In chronic bronchitis control of infection and clinical improvement are heralded by a reduction in the volume of sputum produced and its conversion from purulent to mucoid.

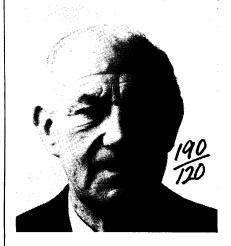

By those signs Bactrim Roche is an outstanding success. In a trial of sulphamethoxazole/trimethoprim, the constituents of Bactrim Roche, purulent sputum became mucoid in 23 (95.8 per cent) of 24 cases. This compared with the conversion of 16 (72.7 per cent) of 22 cases on ampicillin, in another trial the same treatment produced a greater effect than tetracycline (16 daily) or both the volume and the purulence of sputum.

#### Electric Air Cleaner: Air – fresher than the "freshest air"

A conventional standard air conditioner provides cool air and, at best, filter-traps coarse dust particles - and that's about all.

But foul air just remains what it is — foul air, regardless whether warm or cooled. And that's why Hitachi have developed an entirely new electric air cleaner. Specifically designed for offices, reception halls and conference rooms, but also for laboratories, sickrooms and waiting rooms.

This new air cleaner prepares the air in four stages. The process removes scrupulously all dirt particles (1), sterilizes the air (2), eliminates all odorous substances (3) and, enriches the air with the "Vitamins of the Atmosphere', namely negative ions (4).

The result: absolutely clean air to create a truly work- and health-promoting atmosphere.

Why don't you get in touch with us so that we can provide you with the latest detailed information on Hitachi's interesting electric air cleaner programme.

### Now offensive waste need no longer cause distress

The Comex Unit is designed for sufferers from complaints such as ileostomy, paralysis & mental retardation The basic Comex Unit (illustrated) is a

wholly expendable sanitary disposal unit. Its advantages are:-

1. The Unit is a convenient size and shape.

2. The Unit, when full, can easily be carried by a lady

3. The interior is pre-treated with a disinfectant. In addition, each time the lid is closed a plastic dispenser releases a measured amount of disinfectant on to the contents. All waste is thus impregnated with a concentrated disinfectant which is not acid and is harmless to skin and clothes. Development of germs, bacteria and unpleasant odours is thereby prevented.

4. The size is adequate for 4 weeks use without loss of efficiency.

5. The contents, once placed inside, are not visible.

6. When full, the Unit is sealed and disposed of through the normal household refuse collection.

Modifications of the basic Comex Unit are available for different complaints. Our trained staff will gladly discuss your problem without obligation; the Canman Advisory Panel is always available to consider and make recommendations on new applications of Comex Units. FOR FURTHER DETAILS PLEASE CONTACT:

### For the Treatment of Psychiatric Illnesses

This Private Registered Nursing Home at York of 275 beds, established 1792, is managed by members of the Religious Society of Friends

It combines psychological and physical investigations and modern forms of treatment for patients suffering from psychiatric illnesses, including drug dependence, and has a separate unit for the assessment and treatment of psycho-geriatric conditions. There are also facilities for

and treatment of psycho-geriatric conditions. There are also facilities for long-stay patients.

The Hospital is surrounded by 42 acres of its own grounds and is within easy walking distance of the City centre. In recent years, the Hospital has been modernised throughout. A new spacious occupational therapy centre provides a wide range of creative activities.

British United Provident Association and Private Patients Plan assist their members who become patients at The Retreat within the range of their published benefits.

For terms and further particulars, apply to Dr. John E. O'N. Gillespie, MA., MD., FRCPI., MRCP., DPM., Medical Director, The Retreat, York, YO1 5BN. Telephone: York 54551 (STD 0904).

## Trends in Clinical Pathology

#### Essays in Honour of Gordon Signy

This volume of essays has been collected by a group of friends of Gordon Signy, led by Professor John Stafford, to celebrate his Jubilee as Editor of the Journal of Clinical Pathology.

It is no pious collection of personal tributes but a survey of the old and the new disciplines in clinical pathology since the second world war—research in atherosclerosis and ischaemic heart disease, progress in medical virology, microbiology and cytology, the impact of antibiotics on medical bacteriology, chemical pathology and also molecular defence, haematology in mid-century, including haemostasis and blood transfusion. The place of fibrin in the story of hyalin is another modern study, so also is that on automation. The outlook on some members of the family Enterobacteriaceae is changing, and the 'old' forensic medicine is indeed new. And those pathologists working in the under-developed countries are not forgotten. The contributors are internationally renowned.

This volume will be welcomed by the countless friends of Gordon Signy, not only in the world of medicine but outside it; any intelligent layman will appreciate the survey the book contains. Clearly it must be on the shelves of every major library in the world. And bibliographically this book will be a collector's item; it is printed in a distinguished Bodoni typeface that is very rarely seen, and of which the matrices in most part no longer exist.

## Johnny went into hiding q.i.d. until the doctor prescribed 'llosone' Suspension

'Ilosone' excels in paediatric infections. But the flavour of the suspension (although important to Johnny) is only one of the reasons why it works so well. Against gram-positive cocci 'llosone' is much more active than, for example, the tetracyclines - and it will not discolour teeth or deposit in bone. Thus for infections such as tonsillitis, pharyngitis, pneumonia, otitis media and acute bronchitis - 'Ilosone' Suspension is a first-line treatment.

Full information available on request.

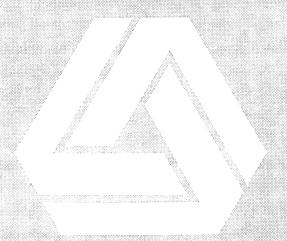

'Ilosone' Suspension 125 mg\* per 5 ml
'Ilosone' Forte Suspension 250 mg\* per 5 ml both available in 100 ml pack for full five days treatment of 'everyday' infections.

dose oral contraceptive.

## Four factor in a diagnost can point to one word

Take a case of tonsillitis. First, you gauge its severity. Second, you are aware of possible sequelae, so the treatment must be effective. This leads you to opt for a penicillin rather than a bacteriostatic agent. Finally, you choose one that is easy and pleasant to take. It all points to Broxil Syrup.

Broxil works. In practice, patients do seem to get better quicker with Broxil. Broxil has an excellent safety record. All you ever need do is take the normal penicillin precautions. For ENT, upper respiratory tract, skin and soft tissue infections, Broxil has an outstanding record for effectiveness over ten years of practice.

## LIBRAXIN\* FOR THE ULCER-PRONE PATIENT

#### '(a) the soaker and waker'

#### '(b) the saturated sleeper'

These are the descriptive titles given by one author\* to two main groups of enuretic children. The 'soaker and waker' he describes as timid and apprehensive, though often intelligent. The 'saturated sleepers' are madcaps or tomboys who overexert themselves physically and mentally; they are often defiant and misinterpret attempts at control as lack of love. They are distinguished by their behaviour—'Those in the first group awake, howling, immediately after wetting the bed. Those in the second group, having exhausted themselves, sleep deeply and do not awake till the morrow.'

Many cases of functional enuresis respond favourably to 'Tryptizol', the well-established antidecressant with tranquillising properties. Most bedwetters who respond to 'Tryptizol' do so in the first few days of management and tend to improve as the duration of therapy is extended.

\* Lancet, 1956, ii, 1336 (29 Dec)

... without trouble, and the worry of remembering tablets and bottles every few hours. The new 'Spaneph Spansule' Capsule, with the special sustained-release action, ends the inconvenience and 'peak and valley' irregularity of traditional multi-dose oral ephedrine preparations. 'Spaneph Spansule' Capsules set a new standard of simplicity in the prophylaxis of bronchospasm. Throughout the day and the night, the patient with chronic bronchitis or mild bronchial asthma will find life...

#### This arthritic patient is flying his pigeons again

## (ibuprofen)

The incident recreated here is taken from an actual report of the results achieved with Brufen. Many such reports about Brufen have been received, and provide convincing evidence of the very real benefits which this highly effective antirheumatic agent can bring to the arthritic.

To those restricted by an arthritic condition. Brufen means the freedom of reduced stiffness,

improved joint flexion and an extended range of pain-free movement. There is also a remarkable freedom from adverse effects, and Brufen is so well tolerated by the gastro-intestinal tract that the first dose of each day can be taken on an empty stomach, as soon as the patient is awake.

Brufen is ibuprofen, the first non-steroidal antirheumatic agent evolved entirely by British research.

### BRUFEN PREEDOM FOR THE ARTHRITIC

## Children, acceptability and Penbritin.

Penbritin syrup is formulated with children in mind. Its pleasant fruit flavour encourages them to take it happily until the prescribed course of treatment is completed.

Penbritin syrup forte offers the same benefits but is a double strength syrup, making it ideal for more severe infections.

Penbritin scored paediatric tablets are available for the child who is reluctant to take a spoonful of medicine. They are easily swallowed or may be crushed to mix with something he likes.

Penbritin is an ideal children's antibiotic whichever presentation you prescribe.

Full information is available on request.

## Inderal-80 brings new stability to the hypertensive patient

Smooth and gradual reduction of blood pressure. No postural or exercise hypotension. Round-the-clock control of blood pressure, even whilst supine. Effective in renal and essential hypertension. Minimal side effects.

#### Inderal-80

#### Prescribing information

#### Dosage

The optimum maintenance dose of 'Inderal'-80 is in the range 20-240 mg. four times daily. Most patients can be maintained in normotension with 80 mg. or less, four times daily.

The starting dose is 20 mg. four times daily, taken before food. Increments of 20 mg. four times daily can be made at each visit—usually weekly or fortnightly during the stabilisation period—until a satisfactory reduction in blood pressure has been achieved. One of the pharmacological effects of 'Inderal' is to reduce the pulse rate. Dosage can be increased incrementally until either the blood pressure falls to the desired level or the heart rate falls to 55-60 beats per minute.

The anti-hypertensive effect of 'Inderal'-80 develops gradually and if control still seems inadequate at a dose of 80 mg. four times daily, further increments should be withheld for one month in case response is delayed. Thereafter further increases may still be necessary. Slightly subnormal blood pressure, with dizziness and weakness, is an indication that the optimum dose has been exceeded. Whilst small excesses should be corrected, they are not likely to cause acute hypotensive episodes.

#### Concomitant therapy

The addition of a thiazide diuretic (plus potassium) to the regimen may be advantageous, since this enhances the effect of 'Inderal' and may permit some reduction in dosage.

When a patient is being transferred from a sympatholytic drug to 'Inderal', dosage of the former is cautiously reduced whilst that of 'Inderal' is gradually increased as already described.

#### Contraindications

'Inderal' is contraindicated in heart block and in patients with a history of bronchospasm. It is also contraindicated after prolonged fasting and in diabetic ketoacidosis or metabolic acidosis.

#### **Precautions**

Patients with overt or incipient cardiac failure depend on uninhibited sympathetic drive for the maintenance of cardiac contractility. These patients should not be given 'Inderal' unless cardiac contractility is maintained with digitalis and/or diuretics and symptoms fully controlled.

#### Pregnancy

There is no evidence of teratogenicity with 'Inderal', but like all other drugs it should be avoided in pregnancy unless its use is essential.

#### Adverse reactions

'Inderal' is usually well tolerated. Minor side effects such as nausea, insomnia, lassitude and diarrhoea are transient or may be avoided by gradual introduction of treatment. Isolated cases of purpura, erythematous rash and paraesthesia of the hands have been reported. In the rare event of idiosyncratic hypersensitivity to 'Inderal', with bradycardia and hypotension, the drug should be withdrawn.

#### Overdosage

Excessive bradycardia can be countered with atropine 1-2 mg. intravenously followed, if necessary, by a  $\beta$ -receptor stimulant such as isoprenaline 25  $\mu g$ . intravenously or orciprenaline 0.5 mg. intravenously.

#### **Presentation**

'Inderal'-80 (80 mg. tablets). Containers of 100 and 500. Also 'Inderal'-80 Starter Pack containing: 42 'Inderal' 40 mg. tablets. 42 'Inderal'-80, 80 mg. tablets.

# Less income tax and surtax now-more pension later!

Allowing for inflation, a doctor in a General Practice for 35 years may get about half his final income as a pension from the Superannuation Scheme. But is that sufficient to promise a carefree and comfortable retirement?

You could increase your pension by 50%-often more-with one of our Personal Pension Policies. In addition you receive full relief of income tax and surtax on the premiums you invest.

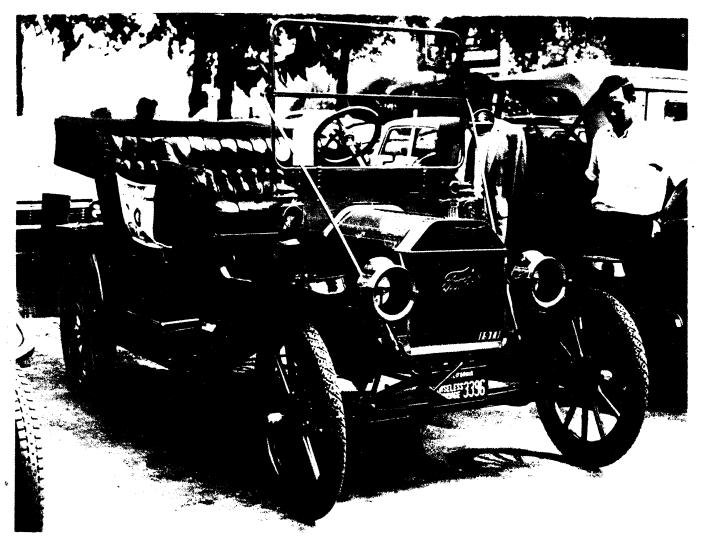

Bonuses declared every three years increase the pension. You are not committed to pay a fixed annual premium. You pay as you like in accordance with your earnings.

Should you die before pension age all payments are returned to your estate plus compound interest at 4%. You may take the pension at any age between 60 and 70.

For full details of these unique policies, specially designed for General Practitioners, write for details quoting ref. No. 5003.

(H6931)-18

### MEDICAL ADVISORY SERVICE

The Guinness Pharmaceutical Group is expanding its Medical Advisory team and invites applications from registered medical practitioners aged 28-40 for a new position on its Headquarters staff.

The successful candidate, who should preferably be able to offer previous experience in the pharmaceutical industry, will assist the Company's Senior Medical Adviser in clinical investigations of new drugs and, in addition to maintaining contact with other clinical and research centres, will advise the Company's Sales and Research staff in the development of new products.

Excellent conditions of service are offered for this appointment which will be based at Basingstoke and will include a Company car and contributory Pension and Life Assurance Scheme. The progressive salary scale offered will reflect the importance the Company attaches to this appointment.

Applications giving full details of qualifications and experience should be addressed to Personnel Officer, Twyford Laboratories Ltd., Elveden Road, London, N.W.10.

### Clinical Research

Our Clinical Research Division is responsible for initiating and organising clinical studies of new products in development, including their clinical trials overseas. Owing to the rapid expansion of our overseas interests we are seeking two additional medical practitioners to assist in the planning and administration of clinical investigations in many parts of the world, and the collation of clinical data for overseas registration. This work is interesting from both a scientific and clinical viewpoint. Both doctors will be based at the Group's Headquarters in London, but some travel will be involved.

Previous experience of similar work in the pharmaceutical industry is desirable but not essential, and a higher medical qualification or research experience would be an advantage. Similarly, a knowledge of languages would be helpful.

The preferred age would be 30 to 40. There are excellent conditions of employment, including a generous pension scheme and the use of a company car.

For further particulars and an application form, please write quoting reference AM.86, to the Senior Personnel Officer.

The Wellcome Foundation Limited,

183 Euston Road, London N.W.1.

COMMERCIAL APPOINTMENTS see also p. xxx

### **Medical Advisers** in the Pharmaceutical Industry

Young doctors with a special interest in clinical pharmacology and the scientific appraisal of new drugs are needed to join the therapeutic research team of a pharmaceutical company which has a long and successful history of product research and which produces and sells a wide range of well-accepted products in the U.K. and overseas. It is supported by substantial research and development facilities in Europe as well as in this country.

The Company is particularly interested in finding men or women who have completed three years' general professional training at Registrar or equivalent level and are seeking a financially and intellectually rewarding vocation of increasing importance and influence.

Close collaboration with scientist colleagues and with clinical investigators in the U.K. and overseas is an essential feature of the work of these doctors.

Knowledge of a foreign language, particularly French or German, is an advantage.

Excellent conditions of work and remuneration will be offered.

For detailed information, interested doctors are invited to write, giving a detailed cirriculum vitae to:—

The Head of Personnel Division, May & Baker Ltd., Dagenham, Essex, **RM107XS**

The posts are superannuable and subject to satisfactory medical examination. A car is essential and the mileage allowances laid down by the County Council will apply.

Five-day week; Mortgage facilities or housing available; Removal expenses scheme. Application forms from the undersigned should be returned within fourteen days from the appearance of this advertisement. Ian V. Paterson, County Clerk, County Buildings.

### **GOVERNMENTAL**

### BOROUGH OF SUTTON COLDFIELD

SENIOR MEDICAL OFFICER

Applicants must be registered practitioners. Salary £2,730 x 70(4)=£3,010, commencing salary according to qualifications and experience. Car allowance of £200 per annum. Sutton Coldfield, with a population of \$2,000, exercises delegated powers for health and welfare and is also an excepted district under the Education Act, 1944. The post, therefore, offers the opportunity of work in all aspects of public health.

Further particulars and conditions of appointment may be obtained from the Medical Officer of Health, Health Department, 66 Anchorage Road, Sutton Coldfield. Warwickshire.

J. P. Holden, Town Clerk, Council House, Sutton Coldfield. (28075)

### KINGSTON UPON HULL CORPORATION

### ASSISTANT SENIOR MEDICAL OFFICER

Applications are invited from registered medical practitioners holding the Diploma in Public Health for the appointment of Assistant Senior Medical Officer for general duties within the Health Department, the School Health Service and the Hull and Goole Port Health Authority. Salary scale 22.170 to £2.705. In addition an honorarium of £100 per annum will be paid in respect of Port Health duties outside of normal working hours. An essential user car allowance will be granted and consideration given to assistance with removal expenses. Particulars of the appointment and forms of application may be obtained from the Medical Officer of Health, Guildhall, Kingston upon Hull. (27954).

### ADMINISTRATIVE see also p. xliv

### MEDICAL RESEARCH COUNCIL

### Vacancy for a Medical Graduate interested in the administration of research

If you are a Medical Graduate, preferably aged under 38 with at least five years' postgraduate experience and an interest in research, there is a particularly interesting administrative appointment available with the Medical Research Council in London.

The Council is the main Government agency responsible for the promotion of medical research and sponsors an extensive programme both at home and abroad. The position offers an excellent opportunity to keep in touch with the latest developments in medicine and the biological sciences. The work involves maintaining close liaison with scientific staff and others in the medical research field and covers such activities as the administration of research grants, fellowships and training awards for the support of research in universities, hospitals and other institutions.

Salary will be in the range £2,735-£4,092 per annum, rising subsequently to £4,620 per annum, with provision for superannuation. The appointment will be to the Council's established staff, subject to satisfactory completion of a probationary period of two years.

Write, with full personal and career details and the name and address of two professional referees, to Mr. D. Langrish, Medical Research Council, 20 Park Crescent, London, WIN 4AL, quoting reference E2/552 on or before 16 March, 1970. (28148-54) reference E2/552 on or before 16 March, 1970.

Closing date for formal applications 2nd March.

### RE-ADVERTISEMENT

NORTHAMPTONSHIRE COUNTY COUNCIL **HEALTH DEPARTMENT** 

### SENIOR MEDICAL **OFFICER**

This post should be attractive to those interested in administration, and it also provides many opportunities for research. It carries responsibility for the Adult Health Division of the Department and for the supervision of the Department of Social and Preventive Medicine at Kettering General Hospital. The implementation of family planning schemes, the rehabilitation of patients, and the development of screening programmes through general practice, will be of particular concern to the person appointed.

There will be an opportunity to participate in the planning of health centres, which are being developed throughout the County. Many links have been developed with general practitioners and with the hospital service in the area, in which the population is undergoing rapid expansion, and the person appointed will be expected to assist in the maintenance of these links and the establishment of others.

Salary within the scale £2,610-£3,165 per annum. There is a grant of 50% of the cost of removal expenses, not exceeding £50.

Further details will be sent on request.

Applications, giving details of age, qualifications and experience and the names of three referees, should be sent by 21 March, 1970 to:-

Dr. W. J. McQuillan, County Medical Officer of Health, County Hall, Guildhall Road, Northampton, NNI IDX

O. MEURIG JONES Clerk of the County Council.

### DEPARTMENT OF PHYSIOLOGY

Applications are invited for appointment to the position of Senior Teaching Fellow or Teaching Fellow in the Department of Physiology. Teaching Fellow or Teaching Fellow in the Department of Physiology. The department teaches courses in Physiology and Pharmacology for the degrees of B.Sc., B.Sc. (Hons) and M.B., B.S., and accepts post-graduate students for the degrees of M.Sc., and Ph.D. Principal research interests are: brain function and ultrastructure, including learning mechanisms, the physiology of sense organs and their central pathways, spinal reflex mechanisms and control of movement by the brain, the biophysics and pharmacology of central and peripheral synapses and of smooth and cardiac muscle; endocrine and circulatory physiological control mechanisms. Increasing attention is being paid to the correlation of ultrastructure with physiological findings, and computer analysis of experimental data.

**Salary Ranges:** Senior Teaching Fellow: \$A4,390-\$5,290 p.a. Teaching Fellow \$A3,600-\$4,275 p.a.

Benefits: Travelling expenses for appointee and family; removal allowance, initial subsidised housing; repatriation after three years' appointment if desired.

Further general information including details of application procedure is available from the Academic Registrar, Monash University, Wellington Road, Clayton, Victoria 3168, Australia, or the Secretary-General, Association of Commonwealth Universities (Appts.), 36 Gordon Square, London W.C.1. Information concerning research and teaching programmes may be obtained from Professor A. K. McIntyre, in the University.

Closing date for applications: March 16, 1970.

The University reserves the right to make no appointment, or to appoint by invitation. (15079) 61-1

### Doctors ~ Go South to the Sun Salary £5,000 to £6,500

There are great new opportunities in the sunny lands of North Africa. In Libya, where oil is a big, booming and progressive industry, much of the skilled work is carried out by technical and professional people from the U.K. and overseas. It is essential that their medical needs as well as those of others are well catered for by qualified doctors and medical staff.

Several vacancies exist in Libya for doctors at varying levels of seniority, fully registered to practise in Britain, ideally with experience in casualty and general practice. Their duties would be to assist the Medical Directors setting up and supplementing the medical services at field and terminal camps and for the care of base personnel and families; supervision of camp hygiene; medical examination of recruits and any follow-up examinations and maintenance of immunization schedules.

There is time for study and to explore ancient civilizations.

The above gross salaries include Overseas Premium and cost of living subsidies. In addition, there are Educational and Medical Assistance Plans, shipment of personal effects and paid annual vacation with transportation.

Please TELEPHONE or write for a qualification record, quoting reference number BMJ/25 to:

ST. ANDREW'S HOSPITAL

NORTHAMPTON

Medical Director:

James Harper, M.B., F.R.C.P.(Edin.), D.P.M.

St. Andrew's Hospital is a private psychiatric hospital situated in 130 acres of parkland in the county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds, which is equipped for the investigation and treatment of all forms of mental and nervous illness. In addition, there is accommodation, mainly in private rooms, both in the main hospital and in various villas, for longer stay patients and geriatric patients.

The hospital's amenities include Gloucester House, which comprises an occupational therapy department, a swimming-pool, a squash court and library, while in the golf course, etcennis courts, a nine-hole present of the course, etcennis courts, a nine-hole present of the course, etc. And subscribers to private medical insurance schemes, such as British United Provident Association and Private Patients Plan, may claim benefit in respect of these charges.

Further particulars may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel.: Northampton 34354), who can be seen in consultation by appointment, either at the hospital or at 55 Harley Street, London W.i.

# WHAT'S BEHIND THE MOUNTING CLINICAL EVIDENCE FOR INTAL CO?

# ...a happier life for the

Reduced chest tightness, cough, sputum production, reduced incidence of acute asthmatic attacks, and improved exercise tolerance—all factors which make for a happier and more normal life—these are the benefits that INTAL COMPOUND brings to many asthmatic patients.

Essentially a prophylactic, INTAL COMPOUND is based on disodium cromoglycate—a drug that differs in mode of action from bronchodilators, corticosteroids, and antihistamines. As well as providing both objective and subjective improvement, INTAL COMPOUND often allows significant reduction in bronchodilator and steroid dosages.

In a period of just over a year since its introduction, numerous clinical reports have demonstrated the efficacy of disodium cromoglycate in the prophylactic management of allergic bronchial asthma.

'. . . some patients, particularly young, clearly allergic subjects, respond dramatically to the drug . . .' Medicine Today, *Brit med J*, 1968. 3, 172

'In the case of patients with seasonal asthma, it is reasonable to prescribe it for the duration of the time during which they are usually subject to asthma. Patients who are allergic to grass pollens have a two or three months' season lasting from May to July.' Current Medicine and Drugs, 1968, 9, 3

'The number of doses (of bronchodilators) inhaled was reduced from an average of 30 a patient during the placebo period to 13 during the active period.' Brit med J, 1968, 2, 340 'A significant reduction in steroid requirements as well as other forms of routine therapy was observed during treatment with disodium cromoglycate.' *Practitioner*, 1968, 201, 915
