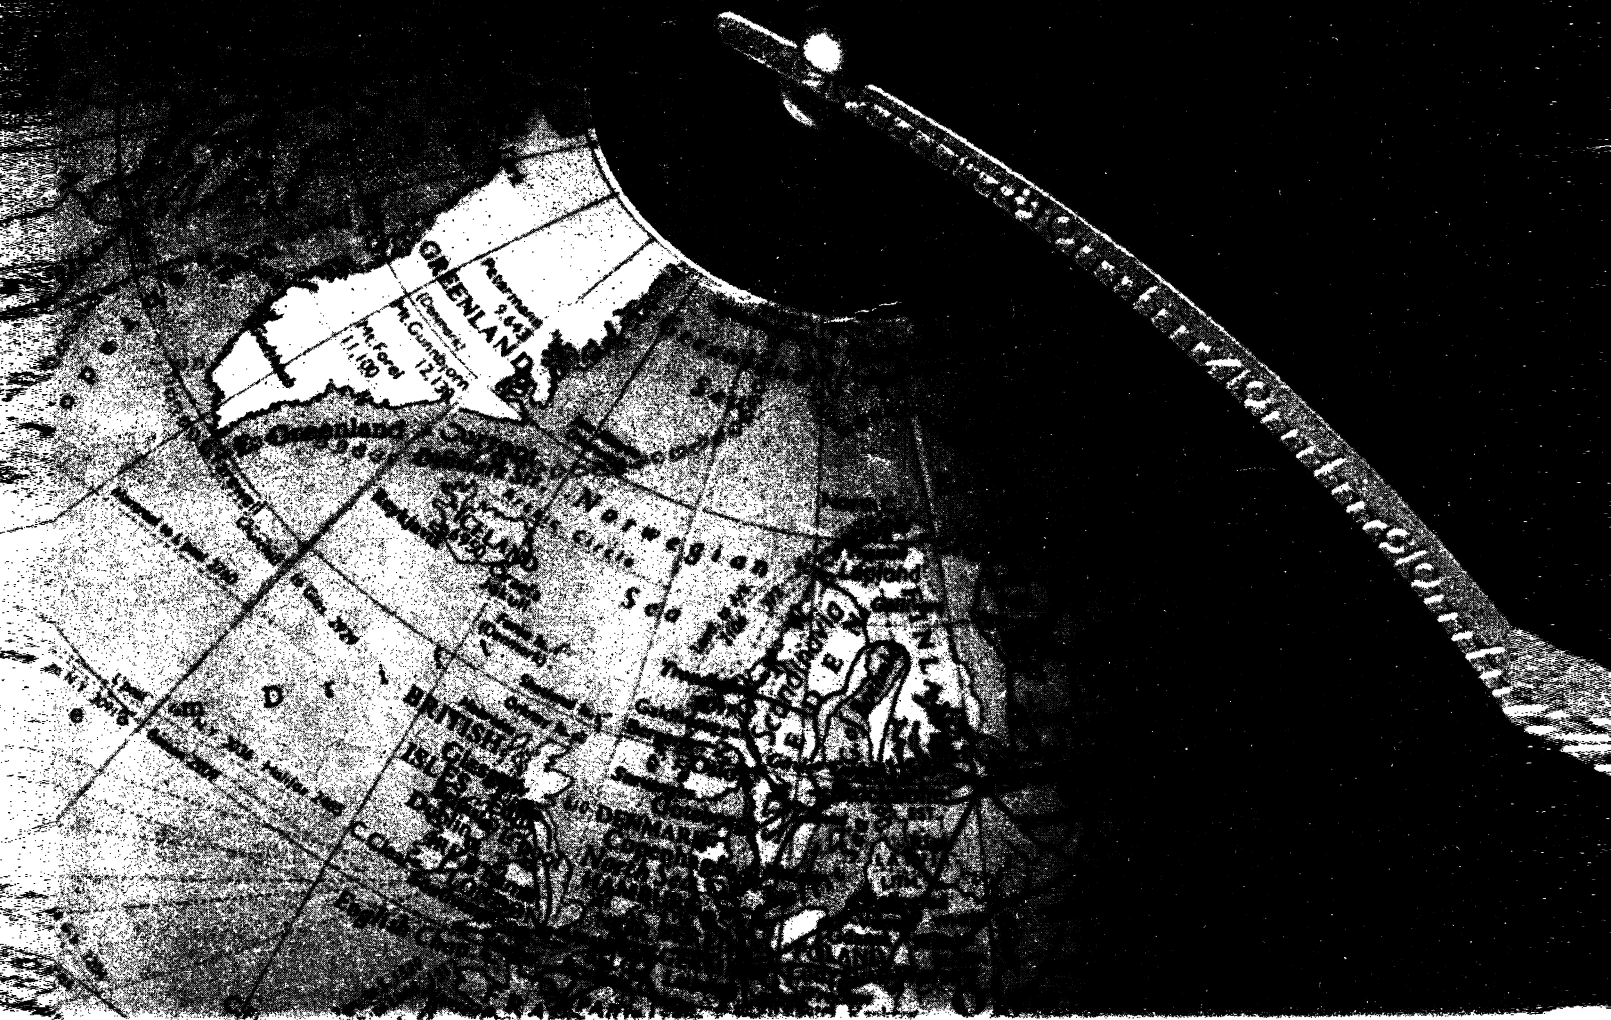

Side effects: Lightheadedness, slight drowsiness, dizziness, and nausea may infrequently occur but usually disappear on reduction of dosage. There are no specific contraindications for Robaxisal-Forte other than hypersensitivity to one of the components.

**The fact that Gynovlar 21
is widely used throughout
five continents may be very
impressive geographically**

when all facts are considered the choice must be

but what matters clinically is the reason why

Wide international usage is in itself striking testimony to the merits of Gynovlar 21. But more important are the clinical advantages which have earned such wide usage.

First, Gynovlar 21 provides four-fold security by ovulation control, protective changes in the endometrium and the cervical mucus and by the 21-tablet dosage scheme which virtually eliminates patient error. **Secondly**, Gynovlar 21 is extremely well tolerated. Tolerance depends not only on the choice of progestogen, but especially on the type of dosage of oestrogen. Gynovlar 21 tablets contain 3 mg. norethisterone acetate—a progestogen used throughout the world in gynaecological medication and renowned

for its excellent tolerance—and 0.05 mg. ethinyl-oestradiol B.P., which is the lowest dose to be employed for oral contraception. No other presentation contains less oestrogen, many contain more.

Thirdly, the substances used in Gynovlar 21 produce normal menstrual cycles, which have been described as being of 'almost clockwork precision'. Thus Gynovlar 21 is ideally suited to the 21-tablet dosage scheme, which this product pioneered and the advantages of which have, meanwhile, been generally recognized.

When the presence of slough delays healing...

A CASE FOR ASERBINE

Clothing burns. Aserbine has been applied to the lower half of the right thigh. The upper half and the left thigh have been left as control areas. The slough on the treated area has softened and some de-sloughing has taken place. The softened slough is quite free from infection.

Eight days later. Both areas have been treated with Aserbine and the right thigh and the upper part of the left are completely de-sloughed. Rich, uninfected granulation tissue is present and, in this case, provides the ideal surface for grafting.

... in varicose ulcers, pressure sores, burns, trophic ulcers, etc.

... experience has shown that ASERBINE is a true de-sloughing agent which does not affect living tissue.

Presentation

Aserbine is available as a cream (100 G. jars) and as a solution (500 ml. bottles).

Method of Application

Aserbine Cream should be applied once or twice daily.

Aserbine Solution should be applied as a wet dressing which should not be allowed to dry out.

Active Ingredients

Malic Acid Ester of
propylene glycol
Malic Acid
Benzoic Acid
Salicylic Acid

	In 100 G. cream	In 500 ml. solution
Malic Acid Ester of propylene glycol	160 mg.	5.25 G.
Malic Acid	250 mg.	7.65 G.
Benzoic Acid	25 mg.	0.75 G.
Salicylic Acid	5 mg.	0.15 G.

ASERBINE

THE NEW DE-SLOUGHING AGENT

HORLICKS LIMITED, PHARMACEUTICAL DIVISION, SLOUGH, BUCKS

Before you commit yourself to a practice, work 3 or 5 years in the R.A.F.

You'll do some interesting, out-of-the-rut medicine, see a bit of the world, live well, and 'retire' with up to £3,000, tax free.

Your first job in the R.A.F. would probably be junior M.O. at a Station: rather like being an 'Assistant with a view'. In a typical case you could be one of two doctors with, between you, 1500 to 2500 people to take care of, and your own 'cottage hospital' with wards, theatre and laboratory, and secretarial as well as nursing staff.

You'd have a shorter list than a civilian G.P., and to this extent you would live a less strenuous life. To compensate, you would give much more comprehensive care. It is this—and the variety of your work—that makes practice in the R.A.F. so interesting.

In the R.A.F. you combine several functions. You are in medical care not only of people, but of the environment they live in, and of the work they do. In proportion you do less curative work and more preventive work than is even possible for most civilian doctors.

A lot of people hold the view that this is the way all medicine should be practised—with the closest possible integration of the doctor and the community.

This is the choice you face

Think of two doctors, both aged 40. One went to his practice straight from his teaching hospital, and has been there ever since. The other went into the R.A.F. on a 5-year commission. He lived

—and lived well—in the tropics with his family for 2½ years and, on leave or on duty, visited 7 countries: two European, three Asiatic, and two Australasian. By now he's been in civilian practice for 10 years; he's as well established as the other doctor. But which of the two has got more out of life, and has the richer memories to look back upon?

In many ways, the transition from hospital into the R.A.F. seems more 'natural' than the movement to civilian practice. You go from one community to another—and they have much in common: both are young, cheerful, energetic, rather self-contained—and at the same time very professional, with a marked sense of purpose. If you can feel, now, that you are going to miss Medical School—think about the R.A.F. Service life would probably be 'right' for you.

The time for bold decisions is when you are young and free

Today, because you are at the beginning of your career, you can take a short time out from the main stream of civilian practice *just by deciding to do it.*

Now, you are free to go. In a few years time, you probably won't be.

You'll have a practice 'with your name on it'; children who want a permanent home to strike root in; and soon. It will be time for you to settle down.

Meanwhile, at the parting of the ways, you have this chance. Now is the time to find out about it.

The address to write to is: Wing Commander D. G. M. Hills, O.B.E., M.B., B.S., D.P.H., R.A.F., Ministry of Defence (MAL/724EE2), 1-6 Tavistock Square, London, W.C.1. Please give your age and qualifications.

Medical cadetships. Commissions as a cadet are available to students who have passed second M.B. (or equivalent). Initially your basic pay would be £630 p.a. Appropriate R.A.F. allowances, examination and tuition fees are paid in addition. You would continue to live and work as a medical student and when fully registered you would start work in the R.A.F. as a doctor in the rank of Flight Lieutenant on a five year short service commission. Further information may be obtained from the above address.

Surgery—contd. from p. liv

BARTHOLOMEW HOSPITAL
Goole (44 Surgical beds)

RESIDENT SENIOR HOUSE OFFICER
required for general duties. Post vacant mid-May. Flat available on rental.
Applications, with names of two referees, to be sent immediately to the Secretary, John's Hospital, Goole, Yorkshire. (13843)

PUBLIC HEALTH

ASSISTANT ADMINISTRATIVE MEDICAL
OFFICER OF HEALTH FOR MATERNITY
AND CHILD WELFARE
(Male or Female)

Applications are invited from registered medical practitioners for the above post. Diploma in Public Health an advantage but not essential. The successful candidate will have an opportunity to gain administrative experience in all branches of the Public Health Service and particularly in maternity and child welfare work.

Salary scale £1,950 to £2,330 per annum. Commencing salary within the scale will depend upon the medical officer's experience. The appointment is whole-time and subject to three months' notice on either side.

The post is permanent and superannuable and the successful candidate will be required to pass a medical examination.

Financial assistance towards the cost of removal expenses may be granted to successful candidate.

Applications, with names of two referees, to Medical Officer of Health, Public Health Department, Trowler House, Paradise Street, Birmingham 1, not later than May 28, 1966. (13776)

BOROUGH OF BEDFORD

DEPUTY MEDICAL OFFICER OF
HEALTH AND DEPUTY SCHOOL
MEDICAL OFFICER

Applications are invited from registered medical practitioners holding a Degree or Diploma in Public Health for the above whole-time appointment.

Health, welfare and education functions of the County Council have been delegated to the Borough Council.

Salary £2,280 rising by £85 (5) to £2,705 per annum, plus £70 for duties as Deputy Medical Officer if required to act. Full account will be taken of professional experience in determining the point of entry to the salary scale.

A car allowance will be paid (at present £160 per annum) and temporary housing accommodation will be provided if required.

Application forms and conditions of appointment may be obtained from the Medical Officer of Health, Public Health Department, Town Hall, Bedford.

Closing date Saturday, May 21, 1966.—G. F. Simmonds, Town Clerk, Town Hall, Bedford. (13522)

BOROUGH OF SWINDON

ASSISTANT MEDICAL OFFICER OF
HEALTH AND BOROUGH SCHOOL
MEDICAL OFFICER

Applications are invited from qualified medical practitioners for an appointment of assistant to the Medical Officer of Health and Principal Borough School Medical Officer, who also exercises health and welfare functions delegated by the Wilts County Council.

Salary within the scale £1,515 to £2,130 per annum according to experience.

Housing accommodation and removal assistance can be offered.

The appointment carries a car allowance. Swindon is a modern industrial town in a pleasant rural setting within easy reach of the Downs, Cotswolds and Thames Valley.

Applications, together with the names of two persons to whom reference may be made, should be sent to the Town Clerk, Civic Offices, Swindon, Wilts. Further particulars will be supplied on request. (13971)

DERBYSHIRE COUNTY COUNCIL
COUNTY HEALTH DEPARTMENTASSISTANT COUNTY MEDICAL
OFFICER OF HEALTH AND SCHOOL
MEDICAL OFFICER

Applications are invited from registered medical practitioners for this whole-time superannuable post in the Buxton/New Mills area. Salary £1,515 rising to £2,130 per annum. (Previous experience taken into consideration in fixing the commencing salary.) Car allowance. A scheme of allowances towards removal and lodging expenses in appropriate cases has been adopted. While most of the work is in the school health service, there will be other duties, which include child welfare and immunizations. Convancing disqualifies.

D.P.H. Course.—The County Council has approved a scheme for assisting Medical Officers on their staff to undertake a part-time course for the Diploma in Public Health, on a half-time basis but being paid 70% of the normal full-time salary. The officer would be required to serve the authority for two years after obtaining the Diploma.

Full particulars, and application forms, are obtainable from Dr. J. B. S. Morgan, County Medical Officer of Health, County Offices, Matlock, and should be returned to him, duly completed, by May 31, 1966. (H.6635)

MEDICAL RESEARCH COUNCIL OF NEW ZEALAND CHIEF EXECUTIVE OFFICER

The Medical Research Council of New Zealand proposes to appoint a person well qualified in medical research as its Chief Executive Officer.

The appointment will be a whole-time one and the officer appointed will be expected to review periodically current Council activities, suggest new lines of research which the Council should support, and be responsible for studying and making recommendations on proposals from institutions and individuals for support for research projects. He will also advise on the co-ordination of research supported or assisted by the Council and by other fund granting bodies in New Zealand. It may be possible for an appointee actively engaged in research to continue a limited amount of personal research.

The appointment will be for a period of five years in the first instance, and the salary will be up to £N.Z.4,000 per annum. The final terms of appointment will be a matter of negotiation.

Interested persons are invited to write to:

The Secretary, Medical Research Council of New Zealand, P.O. Box 5135, WELLINGTON, NEW ZEALAND.

Applications close with the Secretary of the Council at the above address on JULY 1, 1966. (14231)

NEW ZEALAND ASHBURTON HOSPITAL

Applications are invited from registered medical practitioners for the position of Hospital Surgeon. Salary in accordance with Hospital Employment Regulations.

JUNIOR HOUSE SURGEON—£1,410
SENIOR HOUSE SURGEON—£1,515
In addition special allowance £66 10s. payable.

Residential accommodation available for single or married couple. Travelling expenses paid in accordance with schedule attached to application form.

NORTH CANTERBURY HOSPITAL BOARD Christchurch, New Zealand

GERIATRIC PHYSICIAN

Applications closing at 9 a.m. on Thursday, June 30, 1966, are invited for the position of Geriatric Physician (whole-time or part-time) to the Board. This is a new appointment in accordance with the Board's policy of promoting a modern and progressive geriatric service. Applicants should be registered medical practitioners who have been qualified for at least ten years, have had at least five years' service in the specialty of geriatrics, and hold appropriate higher qualifications. Salary for a whole-time appointee will be determined within the scale £N.Z.7,800/£3,100 per annum. For a visiting appointment the salary will be determined in accordance with the Hospital Employment (Medical Officers) Regulations. Subject to a guarantee of at least two years' service, a whole-time appointee will receive liberal financial assistance towards the cost of transporting himself, his wife and dependent children to New Zealand. All overseas correspondence should be by air-mail.

Conditions of appointment and details of information required in support of applications obtainable on request from the Secretary, North Canterbury Hospital Board, Private Bag, Christchurch, New Zealand. (14163)

NORTHLAND HOSPITAL BOARD New Zealand

MEDICAL OFFICER

Hokianga Special Area, Northland
Applications are invited from qualified medical practitioners for the position of Medical Officer in the Hokianga Special Area.

Salary will be £2,150 rising to £2,275 after one year's service, plus travelling allowance at the rate of £53.4 per annum with free furnished house. Maternity benefits are payable by the Department of Health.

The appointee will be responsible for the medical care and attention of all persons in the district to be allotted to his charge, visit clinics as directed and shall also co-operate with the district nurses working in his area.

Further details, application forms, and conditions of appointment are available from the Secretary, Northland Hospital Board, P.O. Box 742, Whangarei, New Zealand. (H.6561)

PATHOLOGIST

Applications are invited for the position of second pathologist in this 400-bed general hospital situated in a pleasant western suburb of Toronto, Ontario. The hospital is modern, and a large expansion programme completed in 1964 provides extensive laboratories which are well equipped. Further hospital expansion will commence this year. The laboratory undertakes all routine work for the hospital which admits patients to virtually all medical and surgical specialties. Applicants should have a good knowledge of clinical pathology, and preferably possess a higher qualification. Starting salary \$16,000 to \$18,000 depending on qualifications and experience.

For information write Dr. D. V. F. Brunsdon, Director of Laboratories, South Peel Hospital, 100 Upper Middle Road, Cooksville, Ontario, Canada. (H.6671)

PATHOLOGIST FELLOWSHIP OR certified for accredited general hospital (750 beds), full range of services. Expanding laboratory. Salary \$18,000 per annum. Apply to the Medical Director, Toronto East General Hospital, Toronto 13, Ontario, Canada. (H.6680)

ST. JOSEPH'S HOSPITAL 127 South Broadway, Yonkers, N.Y.

INTERNSHIPS

A.M.A. approved. Rotating. St. Joseph's Hospital, Yonkers, New York. Accredited 165-bed hospital. Integrated educational programme organized by Director of Medical Education; in-patient and out-patient material for clinical training. Annual stipend \$7,200, plus modern living arrangements. Openings for July, 1966. Apply Administrator, St. Joseph's Hospital, Yonkers, New York. (024)

STAFF PHYSICIAN, JULY 1, \$1,000 PER MONTH. County hospital, out-patient department. Good working conditions, teaching programme—Write Medical Director, Pierce County Hospital, 215 South 36th, Tacoma, Wash.

THE GR'FFIN HOSPITAL Derby, Connecticut, U.S.A.

ROTATING INTERNSHIPS

January 1 and July 1, 1966. Accredited 180-bed general hospital, located 10 miles from New Haven and Yale Medical Center; 65 miles from New York City. Educational programme approved by A.M.A. Sponsor, Exchange Visitor Programme, E.C.F.M.G. certificate required. Stipend \$325 per month, plus room and uniforms. Travel allowance up to \$600. Furnished apartments, at no charge, to married interns.

Apply Director of Medical Education. (H.6393)

THE HAMILTON CIVIC HOSPITALS (1,500 beds)

RESIDENT IN PAEDIATRICS

The department of paediatrics invites applications from registered Physicians for the appointment of Resident in Paediatrics. The department is recognized by the Royal College of Physicians and Surgeons of Canada for on-the-job training towards certification and Fellowship. Salary: Married applicant, \$6,470 per annum (approximately £2,157 per annum gross); Single applicant, \$6,230 per annum gross (approximately £2,077 per annum gross).

Applications, with full details, should be forwarded as soon as possible to L. F. G. Woodward, Assistant Superintendent (Medical), Hamilton General Hospital, Hamilton, Ontario, Canada. (H.748)

THE PRINCE HENRY AND PRINCE OF WALES HOSPITALS

Sydney
(Teaching Hospitals of the University of New South Wales)

Applications are invited for appointment as

PSYCHIATRIC REGISTRAR

The Prince Henry and Prince of Wales Hospitals, teaching hospitals of the University of New South Wales, invites applications from medical graduates with two years' standing or more for appointment to the position of Medical Officer, Psychiatry.

A new 50 bed Psychiatric Unit is now in operation at the Prince Henry Hospital under the direction of the Professor of Psychiatry.

Facilities to take a course leading to the D.P.M. of the College of Psychiatrists of Australia and New Zealand will be provided.

Salary: According to Hospitals' Commission scale.

Further information may be obtained from Professor L. G. Kiloh, Department of Psychiatry, Prince Henry Hospital, Little Bay. Telephone 661-0111, ext. 659.

Applications should be made on the prescribed form, which may be obtained from and should be returned to the Personnel Officer, Prince Henry Hospital, Little Bay.—J. R. Clancy, Chief Executive Officer. (14212)

APPLICANTS ARE ADVISED NOT TO send original testimonials when replying to advertisements. Copies will serve the purpose quite as well, and in the event of their being lost or mislaid no inconvenience will ensue.

Oversea—contd.

The pharmacological research department, which forms a vital link in the firms' scientific investigation program as a whole, has acquired a new laboratory with equipment conforming to the highest modern standards

As the

GENERAL PHARMACOLOGICAL INVESTIGATION — IN PARTICULAR RESEARCH ON THE NON-ANTIBIOTIC ACTIVITIES

of synthetic compounds and compounds of microbial origin - is being intensified and extended, it has become desirable to reinforce the staff of the laboratory with an

DEPUTY-CHIEF PHARMACOLOGIST

His function in the department will, depending on his preferences and experience, be determined in the course of an interview together with the chief pharmacologist.

His activities can include either the leadership and organizational aspects or the more direct participation in the pharmacological investigation itself. The results of the investigation will be published if possible.

The position can be filled by a

MEDICAL DOCTOR, BIOCHEMIST, PHARMACIST OR BIOLOGIST

who has specialized in pharmacology or toxicology.

The Royal Netherlands Fermentation Industries Ltd. markets her pharmaceutical products under the name MYCOFARM-DELFT.

The pharmaceutical production program includes antibiotics (penicillin, streptomycin, chloramphenicol, pimaricin, oxytetracycline) and on an increasingly larger scale, also enzyme preparations, steroids and medicaments which have a biochemical or chemical-synthetic origin.

THE SCIENTIFIC INVESTIGATION DEPARTMENT which is naturally of fundamental importance to the firms' development, has a staff of more than 350. The research work is led by a team of fifty university graduates from different faculties.

All interested persons are invited to contact Mr. H. Snijder, head of the personnel department of the Royal Netherlands Fermentation Industries Ltd., Wateringseweg 1, Delft.

PZ-44A
(14091)

Overseas—contd.

PATHOLOGY RESIDENCIES AND STRAIGHT INTERNSHIPS

Full American Board approved training programme is available at University Teaching Hospital. Foreign graduates must have E.C.F.M.G. certificate. Residents \$3,700 to \$7,370. Interns \$3,200 to \$4,150. Apply Dr. W. S. Morgan, Professor of Pathology, Western Reserve University at Cleveland Metropolitan General Hospital, 3395 Scranton Road, Cleveland, Ohio, 44109, U.S.A.

THE ROYAL WOMEN'S HOSPITAL MELBOURNE, AUSTRALIA

300 Obstetric beds and 121 Gynaecology beds
DIRECTOR OF PATHOLOGY
Applications are invited from medical practitioners holding a senior degree in pathology for the above position. (The vacancy has been brought about by the present director obtaining a professional appointment.)

In addition to his professional duties, the Director of Pathology is responsible for the administration and co-ordination of the laboratory services of the hospital, involving cytology, histopathology, serology, haematology, biochemistry and bacteriology. The hospital (7,500 births per annum) is a teaching hospital of the University of Melbourne, and a training school for the College of Pathology of Australia. Some 500 necropsies and 4,500 biopsies are carried out each year.

The Department is comfortably housed in a recently remodelled and extended building of three floors. It is well staffed with graduates in medicine and science, medical technologists, laboratory assistants, and clerks. Facilities for research are available in obstetrical, gynaecological, and neo-natal pathology.

Salary in accordance with the scale laid down by the Hospitals and Charities Commission, at present \$A.8,658 to \$A.10,170 per annum, according to qualifications and experience.

Minor emoluments emanate from a special purposes fund derived from income from private laboratory tests carried out in the Department.

Details of the position may be obtained from the Manager/Secretary, to whom applications, containing a short summary of the inquirer's career, should be addressed.—A. J. Cunningham, Manager and Secretary, The Royal Women's Hospital, 712 Swanston Street, Melbourne, N.3, Victoria, Australia. (H.6412)

TORONTO, CANADA

Applications are invited for the appointment of
CONSULTANT DIAGNOSTIC RADIOLOGIST

at the Princess Margaret Hospital (Ontario Cancer Institute) and the adjoining Wellesley Hospital, which is a new 600-bed general hospital. The diagnostic radiology departments in these hospitals are new and well equipped, and offer unique research opportunities.

High qualifications and training in special procedures necessary. The successful applicant will have a staff appointment at both hospitals, and an appropriate teaching appointment at the University of Toronto. Salary commensurate with qualifications and experience.

For information, please write, enclosing curriculum vitae, and names of three referees, to Dr. K. MacEwen, Assistant Professor of Radiology, The Princess Margaret Hospital, 500 Sherbourne Street, Toronto 5, Ontario, Canada. (H.6686)

UNIVERSITY COLLEGE HOSPITAL OF THE WEST INDIES

REGISTRAR OR SENIOR REGISTRAR IN MEDICINE

Applications are invited from medical practitioners for the post of Registrar or Senior Registrar in Medicine at the University Teaching Hospital of the West Indies (480 beds).

The successful candidate will be required to take up duties in July/August, 1966. Present salary scale: £1,350 to £1,500 to £1,650 by £100 to £1,950 per annum. Point of entry in the scale will depend on qualifications and experience. The appointment will be for one year in the first instance subject to renewal.

Unfurnished accommodation, if available, will be provided at a rental of 5% of salary. Furniture can be had at an additional minimum rental, otherwise a living out allowance of £200 per annum (single), £250 per annum (married) will be paid. Passages from and to the country of recruitment are provided for one person only.

Applications, stating age, nationality, marital status, details of qualifications and experience, together with three recent testimonials, or the names and addresses of three referees, should be sent to the Hospital Manager and Secretary, University College Hospital of the West Indies, Jamaica, as soon as possible. (H.6786)

UNIVERSITY OF LAGOS MEDICAL SCHOOL

Applications are invited for JUNIOR RESEARCH FELLOWSHIP in Department of Medicine

tenable for one year initially. Duties include clinical, laboratory, and field work connected with current disease projects. Applicants must be medical graduates preferably with laboratory experience. Salary scale: £1,200 to £1,700 per annum. 20% supplementation basic salaries (generally free of income tax) payable to U.K. staff. Family passages. Children's and car allowances. Superannuation Scheme. Part-furnished accommodation. Regular U.K. leave. Detailed applications (six copies), naming three referees, by June 15, 1966, to the University Council, 33 Bedford Place, London W.C.1, from whom particulars are available. (14195)

UNIVERSITY COLLEGE OF RHODESIA and Nyasaland, Faculty of Medicine. For particulars of vacancies of Chairs, Senior Lectureships and Lectureships, see University and Research Appointments. (13777)

UNIVERSITY OF QUEENSLAND

PARASITOLOGY—RESEARCH FELLOWSHIPS

Applications are invited for two postgraduate Research Fellowships within the Department of Parasitology. The Fellows will work towards a Ph.D. on a subject relating to

- The ecology and population dynamics of the cattle-tick *Bomphilus microplus*;
- The transmission of Onchocerciasis of cattle in Queensland.

The Fellows' emoluments will be in the range \$A.1,200 to \$A.3,400 according to experience and qualifications.

Additional information and application forms will be supplied upon request to the Association of Commonwealth Universities (Branch Office), Marlborough House, Pall Mall, London S.W.1.

Applications close on May 31, 1966. (12247)

UNIVERSITY OF ROCHESTER Strong Memorial Hospital, 240 Crittenden Blvd., Rochester, New York, 14620, U.S.A.

Division of Anaesthesiology

Applications are invited for appointment as

FELLOW OR RESIDENT IN ANAESTHESIOLOGY

Academic department offering a widest variety of supervised clinical experience, comprehensive didactic teaching programme, and opportunities for association with research. Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulant patient

“In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy.”

Med. Times, N.Y., 1958, 1, 74

Safe, Simple, Effective

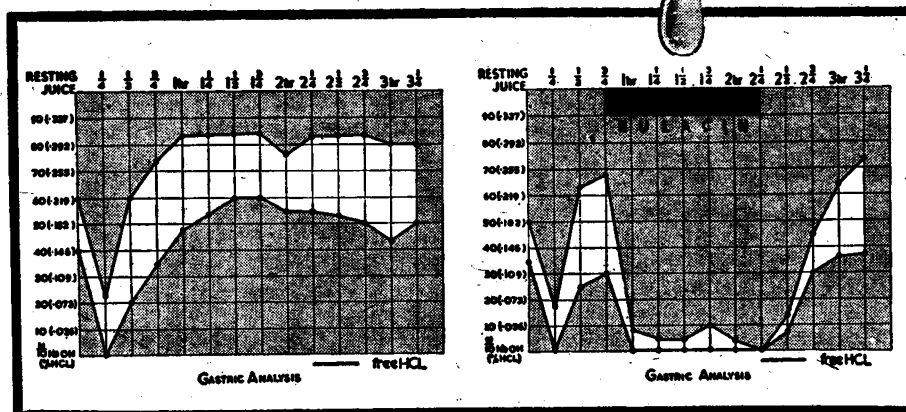

NULACIN TABLETS provide a safe, simple and effective treatment of peptic ulcer.

In treating peptic ulcer a Ryle's tube may be passed through the nose and into the oesophagus and a mixture of milk and antacid allowed to flow continuously over the affected area. This form of therapy can only be employed in those patients who are in bed and for the ambulant patient Nulacin tablets are preferable. Nulacin tablets are prepared from whole milk combined with dextrans and maltose, together with the trisilicate, oxide and carbonate of magnesium and calcium carbonate. Nulacin tablets when allowed to dissolve slowly in the mouth provide milk-alkali drip therapy. In fact, Nulacin tablets have revolutionized the treatment of peptic ulcer.
