HEALTH CENTRES & GROUP PRACTICES

Lord Cohen of Birkenhead writes the introduction to a booklet on Health Centres and Group Practices based on recent articles in the *B.M.J.*

"... a series of excellent articles. . . Any practitioner who is considering how he can improve his service to his patients and his own working conditions will find this a very useful book."

Lancet (1966), **1**, 380.

"... a 'must' for any group contemplating new practice premises . . . should be equally valuable to the M.O.H. planning a new health centre."

Brit. med. J. (1966), **1**, 221.

"These reports . . . provide an admirable summary of the position today. . . ."

For children **PENBRITIN** is the safer broad spectrum antibiotic

—the only one which is both oral and bactericidal, with the additional advantage of safety for all ages.

Whenever broad spectrum therapy is required, from the neonate to the older child, Penbritin affords the safety of a penicillin. No interference with the calcification of teeth and bone, or significant change in blood picture has been reported in over 700 published papers on Penbritin.

Penbritin is effective

because it is bactericidal, highly active against a wide range of pathogens and well absorbed after oral administration giving high blood, tissue and urine levels.

These factors mean outstanding effectiveness in the treatment of recurrent chest infections, bronchitis, pneumonia, tonsillitis, otitis media, cystitis, pyelonephritis and other bacterial diseases.

And acceptable

because Penbritin Syrups are palatable, pleasant tasting liquids, well liked and well tolerated by children of all ages. Crushable paediatric tablets are also available.

How you can see the world

and gain valuable medical experience

(before you settle into general practice)

Would you like to see the Far East, the Mediterranean, or the West Indies? Study the new sciences of aviation, underwater or nuclear medicine? Have complete clinical freedom, modern medical equipment and the opportunity to practise a very wide and varied field of medicine? Lead an active, exciting outdoor life against a world-wide backdrop?

These are some of the opportunities open to you as a Medical Officer in today's modern and expanding Royal Navy. During a 5-year Short Service Commission you can gain valuable, practical medical experience, treating both Royal Navy personnel and civilian families.

And you'll see something of the world – before you settle into the routine of general practice. You will be well paid, with a starting salary higher than that of a civilian hospital registrar. You can study (with financial backing) for higher degrees. You could aim for consultant status. Marriage and other allowances can add considerably to your income. And, if you wish, you can apply for a Permanent Commission after 1 year's service.

3 Ways of Entry

1. As a fully registered doctor; civilian experience counts towards your seniority.
2. During your pre-registration year.

3. As a student any time after passing 2nd M.B. For fully registered women doctors there is a special Short Service Commission.

If you would like more information, write to the address below, giving details of your age and qualifications. A personal interview can be arranged if desired.

how much does **loneliness** weigh?

Loneliness is just one of the emotional stresses that may lead to compulsive overeating. In treating the obese patient, merely curbing the appetite is unlikely to provide a complete answer: the stresses must be countered and adequate compensation provided for the solace formerly derived from overeating. *Durophet-M* does just that. It contains not only laevo- and dextro-amphetamine (ratio 1:3) — probably the most effective appetite depressant available — but also methaqualone, a calmative to counter the underlying emotional factors that motivate the compulsive overeater. In obesity, with its attendant hazards to health, these agents together provide more effective weight loss than do simple appetite depressants. Dosage is simple — just one capsule daily.

Basic NHS prices: Bottles of 30 capsules 12.5 mg. 7/4 — 20 mg. 8/-, Bottles of 300 capsules 12.5 mg. 49/8 — 20 mg. 54/-.

...Normax **SOFTENS** the stool

Coronary Thrombosis · Haemorrhoids · Episiotomy · Cardiac Failure · Geriatrics

Normax is not an ordinary laxative. It softens the stool without increasing its bulk, stimulates mild peristalsis, and encourages a normal bowel movement without straining or griping. It contains:

A Faecal Softener

Diocetyl-sodium sulphosuccinate lowers the surface tension of the faecal mass, allowing water to penetrate a hard, dry

stool. "It is not an irritant, laxative or bulk purgative."¹ Animal experiments have shown that it is not absorbed and does not break down during its passage through the intestine.

A Mild Peristaltic Stimulant

1-8 dihydroxyanthraquinone acts only on the lower bowel and stimulates gentle peristalsis.

The normal dose of Normax is 1-2 capsules at night for 2-3 days or until normal bowel function is restored.

Normax capsules are available in bottles of 30 (basic N.H.S. price 4/10), and 250 (basic N.H.S. price 26/10).

Obstetrics in General Practice

To be published July 1966

This book is made up of a series of articles printed in the "Current Practice" section of the BRITISH MEDICAL JOURNAL. It is designed to give a lucid and practical account of obstetrics as it is carried out in the patient's home or in a maternity unit, with special emphasis on the role of the general practitioner and his relationship to the consultant obstetrician and the hospital. The principal authors are consultant obstetricians, but to ensure that the general practitioner's own view and special experience should be represented the consultant contributors were asked to prepare their articles in collaboration with general practitioners. The book as a whole is a product of such co-operative effort. It will prove a useful guide to this important branch of medical practice.

INFECTION IN HOSPITAL

by R. A. Shooter, M.D., M.R.C.P., F.C.Path.

This REVIEW ARTICLE appears in the May issue of *Abstracts of World Medicine*. The article discusses the spread of infection in hospital, reviews the progress that has been made in its control, and points out that the problem which concerns both hospital staff and practitioners who see the effects of infection in their patients has by no means been solved.

The selective abstracting service offered by the journal is already widely known. The institution of the current series of Review Articles has greatly increased its popularity. These articles, like the abstracting service which they are designed to supplement, are directed as much towards the general reader as to the specialist, providing him with authoritative surveys of the growing points of medicine, each complete with an up-to-date bibliography. Other articles that have appeared or are scheduled for early publication are:

**The fact that Gynovlar 21
is widely used throughout

impressive geographically**

when all facts are considered the choice must be

but what matters clinically is the reason why

Wide international usage is in itself striking testimony to the merits of Gynovlar 21. But more important are the clinical advantages which have earned such wide usage.

First, Gynovlar 21 provides four-fold security by ovulation control, protective changes in the endometrium and the cervical mucus and by the 21-tablet dosage scheme which virtually eliminates patient error.

Secondly, Gynovlar 21 is extremely well tolerated. Tolerance depends not only on the choice of progestogen, but especially on the type of dosage of oestrogen. Gynovlar 21 tablets contain 3 mg. norethisterone acetate—a progestogen used throughout the world in gynaecological medication and renowned

for its excellent tolerance—and 0.05 mg. ethinyl-oestradiol B.P., which is the lowest dose to be employed for oral contraception. No other presentation contains less oestrogen, many contain more.

Thirdly, the substances used in Gynovlar 21 produce normal menstrual cycles, which have been described as being of 'almost clockwork precision'. Thus Gynovlar 21 is ideally suited to the 21-tablet dosage scheme, which this product pioneered and the advantages of which have, meanwhile, been generally recognized.

PROVINCE OF OPPORTUNITY

OPPORTUNITIES IN PUBLIC HEALTH

A number of career positions are available for experienced public health physicians with the Ontario Department of Health, and as Medical Officers of Health employed by local boards of health.

Openings within the Department include positions in the field of general public health, and a few in specialties such as epidemiology, industrial health, maternal and child health, and chronic care. The majority of these posts are located in Toronto, some in other Ontario cities.

Opportunities for Medical Officers of Health exist in rural and rural-urban Health Units which are responsible for the total programme of public health services to the community served. A few positions are also open for Assistant Medical Officers of Health in large Health Units and city Health Departments.

Salaries range from \$12,000. to \$19,000. per annum, depending on qualifications and positions: benefits include annual merit increments, vacation leave, superannuation fund, medical and life insurance plan, cumulative sick leave credits.

Grants to assist with transportation and moving expenses will be negotiated.

QUALIFICATIONS

Diploma in Public Health, or equivalent; eligibility for a licence to practise medicine in Ontario; proven administrative ability; personal suitability. Qualified physicians accepted for these posts are eligible, while employed in the Public Service of Ontario, for registration with the Ontario College of Physicians and Surgeons on their special register without examination.

Interviews will be held by representatives of the Ontario Department of Health commencing July 5th, 1966. Applications should be received at Ontario House on or before June 30th, 1966.

Interested physicians are requested to write for application form and information regarding eligibility requirements to Mr. H. G. Donaldson, Ontario House, 13 Charles II-Street, London, SW1.

THE UNIVERSITY OF OTAGO and THE OTAGO HOSPITAL BOARD DUNEDIN, NEW ZEALAND

FULL-TIME SPECIALIST OPHTHALMIC SURGEON, DUNEDIN HOSPITAL AND LECTURER IN OPHTHALMOLOGY, UNIVERSITY OF OTAGO MEDICAL SCHOOL

or HALF-TIME VISITING OPHTHALMIC SURGEON, DUNEDIN HOSPITAL AND LECTURER IN OPHTHALMOLOGY, UNIVERSITY OF OTAGO MEDICAL SCHOOL

Applications are invited for either of the above positions from those who hold a higher qualification in ophthalmology such as the F.R.C.S. or its equivalent.

Only one appointment will be made.

Duties will consist of routine in-patient and out-patient hospital work and the teaching of medical students. There will be opportunities for research.

If a half-time visiting Ophthalmic Surgeon is appointed, the hours of duty will be 20 per week, and the appointee will have the right to engage in private practice. At present a vacancy exists in Dunedin for a privately practising Ophthalmologist.

The salary payable in accordance with the Hospital Employment (Medical Officers) Regulations will depend on the appointee's qualifications and experience.

- Full-time Ophthalmic Surgeon. Salary scale, £NZ.2,295 to £NZ.2,710.
- Half-time Visiting Ophthalmic Surgeon. Salary scale, £NZ.1,860 or £NZ.1,535 per annum.

There will be further remuneration as a Lecturer in Ophthalmology. In the event of an appointment being made to the full-time position, travelling expenses to New Zealand as set out in the conditions of appointment, will be paid by the Board, on condition that the appointee agrees to serve the Board for a minimum period of two years. Conditions of appointment for both positions may be obtained from the Office of the New Zealand High Commission, New Zealand House, Haymarket, London S.W.1, or the undersigned.

Applications, on the prescribed form of application attached to the conditions of appointment, stating age, qualifications, and experience, together with a recent photograph, and the names and addresses of persons to whom confidential reference may be made, and Chest and Health Certificates will be received by the undersigned until **MONDAY, AUGUST 22, 1966.**

W. A. Williamson, Secretary, Otago Hospital Board, P.O. Box 946, DUNEDIN, NEW ZEALAND.

UNIVERSITY COLLEGE HOSPITAL Ibadan, Nigeria

SENIOR HOSPITAL MEDICAL OFFICER
Applications are invited from suitably qualified and experienced medical practitioners for the above post in the General Out-patients' Department, which includes the Hospital Staff Medical Service. The General Out-patients' Clinic is designed to provide a suitable number of patients for the Consultants' Clinics and facilities for student teaching which is now established and becoming of increasing importance in the Department. The Staff Medical Service is maintained by the three senior doctors of the Department who combine this with their work in the G.O.P. Clinic. Since the conditions presented by the patients cover the whole field of medical practice, the positions call for doctors of wide and mature experience and good clinical judgement. The possession of the D.T.M.&H. and/or the D.C.H. would be an advantage.

Salary: £1,836 to £2,268, plus £300 per annum for an expatriate. Gratuity £37 10s. per quarter. Point of entry into the salary scale depends on qualifications and previous experience. Appointment initially two years of 12 to 18 months each, renewable by mutual agreement. Free passages, liberal leave. Arrangements can be made for an expatriate to enable him continue his contributions to the N.H.S. Superannuation scheme. Applications should be submitted not later than July 8, 1966, on the appropriate forms, which will be forwarded, together with additional information on receipt of a stamped self-addressed foolscap envelope by the Adviser on Staff Recruitment, London Office (U.C.H.), Ibadan, 91 Regent Street, (third floor), London W.1. (H.7569)
