

The case for using Penbritin

Regd.

in Acute Pharyngitis and Tonsillitis

Upper respiratory infections respond more quickly to Penbritin than to tetracycline¹... a significant advantage when nearly 50% of patients attending surgery want treatment for these conditions, as a recent General Practice survey has shown.²

Clinical cure with Penbritin is surer, as well as faster. Penbritin actually kills the vast majority of bacteria that cause these infections. About one third of β -haemolytic streptococci causing disease in man, however, are now insensitive to tetracycline³, and this organism is the most frequent cause of acute pharyngitis and tonsillitis.

Penbritin is also the safer broad spectrum antibiotic for children and during pregnancy, as it has no permanent or dangerous side effects*. There are two pleasant syrups, appreciated by all age groups—125 mg./5 ml. for

the child, and 250 mg./5 ml. for the adult or more severely ill child.

Penbritin is equally effective in other respiratory tract infections including:

Sinusitis · Laryngitis · Bronchitis · Pneumonia.

***Contra-indication:** Penicillin allergy.

Side-effects: As with other Penicillins.

N.B. Penbritin is not effective against penicillin-resistant staphylococci.

Twelve reasons for using Alavac-P now

Hay fever can now be controlled with Alavac*P

Alavac-P is a hay fever vaccine incorporating allergenic materials of twelve varieties of common grass pollens (Bencard group B2)

Alavac-P is easy to give, effective and well tolerated.

Simple . . . a course of treatment consists of only 8 or 9 injections based on the clinical severity of the symptoms.

Effective . . . patients have been shown to respond well to this type of vaccine.

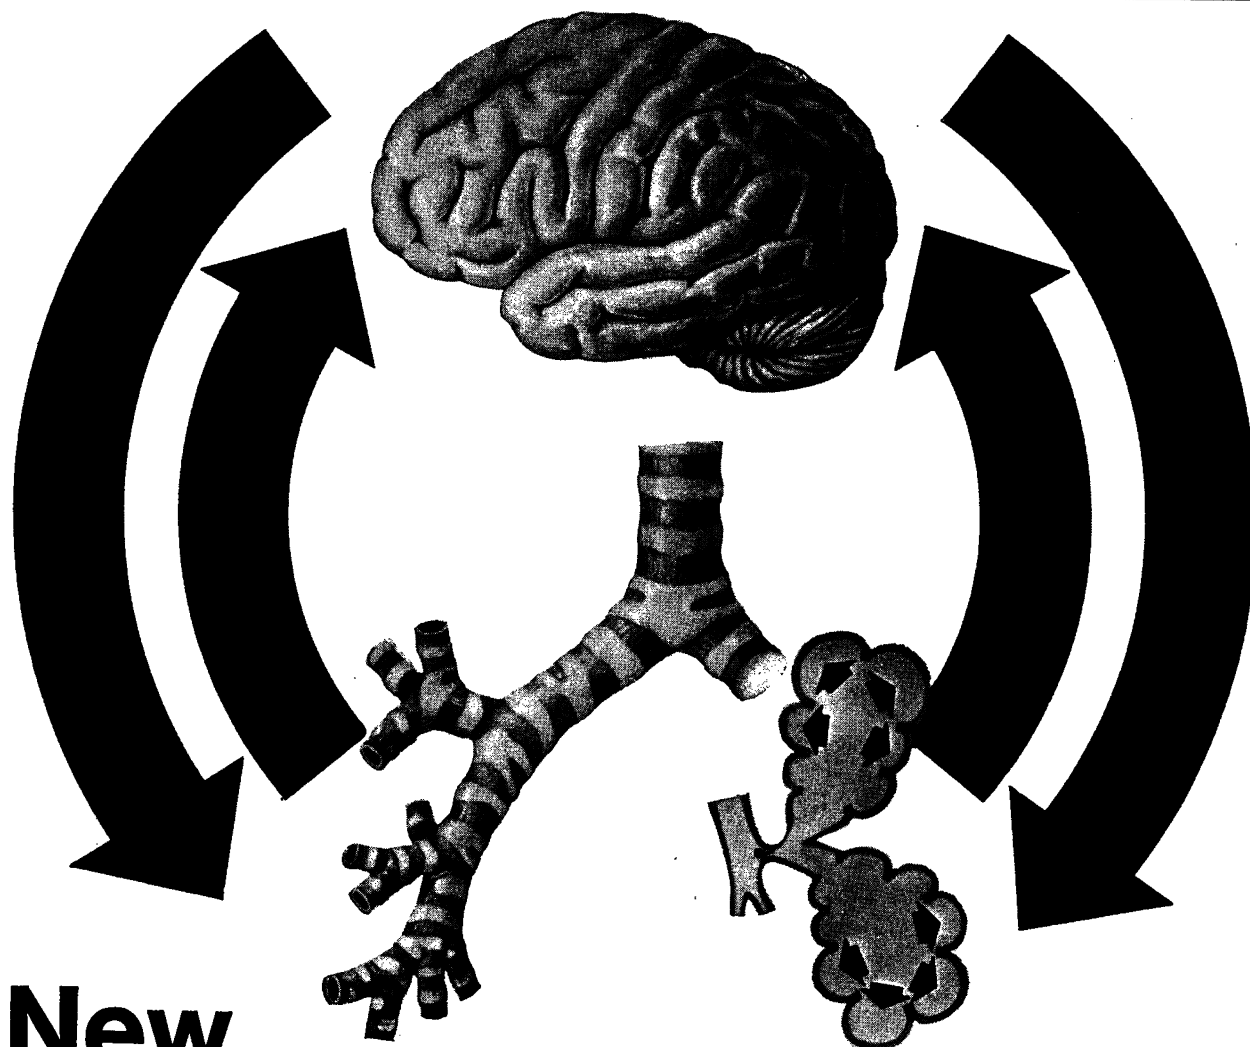

Well tolerated . . . Alavac-P is carefully formulated so that, once injected, the allergens are released slowly, ensuring gradual and safe dispersal in the body.

Now is the time to prevent hay fever by desensitising the patient with Alavac-P from Bencard.

Alupent - Sed[®]

(orciprenaline sulphate 1-(3,5-dihydroxyphenyl)-2-isopropylaminoethanol-sulphate and amylobarbitone)

When the soma reflects the psyche in the asthmatic patient...

When the psyche reflects the soma in the chronic bronchitic patient...

Alupent - Sed[®]

is a rational treatment.

Each tablet of Alupent-Sed contains:
20 mg. of orciprenaline sulphate
20 mg. of amylobarbitone.

This combination ensures that the patient receives the optimum dose of Alupent to relieve the wheezing and sufficient sedation to relieve anxiety.

Dosage:

Adult—1 tablet of Alupent-Sed four times daily.

Children 6-12 years— $\frac{1}{2}$ tablet Alupent-Sed 3-4 times daily.

Contra-indications:

Alupent-Sed should not be given to patients with thyrotoxicosis. Alupent-Sed should not be given to patients who have a known idiosyncrasy to barbiturates, or a condition in which barbiturates are contra-indicated.

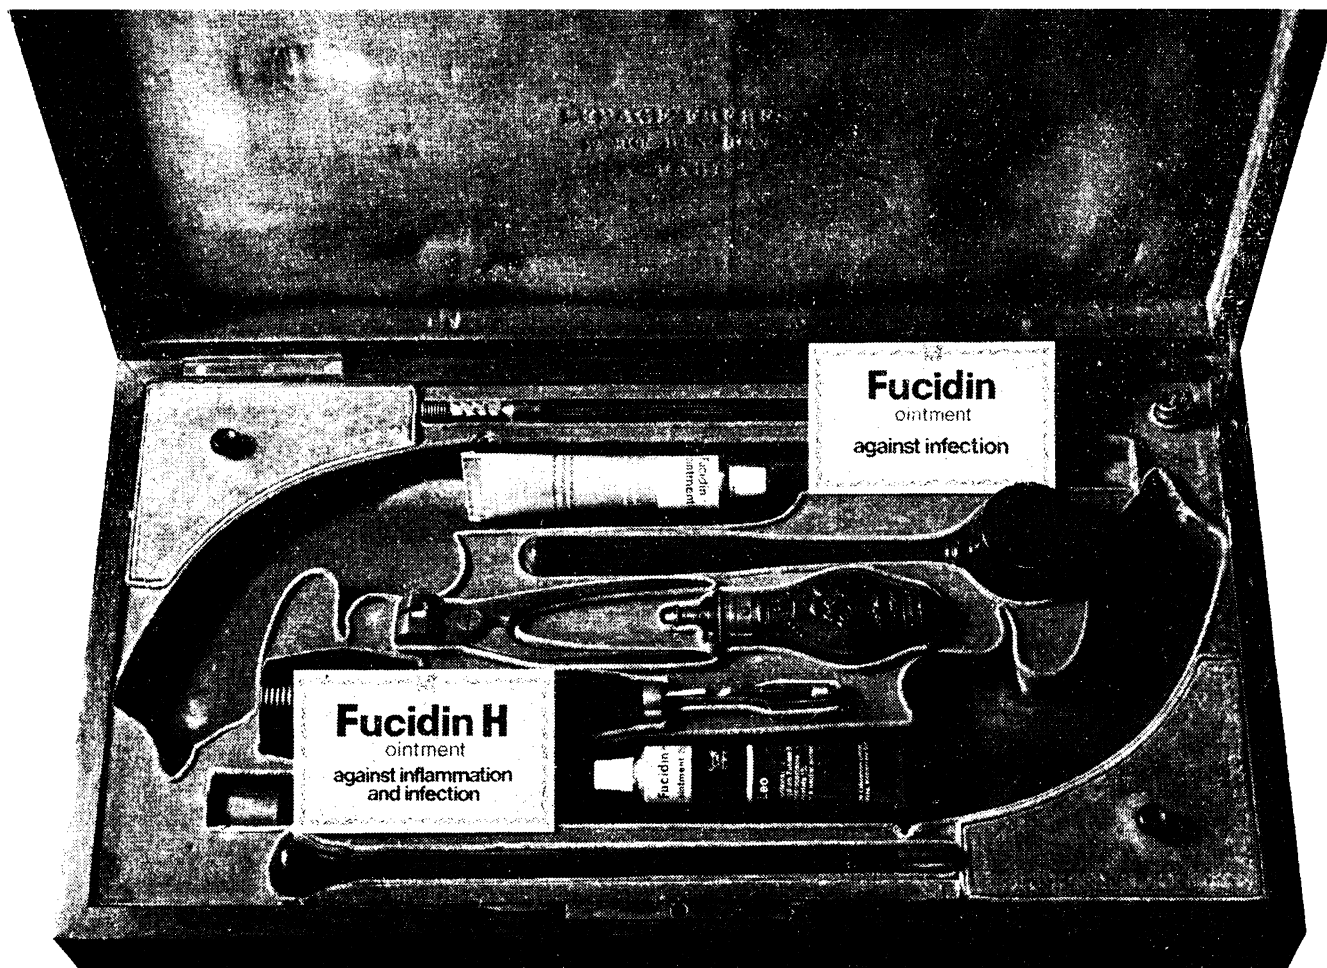

Caution:

In view of the known interaction between sympathomimetic amines and monoamine oxidase inhibitors, care should be exercised if it is proposed to administer an MAO inhibitor concurrently with Alupent-Sed.

Further information and samples are available on request.

THE HEALERS

THE DOCTOR, NOW AND THEN

Kurt Pollak, with E. Ashworth Underwood

This is a comprehensive history of the doctor from the Stone Age to the present day. The book explores the strange cures he has prescribed, the fees he has received, the distinctive clothes he has worn, and the way his position in society has evolved.

Kurt Pollak is a Lecturer at the German Academy for Military Medicine. Dr. Ashworth Underwood, of University College, London, is a Hunterian Trustee of the Royal College of Surgeons.

PORPHYRIA— A ROYAL MALADY

Published January 1968

The last 400 years of British history will now have to be reassessed. Every schoolboy knows that George III was mad, that James I of England and VI of Scotland was the "wisest fool in Christendom," and that there were attempts to poison Mary Queen of Scots. "Facts" as widely known as these have now been shown to be based on the inadequate medical knowledge of the times. Each of these, and other royal personages, are now shown in this booklet to have been suffering from a rare disease—porphyria—and, in contrast to previous speculations on the nature of their illness, this diagnosis has now been substantiated not only by an investigation of contemporary records but by studies of two living collaterals of George III.

The booklet contains two articles by Dr. Ida Macalpine and her colleagues on porphyria in the Royal Houses of Stuart, Hanover and Prussia; a historical reassessment by Dr. John Brooke and an introduction to the disease by Professor Abe Goldberg.

As Dr. Macalpine and her colleagues conclude in their second article:

"Porphyria may justly be called a royal malady. It caused directly two major national disasters: The Regency Crisis in 1788 when George III had his severest attack, and the catastrophe of 1817 when Princess Charlotte died in childbed with her infant. This tragedy threatened the Hanoverian succession with extinction and left the nation without an heir apparent until the birth in 1819 of Victoria."

If you think PAYNOCIL is just a strong, quick acting aspirin and nothing else

try it and see

Paynocil disperses instantly on the tongue in a release of sweetened lemon flavour, distributing aspirin into the stomach in minutely fine particles—and no water is needed.

Paynocil is aspirin in a most carefully planned form. At 10 grains per tablet in a glycine base it has twice the strength of aspirin tablets B.P. and it is also absorbed twice as fast. It is better tolerated than plain aspirin. Patients with rheumatic disorders who experienced nausea, heartburn or epigastric pain after plain aspirin have found Paynocil acceptable.

So Paynocil is especially valuable in rheumatic

disorders, for it provides the threefold activity of aspirin—analgesic, anti-pyretic, anti-rheumatic—in a form which is exceptionally pleasant and easy to take.

Long term in rheumatic disorders, short term in aspirin's many other indications (colds, influenza, headache, dysmenorrhoea etc.), Paynocil is an ideal therapy. It is convenient to take and it acts fast—patients who need aspirin will prefer Paynocil. It comes in convenient foil strips to slip easily into pocket or bag and is also available as Junior Paynocil—2½ grains per tablet—for children.

Full information is available on request.

True value of long-term antihypertensive therapy emerges from 5-year study

A unique clinical trial* from a well-known British teaching hospital evaluated the long-term effects of reducing high blood pressure in more than 200 hypertensive patients, many of whom were treated for over 5 years with only one drug—

Ismelin®

The following important findings emerged from this balanced and comprehensive report.

Dramatic improvement in prognosis

"The outstanding feature among these results is of course the 5-year mortality of only 8 per cent—although scarcely less remarkable is the fact that all of the 11 patients who presented originally with malignant hypertension are still alive."

Increased efficacy with long-term usage

"Over the whole series an average of 83 per cent were at least moderately controlled and over 60 per cent showed excellent or good control, but it is of interest that the standard of control improved very strikingly among patients treated in excess of 4 years with only 5 per cent of failures in these groups."

* *Angiology*, 1967, 18: 705.

Minimal interference with normal routine

"The surviving patients present on the whole a fairly happy picture, for the great majority are leading unrestricted lives, free from hypertensive headache. Very few are troubled by their treatment and none have abandoned it. . . . Side effects were not troublesome and diarrhoea was readily controlled by codeine phosphate."

BAD LEGS? Tired heavy aching legs

Before 'bad legs'
become an ugly
problem—
PAROVEN®

All the early symptoms of venous insufficiency—tired, heavy, aching legs, skin disorders, and night cramps—respond to PAROVEN therapy. [1-3]

PAROVEN, containing trihydroxyethylrutoside, reduces the increased capillary permeability which "is at the bottom of the majority of the complications of varicose disorders". [4]

Indications

Conditions associated with lower limb venous insufficiency.
Tired, heavy, aching legs. Night cramps. Skin disorders.
Superficial thrombophlebitis.
Varicose states.

Dosage

1 tablet 3 or 4 times a day.
Maintenance dosage [as little as one tablet a day] may be adjusted to patients' needs.

Packages

Tablets of 250 mg. hydroxyethylrutosides [not less than 45% troxerutin]. Tins of 20-100 tablets.

Cedilanid

three benefits in the management of heart failure

speed, safety,
versatility

speed

On entering the bloodstream, Cedilanid is only weakly bound to the serum albumin, and is readily dissociated. This gives rapid onset of action.

safety

Because Cedilanid is so quickly eliminated from the body, the duration of action is relatively short, and the toxic effects of overdosage are short-lived.

versatility

Cedilanid is an all-purpose cardiac glycoside, as valuable for rapid control of acute heart failure as for routine digitalisation and maintenance of the patient in congestive heart failure.

Cedilanid: particularly for patients who cannot tolerate digoxin or other digitalis preparations

A NEW ORAL GEL WITH STRIKING ANALGESIC AND ANTISEPTIC PROPERTIES

Bonjela has been shown in formal American trials to bring rapid relief from pain in 90% of all cases of oral ulceration, herpes labialis, gingivitis and denture sores. By rapid relief is meant marked alleviation of pain within 2-3 minutes.

Bonjela also promotes healing whenever the aetiology is partly or wholly

bacterial. Some ulceration originates from endocrinal, viral or fungal causes which may require other forms of treatment.

Even in these cases where a bacterial element is superimposed on the original infection Bonjela will reduce the severity of the infection and rapid relief from pain will be obtained.

a striking demonstration of Lincocin penetration

**Heart Tissue**Assay organism: *Streptococcus hæmolyticus***Lung tissue**Assay organism: *Staphylococcus aureus***Lung tissue**Assay organism: *Diplococcus pneumoniae*

Since antibiotic effectiveness is dependent upon concentration at the site of infection, it is obvious that antibiotic diffusion and tissue penetration are of supreme importance. The accompanying photographs of an experiment in animals demonstrate Lincocin's capacity in this respect.

A healthy dog weighing 9.5 kg. was injected intramuscularly with 25 mg./kg. of lincomycin hydrochloride (base equivalent). After 90 minutes tissue samples were excised and placed on Petri dishes in which the agar had previously been seeded with pathogenic strains of Staphylococci, Streptococci and Pneumococci, respectively. Following incubation these photographs were taken of the plates containing either heart or lung tissue. The clear zones show that within 90 minutes Lincocin had penetrated these tissues in concentrations sufficient to inhibit growth of the pathogenic inocula.

Lincocin Capsules: Each capsule contains lincomycin hydrochloride monohydrate equivalent to 500 mg. lincomycin base, in bottles of 12 and 100.

Lincocin Sterile Solution: In 2 ml. ampoules. Each 2 ml. contains lincomycin hydrochloride monohydrate equivalent to 600 mg. lincomycin base.

Lincocin Syrup 250: Each 5 cc. contains 250 mg. lincomycin (as lincomycin hydrochloride monohydrate), in bottles of 60 cc.

For years he's been dosing himself with antacids For years he's been suffering with indigestion

When indigestion and malabsorption suggest replacement of deficient enzymes – replace them as completely as possible.

After operative procedures on the gastro-intestinal tract and in malabsorption due to various enteropathies, lipase, trypsin, amylase, cellulase and oxbile extract may be valuable aids to management. A daily dose of six Cotazym B tablets provides sufficient of these substances to digest 50 g. of fat, 100 g. of protein, 250 g. of starch and 480 mg. of cellulose.

Dosage: 1 or 2 tablets during meals.
There is no contraindication.

Psoriasis can be for life. It's hard for your patients to face.

You can make it a little easier by prescribing Alphosyl.

Over the years Alphosyl has proved the most effective known treatment for Psoriasis.

And Alphosyl continues to prove itself. Everyday there is new evidence of Alphosyl's effectiveness.

*"Trials in the United States of America have shown that . . . 70% to 80% of patients were helped and 50% or more had their lesions cleared completely by the treatment."**

* BRITISH MEDICAL JOURNAL (1967) 4, 535

Long after 'revolutionary' advances have been tried and forgotten, Alphosyl remains the product most widely prescribed for the specific treatment of Psoriasis.

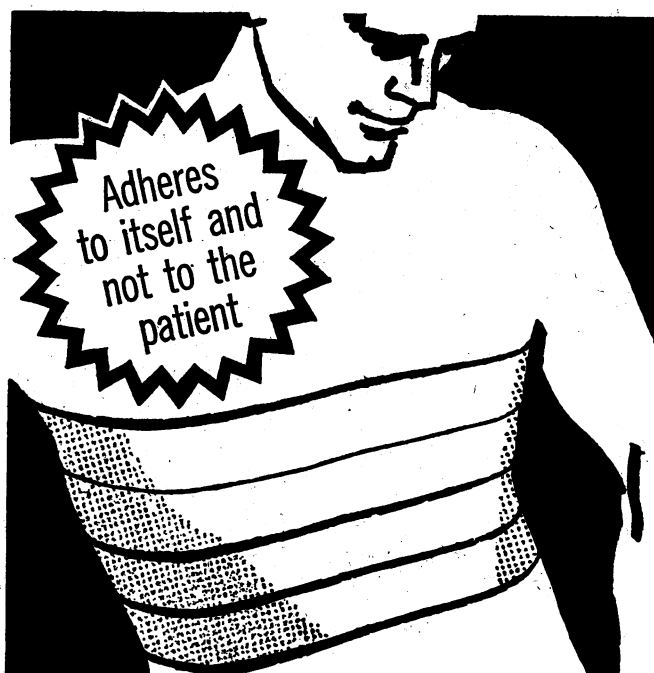

*"It certainly avoids the hazards of antimetabolites and local and systemic corticosteroids, and it does not have the disadvantages of staining, burning and discoloration that occur with other topical preparations."**

Alphosyl is available as a 5% refined alcoholic extract of coal tar and allantoin in a cream and lotion.

Lestreflex

elastic diachylon bandages BPC/NHS

Recommended for use on patients whose skin is sensitive to zinc oxide and rubber adhesive plasters.

Especially suitable for application to ulcerated or eczematous areas, where the dressing may remain undisturbed from one to six weeks.

The diachylon mass (lead oleate and resin) is not so sticky as other types of adhesives and this advantage makes the bandage very simple to apply and remove.

Lestreflex will afford the support associated with elastic adhesive bandages. (Z.O)

The bandages are available either fully spread or ventilated, 3 yds. long packed in boxes of one dozen.

PRACTICES

(Executive Councils)

For vacancies (except those in Scotland) apply on Form E.C.16A, obtainable from the Executive Council. Mark envelopes "Vacancy."

CITY OF LINCOLN MEDICAL PRACTICE VACANCY

The Executive Council for the City of Lincoln invites applications for appointment to a single-handed medical practice of 3,500 patients. The vacancy will occur on May 14, 1968. The list is comprised of approximately 3,000 patients who reside within the city and 500 who reside in the adjacent county area. The area of the City of Lincoln has been continuously designated since April 30, 1965, and it is therefore anticipated that practitioners will qualify for the appropriate additional payment this year. Surgery and residential accommodation will be available for purchase at a valuation. Applications on Form E.C.16A, obtainable from this Council, must reach the Executive Council for the City of Lincoln, 27 Tentercroft Street, Lincoln, by not later than Monday, March 18, 1968. (H.6799)

CLAPTON E.5 (Hackney Downs Area)

"Open" area, partnership of three doctors closing branch surgery and relinquishing approximately 1,280 patients.

Surgery premises will be available. Application on Form E.C.16A, obtainable from: The Clerk, Inner London Executive Council, Insurance House, Insurance Street, W.C.1.

Completed applications must be received by the Council not later than 12 noon, Monday, March 11, 1968. (H.6808)

EXECUTIVE COUNCIL FOR SOUTH-EAST LONDON AND KENT

THAMESMEAD (LONDON BOROUGH OF BEXLEY)

Applications are invited from experienced general practitioners for the first of a number of appointments of general medical practitioners to practise in the new riverside community of Thamesmead which is being developed by the Greater London Council within the areas of the Boroughs of Bexley and Greenwich. It is expected that the first houses will be completed in Bexley in June 1968, and it is intended that the appointed medical practitioner should be available to give services to the new residents. The practitioners appointed will work closely with the local health authorities and local hospitals and will also be associated with the Medical School of Guy's Hospital in undergraduate teaching. A Joint Health Services Advisory Committee has been formed to advise the bodies concerned on the operation of these arrangements. It is intended that the practice will be based on a temporary health centre pending the building of the first permanent health centre which will form part of the projected medical plan for the whole area. Thamesmead has been approved as a designated area for which the new increased (Type D) initial practice allowances will be payable.

Further information regarding the appointment may be obtained from the Clerk of the Executive Council for South-East London and Kent, 11 Station Road, Maidstone, Kent, and applications on forms E.C.16A must be received by him not later than March 20, 1968. (H.6798)

The number on list at January 1, 1968, was approximately 1,700. The practice is a dispensing one. A substantial mileage payment is made. A house owned by the Executive Council is available. Applications, stating qualifications and experience, and the names of two referees, should be lodged with the undersigned, from whom further particulars can be obtained, not later than ten days after the publication of this advertisement. James Weir, Clerk, 28 Southside Road, Inverness. (H.6828)

CLAYTON WEST NR. HUDDERSFIELD (DENBY DALE U.D.)

Applications are invited for vacancy due to resignation on April 30, 1968, at Clayton West. "Open" area. List 2,148. Surgery accommodation available on rental at local health authority clinic. Successful applicant required to take up on May 1, 1968. Applications on Form E.C.16A (obtainable from the undersigned), should be submitted to B. England, Clerk, West Riding Executive Council, 5 St. John's North, Wakefield, by not later than March 15, 1968. (H.6830)

HOGSTHORPE (NEAR SKEGNESS) LINCOLNSHIRE

Applications invited for rural vacancy due to resignation. Area of practice classified as "Restricted." List approximately 2,300 of which 583 are dispensing. The combined surgery and residential accommodation may be available for purchase. Apply on Form E.C.16A to The Clerk, Lincolnshire (Lindsey) Executive Council, 17 Tentercroft Street, Lincoln, not later than March 19, 1968. (H.6725)

NATIONAL HEALTH SERVICE MEDICAL VACANCY—BURGH OF WICK CAITHNESS

Applications are invited from registered medical practitioners desirous of succeeding to a vacancy, following resignation, with effect from May 20, 1968, in the burgh of Wick, Caithness. List at this date 2,918 persons. Further particulars available on request and applications (Form E.C.16 available from the subscriber) should be submitted with supporting information and names of two referees, to the Clerk, Caithness Executive Council, National Health Service, Mowat Lane, Wick, on or before March 15, 1968.—James Campbell, Clerk. (H.6845)

SOLIHULL, WARWICKSHIRE

Applications invited for urban practice vacancy in the Shirley district of Solihull, arising from resignation. Classified as "designated" since August 31, 1965. List approximately 2,400 patients. Combined residence and surgery available for purchase. Successful applicant required to take over practice on June 1, 1968. Further particulars on request.

Apply on Form E.C.16A, not later than March 12, 1968, to the Clerk, Warwickshire and Solihull Executive Council, 15 Waterloo Place, Warwick Street, Leamington Spa, Warwickshire. (H.6800)

STAMFORD BRIDGE (near York)

Applications are invited for a rural vacancy due to retirement on May 31, 1968. Restricted area. All dispensing list of approximately 1,480 (including 325 in the North Riding area). Residence and combined surgery premises available for purchase.

Apply on Form E.C.16A before March 11, 1968, to the Clerk, East Riding Executive Council, 65 Toll Gavel, Beverley. (H.6748)

WATER EATON (newly developed estate) BLETCHLEY, BUCKINGHAMSHIRE

Applications are invited for establishment of a medical practice on the above estate. Temporary accommodation to be rented will be available on the estate. Purpose-built health centre will be available by 1970. Initial practice allowance will be payable in accordance with type "A" (main scheme).

Applications on Form E.C.16A, obtainable from the undersigned, should be submitted not later than first post March 15, 1968. L. A. White, Clerk of the Council, Buckinghamshire Executive Council, Paterson House, Oxford Road, Aylesbury, Bucks. (H.6829)

ROYAL COLLEGE OF SURGEONS OF ENGLAND ELECTION OF PROFESSORS AND LECTURERS

The Council invites applications for election to the office of Hunterian Professors, Arris and Gale Lecturer, Arnott Demonstrator and Erasmus Wilson Demonstrator for the ensuing year.

Of the Hunterian Lectures, at least twelve illustrated by Hunterian specimens are delivered by Fellows or Members of the College. Additional Hunterian Lectures, not exceeding three in number, on medical or dental subjects may be given by Fellows, Members, Fellows in Dental Surgery or Fellows in the Faculty of Anaesthetists of the College.

The three Arris and Gale Lectures are on subjects relating to Human Anatomy and Physiology, the six Arnott Demonstrations on the contents of the Museum, and the six Erasmus Wilson Demonstrations on the Pathological contents of the Museum.

Applications, in writing, must be made to the Secretary on or before Monday, April 22. Candidates for the Hunterian Professorships and Arris and Gale Lectureships are requested to submit with their application thirty-five copies of a synopsis of approximately 500 words describing the subject matter of their proposed lecture. Each copy of the synopsis must have the name of applicant in the top right hand corner, and must state his present appointments where the work was carried out, and the extent to which the work submitted is original. Work carried out under a superior must be shown to have the latter's approval before being submitted.

In the case of Hunterian Lectures the Council is prepared to consider applications for either a series of lectures or a single lecture.

Appointments to Professorships and Lectureships are made on the condition that those elected will give the College first refusal of publishing their Lecture in the Annals.

COMMERCIAL APPOINTMENTS

The Wellcome Foundation Ltd.

MEDICAL ADVISER in Tropical Medicine

Applications are invited for the post of Medical Adviser to the Wellcome Laboratory of Tropical Medicine. The work will consist mainly of arranging trials for new drugs, especially those of interest in tropical parasitology. The successful candidate will be encouraged to hold a part-time clinical appointment.

Some experience of tropical medicine is essential and the successful candidate should be willing to travel widely. The appointment, which is a new one offering considerable interest and scope to the right man, would be based at the company's extensive research laboratories, pleasantly situated at Beckenham, Kent. The salary will be according to age, experience and qualifications. Applications, quoting AM.376, should be made to the Group Personnel Manager, The Wellcome Foundation Ltd., 183 Euston Road, London N.W.1.

Service in the
cause of medicine

ARE YOU A

Hospital Registrar?

Make your mark in the Pharmaceutical Industry

Hoechst Pharmaceuticals can make life interesting for you—professionally and financially.

We need another Medical Adviser in our Clinical Investigation Department to prepare submissions on novel compounds for consideration by the Committee on Safety of Drugs and to arrange for their clinical trial. The man who can join this small, active team will find the work immensely rewarding. His job will take him all over the U.K., occasionally to Europe. He will be 35 years old or under, a British graduate, and ideally at present a Registrar in medicine or pathology. Higher medical qualification, whilst desirable, is not essential; applicants must, however, have had all-round hospital experience. Ability to communicate is important and the successful applicant will be a good mixer.

Initial salary will be better than that of a Senior Registrar and a car will be provided. Conditions of work are excellent. The Company operates a non-contributory pension scheme and free life insurance and offers B.U.P.A. membership.

Please apply in writing, with curriculum vitae, to
The Managing Director,
Hoechst Pharmaceuticals Limited,
Hoechst House, Kew Bridge, Brentford, Middlesex.

Edinburgh. The post is in the four-year training scheme initiated last year. This programme is designed to provide experience in all branches of orthopaedic surgery over four years by rotations planned to provide a balanced experience. The rotation is between the Royal Infirmary, the Western General Hospital and the Prince's Margaret Orthopaedic Hospital, all within the City of Edinburgh. Total orthopaedic beds within the department is over 200. The appointment is initially that of Registrar but the several Senior Registrar posts in the department are within the training rotation. Registrars have access to all the research facilities of the university department. There is an intensive postgraduate training programme for the Registrars over and above the clinical rotation. Undergraduate teaching will be part of the duties.

Preference will be given to candidates who have completed the three-year rotation Registrar post in several branches of surgery and who have the F.R.C.S. The programme of training can be obtained from Professor J. I. P. James, The Clinical Research Unit, Princess Margaret Rose Orthopaedic Hospital, 100 Milehead, Edinburgh. Applications, giving particulars of age, qualifications and previous experience, together with the names and addresses of two referees, should be sent to the Secretary, 11 Drumshugh Gardens, Edinburgh 3, by March 16, 1968.
