Animal experiments¹ have shown conclusively that Lucofen SA acts directly on the brain satiety centre to block feeding response completely, without causing CNS stimulation. This response confirms human clinical findings that one Lucofen SA sustained action tablet daily, provides safe controlled weight loss for your overweight patients.

Lucofen SA, sustained action tablets containing 75 mg. chlorphentermine hydrochloride, is available in bottles of 50 and 500.

1 Symposium on Obesity, Royal College of Surgeons, London. (1963),

15—17 Teviot Place, Edinburgh 1

"With its high cure-rate, lack of toxicity, ease of administration, and simplicity of dosage, we regard pripsen as, at present, the remedy of choice for enterobiasis...The doses of piperazine were less than half those hitherto used in seven days' treatment, and there were no toxic effects."

Lancet, 1960, 1, 256.

"Pripsen...is a highly effective agent against ascariasis."

"Of the 88 patients completing the trial, 74 (84%) were cured by a single dose and, in the remaining 14, repeated dosage...resulted in a 100% cure-rate... Apart from one patient... there were no undesirable side-effects in this series, which included babies of 4 and 5 months."

S. Afr. med. J., 1962, 36, 240.

WESTMINSTER LABORATORIES LTD., HULL & LONDON

Suddenly the treatment of psoriasis with coal tar could well be out-of-date!

Even steroids may rarely need to be used in future—Now every well-informed doctor in the world can prescribe this note-worthy new British discovery . . . revealed here for the first time . . .

Isolates the noise so only the cardiac signal goes on paper

NEW SANBORN 500 VISO In systole and diastole, the human heart produces a maximum signal of only a few millivolts between two ECG limb electrodes. Mixed in with this tiny signal may be some unwanted electrical "noise", caused by power lines, nearby X-ray or diathermy machines, or even ordinary office equipment. Until now, eliminating this noise from the record usually meant time-consuming adjustments and rerunning records until the complexes were clear.

The new Sanborn 500 Viso-Cardiette now isolates such noise from the cardiac signal to an extent never before achieved—and simulaneously maintains even greater protection for the patient without the use of fragile patient fuses. The "500", in effect, sees all

of the wanted ECG signal and little or no noise, to give you a diagnostically useful tracing with greater ease and speed.

This highly refined new instrument also uses the new Redux® Creme—an improved non-abrasive electrolyte easily applied and removed without rubbing... and has operating features including two chart speeds and three recording sensitivities, simplified control arrangement, color-coded patient cable and pictorial connection diagram on the instrument panel. Housed in a compact, vinyl-clad aluminum case that's easy to carry, or effortlessly rolled on a matching mobile cart. Price: £278. For further information please call or write.

Exolan is a new preparation which attacks psoriatic lesions with the striking effectiveness of dithranol, but without its unpleasant side-effects of burning and staining. Presented as a paste, it can be prescribed for application by the patient, at home, with complete safety. There is no rapid relapse on cessation of treatment as may occur with steroids.

Exolan Paste is available in 70 gram Polystyrene jars Basic N.H.S. Price 22/6d.

Over a million psoriatics in the U.K. alone can now expect unrestricted efficacy with New Exolan Paste.

28 May 1966 ADVERTISEMENT BRITISH MEDICAL TOURNAL

*Phenergan tonight

will prevent hay fever tomorrow

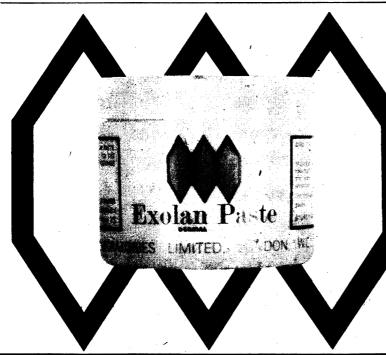

One or two 25 mg. tablets at bedtime in most cases ensures sound sleep and freedom from symptoms throughout the following day.

Children often prefer 'Phenergan' Elixir (5 mg. per 3·6 ml.)

'Phenergan' is also available as 10 mg. tablets and injection solution (25 mg. per ml.)

An **M&B** brand Medical Product **MAY & BAKER LTD**Dagenham · Essex

This table demonstrates how new Exolan Paste compares with other treatments for psoriasis

Treatment	Rate of healing	Necessity for supervised treatment	Any risks or hazards	Discomfort or unpleasantness experienced	Chances of rapid relapse
Crude coal tar	Slow	No	No	Yes	Moderate
Liq. Picis Carb.	Slow	No	No	Yes	Moderate
Cosmetic coal tars	Very slow	No	No	No	Moderate
Topical Steroids alone	Slow	No	No	No	. High
Steroids under polythene	Very rapid	Yes	Yes	Yes	High
Chrysarobin	Rapid	Yes	Yes	Yes	Low
Dithranol	Rapid	Yes	Yes	Yes	Low
Exolan	Rapid	No	No	No	Low

While dithranol is still the best overall treatment for psoriasis* it can only be used under constant supervision. Dermal Laboratories' new discovery, triacetoxyanthracene (Exolan), will heal psoriasis quickly and effectively in the same way as dithranol itself does but without causing burning or staining of the skin. Clinical trials by eminent British dermatologists on several hundred psoriatic patients showed virtually equal rates of healing between dithranol and Exolan, but Exolan caused none of the usual dithranol signs of burning, staining and erythema. Exolan frequently proved acceptable, where dithranol was irritant and had to be discontinued. Exolan Paste needs no precautions which means that it may be used by the patient in his own home without fear of side effects through indiscriminate application.

On 19th May 1966 a paper was presented at the Royal Society of Medicine on the results of trials with EXOLAN PASTE. A leaflet is available giving the history, chemistry, rationale and up-to-date clinical results of this new British discovery which is now certain to be the prescription of choice for psoriasis.

new indication for a proved product

Clinical experience has shown that treatment of acute ulcerative gingivitis with 'Flagyl' in a dose of three 200 mg. tablets daily after food for three days results in rapid relief of symptoms without the risks attendant on other forms of treatment.

- * 'Flagyl' resolves the acute phase very rapidly.
- * 'Flagyl' is very well tolerated and does not elicit an allergic response.
- * 'Flagyl' does not cause tissue damage.
- * The rapid action of 'Flagyl' allows prompt surgical intervention to prevent recurrence.

'Flagyl'

for the rapid, effective treatment of Acute Ulcerative Gingivitis

some create tetracycline... others imitate it

the difference is ACHROMYCIN[†]

†Regd Trademark

Tetracycline Lederle

Today, more than 10 years after its introduction by Lederle, ACHROMYCIN tetracycline is not only the world's most popular broad-spectrum antibiotic, but also the most imitated. Not only are there dozens of names for tetracycline today, but many tetracyclines are practically nameless. What better reason for so many physicians today to trust and prescribe tetracycline only as ACHROMYCIN.

but what matters <u>clinically</u> is the reason why

Wide international usage is in itself striking testimony to the merits of Gynovlar 21. But more important are the clinical advantages which have earned such wide usage.

First, Gynovlar 21 provides four-fold security by ovulation control, protective changes in the endometrium and the cervical mucus and by the 21-tablet dosage scheme which virtually eliminates patient error. Secondly, Gynovlar 21 is extremely well tolerated. Tolerance depends not only on the choice of progestogen, but especially on the type of dosage of cestrogen. Gynovlar 21 tablets contain 3 mg. nore-thisterone acetate—a progestogen used throughout the world in gynæcological medication and renowned

for its excellent tolerance—and 0.05 mg. ethinylcestradiol B.P., which is the lowest dose to be employed for oral contraception. No other presentation contains less cestrogen, many contain more.

Thirdly, the substances used in Gynovlar 21 produce normal menstrual cycles, which have been described as being of 'almost clockwork precision'. Thus Gynovlar 21 is ideally suited to the 21-tablet dosage scheme, which this product pioneered and the advantages of which have, meanwhile, been generally recognized.

This summary of published clinical papers well illustrates Penbritin's outstanding success rate in respiratory diseases, infections of the urinary and gastro-intestinal tracts, skin and soft tissues, venereal diseases and typhoid which may be attributed to its high activity and bactericidal action.

Over 600 publications from 29 countries endorse Penbritin (Ampicillin) as a broad-spectrum antibiotic. A full list of references is available.

Availability: capsules, paediatric tablets, syrup and vials for injection.

Usual Dosage: 250mg. to 500mg. q.i.d. In severe cases and in certain conditions the dosage should be increased.

When the presence of slough delays healing...

A CASE FOR ASERBINE

Clothing burns. Aserbine has been applied to the lower half of the right thigh. The upper half and the left thigh have been left as control areas. The slough on the treated area has softened and some de-sloughing has taken place. The softened slough is quite free from infection

Eight days later. Both areas have been treated with Aserbine and the right thigh and the upper part of the left are completely de-sloughed. Rich, uninfected granulation tissue is present and, in this case, provides the ideal surface for grafting.

- ... in varicose ulcers, pressure sores, burns, trophic ulcers, etc.
- ... experience has shown that ASERBINE is a true de-sloughing agent which does not affect living tissue.

Presentation

Aserbine is available as a cream (100 G. jars) and as a solution (500 ml. bottles).

Method of Application

Aserbine Cream should be applied once or twice daily.

Aserbine Solution should be applied as a wet dressing which should not be allowed to dry out.

THE NEW DE-SLOUGHING AGENT

HORLICKS LIMITED, PHARMACEUTICAL DIVISION, SLOUGH, BUCKS

A new treatment for ANGINA PECTORIS 'INDERAL'

Indicated in angina pectoris when conventional therapy has proved inadequate.

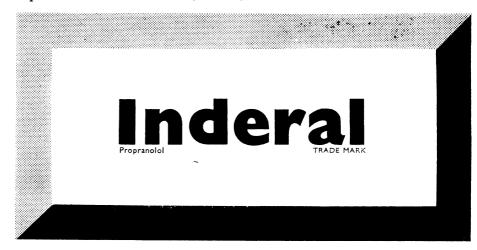

'INDERAL' specifically blocks the oxygen wasting effects of excessive sympathetic nervous activity on the heart. Probably the most striking benefit has been seen in patients inadequately helped by conventional drugs.

The results of 'INDERAL' therapy include less frequent anginal attacks, improved effort tolerance and decreased consumption of glyceryl trinitrate.

In addition 'INDERAL' will control cardiac arrhythmias, including those associated with digitalis intoxication and arrhythmias occurring during anaesthesia.

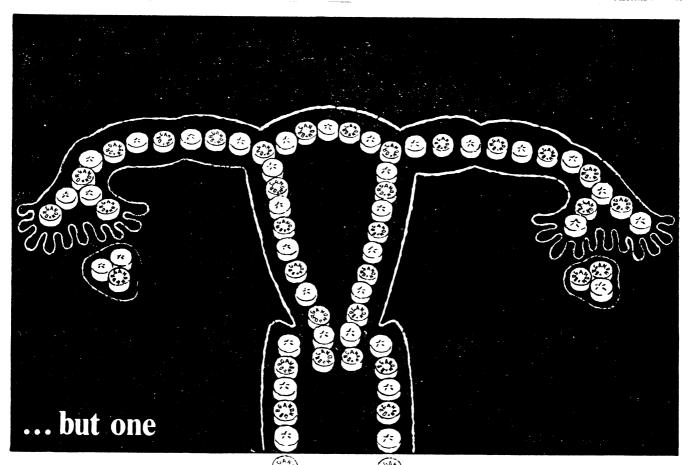

Note. Because the pharmacological action is quite new, it is advisable to study the detailed literature before using 'Inderal' (propranolol).

A pioneer achievement of I.C.I. Research.

In Gout and other hyperuricaemic conditions 'Zyloric' Allopurinol has a radically new mode of action

'Zyloric' lowers serum and urinary uric acid levels by inhibition of xanthine oxidase, an enzyme important in uric acid formation. 'Zyloric' prevents the deposition of urates in the tissues, relieves chronic joint pain, increases joint mobility and has the great advantage that it also inhibits urinary urate stone formation.

'Zyloric' is therefore indicated especially in gouty nephropathy, in patients who form urate stones, and in those with unusually severe disease.

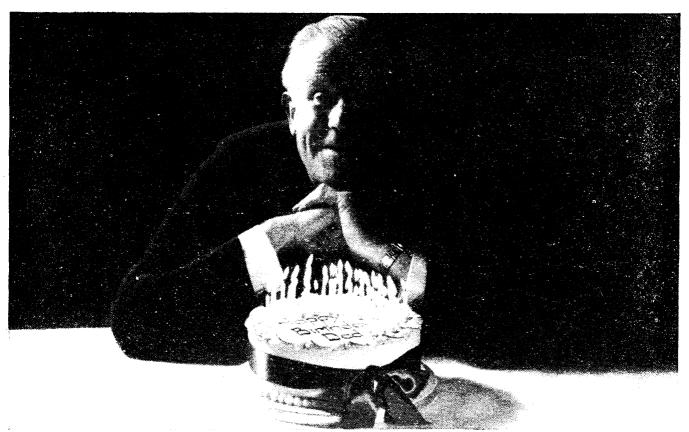

'Zyloric' Allopurinol

available as 100 mg. scored tablets

After last birthday Dad decided he couldn't face candles againthis year he'll blow 'em all out at once (he says!)

When bronchospasm takes him unawares-Aerotrol brings him rapid relief

With the Aerotrol controlled-dose nebuliser in his pocket he can feel confident of dealing, swiftly and unobtrusively, with bronchospasm whenever it may occur. Aerotrol minimises the fear and distress associated with attacks of bronchospasm -prevents what should be minor medical emergencies from becoming major crises. Indications: Bronchospasm in asthma and other respiratory conditions where bronchospasm is a feature such as chronic bronchitis, tracheobronchitis and pneumonia.

Administration and dosage: Each dose delivers .125 mg. of isoprenaline hydrochloride.

Doses for adults: One or two controlleddose inhalations (Aerotrol should not be used more than six times in twenty-four hours except on medical advice).

Doses for children: One controlleddose inhalation.

To minimise undesirable side effects such as palpitations, dizziness and tachycardia the correct dose should be established for each individual patient.

Aerotrol is available for oral inhalation as an aerosol in a 15 ml. controlled-dose nebuliser containing approximately 300 measured .125 mg. doses.

®Aerotrol is a registered trade mark of

Abbott Laboratories Ltd., Queenborough, Kent

To minimise the danger of potassium depletion during long-term diuretic therapy...

... Glaxo have added a generous potassium supplement to the reliable bendrofluazide diuretic Neo-NaClex. The newer preparation, known as Neo-NaClex-K, is presented in a unique two-tier tablet. The tablet is designed to overcome the problems of gastric disturbance and possible small bowel ulceration which are sometimes associated with a potassium supplement. Shortly after the tablet is swallowed, bendrofluazide is released from one tier; the diuretic dose is therefore promptly available. Thereafter, the potassium supplement is released very slowly from the second tier; this will usually ensure that most of the potassium passes the stomach before dissolving and that no great local concentration of potassium is reached on its passage through the intestine.

Neo-NaClex-K

When a potassium supplement is unnecessary, plain Neo-NaClex will provide smooth, sustained diuresis on one dose a day.

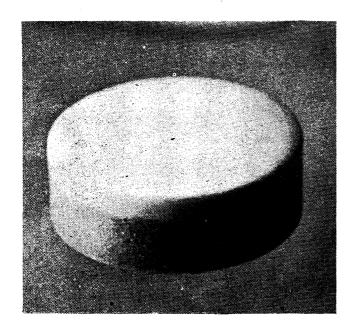

Presentation

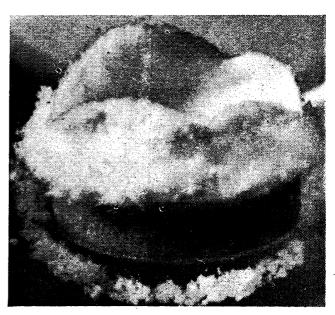

Neo-NaClex Tablets 5 mg: 100 and 500 Neo-NaClex HS Tablets 2·5 mg: 100 and 500 Neo-NaClex-K Tablets 2·5 mg: 25, 100 and 500

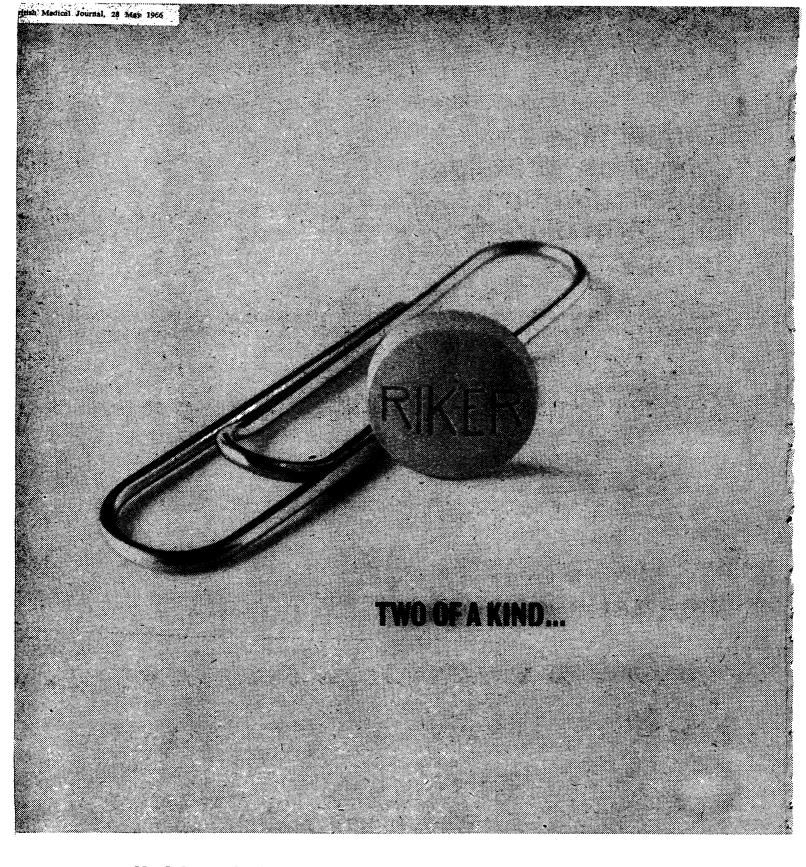

Neo-NaClex and Neo-NaClex-K are Glaxo trade marks

Detailed literature is available from Glaxo Laboratories Limited

... Rauwiloid and the paper clip

Efficient, dependable, both have stood the test of time—the paper clip for many years, *Rauwiloid* since 1953. Gradual reduction of blood pressure to normal levels and steady maintenance at those levels, very simple dosage, low cost and freedom from tolerance—these characteristics of *Rauwiloid* still make it the ideal first choice for mild to moderate essential hypertension. Even in more severe cases, *Rauwiloid* can be of considerable value in combination with more potent agents.

Rauwiloid

13 YEARS' SUCCESSFUL USE IN THE TREATMENT OF HYPERTENSION. Each tablet contains 2 mg. alseroxylon fraction (selected alkaloid hydrochlorides) of *Rauwolfia serpentina*.

Supplement THE ECONOMICS of GENERAL PRACTICE

FREE

with the June issue which contains a symposium on ALLERGY

The ever-increasing demand for medical services, accentuated by the increasing complexity of medical care, makes it more than ever necessary for the family doctor to take full advantage of every facility which will help him to maintain high professional standards and also a reasonable standard of living for himself and his family. The use of para-medical personnel, surgery premises that are up to date and business-like, advice on financial and legal matters—it is with these subjects in mind that this special supplement on "The Economics of General Practice" has been planned.

THE INTERNATIONAL STANDARD OF ELECTRIC CURRENT...

... is the ampere. This is defined as "that constant current which, if maintained in two parallel rectilinear conductors of infinite length, of negligible circular cross-section, and placed at a distance of one metre apart in a vacuum, would produce between these conductors a force equal to 2 x 10.7 newton per metre length."

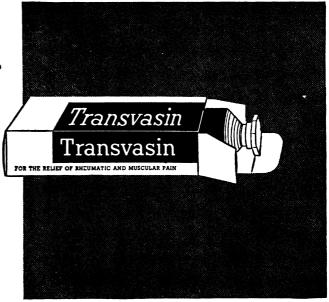

André Marie Ampère was born at Polémieux, near Lyons on January 22nd, 1775 and died at Marseilles on June 10th, 1836.

ANDRÉ MARIE AMPERE
(Mathématicien et Physicien),
Membre de l'Académie des Sciences,
Professeur au Collège royal de France et à
l'Ecole polytechnique, des sociétés d'Edimbourg,
de Cambridge, de Genève, Helvétique, etc.
Né àlyon (pér du Rhône) le 20 Janvier 1775.

TRANSVASIN is the standard therapy...for the relief of rheumatic symptoms

Patients suffering from rheumatic lesions obtain rapid relief with Transvasin, the well-proven and economical therapy. The esters of nicotinic, salicylic and p-aminobenzoic acids penetrate the skin and are concentrated at the point of injury, producing superficial erythema and deep hyperaemia. Transvasin is a valuable adjuvant in the treatment of osteo- and rheumatoid-arthritis.

PENBRITIN K.S., a new product from Beecham Research Laboratories, combines all the advantages of broad spectrum antibiotic therapy with a soluble, well absorbed sulphonamide (sulphadimidine) that is effective against certain bacterial strains insensitive to ampicillin. This formulation, with Kaolin, provides a highly effective treatment that brings bacterial enteritis firmly under control by eliminating both the cause and symptoms of diarrhoea.

- The systemic action of Penbritin and sulphadimidine removes infection in the wall of the intestine – the most important site of infection.
- The unabsorbed Penbritin and sulphadimidine deal effectively with bacteria in the lumen of the gut.
- Kaolin adsorbs toxins, consolidates stools and exerts a demulcent action on inflamed mucosa.

PENBRITIN K.S. gives the broadest coverage against entero-pathogenic bacteria. Each 20ml. dose contains Penbritin (ampicillin B.P.) 0.375g./Sulphadimidine B.P. 1.0g./Light Kaolin B.P. 5.0g. Availability: 60ml. bottles with dosage measure provided. A bottle is sufficient for one course of treatment.

Penbritin K.S. is a product of

Tampax is compressed for convenience and efficiency

Don't be misled by the small size of Tampax. Its surgical cotton is compressed to just the proper degree to permit easy insertion and gentle expansion for maximum absorbency. When properly placed, well into the vagina, by its individual, hygienic container-applicator, the entire Tampax tampon is utilised for absorption of the menstrual flow. With the much bulkier perineal pad, only a small central section is actually used.

If your patients are like the thousands of women who are turning to Tampax every year, they will quickly discover its many other advantages. Tampax affords complete freedom from the bother of belts, pins and pads . . . eliminates chafing and irritation . . . abolishes conspicuous bulges . . . minimises offensive odours . . . permits eliminative functions without removal . . . renders bathing possible, even swimming . . . and promotes normal daintiness. The user is practically unaware of its presence.

It's also important that, with Tampax, a woman feels clean and tidy. In fact, the psychological and emotional advantages of the Tampax method are significant. Its use has served to improve the attitude of many women and girls toward the whole complex of menstruation. Perhaps your patients might benefit similarly.

Tampax is available in Regular and Super absorbencies to meet varying needs during the menstrual period.

Tampax Limited, Havant, Hants.

TAMPAX

Internal sanitary protection for better menstrual hygiene

Send for sample booklets (plus re-order card) and a set of the classic Dickinson anatomical charts (laminated in plastic for permanence) for use in explaining menstruation and tamponage to patients. No charge.

Codis when pain is severe

Codis tablets provide soluble aspirin together with codeine and phenacetin. Absorption is rapid and there is less likelihood of gastric irritation during prolonged periods of administration.

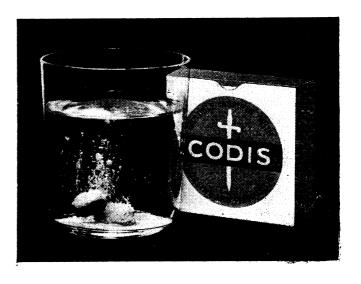

In addition to the rapid analgesic and anti-inflammatory action of soluble aspirin and phenacetin, the codeine component exerts a gentle sedative effect often helpful in those cases of mild insomnia associated with pain.

Codis tablets are pleasant to take and, being administered in water, are particularly suitable for invalids and the elderly.

Codis tablets are stable over long periods of time and are presented in protective moisture-proof foil.

Basic N.H.S. price: 500 tablets 25/-.

Psoriasis ... rapid response to Alphosyl

... even in previously intractable cases. A patient of 48 who had a generalised psoriasis for 20 years was essentially clear in six weeks.² A girl of 10 with a strong familial history of psoriasis, cleared almost completely after three weeks' application of Alphosyl Cream.² These are just two typical cases from the extensive clinical records underlining Alphosyl's outstanding effectiveness in bringing psoriasis under control.

New Alphosyl lubricating cream. A new waterin-oil dosage form, Alphosyl Lubricating Cream is particularly significant in the treatment of the dry, extremely scaly psoriatic lesion confined to the small site and the intertriginous area. Alphosyl cream is especially helpful in clearing psoriatic plaques exposed to constant friction. By enhancing lubrication of the skin folds, it serves to lessen irritation and facilitate healing. Clearing is prompt, even in previously resistant cases. The effectiveness of Alphosyl in this form is attributable in large measure to its unique cream base. This consists of a combination of saturated and unsaturated free fatty acids, naturally occurring triglycerides and esters that resemble the lipoid constituents of normal healthy skin. The vehicle also contains hydrophylic-lipophilic bipolar substances which

enhance the moisture uptake and retention of the amphoteric proteins of the stratum corneum. Significantly, it has been shown that squalane, one of the components of the base, is most effective in dissolving a cement substance in psoriatic scales.

Formula: Allantoin 2%+90% alcoholic extract of coal-tar (5=1) 5% in a vanishing type cream base or a smooth, non-greasy lotion base.

For young doctors:

clinical freedom, modern equipment and complete medical responsibility.

Where?

On land and sea. At home and overseas. As a Medical Officer in the Royal Navy.

Here is a medical career that can give you more scope and responsibility than most doctors in civilian life have—while still in your mid-twenties.

You will have the most modern equipment; clinical freedom; the opportunity to gain wide experience, both in the traditional fields of medicine and in the new sciences of nuclear, underwater and aviation medicine. And you could study for higher degrees, specialise in one of many medical subjects and even aim for consultant status—all at the expense of the Royal Navy.

But you're more than a doctor. You're a Naval Officer, too. You lead an active, varied life; have a very special status; exceptional opportunities for sport, travel and the outdoor life. And your pay and prospects are excellent. For example, your *starting* salary would be considerably higher than that of a civilian hospital registrar. And marriage and other allowances can add considerably to your income. You enter initially for a Short Service Commission—with the opportunity of a Permanent Commission after 1 year.

3 Ways of Entry

1 As a fully registered doctor; any civilian experience counts towards your seniority.

2 During your pre-registration year.

3 As a student any time after passing 2nd M.B. For fully registered women doctors there is a special Short Service Commission. If you would like more information, write to the address below, giving details of your age and qualifications. A personal interview can be arranged if desired.

The Medical Director-General of the Navy Medical Dept. 724DP6, Empress State Building, London, S.W.6.

HEALTH **CENTRES** X GROUP **PRACTICES**

Lord Cohen of Birkenhead writes the introduction to a booklet on Health Centres and Group Practices based on recent articles in the B.M.J.

"... a series of excellent articles. . . . Any practitioner who is considering how he can improve his service to his patients and his own working conditions will find this a very useful book."

Lancet (1966), 1, 380.

"... a 'must' for any group contemplating new practice premises . . . should be equally valuable to the M.O.H. planning a new health centre."

Brit. med. J. (1966), 1, 221.

"These reports . . . provide an admirable summary of . the position today. . . . '

Practitioner (1966), 196, 341.

THE NORTH-EAST METROPOLITAN REGIONAL **HOSPITAL BOARD**

CAREER IN MEDICAL ADMINISTRATION

An Assistant Senior Medical Officer is required to assist the Board's Senior Administrative Medical Officer in the medical administration of the hospital and specialist services of the Region. The work is largely concerned with aspects of the organization and planning of the hospital services in the Region which with the expansion in the building programme are in process of redevelopment.

For direct appointment to this grade, previous administrative experience preferably, in the hospital grade, previous administrative

For direct appointment to this grade, previous administrative experience, preferably in the hospital or public health service, is

desirable.

Alternatively the Board is prepared to make a trainee appointment in the Medical Officer grade for a probationary period of one year during which suitability for promotion to the Assistant Senior Medical Officer grade will be assessed.

Candidates for the trainee appointment need not have had any previous experience in medical administration. This affords an excellent opportunity for a young doctor to test his/her aptitude in the field of medical administration where there are good career prospects.

Salary scales: Salary

Medical Officer: £1,880 at age 29 or less, rising to £2,085 at age 33 by £60 (1) by £65 (4) by £70 (1) to £2,475.

Assistant Senior Medical Officer: £2,475 by £100 (3)

by £105 (3) to £3,090.

Application forms, to be returned by June 10, from Secretary, North-East Metropolitan Regional Hospital Board, 40 Eastbourne Terrace, W.2. (AMBassador 8011—Ext. 143). Please quote ref. 593. (15295)

CLINICAL RESEARCH

COMMERCIAL APPOINTMENTS see also p. lvi

THERAPEUTICS

Over the past 8 years the research effort within Pfizer Ltd. has been expanded of £1m. p.a., and there are now some 500 persons, over 100 of whom are graduate s engaged on research into the provision of new therapeutic agents.

The medically qualified scientists work in close collaboration with their fellows in many other related disciplines, and are concerned with all the clinical aspects of new compounds and ideas.

The major part of the work consists of the initiation and maintenance of close contact with leading clinicians. This necessitates frequent visits to the medical schools and major hospitals throughout the British Isles. In addition members of the clinical research department are encouraged to obtain clinical assistantships, and opportunities exist for the obtaining of higher degrees.

The man we seek is a registered medical practitioner under 40 years of age, who has already gained a wide clinical experience. Alternatively, he could be experienced in academic or clinical research. He will have a strong, genuine desire to pursue a career in a Pharmaceutical organization where original thought, new ideas and approaches are welcomed.

The starting salary will be dependent upon age and qualifications, and for the man with the experience we require, it could be over £3,000 p.a. The fringe benefits include non-contributory pension and life assurance schemes, profit sharing bonus, payment of removal expenses, etc. The Company's offices and laboratories are situated on the coast at Sandwich and offer a wide choice of residence in East Kent.

Applications, which will be treated in the strictest confidence, giving details of career to date should be addressed to :

> Personnel Manager, Research Division, Pfizer Limited. Sandwich, Kent.

Nulacin and only Nulacin provides intragastric milk-alkali drip therapy for the ambulant patient

66In view of the ineffectiveness of most of the tableted antacids, the milk-alkali tablet (Nulacin) would appear to be the antacid of choice for ambulatory therapy.?? Med. Times, N.Y., 1958, 1, 74

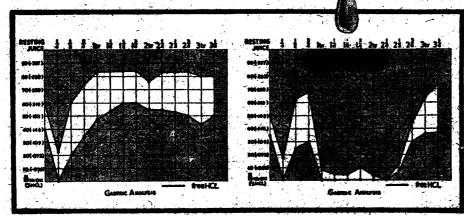

Safe, Simple, Effective

NULACIN TABLETS provide a safe, simple and effective treatment of penticuleer

In treating peptic ulcer a Ryle's tube may be passed through the nose and into the oesophagus and a mixture of milk and antacid allowed to flow continuously over the affected area. This form of therapy can only be employed in those patients who are in bed and for the ambulant patient Nulacin tablets are preferable. Nulacin tablets are prepared from whole milk combined with dextrins and maltose. together with the trisilicate, oxide and carbonate of magnesium and calcium carbonate. Nulacin tablets when allowed to dissolve slowly in the mouth provide milk-alkali drip therapy. In fact, Nulacintablets have revolutionized the treatment of peptic ulcer.
