Why upper respiratory infections are Penbritin Territory

Penbritin offers you broad-spectrum activity with the safety of a penicillin. This extra activity is useful because certain Gram-negative organisms, for example *H. influenzæ*, are beyond the range of traditional penicillins and may prove troublesome.

Unlike some broad-spectrums such as tetracyclines which merely inhibit organisms, Penbritin destroys bacteria and minimises the risk of relapse or complications. Also many respiratory bacteria have now become resistant to the tetracyclines. No such problem has arisen with Penbritin after more than eight years of clinical use.

Toxicity and side-effects (such as tooth staining) are further factors which limit the usefulness of some antibiotics. However, Penbritin is a penicillin and can confidently be prescribed for children, for neonates and in pregnancy. More than 1,600 published references have demonstrated its lack of toxicity for all age-groups.

Penbritin is available in highly acceptable presentations – capsules, tablets and syrups. This acceptability encourages patients to finish the prescribed course of treatment, even when the symptoms have gone.

Full information is available on request.

precision-release of the right iron in the right place

Limit of iron absorption extends from duodenum to upper small intestine only ('Slow-Fe' is designed to release iron in this area)

'Slow-Fe' tablets contain 160mg dried ferrous sulphate (\equiv 50mg Fe) in a specially formulated slow-release tablet base

Prescribe in units of 30. Basic NHS price 30: 4/6 to 5/- from larger dispensing packs

'Slow-Fe' and 'Slow-K' are trademarks. Detailed information on this new product is available on request. CIBA Laboratories Limited, Horsham, Sussex.

DOCTOR, WILL PROBABLY SUFFER FROM URINARY FREQUENCY...

It is a statistical fact that urinary frequency, the bane of old age, awaits the majority of us.

"Nocturnal frequency of micturition is present in 64% of the total elderly population (70% of males and 61% of females of 65 years and over).

The results of a recent double-blind crossover trial of Cetiprin suggest that "the drug may alter the established habit of rising at night to pass urine". 2 Cetiprin blocks the innervation and increases bladder capacity but as frequency of urination may have become established as a habit as well as a physiological weakness, it is wise to persist with treatment for at least 14 to 21 days. Improvement in the patient's condition is manifested by the enjoyment of uninterrupted sleep and a new feeling of physical and mental well-being.

Dosage:

Adults and Geriatric patients:

- 1. Nightly tenesmus: 100 mg at bedtime. In chronic cases it may be necessary to use 200 mg and reduce the dose when control is established.
- 2. Urinary frequency and severe incontinence in old people: 100-200 mg three times daily.

Contraindications:

Large residual urine retention; glaucoma; gastric retention. Rarely, dryness of the mouth is an unwanted effect.

If you need FINANCE to buy a caravan or a car—or even house or surgery improvements or equipment—we will be pleased to help.

Just write to or telephone:

Outdoor Life . . .

People are more conscious than ever of the need to get completely away from responsibilities that weigh heavily upon them during the year, particularly doctors if it has been a prolonged winter. A break of three or four weeks does enable one to forget the flow of bills and the everringing telephone.

It is no new experience for a doctor to be worried by a telephone call at a holiday address, but the chances of anyone catching up with him on a caravan holiday are extremely remote, unless he wants it otherwise. If you are new to this form of holiday it is always a good idea to hire for the first year so that you can assess whether you and your family like this carefree type of vacation. There are many caravan parks and dealers who specialise in hiring and are naturally willing to give you all the help and advice you need. Anyone set on buying a "van" will get the best out of it by following these simple rules:

- (1) Buy from a well-established dealer and preferably one who is able to carry out on-the-spot repairs for the manufacturer.
- (2) Buy a well-established make.
- (3) Have a good look round the van and underneath to ensure that it did not sustain any dents or scratches on the transporter from the factory and that the chassis is free from rust.
- (4) Choose a van whose delivered weight is well within 75% of the kerbside weight of the car.

These suggestions refer equally to the choice of a motor caravan.

It is an excellent idea as well, once you have bought your van, to join a club as the help and assistance it can give you is considerable. Of

particular value are the lists of approved sites in this country or overseas and their guidance on the selection of routes suitable to your caravan and car.

There are various forms of outdoor life and all have their enthusiasts who take advantage of their holidays. In the boot of many cars being driven down to the sea or into the country will be found

CHEDDAR GORGE

a bag of golf clubs or perhaps binoculars, charts and a "sailor's" bag! Open a suitcase and you could find jodhpurs or riding breeches. These last items are particularly favoured these days as riding, either hacking or pony trekking, is such a lovely way of enjoying the hills and valleys or rolling downs in peace and quiet away from the crowds and traffic fumes. There are many centres that cater extremely well for this type of holiday, which apart from giving healthy exercise to the parents, is an education as well as a pleasure for children.

Undoubtedly many doctors will be found sailing round the coast or across to the Continent, Alderney, Guernsey, or Jersey, either in their own yachts or ones that they have chartered. From many of the yachting centres it is possible to charter boats of varying sizes and at various prices ranging from about £35 upwards per week according to the size of the boats and the season. In a number of cases tuition can be given and seamanship and navigation courses arranged. Costs range from £25 per person for five days which includes using the yacht for sleeping accommodation. Dinghy courses do not include this facility but in some cases there are arrangements made with local hotels.

a new, quick-acting disintegrating agent for the tableting industry.

PRIMOJEL, one of the newest developments from the SCHOLTEN laboratories, is a disintegrating agent for the pharmaceutical tableting industry, possessing a very active effect.

PRIMOJEL is a low-substituted carboxymethyl-starch which dissolves particularly quickly in water. As a result of this unique property, the cohesion of a tablet in which PRIMOJEL has been incorporated is quickly and completely destroyed when brought into contact with water. An addition of only a small percentage of PRIMOJEL to the granulate confers, in most cases, a remarkable reduction in the disintegration time. A further important point is that prolonged storage of the tablets does not affect the activity of the PRIMOJEL.

Further information, samples or technical literature are available on request.

No one could have you struck off,

You have never made an error of diagnosis or prescription, never disregarded ethical standards, and have never been accused of any of these.

But what would you do if you were?

In answer to this question Dr. J. Leahy Taylor, Deputy Secretary of the Medical Protection Society, has distilled his knowledge and experience into this invaluable text. It is, as Professor Keith Simpson says, "a vade-mecum of advice" on every principle and practice of the law governing the medical profession from registration to the dreadful possibility of appearance before the General Medical Council.

Scientific Foundations of Obstetrics & Gynaecology

Edited by

Elliot E. Philipp, M.A., M.B., B.Ch., F.R.C.S., F.R.C.O.G., Josephine Barnes, M.A., D.M., F.R.C.P., F,R.C.S., F.R.C.O.G., and Michael Newton, M.A., M.B., B.Ch., M.D., F.A.C.S., F.A.C.O.G.

The editors, three world famous specialists, have asked a multitude of contributors from many countries to write on the basic scientific information on which the clinical practice of obstetrics and gynaecology depends.

Each chapter contains the background material for understanding current advances, and while the emphasis is upon basic scientific data it has been related to current practice. This companion volume to Scientific Foundations of Surgery will be of immense value to all candidates for membership of the Royal College of Obstetricians and Gynaecologists.

WHAT'S BEHIND THE MOUNTING CLINICAL EVIDENCE FOR INTAL CO?

...a happier life for the

Reduced chest tightness, cough, sputum production, reduced incidence of acute asthmatic attacks, and improved exercise tolerance—all factors which make for a happier and more normal life—these are the benefits that INTAL COMPOUND brings to many asthmatic patients.

Essentially a prophylactic, INTAL COMPOUND is based on disodium cromoglycate—a drug that differs in mode of action from bronchodilators, corticosteroids, and antihistamines. As well as providing both objective and subjective improvement, INTAL COMPOUND often allows significant reduction in bronchodilator and steroid dosages.

In a period of just over a year since its introduction, numerous clinical reports have demonstrated the efficacy of disodium cromoglycate in the prophylactic management of allergic bronchial asthma.

'. . . some patients, particularly young, clearly allergic subjects, respond dramatically to the drug . . .' Medicine Today, Brit med J, 1968.

'In the case of patients with seasonal asthma, it is reasonable to prescribe it for the duration of the time during which they are usually subject to asthma. Patients who are allergic to grass pollens have a two or three months' season lasting from May to July.' Current Medicine and Drugs, 1968, 9, 3

'The number of doses (of bronchodilators) inhaled was reduced from an average of 30 a patient during the placebo period to 13 during the active period.' Brit med J, 1968, 2, 340

'A significant reduction in steroid requirements as well as other forms of routine therapy was observed during treatment with disodium cromoglycate.' *Practitioner*, 1968, 201, 915

Betnovate

Betnovate Cream and Ointment Use Betnovate Cream for moist, weeping dermatoses and Ointment for dry, scaling dermatoses

A simple case for low-cost **Betnovate Ointment**

Left: atopic dermatitis on hand of professional gardener

Right: after four weeks' treatment with Betnovate Ointment. Polythene occlusion at night, cotton gloves while working

Betnovate Cream and Ointment (0.1% betamethasone as Also available: Betnovate Lotion; Betnovate Scalp Application;
Betnovate Rectal Ointment and Betnovate Compound
Suppositories; Betnovate-N Cream, Ointment, Lotion and Tulle; Betnovate-C Cream and Ointment; Betnovate-A Ointment.

Indications
All steroid-responsive dermatoses.

Application

Apply a small quantity once or twice daily.

Adverse reactions

Betnovate preparations are usually tolerated well but if signs of hypersensitivity appear, application should be stopped immediately. As with all topical corticosteroids, if Betnovate is used with occlusive dressings on extensive areas, or for prolonged periods, the possibility of systemic absorption should be considered.

Absorption is more likely in infants and children, and may occur

Fats in a healthy diet

Diet is believed to be one of a number of important factors contributing to coronary disease. Fats, particularly animal fats, are one of the critical diet factors in this respect.

A doctor may therefore wish to recommend changes to help correct the balance of the diet. It is thought that not more than 40% of calorie intake should be in the form of fats, and that the highest possible proportion of these fats should be polyunsaturated.

The earlier in life such a diet is begun, the more beneficial

it is thought to be.

The pure, selected vegetable oils in Flora margarine give it a very high content of polyunsaturates which fit it admirably to a regime of this character. And the very acceptable palatability of New, soft Flora makes it a part of the diet that is easy to keep to.

*NEW, SOFTER FLORA

*New Flora vegetable oil margarine contains 50% of polyunsaturates (natural cis-cis linoleic), ratio of polyunsaturates to saturates 2:1.

Broxil works. In practice, patients do seem to get better quicker with Broxil. Broxil has an excellent safety record. All you ever need do is take the normal penicillin precautions.

For ENT, upper respiratory tract, skin and soft tissue infections, Broxil has an outstanding record for effectiveness over ten years of practice.

Broxil works in practice

MINILYN

is the new low-dose oral contraceptive from Organon. It contains only 50 micrograms of ethinyloestradiol and 2.5 mg of lynestrenol. Change to Minilyn means change to a balanced lowdose oral contraceptive.

Further information and samples will be sent at your request.

more efficient dose-absorption little risk of gastric upset convenient once-daily dosage taken at any time of the day

Ventolin is more selective

"... inhaled salbutamol (Ventolin) in a dose of 400 μg produced no detectable change in the heart rate or blood pressure. Isoprenaline 200 μg on the other hand, had a marked effect on both. Inhaled orciprenaline 2400 μg had effects intermediate between those of salbutamol and isoprenaline".

Brit.J.Dis.Chest (1969) 63, 165.

Ventolin is more effective

"In asthmatic patients 200 µg of salbutamol (Ventolin) by inhalation was significantly more effective than 1500 µg of orciprenaline sulphate in improving ventilatory function"

Brit.J.Dis.Chest (1969) 63, 165.

Ventolin is longer acting

"The bronchodilatation produced by salbutamol (Ventolin) was much more prolonged than that produced by isoprenaline, and was well sustained for three hours. Even at five hours after salbutamol the mean FEV₁ was still 26% above the control value, as compared with figures of 8% for isoprenaline, 19% for orciprenaline and 6% for placebo"

Brit.med.J. (1969) 2, 287.

Ventolin is more acceptable to patients

In a clinical assessment comparing Ventolin with orciprenaline, 25 of the 37 patients preferred Ventolin, 5 preferred orciprenaline and 7 had no preference.

Brit.med.J. (1969) 3, 174

With a faecal softener to prepare the way, and just a small dose of peristaltic stimulant completing evacuation, Dorbanex avoids the problems of conventional laxative treatment. What difference does the faecal softener make to treatment? A soft but formed stool; the restoration of faecal bulk to normal; non-oily lubrication of the gut contents. By this comprehensive approach, Dorbanex provides easier and more predictable evacuation than conventional laxatives, reduces the need for enemas and suppositories, minimises the risk of straining at stool or faecal impaction, lessens apprehension about answering the call to stool, helps to break the laxative habit, gently restores neuromuscular sensitivity, and simplifies patient management.

Available in three forms to treat constipation in any patient of any age, Dorbanex provides the prospect of successful treatment that avoids the problems of conventional laxative therapy.

Dorbanex Capsules:

each capsules: each capsule contains 1:8-dihydroxyanthra-quinone 25 mg., poloxalkol 200 mg. **Dosage:** Adults, one or two capsules. Children, one capsule. Before or after surgery: two to four capsules. Treatment should be taken at bedtime.

Dorbanex Forte: each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone, 75 mg., poloxalkol 1000 mg. Dosage: One teaspoonful or as directed by the physician. Treatment should be taken at bedtime.

Dorbanex Liquid:
each 5 ml. teaspoonful contains 1:8-dihydroxyanthraquinone 25 mg. poloxalkol 200
mg. Dosage: Adults, one or two teaspoonfuls. Children, half to one teaspoonful, as required. Before or after surgery two to four teaspoonfuls. Treatment should be taken at bedtime.

Contra-indications In common with other gastro-intestinal evacuants, Dorbanex should not be given when acute, painful conditions of the abdomen are present, or the cause of constipation is suspected to be obstruction of the small or large intestine. Side-effects Dihydroxyanthraquinone may cause a temporary harmless, pink or red colouring of the urine and, in prolonged use or high dosage, of the mucosa of the large intestine. Doses larger than two teaspoonfuls may cause slight gastro-intestinal discomfort in a few patients. Basic NHS Prices Dorbanex Capsules: bottles of 30 capsules 78/-; Dorbanex Liquid: bottles of 60 ml. 4/-; bottles of 500 ml. 30/-; Dorbanex Forte: bottles of 60 ml. 6/-; bottles of 500 ml. 45/-.

Riker Laboratories Loughborough Leicestershire \ Riker

"I took all the tablets, doctor.

Honestly."

Someone once remarked that politics is too important a matter to be left in the hands of politicians. A similar case can be made against leaving the treatment of the elderly and the debilitated to the patients themselves.

Such patients are often confused, forgetful, sometimes just plain cussed. They forget their tablets, take them erratically. Store them. Throw them away. Lose them. Take a few, feel better and give up*. With the result that they're soon back knocking on your surgery door.

When the treatment remains in *your* hands and you give one injection of the anabolic agent, Deca-Durabolin, you have 100% certainty of administration. 100% certainty that day-in, day-out for 3 to 4 weeks the patient is being progressively restored to physical fitness.

A single injection of Deca-Durabolin gives complete control of treatment . . . with no wastage !

One 25 mg. i/m injection of Deca-Durabolin:
Reinforces specific therapy
Restores positive nitrogen balance
Reduces calcium loss
Builds bodily resistance
Improves appetite, weight and well-being
Composition: Nandrolone decanoate.
Contraindications: Pregnancy; prostatic carcinoma.
Side-effects: Normally none at recommended dose levels. Slight virilisation may occur in exceptionally sensitive individuals.

Packs: 25 mg or 50 mg per ml. :-

1 ml ampoules in 3's and 25's. 1 ml Orgaject disposable syringes in 1's and 25's.

*"Socially isolated patients and those of low social class (are) particularly likely to neglect their drugs... Three articles from the United States have testified to the alarming extent geriatric patients fail to understand and observe instructions".

"Every patient is a potential defaulter. Compliance can never be assumed".

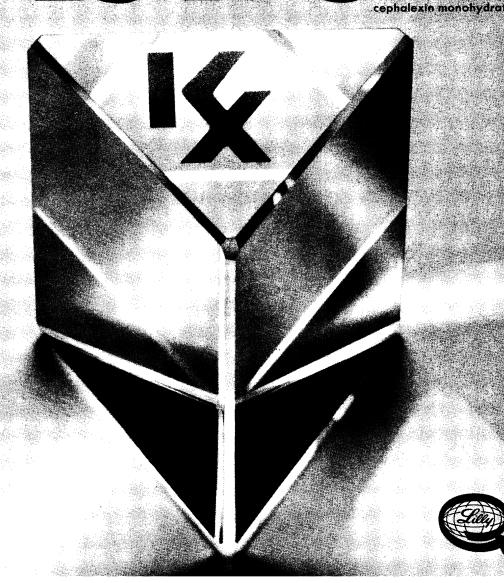

Brit. med. J. (1969) 1, 218

In debility inject the certainty of **Deca-Durabolin**

British Medical Journal, March 7, 1970 Cephalexin monohydrate

A broad spectrum for UTI

Clinical reports show that a satisfactory clinical response is obtained in 93% of patients with acute infections and 80% of patients with chronic infections due to frequently encountered urinary pathogens such as E. coli, Proteus mirabilis, and Klebsiella.

The usual adult dose is 250 mg every six hours. For more severe infections or those caused by less susceptible organisms, 500 mg every six hours may be needed. In appropriate cases up to 4G per day may be given.

Precautions Any patient who has demonstrated some form of allergy, particularly to drugs, should receive anti-biotics, including cephalexin, cautiously and then only when necessary. If severe reaction, individual idio-syncrasy, or allergy should occur, treatment should discontinued.

The safety of cephalexin for use in processey has not been established.

In patients being tracked with a balexin, a passed on security of Rehalog's solution or with copper aphate test tablets.

The name front was mild diarrhoea reported in slightly of 1230 patients studied. Note that I per cent skin to

A broad spectrum for bronchitis

In this condition where the infection is frequently of mixed aetiology, 'Keflex' clears purulent sputum and clinical improvement has been shown in over 90% of patients studied. Susceptible organisms include Haemophilus influenzae, Streptococcus pneumoniae, and Staphylococcus aureus.

spectrum antibiotic

A broad spectrum for throat and ear infections

The spectrum of 'Keflex' covers the most common pathogens in throat and ear infections, and produced a good clinical response in **97**% of infections the majority of which were due to streptococci.

Bactericidal action Rapidly absorbed Well tolerated

Eliminate the risk of maternal rubella

Rubella is now universally acknowledged as a major threat to women because of its disastrous consequences in pregnancy. The sequelae of maternal rubella include foetal death, eye defects, cardiac anomalies, hearing loss, and mental retardation.

The only sure defence is active immunity. 'Cendevax', the first rubella vaccine, now makes this possible.

A single dose of 'Cendevax' provides safe, effective protection. World-wide trials in over 100,000 subjects have produced sero-conversion rates of 95 to 100 per cent, and controlled studies have shown that vaccinated subjects do not transmit infection to susceptible contacts. Side effects with 'Cendevax' are infrequent, mild and transient.

Safeguard with Cendevax Rubella Vaccine

Burroughs Wellcome & Co. (The Wellcome Foundation Ltd.) Dartford, Kent.

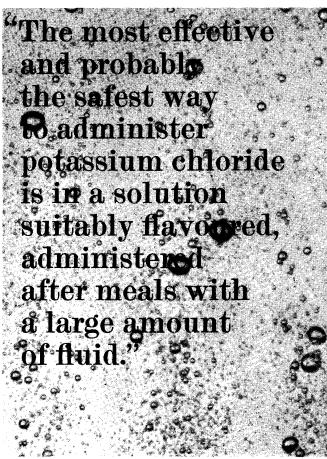

A common sequel to infection, prolonged illness or surgery is B vitamin deficiency—leading to debility. Rather than relying on a steady intake of low vitamin content, the situation calls for massive doses of the missing factors, leading to a prompt build up of reserves and a swift recovery.

In short, the situation calls for

OROVITE
Oral high potency vitamins B & C.

regd.

Tablets of potassium chloride (B.P., B.N.F.), dissolved in water are unpalatable and so irritating to the stomach that epigastric pain, nausea and vomiting preclude their use."2

'Enteric-coated tablets of potassium chloride may not disintegrate in the intestinal tract and may appear unchanged in the stool."3

"Enteric-coated tablets may cause intestinal ulceration and strictures."4

"Unfortunately most chloride preparations are unpalatable."5

Solid-dose potassium chloride, whether in special coatings or other time-release mechanisms, would still seem to suffer from certain disadvantages and risks, therefore it appears desirable to avoid solid-dose potassium chloride. Instead potassium and chloride can be given in a reasonably palatable, effervescent solution prepared from a tablet that does not contain solid potassium chloride. Kloref is unique in this respect.

The best one (potassium supplement) however may be an effervescent potassium chloride tablet (Kloref). The preparation is quite palatable.

'very dear reasons' for using Septrin in urinary tract infections

Abstracted from a Leading Article, Brit med J, (1969) 1, 525.†

- Trimethoprim not only attains therapeutic tissue levels, but is excreted unchanged in high concentration in the urine.
- All Gram-negative bacilli occurring in the urine, except Pseudomonas aeruginosa, are usually highly sensitive to it.
- Its minimum inhibitory concentration is extremely low.
- Trimethoprim and a sulphonamide, by blocking successive stages in the same bacterial metabolic process, exert a strong synergic effect, and this action is bactericidal.

These clinical trial results were obtained in treating hospital inpatients with U.T.I.

SEPTRIN 85% cure rate ampicillin 70% cure rate 40% cure rate sulphadimidine

40% cure rate sulpnadimidine (Cure criterion—eradication of the original organism 1 week after treatment). Brit med J, (1969) 1, 541.

SEPTRIN Tablets, SEPTRIN Paediatric Suspension and SEPTRIN Paediatric Tablets contain trimethoprim and sulphamethoxazole. Bull information is available on request. Burroughs Wellcome & Co., Dartford, Kent. (The Wellcome Foundation Ltd.)

Septrin-an advance on the antibiotics

IRON with all its advantages

"FOR CHILDREN a liquid preparation is best ... The syrup of ferrous sulphate plus amino-acetate ('Plesmet' syrup) seems to suit most children. The dose is 8ml. (2 teaspoonfuls) three times daily for a child over eight; half this dose for younger children".*

> *Progress in Clinical Medicine 4th Ed., 1961, p.163, Churchill, London. Brit. med. J. 1963, 2, 368.

The above is one of numerous clinical references to Plesmet, which is rapidly absorbed and utilized to provide an adequate increase in haemoglobin levels and is, moreover, economical in both dosage and cost.

SYRUP

Plesmet Syrup contains 25 mg. Fe. per teaspoonful. Bottles of 100 ml.—3/4d. and 1250 ml.—22/- (Basic N.H.S. cost)

(University of Wales)

DIPLOMA IN MEDICAL RADIOTHERAPY

The Welsh National School of Medicine has organised a full course of instruction leading to the D.M.R.T. of the Conjoint Board. The next course begins in October, 1970, and extends over a period of two years. A limited number of paid appointments are available for which candidates for the course may apply.

Further particulars may be obtained from the Academic Registrar, The Welsh National School of Medicine, 34 Newport Road, Cardiff, to whom applications should be submitted by the 14th March, 1970. (15489) 2

UNIVERSITY OF EXETER Postgraduate Medical Institute

UNIVERSITY OF EXETER
Postgraduate Medical Institute

A full-time postgraduate course lasting 10 weeks will begin on April 21, 1970. These courses are held 3 times a year starting in October, January and April. Each course included instructions in general medicine, paediatrics, preventive medicine, pathology, spychiatry, orthopaedics and general surgery. The programme is planned so that students wishing to specialise in a particular clinical subject are given facilities to do so, while other students are taught in each of the main clinical departments. Unpaid clinical attachments can be arranged at the end of the course for students requiring a longer period of training, but these are normally reserved for students sponsored by some official boatetimes possible to accept general practitioners for 1 or 2 weeks of a course, and attendance for this period is recognized under Section 63 of the Health Services and attendance for the process are also recognized under the special scheme for the retraining for general practice of doctors who have been out of the Health Service for at least 5 years.

The fee for this course will be £40 (£83 for students from outside the United Kingdom).

Further particulars and application forms for these courses are obtainable from the Director, The Postgraduate Medical Institute, The University, Exeter, Devonshire (14694).

ROCHE

BIOELECTRONICS MANAGER

As part of our planned expansion and diversification, we are establishing a Bioelectronics Department in our Head Office at the address below. To head this new department, we are seeking a man, probably in his thirties or early forties, who has good experience in medical instrumentation, preferably over a wide field. Preference will be given to a registered medical practitioner combining medical and technical interests. He will also have a good understanding of the commercial implications of all his

His task will be to build up and run this new department, set up to sell and service a wide range of medical electronic equipment in hospitals throughout the country. Based in London, he will travel as necessary in the United Kingdom. There will also be a short initial training period in Switzerland.

The conditions of service are those to be expected from a large international organisation.

Please write in confidence, quoting reference ZB, for further information and an application form, to the Head of Personnel at:

ROCHE PRODUCTS LIMITED
15 MANCHESTER SQUARE LONDON W1M 6AP

(15449)

COMMERCIAL APPOINTMENTS

SMITH & NEPHEW PHARMACEUTICALS LTD. SMITH & NEPHEW RESEARCH LTD.

Assistant physician

The Medical Department serving the two Companies is entering into a phase of planned expansion and has now reached one of the stages of recruiting a further physician. Applications are now invited for the new

Great emphasis is placed on the scientific basis of the work of the Department and candidates for this vacancy will require to have a scientific degree, such as a preclinical B.Sc., or be able to provide other evidence of familiarity with scientific method as well as a registerable medical qualification. Although the work mainly centres on the development of new drugs, the human aspects of adhesives and plastics technology and other research areas play a part.

Attendance at appropriate meetings and the submission of material for publication will be encouraged. Career prospects in the Industry are good. Travel, some of which may be abroad, will be necessary.

Candidates may be men or women - it is unlikely that anyone over 35 will be appointed. The salary, which will be negotiated, will be attractive and will depend on qualifications and ability. Previous experience in the Pharmaceutical Industry is unnecessary. Conditions of service are above average and a car will be provided.

Applications, in writing, including a curriculum vitae, should be addressed to:

The Medical Director SMITH & NEPHEW PHARMACEUTICALS LTD. Bessemer Road, Welwyn Garden City, Herts.

Members of the Smith & Nephew Associated Companies.

MEDICAL ADVISER

We need an additional Medical Adviser to join the Medical Services Department which forms part of our Research Division. The man appointed will work closely with members of the medical profession and our own scientists in organizing clinical trials on established and new products. A part time clinical appointment will be encouraged. The Research Division is based at Ware in Hertfordshire and applications are invited from registered medical practitioners aged between 28 and 40 with a good medical background and who have experience of or are interested in clinical investigation and therapeutics.

Initial salary will be negotiated and thereafter is subject to annual review. A car will be provided.

We are a member company of the Glaxo Group and offer good conditions of employment including a pension scheme and a bonus scheme based on the Group's profitability.

Applications should be made in writing, quoting reference no. AM.140, to the

Personnel Manager, Allen & Hanburys Ltd., Bethnal Green, London, E.2.

(15477)

REGIONAL BOARD = SHEFFIELD HOSPITAL

ASSISTANT SENIOR MEDICAL OFFICER (£3,000-£3,705) For Nottingham University Hospital and Medical School

For Nottingham deal School

The person appointed will join the team responsible for the planning and organization of the hospital and specialist services in the Nottingham area. This is a particularly challenging post in view of its association with the development of the above Hospital and Medical School.

It will provide wide experience in medical administration and opportunities for studies in medical care in collaboration with the University Department of Community Health. Although the Board's headquarters are in Sheffield, the appointee will be required to live in Nottingham in order to maintain a close working relationship with University and hospital staffs. Previous administrative experience within the National Health Service is essential.

Application, Fulwood House, Old Fulwood Road Staffield Slo 3TH; completed form to be eturned by March 26, 1970, quoting reference L.35500/1. (28647)

as well as orally

Clinicians often require a parenteral antibiotic in the treatment of severe staphylococcal infections. To meet this need LEO research over a three-year period has led to the development of Fucidin for intravenous infusion. This preparation widens the scope of Fucidin (sodium fusidate B.P.) which over the last seven years has been increasingly used as a potent *oral* antistaphylococcal agent.

Fucidin for intravenous infusion.

Presented in packs of 2 ampoules one of which contains 580 mg diethanolamine fusidate B.P.C. as a dry powder (equivalent to 500 mg sodium fusidate B.P.) and the other 50 ml sterile phosphate-citrate buffer.

Anglo American need a Locum Specialist Pathologist in Zambia

The Anglo American Corporation, (the world's largest mining group), need a Specialist Pathologist with higher qualifications and experience and interest in Histology and Cytology for an immediate locum tenens post in the Medical Department. The period of employment will be until mid-August this year.

The Pathologist will be retained by the Rhokana Corporation Limited at Kitwe and will be in general charge of the group's Pathological work on the Copperbelt of Zambia.

Remuneration will be an inclusive fee of

Kwacha 900 per month, which is equivalent to £525. Free accommodation will be provided, and return passage will be paid from the point of engagement to Kitwe and back. Transport will be provided for company business.

Make your application, stating age, qualifications, past experience and the names of two medical references, to:

International Appointments Division, Charter Consolidated Limited, Dept. A/8953/FF, 7 Rolls Buildings, London, E.C.4.

Uverseas Development

The provision of skilled manpower is a vital element in Britain's aid to the developing countries. Your professional skills will be welcome and you will have the satisfaction of doing a challenging responsible and worthwhile job. In addition to the emoluments quoted for the vacancies below there are usually substantial extra benefits, including terminal gratuities, family passages, paid leave, educational grants and free or subsidised accommodation. Employment will be on contract to the overseas government; in most cases superannuation rights can be preserved or maintained.

Candidates should be citizens of, and permanently resident in, the United Kingdom. They must possess medical qualifications and be eligible for full registration with the General Medical Council in the United Kingdom.

CONSULTANTS £3,946-4,791/Uganda

Post A: Consultant Physicians. For clinical duties in an up-country location, either Gulu, Fort Portal or Mbale. They will be expected to assist in the teaching of junior staff. They must possess the M.R.C.P. or equivalent, followed by 4 years' proven experience in a responsible position.

Post B: Consultant Nutritionist. To inaugurate a nutrition unit and to advise on all nutrition programmes, including hospitals, training institutions, schools and colleges. Based at Mulago Hospital, Kampala, which is the teaching hospital of Makerere Medical School, he will be expected to travel widely. He will work in close coordination with the Nutrition Rehabilitation Unit of the Department of Paediatrics and Child Health at the Medical School, with the Medical Research Council Children's Nutrition Research Unit and with the Nutrition Adviser to the Ministry of Education.

Both Posts: Emoluments quoted above include an inducement allowance, normally tax free, of £1,030-1,116. Contract 21-27 months.

MEDICAL OFFICER (Locum) £2,030-2,530 Falklands Islands

Required for general duties for six months commencing May, 1970. There will be opportunity for study, and for a visit to South America on the return passage.

For full time clinical duties, including curative, teaching and research activities, in the ear, nose and throat unit at Mulago Hospital, which is the national hospital of Uganda and the teaching hospital of Makerere Medical School. He must possess the F.R.C.S. and have experience in E.N.T.

Post B: Cardiothoracic Surgery. For full time clinical surgical duties at Mulago Hospital, including the teaching of medical students and junior medical staff. He must possess the F.R.C.S. and have experience in cardiographic surgery.

surgery. **Both Posts:** Emoluments quoted above include a tax free inducement allowance of £867-984. Contract 21-27 months.

SPECIALIST OPHTHALMOLOGIST £3,282/St. Lucia

He will be responsible for holding clinics and operating sessions at the Victoria Hospital, Castries (150 beds), and clinics at rural hospitals and health centres in the island. Diploma in ophthalmology or equivalent is essential Emoluments quoted above include an inducement allowance, enormally tax free, of £1,332 and a non-pensionable specialist allowance of £200. Private practice is permitted. In addition, a non-pensionable allowance, equal to 75% of fees paid into the public Treasury in respect of services rendered within the hospital, is payable. Contract 2-3 years.

SURGEON SPECIALIST £2,986/St. Kitts

To be responsible for all general surgical patients and for casualty cases at Joseph France General Hospital and for other duties as required by the Chief Medical Officer. He should be F.R.C.S. Empluments quoted above include an inducement allowance, normally tax free, of £1,236. In addition an allowance of £750 is payable in lieu of private practice. Contract 2-3 years.

CHIEF MEDICAL **OFFICER** £4,070/Virgin Islands

To administer and direct the medical and health services of the Islands. He must have experience in medical administration. Emoluments quoted above include an inducement allowance, normally tax free, of £1,320. Contract 2 years.

MEDICAL OFFICER £1716-1.966 Tristan da Cunha

To replace sole medical officer on isolated South Atlantic island of Tristan da Cunha. Knowledge of dentistry would be an advantage. In addition to the emoluments quoted above, a payment of £400 will be made to the officer while he is resident on the island. No income tax. Contract

GENERAL DUTY MEDICAL OFFICERS

Are required in Botswana, British Solomon Islands Protectorate, Dominica, Kenya, Malawi, Swaziland, Turks and Caicos Islands, Uganda, and Zambia. Salaries vary with local living costs, but with some exceptions range from £1,650-2,900. Appointments are normally on contract for 2-3 years.

MEDICAL OFFICERS (Pneumoconiosis) £2,686-3,664/Zambia

To carry out medical examinations at the Pneumoconiosis Medical and Research Bureau, Kitwe, and to perform any other medical duties as required by the director. They should, preferably, have experience in chest diseases. Emoluments quoted above include an inducement allowance, normally tax free, of £684-780. An allowance of £933 in lieu of private practice is also payable. Contract

TRAINING SCHEME FOR RECENTLY QUALIFIED **DOCTORS**

In return for an undertaking to serve for at least 2 years in the developing countries the Ministry offers a course of training to recently qualified doctors approaching completion of their pre-registration year. The scheme is designed to fit them for service overseas and is attractive professionally and financially. During the training period of 12-15 months the doctor will receive a retaining fee of £220 p.a. in addition to his hospital salary.

ST. ANDREW'S HOSPITAL NORTHAMPTON

NORTHAMPTON

Medical Director:

James Happer, M.B., F.R.C.P.(Edin.), D.P.M.
St. Andrew's Hospital is a private psychiatric hospital situated in 130 aeres of parkland in the county town of Northampton. In general, patients are admitted to Wantage House, a reception unit in the grounds, which is equipped for the investigation and treatment of all forms of mental and nervous illness. In addition, there is accommodation, which is equipped for the investigation and irreatment of all forms of mental and nervous illness. In addition, there is accommodation, hospital and amentities include Gloucester House, which comprises an occupational therapy department, a summing-pool, a squash court and library, while in the grounds there are tennis courts, a nine-hole golf course, etc.

Fees range from 25 guineas per week, and subscribers to private medical insurance schemes, such as British United Provident Association and Private Patients Plan, may claim benefit in respect of these charges.

Further particulars may be obtained from the Medical Director, St. Andrew's Hospital, Northampton (Tel.: Northampton 34354), who can be seen in consultation by appointment, either at the hospital or at 55 Harley Street, London W.1.

Micoren[®] Capsules have a definite place in the treatment of reduced ventilation in chronic bronchitis

Micoren ® Capsules by increasing the depth of respiration will

increase gaseous exchange

improve oxygenation

enable the patient to become more active

Availability

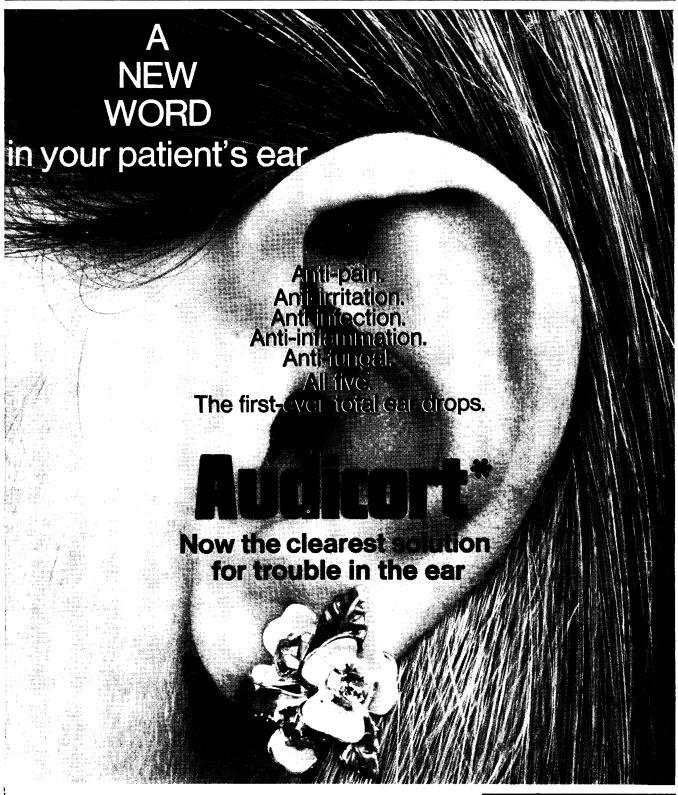

Micoren® Capsules 400 mg are available as N-crotonyl- α -ethylaminobutyric acid dimethylamide (Crotethamide) and N-crotonyl- α -propylaminobutyric acid dimethylamide (Cropropamide) in equal parts.

Micoren is also available as 200 mg Capsules and in ampoules for acute respiratory insufficiency.

Further information will be sent upon request.

Geigy

Geigy (U.K.) Limited Pharmaceuticals Division, Macclesfield, Cheshire.

5 ml dropper bottles; each ml contains: 1.0 mg triamcinolone acetonide, neomycin undecylenate equivalent to 3.5 mg neomycin base, benzocaine 50 mg.

LEDERLE LABORATORIES

A division of **Cyanamid** of Great Britain Ltd. Bush House Aldwych London W.C.2

New, potent, orally-active antibiotic

- ★ Readily accepted and well tolerated
- ★ Rapidsputumconversion
- ★ Simpleonce-dailydosage
- ★ No cross-resistance with other antibiotics
- ★ Very potent-bactericidal

Dosage: 450-600 mg, $\frac{1}{2}$ -hour before breakfast.

Side effects: Very rarely, nausea. Early in treatment transient slight alterations in liver function have been seen; eosinophilia of varying duration is found occasionally, and isolated low white cell counts—neither, apparently, of any significance. Contraindicated in jaundice or liver dysfunction, and in pregnancy.

Presentation: 150 mg and 300 mg capsules rifampicin (also known as rifampin and rifamycin AMP) in tins of 25 and 100. Basic NHS price 100 x 150 mg 305/7d. Detailed information on request.
